10. Background:

The Pollution Prevention Program formerly known as the Small Quantity Generator Program has been performing State mandated (Florida Statutes 403.7225) verification assessments of operations at business sites for the past 18 years. The method utilized for the verification process was educational based and designed to assist businesses with information needed to meet minimum Federal/State hazardous waste laws. During this time it has become apparent that in order to motivate compliance for some businesses, local enforcement needs to be established. Florida Statutes 403.7238 allows for counties to adopt a local ordinance addressing compliance with and enforcement of the Federal and State hazardous waste regulations.

The adoption of this ordinance will establish the mechanism to assist the State Department of Environmental Protection and empower the County to work as partners with the State in protecting the environment.

FINANCIAL & ADMINISTRATIVE IMPACT STATEMENT

PROPOSED COUNTY ORDINANCE:

NAME OF ORDINANCE: HAZARDOUS WASTE ORDINANCE

A. Statement of Purpose:

The purpose of this ordinance is to provide Lee County with authority to enforce existing Federal and State laws pertaining to the proper management of hazardous waste, used oil, and universal waste.

B. Narrative Summary of Ordinance (Several Sentence Summary):

The Pollution Prevention Program formerly known as the Small Quantity Generator Program has been performing educational assessments of businesses for the past 18 years. During this time we have experienced an increase in non-compliance of regulations designed to protect the environment from the improper management of contaminating waste. The adoption of these specific existing Federal and State regulations provides for a minimum consistent standard for waste generating businesses. The ordinance requires proper storage, handling, disposal documentation, transporting, employee training, spill prevention methods and the recycling of certain types of waste as required.

Due to the growth of our County and the increase in documented non-compliance facilities, this ordinance will allow Lee County to work in partnership with the Department of Environmental Protection and the Lee County Sheriff's Office with the enforcement of these established regulations.

C. Principal Division(s) or Department(s) Affected (List):
