

Before Starting the CoC Application

The CoC Consolidated Application consists of three parts, the CoC Application, the CoC Priority Listing, and all the CoC's project applications that were either approved and ranked, or rejected. All three must be submitted for the CoC Consolidated Application to be considered complete.

The Collaborative Applicant is responsible for reviewing the following:

3. All information provided to ensure it is correct and current.
4. Responses provided by project applicants in their Project Applications.
5. The application to ensure all documentation, including attachment are provided.
6. Questions marked with an asterisk (*), which are mandatory and require a response.

**1B-1a. Applicants must describe the specific strategy the CoC uses to solicit and consider opinions from organizations and/or persons that have an interest in preventing or ending homelessness.
(limit 2,000 characters)**

All CoC meetings are publicly noticed on the Lee County Homeless Coalition and CoC web pages, and via direct e-mail. The CoC encourages all organizations and/or persons who have an interest in preventing or ending homelessness to attend both general membership and governing board meetings to share their thoughts and opinions. Governing Board members are regularly encouraged to conduct personal outreach and engage new members. Street outreach staff also engage local businesses regarding their opinions surrounding homelessness, and encourage them to remain engaged in the CoC. Several for-profit organizations, service providers, and one local CPD jurisdiction are also represented on the Lee County Homeless Coalition Board. Direct solicitations regarding specific issues/topics are made via email and at in-person meetings, depending upon need. Direct solicitations take place with local faith based organizations, housing developers, landlords, homeless and non-homeless service providers, and other interested stakeholders.

**1B-2.Open Invitation for New Members. Applicants must describe:
(1) the invitation process;
(2) how the CoC communicates the invitation process to solicit new members;
(3) how often the CoC solicits new members; and
(4) any special outreach the CoC conducted to ensure persons experiencing homelessness or formerly homeless persons are encouraged to join the CoC.
(limit 2,000 characters)**

1) To become a member of the CoC Governing Board and/or general membership, interested individuals must submit a membership application and conflict of interest form (for Governing Board only). Applications are submitted to the Lee County Homeless Coalition for general membership or the Collaborative Applicant for the CoC Governing Board. General membership applicants are free to join throughout the year, but Governing Board members are elected by the general membership at each July annual meeting.
2) Solicitations for membership are made via e-mail, social media, direct outreach, and on the Homeless Coalition and CoC's web page. The CoC Governing Board is regularly reminded by the collaborative applicant to reach out to interested parties, especially persons who are homeless or formerly homeless, to expand membership. Additionally, CoC Board representatives regularly announce board membership opportunities at general membership meetings. In addition, the Homeless Coalition solicits general members at all public education presentations. Brochures are distributed during all

presentations and events, and volunteers are encouraged to attend meetings and become members.

3) The CoC accepts applications for new Governing Board and general members year round. This rolling application process ensures members represent a wide range of stakeholders, and all interested parties are allowed to participate in the CoC.

4) The collaborative applicant conducts direct outreach to homeless and formerly homeless persons, as well as other interested individuals and organizations, and encourages service providers recommend current and former clients for membership on the CoC Governing Board.

**1B-3.Public Notification for Proposals from Organizations Not Previously Funded. Applicants must describe how the CoC notified the public that it will accept and consider proposals from organizations that have not previously received CoC Program funding, even if the CoC is not applying for new projects in FY 2018, and the response must include the date(s) the CoC publicly announced it was open to proposals.
(limit 2,000 characters)**

Lee County issued two Notices of Funding Availability (NOFA) in accordance with 2018 CoC NOFA guidelines for new project funds made available through the CoC bonus and DV bonus. Both NOFAs were posted on the CoC's webpage, Facebook page, and sent via direct email to local service providers through the County and Homeless Coalition distribution lists on June 29, 2018. Applications were accepted through July 18, 2018. Lee County received and considered six new project applications, all which were from organizations that have not previously received CoC funding in Lee County. All project applications were reviewed based on the published Ranking Committee Procedures and Ranking Tool. Three new project applications from organizations that have not previously received CoC funding in Lee County are being submitted for funding consideration.

1C-2. CoC Consultation with ESG Program Recipients. Applicants must describe how the CoC:

- (1) consulted with ESG Program recipients in planning and allocating ESG funds; and**
 - (2) participated in the evaluating and reporting performance of ESG Program recipients and subrecipients.**
- (limit 2,000 characters)**

1) The CoC consulted with ESG program recipients during the Annual Plan process. There are 3 consolidated planning jurisdictions (CPJ) within the CoC's geographic area: Lee County, City of Fort Myers and City of Cape Coral. Lee County is the only ESG entitlement entity. The CoC is consulted during regular

meetings on ESG funding decisions, which include the use of ESG funds for a jail diversion shelter, street outreach and rapid rehousing. All CPJs are members of the Governing Board or general membership and are actively involved in meetings and planning.

2) The Collaborative Applicant reviews performance for ESG programs through ongoing monitoring, PIT and HIC data, and CoC system performance. Performance data is distributed to CPJ's and CoC membership via email, regular meetings and the CoC and Homeless Coalition's website. The Cities' active engagement with the CoC ensures that information regarding homelessness is clearly communicated and addressed in Con Plan processes. Collaboration among all CPJs occurs daily through program referrals and meetings for various other grant programs.

1C-2a. Providing PIT and HIC Data to Consolidated Plan Jurisdictions. Did the CoC provide Point-in-Time (PIT) and Housing Inventory Count (HIC) data to the Consolidated Plan jurisdictions within its geographic area? Yes to both

1C-2b. Providing Other Data to Consolidated Plan Jurisdictions. Did the CoC provide local homelessness information other than PIT and HIC data to the jurisdiction(s) Consolidated Plan(s)? Yes

1C-3. Addressing the Safety Needs of Domestic Violence, Dating Violence, Sexual Assault, and Stalking Survivors. Applicants must describe:

(1) the CoC's protocols, including the existence of the CoC's emergency transfer plan, that prioritizes safety and trauma-informed, victim-centered services to prioritize safety; and
(2) how the CoC maximizes client choice for housing and services while ensuring safety and confidentiality.
(limit 2,000 characters)

1) The housing authorities and CoC written standards enforce the provisions of the Violence Against Women Act Final Rule, which outlines practices to protect the safety and security of individuals fleeing domestic violence and sexual assault and include an emergency transfer plan. Emergency transfers are made as quickly as possible to ensure client safety. In all programs, priority is given for eligible individuals and families who are relocating as per the Emergency Transfer Plan, and in accordance with 24 CFR 576.409. All covered housing providers must maintain records on emergency transfers requested under 24 CFR 5.2005(e). Data must include the outcomes of each request, and must be provided to the collaborative applicant upon request. The administrative plans for Lee County Housing Authority and Housing Authority for the City of Fort Myers also have preferences for individuals and families who have been subjected to or a victim of domestic violence, dating violence, sexual assault, or stalking.

2) Clients requesting emergency transfer are provided available housing options

in the same manner as all other clients, to maximize client choice. In addition, the local DV provider, Abuse Counseling and Treatment (ACT), provides shelter at two locations within the CoC's geographic area. Both feature multitude of counseling and recovery services and a 24 hour hotline for victims. ACT maintains safety through nondisclosure of shelter locations, shelter-monitoring systems, and a visitor check in process. Clients receiving case management are given priority referral to permanent housing options throughout the community. Referrals are made outside of the HMIS system to protect victim's personally identifying information.

1C-3a. Applicants must describe how the CoC coordinates with victim services providers to provide annual training to CoC area projects and Coordinated Entry staff that addresses best practices in serving survivors of domestic violence, dating violence, sexual assault, and stalking. (limit 2,000 characters)

All direct service staff at ACT are required to have at least 16 hours of domestic violence training annually, and new hires receive over 60 hours of training in their first 90 days. Some trainings include Trauma Informed Care, Domestic Violence and the Effects on Children, Best Practices, Post Traumatic Stress Disorder, Understanding the Interaction between Addiction and Domestic Violence, and others as they are available. Children's counselors attend an annual Youth Summit to learn best practices when working with children. ACT also provides various trainings to community professionals including law enforcement, medical professionals including physicians, Department of Children and Families, Department of Health, and other professionals in our community. In addition, the collaborative applicant hosted a Trauma Informed Care and Motivational interview training, which was open to the entire CoC on September 12, 2018. ACT is also set to provide training on best practices in serving DV survivors during the October 2018 CoC general membership meeting. The training will ensure that staff throughout the CoC's geographic area are aware of the policy and practices necessary to ensure the safety of survivors across all programs.

The HMIS Lead Agency also provides at least one annual training opportunity to organizations that serve as coordinated entry access points or otherwise conduct assessments. All training is tailored to the individual agencies, and includes training on privacy protocols and protecting participant autonomy. No individual will be denied access to coordinated entry, housing or services on the basis that an individual is or has been a victim of domestic violence. DV victim data is not maintained in HMIS within the Lee County CoC, but rather in comparable databases by victim specific service providers, and is provided to the HMIS lead as needed.

1C-3b. Applicants must describe the data the CoC uses to assess the scope of community needs related to domestic violence, dating violence, sexual assault, and stalking, including data from a comparable database. (limit 2,000 characters)

Data from the local DV provider, Abuse Counseling and Treatment (ACT), and the 2018 PIT count and HIC was used to assess the scope of needs related to survivors of domestic violence. The ACT shelter uses an Osnium database,

which is comparable to HMIS, to collect client data and monitor outcomes. Specific data elements such as the number of individuals served, bed capacity and utilization, and length of stay were used to determine community wide needs. From July 1, 2017 through June 30, 2018 the ACT shelter served 3,121 clients with residential and outreach services. The 2018 HIC included 86 beds at the ACT shelter, with a 95.5% utilization rate, and 2018 PIT count included 79 individuals who identified as victims of domestic violence. Consultation with the ACT shelter revealed that the average length of stay for individuals receiving residential services is 42 days. However, staff also indicated that shelter clients who are in need of assistance to obtain housing typically have a length of stay greater than 120 days due to the limited amount of affordable housing options and high client volumes for rental assistance programs. Gaining full-time employment is also extremely difficult for individuals and families exiting from the ACT shelter. Without rental assistance, is it unlikely that individuals and families exiting from the ACT shelter will be able to obtain and maintain permanent housing. Additionally, ACT staff confirmed that ongoing case management through a RRH or TH-RRH program would be helpful for ensuring clients increase income and are able to maintain permanent housing long-term.

**1C-4. DV Bonus Projects. Is your CoC Yes
applying for DV Bonus Projects?**

**1C-4a. From the list, applicants must indicate the type(s) of DV Bonus
project(s) that project applicants are applying for which the CoC is
including in its Priority Listing.**

SSO Coordinated Entry	<input type="checkbox"/>
RRH	<input checked="" type="checkbox"/>
Joint TH/RRH	<input checked="" type="checkbox"/>

1C-4b. Applicants must describe:

- (1) how many domestic violence survivors the CoC is currently serving in the CoC's geographic area;
(2) the data source the CoC used for the calculations; and
(3) how the CoC collected the data.
(limit 2,000 characters)

- 1) The CoC is currently serving approximately 526 domestic violence survivors annually through existing emergency shelter resources, and another 2595 individuals through existing DV outreach services.
2) The CoC determined this number by examining service data from the DV provider's HMIS comparable database for program year beginning July 1, 2017 and ending June 30, 2018.
3) The data used for determining the number of client served was gathered through consultation with the local DV provider, Abuse Counseling and Treatment (ACT), who provided data from their HMIS comparable database.

1C-4c. Applicants must describe:

- (1) how many domestic violence survivors need housing or services in the CoC's geographic area;**
- (2) data source the CoC used for the calculations; and**
- (3) how the CoC collected the data.**
(limit 2,000 characters)

- 1) During the 2017 program year, 601 individuals were exited from ACT's emergency shelter, of those 390 needed assistance to obtain permanent housing. Given this data, the CoC estimates that approximately 60% of all survivors exiting the shelter in this program year will need assistance locating, moving-in, and maintaining permanent housing.
- 2) The CoC determined this number by examining intake and exit data from the DV provider's HMIS comparable database for program year beginning July 1, 2017 and ending June 30, 2018.
- 3) The data used for determining the number of clients in need of services was collected through consultation with the local DV provider, Abuse Counseling and Treatment (ACT), who provided data from their HMIS comparable database.

1C-4d. Based on questions 1C-4b. and 1C-4c., applicant must:

- (1) describe the unmet need for housing and services for DV survivors, or if the CoC is applying for an SSO-CE project, describe how the current Coordinated Entry is inadequate to address the needs of DV survivors;**
- (2) quantify the unmet need for housing and services for DV survivors;**
- (3) describe the data source the CoC used to quantify the unmet need for housing and services for DV survivors; and**
- (4) describe how the CoC determined the unmet need for housing and services for DV survivors.**
(limit 3,000 characters)

- 1) From July 1, 2017 through June 30, 2018 the ACT shelter served 3,121 clients, 526 in emergency shelter and 2595 in outreach programs. Consultation with the ACT shelter revealed that the average length of stay for individuals who need assistance locating and obtaining housing is often more than 120 days due to the limited availability of affordable housing and rental assistance programs. Additionally, gaining full-time employment is extremely difficult for individuals and families exiting from the ACT shelter. Without rental assistance, is it unlikely that individuals and families exiting from the ACT shelter, with only part-time employment, will be able to obtain and maintain permanent housing. Ongoing case management through a RRH or TH-RRH program will also be helpful to ensure clients increase income and are able to maintain permanent housing long-term.
- 2) During the July 1, 2017 through June 30, 2018 program year 390 individuals exiting the ACT shelter needed assistance to obtain permanent housing. It is estimated that at least 60% of all DV survivors who enter the ACT shelter will need rental assistance to obtain permanent housing in the upcoming program year. Given last year's data, nearly 400 individuals will need assistance through RRH or TH-RRH. There are currently no DV specific RRH or TH-RRH programs within the CoC. Clients are currently referred to homeless assistance programs that are open to all sub-populations of individuals and families who are homeless. Having DV specific RRH and TH-RRH programs will address gaps in current housing options for DV survivors and help to free up other RRH programs for non-DV individuals and families who are homeless.

