SECTION IV:	Application Evaluation and Selection
SECTION V:	Application Forms
SECTION VI:	Appendices

SECTION I: General Information

Strategic Use and Alignment of Resources

Lee County Human and Veteran Services (HVS) is designated as lead agency and HUD Collaborative Applicant for the Lee County Continuum of Care. HVS is responsible for ensuring that resources, available to the community to assist those experiencing homelessness, are strategically utilized to maximize impact and effectiveness. Therefore, HVS reserves the right to match funding opportunities available to the applications received to ensure alignment of resources with community needs and appropriate target populations. All applications received will be evaluated for their appropriateness for each funding opportunity that may be available. HVS reserves the right to award more than one (1) funding source to a selected application if necessary to maximize a project's effectiveness and overall impact.

It is not necessary for the Proposer to select only one of the funding sources or amounts listed above unless otherwise specified. Applicants only need to indicate, on the Application, if there is a funding source(s) that they DO NOT want.

Funding Priorities

The submitted applications will be evaluated based in part, on the extent, the project is able to demonstrate achievement of HUD's System Performance Measures (as indicated below), and the goals and strategies outlines in the Home, Together: Federal Strategic Plan to Prevent and End Homelessness (www.usich.gov/home-together).

HUD System Performance Measures

HUD has developed the following system-level performance measures to help communities gauge their progress in preventing and ending homelessness:

1. Length of time persons remain homeless;
2. The extent to which persons who exit homelessness to permanent housing destinations return to homelessness;
3. Number of homeless persons;
4. Jobs and income growth for homeless persons;
5. Number of persons who become homeless for the first time;
6. Successful housing placement;

HUD strongly encourages CoCs to emphasize the policy priorities established in the mentioned strategies and system performance measures when evaluating, ranking and selecting projects. **Proposed projects that clearly describe how the project will improve the CoC's System Performance Measures, and move the community forward toward making homelessness rare, brief, and one-time will score higher and receive priority for funding.**

Proposed projects that include innovative and effective best practices will receive higher scores and consideration than those projects that are a continuation or capacity expansion of a current program. HVS is seeking 'out of the box' applications. Projects may be proposed that incorporate different component types and include additional partners (with an established, formal agreement for the proposed project) to provide a specific service as part of an overall project application.

Projects that incorporate all or part of the effective practice examples described below will be scored higher in the scoring and selection process.

Permanent Supportive Housing (PSH) is affordable rental housing linked to supportive services designed to enable persons with disabilities, including chronically homeless, to become and remain stably housed. National studies show that PSH is a cost-effective solution to chronic homelessness and can successfully house and stabilize vulnerable persons living on the street. These citizens frequently confront serious, persistent issues such as substance abuse, mental illness, HIV/AIDS, and other serious challenges to be able to maintain stable housing, and thus require a more substantial level of care in a supportive housing environment to return to housing stabilization. PSH is an evidence-based practice that has proven the most successful intervention for chronically and long-term homeless persons. Effective PSH projects:

- Ensure ongoing housing (financial) assistance and case management/supportive services (directly or through linkages) for homeless individuals or families in permanent supportive housing project.

- Are low barrier and housing first focused
- Focus on housing plans and not service plans
- Utilize the community-wide Coordinated Entry Process which prioritizes persons for PSH according to their vulnerability to dying on the streets and their chronic homelessness status

Housing Solutions Center (HSC) with Coordinated Entry Access Point is a friendly, low-demand environment that provides access to services, housing resources, emergency bridge shelter, and serves as a designated access point for the CoC’s Coordinated Entry. A HSC welcomes and engages homeless persons, and develops relationships with them in the effort to engage them in steps towards permanent housing. Services are provided to both residents and non-residents of the HSC, and should include access to physical and mental health screening/services, transportation, showers, laundry facilities, case management, supportive services to assist with applications for benefits (i.e. SOAR), and an array of other services with the goal of helping persons move from homelessness to permanent housing as quickly as possible. The bridge/emergency shelter beds would be for up to 90 days. Law enforcement and designated mobile teams would have direct access to referring participants to the HSC.

Joint Emergency Shelter/Transitional Housing and Rapid Rehousing is a project model that pairs the provision of emergency shelter or transitional housing with rapid rehousing funding to create ‘rapid exit’ options for the persons/households residing in the emergency shelter or transitional housing, thereby reducing the time a person/household remains homeless. *Transitional Housing and Rapid Rehousing is a new project type recognized by HUD and may be eligible for new project funding in the upcoming 2019 CoC Program Competition.*

Targeted Bed Expansion – An existing project that is able to expand their current capacity by adding additional beds to be dedicated to a specific target population, such as unaccompanied youth, persons who are chronically homeless, and/or single individuals experiencing homelessness.

Street Outreach and Engagement with Rapid Rehousing Component - a street outreach project that includes short-term (3-6 months) rental assistance to move people directly into permanent housing.

SOAR Specialists – Inclusion of SOAR Specialist in a project application.

Housing First Philosophy

Projects must utilize a Housing First philosophy, which is an approach to make homelessness rare, brief and one-time, that centers on providing people experiencing homelessness with housing as quickly as possible (within 30 days or less) – and then providing services as needed. Housing First programs share critical elements:

- A focus on helping individuals and families access and sustain permanent housing as quickly as possible (within 30 days or less) without unnecessary barriers or time limits;
- A variety of services delivered to promote housing stability and individual well-being on an as-needed basis; and
- A standard lease agreement to housing – as opposed to mandated therapy or service compliance.

Project Completion Timeframes

For most project types, the Proposed Project should be able to be operational within 1 to 3 months following the award of funding.

For acquisition and/or rehab projects, proposed projects may be ‘Shovel Ready’ projects, where planning and engineering is complete and construction can begin within a very short time, including the ability to ensure occupancy of units within 12 months or less following an award of funding.

(documentation does not need to be included with submission, but may be requested at a later time):

Any applicant on the excluded parties list (www.sam.gov/SAM/) will be considered **ineligible** for funding.

Active and participating CoC Member agencies and HMIS participating agencies will be given additional points in the scoring process.

SECTION II: Scope of Grant Activities

HVS encourages applicants to submit applications for projects, even if the project does not ‘fit’ perfectly into the descriptions here within. By submitting an application, the applicant is informing HVS of projects it intends or desires to develop to help meet an unmet need in the community and collaboratively work to make homeless experiences in Lee County rare, brief and one-time.

Projects acceptable under this request include:

- **New Project** - a project that does not currently exist and if funded will increase overall service and/or bed capacity in Lee County.
- **Expansion of Funding for a Current Project** – a project currently operating in the community that is being expanded. Applicants must clearly identify the need for expanded services, and demonstrate a quantifiable increase in the number **and** type of services being provided.
- **Renewal Project** (*applicable to the specified CoC funded projects ONLY*) - a project currently receiving funding through HUD’s CoC Program seeking to renew the project’s funding. *Agencies with renewal projects must submit Letters of Intent to Renew and/or Reallocate (as indicated below) for each project they desire to renew and/or reallocate.*

Funding requests that ‘supplant’ or to replace a project’s current funding source(s) will not be accepted.

If a project includes multiple, linked activity types (components), only one application, that details the different activity types, needs to be completed. For example: Emergency Shelter with Coordinated Entry Access point is a single project with two eligible activities (components). The single project application should explain in detail all activity types and the project outcomes for the different activity types.

State Emergency Solutions Grant (ESG)

Maximum grant award \$200,000, to be expended between July 1, 2019 and June 30, 2020. Funds may be renewed for up to two additional one-year terms, depending on performance and future appropriations. **Priority will be given to programs that serve single individuals experiencing unsheltered homelessness, and those that serve individuals in the City of Cape Coral and/or City of Fort Myers.** *Maximum combined award amounts for Emergency Shelter and Street Outreach components cannot exceed 60% of the total grant award.*

SECTION III: Funding Guidelines

Administrative Costs

The amount of funds available for administrative cost varies from source to source, with some funding sources providing no admin funding. If awarded, the project's admin funding will be based on available and allowable admin funding as determined by the funding sources, and may be divided between HVS and the applicant. Eligible costs include general management, oversight, and coordination; training on grant requirements; consolidated plans; and environmental reviews

Funding Source	Maximum Percent of Admin Allowed
Emergency Solutions Grant (ESG)	5%
Challenge Grant	8%
Temporary Assistance for Needy Families – Prevention	3%
Continuum of Care (CoC)	10%

Cost Reimbursement

All contracts will be on a cost reimbursement basis. Sub-recipient will be required to submit proper back-up documentation for project eligible expenses as determined by the funding source regulations and requirements.

Match

Match may be cash or in-kind for otherwise eligible project costs by the funding source. All match must be documented in writing. While the required amount of match differs based on funding source, all funding sources require match. Match is defined as the provision of direct eligible costs to the project from a source other than the funding source. Match can be provided through an agency's other funded projects, which may also provide services to the funded project's clients or through community partners that, are providing additional, eligible services to a funded project's clients. Match guidelines are as follows:

Funding Source	Percent of Match Required
Emergency Solutions Grant (ESG)	100%
Challenge Grant	100%
Temporary Assistance for Needy Families – Prevention	No Match Required
Continuum of Care (CoC)	25%

Cost of Submitting Applications

The cost of preparing and submitting an application is the sole responsibility of the applicant and shall not be chargeable in any manner to HVS. HVS will not reimburse any applicant for any costs associated with the preparation and submission of an application, including but not limited to, expenses incurred in making an oral presentation, or participating in an interview (*if required*).

Conflict of Interest

The applicant agrees that it presently has no interest and shall acquire no interest, either direct or indirect, which would conflict in any manner with the performance of services required if a contract is awarded. The applicant further agrees that no person having any such interest shall be employed or engaged for said performance. The applicant agrees that no employee, officer, agent of the applicant or its sub-recipients shall participate in the selection, award or administration of a contract or construction bid if a conflict-of-interest, either real or implied, would be involved. The applicant or sub-recipient employees, officers and agents should refrain from accepting gratuities, favors or anything of monetary value from contractors or potential contractors based on the understanding that the receipt of such an item of value would influence any action or judgment of the applicant.

For federally funded contracts, conflict of interest provisions described in 2 CFR 200.112 and all other HUD regulations currently in effect and as may be amended from time to time shall apply.

State and Federal Administrative Requirements

Agencies must comply with Federal administrative requirements. All agencies awarded funds through this RFA will be required to comply with a variety of requirements governing the use of State and Federal funds. Additionally, agencies awarded funds through this RFA will be required to provide access to their financial records to a representative of HVS to evaluate their financial management systems. HVS staff will monitor each program to ensure compliance with the terms of the funding agreement between the HVS and the agency. This will include monitoring records kept by the applicant to demonstrate the eligibility of clients, the services provided, and other required information.

Liability insurance is required for all Grants. All agencies awarded funds will be required to obtain liability and worker's compensation coverage that will be further defined in the funding agreement, if awarded. **Lee County Board of County Commissioners must be named as the Certificate Holder and the additional insured.**

Handicapped Accessibility – All projects must be accessible to persons with disabilities. Programs, information, participation, communications and services must be accessible to persons with disabilities. Agencies must comply with Section 504 of the Rehabilitation Act of 1974 and Americans with Disabilities Act (ADA).

Nondiscrimination – All funded agencies must ensure that all persons have fair and equal access to all forms of assistance regardless of race, color, national origin, age, sex, familial status, religious preference, disability, type or amount of disability, gender identity, perceived gender identity, marital status, sexual orientation, or perceived sexual orientation. These non-discriminatory practices apply to employment and contracting as well as to marketing, and selection of project participants. The Lee County CoC requires agencies to practice a person-centered model that incorporates participant choice and inclusion of all homeless subpopulations present in Lee County, including homeless veterans, youth, and families with children, individual adults, seniors, victims of domestic violence, and Lesbian, Gay, Bisexual, Transgender, Queer or Questioning, and Intersex (LGBTQI) individuals and families.

The Lee County CoC operates in accordance with all federal statutes including, but not limited to: the Fair Housing Act, Title VI of the Civil Rights Act, Section 504 of the Rehabilitation Act, and Title II and Title III of the Americans with Disabilities Act. All service providers, where assistance is provided through Community Planning and Development (CPD) programs, including assistance under the: HOME Investment Partnerships program (24 CFR part 92), Housing Trust Fund program (24 CFR part 93), Community Development Block Grant program (24 CFR part 570), Housing Opportunities for Persons With AIDS program (24 CFR part 574), Emergency Solutions Grants program (24 CFR part 576), Continuum of Care program (24 CFR part 578), or Rural Housing Stability Assistance Program (24 CFR part 579), must ensure equal access to the HUD-assisted program in accordance with all general HUD program requirements as specified in 24 CFR Part 5.

Additionally, funded agencies must maintain compliance with the HEARTH Act's involuntary family separation provision (42 USC 11361a), which ensures that emergency shelters, transitional housing, and permanent housing providers within the CoC do not deny admission to or separate any family members from other members of their family based on age, sex, marital status, gender, gender identity, perceived gender identity, sexual orientation, or disability, when entering shelter or housing.

Funded agencies must maintain records demonstrating compliance with the nondiscrimination and equal opportunity requirements under §576.407(a), including data concerning race, ethnicity, disability status, sex, and family characteristics of persons and households who are applicants for, or program participants in, any program or activity funded in whole or in part with the awarded funding source and the affirmative outreach requirements in § 576.407(b).

Formal Termination Policy – Funded agencies must develop a formal Termination Policy that clearly describes a process by which clients' services may be terminated if program requirements are violated. The process must recognize individual rights and allow termination in only the most severe cases. Termination processes for rental assistance, leasing, and/or housing relocation and stabilization services must include written notice to the program participant, with a clear statement of reasons for termination; review of decision to terminate, with opportunity for the program participant to present written or oral objections to agency; prompt written notice to the project participant of final decision.

Supportive Assistance – Funded agencies must assure that homeless individuals and families are connected to appropriate supportive services including permanent housing, mental health treatment, medical health treatment, counseling, case management, supervision, and other services essential for achieving maintaining permanent, stable housing. Additionally, agencies must assure that the homeless are assisted in obtaining other Federal, State, local and private assistance, where available. This will include individually assisting clients to identify, apply for and obtain benefits under mainstream health and social services program for which they are eligible such as: TANF, Medicaid, SSI/SSDI, Food Stamps, and various Veterans Programs. *The Lee County CoC encourages a “soft hand-off” model, which ensures transfer of client and referral information directly to the receiving case manager, and prevents missed service connections.*

Confidentiality – Agencies must comply with confidentiality requirements and privacy protections outlined in the CoC written standards (<https://www.lee.gov.com/dhs/Documents/HMIS/Coordinated-Entry/CE-Policy-Procedures-Manual-2018.pdf>), and Homeless Management Information System Privacy Notice (<https://www.lee.gov.com/dhs/Documents/HMIS/HMIS-Privacy-Notice.pdf>).

