## HUMAN SERVICES COUNCIL MEETING

### **Purpose/Scope:**

As a result of the Smart Growth initiative and shrinking State and Federal resources, the Board of County Commissioners desires to create a Human Services Council to effectively design a community based human service plan for the current and future human service needs in Lee County. The Council will be comprised of private and public community stakeholders. As the State and Federal funding diminishes, services and associated costs will shift to the local community. The community will be faced with prioritizing services, investing in measurable outcomes and coordinating advances in technology, planning and service delivery to effectively meet service demands. The Council will assure that there is a countywide strategic plan that will assist in providing service coordination and resource planning. The strategic plan will promote strengthening private and public partnerships, promote collaboration and integration of community services and strive to eliminate fragmentation of service delivery systems.
