

Permit Submittal Requirements Prior to Florida Building Code Update
Effective December 31, 2017 at Midnight

Please note that Thursday, December 28, 2017 is the last day to submit permit applications due to the holiday closure on Friday

In anticipation of the adoption of the Florida Building Code, 6th Edition, Only Complete Permit Applications will be accepted starting November 1, 2017. (For FBC 2014 code compliance, permit application must be prior to December 31, 2017.*)

Complete Permit Applications are to include these Minimum Submission Requirements:

- Complete Construction Documents showing code analysis criteria and roof to foundation structural
- Complete Energy Calculation, including compliance statement letter
- Truss Drawings (Conventionally Framed or Pre-Engineered)
- Florida Product Approval Number for all Exterior Components and Cladding

Incomplete submissions will not be accepted and therefore will be returned back to the applicant for completion of requirements above.

Please keep in mind that all permit applications should include:

- Consistent, Accurate Address throughout all Submission Documents
- Site Plan
- 4 Complete Sets (3 for Residential), original signed and sealed
- Completed Application, including email address and sub-contractor information

*For ePlan, applications must be submitted and uploads must be accepted by due date.