Participation in Continuum of Care (CoC) – Any agency awarded funding through this RFA is **required** to

- 1) actively participate in the CoC including attendance at the monthly CoC and By-Name List committee meetings,
- 2) actively participate and comply with Homeless Management Information System (HMIS) Procedures, and
- 3) participate in the Coordinated Entry Process.

Minimum Funding Request

The minimum funding request for any project is \$25,000. HVS reserves the right to award more or less than the amount of funds requested based on funding available.

CoC renewal projects may not request more than the renewal amounts listed in this RFA due to HUD guidelines. CoC projects may request less than the amount listed if they are voluntarily providing funding for reallocation. [See CoC Ranking and Reallocation Policy](#). Any funding that may become available due to a renewal project’s reduced request may be allocated/reallocated to a new project as stated in this RFA.

SECTION IV: Application Evaluation and Selection

Threshold Requirements

Applications will be reviewed by HVS staff to ensure the submission does NOT contain any fatal flaws, as listed below. If HVS determines the threshold requirements are not met, the project will be rejected and the applicant agency notified in writing. If the applicant and application are determined eligible, then the application will proceed to the Application Review, Scoring and Conditional Selection Process.

Fatal Flaws

Applications that commit the following will be considered as having a fatal flaw, and will not be given consideration for funding:

- Applicant agency did not attend the Mandatory Pre-Application Workshop
- Applications received after the stated due date and time
- Applications received from an agency not eligible to apply (is not a non-profit, local government and/or is listed on the Excluded Parties List)
- The Application is not signed by the agency official designated to execute contracts

Application Review, Scoring and Conditional Selection Process

Applications that meet threshold criteria will be forwarded to the CoC Performance Evaluation and Ranking Committee for review, scoring and conditional selection. The Committee Members will meet to review and score each project application in accordance with the [CoC Ranking and Reallocation Policies](#) and 2019 Lee County CoC Homeless Funding Project Ranking Tool (**Appendix 3**).

Committee Members who have an interest in a submitted project application will recuse themselves from scoring the project in which they have an interest. An interest includes being an employee, volunteer and/or board member of an applicant agency or other entity that is direct partner and/or would otherwise directly benefit of the proposed project.

Notice of Funding Decision

HVS staff will provide written notice regarding the funding decision to each applicant by **Wednesday, March 13, 2019 at 5:00 pm.**

Post Award Requirements

If awarded, a contract will be executed by the Lee County Board of County Commissioners and administered by the HVS (See Sample Contract Document in Appendix 2). The contract will be based upon the information submitted in the application, all accompanying exhibits/attachments and any additional information that is requested/received during the review phase. Contract language is not negotiable. **The contract is reimbursement based and the applicant must be able to pay for project costs prior to requesting payment.** Modifications and updates to application exhibits may be required prior to contract execution. Applicants should review the attached contract to ensure their ability to comply with all requirements and expectations, including potential increased insurance coverage and financial audits.

Lee County Street Outreach Project

1. *Project Name:* Lee County Street Outreach Project
2. *Agency Providing Service:* Lee County Human and Veteran Services
3. *Funding Source:* Emergency Solutions Grant
4. *Amount Requested:* \$105,525
5. *Total Number to be Served:* 192 persons experiencing homelessness

6. *What problem does this project solve in the effort to end homelessness?*
Home, Together, the Federal strategic plan to end homelessness, outlines the importance of ensuring that homelessness is a brief experience. The Street Outreach Project will assist in ensuring that persons experiencing homelessness in Lee County are quickly identified, engaged, and routed through the homelessness response system to a permanent housing solution thus shortening the length of time a person remains homeless.

Street outreach staff also provide invaluable data regarding the size and scope of unsheltered homelessness within the CoC. Street outreach staff are able to engage and receive data from those persons who are least likely to interact with the homeless response system due to substance use, mental illness, staying in remote locations, or other factors.

7. *Describe how this project fits into the CoC's system of care?*
Outreach is an essential part of any CoC's system of care, and serves as the critical gateway to permanent housing for those that have been experiencing long periods of homeless and isolation. The project focuses on moving outside the walls of an agency to engage with people experiencing homelessness, who may be disconnected and alienated from housing, supportive, and mainstream services, and assist them in making connections to those services. The Street Outreach Project conducts person centered and housing focused outreach for the entire Lee County Continuum of Care, and has established relationships with law enforcement, faith based providers, Lee County Library system, Lee Tran, Lee Health, local municipalities, veterans affairs, and multiple local non-profit organizations. Outreach staff are also highly visible and recognizable among the homeless community.

The Street Outreach Project, administered by Lee County Human and Veteran Services, provides essential street outreach staff throughout the Lee County CoC. The Street Outreach Project was originated October 2017 upon the award of extra Federal Emergency Solutions Grant (ESG) funds in program year 2017, and will be maintained and expanded with the award of the 2019-2022 Unified Homelessness Grant for State ESG funds. Due to the one-time nature of the extra funds provided for Federal ESG in 2017, Lee County will be unable to sustain the Street Outreach Project at the conclusion of this program year without funding from another source. The Street Outreach Project will not focus solely on the geographic areas of the City of Fort Myers and the City of Cape Coral, but will serve persons throughout the entire geographic area of the CoC. The outreach activity type is not being funded with program year 2018 or 2019 Federal ESG, received by Lee County through

HUD entitlement; therefore, there is no overlap in the services being provided with Federal and State ESG funds.

a. Does this project qualify as a housing support?

This project does not qualify as a housing support; however, it is an essential part of the CoC system. Without a robust outreach team, opportunities for engagement with individuals and families experiencing unsheltered homelessness are limited. Outreach staff seek out persons who are least likely to request assistance, and build the trust necessary to connect those persons with permanent housing and the housing supports necessary to maintain housing. The Street Outreach Project is housing focused, and able to place people in emergency shelter and permanent housing within a very short timeframe.

b. How does this project integrate with the CoC's Coordinated Entry System?

Lee County CoC Written Standards specify that street outreach efforts must be linked to the Coordinated Entry System. Lee County ensures that outreach workers have adequate access to both paper and electronic methods of administering a coordinated assessment survey with the same standardized processes offered at site-based access points. The Street Outreach Project fully participates in CoC's HMIS and Coordinated Entry System, in accordance with the CoC Written Standards and Coordinated Entry Policies and Procedures. Outreach staff document every contact and service provided in HMIS, in compliance with HUD data standards, and are also equipped to complete coordinated assessments and vulnerability surveys (VI-SPDATs) in the field. Referrals to appropriate housing and service resources, based on the individual's eligibility, vulnerability, and needs, are also made within the HMIS system.

c. How does this project provide a connection to permanent solutions?

The Street Outreach Project is designed with the intention of engaging individuals and families experiencing unsheltered homelessness, and connecting them with the appropriate housing and supportive services necessary to secure and maintain permanent housing. Outreach staff actively seek out, identify, and engage persons through referrals from local stakeholders, community partners, service providers, persons who are homeless, and law enforcement. Outreach staff complete multiple engagements with each household to build trust and relationship.

As soon as practicable, staff conduct vulnerability surveys, and make referrals to permanent housing solutions and supportive services based needs and vulnerabilities. Outreach staff ensure successful linkages to appropriate community resources, mainstream programs, and permanent housing solutions by completing "warm-handoffs" to case managers at the receiving programs. Outreach staff currently make referrals to several existing permanent housing programs including, HOME Tenant Based Rental Assistance and Rapid Rehousing programs funded through Federal ESG and CoC grants. Human and Veteran Services has a dedicated Housing Resources Coordinator, who has established relationships with existing landlords, and identifies new rental properties for permanent housing.

- d. *Does this project focus on critical supports and services needed to achieve housing or does it provide ancillary supports?*

The Street Outreach Project provides both ancillary supports for persons who are not ready for housing, and critical supports and services necessary to achieve housing, once desired. Ancillary supports are provided in the form of gender specific backpacks, supplies, and connection of services that fit the individual or families immediate and urgent needs, such as food pantries. Outreach staff regularly follow-up with individuals and families to offer shelter and housing.

Once housing or shelter is desired, outreach staff provide appropriate referrals, transportation, and “warm-handoffs” to receiving case managers to ensure that housing is achieved. The Street Outreach Project has also collaborated with Lee County Domestic Animal Services to foster dogs for those individuals and families who are entering shelter, until they can be reunited once permanent housing is secured.

8. *Describe the collective impact of the proposed project, including whom the project will serve, how it will help achieve established goals identified in the CoC Plan, and how it supports the CoC’s efforts to achieve the HUD System Performance Measures.*

The Street Outreach Project focuses on identifying the most chronic and vulnerable persons that have the longest periods of homelessness, and are living in places not intended for human habitation. These individuals and families are those that are anticipated to score the highest on the VI-SPDAT and be highest priority in the CoC’s Coordinated Entry System. The proposed project includes funding for three outreach workers. Each outreach staff will admit approximately 64 individuals or families into shelter and/or housing per year, with the whole project serving 192 individuals or families in a twelve-month period.

The 2009 homeless census identified the need for additional outreach within the CoC. In response to this need, Lee County’s Ten Year Plan to End Homelessness, L.I.F.E, established objectives to “increase the involvement of front-line public service workers to expand neighborhood outreach efforts and communication of available resources” (p. 20), and “increase public safety workers’ participation in the annual census, community outreach, and education” (p. 26). The achievement of both objectives requires the implementation of a robust street outreach strategy, such as the Street Outreach Project. Street outreach staff have developed working partnerships with public safety staff and continuously work to share information regarding available community resources with law enforcement, businesses, and front-line staff throughout Lee County. Outreach staff are often requested to assist when Lee County Sherriff’s Office and Fort Myers Police Department address homeless camps. Additionally, front-line staff at local businesses often call outreach staff to request assistance with unsheltered individuals and families living in commercial areas.

The continuation of the Street Outreach Project will result in an overall reduction of the number of individuals and families who are experiencing homelessness in Lee County, especially those who are unsheltered. Prior to the creation of the Street Outreach Project in 2017, Lee County was without dedicated street outreach staff, and had no way of identifying individuals who were living in encampments and not seeking services at local providers. Since July 1, 2018, outreach staff have successfully engaged, completed

assessments, and/or made referrals with 55 households. These figures are expected to rise with the addition of two new outreach staff, and continuation of the existing outreach staff position, which will be supported as part of this award.

The project will also reduce the length of time that persons remain homeless by quickly identifying and engaging individuals and families. Outreach staff have working partnerships with a variety of non-traditional partners, such as law enforcement, jails, prisons, hospitals, and business that assist in identifying persons who are staying in places not meant for human habitation. These partners are quick to make referrals to outreach staff. Staff are usually able to engage clients within 48 hours, and, if desired, make referrals to shelter almost immediately after engagement.

9. *List at least one (1) outcome measure to determine the success of this project.*

All project applicants were asked to identify anticipated outcomes for specific performance measures during the local application process. The prescribed measures were based on HUD system performance measures, and completed as applicable to each project type. The Street Outreach Project identified the following anticipated outcomes:

Performance Measure	Desired Outcome
<p>Length of time persons remain homeless The number of days between enrollment in the Street Outreach Project and placement into permanent housing.</p>	<p><u>30 days</u> for those placed directly from the street into permanent housing and <u>90 days</u> for those admitted to shelter</p>
<p>The extent to which persons who exit homelessness to permanent housing destinations return to homelessness The estimated percent of persons who will remain in housing after exit from the Street Outreach Project into permanent housing.</p>	<p><u>60%</u> after 6 months <u>50%</u> after 12 months <u>40%</u> after 24 months</p>
<p>Number of persons that are no longer homeless The number of persons who will be placed into permanent housing as a result of the Street Outreach Project.</p>	<p><u>192</u> persons</p>
<p>Successful housing placement The percent of persons engaged by the Street Outreach Project who will be exited to emergency shelter or permanent housing destinations.</p>	<p>307 households will be engaged, 60% will be exited to emergency shelter or permanent housing destinations.</p>

Lee County Secure Paths

1. *Project Name:* Secure Paths
2. *Agency Providing Service:* Lee County Human and Veteran Services
3. *Funding Source:* Challenge Grant
4. *Amount Requested:* \$300,000
5. *Total Number to be Served:* 100 women and women with children experiencing homelessness

6. *What problem does this project solve in the effort to end homelessness?*
Home, Together, the Federal strategic plan to end homelessness, outlines the importance of building a collaborative system that ensures homelessness is rare, brief, and one-time. Secure Paths will make significant strides in expanding the local collaborative system by engaging the faith-based community, local municipalities, local nonprofits, and the business community unlike any other existing programs in Lee County. Secure Paths is a new and innovative concept that requires community collaboration for success. Using evidence gathered from case reports, expert opinion, and qualitative research regarding Safe Parking Programs across the United States, Secure Paths was developed as the first program in Florida to provide wrap around services for individuals and families while they transition to permanent housing.

Secure Paths provides a safe, temporary environment where daily needs are met while stable living arrangements into permanent housing are pursued. The proposed project will utilize partnerships with a total of 10 “host sites” to provide secure parking facilities, accompanied by comprehensive wrap around services to assist individual women and women with children who are living in their cars. Secure Paths used several National Best Practice Models and their existing evidence when developing the program. The Dreams for Change program in San Diego uses wrap-around services, a passive recruitment process, and a self-policing procedure while New Beginnings uses permit renewal, case management, active community outreach, and government funding in their program. Lake Washington United Methodist Church of Washington uses a strict intake process performed by volunteers and Program staff that includes background checks and a signed agreement form for those enrolled.

Secure Paths implements many of the practices outlined above, such as background checks, case management, recruitment and wrap-around services, and adopts a new practice that bridges women and children living in their cars with permanent housing resources, and services to enhance their success in maintaining permanent housing. Unlike the models Secure Paths was based upon, this program ensures homelessness is a brief experience by quickly engaging participants with appropriate resources to attain financial stability and permanent housing. Lee County lacks a centralized Housing Solution Center, and shelter waiting lists are long. Secure Paths would provide a safe, secure, and central location for clients to access existing CoC resources, including SOAR trained case managers, behavioral health providers, and supportive services including case management to develop a housing plan, employment coaching, budget clinics. The program will also provide connection to

assistance with 1st month's rent, security deposit, and short-term rental assistance (3 months or less), as needed.

7. *Describe how this project fits into the CoC's system of care?*

In the past year, Lee County Human and Veteran Services, along with the Salvation Army of Lee County, recorded that 455 single women and 27 families were living in places considered inhabitable (i.e. parks, vehicles, etc.). Secure Paths goal is to connect with 125 eligible participants (single women or single women with children who are residents of Lee County without a history of violent or harmful crimes) and enroll at least 80% in the program. While these numbers amount to a quantitative need for a safe transition program, there is also a qualitative need for a centralized model that the Lee County CoC lacks. Secure Paths provides a consolidated model for connecting participants to the network of resources while providing participants with a safe location, supportive wrap around services, financial assistance, and case management. This model connects program participants to a substantial network of resources without the user getting lost trying to navigate the system of care.