3) Data from the local DV provider, Abuse Counseling and Treatment (ACT), and the 2018 HIC was used to assess the scope of needs related to survivors of domestic violence. The ACT shelter uses an Osnum database, which is comparable to HMIS, to collect client data and monitor outcomes. Specific data elements such as the number of individuals served, bed capacity and utilization, and length of stay were used to determine community wide needs.
4) The unmet housing need was calculated by dividing the number of individuals who exited emergency shelter to a rental assistance program by the total number of shelter exits in a single program year.

1C-4e. Applicants must describe how the DV Bonus project(s) being applied for will address the unmet needs of domestic violence survivors. (limit 2,000 characters)

Consultation with the ACT shelter revealed that the average length of stay for individuals who need assistance locating and obtaining housing is often more than 120 days due to the limited availability of affordable housing and rental assistance programs. Gaining full-time employment is also extremely difficult for individuals and families exiting from the ACT shelter. Without rental assistance, it is unlikely that individuals and families exiting from the ACT shelter with only part-time employment will be able to obtain and maintain permanent housing. Additionally, ACT staff confirmed that ongoing case management through a RRH or TH-RRH program would be helpful for ensuring clients increase income and are able to maintain permanent housing long-term.

Both DV bonus projects place significant emphasis on addressing housing barriers for DV survivors including personal, familial, and societal conflicts and deficiencies, and will provide clients with educational services as well as assistance with accessing and obtaining mainstream services (SNAP, Medicaid, child care, etc.). Case manager's for both programs will be available to assist each person based on their unique individual needs, and will ensure client's obtain or increase income, employment, and education to ensure long-term housing stability.

An estimated 400 DV survivors will need assistance through RRH or TH-RRH in a single program year. There are currently no DV specific RRH or TH-RRH programs within the CoC. Clients are referred to homeless assistance programs that are open to all populations of individuals and families who are homeless. Having DV specific RRH and TH-RRH programs will address gaps in current housing options for DV survivors and free up other RRH programs for non-DV individuals and families who are homeless.

1C-4f. Applicants must address the capacity of each project applicant applying for DV bonus projects to implement a DV Bonus project by describing:

- (1) rate of housing placement of DV survivors;**
 - (2) rate of housing retention of DV survivors;**
 - (3) improvements in safety of DV survivors; and**
 - (4) how the project applicant addresses multiple barriers faced by DV survivors.**
- (limit 4,000 characters)**

- 1) Lee County Housing Development Corp. (LCHDC) plans to begin housing DV clients within 45 days after execution of the CoC grant agreement and be at 100% capacity within 90 days after execution of the CoC grant agreement. The Center for Progress and Excellence (CPE) anticipates being at full capacity in their TH facility within 120 days after execution of the CoC grant agreement.
- 2) LCHDC plans to comply with the CoC-wide goal of having at least a 65% housing retention rate. CPE also plans to have at least 65% of DV clients exit TH to permanent housing.
- 3) Both LCHDC and CPE have the experience and infrastructure necessary to ensure the safety and confidentiality of all clients entering their programs. All staff are trained on confidentiality standards, and client records/files are stored in a locked file cabinet to protect client confidentiality. All LCHDC staff are required to complete HIPPA training annually. LCHDC will ensure the continued safety and privacy of victims of domestic violence, by having the ACT shelter serve as the central point of contact for survivors, and by working with ACT to ensure the implementation of the client's safety plan. CPE will ensure the safety of DV survivors by installing surveillance cameras on the outside of the TH facility. CPE will also coordinate with law enforcement to routinely pass by the facility to conduct safety checks. All bedroom doors in the facility will be equipped with a keypad lock that only the individual and staff will know the combination to and emergency pull cords will also be installed in each bedroom. Each CPE client will have a safety plan when exiting the TH program into permanent housing, and case managers will provide ongoing services to ensure client safety and stability.
- 4) Both CPE and LCHDC recognize that DV survivors face multiple barriers including personal, familial, and societal conflicts and deficiencies. Both projects will address barriers by linking clients to resources such as transportation, childcare, employment, food, clothing, housing, healthcare, educational services, and support networks, as well as assistance with accessing and obtaining mainstream services (SNAP, Medicaid, child care, etc.). Both projects will provide case managers to assist each client based on their unique individual needs, and provide advocacy and coordination with other agencies. LCHDC has an established network of community organizations and service providers to provide community supportive services in the aforementioned areas. At CPE, a trauma certified therapist for adults and a child therapist will be available to provide counseling to further reduce barriers to self-sufficiency.

1C-5. PHAs within CoC. Applicants must use the chart to provide information about each Public Housing Agency (PHA) in the CoC's geographic areas:

- (1) Identify the percentage of new admissions to the Public Housing or Housing Choice Voucher (HCV) Programs in the PHA who were experiencing homelessness at the time of admission;**
- (2) Indicate whether the PHA has a homeless admission preference in its Public Housing and/or HCV Program; and**
- (3) Indicate whether the CoC has a move on strategy. The information should be for Federal Fiscal Year 2017.**

Public Housing Agency Name	% New Admissions into Public Housing and Housing Choice Voucher Program during FY 2017 who were experiencing homelessness at entry	PHA has General or Limited Homeless Preference	PHA has a Preference for current PSH program participants no longer needing intensive supportive services, e.g. move on?
----------------------------	------------------------------------------------------------------------------------------------------------------------------------	------------------------------------------------	--------------------------------------------------------------------------------------------------------------------------

Housing Authority of the City of Fort Myers	20.00%	Yes-Both	No
Lee County Housing Authority	27.00%	Yes-Both	No

If you select "Yes--Public Housing," "Yes--HCV," or "Yes--Both" for "PHA has general or limited homeless preference," you must attach documentation of the preference from the PHA in order to receive credit.

1C-5a. For each PHA where there is not a homeless admission preference in their written policy, applicants must identify the steps the CoC has taken to encourage the PHA to adopt such a policy. (limit 2,000 characters)

Not applicable. Both PHA's within the CoC's geographic area have homeless admission preferences in their written policies.

1C-5b. Move On Strategy with Affordable Housing Providers. Does the CoC have a Move On strategy with affordable housing providers in its jurisdiction (e.g., multifamily assisted housing owners, PHAs, Low Income Tax Credit (LIHTC) developments, or local low-income housing programs)? No

1C-6. Addressing the Needs of Lesbian, Gay, Bisexual, Transgender (LGBT). Applicants must describe the actions the CoC has taken to address the needs of Lesbian, Gay, Bisexual, and Transgender individuals and their families experiencing homelessness. (limit 2,000 characters)

CoC written standards incorporate the Equal Access to Housing Final Rule, requiring service providers to practice a person centered model that incorporates participant choice and inclusion of all sub populations present in Lee County, including veterans, youth, and families with children, individual adults, seniors, victims of domestic violence, and LGBTQI+ individuals and families. All CoC and ESG funded providers must ensure that all people have fair and equal access to all forms of assistance regardless of race, ethnicity, national origin, age, sex, familial status, religion, disability, type or amount of disability, gender identity, perceived gender identity, marital status, sexual orientation, or perceived sexual orientation. The collaborative applicant offers individual technical assistance and training to providers to effectively implement the Final Rule, and provider's policies, procedures, and practices are monitored annually to ensure compliance.

1C-6a. Anti-Discrimination Policy and Training. Applicants must indicate if the CoC implemented a CoC-wide anti-discrimination policy and

conducted CoC-wide anti-discrimination training on the Equal Access Final Rule and the Gender Identity Final Rule.

1. Did the CoC implement a CoC-wide anti-discrimination policy that applies to all projects regardless of funding source?	Yes
2. Did the CoC conduct annual CoC-wide training with providers on how to effectively implement the Equal Access to Housing in HUD Programs Regardless of Sexual Orientation or Gender Identity (Equal Access Final Rule)?	No
3. Did the CoC conduct annual CoC-wide training with providers on how to effectively implement Equal Access to Housing in HUD Programs in Accordance with an Individual's Gender Identity (Gender Identity Final Rule)?	No

1C-7. Criminalization of Homelessness. Applicants must select the specific strategies the CoC implemented to prevent the criminalization of homelessness in the CoC's geographic area. Select all that apply.

1C-8. Centralized or Coordinated Assessment System. Applicants must:
(1) demonstrate the coordinated entry system covers the entire CoC geographic area;
(2) demonstrate the coordinated entry system reaches people who are least likely to apply homelessness assistance in the absence of special outreach;
(3) demonstrate the assessment process prioritizes people most in need of assistance and ensures they receive assistance in a timely manner; and
(4) attach CoC's standard assessment tool.
(limit 2,000 characters)

1) The Lee County CoC embraces a "no-wrong-door" approach to ensure that any person who is homeless and seeking assistance has access to the Coordinated Entry System (CES). There are currently 23 points of access located throughout CoC's geographic area that provide the same assessment approach for all persons. Street outreach staff conduct assessments with persons living in places not meant for human habitation throughout the

geographic area.

2) A 2017 monitoring of the Coordinated Entry Affirmative Marketing Strategy (CEAMS) revealed that hispanic and elderly individuals are least likely to apply for assistance in the absence of special outreach. All participating providers have CES marketing materials for clients, as well as quick guides to aid case managers in completing assessments and prioritizing clients for housing and services. Additionally, outreach staff conduct street level outreach to ensure who individuals are least likely to apply for services at a service location are engaged and assessed (if possible) for services. The 2018 CEAMS monitoring, to be completed in September 2018, will provide insight into the effectiveness of the marketing strategy and demonstrate if the CES reaches people who are least likely to apply for assistance.

3) All agencies and outreach staff making referrals in the system are required to complete a Coordinated Entry screen. Upon completion, the system will notify the user if a VI-SPDAT is required. Individuals that are determined to be a veteran, chronically homeless, or homeless households with children are required to complete a full VI-SPDAT. The VI-SPDAT score will determine the client's and/or household's needs and initial prioritization for housing resources and supportive services. The CoC written standards further prioritize individuals by severity of needs, including high use of crisis services, significant health or behavioral health challenges, youth, and trauma.

1E-1. Project Ranking and Selection. Applicants must indicate whether the CoC used the following to rank and select project applications for the FY 2018 CoC Program Competition:

- (1) objective criteria;**
- (2) at least one factor related to achieving positive housing outcomes;**
- (3) a specific method for evaluating projects submitted by victim services providers; and**
- (4) attach evidence that supports the process selected.**

Used Objective Criteria for Review, Rating, Ranking and Section	Yes
Included at least one factor related to achieving positive housing outcomes	Yes
Included a specific method for evaluating projects submitted by victim service providers	No

1E-2. Severity of Needs and Vulnerabilities. Applicants must describe:
(1) the specific severity of needs and vulnerabilities the CoC considered when reviewing, ranking, and rating projects; and
(2) how the CoC takes severity of needs and vulnerabilities into account during the review, rating, and ranking process.
(limit 2,000 characters)

- 1) The severity of needs and vulnerabilities criteria used when ranking projects was compliance with CoC written standards, adherence to housing first, and prioritization of high vulnerability clients. Compliance with the CoC Written Standards indicates if the project applicant prioritizes individuals based on severity of needs and Vulnerability Index score. Housing First and low barrier practices are evaluated to ensure the project does not screen out clients for low or no income, criminal or DV histories, or current/past substance abuse. Projects received points based on their prioritization of high vulnerability populations based on VI-SPDAT score, with more points being provided to projects that demonstrated the ability to house clients at the highest end of the range appropriate for the project type.
- 2) These project-ranking criteria accounted for roughly 25% of the total points available to each project. In addition, a fourth subjective criteria evaluates the project's overall ability to meet community needs, adequately carry out the project, and prioritize specific homeless sub populations.

- 1E-3. Public Postings.** Applicants must indicate how the CoC made public:
- (1) objective ranking and selection process the CoC used for all projects (new and renewal);

Reallocation: No

1E-4a. If the answer is "No" to question 1E-4, applicants must describe how the CoC actively reviews performance of existing CoC Program-funded projects to determine the viability of reallocating to create new high performing projects.
(limit 2,000 characters)

The Collaborative Applicant monitors all subrecipients through monthly desk reviews, which include verifying reimbursement for eligible expenses, approving reimbursement payments, and verification that funds are being drawn in a timely manner. Project performance measures, including factors such as length of stay, increases income, and assessment score for project participants is presented to the CoC Governing Board at least one time per quarter. Additionally, the Collaborative Applicant conducts onsite monitoring visits once per year. The annual monitoring visit includes an in-depth review of the recipient's client files, program capacity, timely spending, utilization of funds, match requirements, project policies, facility inspections, and a review of performance measures. Any concerns or findings are addressed with a

corrective action plan. The results of the monitoring are presented to the subrecipient as well as to the CoC Governing Board, and CoC Ranking Committee. The Collaborative Applicant also works closely with each program recipient to ensure a complete and accurate submission of the APR. The results of each annual monitoring report and portions of the APR are reviewed and considered during the ranking process. The Governing Board and/or collaborative applicant (CA) can make recommendations for reallocation based on project performance, utilization, effectiveness, participation in HMIS, and CoC and HUD funding priorities. All recommendations must be reviewed and approved by the CoC ranking committee.

1E-5. Local CoC Competition. Applicants must indicate whether the CoC:

(limit 2,000 characters)**

The Fort Myers Rescue Mission, a faith-based organization, has 25 emergency shelter beds. The agency is disinclined to participate in HMIS, which prevents the 85% HMIS bed coverage threshold from being met for ES beds. The Fort Myers Rescue Mission does provide the Collaborative Applicant with complete client surveys during the annual point-in-time count. Other permanent supportive housing beds are provided by the Housing Authority of the City of Fort Myers and the Lee County Housing Authority through VASH Vouchers. Both Housing Authorities are currently working with the Collaborative Applicant to gain access to HMIS. It is anticipated that they will be reporting beds in HMIS within the next 12 months.

**2C-1. Change in Sheltered PIT Count Implementation. Applicants must describe any change in the CoC's sheltered PIT count implementation, including methodology and data quality changes from 2017 to 2018. Specifically, how those changes impacted the CoC's sheltered PIT count results.
(limit 2,000 characters)**

There was an increase of 257 overflow beds in the 2018 sheltered homeless count due to the inclusion of Hurricane Irma victims. Data regarding the number of individuals and families in FEMA supported temporary housing, on the night of the count, was obtained through collaboration with the Lee County Emergency Operations Center and FEMA.

