DIVISION County Lands WALK ON TIME REQUIRED: 7. **BACKGROUND:** Pursuant to an agreement with the City of Bonita Springs, the Division of County Lands has been requested by the Department of Transportation to acquire right of way for the Imperial Street Widening Project No. 4060. The project consists of a four-lane divided highway with sidewalks from Bonita Beach Road to East Terry Street. This acquisition consists of the fee interest in improved property, further identified as Strap No. 36-47-25-B3-01200.1810, located at 27801 Imperial Street in Bonita Springs. The owners of Parcel 312, Jonathan Calianos and Jason Calianos, have agreed to sell the subject property for \$112,360.00. The County is to pay \$1,500.00 moving allowance, \$833.00 appraisal reimbursement and closing costs of approximately \$1,750.00. Sellers are responsible for real estate broker and attorney fees, if anv. The appraised value of the property is \$106,000.00. The appraisal was performed by Michael J. Christensen of W. Michael Maxwell and Associates, Inc. County staff is of the opinion that the purchase price increase of \$6,360,00 above the appraised value can be justified based on the real estate market activity in this geographic area. Also, considering the costs associated with condemnation proceedings estimated to be between \$4,000 - \$7,000, excluding land value, staff recommends the Board approve the Requested Motion. This appraisal is a summary report.

This appraisal report is prepared for the sole and exclusive use of the appraiser's client Jonathon Calianos. No third parties are authorized to rely upon this report without the express written consent of the appraiser.

#### Comments on Cost Approach

Cost estimates were taken from actual costs of local builders. Depreciation was taken from the age life method. Site improvements include: grass, landscaping, concrete drive, septic, and walk.

#### Sales Comparison Comments

Due to a scarcity of recent, nearby sales of improvements similar to the subject, it was necessary to search farther back than six months for Sale #3, and more than one mile for Sale #2. An across-the-board adjustment for functional utility was required. Sale #3 had gross adjustments greater than 25%. This was primarily due to a large (greater than 10%) effective age adjustment for this comparable. Age and condition were combined in an estimation of effective age. The three comparables were adjusted accordingly. Sale #3 was adjusted for financing concessions since it sold with an FHA mortgage with the seller shouldering closing costs beyond what is typical. All three sales received equal weight.

#### Conditions of Appraisal

There are no conditions to be met to uphold the value estimate. The appraisal assumes that any water damage from an apparent roof leak is confined to what is observable from the living-dining area, and that the leak may be repaired at minimal cost. The owner suggested to us that the subject may have additional value due to his ownership of two improved sites and a potential third buildable site immediately south of the subject. It was his opinion that the three (potentially four) adjoining properties formed a "compound" that was unique for the area. We were not able to either confirm or refute his opinion through our research.

RE: Parcel 312, 27801 Imperial Street Owner-Jason and Jonathan Calianos

Dear Mr. O'Hare:

I have reviewed the information you provided for this parcel and agree that the negotiated price of \$112,360.00 plus moving costs of \$1,500.00 and \$833.00 for appraisal fees is reasonable.

If you need further information, please contact me otherwise I trust this letter is sufficient.

Respectfully,