Secure Paths has three main functions 1) to provide an array of wrap-around services, in one location, 2) to fill a gap created by the absence of a Homeless Solutions Center and long shelter waiting lists, and 3) quickly connect program participants with the assistance necessary to obtain and maintain permanent housing. The project will improve access to services in a safe location, reduce transportation barriers that often prevent individuals and families from accessing services, and provide links to permanent housing without using scarce shelter resources. Lee County Human and Veteran Services was recognized in 2016 for reaching Functional Zero for veterans experiencing homelessness and continues to strive toward functional zero status for all other subpopulations, including individuals and families. By connecting with individuals and families, Secure Paths' goal is to make homelessness a brief experience by quickly connecting program participants to housing programs and resources.

This program will also assist the CoC in improving overall system performance, by decreasing the average length of time individuals and families remain unsheltered and reducing the overall number of persons who are homeless. Through the creation of a Housing Plan, which outlines a clear and secure path to permanent housing, Secure Paths will ensure that individuals and families are connected to a permanent housing solution as quickly as possible. Ideally, individuals and families will be placed in permanent housing less than 90 days after enrollment in Secure Paths. It is anticipated that Secure Paths will successfully connect 100 households to permanent housing during the grant term, significantly reducing the number of individuals and families that experiencing homelessness within the CoC.

a. *Does this project qualify as a housing support?*

Secure Paths is a housing focused program, which aims to quickly connect individuals and families to supportive services and permanent housing. Secure Paths will provide housing support in the form of short-term rental, deposit and/or utility assistance, and provide wrap-around services to facilitate the transition to permanent housing quickly and easily. Secure Paths supports the Housing First model however until permanent

housing can be attained, Secure Paths serves as a bridge through “host sites”, which provide safe and welcoming transitional facilities until participants can move into a permanent home. Secure Paths allows participants to continue to pursue their goals while supportive services are offered to increase stability. Thus, when they can move into housing, their time in the transition period better prepared them for success. Like the Housing First approach, the basic and immediate needs as outlined by Maslow's Hierarchy of Needs are provided: security, shelter, food. The more long-term needs of employment, budgeting, and personal issues are then addressed. The Housing First model that values client choice is emphasized by the co-creation of a transition plan by the Secure Paths coordinator and participant.

b. How does this project integrate with the CoC's Coordinated Entry System?

As a new project, Secure Paths will build on the success Lee County Human and Veteran Services has experienced over the years with its Family Self-Sufficiency Programs by utilizing the Coordinated Entry System and HMIS to assess, prioritize, and refer individuals and families experiencing homelessness. Secure Paths staff will ensure that project participants complete a Coordinated Assessment as soon as practicable after enrollment into the program. If required, case management staff will complete a vulnerability survey (VI-SPDAT) with the participant to prioritize them for permanent housing resources. HMIS will be used to make referrals and connect participants with case management, supportive services, and permanent housing, when those needs cannot be addressed within the program. Lee County Human and Veteran Services also serves as a partner with United Way's Human Services Information Network and is a leader in collaboration and referrals with the local service network of human service agencies.

c. How does this project provide a connection to permanent solutions?

The entire mission of Secure Paths is to facilitate connections to permanent housing while providing support services in a safe and secure location. Funding requested in this application includes the provision of first month's rent, security deposit, and utility assistance to assist program participants with the completion of their Housing Plan. Some host sites may also provide financial assistance to further support program participants in moving forward with their Housing Plan. Secure Paths staff will complete Coordinated Assessments and vulnerability surveys (VI-SPDAT) with program participants, and make referrals through HMIS to more intensive permanent housing solutions, including Tenant Based Rental Assistance and Rapid Re-Housing programs, when necessary.

d. Does this project focus on critical supports and services needed to achieve housing or does it provide ancillary supports?

Secure Paths provides both ancillary supports for persons who waiting for housing, and critical supports and services necessary to achieve housing, once desired and available. Ancillary supports are provided in the form of a secure parking location, amenities such as laundry services, employment coaching, Wi-Fi, access to showers and other activities of daily living that might not typically be available while driving from parking lots to streets looking for a safe location to park. Staff will determine the critical supports necessary for the program participant to obtain and maintain housing. If short-term

rental and/or move-in assistance is needed, Secure Paths staff will assist, and facilitate the transition to permanent housing as quickly as possible once housing is available. If more intensive interventions are necessary, staff will provide appropriate referrals and “warm-handoffs” to receiving case managers to ensure that housing assistance is achieved.

8. *Describe the collective impact of the proposed project, including whom the project will serve, how it will help achieve established goals identified in the CoC Plan, and how it supports the CoC’s efforts to achieve the HUD System Performance Measures.*

In the past year, Lee County Human and Veteran Services, along with the Salvation Army of Lee County, recorded that 455 single women and 27 families were living in places considered inhabitable (i.e. parks, vehicles, etc.). Secure Paths goal is to connect with 125 eligible participants (single women or single women with children who are residents of Lee County without a history of violent or harmful crimes) and enroll at least 80% in the program. While these numbers amount to a quantitative need for a safe transition program, there is also a qualitative need for a centralized model that the Lee County CoC lacks. Many households seeking shelter fall between the cracks due to long wait lists, and lack of a truly centralized intake point. Secure Paths fills this gap, by providing a more consolidated model; connecting participants to a network of resources that affords the participant a safe location to stay, supportive wrap around services, and permanent housing solutions.

Lee County’s 2009 Ten Year Plan to End Homelessness, L.I.F.E, established eight areas where improvements were necessary to end homelessness. Secure Paths addresses needs in seven of these areas, as demonstrated below. The achievement of the objectives in these areas will be recognized through the implementation of Secure Paths.

Public Awareness: Secure Paths is built on engaging and educating the faith based and business community of the needs of those living on the streets. Collaboration, education and engagement is essential for the success of Secure Paths in decreasing the number of individuals and families living in unsafe conditions.

Housing: The faith-based community is a large and engaging group in Lee County. The resources that are available between the church (unused clergy housing/parsonage) and church members is an untapped resource.

Health Services: With the absence of a Homeless Solutions Center, each host site will serve as its own "solution center" allowing a coordinated effort of resources and services to be onsite with the clientele. Services include, but are not limited to: health care, behavioral health and financial wellness.

Supportive Services: With the absence of a Homeless Solutions Center, each host site will serve as its own "solution center" allowing a coordinated effort of resources and services to be onsite with the clientele. Services include, but are not limited to: childcare, housing, food stamps, employment and services for veterans.

Education: Employment and Financial Aid coaching will be made available for those interested and in need of securing or improving their employment while others may focus on financial aid and grants available for educational opportunities (microenterprise, college, technical school, etc.). Connections will also be made to Project ACCESS, Lee County School District's McKinney-Vento funded program for students experiencing homelessness.

Employment: Employment and Financial Aid coaching will be made available for those interested and in need of securing or improving their employment while others may focus on financial aid and grants available for educational opportunities (microenterprise, college, technical school, etc.).

Transportation: Since Secure Paths is based on the client owning their own vehicle, support services will be provided in the form of gas cards and other transportation assistance in order to access additional services not offered on-site. The premise is for each client to be current on their auto insurance, their registration and have a current license, ensuring the client is driving legally in Lee County.

Secure Paths will also assist the CoC in improving HUD System Performance Measures. Because each participant is provided the opportunity to address all their needs in one central location rather than attempting to navigate the complex network of agencies where appointments are missed, schedules conflict, or other restrictions persist, the time each person remains homeless is decreased. Resources connecting participants to resume building, employee coaching, and budget clinics allow the participant the opportunity to gain full time employment and to maintain or increase their income. Financial assistance such as short-term rental, deposit, and utility assistance coupled with referrals for post-housing case management helps decrease the likelihood that a participant will return to homelessness. The immersion in wrap-around services and case management shortens the length for participants to remain homeless and keeps their experience of homelessness a rare occurrence. Case management allows relationships to develop and to increase accountability both in the program and after permanent housing is attained to ensure homelessness is limited to a one-time experience.

9. List at least one (1) outcome measure to determine the success of this project.

All project applicants were asked to identify anticipated outcomes for specific performance measures during the local application process. The prescribed measures were based on HUD system performance measures, and completed as applicable to each project type. Secure Paths identified the following anticipated outcomes:

Performance Measure	Desired Outcome
<p>Length of time persons remain homeless The number of days between enrollment in the Secure Paths and placement into permanent housing.</p>	<p><u>90 days</u></p>
<p>The extent to which persons who exit homelessness to permanent housing destinations return to homelessness The estimated percent of persons who will remain in housing after exit from Secure Paths into permanent housing.</p>	<p><u>80%</u> after 6 months <u>50%</u> after 12 months <u>50%</u> after 24 months</p>
<p>Number of persons that are no longer homeless The number of persons who will be placed into permanent housing as a result of Secure Paths.</p>	<p><u>100</u> persons</p>
<p>Jobs and Income Growth The percent of persons served through Secure Paths that increase or maintain their earned and unearned income between their enrollment into the project and their exit (or follow-up assessment)</p>	<p><u>80% or 80</u> persons</p>

Lee County Housing Development Corporation – Housing Stabilization Program

1. *Project Name:* Housing Stabilization Program (HSP)
2. *Agency Providing Service:* Lee County Housing Development Corporation
3. *Funding Source:* Temporary Assistance for Needy Families – Prevention
4. *Amount Requested:* \$70,000
5. *Total Number to be Served:* 25 households at risk of homelessness

6. *What problem does this project solve in the effort to end homelessness?*

7. *Describe how this project fits into the CoC's system of care?*

Homelessness prevention, like outreach, is an essential part of any CoC's system of care. For the Lee County CoC, homelessness prevention provides the essential support necessary to help families remain in their homes, and out of the homeless assistance system. The Housing Stabilization Program (HSP) will ensure that highly demanded emergency shelter beds are reserved for those without the ability to return to or stay in safe and stable housing.

Like other projects, the continuation of the HSP is supported by the federal strategic plan to end homelessness, *Home, Together*. The plan outlines the importance of taking a multipronged approach to homelessness prevention that provides families the necessary tools to maintain long-term housing stability. Lee County Housing Development Corporation (LCHDC) embodies this comprehensive approach by partnering with CoC service providers, as well as offering a multitude of housing counseling services within their own agency, including mortgage delinquency and default resolution, rental housing counseling, pre-purchase counseling, financial management, home improvement and rehabilitation counseling, and fair housing training and outreach.

a. *Does this project qualify as a housing support?*

The HSP qualifies as a housing support by providing assistance to pay past due rent and utility payments, with the goal of stabilizing families in permanent housing. The HSP also provides complete case management, and the development of a case plan to ensure that housing stability is maintained after financial supports have concluded.

b. *How does this project integrate with the CoC's Coordinated Entry System?*

LCHDC uses the HMIS to effectively collect and share data with other CoC providers to ensure efficient delivery of services to families at risk of homelessness. The HSP plans to serve families with the highest vulnerability to housing instability, including those with disabilities, substance use issues, and extremely low incomes, with the goal of preventing homelessness. LCHDC currently collaborates with the McGregor Clinic, Our Mother's Home, Lehigh Community Services, and the ACT Shelter to serve clients with special needs and very low income.

The HSP will be administered in compliance with the CoC Written Standards and Coordinated Entry Policies and Procedures, which require that referrals to homelessness prevention projects be made through the Coordinated Entry System. The HMIS Lead Agency is working to finalize changes to Coordinated Entry System access points to

allow all referrals to the HSP to be made through the HMIS system. Until the changes are finalized, the HSP will receive referrals from local service providers via a standard referral form, and will accept self-referrals from families in need of assistance.

c. How does this project provide a connection to permanent solutions?

The HSP will ensure housing and service options are tailored to meet the unique needs of each individual or family presenting for assistance. Program participants will have access to the services that they reasonably believe will help them achieve their goals, with an emphasis on engagement and problem solving over therapeutic goals. Program participants will not be required to participate in services and will not be terminated from the program for failure to do so. Participation in services or compliance with service plans are not conditions of financial assistance, but are reviewed with participants during case management and regularly offered as resources.

Staff will conduct a home visit or follow-up phone call at least once during the period of time in which a household is receiving financial assistance. Staff will conduct a follow-up with each client household within 60 days after their exit from the program to determine if the client retains their housing and other measures of stability. It is expected that 85% of families served through housing stabilization program will attain self-sufficiency over a period of three months to two years.

d. Does this project focus on critical supports and services needed to achieve housing or does it provide ancillary supports?

The HSP focuses on providing critical supports and services necessary to prevent homelessness. Such supports include the provision of rent and utility payments, along with the development of a case plan and case management to ensure that the assisted family remains stably housed long-term.

Households eligible for the HSP will be assigned a Case Manager at intake. The case manager will assume primary responsibility for coordinating services, with a focus on setting and achieving goals-related to obtaining and maintaining permanent housing.

The case manager will also perform the following:

1. Assist the household in identifying and prioritizing the action steps needed to achieve housing stability and developing strategies to overcome barriers to success.
2. Develop a budget with household to promote the retention of stable housing.
3. Be familiar with the program service area and actively cultivate a working knowledge of and connections to relevant area resources such as: emergency services, mainstream benefit programs, educational programs, mental and physical health care programs, child care resources and any additional resources needed to address needs and goals.

8. *Describe the collective impact of the proposed project, including whom the project will serve, how it will help achieve established goals identified in the CoC Plan, and how it supports the CoC's efforts to achieve the HUD System Performance Measures.*

Lee County Housing Development Corporation's (LCHDC) Housing Stabilization Program (HSP), provides rental and utility assistance and case management services for those at risk of homelessness. Families served will meet the TANF-Prevention eligibility criteria. The HSP program is an initiative designed to help connect those at risk of homelessness with resources and services that will prevent homelessness and aid in the household's pursuit of financial stability. The HSP is currently being funded by the 2018 Challenge grant, and provided \$37,644.21 to assist twenty-three (23) households through the end of calendar year 2018. Families served through the HSP program were homeless or at imminent risk of homelessness. With the provision of TANF-Prevention funds for the continuation of the HSP, LCHDC proposes to assist approximately twenty-five (25) households with rental and utility assistance with each household receiving a maximum of \$2,800 in financial aid. LCHDC will also continue its partnership with Lehigh Community Services to reach families in need of assistance in Lehigh Acres through weekly on-site intake. If LCHDC is able to assist a household due to funding criteria, staff will continue to make referrals to alternative housing programs and resources.