Beds Added:	0
Beds Removed:	0
Total:	0

2C-3. Presidentially Declared Disaster Changes to Sheltered PIT Count. Did your CoC add or remove emergency shelter, transitional housing, or Safe Haven inventory because of funding specific to a Presidentially declared disaster, resulting in a change to the CoC's 2018 sheltered PIT count? Yes

2C-4. Changes in Unsheltered PIT Count Implementation. Did your CoC change its unsheltered PIT count implementation, including methodology and data quality changes from 2017 to 2018? If your CoC did not conduct an unsheltered PIT count in 2018, select Not Applicable. No

2C-5. Identifying Youth Experiencing Homelessness in 2018 PIT Count. Did your CoC implement specific measures to identify youth experiencing homelessness in its 2018 PIT count? No

2C-6. 2018 PIT Implementation. Applicants must describe actions the CoC implemented in its 2018 PIT count to better count:

- (1) individuals and families experiencing chronic homelessness;**
 - (2) families with children experiencing homelessness; and**
 - (3) Veterans experiencing homelessness.**
- (limit 2,000 characters)**

The Research and Awareness Committee met at least monthly leading up to the PIT count to devise strategies to ensure that all individuals and families who were homeless were included in the count.

- 1) To better count individuals and families experiencing chronic homelessness, the Homeless Coalition organized several transportation resources from more rural areas of the CoC's geographic area to increase attendance at the central service location where surveys were conducted. In addition, survey teams canvassed areas where chronically homeless individuals and families were known to congregate. Teams distributed backpacks with supplies and conducted surveys in area parks, feeding sites and other known locations.
- 2) To better count families with children who were homeless, flyers advertising the PIT count were distributed via e-mail and in print to all local organizations that provide services for families. Additional advertisement was conducted via the collaborative applicant's and Homeless Coalition's Facebook and web pages. Survey's were also conducted at local food pantries and feeding sites, which are frequented by families with children. The School District was also represented at the central service location where surveys were conducted.
- 3) To better count Veterans experiencing homelessness, the VA and other veteran service providers had a dedicated PIT area at the central service location. All Veteran's were offered service connections and a multitude of supplies. The local SSVF provider also conducted surveys at several service locations throughout the CoC.

Participation by all sub populations is encouraged through the provision of all-day bus passes and other supplies once a survey is completed. Surveys are conducted and items are distributed by local service providers at the annual

Homeless Service Day held in a central location and at other known locations by survey teams.

3A. Continuum of Care (CoC) System Performance

Instructions

For guidance on completing this application, please reference the FY 2018 CoC Application Detailed Instructions and the FY 2018 CoC Program Competition NOFA. Please submit technical questions to the HUD Exchange Ask A Question.

3A-1. First Time Homeless as Reported in HDX. In the box below, applicants must report the number of first-time homeless as reported in HDX.

Number of First Time Homeless as Reported in HDX.	1,020
---------------------------------------------------	-------

3A-1a. Applicants must:

(1) describe how the CoC determined which risk factors the CoC uses to identify persons becoming homeless for the first time;
(2) describe the CoC's strategy to address individuals and families at risk of becoming homeless; and
(3) provide the name of the organization or position title that is responsible for overseeing the CoC's strategy to reduce the number of individuals and families experiencing homelessness for the first time.
(limit 2,000 characters)

1) Through a review of local data and input gathered from community partners, the CoC has determined that factors such as limited income, lack of affordable housing options, high utilization of crisis assistance, significant physical and/or behavioral health challenges, substance use disorders, and, for youth and victims of domestic violence, continued trauma or high exposure to dangerous living situations increases the risk of individuals or families becoming homeless for the first time.

2) There are currently 4 homelessness prevention programs within the CoC that offer a variety of supportive services and assistance with past due rent/utilities to prevent individuals and families from becoming homeless for the first time. The Collaborative Applicant is also planning to develop and implement a diversion program during CY 2018, which will focus on mediating the needs of at risk individuals and families to ensure they do not become homeless.

3) Goals for each system performance measure are set by the CoC Governing Board. Collaborative applicant staff, including the Contracts Specialist, Grants Analyst and HMIS manager, actively monitor project performance. System and project level performance data is reviewed by the CoC Governing Board and General Membership at least annually.

3A-2. Length-of-Time Homeless as Reported in HDX. Applicants must:

(1) provide the average length of time individuals and persons in families remained homeless (i.e., the number);
(2) describe the CoC's strategy to reduce the length-of-time individuals and persons in families remain homeless;
(3) describe how the CoC identifies and houses individuals and persons

**in families with the longest lengths of time homeless; and
(4) provide the name of the organization or position title that is responsible for overseeing the CoC's strategy to reduce the length of time individuals and families remain homeless.
(limit 2,000 characters)**

- 1) The average length of time individuals and families remained homeless in FY 2017 was 126 bed nights.
- 2) The CoC identified that the length of time homeless is due to clients staying in emergency shelter for extended periods of time during their search for permanent housing with rapid re-housing funds. The average shelter stay is 90 days. Once housing is identified, individuals and families can usually be housed in under 30 days. The collaborative applicant and emergency shelter provider both have Housing Services Coordinators who develop relationships with landlords to ensure that adequate housing resources are made available for individuals and families in search of permanent housing.
- 3) Clients are prioritized in the Coordinated Entry System by medical vulnerability, overall wellness, unsheltered sleeping location, and length of time homeless. Those clients who have high service needs and a long length of stay in homelessness, as indicated by question 1 on the VI-SPDAT, are prioritized above less vulnerable clients for housing and services.
- 3) To further encourage continued reductions in the length of time homeless, the CoC Governing Board set a goal to ensure that individuals and families remain homeless for no more than 116 days. Goals for each system performance measure are set by the CoC Governing Board. Collaborative applicant staff, including the Contracts Specialist, Grants Analyst and HMIS manager, actively monitor project performance. System and project level performance data is reviewed by the CoC Governing Board and General Membership at least annually.

3A-3. Successful Permanent Housing Placement and Retention as Reported in HDX. Applicants must:

- (1) provide the percentage of individuals and persons in families in emergency shelter, safe havens, transitional housing, and rapid rehousing that exit to permanent housing destinations; and**
- (2) provide the percentage of individuals and persons in families in permanent housing projects, other than rapid rehousing, that retain their permanent housing or exit to permanent housing destinations.**

	Percentage
Report the percentage of individuals and persons in families in emergency shelter, safe havens, transitional housing, and rapid re-housing that exit to permanent housing destinations as reported in HDX.	54%
Report the percentage of individuals and persons in families in permanent housing projects, other than rapid re-housing, that retain their permanent housing or exit to permanent housing destinations as reported in HDX.	86%

3A-3a. Applicants must:

- (1) describe the CoC's strategy to increase the rate at which individuals and persons in families in emergency shelter, safe havens, transitional housing and rapid rehousing exit to permanent housing destinations; and**
- (2) describe the CoC's strategy to increase the rate at which individuals and persons in families in permanent housing projects, other than rapid rehousing, retain their permanent housing or exit to permanent housing**

**destinations.
 (limit 2,000 characters)**

1) The CoC aims to increase the rate of Permanent Housing exits from shelters, transitional housing, and rapid re-housing by offering wrap-around supportive services both during program participation and after program exit. For example, the Salvation Army provides RRH participants with supportive services for up to 6 months after program exit to ensure self-sufficiency. Additionally, the existing CoC and ESG funded rapid re-housing projects operate on a graduated rental assistance model, which requires the client to pay an increased portion of the rent as the program progresses promoting budget management and ultimately self-sufficiency.

2) The CoC aims to increase retention and positive exits from permanent housing projects, other than RRH, by offering wrap-around supportive services throughout program participation. For example, the CoC funded permanent supportive housing projects, at Community Assisted and Supported Living, encourage each resident to develop and achieve personal goals within three distinct program objectives: 1) to obtain and remain in permanent housing; 2) to achieve self-determination and 3) to increase skills and income. As a result clients are able to access mainstream and community services, increase income, and gain self-sufficiency.

To encourage continued increases in positive housing exit and housing retention rates, the CoC Governing Board has established a 65% performance target for persons exiting to PH from CoC and ESG funded projects. Goals for each system performance measure are set by the CoC Governing Board. Collaborative applicant staff, including the Contracts Specialist, Grants Analyst and HMIS manager, actively monitor project performance. System and project level performance data is reviewed by the CoC Governing Board and General Membership at least annually.

3A-4. Returns to Homelessness as Reported in HDX. Applicants must report the percentage of individuals and persons in families returning to homelessness over a 6- and 12-month period as reported in HDX.

	Percentage
Report the percentage of individuals and persons in families returning to homelessness over a 6- and 12-month period as reported in HDX	10%

3A-4a. Applicants must:

- (1) describe how the CoC identifies common factors of individuals and persons in families who return to homelessness;**
 - (2) describe the CoC's strategy to reduce the rate of additional returns to homelessness; and**
 - (3) provide the name of the organization or position title that is responsible for overseeing the CoC's strategy to reduce the rate individuals and persons in families returns to homelessness.**
- (limit 2,000 characters)**

1) Through a review of local data and input gathered from community partners, the CoC has determined that factors such as insufficient income, lack of affordable housing options, significant physical and/or behavioral health challenges, substance use disorders, and, for youth and victims of domestic

violence, continued trauma or high exposure to dangerous living situations increase the risk of individuals or families returning to homelessness.

2) The CoC reduces returns to homelessness by offering wrap-around supportive services throughout program participation. For example, the CoC funded permanent supportive housing projects encourage each resident to develop and achieve personal goals within three distinct program objectives: 1) to obtain and remain in permanent housing; 2) to achieve self-determination and 3) to increase skills and income. As a result clients are able to access mainstream and community services, increase income, and prevent returns to homelessness. Additionally, the existing CoC and ESG funded rapid re-housing projects provide graduated rental assistance, which requires the client to pay an increased portion of the rent as the program progresses promoting budget management and increasing housing retention rates.

3) To further ensure homelessness in Lee County is non-recurring, the CoC Governing Board has established a goal of less than 30% of exits from CoC and ESG funded projects result in a return to homelessness. Goals for each system performance measure are set by the CoC Governing Board. Collaborative applicant staff, including the Contracts Specialist, Grants Analyst and HMIS manager, actively monitor project performance. System and project level performance data is reviewed by the CoC Governing Board and General Membership at least annually.

3A-5. Job and Income Growth. Applicants must:

- (1) describe the CoC's strategy to increase access to employment and non-employment cash sources;**
 - (2) describe how the CoC works with mainstream employment organizations to help individuals and families increase their cash income; and**
 - (3) provide the organization name or position title that is responsible for overseeing the CoC's strategy to increase job and income growth from employment.**
- (limit 2,000 characters)**

1) & 2) Employment specialists at agencies throughout the CoC's geographic area increase access to income from all sources. These specialists provide assistance completing resumes, finding employment, making referrals to job training programs, and increasing soft skills. CoC partners also regularly access services through Goodwill Job Link and SWFL Career Source. Additionally, the Collaborative Applicant (CA) offers a soft skills training course which is free and open to all Lee County residents. The CA is also represented on the workforce development board, which is tasked with administering funding for employment and training services in the CoC's geographic area. To increase access to non-employment income sources, such as SSI and SSDI, the CoC uses SOAR trained case managers located at several agencies throughout the CoC's geographic area. The CoC also collaborates with the managing entity, Central Florida Behavioral Health Network, to provide SOAR training and increase collaboration among SOAR case managers. The CA has a dedicated SOAR case manager to ensure that clients receiving services through existing programs have access to non-employment income sources.

3) To further ensure economic and job growth, the CoC Governing Board has established a goal of 45% for all adult leavers and stayers to maintain or increase income from all sources in CoC and ESG funded projects. Goals for each system performance measure are set by the CoC Governing Board.

Collaborative applicant staff, including the Contracts Specialist, Grants Analyst and HMIS manager, actively monitor project performance. System and project level performance data is reviewed by the CoC Governing Board and General Membership at least annually.

the date the CoC submitted the System
Performance Measures data in HDX, which
included the data quality section for FY 2017

For guidance on completing this application, please reference the FY 2018 CoC Application Detailed Instructions and the FY 2018 CoC Program Competition NOFA. Please submit technical questions to the HUD Exchange Ask A Question.

3B-1. DedicatedPLUS and Chronically Homeless Beds. In the boxes below, applicants must enter:

- (1) total number of beds in the Project Application(s) that are designated as DedicatedPLUS beds; and
- (2) total number of beds in the Project Application(s) that are designated for the chronically homeless, which does not include those that were identified in (1) above as DedicatedPLUS Beds.

Total number of beds dedicated as DedicatedPLUS	0

3B-2. Orders of Priority. Did the CoC adopt the Orders of Priority into their written standards for all CoC Program-funded PSH projects as described in Notice CPD-16-11: Prioritizing Persons Experiencing Chronic Homelessness and Other Vulnerable Homeless Persons in Permanent Supportive Housing? Attachment Required. Yes

3B-2.1. Prioritizing Households with Children. Using the following chart, applicants must check all that apply to indicate the factor(s) the CoC currently uses to prioritize households with children during FY 2018.

History of or Vulnerability to Victimization (e.g. domestic violence, sexual assault, childhood abuse)	<input checked="" type="checkbox"/>
Number of previous homeless episodes	<input checked="" type="checkbox"/>
Unsheltered homelessness	<input checked="" type="checkbox"/>
Criminal History	<input checked="" type="checkbox"/>

3B-2.2. Applicants must:

- (1) describe the CoC's current strategy to rapidly rehouse every household of families with children within 30 days of becoming homeless;**
(2) describe how the CoC addresses both housing and service needs to ensure families successfully maintain their housing once assistance ends; and
(3) provide the organization name or position title responsible for overseeing the CoCs strategy to rapidly rehouse families with children within 30 days of becoming homeless.
(limit 2,000 characters)

1) CoC and ESG funded RRH programs use the Coordinated Entry System and housing specialists to rapidly rehouse families with children as quickly as possible. The Coordinated Entry System assesses and prioritizes families with children for housing and services based on vulnerability and severity of service needs. Families prioritized for rapid rehousing meet with a housing specialist, who identifies housing barriers and options. If clients choose housing from available stock, they are typically housed within 30 days through ESG and CoC funded RRH projects. The CoC continues to strive for improvement in decreasing the length of time a family remains on the street or in emergency shelter or safe haven before they are moved into RRH programs.

