## SCOPE OF PROFESSIONAL SERVICES

for

SUMMERLIN ROAD SIX-LANING FROM San Carlos Boulevard to Gladiolus

(Enter Project Name from Page 1 of the Change Order or Supplemental Task Authorization)

## SECTION 1.00 CHANGE(S) TO PROFESSIONAL SERVICES

The "Scope of Professional Services" as set forth in Exhibit "A" of the Professional Services Agreement, or Service Provider Agreement, referred to hereinbefore is hereby supplemented, changed or authorized, so that the CONSULTANT or SERVICE PROVIDER, shall provide and perform the following professional services, tasks, or work as a supplement to, change to, or authorized to, the scope of services previously agreed to and authorized:

Task 17.00 - Four Laning Winkler Road from Summerlin to 650 feet South of Gladiolus

This task adds to the existing scope by adding approximately 2000 feet of roadway reconstruction. Winkler will be rebuilt as a four-lane roaway with a grassed median to match the tyical section near Gladiolus and accommodate future left turn lanes, if required. The widening is the result of traffic counts taken in the Spring of 2002. Proposed cost includes all design engineering, geotechnical investigation, topographic survey and complete landscape design in accordance with the "LEEScape" Master Plan for this area.

Task 18.00 - Additional Traffic Studies on Gladiolus at Bass, Parker Lakes and Winkler

This task expands the limits of traffic counting and analysis beyond the existing scope and includes but is not limited to the following efforts. Additional work was requested at the intersections of Gladiolus with Winkler Road, Parker Lakes Boulevard and Bass Road. Prepare an analysis of signal warrants. Prepare and analyze alternative lane configurations and signal combinations. Evaluate concepts of a "hot lane" with and without signalization at Parker Lakes Boulevard. Prepare conceptual signal plans (phasing and geometry) for Parker Lakes Boulevard and Bass Road locations. Develop signal timing for Bass Road, Parker Lakes Boulevard and Winkler Road as part of the Summerlin Road network.

\*Attach additional pages, if needed.

CMO:025 09/25/01 Page <u>A 1</u> of <u>A 2</u>

# Task 19.00 - Furnish Complete Landscape Architectural Design Services for the Summerlin Road Corridor in accordance with the "LEEScape Master Plan".

This task enlarges the existing scope by requiring the preparation of detailed design plans for all potential planting areas within the corridor. Plans will be developed and submitted at the 30%, 60%, 90% and 100% stages, including the irrigation design. Existing scope required the development of conceptual designs for a typical intersection and a typical median for review by LCDOT.

## Task 20.00 - Convert Direct Expenses to a LUMP SUM amount

The method of compensation for direct expenses is changed from a receipt supported basis to a LUMP SUM for billing puposes. Expenses will be billed monthly on a "percent complete" basis. There is no change in cost associated with this Task.