Lee County's 2009 Ten Year Plan to End Homelessness, L.I.F.E, established an objective to "Increase emergency shelter beds and develop initiatives to prevent homelessness". The HSP is the realization of that objective, as it reduces demand on shelter beds by preventing homelessness.

9. *List at least one (1) outcome measure to determine the success of this project.*

All project applicants were asked to identify anticipated outcomes for specific performance measures during the local application process. The prescribed measures were based on HUD system performance measures, and completed as applicable to each project type. The HSP identified the following anticipated outcomes:

Performance Measure	Desired Outcome
<p>Length of time persons remain homeless The number of days between enrollment in the Secure Paths and placement into permanent housing.</p>	<p><u>90 days</u></p>
<p>The extent to which persons who exit homelessness to permanent housing destinations return to homelessness The estimated percent of persons who will remain in housing after exit from the HSP.</p>	<p><u>85%</u> after 3 months * Staff will conduct a follow up with each client household within 60 days after their exit from the program to determine if the client retains their housing</p>
<p>Jobs and Income Growth The percent of persons served through the HSP that increase or maintain their earned and unearned income between their enrollment into the project and their exit (or follow-up assessment)</p>	<p><u>85%</u> of persons served</p>
<p>Number of persons who are prevented from becoming homeless for the first time The number of persons served through the HSP that will be prevented from becoming homeless.</p>	<p><u>25</u> households</p>

OVERVIEW

The Homeless Emergency Assistance and Rapid Transition to Housing (HEARTH) Act of 2009 reauthorized the McKinney-Vento Homeless Assistance programs. Through the enactment of the HEARTH Act, the Department of Housing and Urban Development (HUD) published the new Continuum of Care (CoC) Program interim rule (24 CFR Part 578). The CoC Program interim rule requires that the CoC establish and consistently follow written standards for providing CoC assistance, in consultation with recipients of the Emergency Solutions Grant (ESG) program. At a minimum, these written standards must include:

- Policies and procedures for evaluating individuals' and families' eligibility for assistance in all CoC and ESG programs.
- Policies and procedures for determining and prioritizing which eligible individuals and families will receive assistance through homelessness prevention, diversion, street outreach, emergency shelter, rental assistance, permanent supportive housing assistance, transitional housing assistance, joint transitional housing to rapid re-housing, and rapid re-housing assistance.
- Policies and procedures for coordination among emergency shelter providers, essential services providers, homelessness prevention, and rapid re-housing assistance providers; other homeless assistance providers; and mainstream service and housing providers.
- Standards for determining what percentage or amount of rent and utilities costs each program participant must pay while receiving homelessness prevention, rental assistance, or rapid re-housing assistance.
- Standards for determining how long a particular program participant will be provided with rental assistance and whether and how the amount of that assistance will be adjusted over time; and
- Standards for determining the type, amount, and duration of housing stabilization and/or relocation services to provide to a program participant, including the limits, if any, on the homelessness prevention or rapid re-housing assistance that each program participant may receive, such as the maximum amount of assistance, maximum number of months the program participant receive assistance; or the maximum number of times the program participant may receive assistance.

In addition, 24 CFR 578.7(a)(8) and CPD-17-01 requires the Lee County Continuum of Care (CoC) to establish and operate a Coordinated Entry System (CES) that provides an initial, comprehensive assessment of the needs of individuals and families for housing and services. Coordinated Entry is designed to provide standardized access and assessment, and coordinate housing and services for individuals and families experiencing homelessness. Coordinated Entry facilitates referrals and housing placements to ensure that individuals and families experiencing homelessness receive appropriate assistance with both immediate and long-term housing and service needs.

The Lee County CoC agrees that these standards must be applied consistently across the entire CoC defined geographic area. Additionally, Lee County CoC members agree to administer their assistance in compliance with the CoC's written standards upon award of CoC, ESG or other applicable funds. Recipients and sub-recipients of CoC, ESG and other applicable funds may develop additional standards for administering program assistance, but these additional standards cannot be in conflict with those established by the Lee County CoC, the CoC Program interim rule, or any other federal guidance.

DEFINITIONS

HOUSING FIRST

The *Housing First* approach is a data driven solution to homelessness. *Housing First* approaches feature direct, or nearly direct, placement of targeted homeless people into permanent housing where supportive services are offered to maximize housing stability and prevent returns to homelessness as opposed to addressing predetermined treatment goals prior to permanent housing entry. *Housing First* approaches ensure that the risk factors that make finding and maintaining housing more challenging are used to screen people into assistance rather than screening them out.

Housing First requires that program participants are not screened out based on:

- Having too little or no income;
- Active or history of substance use;
- Type or extent of disability related support needed;
- Resistance to receiving services;
- History of eviction, poor credit, lease violations, or no lease history;
- Having a criminal record with exceptions for state-mandated restrictions; or
- History of victimization (e.g. domestic violence, sexual assault, childhood abuse).

Additionally, *Housing First* programs must ensure that participants are not terminated from the program for:

- Failure to participate in supportive services;
- Failure to make progress on a service plan;
- Loss of income or failure to improve income; or
- Any other activity not covered in a lease agreement typically found for unassisted persons in the Lee County.

All Lee County CoC service providers are required to implement a *Housing First* approach that ensures low barrier program entry and the provision of optional supportive services, both during and post-housing, that promote housing stability and overall well-being.

Verification Requirements

In accordance with 24 CFR 578.1036(a)(4), all recipients of dedicated and non-dedicated CoC Program-funded PSH must obtain documentation to verify that an individual or family is chronically homeless for the purposes of eligibility.

CROSS-CUTTING REQUIREMENTS

VIOLENCE AGAINST WOMEN ACT OF 2013 (VAWA)

On November 16, 2016 the U.S. Department of Housing and Urban Development published the final rule regarding housing protections for victims of domestic violence, dating violence, sexual assault, or stalking (Federal Register Document #2016-25888). This final rule prohibits an applicant for assistance or tenant assisted under a covered housing program from being denied assistance under, denied admission to, terminated from participation in, or evicted from housing on the basis or as a direct result of the fact that the applicant or tenant is or has been a victim of domestic violence, dating violence, sexual assault or stalking, so long as the applicant otherwise qualifies for admission, assistance, participation or occupation (24 CFR 5.2005 (b)(1)).

In addition, the VAWA Final Rule requires that each covered housing provider produce a detailed emergency transfer plan, which ensures that a tenant receiving rental assistance through or residing in a unit subsidized under a covered housing program who is a victim of domestic violence, dating violence, sexual assault, or stalking qualifies for an emergency transfer within the criteria stated in 24 CFR 5.2005 (e)(2). Lee County's Emergency Transfer plan, Attachment 1, encompasses all CoC, Emergency Solutions Grant (ESG), and HOME funded programs. All covered housing providers must maintain records on emergency transfers requested under 24 CFR 5.2005(e). Data must include the outcomes of each request, and must be provided to Lee County upon request.

VAWA in no way limits the authority of the covered housing program to terminate assistance or evict a tenant under a covered housing program if the provider can demonstrate that an actual and imminent threat to other tenants or those employed at or providing service to the property of the covered housing provider would be present if that tenant is not evicted or terminated (24 CFR 5.2005 (d)(3)).

EDUCATIONAL SERVICES

All Lee County CoC service providers must have written policies in place which ensure that individuals and families who become homeless are informed of their eligibility for and receive access to educational services. These policies should include how homeless families with children will be informed of and referred to the Lee County School Districts homeless students program, A.C.C.E.S.S. Such policies should also include information for all homeless individuals and families regarding local technical schools and universities, which may offer programs and assistance for persons who are homeless.

Additionally, programs that specifically serve families with children must have a staff person designated as the education liaison that will ensure that children are enrolled in school and connected to the A.C.C.E.S.S. program, as well as Head Start, if applicable.

COORDINATION WITH MAINSTREAM SERVICES

A primary function of case management is to make and coordinate referrals with community resources and mainstream services such as: Food Stamps, Medicaid, Child Care, SSI/SSDI, Veteran's Services, Section 8 Housing, mental health services, abuse services, etc. Staff from all funded agencies are required to make referrals and ensure clients access the referred services. Staff must also make necessary accommodations to ensure that clients needing additional assistance to utilize services have the necessary resources. Client files from funded agencies will be monitored to ensure that referrals and accommodations are appropriate, consistent, and timely.

HOMELESS MANAGEMENT INFORMATION SYSTEM (HMIS)

All projects funded by or through Lee County Human and Veteran Services must ensure that data on all persons served and all activities assisted are entered into the community-wide HMIS, Client Services Network (CSN), in accordance with HUD's standards on participation, data collection, and reporting under a local HMIS. If the recipient of funds is a victim service provider or a legal services provider, it may use a comparable database that collects client-level data over time (i.e., longitudinal data) and generates unduplicated aggregate reports based on the data. Information entered into a comparable database must not be entered directly into HMIS.

ENVIRONMENTAL REVIEWS

Lee County Human and Veteran Services serves as the responsible entity, and will perform environmental reviews for applicable projects in accordance with 24 CFR Part 58.

CoC funded projects that consist only of leasing or rental assistance activities require a "limited scope" environmental review. The limited scope review need only analyze applicable environmental laws and authorities and may document that the project is in compliance with others without analysis. A limited scope review is appropriate only if the project consists entirely of leasing or rental assistance activities in existing residential buildings without any associated physical impacts, including repairs, rehabilitation, or new construction.

Lee County Human and Veteran will perform limited scope reviews for all CoC rental assistance activities which do not consist of any repairs, rehabilitation, or new construction using the "Limited Scope Environmental Review Instructions – Continuum of Care (CoC)" and "Limited Scope Environmental Review Format – Continuum of Care (CoC)" supplied by HUD.

NONDISCRIMINATION AND EQUAL OPPORTUNITIES

The Lee County CoC operates the coordinated entry system in accordance with all federal statutes including, but not limited to: the Fair Housing Act, Title VI of the Civil Rights Act, Section 504 of the Rehabilitation Act, and Title II and Title III of the Americans with Disabilities Act. All service providers, where assistance is provided through Community Planning and Development (CPD) programs, including assistance under the: HOME Investment Partnerships program (24 CFR part 92), Housing Trust Fund program (24 CFR part 93), Community Development Block Grant program (24 CFR part 570), Housing Opportunities for Persons With AIDS program (24 CFR part 574), Emergency Solutions Grants program (24 CFR part 576), Continuum of Care program (24 CFR part 578), or Rural Housing Stability Assistance Program (24 CFR part 579), must ensure equal access to the HUD-assisted program in accordance with all general HUD program requirements as specified in 24 CFR Part 5.

Lee County CoC requires service providers to practice a person-centered model that incorporates participant choice and inclusion of all homeless subpopulations present in Lee County, including homeless veterans, youth, and families with children, individual adults, seniors, victims of domestic violence, and Lesbian, Gay, Bisexual, Transgender, Queer or Questioning, and Intersex (LGBTQI) individuals and families.

All CoC and ESG funded service providers must ensure that all persons have fair and equal access to the coordinated entry process and all forms of assistance regardless of race, ethnicity, national origin, age, sex, familial status, religious preference, disability, type or amount of disability, gender identity, perceived gender identity, marital status, sexual orientation, or perceived sexual orientation.

Additionally, service providers must maintain compliance with the HEARTH Act's involuntary family separation provision (42 USC 11361a), which ensures that emergency shelters, transitional housing, and permanent housing (PSH and RRH) providers within the CoC do not deny admission to or separate any family members from other members of their family based on age, sex, marital status, gender, gender identity, perceived gender identity, sexual orientation, or disability, when entering shelter or housing.

REASONABLE ACCOMMODATIONS

The Lee County CoC ensures that persons with disabilities have equal access to the Coordinated Entry System through compliance with the requirements of Title II and Title III of the Americans with Disabilities Act. Lee County does not discriminate against individuals with disabilities on the basis of disability in the County's services, programs, or activities.

To request an auxiliary aid or service for effective communication or a reasonable modification clients may contact Lee County Human and Veteran Services at 239-533-7900 or the service provider from which they are seeking assistance. Persons needing translation services should contact Lee County Human and Veteran Services at 239-533-7900 or the service provider from which they are seeking assistance. Accommodations and translation services will be provided at no cost to the requestor.

All coordinated entry access points must be accessible for persons with disabilities, include those who use wheelchairs and those who are least likely to access homeless assistance. Upon request, all agencies must provide appropriate and reasonable accommodations for persons with disabilities and/or Limited English Proficiency (LEP) so they can participate equally in the Coordinated Entry process, including qualified language interpreters, and other ways of making information and communications accessible to people who have speech, hearing or vision impairments, disabilities, or those with LEP.

RECORDKEEPING

All projects must maintain and follow written intake procedures to ensure compliance with the homeless definition in §576.2. The procedures must establish the order of priority for obtaining evidence as third-party documentation first, intake worker observations second, and certification from the person seeking assistance third.

Documentation of intake must include evidence relied upon to establish and verify homeless status; however, lack of third-party documentation must not prevent an individual or family from being immediately admitted to emergency shelter, receiving street outreach services, or being immediately admitted to shelter or receiving services provided by a victim service provider. Records contained in an HMIS or comparable database used by victim service or legal service providers are acceptable evidence of third-party documentation and intake

worker observations if the HMIS retains an auditable history of all entries, including the person who entered the data, the date of entry, and the change made; and if the HMIS prevents overrides or changes of the dates on which entries are made.

STRATEGY FOR ENSURING COMPLIANCE

CoC and ESG funded service providers will be monitored annually by Lee County to ensure compliance with the standards and laws listed here within. The monitoring will include a review of the provider policies, procedures, and practices to ensure compliance with all federal regulations, laws, standards, rules, and any other local policies applicable to the program being monitored. The monitoring report will include any findings or concerns related applicable laws, standards, and rules specified here within.