2) The CoC addresses housing and service needs by offering wrap-around supportive services throughout program participation and after program exit. For example, the Salvation Army provides RRH participants with supportive services for up to 6 months after program exit to ensure self-sufficiency. Supportive services also include referrals to job training, employment assistance, behavioral health treatment, education services, and more, all of which are structured to assist the client in gaining and maintaining self-sufficiency. Further, the existing CoC and ESG funded RRH projects require clients to pay an increased portion of the rent as the program progresses promoting budget management and self-sufficiency.

3) The CoC Governing Board established the goal that persons should exit emergency shelters or safe havens to a permanent housing destination within 116 days. Goals for each system performance measure are set by the CoC Governing Board. Collaborative applicant staff, including the Contracts Specialist, Grants Analyst and HMIS manager, actively monitor project performance. System and project level performance data is reviewed by the CoC Governing Board and General Membership at least annually.

3B-2.3. Antidiscrimination Policies. Applicants must check all that apply that describe actions the CoC is taking to ensure providers (including emergency shelter, transitional housing, and permanent supportive housing (PSH and RRH) within the CoC adhere to antidiscrimination policies by not denying admission to or separating any family members from other members of their family or caregivers based on age, sex, gender, LGBT status, marital status, or disability when entering a shelter or housing.

CoC conducts mandatory training for all CoC and ESG funded service providers on these topics.	<input type="checkbox"/>
CoC conducts optional training for all CoC and ESG funded service providers on these topics.	<input type="checkbox"/>
CoC has worked with ESG recipient(s) to adopt uniform anti-discrimination policies for all subrecipients.	<input type="checkbox"/>
CoC has worked with ESG recipient(s) to identify both CoC and ESG funded facilities within the CoC geographic area that may be out of compliance, and taken steps to work directly with those facilities to come into compliance.	<input type="checkbox"/>

CoC has sought assistance from HUD through submitting AAQs or requesting TA to resolve non-compliance of service providers.	<input type="checkbox"/>
-----------------------------------------------------------------------------------------------------------------------------	--------------------------

Number of Previous Homeless Episodes	<input checked="" type="checkbox"/>
Unsheltered Homelessness	<input checked="" type="checkbox"/>
Criminal History	<input checked="" type="checkbox"/>
Bad Credit or Rental History	<input checked="" type="checkbox"/>

3B-2.6. Applicants must describe the CoC's strategy to increase:
(1) housing and services for all youth experiencing homelessness by providing new resources or more effectively using existing resources, including securing additional funding; and
(2) availability of housing and services for youth experiencing unsheltered homelessness by providing new resources or more effectively using existing resources.
(limit 3,000 characters)

1) The CoC reviews data regarding the number of youth who are homeless and those who are aging out of foster care at least annually, and pursues resources based on the demonstrated need. The Partnering for Results program, funded by the collaborative applicant, is being increased during the 2018-2019 fiscal year to provide additional funding to the Early Learning Coalition (ELC) and other non-profit agencies who provide housing and services for unaccompanied and parenting youth. It is estimated that these changes will result in an additional 325 children being provided care through ELC, and another \$600,000 available for other non-profit programs. In addition, Lee County Housing Authority has 25 Family Unification Vouchers, which are used for youth aging out of foster care and preventing family separation. Youth receiving FUP assistance are also provided priority for the PHA's Family Self Sufficiency

program, which increases positive exits to permanent housing and allows resources to be used for new families. Additional funding is also made available through the State Housing Initiative Partnership's 20% special needs set-aside, which designates young adults formerly in foster care as an eligible population group.

2) The CoC has a discharge planning MOU with Children's Network of SWFL (local DCF contractor) to facilitate housing and services for youth aging out of the foster care system. Referrals for services and housing for youth experiencing homelessness are made to CoC partner agencies, such as The Salvation Army, Early Learning Coalition (ELC), Children's Home Society (local youth service provider), Beyond Barriers (local youth service provider), Lee County Schools, Lutheran Services (local youth service provider), DCF, and Center for Progress and Excellence (local behavioral health provider). Unaccompanied youth, below age 18, who are experiencing unsheltered homelessness can access emergency shelter at Lutheran Services Oasis Shelter. Additionally, Children's Network of SWFL offers extended foster care, independent living, and postsecondary educational service and support programs for youth aging out of foster care.

3B-2.6a. Applicants must:

(1) provide evidence the CoC uses to measure both strategies in question 3B-2.6. to increase the availability of housing and services for youth experiencing homelessness;

(2) describe the measure(s) the CoC uses to calculate the effectiveness of the strategies; and

(3) describe why the CoC believes the measure it uses is an appropriate way to determine the effectiveness of the CoC's strategies.

(limit 3,000 characters)

1 & 2) To examine the overall effectiveness of programs currently available within the CoC's geographic area, the CoC reviews data regarding the number of youth who are homeless and those who are aging out of foster care at least annually. The 2018 PIT count revealed a total of 22 youth, ages 18-24, who were homeless on the night of the count. Of those, 10 were residing in emergency shelter, 3 in transitional housing facilities, and 9 in unsheltered homelessness. Data regarding youth exiting foster care was gathered from Children's Network of SWFL (CNSWFL) in February 2018. The data revealed that 30 youth, ages 18-21, were enrolled in extended foster care and 39 youth, ages 18-22, were enrolled in post-secondary education service and support. Approximately 17 youth were terminated from CNSWFL programs for non-compliance, and approximately 56 youth will be aging out of foster care during 2018. CNSWFL identified affordable housing and transportation as continued needs for youth. The CoC measures the effectiveness of youth specific programs, such as FUP, by reviewing the utilization rate of the vouchers. As of August 1, 2018 the utilization rate is 80%. The impacts of increased funding to the Early Learning Coalition will be measured by the increased number of children being provided services. The performance measures for additional programs funded by Partnering for Results will be reviewed as contracts are monitored.

3) The CoC believes these data sources and measurements are the most appropriate means to measure the effectiveness existing programs to address the needs of youth experiencing homelessness because they provide a clear picture of the number of youth being served, as well as those who are at risk for

homelessness. The CoC can then use this data to pursue additional resources based on the demonstrated need.

3B-2.7. Collaboration–Education Services. Applicants must describe how the CoC collaborates with:

- (1) youth education providers;**
 - (2) McKinney-Vento State Education Agency (SEA) and Local Education Agency (LEA);**
 - (3) school districts; and**
 - (4) the formal partnerships with (1) through (3) above.**
- (limit 2,000 characters)**

A Lee County School District representative is present at CoC meetings and provides feedback in CoC and other program planning. The school district also collaborates with homeless outreach staff, and staff at the Salvation Army to ensure that children in outreach and RRH programs are enrolled in appropriate services at school. This includes referring homeless families with children to the School District's homeless student program, A.C.C.E.S.S., and providing information regarding local technical schools and universities, which may offer programs and assistance for persons who are homeless. The Salvation Army has a formal MOU with the Early Learning Coalition to provide childcare for families who are experiencing homelessness, and/or are enrolled in the CoC funded RRH program. The collaborative applicant also provides funding to the Early Learning Coalition (ELC), through a contract, to increase the number of families that can be assisted with child care each year. The CoC has also executed a member agency MOU with Lutheran Services, who receives RHY funding to provide emergency shelter and services for youth within the CoC's geographic area. Additional collaboration takes place during CoC Governing Board and general membership meetings which are attended by non-profit youth housing and service providers. The CoC ensures that individuals and families who become homeless are informed of their eligibility for educational services through monitoring of policies, procedures and practices at funded agencies, and has also adopted CoC-wide Written Standards that incorporate provisions for ensuring service providers inform homeless persons of their eligibility for education services.

3B-2.7a. Applicants must describe the policies and procedures the CoC adopted to inform individuals and families who become homeless of their eligibility for education services.
(limit 2,000 characters)

The CoC-wide written standards specify that all Lee County CoC service providers must have written policies in place to ensure that individuals and families who become homeless are informed of their eligibility for and receive access to educational services. These policies should include how homeless families with children will be informed of and referred to the Lee County School Districts homeless students program, A.C.C.E.S.S. Such policies should also include information for all homeless individuals and families regarding local technical schools and universities, which may offer programs and assistance for persons who are homeless. Additionally, programs that specifically serve families with children must have a staff person designated as the education liaison that will ensure that children are enrolled in school and connected to the

A.C.C.E.S.S. program, as well as Head Start, if applicable. The CoC ensures that individuals and families who become homeless are informed of their eligibility for educational services through monitoring of policies, procedures and practices at funded agencies.

3B-2.8. Does the CoC have written formal agreements, MOU/MOAs or partnerships with one or more providers of early childhood services and supports? Select "Yes" or "No". Applicants must select "Yes" or "No", from the list below, if the CoC has written formal agreements, MOU/MOA's or partnerships with providers of early childhood services and support.

3B-3.1. Veterans Experiencing Homelessness. Applicants must describe the actions the CoC has taken to identify, assess, and refer Veterans experiencing homelessness, who are eligible for U.S. Department of Veterans Affairs (VA) housing and services, to appropriate resources such as HUD-VASH, Supportive Services for Veterans Families (SSVF) program and Grant and Per Diem (GPD). (limit 2,000 characters)

The CoC maintains a comprehensive by-name list that identifies the veterans experiencing homelessness within the geographic area. Veteran eligibility is determined by the VA and SSVF case managers. In addition, coordinated assessments are conducted for each veteran that presents for services. These assessments determine applicant's vulnerability and helps in making appropriate referrals based on the Veteran status. HUD-VASH receives referrals from coordinated entry, but also allows for direct entry into their program through other means. Clients who are not eligible for assistance through U.S. Department of Veterans Affairs Programs are prioritized for other community services through the Coordinated Entry System. Once assessed, clients are referred to appropriate agencies and services. The CoC reach functional zero status for veteran homelessness in 2016 and continues to monitor veteran inflow and placement.

3B-3.2. Does the CoC use an active list or by name list to identify all Veterans experiencing Yes

homelessness in the CoC?

3B-3.3. Is the CoC actively working with the VA and VA-funded programs to achieve the benchmarks and criteria for ending Veteran homelessness? Yes

3B-3.4. Does the CoC have sufficient resources to ensure each Veteran experiencing homelessness is assisted to quickly move into permanent housing using a Housing First approach? Yes

3B-5. Racial Disparity. Applicants must: Yes
 (1) indicate whether the CoC assessed whether there are racial disparities in the provision or outcome of homeless assistance;
 (2) if the CoC conducted an assessment, attach a copy of the summary.

- 4A-1. Healthcare.** Applicants must indicate, for each type of healthcare listed below, whether the CoC:
- (1) assists persons experiencing homelessness with enrolling in health insurance; and**
 - (2) assists persons experiencing homelessness with effectively utilizing Medicaid and other benefits.**

Type of Health Care	Assist with Enrollment	Assist with Utilization of Benefits?
Public Health Care Benefits (State or Federal benefits, Medicaid, Indian Health Services)	Yes	Yes
Private Insurers:	Yes	Yes
Non-Profit, Philanthropic:	Yes	Yes
Other: (limit 50 characters)		

4A-1a. Mainstream Benefits. Applicants must:

- (1) describe how the CoC works with mainstream programs that assist persons experiencing homelessness to apply for and receive mainstream benefits;**
- (2) describe how the CoC systematically keeps program staff up-to-date regarding mainstream resources available for persons experiencing homelessness (e.g., Food Stamps, SSI, TANF, substance abuse programs); and**
- (3) provide the name of the organization or position title that is responsible for overseeing the CoC's strategy for mainstream benefits. (limit 2,000 characters)**

1) To increase access to mainstream non-employment income sources, such as SSI and SSDI, the CoC uses SOAR trained case managers located at several agencies throughout the CoC. Mainstream employment organizations, such as the Workforce Development Board and Career Source SWFL, work directly with CoC agencies to provide employment and training services. Applicants for other mainstream services such as Food Stamps, TANF, SSI, and Medicaid can use the Department of Children and Families' ACCESS electronic system, which is available at over 60 locations in Lee County. Lee Health, a CoC member agency, operates a community health outreach program for patients who frequently visit the emergency department. The program provides outreach services and assistance with application and use of mainstream benefits,

insurance and acquisition of a primary care physician. In addition, countywide transportation programs provide medical bus passes and other specialized transport to assist with use of mainstream benefits.

2) The CA and Homeless Coalition ensure that program staff remain informed of mainstream and other resources through monthly meetings, newsletters, and ongoing e-mail distributions from DCF. The CoC collaborates with the managing entity, Central Florida Behavioral Health Network, to provide SOAR training and increase collaboration among SOAR case managers.

3) To further ensure increased utilization of mainstream resources, the CoC Governing Board has established a goal of 45% for all adult leavers and stayers to maintain or increase income from non-earned income sources such as SSI or SSDI. Goals for each system performance measure are set by the CoC Governing Board. Collaborative applicant staff, including the Contracts Specialist, Grants Analyst and HMIS manager, actively monitor project performance. System and project level performance data is reviewed by the CoC Governing Board and General Membership at least annually.

4A-2.Housing First: Applicants must report:

- (1) total number of new and renewal CoC Program Funded PSH, RRH, SSO non-coordinated entry, Safe-Haven, and Transitional Housing projects the CoC is applying for in FY 2018 CoC Program Competition; and**

4A-3. Street Outreach. Applicants must:

- (1) describe the CoC's outreach;**
- (2) state whether the CoC's Street Outreach covers 100 percent of the CoC's geographic area;**
- (3) describe how often the CoC conducts street outreach; and**
- (4) describe how the CoC tailored its street outreach to persons experiencing homelessness who are least likely to request assistance. (limit 2,000 characters)**

1) Daily street outreach engages individuals and families experiencing unsheltered homelessness. Outreach staff receive referrals from several Lee County and City departments, Lee County Schools, law enforcement, fire districts, CoC partner agencies, homeless individuals and families, and other stakeholders. Staff treat each outreach referral with urgency and are typically able to connect with unsheltered individuals and families within 48 hours of referral receipt. Outreach staff provide hygiene items, emergency service

information, and limited clothing and food to engage those living in unsheltered homelessness. After initial meetings, staff complete triage screenings, coordinated assessments, and make referrals to appropriate housing and supportive services.

