PREVENT SEWER BACKUPS THINK BEFORE YOU FLUSH

Only flush the 3 P's:

- 👍 Pee
- 👍 Poo
- 👍 Paper (toilet)

DO NOT FLUSH:

- 👎 Flushable Wipes
- 👎 Baby Wipes
- 👎 Facial Wipes
- 👎 Facial Tissue
- 👎 Paper Towels
- 👎 Household Chemicals
- 👎 Hygiene Products (Q-tips, floss, swabs)
- 👎 Sanitary Products
- 👎 Plastic/Latex Gloves
- 👎 Needles / Plastic bags
- 👎 Dog waste in plastic bags
- 👎 Trash of any kind (food/candy wrappers, cigarette butts, hair, etc.)

**YOUR TOILET IS NOT
A TRASH CAN!**

SAVE THE PIPES

Helpful Tips to Avoid Costly Clogs

Don't pour cooking oil, pan drippings, grease, lard, shortening, butter, margarine, milk, cream, sauce, gravy, and dressings, down the sink or toilet.

Instead, pour it into a sealable container (such as an old pickle or spaghetti sauce jar) & place it in the trash. You can also freeze it until your next trash pick-up day.

Don't put food down the drain. Avoid using your garbage disposal.

Instead, place a strainer in the sink drain to catch small food scraps. Dispose of in the trash.

Don't run water over dishes or cookware to wash oil or grease down the sink.

Instead, wipe them with a paper towel and throw the paper towel in the trash.

**KEEP FATS, OILS & GREASE
OUT OF YOUR DRAINS.**