CORE ELEMENTS OF THE COORDINATED ENTRY SYSTEM

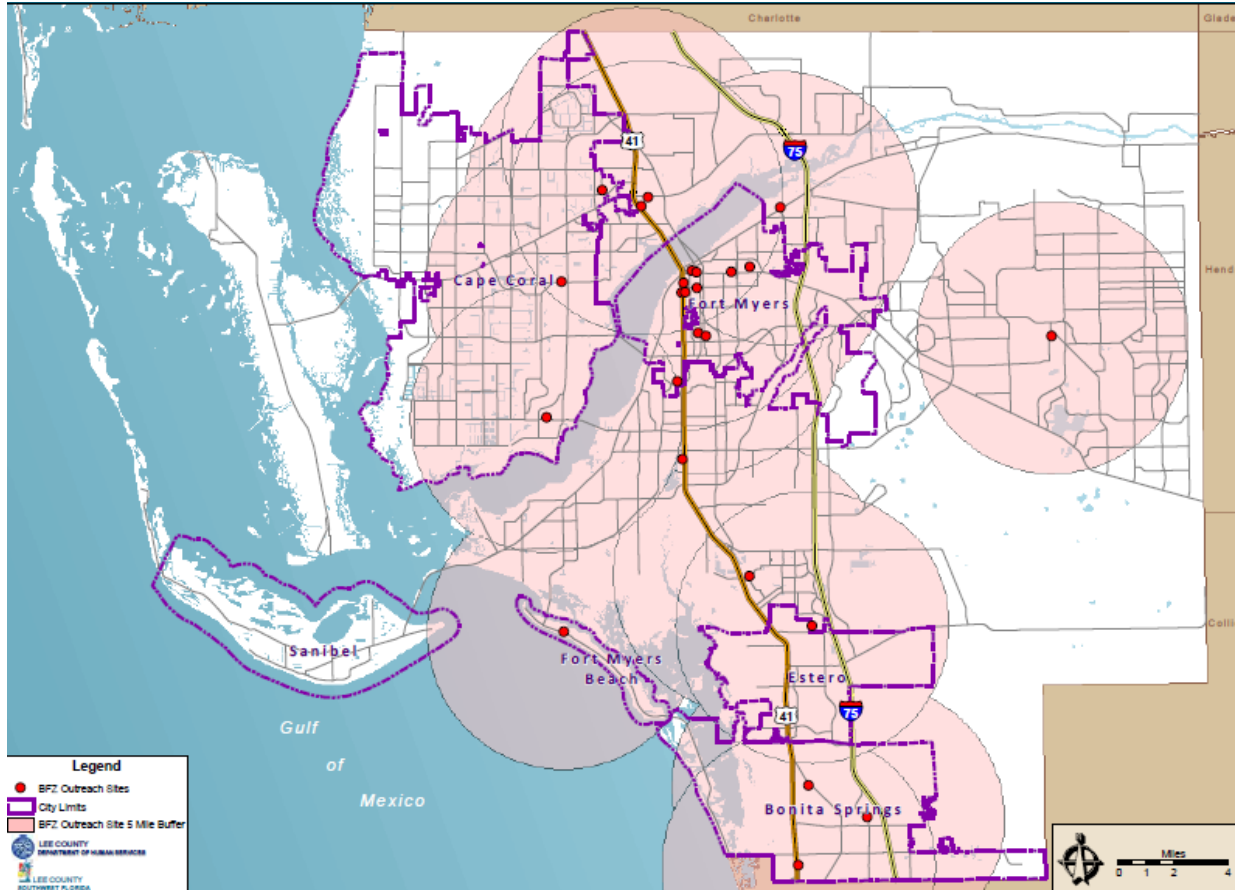

The Lee County CoC Coordinated Entry process has four distinct elements: *access, assessment, prioritization, and referral*. The goals of the Coordinated Entry System are to provide:

- **Access**
 - By ensuring that clients know how and where to gain access and receive assistance as efficiently and effectively as possible.
- **Assessment**
 - By ensuring all clients receive standardized assessments and experiences when seeking assistance throughout the CoC, and
 - By ensuring clarity, transparency, consistency, and accountability for homeless clients, referral sources, and homeless service providers throughout the assessment process.
- **Prioritization**
 - By ensuring that clients who have the longest instances of homelessness and/or are the most vulnerable have priority access to limited resources.
- **Referral**
 - By ensuring clients are referred to the type of intervention most appropriate to their immediate and long-term housing and service needs, and
 - By ensuring CoC resources are being used to their full capacity to meet the needs of individuals and families who are homeless.

ACCESS

The Lee County CoC embraces a “no-wrong-door” approach to ensure that any person who is homeless and seeking assistance has access to the Coordinated Entry System. There are currently 23 points of access located throughout Lee County that provide the same assessment approach for all persons.

Geographic Distribution of Coordinated Entry Access Points

Geographic Distribution of Coordinated Entry Access Points in Relationship to Public Transportation (LeeTran) Routes

AFFIRMATIVE MARKETING STRATEGY

The Coordinated Entry Affirmative Marketing Strategy (CEAMS) is a communication and management strategy designed to make the coordinated entry access points and CoC housing and services accessible to all persons regardless of sex, gender identity, perceived gender identity, sexual orientation, perceived sexual orientation, age, color, national origin, ethnicity, limited English proficiency, disability status, family status, marital status, or religion.

All providers participating in the coordinated entry system (CES) shall:

1. Identify special populations and subpopulations in the CoC jurisdiction who are eligible for CES services but have historically not participated, enrolled, and entered in CoC programs in rates commensurate with overall subpopulation prevalence.
2. Outline an outreach program that includes special measures designed to attract those groups identified as least likely to apply and other efforts designed to attract persons from the total population.
3. The effectiveness of the marketing program can be determined by noting if the program effectively attracted persons experiencing homelessness who are:
 - a. From minority groups, regardless of gender, as represented in the population of the CoC jurisdiction;
 - b. Persons with disabilities and their families;
 - c. Persons whose legal history, housing history, substance use history, behavior health status, physical health status, or any other attribute or characteristic has historically served as a barrier to gaining entry to CoC services and/or housing.

The Lee County CES shall be marketed throughout the CoC's geographic area via the Lee County and Lee County Homeless Coalition websites, social media pages, and other means as deemed appropriate. All policies and procedures related to CES shall be advertised on the Lee County HMIS page:

<http://www.leegov.com/dhs/csn/downloads>. Additional efforts to carry out the CEAMS shall include:

1. Advertising in locations or media that are used and viewed or listened to by those identified as least likely to enter CoC services and housing, such as youth, individuals who are chronically homeless, and families with children;
2. Marketing CoC services and housing to specific community, religious, support organization or other groups frequented by those least likely to enter CoC services and housing;
3. Distribution of a brochure and other printed materials, which describe the coordinated entry process to be used by persons experiencing a housing crisis to locate, identify, and access CES services.
4. Incorporating information regarding compliance with the Fair Housing Act, American's with Disabilities Act, and the CEAMS into CES training protocols.

In accordance with the Americans with Disabilities Act, Lee County does not discriminate against qualified individuals with disabilities in its services, programs, or activities. To request an auxiliary aid or service for effective communication or a reasonable modification clients may contact Lee County Human and Veteran Services at 239-533-7900 or the service provider from which they are seeking assistance. Persons needing translation services should contact Lee County Human and Veteran Services at 239-533-7900 or the service provider from which they are seeking assistance. Accommodations and translation services will be provided at no cost to the requestor.

PRIVACY PROTECTIONS & PARTICIPANT AUTONOMY

The Lee County HMIS Privacy Notice describes the privacy policy of the Lee County HMIS and the agencies participating in the Homeless Management Information System (HMIS). The notice outlines that personal information is collected only when appropriate, and no information may be used or disclose for any purpose other than for that of the program. Information may only be used or disclosed to comply with legal and other obligations. Before conducting a Coordinated Entry, the Client Informed Consent and Release of Information Authorization form must first be signed, and the client must give consent to the exchange of information on Client Services Network (CSN).

Individuals are free to decide what information they provide during the assessment process, and agencies are prohibited from denying assessment or services to individuals who refuse to provide specific information, unless that information is necessary to establish program eligibility according to program regulations. Additionally, the assessment and prioritization process cannot require disclosure of specific disabilities or diagnoses. Specific diagnosis or disability information may only be obtained for the purposes of determining program eligibility to make appropriate referrals, such as for Permanent Supportive Housing (PSH).

Individuals shall be allowed to refuse to answer assessment questions and to refuse housing and service options without retribution or limitations on their access to assistance. Should an individual reject a housing or service option they will maintain their prioritization for the next available housing or service option. The housing or service option that was rejected shall be provided to the next individual according to the prioritizations outlined in the program prioritizations here within.

Individuals who do not sign the release of information should not have an assessment completed, and shall not be denied services unless Federal statute requires collection, use, storage, and reporting of the individuals personally identifiable information as a condition of program participation.

SAFETY PLANNING

No individual may be denied access to the assessment process, supportive services, housing or other services provided by victim specific or non-victim specific service providers on the basis that an individual is or has been a victim of domestic violence, dating violence, sexual assault or stalking.

Victims of domestic violence, dating violence, sexual assault, stalking or human trafficking are not maintained in HMIS within the Lee County CoC. Individuals and families who are fleeing domestic violence, dating violence, sexual assault, stalking or human trafficking will receive an assessment via paper, which will be entered into an HMIS comparable database. Data maintained in comparable databases by victim specific service providers is reconciled to Lee County HMIS data annually.

Any person who knows, or has reasonable cause to suspect, that a child or elder is abused, abandoned, or neglected by a parent, legal custodian, caregiver, or other person responsible for the child's or elder's welfare is a mandatory reporter, as specified by [Florida Statute § 39.201\(1\)\(a\)](#), and must make a report to the Florida Abuse Hotline at 1-800-962-2873 or online at www.myflfamilies.com/service-programs/abuse-hotline/report-online. To report an allegation in Spanish or Creole, call 1-800-962-2873, for TDD (Telephone Device for the Deaf) 1-800-453-5145. This toll free number is available 24 hours a day, 7 days a week with counselors waiting to assist you. All reports are confidential.

EMERGENCY SERVICES

The Family Emergency Homeless Shelter, operated by The Salvation Army (TSA), completes client prescreening Monday through Friday from 1:00 pm to 3:00 pm. TSA provides the client with a letter stating eligibility status. Clients are admitted to the shelter via intake, which is completed Monday through Friday from 4:00 pm to 8:00 pm. Intake may occur after 8:00 pm if there are extenuating circumstances.

ACT, the local domestic violence shelter, provides services to all persons without regard to race, color, religion, national origin, gender, age, mental or physical disability, sexual orientation, citizenship, marital status, gender identity (or expression), language spoken, immigration status and any other protected class, through their 24-hour crisis hotline. The crisis hotline (239-939-3112) offers information and referrals, safety planning, and shelter admission assessments.

The Bob Janes Triage Low Demand Shelter, operated by The Salvation Army (TSA) and SalusCare, Inc., admits clients between the hours of 7:30 am and 9:00 pm through Lee County Law Enforcement Departments, and various other agencies. Clients coming from Lee Health hospitals will be admitted 24 hours per day. Initial assessments are conducted by the on-staff nurse.

ASSESSMENT

All HMIS participating agencies making client referrals in the system will be required to first complete the Coordinated Entry screen. Upon completion, the system will notify the user if a Vulnerability Index – Service Prioritization Decision Assistance Tool (VI-SPDAT) is required. Individuals that are determined to be a veterans, chronically homeless, or homeless households with children are required to complete a full VI-SPDAT. The VI-SPDAT score will determine the client’s and/or household’s needs and initial prioritization for housing resources and supportive services.

NOTE: All assessments conducted on paper must be recorded in HMIS within 48 hours of when the information was first collected.

Information gathered and prioritizations made must be consistent with [24 CFR 576.400\(e\)](#) and [24 CFR 578.7\(a\)\(9\)](#). However, the assessment tools may not produce a complete body of information necessary to determine household prioritization. For this reason, case workers or others working with homeless households may gather additional information relevant to the factors in accordance with CoC prescribed prioritization criteria to make decisions.

The Coordinated Entry process must not be used to screen people out due to perceived barrier to housing or services, including, but not limited to:

- Too little or no income;
- Active or a history of substance abuse;
- Domestic violence history;
- Resistance to receiving services;
- The type or extent of disability-related services or supports that are needed;
- History of evictions, lease violation or lack of leaseholder history;
- Criminal records; or
- Poor credit.

ASSESSOR TRAINING

The HMIS Lead Agency will provide at least one annual training opportunity, which may be in-person, a live or recorded online session, or a self-administered training, to participating staff at organizations that serve as access points or otherwise conduct assessments. Annual training opportunities will be advertised on the Lee County Human and Veteran Services webpage, Facebook page, and solicited directly to service providers in the CoC’s geographic area.

TRAINING PROTOCOLS

The purpose of the annual Coordinated Entry training is to provide all staff administering assessments with access to materials that clearly describe the methods by which assessments are to be conducted with fidelity to the CoC's coordinated entry process, including its written policies and procedures.

Coordinated entry training will include:

- Identifying clients that are appropriate for the coordinated assessment based on the information available.
- Educating clients about what to expect from the process and how to be matched with the most appropriate housing and services.
- Follow up with clients after the completion of assessment and check their status in HMIS.
- Review of most current HUD data standards and CoC Written Standards for Prioritization.
- Protocols for conducting assessments, including the CSN Policies and Procedures Manual, which provides screen-by-screen instructions for completing an assessment.
- Review of the Coordinated Entry Policies and Procedures, which include the requirements for prioritization and the criteria for uniform decision-making and referrals.
- Overview of the requirements for use of assessment information to determine prioritization and program qualification.

All training is tailored to the individual needs of the service agencies, but based primarily on the Coordinated Assessment CSN User Manual available on the HMIS webpage:

<https://www.leegov.com/dhs/csn/downloads>.

Training protocols may vary by on agency. The general Coordinated Entry System training protocols will be reviewed and updated by the Coordinated Entry Committee annually.