2) Outreach staff are centrally based at the Collaborative Applicants office, but travel to all locations throughout the CoC's geographic area, ensuring 100% coverage of the CoC's geographic area.

3) Street outreach is conducted by outreach staff daily. In addition to receiving and following up on client referrals from businesses, community partners and individuals, there are outreach events that take place each day of the week at over 20 area service providers. These events include feedings, laundry services, food pantries, medical outreach, and recovery meetings.

4) The Collaborative Application employed a designated street outreach staff member in May 2018 to focus street level outreach on individuals who are least likely to seek assistance from community service providers or at other outreach locations. Outreach staff's relationship with individuals and families who are living in unsheltered situations, has created an increased awareness of other individuals and families who are also experiencing unsheltered homelessness, but are unwilling or unable to seek assistance. Through this network of trust, additional persons have been identified and linked with services.

4A-4. Affirmative Outreach. Applicants must describe:

(1) the specific strategy the CoC implemented that furthers fair housing as detailed in 24 CFR 578.93(c) used to market housing and supportive services to eligible persons regardless of race, color, national origin, religion, sex, gender identify, sexual orientation, age, familial status or disability; and

**(2) how the CoC communicated effectively with persons with disabilities and limited English proficiency fair housing strategy in (1) above.
(limit 2,000 characters)**

1) The CoC is continuously working to implement the Coordinated Entry Affirmative Marketing Strategy (CEAMS), a strategy designed to make CES access, housing and services accessible to all persons regardless of sex, gender, perceived gender, sexual orientation, perceived sexual orientation, age, color, national origin, ethnicity, limited English proficiency, disability status, family status, marital status, or religion. CEAMS requires that CES providers identify individuals who are least likely to apply for assistance, outline an outreach program, and designate indicators to measure success. The Collaborative Applicant also has a robust Language Access Plan which outlines the practices undertaken and resources available to ensure access for persons with limited English Proficiency.

2) The CES, housing and supportive services are marketed throughout the CoC's geographic area via the Collaborative applicants website, social media pages, and through printed materials. Advertising is available in locations and formats anticipated to be used, viewed, or listened to by those least likely to seek services, including at community, religious, and other organizations. Most CoC member organizations have several case managers who can provide translation and interpretation services. Additionally, most program applications and policies are available in Spanish and/or French Creole. Translation and interpretation services can also be provided in a variety of other languages through Lee County's contract with Language Line Services.

4A-5. RRH Beds as Reported in the HIC. Applicants must report the total number of rapid rehousing beds available to serve all household types as reported in the Housing Inventory Count (HIC) for 2017 and 2018.

	2017	2018	Difference
RRH beds available to serve all populations in the HIC	311	242	-69

4A-6. Rehabilitation or New Construction Costs. Are new proposed project applications requesting \$200,000 or more in funding for housing rehabilitation or new construction? No

4A-7. Homeless under Other Federal Statutes. Is the CoC requesting to designate one or more of its SSO or TH projects to serve families with children or youth defined as homeless under other Federal statutes? No

ESTABLISHING PREFERENCES AND MAINTAINING THE WAITING LIST

[24 CFR Part 5, Subpart D; 960.206, 982.54(d)(1); 982.204, 982.205, 982.206, 982.207]

INTRODUCTION

It is LCHA's objective to ensure that families are placed in the proper order on the waiting list and selected from the waiting lists for admissions in accordance with the policies in this Administrative Plan.

By maintaining accurate waiting lists, the LCHA will be able to perform the activities which ensure that an adequate pool of qualified applicants will be available so that program funds are used in a timely manner.

A. WAITING LIST [24 CFR 982.204]

The LCHA uses the following waiting lists:

1. Housing Choice Voucher (HCV) Program
2. Project Based Voucher Program
 - Individual developments where PBV program applies

Except for Special Admissions, applicants will be selected from the LCHA waiting lists in accordance with policies and preferences and income targeting requirements defined in this Administrative Plan.

The LCHA will maintain information that permits proper selection from the waiting list.

The waiting list contains the following information for each applicant listed:

Applicant name

Family unit size (number of bedrooms family qualifies for under LCHA subsidy standards)

Date and time of application

Qualification for any local preference

Racial or ethnic designation of the head of household

*Annual (gross) family income

*Number of persons in family

B. SPECIAL ADMISSIONS [24 CFR 982.54(d)(e), 982.203]

If HUD awards LCHA program funding that is targeted for specific families living in specified units, the LCHA will admit these families under a Special Admission procedure.

Special admissions families will be admitted outside of the regular waiting list process. They do not have to qualify for any preferences, nor are they required to be on the program waiting list. The LCHA maintains separate records of these admissions.

The following are examples of types of program funding that may be designated by HUD for families living in a specified unit:

- A family displaced because of demolition or disposition of a public or Indian housing project;

- A family residing in a multifamily rental housing project when HUD sells, forecloses or demolishes the project;

- For housing covered by the Low Income Housing Preservation and Resident Homeownership Act of 1990;

- A family residing in a project covered by a project-based Section 8 HAP contract at or near the end of the HAP contract term; and

A non-purchasing family residing in a HOPE I, HOPE II, or HOPE VI project.

Applicants, who are admitted under Special Admissions, rather than from the waiting list, **are not** maintained on separate lists.

Witness Relocation Program

Summary:

The Witness Relocation Program provides rental assistance in the form of Section 8 housing vouchers for the relocation of witnesses in connection with efforts to combat violent crimes that occur in and around public, Indian, and other HUD-assisted housing. Since its inception in 1996, HUD's Office of Inspector General (OIG) has used this program to successfully relocate hundreds of witnesses and their families throughout the United States.

Purpose:

The Witness Relocation Program is designed to offer protection to persons who are cooperating as witnesses in the government's efforts to combat violent crimes occurring in and around public, Indian, and other HUD-assisted housing. Law enforcement agencies, with the written concurrence of the appropriate prosecutorial entity, may request the emergency relocation of a witness (and their immediate family) that is assisting law enforcement in a criminal matter and fears retribution, or has been threatened as a result of the assistance and/or testimony provided.

The OIG facilitates the protection of witnesses by removing them and their immediate families from potential danger and relocating them to a secure area selected by the OIG in cooperation with the relevant federal, state, tribal, or local law enforcement agencies.

Eligible Customers:

Witnesses to violent crimes occurring in or around public, Indian, or other HUD-assisted housing that cooperate with the relevant governmental law enforcement and prosecutorial agencies in their investigation and prosecution of the perpetrators are eligible for the program. The witness (and their immediate family) is not required to be a current resident of the aforementioned HUD-assisted housing in order to be considered eligible for the Witness Relocation Program, but must be otherwise eligible to receive Section 8 housing voucher assistance. Final determination of program eligibility is made by the OIG and HUD's Office of Public and Indian Housing.

D. INCOME TARGETING

In accordance with the Quality Housing and Work Responsibility Act of 1998, each fiscal year the LCHA will reserve a minimum of seventy-five percent (**75%**) of its Section 8 new admissions for families whose income does not exceed 30 percent of the area median income. HUD refers to these families as "extremely low-income families." The LCHA will admit families who qualify under the Extremely Low Income limit to meet the income targeting requirement, regardless of preference.

The LCHA's income targeting requirement does not apply to low income families continuously assisted as provided for under the 1937 Housing Act.

The LCHA is also exempted from this requirement where the LCHA is providing assistance to low income or moderate income families entitled to preservation assistance under the tenant-based program as a result of a mortgage prepayment or opt-out.

E. TARGETED FUNDING [24 CFR 982.203]

When HUD awards special funding for certain family types, families who qualify are placed on the regular waiting list. When a specific type of funding becomes available, the waiting list is searched for the first available family meeting the targeted funding criteria.

Deny any admission preference for which the applicant is currently qualified;

Change the applicant's place on the waiting list based on preference, date and time of application, or other factors affecting selection under the LCHA selection policy; or

H. FINAL VERIFICATION OF PREFERENCES [24 CFR 982.207]

I. PREFERENCE DENIAL [24 CFR 982.207]

Applicants may exercise other rights if they believe they have been discriminated against.

*** If the applicant falsifies documents or makes false statements in order to qualify for any preference, they will be removed from the waiting list.**

J. REMOVAL FROM WAITING LIST AND PURGING [24 CFR 982.204(c)]

The Waiting List will be purged at least one time each year by a mailing to all applicants to ensure that the waiting list is current and accurate. The mailing will ask for confirmation of continued interest.

Any mailings to the applicant which require a response will state that failure to respond within [10] days will result in the applicant's name being dropped from the waiting list.

An extension of [10] days to respond will be granted, if requested and needed as a reasonable accommodation for a person with a disability.

If they fail to respond within [10] days, they will be removed from the waiting list.

If the applicant did not respond to the LCHA request for information or updates because of a family member's disability, the LCHA will reinstate the applicant in the family's former position on the waiting list.

If a letter is returned by the Post Office without a forwarding address, the applicant will be removed without further notice, and the envelope and letter will be maintained in the file.

If an applicant is removed from the waiting list for failure to respond, they will not be entitled to reinstatement unless the Section 8 Director determines there were circumstances beyond the person's control.

ESTABLISHING PREFERENCES AND MAINTAINING THE WAITING LIST

[24 CFR Part 5, Subpart D; 960.206, 982.54(d)(1); 982.204, 982.205, 982.206, 982.207]

INTRODUCTION

It is HACFM's objective to ensure that families are placed in the proper order on the waiting list and selected from the waiting lists for admissions in accordance with the policies in this Administrative Plan.

By maintaining accurate waiting lists, the HACFM will be able to perform the activities which ensure that an adequate pool of qualified applicants will be available so that program funds are used in a timely manner.

A. WAITING LIST [24 CFR 982.204]

The HACFM uses the following waiting lists:

1. Housing Choice Voucher (HCV) Program
2. Project Based Voucher Program
 - Individual developments where PBV program applies

Except for Special Admissions, applicants will be selected from the HACFM waiting lists in accordance with policies and preferences and income targeting requirements defined in this Administrative Plan.

The HACFM will maintain information that permits proper selection from the waiting list.

The waiting list contains the following information for each applicant listed:

Applicant name

Family unit size (number of bedrooms family qualifies for under HACFM subsidy standards)

Date and time of application

Qualification for any local preference

Racial or ethnic designation of the head of household

*Annual (gross) family income

*Number of persons in family

B. SPECIAL ADMISSIONS [24 CFR 982.54(d)(e), 982.203]

If HUD awards HACFM program funding that is targeted for specific families living in specified units, the HACFM will admit these families under a Special Admission procedure.

Special admissions families will be admitted outside of the regular waiting list process. They do not have to qualify for any preferences, nor are they required to be on the program waiting list. The HACFM maintains separate records of these admissions.

The following are examples of types of program funding that may be designated by HUD for families living in a specified unit:

- A family displaced because of demolition or disposition of a public or Indian housing project;

- A family residing in a multifamily rental housing project when HUD sells, forecloses or demolishes the project;

- For housing covered by the Low Income Housing Preservation and Resident Homeownership Act of 1990;

- A family residing in a project covered by a project-based Section 8 HAP contract at or near the end of the HAP contract term; and

A non-purchasing family residing in a HOPE I, HOPE II, or HOPE VI project.

Applicants, who are admitted under Special Admissions, rather than from the waiting list, **are not** maintained on separate lists.

Witness Relocation Program

Summary:

The Witness Relocation Program provides rental assistance in the form of Section 8 housing vouchers for the relocation of witnesses in connection with efforts to combat violent crimes that occur in and around public, Indian, and other HUD-assisted housing. Since its inception in 1996, HUD's Office of Inspector General (OIG) has used this program to successfully relocate hundreds of witnesses and their families throughout the United States.

Purpose:

The Witness Relocation Program is designed to offer protection to persons who are cooperating as witnesses in the government's efforts to combat violent crimes occurring in and around public, Indian, and other HUD-assisted housing. Law enforcement agencies, with the written concurrence of the appropriate prosecutorial entity, may request the emergency relocation of a witness (and their immediate family) that is assisting law enforcement in a criminal matter and fears retribution, or has been threatened as a result of the assistance and/or testimony provided.

The OIG facilitates the protection of witnesses by removing them and their immediate families from potential danger and relocating them to a secure area selected by the OIG in cooperation with the relevant federal, state, tribal, or local law enforcement agencies.

Eligible Customers:

Witnesses to violent crimes occurring in or around public, Indian, or other HUD-assisted housing that cooperate with the relevant governmental law enforcement and prosecutorial agencies in their investigation and prosecution of the perpetrators are eligible for the program. The witness (and their immediate family) is not required to be a current resident of the aforementioned HUD-assisted housing in order to be considered eligible for the Witness Relocation Program, but must be otherwise eligible to receive Section 8 housing voucher assistance. Final determination of program eligibility is made by the OIG and HUD's Office of Public and Indian Housing.

CoC THRESHOLD REQUIREMENTS DEFINITIONS

The Tool contains 11 suggested CoC threshold requirements. The CoC Threshold Requirements Definition Chart provides a general definition of each requirement. CoCs can update these definitions to be consistent with local requirements including increasing threshold requirements as appropriate. The CoC will need to establish local policies or standards to determine what is an acceptable response to the requirement.

CoC Threshold Requirement	Definition
Coordinated Entry Participation	The project participates or intends to participate in coordinated entry in compliance with the CoC's Coordinated Entry Policies and Procedures and HUD's Coordinated Entry Notice.
Housing First and/or Low Barrier Implementation	The project is, or intends to be, designed and implemented using Housing First principles including: no preconditions or barriers to entry except as required by funding sources, and provision of necessary supports to maintain housing and prevent a return to homelessness.
Documented, secured minimum match	Applicant has match commitments that satisfy CoC Program Rule requirements for source and amount.
Project has reasonable costs per permanent housing exit as defined locally	Cost per permanent housing exit can be determined by dividing total project costs by the number of permanent housing exits. These costs can be averaged across all projects within a project type to determine the average cost per permanent housing exit for the community for that project type. The CoC can use this information to define a reasonable cost locally.
Project is financially feasible	Project has funding commitments equal to or exceeding project budget.
Applicant is active CoC Participant	Applicant participation in CoC Board and committee meetings meets CoC requirements for a member in good standing.
Application is complete and data are consistent	All required information is completed and all required attachments are provided. Data provided in response to different questions match.
Data quality at or above 90%	Data elements required by HUD and the CoC have a 90% or higher completion rate.
Bed/unit utilization rate at or above 90%	Beds or units in the project are occupied 90% or more of the operating year.
Acceptable organizational audit/financial review	Applicant's audit or financial review does not contain findings or other indications of financial or accounting problems.
Documented organizational financial stability	Applicant's financial statements for previous fiscal year demonstrates financial stability sufficient to support operation of the project during the next operating year.

