Currently all file servers and the core of the County's data network reside in the Public Works Building ( $2^{od}$  floor) and the Justice Center ( $6^{th}$  floor). Both are 5 minutes away from the ITG technical support staff responsible for keeping these systems operational. Moving the ITG staff across the river will require an additional 10-20 minutes travel time before they can address Any system outage. As a result, BoCC departments may experience some service interruptions.

The subject equipment, core network devices and file/data servers, cannot be relocated with the ITG staff across the river Due to the prohibitive costs involved and the lack of a sufficient fiber optic cable infrastructure connecting sites north of The river with the downtown area.