PRIORITIZATION

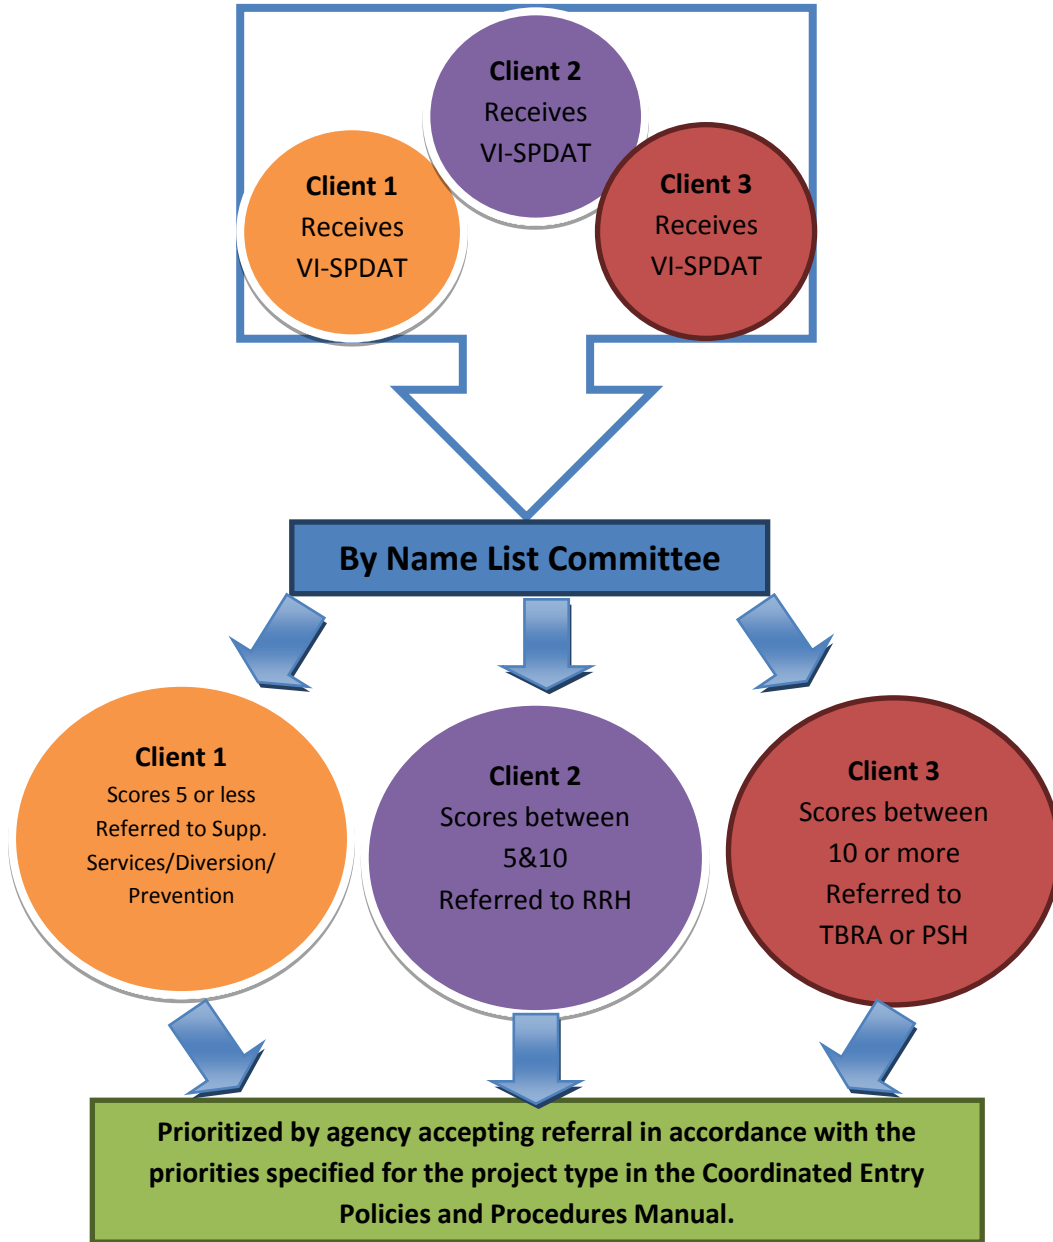

Homelessness interventions, including Street Outreach, Emergency Shelter, Diversion, Prevention, Permanent Supportive Housing, Rapid Re-Housing, Rental Assistance, Transitional Housing – Rapid Re-Housing, and Transitional Housing will be prioritized based on the severity of service needs and vulnerability. Of those eligible households the populations must be prioritized in accordance with The U.S. Interagency Council on Homelessness (USICH) plan, Opening Doors, and other HUD guidance on prioritization of chronically homeless households and policy briefs on coordinated entry systems. The basic process for Coordinated Entry and client prioritization is outlined in *Chart 1* below.

Lee County's coordinated entry system identifies prioritizes service needs as follows (only going to the next level as needed to break a tie between two or more individuals):

1. **Medical Vulnerability:** The first prioritization criteria will expedite placement into housing for individuals with severe medical needs who are at greater risk of death. This score would be based on questions 22-34 of the vulnerability analysis, with a maximum score of 5.
2. **Overall Wellness:** The second prioritization factor targets individuals with similar medical needs as criteria number 1, who will be prioritized when they have behavioral health conditions or histories of substance use, which may either mask or exacerbate medical conditions. This score will be based on questions 21 through 50 of the vulnerability analysis (i.e., the "Wellness Domain").
3. **Unsheltered Sleeping Location:** The third prioritization criteria are the location where the individual sleeps, based on question 13 of the vulnerability analysis. Unsheltered individuals will be given priority over sheltered individuals.
4. **Length of Time Homeless:** The fourth prioritization factor is the length of time an individual has experienced homelessness, giving priority to the person that has experienced homelessness the longest (based on question 1 of the vulnerability analysis).
5. **Date of vulnerability analysis assessment:** The final prioritization criteria will be the date of the individual's assessment, giving priority to the earliest date of assessment.

In all programs, priority shall be given for eligible individuals and families who are relocating as per the Emergency Transfer Plan, and in accordance with 24 CFR 576.409. All CoC funded transitional housing, rapid re-housing, and permanent supportive housing programs will ensure that applicants are prioritized according to the emergency transfer priority required under 24 CFR 578.99(j)(8).

Chart 1

PERMANENT SUPPORTIVE HOUSING

Permanent Supportive Housing (PSH) can only assist individuals with disabilities and families in which one adult or child has a disability. Supportive services designed to meet the needs of the program participants must be made available to the program participants, but should not be required as a condition to remaining in housing.

Eligibility

For permanent supportive housing programs, households must meet both the HUD definition of homelessness under **Category 1** or **Category 4**, and have a disability, as defined in Section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)). For beds prioritized for Chronically Homeless individuals and families, the head of household must have a qualifying disability and meet all of the criteria required as defined in 24 CFR 578.3. Once meeting the Category 1 or Category 4 and disability requirements, households are then prioritized as indicated below.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable people and high users of resources are quickly transitioned into permanent supportive housing. The Lee County CoC has established that individuals and families scoring 10 or above on the VI-SPDAT will be recommended for placement into permanent supportive housing. Individuals, and families scoring 10 or above, will then be prioritized primarily in the following order (CPD Notice 16-11), and then by severity of service needs.

For CoC or ESG funded PSH beds dedicated or prioritized for Chronically Homeless:

1. Chronically homeless individuals and families with the most severe service needs.
2. Chronically homeless individuals and families with the longest history of homelessness.
3. All other chronically homeless individuals or families.

For CoC or ESG funded PSH beds not dedicated or prioritized for Chronically Homeless, or when there are no Chronically Homeless individuals or families:

1. **First Priority**—Homeless Individuals and Families with a Disability with Long Periods of Episodic Homelessness and Severe Service Needs
 - a. An individual or family that is eligible for CoC Program-funded PSH who has experienced fewer than four occasions where they have been living or residing in a place not meant for human habitation, a safe haven, or in an emergency shelter but where the cumulative time homeless is at least 12 months **and** has been identified as having severe service needs.
2. **Second Priority**—Homeless Individuals and Families with a Disability with Severe Service Needs
 - a. An individual or family that is eligible for CoC Program-funded PSH who is residing in a place not meant for human habitation, a safe haven, or in an emergency shelter and has been identified as having severe service needs. The length of time in which households have been homeless should also be considered when prioritizing households that meet this order of priority, but there is not a minimum length of time required.
3. **Third Priority**—Homeless Individuals and Families with a Disability Coming from Places Not Meant for Human Habitation, Safe Haven, or Emergency Shelter Without Severe Service Needs
 - a. An individual or family that is eligible for CoC Program-funded PSH who is residing in a place not meant for human habitation, a safe haven, or an emergency shelter where the individual or family has not been identified as having severe service needs. The length of time in which households have been homeless should be considered when prioritizing households that meet this order of priority, but there is not a minimum length of time required.
4. **Fourth Priority**—Homeless Individuals and Families with a Disability Coming from Transitional Housing

- a. An individual or family that is eligible for CoC Program-funded PSH who is currently residing in a transitional housing project, where prior to residing in the transitional housing had lived in a place not meant for human habitation, in an emergency shelter, or safe haven. This priority also includes individuals and families residing in transitional housing who were fleeing or attempting to flee domestic violence, dating violence, sexual assault, or stalking and prior to residing in that transitional housing project even if they did not live in a place not meant for human habitation, an emergency shelter, or a safe haven prior to entry in the transitional housing.

Minimum Standards – PSH

All referrals to permanent supportive housing will be made through the coordinated entry system. The following minimum standards will be applied to all permanent housing programs:

- Support services must be made available throughout the duration of stay in housing.
- Program participants must enter into a lease agreement for a term of at least one year, which is terminable for cause. The lease must be automatically renewable upon expiration for terms that are a minimum of one month long, except on prior notice by either party.
- There is no designated length of stay for program participants.

RENTAL ASSISTANCE

Tenant, Sponsor, or Project-Based Rental Assistance can only provide assistance to individuals with disabilities and families in which one adult or child has a disability. Supportive services designed to meet the needs of the program participants must be made available to the program participants, but should not be required as a condition to remaining in housing.

Eligibility

For rental assistance programs, households must meet both the HUD definition of homelessness under **Category 1 or Category 4**. For beds prioritized for Chronically Homeless individual and families, the head of household must have a qualifying disability and meet all of the criteria required as defined in 24 CFR 578.3. Once meeting the **Category 1 or Category 4 and disability requirements**, households are then prioritized as indicated below. Programs may not establish additional eligibility requirements beyond those specified in **Category 1 and Category 4** and those required by funders.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly transitioned into permanent housing. The Lee County CoC has established that individuals and families scoring 10 or above on the VI-SPDAT will be recommended for placement into rental assistance programs.

Individuals, and families scoring 10 or above, will then be prioritized primarily in the following order, and then by severity of service needs.

1. Chronically homeless individuals and families with the most severe service needs.
2. Chronically homeless individuals and families with the longest history of homelessness.
3. All other chronically homeless individuals and families.
4. Homeless individuals and families with a disability, as defined in Section 401 of the McKinney-Vento Homeless Assistance Act as amended by S.896 the HEARTH Act of 2009, and with the most severe service needs.
5. Homeless individuals and families with long periods of continuous or episodic homelessness.
6. Homeless individuals and families coming from places not meant for human habitation (such as emergency shelters, streets, safe havens, etc.).

Minimum Standards - CoC Project Based Rental Assistance

Program participants are required to pay a portion of their rent if they are receiving CoC Program Rental Assistance, unless they have no income at all. In permanent supportive housing and transitional housing projects (24 CFR 578.77(c)), the program participant's rent contribution **must be equal to the highest of:**

- 30% of the family's monthly adjusted income (adjustment factors include allowances and deductions for disabled household members, medical expenses, childcare expenses, etc.);
- 10% of the family's monthly gross income; or
- Portion of welfare payments specifically designated by the public welfare agency to meet the family's housing costs.

Rental Assistance providers must assess each program participant's income to calculate the program participants rent contribution, and to determine the amount the recipient must pay toward rent. If the participant is required to pay for utilities, then a utility allowance must be factored into the rent calculation determination.

Minimum Standards – HOME Tenant Based Rental Assistance

Housing selected should not exceed Fair Market Value (FMV) and most importantly, affordable to the client according to household size and income. Per 24 CFR Part 92.252, HUD provides the following maximum HOME rent limits.

The maximum HOME rents are the lesser of:

- 1) The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or
- 2) A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit.

The HOME rent limits provided by HUD will include average occupancy per unit and adjusted income assumptions. If staff cannot locate, or if the client needs, housing that exceeds FMV, County Homeless (or other non-federal funds) may be used or the client may pay the difference, if able.

Program participants are required to pay a portion of their rent if they are receiving rental assistance, unless they have no income at all. Rental Assistance providers must assess each program participant's income to calculate the program participants rent contribution, and to determine the amount the recipient must pay toward rent. If the participant is required to pay for utilities, then a utility allowance must be factored into the rent calculation determination.

Minimum Standards – Supportive Services for Veteran Families (SSVF)

Direct referrals will be made for veterans served through Supportive Services for Veteran Families (SSVF) due to the amount of funding currently available for the program. SSVF will continue to prioritize placements based on the vulnerability analysis scores, and continue to work with providers to streamline processes in order to make progress towards accepting referrals.

RAPID RE-HOUSING

Continuum of Care funds may provide supportive services, as set forth in § 578.53, and/or short-term (up to 3 months) and/or medium-term (for 3 to 24 months) tenant-based rental assistance, as set forth in § 578.51(c), as necessary to help a homeless individual or family, with or without disabilities, move as quickly as possible into permanent housing and achieve stability in that housing. When providing short-term and/or medium-term rental assistance to program participants, the rental assistance is subject to § 578.51(a)(1), but not § 578.51(a)(1)(i) and (ii); (a)(2); (c) and (f) through (i); and (l)(1).

Eligibility

For rapid re-housing programs, households must meet the HUD's definition of homelessness under **Category 1 or 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly transitioned into rapid re-housing. The Lee County CoC has established that individuals and families scoring 5 to 9 on the VI-SPDAT will be recommended for placement into rapid re-housing. Individuals and families scoring above 9 on the VI-SPDAT may also be prioritized for rapid re-housing with the approval of the agency administering the project.

Individuals, and families will then be prioritized primarily in the following order, and then by severity of service needs.

1. Households with children (under 18 years of age).
2. Household fleeing domestic violence.
3. Family with head of household between ages 18-24 years of age.
4. Households with behavioral health needs.

Minimum Standards – Emergency Solutions Grant (ESG)

All referrals to rapid re-housing will be made through the coordinated entry system. The following minimum standards will be applied to all ESG funded rapid re-housing programs:

- Support services in compliance with 24 CFR Part 576.10 (ESG) must be made available throughout the duration of stay in housing.
- Program participants must enter into a written lease agreement between the owner and program participant. For ESG (24 CFR 576.104), there is no minimum lease period for TBRA. Leases for ESG PBRA must have an initial term of one year.
- For ESG maximum participation in a rapid re-housing program cannot exceed 12 months. Exceptions may be granted for an additional 12 months based on Human and Veteran Services' policy.
- Program participants must be re-evaluated not less than once annually to ensure that the type and amount of assistance being received is necessary to retain housing.
- Program participant must meet with a case manager not less than once per month to assist the program participant in ensuring long-term housing stability. The project is exempt from this requirement if the Violence Against Women Act of 1994 (42 U.S.C. 13925 et seq.) or the Family Violence Prevention and Services Act (42 U.S.C. 10401 et seq.) prohibits the recipient carrying out the project from making its housing conditional on the participant's acceptance of services.
 - Supportive Services may not be received for longer than 6 months after rental assistance has ended.

- The rent charged for a unit must be reasonable in relation to rents currently being charged for comparable units in the private unassisted market and must not be in excess of rents currently being charged by the owner for comparable unassisted units. When possible, rents shall not exceed:
 - The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or
 - A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit.
- The amount of grant funds used to pay monthly assistance for an eligible person may not exceed the difference between:
 - The lower of the rent standard or reasonable rent for the unit; and
 - The resident's rent payment calculated under § 574.310(d).
- The amount of financial assistance granted may include all move-in costs, moving expenses, utility deposits, etc.
 - ESG Rapid Rehousing assistance pays rent at 100% for the first month, then 70% for months 2 and 3, then 60% for months 4 and 5, then 40% for months 6 and 7, then 25% for months 8, 9, and 10, then 0% for months 11 and 12.