SOURCE OF DATA FOR RATING CRITERIA

CoCs can evaluate project compliance with CoC and HUD requirements and project performance through review of data, project documents and project operations. The suggested data sources for the rating criteria included in the tool are listed below as a resource for CoCs when they are customizing the rating templates in the "Customize Rating Criteria" tab. If available, a CoC can use a local report to evaluate performance.

FUNDING ANALYSIS TAB LOGIC

DETERMINING PROJECT PRIORITY

The programming for the '**FUNDING ANALYSIS + RANKING**' tab applies the following logic to the project type and population targets indicated in the '**FUNDING CEILINGS + PRIORITIES**' tab to determine the rank order of the projects based on the priorities indicated.

Ratio of Beds within a Project	How Priority is Determined
If a Project has any beds dedicated to a subpopulation...	
1. Does the project have DV beds?	<ul style="list-style-type: none"> The project is ranked based on the relevant DV priority (e.g., DV Fam, DV Ind)
2. Does the project have at least 50% of its total beds dedicated to CH Fam, CH Ind, Vet Fam, Vet Ind OR Parenting Youth?	<ul style="list-style-type: none"> The project is ranked based on that subpopulation's priority. If multiple subpopulations meet the 50+% threshold, ranking is based on the highest ranked of the subpopulations.
3. Even though no one subpopulation meets the 50% threshold, is the sum of dedicated beds 50% or greater?	<ul style="list-style-type: none"> Both subpopulation and population priorities are ignored for ranking purposes. The project is ranked with other projects that meet unspecified priorities
4. Is the sum of dedicated beds less than 50%?	<ul style="list-style-type: none"> Subpopulation priorities are ignored for ranking purposes. The project is ranked solely based on the overarching population priorities
If a Project doesn't have any beds dedicated to a subpopulation...	
Does the project target > 50% of its beds to Families OR Individuals?	The project is ranked based on the Priority and Funding Ceilings of the Majority Population
Does the project evenly target two populations (50%/50%)?	Ranking is based on the Priority and Funding Ceilings of the Highest Ranked Population (Fam, Ind)
If a Project is Eligible for Bonus or DV Funding...	
1. Is there bonus (or reallocated) funding remaining?	<ul style="list-style-type: none"> The project is highlighted in pink
2. Is there DV bonus funding remaining?	<ul style="list-style-type: none"> The project is highlighted in brown

ALLOCATING BEDS

The programming for the '**FUNDING ANALYSIS + RANKING**' tab uses the following logic to allocate beds and \$ to the funding targets indicated on the '**FUNDING CEILINGS + PRIORITIES**' tab.

Ratio of Beds within a Project	How Subpopulation Bed/\$ Counts are Allocated	How "All Families" and "All Individuals" Bed/\$ Counts are Allocated	How funding caps are allocated	Notes
If a Project does not have any beds dedicated to a subpopulation....				
	N/A	All beds are counted for their assigned population group	All \$ are counted for their assigned population group, pro-rated by beds	

TOOL RESOURCES

If a Project has any beds dedicated to a subpopulation...				
1. Does the project have DV beds?	Beds are allocated to the DV need (e.g., DV Fam, DV Ind)	Beds are not allocated to All Fam need or All Ind need (since they would not be able to meet the needs of non-DV Fam or non-DV Ind)	\$ are allocated to the DV need (e.g., DV Fam, DV Ind), prorated by beds	If DV is selected, Tool assigns all of the Population Beds (e.g., Fam or Ind) to DV
2. Does the project have at least 50% of its beds dedicated to CH Fam, CH Ind, Vet Fam, Vet Ind <u>OR</u> Parenting Youth?	Subpopulation beds are counted within their specific subpopulation category. <i>E.g., if a 100 bed project for Individuals has 25 beds for CH and 25 beds for Vets, 25 beds would count toward the CH cap and 25 beds could count toward the Vet cap.</i>	After subtracting the sum of any dedicated beds, the remaining Fam or Ind beds are counted within their specific Population category <i>E.g., if a 100 bed project for Individuals has 25 beds for CH and 25 beds for Vets, 50 beds would count toward All Ind cap.</i>	All subpopulation \$ is prorated based on the beds, and then counted within their specific subpopulation category. <i>E.g., if a 100 bed project for Individuals has 25 beds for CH and 25 beds for Vets, 25% of the total would be counted toward CH, 25% for Vets, and 50% for All Ind.</i>	The tool does not attempt to reconcile overlapping criteria, therefore a project that is 100% dedicated to CH and Vets will be counted as meeting both the Vet and CH criteria. Your CoC may need to manually adjust ranking if the projects with combined eligibility criteria do not adequately meet identified system needs.
3. Even if no single subpopulation meets the 50% threshold, is the sum of dedicated beds 50% or greater than the total project beds?				
4. Is the sum of dedicated beds less than 50%?

Policy Priorities. This section provides additional context regarding HUD's selection criteria.

1. Ending homelessness for all persons. To end homelessness, CoCs should identify, engage, and effectively serve all persons experiencing homelessness. CoCs should measure their performance based on local data that consider the challenges faced by all subpopulations experiencing homelessness in the geographic area (e.g., veterans, youth, families, or those experiencing chronic homelessness). CoCs should have a comprehensive outreach strategy in place to identify and continuously engage all unsheltered individuals and families. Additionally, CoCs should use local data to determine the characteristics of individuals and families with the highest needs and longest experiences of homelessness to develop housing and supportive services tailored to their needs.

2. Creating a systemic response to homelessness. CoCs should be using system performance measures such as the average length of homeless episodes, rates of return to homelessness, and rates of exit to permanent housing destinations to determine how effectively they are serving people experiencing homelessness. Additionally, CoCs should use their Coordinated Entry process to promote participant choice, coordinate homeless assistance and mainstream housing and services to ensure people experiencing homelessness receive assistance quickly, and make homelessness assistance open, inclusive, and transparent.

3. Strategically allocating and using resources. Using cost, performance, and outcome data, CoCs should improve how resources are utilized to end homelessness. CoCs should review project quality, performance, and cost effectiveness. CoCs should review all projects eligible for renewal in FY 2018 to determine their effectiveness in serving people experiencing homelessness, including cost effectiveness.

4. Use a Housing First approach. Housing first prioritizes rapid placement and stabilization in permanent housing and does not have service participation requirements or preconditions. CoC Program funded projects should help individuals and families move quickly into permanent housing, and the CoC should measure and help projects reduce the length of time people experience homelessness.

HUD Funding Process. HUD will continue a Tier 1 and Tier 2 funding process.

Tier 1. Tier 1 is **\$1,567,251**. Project applications in Tier 1 will be conditionally selected from the highest scoring CoC to the lowest scoring CoC, provided the project applications pass both eligibility and threshold review. Any type of new or renewal project application can be placed in Tier 1.

Tier 2. Tier 2 is the difference between Tier 1 and **\$1,667,288** plus the amount available for bonus projects - **\$154,496** (not including amounts available for DV Bonus).

Projects Straddling Tiers. If a project application straddles the Tier 1 and Tier 2 funding line, HUD will conditionally select the project up to the amount of funding that falls within Tier 1. Using the CoC score and other factors, HUD may fund the Tier 2 portion of the project. If HUD does not fund the Tier 2 portion of the project, HUD may award the project at the reduced amount, provided the project is still feasible with the reduced funding (e.g., is able to continue serving homeless program participants effectively).

Domestic Violence (DV) Bonus. The FY 2018 HUD Appropriations Act provides up to \$50 million for “rapid re-housing projects and supportive service projects providing coordinated entry and for eligible activities that the Secretary determines are critical in order to assist survivors of domestic violence, dating violence, and stalking.” **The maximum amount that Lee County can apply for is \$257,493.**

A CoC may apply for one of each of the following types of projects:

- (1) Rapid Re-housing (PH-RRH) projects that must follow a housing first approach.
- (2) Joint TH and PH-RRH component projects as defined in Section II.C.3.m of this NOFA that must follow a housing first approach.
- (3) SSO Projects for Coordinated Entry (SSO-CE) to implement policies, procedures, and practices that equip the CoC’s coordinated entry to better meet the needs of survivors of domestic violence, dating violence, sexual assault, or stalking (e.g., to implement policies and procedures that are trauma-informed, client-centered or to better coordinate referrals between the CoC’s coordinated entry and the victim service providers coordinated entry system where they are different).

A CoC can only submit one project application for each project type: PH-RRH, Joint TH and PH-RRH, and SSO-CE.

CoC (aka Regular) Bonus. The FY 2018 Notice of Funding Availability provides up to **\$154,496** for new projects. Eligible project types include:

- (1) Permanent housing-permanent supportive housing (PH-PSH) projects where 100 percent of the beds are dedicated to individuals and families experiencing chronic homelessness, as defined in 24 CFR 578.3.
- (2) CoCs may create new permanent housing-rapid rehousing (PH-RRH) projects that will serve homeless individuals and families, including unaccompanied youth;
- (3) Joint TH and PH-RRH component projects to serve homeless individuals and families, including individuals or families fleeing or attempting to flee domestic violence, dating violence, sexual assault, or stalking.

CoC Application	Submitted to HUD on September 25, 2017
Priority Listing	Submitted to HUD on September 25, 2017

In addition to the COC application, Lee County has competed state-wide for additional funding to support programs for the homeless. When available, the Florida Challenge Grant, Emergency Solutions Grant, Homelessness Prevention-Temporary Assistance for Needy Families Grant, and the Florida Homeless Housing Assistance Grant have provided a variety of needed services and housing opportunities to various non-profit agencies in Lee County.

Ten Year Plan to End Homelessness

Lee County's Ten Year Plan to End Homelessness was developed by eight subcommittees, but many community groups are involved in its implementation, and are working to accomplish the goals set forth in the plan. Organizations enter accomplishments made toward the goals of the plan in the corresponding Ten Year Plan to End Homelessness Database. A quarterly report on the progress is presented to the Lee County Human Services Council.

Good Morning,

The 2018 Continuum of Care competitive funding cycle will open soon. HUD encourages the reallocation of underperforming or underutilized projects, as well as those that are not cost effective. Attached is a request for consideration of voluntary reallocation and the CoC Reallocation and Ranking Policies and Procedures. Please review both documents attached and consider reallocating funds for new projects.

Submit any letters of intent to reallocate by 5:00 pm on Monday, April 30, 2018.

If you have any questions about the information attached, please let me know.

Lee County is preparing for the opening of the 2018 U.S. Department of Housing and Urban Development (HUD) competitive Continuum of Care (CoC) funding cycle. It is anticipated that 2018 funding will be insufficient to fully fund the renewal of all currently funded projects, therefore; HUD recommends that existing projects be strategically evaluated and ranked by performance, and the poorest performing projects be reallocated. Reallocating total or partial funding from existing projects provides the most assurance that Lee County will receive funds equal to the amount of currently funded projects.

In considering reallocation, please review project performance data, spending/drawdown history, and previous monitoring reports in coordination with the 2018 Project Ranking Tool, found at <https://www.leegov.com/dhs/funding/coc>, to ensure that your project meets the minimum threshold requirements and is performing adequately. The lowest performing projects will be ranked in Tier 2 of the 2018 HUD CoC application, and may not be funded.

Lee County is accepting letters of intent to voluntarily reallocate funds from existing projects. An agency may reallocate all or part of existing projects into one new eligible project, but the maximum budget cannot exceed the 2017 award of the project(s). Funds may be reallocated into the following types new projects:

1. New permanent supportive housing for chronically homeless individuals and families, including unaccompanied youth.
2. New rapid re-housing projects for homeless individuals and/or families (including unaccompanied youth) directly from the streets or emergency shelter or fleeing domestic violence situations.

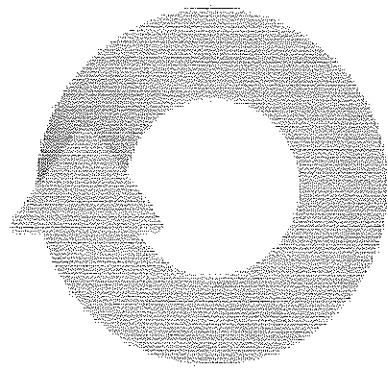

(Additional project types, such as Joint Transitional Housing – Rapid Re-Housing, may be available within the 2018 HUD Notice of Funding Availability (NOFA). The new project type may be changed upon release of the NOFA.)

There are numerous resources available on program design, eligible costs, and requirements of each type of program at the HUD Exchange (<https://www.hudexchange.info/coc/>). Please ensure agency staff are familiar with these requirements and any changes that may result from program reallocation prior to submitting a Letter of Intent to Reallocate Funds.

A Letter of Intent to Reallocate Funds must be submitted **by email** to Jeannie Sutton, Grants Coordinator, Lee County Human and Veteran Services, at jsutton@leegov.com by **Monday, April 30, 2018**. The letter must contain the following items:

1. The currently funded project(s) proposed for reallocation.
2. The total amount of funding to be reallocated.
3. The total number of individuals that will be affected by the reallocation and the plan for sustaining units after funds are reallocated.
4. An overview of the new proposed project, including the population served.

After review of the letters, each agency will be contacted for full program detail and completion of the 2018 Project Application. Any questions can be directed to Jeannie Sutton, Grants Coordinator, Lee County Human and Veteran Services, at jsutton@leegov.com or by phone at 239-533-7958.

RECORD OF CHANGES

[illegible]

I. Background

The U.S. Department of Housing and Urban Development (HUD) requires the Continuum of Care (CoC) to develop a reallocation process for projects funded with CoC funds. Reallocating funds is an important tool used by CoCs to make strategic improvements to their homelessness system. Through reallocation, the CoC can create new, evidence-informed projects by eliminating projects that are underperforming, or are more appropriately funded from other sources. Reallocation is particularly important when new resources are not available.

