

**Attention Mobile Home and RV
Contractors/Owner Builders:**

Effective immediately, all MRV permits will now have a Mechanical (MEC) sub activity and fee added to the MRV permit at issuance. This means that your mechanical contractor will need to attach their license to the MRV permit (currently done for your ELE sub) and they will no longer pull a standalone MEC permit. This change has been made to ensure that the HVAC system is in compliance with applicable FEMA regulations prior to submission of an elevation certificate. Please feel free to contact staff at 239-533-8329 if you have any questions.

Thank you.