Minimum Standards – Continuum of Care (CoC)

All referrals to rapid re-housing will be made through the coordinated entry system. The following minimum standards will be applied to all CoC funded rapid re-housing programs:

- Support services in compliance with 24 CFR 578.53 (CoC) must be made available throughout the duration of stay in housing.
- Program participants must enter into a written lease agreement between the owner and program participant. For CoC (24 CFR 578.37(a)(1)(ii)), the lease term must be at least one year, which is terminable for cause. The lease must be automatically renewable upon expiration for terms that are a minimum of one month long, except on prior notice by either party.
- For CoC maximum participation in a rapid re-housing program cannot exceed 12 months.
- Program participants must be re-evaluated not less than once annually to ensure that the type and amount of assistance being received is necessary to retain housing.
- Program participant must meet with a case manager not less than once per month (24 CFR 578.37(a)(1)(ii)(F)) to assist the program participant in ensuring long-term housing stability. The project is exempt from this requirement if the Violence Against Women Act of 1994 (42 U.S.C. 13925 et seq.) or the Family Violence Prevention and Services Act (42 U.S.C. 10401 et seq.) prohibits the recipient carrying out the project from making its housing conditional on the participant's acceptance of services.
 - Supportive Services may not be received for longer than 6 months after rental assistance has ended.
- The rent charged for a unit must be reasonable in relation to rents currently being charged for comparable units in the private unassisted market and must not be in excess of rents currently being charged by the owner for comparable unassisted units. When possible, rents shall not exceed:
 - The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or
 - A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit.

- The amount of financial assistance granted may include all move-in costs, moving expenses, utility deposits, etc.
- CoC Rapid-Rehousing assistance pays 100% of rent costs for months 1 through 3, individuals and families receiving assistance are required to pay 10% of their income towards rent during months 4 through 8, then 20% for months 9 through 12.

JOINT TRANSITIONAL HOUSING – RAPID RE-HOUSING

Joint Transitional Housing-Rapid Re-Housing (TH-RRH) facilitates the movement of homeless individuals and families to Permanent housing (PH) within 24 months of entering TH. Grant funds may be used for acquisition, rehabilitation, new construction, leasing, rental assistance, operating costs, and supportive services.

Eligibility

For joint transitional housing to rapid re-housing programs, households must meet the HUD’s definition of homelessness under **Category 1** or **Category 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County’s most vulnerable populations and high users of resources are quickly transitioned into joint transitional housing and rapid re-housing. If multiple households meet the joint transitional housing and rapid re-housing programs individualized eligibility criteria, then prioritization will take place in the following order:

1. Households with the highest service needs
2. Length of time homeless
3. Within one of the target populations for transitional housing:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to joint transitional housing and rapid re-housing must be made through the coordinated entry system. The following minimum standards will be applied to all joint transitional housing and rapid re-housing programs:

- Maximum length of stay cannot exceed 24 months.
- Assistance in transitioning to permanent housing must be made available/provided.
- Supportive services must be provided throughout the duration of stay in transitional housing.
- Program participants in transitional housing must enter into a lease, sublease or occupancy agreement for a term of at least one month. The lease, sublease or occupancy agreement must be automatically renewable upon expiration, except on prior notice by either party, up to a maximum of 24 months.

Lee County does not currently feature any Continuum of Care funded transitional housing programs. The following standards outline the basic requirements for transitional housing programs funded with funds other than the Continuum of Care, such as ESG, TANF, and Challenge Grant, and for future reference should a transitional housing program be funded in Lee County.

TRANSITIONAL HOUSING

Transitional housing (TH) facilitates the movement of homeless individuals and families to Permanent housing (PH) within 24 months of entering TH. Grant funds may be used for acquisition, rehabilitation, new construction, leasing, rental assistance, operating costs, and supportive services.

Eligibility

For transitional housing programs, households must meet the HUD's definition of homelessness under **Category 1 or Category 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly transitioned into transitional housing. If multiple households meet the transitional housing programs individualized eligibility criteria, then prioritization will take place in the following order:

5. Households with the highest service needs
6. Length of time homeless
7. Within one of the target populations for transitional housing:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to transitional housing must be made through the coordinated entry system. The following minimum standards will be applied to all transitional housing programs:

- Maximum length of stay cannot exceed 24 months.
- Assistance in transitioning to permanent housing must be made available/provided.
- Supportive services must be provided throughout the duration of stay in transitional housing.

Program participants in transitional housing must enter into a lease, sublease or occupancy agreement for a term of at least one month. The lease, sublease or occupancy agreement must be automatically renewable upon expiration, except on prior notice by either party, up to a maximum of 24 months.

EMERGENCY SHELTER

The Lee County CoC uses the Emergency Solutions Grant (ESG) Program to fund emergency shelter operations.

Eligibility

For emergency shelter programs, households must meet the HUD's definition of homelessness under **Category 1** or **Category 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly placed into emergency shelter. If multiple households meet the emergency shelter programs individualized eligibility criteria, then prioritization will take place in the following order:

1. Households with the highest service needs
2. Length of time homeless
3. Within one of the target populations for transitional housing:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to the shelter are made direct from street outreach, Lee County Law Enforcement, Lee Health or other homelessness assistance programs. The following minimum standards will be applied to all emergency shelter programs:

- Assistance in transitioning to permanent housing must be made available/provided.
- Supportive services must be made available throughout the duration of stay in the emergency shelter.

STREET OUTREACH

CoC funds may be used by recipients in Continuums of Care for street outreach within the Supportive Services Only (SSO) component as described in 24 CFR 578.37. ESG Funds may be used by grantees for street outreach as described in 24 CFR 576.101. Lee County does not currently use CoC funds for street outreach. The following standards outline the basic requirements for street outreach programs funded with funds other than the Continuum of Care, including, but not limited to Emergency Solutions Grant, Challenge Grant, Temporary Assistance for Needy Families-Prevention, and State Emergency Solutions Grant.

Street outreach efforts must be linked to the Coordinated Entry System. Lee County ensures that outreach workers have adequate access to both paper and electronic methods of administering a coordinated assessment survey with the same standardized processes offered at site-based access points.

Eligibility

Individuals and Families defined as Homeless under **Category 1, 2, or 4**, are eligible for assistance through street outreach projects.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly connected with street outreach services. Street outreach programs be targeted to households:

1. With the highest service needs
2. With the longest length of time homeless
3. Within one of the target populations:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to homelessness assistance projects must be made through the coordinated entry system. Street outreach efforts must actively engage the unsheltered homeless population for the purposes of providing immediate support, interventions, and connections with homeless assistance programs and/or mainstream services. Additional minimum standards are assigned based on funding source.

PREVENTION SERVICES

CoC funds may be used by recipients in Continuums of Care which are designated as high-performing communities for housing relocation and stabilization services, as described in 24 CFR 576.105 and 24 CFR 576.106. The Lee County CoC is not currently designated as a high-performing community, and therefore does not feature a homelessness prevention program funded with CoC funds. The following standards outline the basic requirements for homelessness prevention programs funded with funds other than the Continuum of Care, such as Emergency Solutions Grant (ESG), Temporary Assistance for Needy Families (TANF)-Prevention, County General Funds, Community Services Block Grant (CSBG) and Challenge Grant, and for future reference should Lee County be designated as a high-performing community.

Lee County CoC homelessness prevention programs provide rental assistance, utility assistance, and supportive services to at risk and otherwise eligible individuals and families to prevent homelessness.

Eligibility

For homelessness prevention programs, households must meet the HUD's definition of homelessness under **Category 1, 2, or 4**, and any additional funder eligibility requirements.

Prioritization

Prioritization for homelessness prevention services are assigned based on the funding source. The Lee County CoC uses multiple funding sources, including Challenge Grant, TANF-Prevention, State of Florida ESG, CSBG, and Lee County General funds to administer homelessness prevention programs. Each individual program must outline prioritization standards based on the requirements imposed by the funder. If no funder requirements are in place, or multiple households meet the prevention program's individualized eligibility criteria, then prioritization will take place in the following order:

1. Households with the highest service needs
2. Within one of the target populations for transitional housing:
 - a. Families with children (under age 18)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24
 - d. Households with behavioral health needs

Minimum Standards

All referrals to homelessness prevention projects must be made through the coordinated entry system. Additional minimum standards are assigned based on funding source.

DIVERSION SERVICES

Diversion is implemented to ensure that scarce resources are preserved for the most vulnerable individuals and families. Diversion services provide alternative resources, encourage the development of problem solving skills, and ultimately divert individuals and families to a safe and secure temporary or permanent housing location outside of the CoC homelessness response system.

Eligibility

Individuals and Families defined as Homeless under **Category 1, 2** or **4** are eligible for assistance through diversion services.

Prioritization for diversion services is largely based on client choice. Individuals and families must first be willing to participate in mediation, and second be willing to invest time developing and implementing problem solutions. Additional priorities for diversion services may be established by service providers, so long as the policies are outlined in a written document(s) and do not conflict with any part of these standards.

Minimum Standards

All referrals services must be made through the coordinated entry system. Additional prioritization and minimum standards are assigned based on funding source.

REFERRAL

All CoC and ESG funded service providers must use the Lee County Coordinated Entry System as the only referral source from which to consider filling vacancies in housing and/or services. Referrals are made through HMIS. Participating agencies are responsible for regularly checking the referral queue and processing clients in a timely manner, and in accordance with the applicable rules and policies found here within.

BY-NAME LIST (BNL)

The Lee County CoC HMIS Lead Agency, Lee County Human and Veteran Services, shall retain and review the master by-name list at least one time per month. Persons on the by-name list will remain active for 60 days. If no contact is made after 60 days the individual will be placed in inactive status. Should contact be made while an individual is in inactive status, they will be moved to active status for another 60 day period.

BY-NAME LIST (BNL) COMMITTEE

The BNL Committee reviews all individuals and families listed, paying particular attention to high risk individuals and those where the tool did not reveal the full depth and/or urgency of the situation. Assessors/case managers utilize the CoC Written Standards and professional judgment to evaluate housing and service options. Clients may be referred to the review panel for any of these reasons regardless of whether the individual participated in the vulnerability analysis process. The BNL Committee strives to be person-centric, not program-centric (i.e., the end result will not always be PSH placement, but rather to match a highly vulnerable person to the appropriate housing resource). The Committee will make every effort to consider the individuals strengths, goals, risks, lived experiences, and choices in the referral process.

In the context of the coordinated entry process, determining eligibility is a project-level process governed by written standards as established in 24 CFR 576.400(e) and 24 CFR 578.7(a)(9). Coordinated entry processes incorporate mechanisms for determining whether potential participants meet project-specific requirements of the projects for which they are prioritized and to which they are referred.

The process of collecting required information and documentation regarding eligibility may occur at any point in the coordinated entry process as long as that eligibility information is not being used as part of prioritization and ranking (e.g. using documentation of a specific diagnosis or disability to rank a person). **The assessment process cannot require disclosure of specific disabilities or diagnosis. Specific diagnosis or disability information may only be obtained for purposes of determining program eligibility to make appropriate referrals.** Projects or units may be legally permitted to limit eligibility, e.g., to persons with disabilities, through a Federal statute which requires that assistance be utilized for a specific population, e.g., the HOPWA program, through State or local permissions in instances where Federal funding is not used and Federal civil rights laws are not violated.

BNL COMMITTEE REPRESENTATION

The Committee will be comprised of representatives from the CoC Lead Agency, the HMIS Lead Agency, and agencies funded with CoC, ESG, TANF, Challenge Grant, and other federal, state, and local funds.

Agencies funded through the Lee County Human and Veterans Services with one of the funding sources identified above MUST attend each BNL Committee Meeting.

Not all cases will have immediate placement. In some instances, the Committee may determine that the initial score and position on the registry is correct given the severity of other cases. In other situations, the Committee may determine that a higher score is warranted, though immediate placement is still not feasible. In still other situations, the Committee may determine that immediate placement is needed to reduce risk of death.

PLANNING

STAKEHOLDER CONSULTATION

The Lee County CoC and HMIS Lead Agency facilitates ongoing planning and stakeholder consultation concerning the implementation of the Coordinated Entry System through Coordinated Entry Committee and BNL Committee meetings. The Committees are intended to develop an accurate picture of the number and characteristics of Lee County persons who are homeless in order to provide targeted assistance. In addition to collecting information, objectives include developing a provider survey to establish resources and identify gaps, and provide a user group for HMIS users for training and updates.

In addition to Committee meetings, the Lee County CoC solicits feedback annually from funded agencies and households that participated in coordinated entry to gather data regarding the quality and effectiveness of the entire coordinated entry experience. Data is gathered through the following methods:

1. Surveys:
 - a. A survey will be made available to gather data from individuals who have participated in the coordinated entry system. Clients will be notified by their caseworkers that the survey is available and feedback is appreciated.
 - b. A survey to gather data from funded agencies is sent during the month of January by the Lee County Homeless Coalition. Agencies are notified via direct e-mail of the availability of the survey.
2. An annual focus session conducted during at least one Coordinated Entry Committee meeting, and at least one BNL Committee Meeting.

The Lee County CoC and HMIS Lead Agency evaluate the feedback received and make necessary updates to the coordinated entry process written policies and procedures, if necessary to improve user experience.

QUALITY EVALUATION

Annual Coordinated Entry System monitoring will be conducted by the HMIS lead agency, and will include a review of system person measures, participating agency survey data, client survey data, and adherence to the requirements of these policies. The monitoring report will be presented to the CoC Governing Board and general membership for review and feedback.

DISCHARGE PLANNING

Each CoC service provider must develop and implement, to the maximum extent practicable, policies and protocols for the discharge of persons from public funded institutions and systems of care (such as health care facilities, foster care or other youth facilities, or correction programs and institutions) in order to prevent such discharge from immediately resulting in homelessness for such persons. (42 USC 11362).

Strategy for Ensuring Compliance

CoC and ESG funded service providers will be monitored annually by Lee County to ensure compliance with the standards and laws listed above. The monitoring will ensure that appropriate discharge policies, procedures, and practices have been developed and implemented. The monitoring report will include any findings or concerns related to discharge planning.

SYSTEM PERFORMANCE

A critical aspect of the McKinney-Vento Homeless Assistance Act, (the "Act") as amended, is a focus on viewing the local homeless response as a coordinated system of homeless assistance as opposed to homeless assistance programs and funding sources that operate independently in a community. To facilitate this

perspective the Act now requires communities to measure their performance as a coordinated system in addition to analyzing performance by specific projects or project types.