The CoC will make all funding decisions based on alignment with HUD guidelines, performance measures, and unspent project funds. Reallocated projects will be encouraged to seek funders that will continue to support the contributions these projects make to the CoC.

II. Reallocation Policy

A. Voluntary Reallocation

A recipient, as defined in 24 CFR §578.3, may voluntarily reallocate its existing project by reducing its project's annual renewal amount in whole or in part, as defined in 24 CFR §578. A recipient that voluntarily reallocates its existing project awards and wishes to create a new, eligible project, may submit a new project application to the Lee County CoC. Solicitation for voluntary reallocation will be sent via email to the currently funded recipients prior to the opening of the CoC competition each year. If necessary, individual meetings will be scheduled with each recipient to discuss project performance, HUD CoC priorities, and other factors that may affect future funding for each project.

B. Involuntary Reallocation

The CoC will make reasonable efforts to ensure that projects are meeting performance standards and fulfilling the requirements of CoC guidelines prior to enforcing involuntary reallocation. If, after reasonable correction efforts have been made, there continues to be deficiencies in project performance, then the CoC Governing Board may recommend the project for involuntary reallocation.

A determination for involuntary reallocation will be made based on the following criteria:

- a. Project performance, which takes into consideration the type of project, its performance relative to that type, community needs, and timely expenditure of funds;
- b. Utilization and effectiveness, which factors bed/unit operating capacity and cost effectiveness relative to project type and population served;
- c. Extent of participation in HMIS, including, but not limited to, bed coverage, data quality, participation in Coordinated Entry; and

- d. CoC funding priorities as detailed in the most recent CoC Notice of Funding Availability (NOFA) and/or other HUD published priority listings, such as CoC Competition Focus.

The CoC Governing Board will evaluate all projects requesting funding using the most recent CoC Program Competition Notice of Funding Availability (NOFA) and determine if any projects eligible for renewal should be reduced or eliminated to develop new projects. The CoC Governing Board will forward the recommendations to the Ranking Committee to be voted upon.

Recipients who administer a project that has been selected for involuntary reallocation through CoC Governing Board recommendation, and Ranking Committee vote, will receive notification, including the reasons for the reallocation, from Human and Veteran Services in writing, outside of *e-snaps*.

C. Appeal Process

Recipients selected for involuntary reallocation may appeal the decision in writing to the Human and Veteran Services Contracts Manager within seven (7) business days after notification of selection for involuntary reallocation. The written notification should provide documentation supporting continued need for the project in question, and an action plan detailing how the project will meet HUD funding priorities and maintain compliance with all applicable laws and regulations.

The Contracts Program Manager will review all appeals and provide a final recommendation within fourteen (14) business days of receipt of the appeal.

D. Reallocated Funds

CoC Program funds made available through involuntary reallocation may be used to develop one or more new projects. Should no viable, new project be identified, CoC Program funds made available through involuntary reallocation may be available for the expansion of other eligible renewal project(s), subject to current CoC funding priorities and HUD NOFA requirements.

E. Eligible Projects

The CoC may use reallocated funds to create the following projects:

1. New permanent supportive housing projects where all beds will be dedicated for use by chronically homeless individuals and families as defined in 24 CFR §578.3;
2. New rapid re-housing projects for homeless individuals and families who enter directly from the streets or emergency shelters, youth up to age 24, and persons who meet the criteria of paragraph (4) of the definition of homeless in 24 CFR §578.3;

3. New Supportive Services Only (SSO) project specifically for a centralized or coordinated assessment system; and
4. New dedicated Homeless Management Information System (HMIS) project for the costs at 24 CFR §578.37 that must be carried out by the HMIS Lead Agency.
5. Other eligible project types stated in the current year HUD CoC NOFA.

III. Ranking Committee

Members of the Human Services Council will serve as the Ranking Committee. The Committee shall convene a minimum of one time per year to fulfill their purpose of ranking CoC applications. Meetings of the Ranking Committee will be open to the public, and will allow time for public comment.

The Collaborative Applicant will ensure that the committee members are provided, and familiar with, all relevant information related to:

In addition to the COC application, Lee County has competed state-wide for additional funding to support programs for the homeless. When available, the Florida Challenge Grant, Emergency Solutions Grant, Homelessness Prevention-Temporary Assistance for Needy Families Grant, and the Florida Homeless Housing Assistance Grant have provided a variety of needed services and housing opportunities to various non-profit agencies in Lee County.

Ten Year Plan to End Homelessness

Lee County's Ten Year Plan to End Homelessness was developed by eight subcommittees, but many community groups are involved in its implementation, and are working to accomplish the goals set forth in the plan. Organizations enter accomplishments made toward the goals of the plan in the corresponding Ten Year Plan to End Homelessness Database. A quarterly report on the progress is presented to the Lee County Human Services Council.

Client Services Network of Lee County

POLICIES AND PROCEDURES MANUAL

Client Services Network of Lee County

Overview

Congress has established a national goal that all communities should be collecting an array of data about homelessness, including unduplicated counts of individuals who are homeless, their use of services and the effectiveness of local assistance systems. In order to achieve this objective, the Department of Housing and Urban Development (HUD) encouraged communities to develop a Homeless Management Information System and has provided funding through the Supportive Housing Program, Continuum of Care process to assist in the implementation of systems to collect this data.

Client Services Network software was selected for implementation to meet these requirements for participants within the Lee County collaborative, known herein as **Client Services Network (CSN)** of Lee County. Participating agencies in the collaborative include Abuse Counseling and Treatment Center (ACT), After the Rain, Community Cooperative Ministries Inc. (CCMI), House of Hope, Lee County Homeless Coalition, Lee County Department of Human Services (DHS), Lee Mental Health/Ruth Cooper Center, Our Mother's Home, New Life Centers, Renaissance Manor, The Salvation Army, South West Florida Addiction Services, United Way, and We Care Outreach. The **Lee County Department of Human Services (DHS)** is the continuum lead-agency and its staff will act as Group Administrator for Client Services Network.

Implementation

The Client Services Network of Lee County implementation structure includes a Project Team and a User Group.

The Project Team is comprised of staff from the DHS, HMIS System Administrator, and Client Services Network, Inc. (software provider).

The User Group is comprised of staff from each participating agency in the Client Services Network of Lee County collaborative. The User Group meetings serve as a forum for collaborative members to discuss their implementation needs and status, raise questions, participate in problem resolution regarding system implementation and on-going operations, and to participate in the policy setting process.

The Client Services Network of Lee County Policies and Procedures Manual was adapted from The Maricopa Homeless Management Information System's Policy and Procedures Manual with their permission - many thanks to The Maricopa Homeless Management Information System and Symmetric Solutions! The Policies and Procedures Manual is designed to support implementation and on-going operation of the system to ensure strict client confidentiality, security of information, and consistent application of the functions provided by Client Services Network. The Project Team and User Group will continue to update these Policies and Procedures as needed.

For information regarding the implementation of Client Services Network, contact Eric Pateidl, Lee County Department of Human Services, at epateidl@leegov.com or (239) 533-7925.

Client Services Network – General Security

User Name and Password

Users of Client Services Network have their own unique user name and a password that they are required to enter each time they log on to the application. The frequency of changing of passwords can be set to meet the security protocols of your organization.

User Group Permissions

Another security feature is the ability to create different User Groups within your organization. Every User is assigned to a User Group and each User Group has its own menu which is set up to include only screens required for that group. In addition to limiting the access to certain information, the Administrator can grant permissions of Read Only, Add, Add/Edit, Edit, and Full on each individual screen for each User Group. If a User has Edit capabilities, that User can only edit data that was entered by your organization. This feature can also be modified so that only the User who created the record originally can edit or update the record. Only a User who has Full permission to a screen can delete a record.

Record Level Confidentiality

In addition to limiting which other organization(s) are able to see certain client files, users can make any individual record confidential within a client file. Therefore, if a user has released a file to another organization, the user can still choose to not allow certain records within that file to be shared. In the following example, this record has been marked as Confidential; therefore, no other organization will be able to see this record even if the file has been released to that organization.

Client Services Network – Other Features

Data Entry Auditing

Every record in every table in the CSN data has the following four fields: Created By, Date Created, User ID, and Last Modified. The Created By field indicates the user who initially created that record and the Date Created field shows the Date and Time that record was created. The User ID field keeps track of the last user to make a change to that record and the Last Modified field will indicate the Date and Time that the record was modified. This feature is excellent for internal auditing of your users' data entry.

Follow-Up

Client Services Network allows you to mark a file for a follow-up. The follow up feature will keep track of the Due Date, Completed Date and the type of follow up necessary. Files that have follow-ups that have not been completed will appear on the Client Search screen of the user assigned to that file.

FY2017 - Performance Measurement Module (Sys PM)

Summary Report for FL-603 - Ft Myers, Cape Coral/Lee County CoC

Measure 1: Length of Time Persons Remain Homeless

This measures the number of clients active in the report date range across ES, SH (Metric 1.1) and then ES, SH and TH (Metric 1.2) along with their average and median length of time homeless. This includes time homeless during the report date range as well as prior to the report start date, going back no further than October, 1, 2012.

Metric 1.1: Change in the average and median length of time persons are homeless in ES and SH projects.

Metric 1.2: Change in the average and median length of time persons are homeless in ES, SH, and TH projects.

a. This measure is of the client's entry, exit, and bed night dates strictly as entered in the HMIS system.

	Universe (Persons)		Average LOT Homeless (bed nights)			Median LOT Homeless (bed nights)		
	Submitted FY 2016	FY 2017	Submitted FY 2016	FY 2017	Difference	Submitted FY 2016	FY 2017	Difference
1.1 Persons in ES and SH	1258	1353	116	126	10	47	49	2
1.2 Persons in ES, SH, and TH	1349	1417	123	135	12	52	54	2

b. This measure is based on data element 3.17.

This measure includes data from each client's Living Situation (Data Standards element 3.917) response as well as time spent in permanent housing projects between Project Start and Housing Move-In. This information is added to the client's entry date, effectively extending the client's entry date backward in time. This "adjusted entry date" is then used in the calculations just as if it were the client's actual entry date.

The construction of this measure changed, per HUD's specifications, between FY 2016 and FY 2017. HUD is aware that this may impact the change between these two years.

This is a new tab for FY 2016 submissions only. Submission must be performed manually (data cannot be uploaded). Data coverage and quality will allow HUD to better interpret your Sys PM submissions.

Your bed coverage data has been imported from the HIC module. The remainder of the data quality points should be pulled from data quality reports made available by your vendor according to the specifications provided in the HMIS Standard Reporting Terminology Glossary. You may need to run multiple reports into order to get data for each combination of year and project type.

You may enter a note about any field if you wish to provide an explanation about your data quality results. This is not required.

OVERVIEW

The Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009 reauthorized the McKinney-Vento Homeless Assistance programs. Through the enactment of the HEARTH Act, the Department of Housing and Urban Development (HUD) published the new Continuum of Care (CoC) Program interim rule (24 CFR Part 578). The CoC Program interim rule requires that the CoC establish and consistently follow written standards for providing CoC assistance, in consultation with recipients of the Emergency Solutions Grant (ESG) program. At a minimum, these written standards must include:

- Policies and procedures for evaluating individuals' and families' eligibility for assistance in all CoC and ESG programs.
- Policies and procedures for determining and prioritizing which eligible individuals and families will receive assistance through homelessness prevention, diversion, street outreach, emergency shelter, rental assistance, permanent supportive housing assistance, transitional housing assistance, joint transitional housing to rapid re-housing, and rapid re-housing assistance.
- Policies and procedures for coordination among emergency shelter providers, essential services providers, homelessness prevention, and rapid re-housing assistance providers; other homeless assistance providers; and mainstream service and housing providers.
- Standards for determining what percentage or amount of rent and utilities costs each program participant must pay while receiving homelessness prevention, rental assistance, or rapid re-housing assistance.
- Standards for determining how long a particular program participant will be provided with rental assistance and whether and how the amount of that assistance will be adjusted over time; and
- Standards for determining the type, amount, and duration of housing stabilization and/or relocation services to provide to a program participant, including the limits, if any, on the homelessness prevention or rapid re-housing assistance that each program participant may receive, such as the maximum amount of assistance, maximum number of months the program participant receive assistance; or the maximum number of times the program participant may receive assistance.

In addition, 24 CFR 578.7(a)(8) and CPD-17-01 requires the Lee County Continuum of Care (CoC) to establish and operate a Coordinated Entry System (CES) that provides an initial, comprehensive assessment of the needs of individuals and families for housing and services. Coordinated Entry is designed to provide standardized access and assessment, and coordinate housing and services for individuals and families experiencing homelessness. Coordinated Entry facilitates referrals and housing placements to ensure that individuals and families experiencing homelessness receive appropriate assistance with both immediate and long-term housing and service needs.

The Lee County CoC agrees that these standards must be applied consistently across the entire CoC defined geographic area. Additionally, Lee County CoC members agree to administer their assistance in compliance with the CoC's written standards upon award of CoC, ESG or other applicable funds. Recipients and sub-recipients of CoC, ESG and other applicable funds may develop additional standards for administering program assistance, but these additional standards cannot be in conflict with those established by the Lee County CoC, the CoC Program interim rule, or any other federal guidance.

DEFINITIONS

HOUSING FIRST

The *Housing First* approach is a data driven solution to homelessness. *Housing First* approaches feature direct, or nearly direct, placement of targeted homeless people into permanent housing where supportive services are offered to maximize housing stability and prevent returns to homelessness as opposed to addressing predetermined treatment goals prior to permanent housing entry. *Housing First* approaches ensure that the risk factors that make finding and maintaining housing more challenging are used to screen people into assistance rather than screening them out.

Housing First requires that program participants are not screened out based on:

- Having too little or no income;
- Active or history of substance use;
- Type or extent of disability related support needed;
- Resistance to receiving services;
- History of eviction, poor credit, lease violations, or no lease history;
- Having a criminal record with exceptions for state-mandated restrictions; or
- History of victimization (e.g. domestic violence, sexual assault, childhood abuse).

Additionally, *Housing First* programs must ensure that participants are not terminated from the program for:

- Failure to participate in supportive services;
- Failure to make progress on a service plan;
- Loss of income or failure to improve income; or
- Any other activity not covered in a lease agreement typically found for unassisted persons in the Lee County.

All Lee County CoC service providers are required to implement a *Housing First* approach that ensures low barrier program entry and the provision of optional supportive services, both during and post-housing, that promote housing stability and overall well-being.

SEVERITY OF SERVICE NEEDS

In General, persons identified as having the most severe service needs, are those individuals or families for whom at least one of the following is true:

- History of high utilization of crisis services, which include but are not limited to, emergency rooms, jails, and psychiatric facilities; and/or
- Significant health or behavioral health challenges, substance use disorders, or functional impairments which require a significant level of support in order to maintain permanent housing.
- For youth and victims of domestic violence, high risk of continued trauma or high-risk of harm or exposure to very dangerous living situations.

PRIORITIZATION

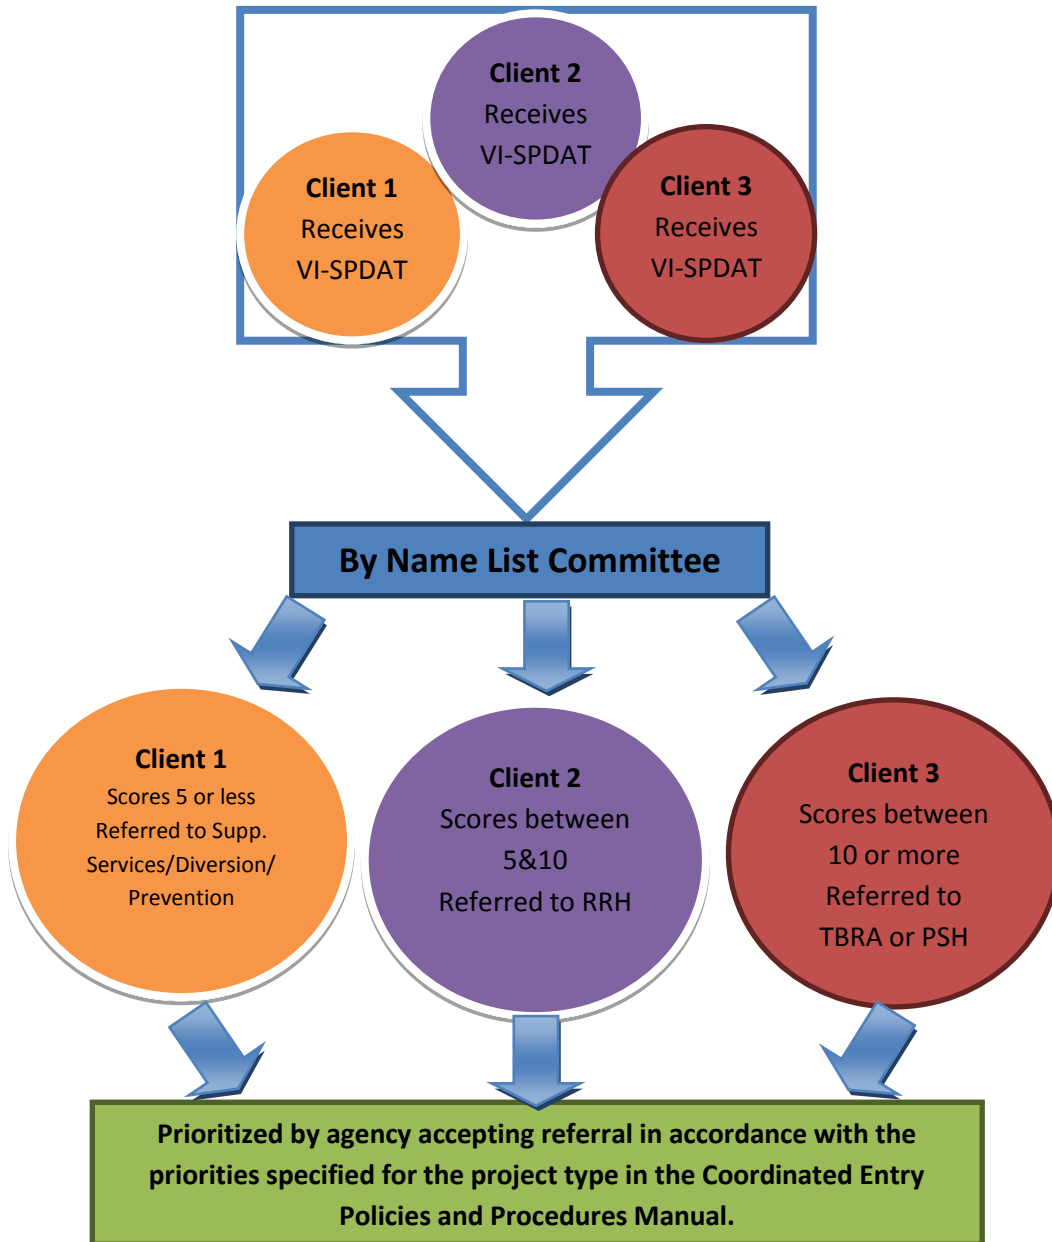

Homelessness interventions, including Street Outreach, Emergency Shelter, Diversion, Prevention, Permanent Supportive Housing, Rapid Re-Housing, Rental Assistance, Transitional Housing – Rapid Re-Housing, and Transitional Housing will be prioritized based on the severity of service needs and vulnerability. Of those eligible households the populations must be prioritized in accordance with The U.S. Interagency Council on Homelessness (USICH) plan, Opening Doors, and other HUD guidance on prioritization of chronically homeless households and policy briefs on coordinated entry systems. The basic process for Coordinated Entry and client prioritization is outlined in *Chart 1* below.

Lee County's coordinated entry system identifies prioritizes service needs as follows (only going to the next level as needed to break a tie between two or more individuals):

1. **Medical Vulnerability:** The first prioritization criteria will expedite placement into housing for individuals with severe medical needs who are at greater risk of death. This score would be based on questions 22-34 of the vulnerability analysis, with a maximum score of 5.
2. **Overall Wellness:** The second prioritization factor targets individuals with similar medical needs as criteria number 1, who will be prioritized when they have behavioral health conditions or histories of substance use, which may either mask or exacerbate medical conditions. This score will be based on questions 21 through 50 of the vulnerability analysis (i.e., the "Wellness Domain").
3. **Unsheltered Sleeping Location:** The third prioritization criteria are the location where the individual sleeps, based on question 13 of the vulnerability analysis. Unsheltered individuals will be given priority over sheltered individuals.
4. **Length of Time Homeless:** The fourth prioritization factor is the length of time an individual has experienced homelessness, giving priority to the person that has experienced homelessness the longest (based on question 1 of the vulnerability analysis).
5. **Date of vulnerability analysis assessment:** The final prioritization criteria will be the date of the individual's assessment, giving priority to the earliest date of assessment.

In all programs, priority shall be given for eligible individuals and families who are relocating as per the Emergency Transfer Plan, and in accordance with 24 CFR 576.409. All CoC funded transitional housing, rapid re-housing, and permanent supportive housing programs will ensure that applicants are prioritized according to the emergency transfer priority required under 24 CFR 578.99(j)(8).

LEE COUNTY CONTINUUM OF CARE RACIAL DISPARITIES

REPORT SUMMARY

This reports summary outlines the findings of an evaluation of race and ethnicity data from the Lee County Homeless Management Information System (HMIS), Abuse Counseling and Treatment (ACT), and CoC Governing Board Membership in comparison to 2016 American Community Survey (ACS) Population Estimates.

Report Completed: August 31, 2018

THE INTERSECTION BETWEEN HOMELESSNESS AND RACISM

As per the 2018 U.S. Inter-Agency Council on Homelessness strategic plan, *Home, Together*, “we must also address the racial inequities and other disparities in the risks for and experiences of, homelessness.” The plan sets out goals to “improve access to emergency assistance, housing, and supports for historically underserved and overrepresented groups” including “racial and ethnic minorities”. In an effort to begin addressing such disparities in Lee County, the Lee County Continuum of Care completed a preliminary study as part of the 2018 Continuum of Care (CoC) Funding Competition. The 2018 CoC Notice of Funding Availability (NOFA) provided the necessary framework to begin examining local data and disparities that exist within the homeless service system.

RACIAL DISPARITIES IN LEE COUNTY HOMELESS SERVICES

The Lee County CoC examined data from the Homeless Management Information System (HMIS) and Abuse Counseling and Treatment (ACT) shelter to identify race and ethnicity trends in the homeless population in Lee County. This data was then compared to 2016 American Community Survey (ACS) estimates to determine if the population served through Lee County CoC programs is representative of the overall population of Lee County.

ASSISTANCE BY RACE

Fiscal year 2016-2017 data from the Lee County HMIS demonstrates that the number of Black or African American individuals who sought, and were provided assistance was 32.46% compared to the Lee County Black or African American population of 8.63%. This substantial difference indicates that Black or African American populations are overrepresented in the homeless population.

Individuals who are of Hispanic or Latino ethnicity also have a high percentage of exits to permanent housing at 50.76%. Clients who are white have the highest percent of negative exits, with a combined 65.84% of exits being to an unknown destination, temporary housing situation, institutional setting or without an interview.

COC GOVERNING BOARD REPRESENTATION

Data regarding the race of the 2017-2018 Continuum of Care Governing Board membership indicates that additional representation from races other than white are needed to provide a true representation of the homeless population being served in Lee County. Additional representation from American Indians, Asians, and Black or African Americans is necessary to provide diverse input and direct representation of the population being provided homeless services in Lee County.

DISPARITIES IN VICTIMS SERVICES

Fiscal year 2017-2018 data from the Abuse Counseling and Treatment (ACT) shelter in Lee County demonstrates that the percentage of Black or African American individuals who sought, and were provided, assistance was 17.17% as compared to the Lee County population of which 8.63% is Black or African American. The data indicates that Black or African American clients are overrepresented in the population of domestic violence (DV) survivors in Lee County. Similarly, the data indicates that Hispanic or Latino clients are also slightly overrepresented in the population of DV survivors in Lee County.

SUMMARY

Overall, the data demonstrates that Black or African American and Hispanic or Latino populations demonstrate relatively high exits to permanent housing destinations, indicating better outcomes for individuals in those racial and ethnic groups. At the same time, white populations have the highest percentage of exits to unknown destinations. Additionally, Black or African American populations are also overrepresented within Lee County homeless and DV survivor populations. Additionally, trends suggest that Hispanic or Latino populations are less likely to seek or receive assistance than those who are non-Hispanic or Latino. Increased representation by various minority groups is also necessary to ensure that the CoC Governing Board is directly representative of the individuals being served in the CoC.

The results of this report are only preliminary, as the CoC plans to integrate additional data into the 2019 Lee County Gaps Analysis, which is currently underway. The completion of this primary report also revealed data gaps such as the collection of more detailed race, ethnicity and age data from CoC Governing Board members, which the CoC is actively working to fill by collecting additional data from Board members and clients.

LEE COUNTY HUMAN AND VETERAN SERVICES - MONITORING REPORT

DATE(S) OF MONITORING: March 1, 2018

DATE REPORT DISTRIBUTED TO CoC:

Monitor: Jeannie Sutton, Grants Coordinator, Lee County Human and Veteran Services (HVS)

The Coordinated Entry Affirmative Marketing Strategy (CEAMS) is a communication and management strategy designed to make the coordinated entry access points and CoC housing and services accessible to all persons regardless of sex, gender identity, perceived gender identity, sexual orientation, perceived sexual orientation, age, color, national origin, ethnicity, limited English proficiency, disability status, family status, marital status, or religion. This is the first monitoring and baseline for the CEAMS program. This report covers the period of October 1, 2016 through September 30, 2017, and is valid through September 30, 2018.

Monitoring Item #	Findings
1. Advertising in locations or media that are used and viewed or listened to by those identified as least likely to enter CoC services and housing, such as youth, individuals who are chronically homeless, and families with children.	Coordinated Entry Brochures and Post Cards were distributed to service providers via e-mail on 2/9/2018, and are made available on the Lee County Human and Veteran Services, CoC Webpage. Additional CoC Marketing is made available via the Lee County CoC and Homeless Coalition Webpages, as well as through direct e-mail distributions to service providers, and printed materials provided at Coalition/CoC General Membership meetings. <i>CES Information should be added to Lee County Homeless Coalition Webpage. Other locations/media for advertisement should be identified.</i>
2. Marketing CoC services and housing to specific community, religious, support organization or other groups frequented by those least likely to enter CoC services and housing.	CoC Housing and Service resources are advertised on the Lee County Homeless Coalition Website under the "get help" tab. All services and housing resources are also published in the community resource guide, also known as the "Green Book". The Green Book is distributed to service providers throughout the CoC's geographic area. <i>Additional efforts should be made to distribute the Green Book to businesses within the downtown business district and others in areas of known homeless camps and populations. Given the base line data provided by the HMIS system, youth age 18-24 and persons over the age of 65 are least likely to enter the CoC system, as well as households with children.</i>
3. Distribution of a brochure and other printed materials, which describe the coordinated entry process to be used by persons experiencing a housing crisis to locate, identify, and access CES services.	Coordinated Entry Brochures and Post Cards were distributed to service providers via e-mail on 2/9/2018, and are made available on the Lee County Human and Veteran Services, CoC Webpage. <i>CES Information should be added to Lee County Homeless Coalition Webpage. Additional training is needed as access points to ensure they are aware of the CES process and their responsibility as an access point.</i>
4. Incorporating information regarding compliance with the Fair Housing Act, American's with Disabilities Act, and the CEAMS into CES training protocols.	CES training is taking place throughout the CoC's geographic area and will continue; Continuum wide training occurred on Wednesday, June 20, 2018. <i>ADA and Fair Housing laws will be incorporated into final training protocols.</i>

CONCLUSIONS: CES Information should be added to Lee County Homeless Coalition Webpage. Other locations/media for advertisement should be identified. Additional efforts should be made to distribute the Green Book to businesses within the downtown business district and others in areas of known homeless camps and populations. Given the base line data provided by the HMIS system, youth age 18-24 and persons over the age of 65 are least likely to enter the CoC system, as well as households with children. Additional training is needed as access points to ensure they are aware of the CES process and their responsibility as an access point.