With the 2016 CoC funding round, HUD introduced a series of system performance measures requiring each CoC to provide reporting that aggregates data from each individual program in response to a series of performance based elements describing the efficacy of the CoC. To this end, the Act established a set of criteria for HUD to use that require all CoCs to report their system-level performance to HUD. The intent of this criteria or “system performance measures, is to encourage CoCs and ESG program recipients, as well as all other homeless assistance stakeholders in the CoC, to regularly measure their progress in meeting the needs of people experiencing homelessness in their community and to report this progress to HUD.

The following provides the resulting system performance measures that each program—emergency, rapid rehousing, transitional and permanent housing—will similarly be measured, as applicable to program type.

---	--	---	---	---	---	---

Whereas system performance measures are intended to provide a snapshot into the homeless response system as an entire coordinated initiative, project performance measures takes a closer look at each project within the CoC. The standards provided below establish the performance standards set by this CoC in assessing and evaluating each project's performance, individually. On May 10, 2017, the CoC Governing Board established the following performance targets for all CoC and ESG funded projects:

1. 65% of persons in ES,SH, TH, or PH-RRH should be exited to permanent housing destinations
2. 45% of persons in CoC and ESG funded programs should maintain OR increase their income
3. No more than 35% of persons who were exited from CoC and ESG funded programs should return to homelessness within 1 year

APPEAL PROCESS

The CoC Written Standards outline that the most severe service needs will be determined by the household's Coordinated Assessment and VI-SPDAT, and will prioritize those with the highest scores within each category first. In the event that two or more homeless households within the same geographic area are identically prioritized for referral to the next available unit, and each household is also eligible for referral to that unit, the household that first presented for assistance will be referred to the next available unit. In the event that an individuals or family wishes to appeal a coordinated entry score, they shall make an appeal to the Lee County Human and Veteran Services using the Applicant/Client Appeal and Grievance Policy. Appeals for program denial shall be made directly to the agency which conducts such program, according to the agencies appeal or grievance policy.

Staff administering assessments and/or the staff supervisor should address any client complaints, whether discrimination based or not, as best as they can in the moment. Complaints that should be addressed directly by the assessment staff member or assessment staff supervisor include complaints about how they were treated by assessment staff, assessment center conditions, or violation of data agreements. Any other complaints should be referred to the chair of the BNL Committee for resolution as above. Any complaints filed by a client should note their name and contact information so they can be contact by the chair.

Emergency Transfer Plan for Victims of Domestic Violence, Dating Violence, Sexual Assault, or Stalking

EMERGENCY TRANSFERS

Lee County and other local CoC, HOME or ESG funded housing providers are concerned about the safety of our tenants and such concern extends to tenants who are victims of domestic violence, dating violence, sexual assault, or stalking. In accordance with the Violence Against Women Act (VAWA), Lee County along with other applicable housing providers allow tenants who are victims of domestic violence, dating violence, sexual assault, or stalking to request an emergency transfer from the tenant's current unit to another unit. The ability to request a transfer is available regardless of sex, gender identity, or sexual orientation. The ability of Lee County and other applicable housing providers to honor such request for tenants currently receiving assistance, however, may depend upon a preliminary determination that the tenant is or has been a victim of domestic violence, dating violence, sexual assault, or stalking, and on whether Lee County or other applicable housing providers has another dwelling unit that is available and is safe to offer the tenant for temporary or more permanent occupancy.

This plan identifies tenants who are eligible for an emergency transfer, the documentation needed to request an emergency transfer, confidentiality protections, how an emergency transfer may occur, and guidance to tenants on safety and security. This plan is based on a model emergency transfer plan published by the U.S. Department of Housing and Urban Development (HUD), the Federal agency that ensures that the rapid re-housing, tenant based rental assistance, and all other CoC, ESG, and HOME funded rental assistance programs are in compliance with VAWA.

ELIGIBILITY FOR EMERGENCY TRANSFERS

A tenant who is a victim of domestic violence, dating violence, sexual assault, or stalking, as provided in HUD's regulations at 24 CFR part 5, subpart L is eligible for an emergency transfer, if: the tenant reasonably believes that there is a threat of imminent harm from further violence if the tenant remains within the same unit. If the tenant is a victim of sexual assault, the tenant may also be eligible to transfer if the sexual assault occurred on the premises within the 90-calendar-day period preceding a request for an emergency transfer. A tenant requesting an emergency transfer must expressly request the transfer in accordance with the procedures described in this plan. Tenants who are not in good standing may still request an emergency transfer if they meet the eligibility requirements in this section.

EMERGENCY TRANSFER REQUEST DOCUMENTATION

To request an emergency transfer, the tenant shall notify Lee County or other applicable housing provider's management office and submit a written request for a transfer to the assigned case manager. Tenant may, but is not required, to use the Emergency Transfer Request form provided in the attached Appendix C. Lee County and other applicable housing providers will provide reasonable accommodations to this policy for individuals with disabilities. The tenant's written request for an emergency transfer should include either:

1. A statement expressing that the tenant reasonably believes that there is a threat of imminent harm from further violence if the tenant were to remain in the same dwelling unit assisted under Lee County or other applicable housing provider's program; **OR**
2. A statement that the tenant was a sexual assault victim and that the sexual assault occurred on the premises during the 90- calendar-day period preceding the tenant's request for an emergency transfer.

CONFIDENTIALITY

Lee County and other applicable housing providers will keep confidential any information that the tenant submits in requesting an emergency transfer, and information about the emergency transfer, unless the tenant gives Lee County and other applicable housing providers written permission to release the information on a time limited basis, or disclosure of the information is required by law or required for use in an eviction proceeding or hearing regarding termination of assistance from the covered program. This includes keeping confidential the new location of the dwelling unit of the tenant, if one is provided, from the person(s) that committed an act(s) of domestic violence, dating violence, sexual assault, or stalking against the tenant. See the Notice of Occupancy Rights under the Violence Against Women Act. For All Tenants, Lee County and other applicable housing providers are responsible to maintain the confidentiality of information related to incidents of domestic violence, dating violence, sexual assault, or stalking.

EMERGENCY TRANSFER TIMING AND AVAILABILITY

Lee County or other applicable housing providers cannot guarantee that a transfer request will be approved or how long it will take to process a transfer request. Lee County or other applicable housing providers will, however, act as quickly as possible to move a tenant who is a victim of domestic violence, dating violence, sexual assault, or stalking to another unit, subject to availability and safety of a unit. If a tenant reasonably believes a proposed transfer would not be safe, the tenant may request a transfer to a different unit. If a unit is available, the transferred tenant must agree to abide by the terms and conditions that govern occupancy in the unit to which the tenant has been transferred. Lee County or other applicable housing provider may be unable to transfer a tenant to a particular unit if the tenant has not or cannot establish eligibility for that unit.

If Lee County or other applicable housing providers have no safe and available units for which a tenant who needs an emergency transfer is eligible, Lee County or other applicable housing providers will assist the tenant in identifying other housing providers who may have safe and available units to which the tenant could move. At the tenant's request, Lee County or other applicable housing providers will also assist tenants in contacting the local organizations offering assistance to victims of domestic violence, dating violence, sexual assault, or stalking.

SAFETY AND SECURITY OF TENANTS

Pending processing of the transfer and the actual transfer, if it is approved and occurs, the tenant is urged to take all reasonable precautions to be safe.

Tenants who are or have been victims of domestic violence are encouraged to contact the National Domestic Violence Hotline at 1- 800-799-7233, or a local domestic violence shelter, for assistance in creating a safety plan. For persons with hearing impairments, that hotline can be accessed by calling 1- 800-787-3224 (TTY).

Tenants who have been victims of sexual assault may call the Rape, Abuse & Incest National Network's National Sexual Assault Hotline at 800-656-HOPE, or visit the online hotline at <https://ohl.rainn.org/online/>.

Tenants who are or have been victims of stalking seeking help may visit the National Center for Victims of Crime's Stalking Resource Center at [https:// www.victimsofcrime.org/our-programs/ stalking-resource-center](https://www.victimsofcrime.org/our-programs/stalking-resource-center).

LEE COUNTY CONTINUUM OF CARE LEE COUNTY HUMAN AND VETERAN SERVICES

Notice of Occupancy Rights under the Violence Against Women Act

To all Tenants and Applicants The Violence Against Women Act (VAWA) provides protections for victims of domestic violence, dating violence, sexual assault, or stalking. VAWA protections are not only available to women, but are available equally to all individuals regardless of sex, gender identity, or sexual orientation. The U.S. Department of Housing and Urban Development (HUD) is the Federal agency that oversees that the Rapid Re-Housing, Tenant Based Rental Assistance, and all other CoC, ESG, and HOME rental assistance programs are in compliance with VAWA. This notice explains your rights under VAWA.

A HUD-approved certification form is attached to this notice. You can fill out this form to show that you are or have been a victim of domestic violence, dating violence, sexual assault, or stalking, and that you wish to use your rights under VAWA.

Protections for Applicants

If you otherwise qualify for assistance under the Rapid Re-Housing, Tenant Based Rental Assistance, or any other CoC, ESG, and HOME funded rental assistance programs, you cannot be denied admission or denied assistance because you are or have been a victim of domestic violence, dating violence, sexual assault, or stalking.

Protections for Tenants

If you are receiving assistance under the Rapid Re-Housing, Tenant Based Rental Assistance, or any other CoC, ESG, and HOME funded rental assistance programs, you may not be denied assistance, terminated from participation, or be evicted from your rental housing because you are or have been a victim of domestic violence, dating violence, sexual assault, or stalking.

Also, if you or an affiliated individual of yours is or has been the victim of domestic violence, dating violence, sexual assault, or stalking by a member of your household or any guest, you may not be denied rental assistance or occupancy rights under the Rapid Re-Housing, Tenant Based Rental Assistance, or any other CoC, ESG, and HOME funded rental assistance programs solely on the basis of criminal activity directly relating to that domestic violence, dating violence, sexual assault, or stalking.

Affiliated individual means your spouse, parent, brother, sister, or child, or a person to whom you stand in the place of a parent or guardian (for example, the affiliated individual is in your care, custody, or control); or any individual, tenant, or lawful occupant living in your household.

Removing the Abuser or Perpetrator From the Household

Lee County or any other CoC or ESG funded housing provider may divide (bifurcate) your lease in order to evict the individual or terminate the assistance of the individual who has engaged in criminal activity (the abuser or perpetrator) directly relating to domestic violence, dating violence, sexual assault, or stalking.

If Lee County or any other CoC or ESG funded housing provider chooses to remove the abuser or perpetrator, Lee County or any other CoC or ESG funded housing provider may not take away the rights of eligible tenants to the unit or otherwise punish the remaining tenants. If the evicted abuser or perpetrator was the sole tenant to have established eligibility for assistance under the program, Lee County or any other CoC or ESG funded housing provider must allow the tenant who is or has been a victim and other household members to remain in the unit for a period of time, in order to establish eligibility under the program or under another HUD housing program covered by VAWA, or, find alternative housing.

In removing the abuser or perpetrator from the household, Lee County or any other CoC or ESG funded housing provider must follow Federal, State, and local eviction procedures. In order to divide a lease, Lee County or any other CoC or ESG funded housing provider may, but is not required to, ask you for documentation or certification of the incidences of domestic violence, dating violence, sexual assault, or stalking.

Moving to Another Unit

Upon your request, Lee County or any other CoC or ESG funded housing provider may permit you to move to another unit, subject to the availability of other units, and still keep your assistance. In order to approve a request, Lee County or any other CoC or ESG funded housing provider may ask you to provide documentation that you are requesting to move because of an incidence of domestic violence, dating violence, sexual assault, or stalking. If the request is a request for emergency transfer, the housing provider may ask you to submit a written request or fill out a form where you certify that you meet the criteria for an emergency transfer under VAWA. The criteria are:

- (1) You are a victim of domestic violence, dating violence, sexual assault, or stalking.** *(If your housing provider does not already have documentation that you are a victim of domestic violence, dating violence, sexual assault, or stalking, your housing provider may ask you for such documentation, as described in the documentation section below.), AND*
- (2) You expressly request the emergency transfer.** *(Your housing provider may choose to require that you submit a form, or may accept another written or oral request.), AND*

(3a) You reasonably believe you are threatened with imminent harm from further violence if you remain in your current unit. *(This means you have a reason to fear that if you do not receive a transfer you would suffer violence in the very near future.)*

OR

(3b) You are a victim of sexual assault and the assault occurred on the premises during the 90-calendar-day period before you request a transfer. *(If you are a victim of sexual assault, then in addition to qualifying for an emergency transfer because you reasonably believe you are threatened with imminent harm from further violence if you remain in your unit, you may qualify for an emergency transfer if the sexual assault occurred on the premises of the property from which you are seeking your transfer, and that assault happened within the 90-calendar-day period before you expressly request the transfer.)*

Lee County or any other CoC or ESG funded housing provider will keep confidential requests for emergency transfers by victims of domestic violence, dating violence, sexual assault, or stalking, and the location of any move by such victims and their families.

Lee County or any other CoC or ESG funded housing provider's emergency transfer plan provides further information on emergency transfers, and Lee County or any other CoC or ESG funded housing provider must make a copy of its emergency transfer plan available to you if you ask to see it.

Documenting You Are or Have Been a Victim of Domestic Violence, Dating Violence, Sexual Assault or Stalking

Lee County or any other CoC or ESG funded housing provider can, but is not required to, ask you to provide documentation to "certify" that you are or have been a victim of domestic violence, dating violence, sexual assault, or stalking. Such request from Lee County or any other CoC or ESG funded housing provider must be in writing, and Lee County or any other CoC or ESG funded housing provider must give you at least 14 business days (Saturdays, Sundays, and Federal holidays do not count) from the day you receive the request to provide the documentation. Lee County or any other CoC or ESG funded housing provider may, but does not have to, extend the deadline for the submission of documentation upon your request.

You can provide one of the following to Lee County or any other CoC or ESG funded housing provider as documentation. It is your choice which of the following to submit if Lee County or any other CoC or ESG funded housing provider asks you to provide documentation that you are or have been a victim of domestic violence, dating violence, sexual assault, or stalking.

1. A complete HUD-approved certification form given to you by Lee County or any other CoC or ESG funded housing provider with this notice, that documents an incident of domestic violence, dating violence, sexual assault, or stalking. The form will ask for your name, the date, time, and location of the incident of domestic violence, dating violence, sexual assault, or stalking, and a description of the incident. The certification form provides for including the name of the abuser or perpetrator if the name of the abuser or perpetrator is known and is safe to provide.
2. A record of a Federal, State, tribal, territorial or local law enforcement agency, court, or administrative agency that documents the incident of domestic violence, dating violence, sexual assault, or stalking. Examples of such records include police reports, protective orders, and restraining orders, among others.
3. A statement, which you must sign, along with the signature of an employee, agent, or volunteer of a victim service provider, an attorney, a medical professional or a mental health professional (collectively, "professional") from whom you sought assistance in addressing domestic violence, dating violence, sexual assault, or stalking, or the effects of abuse, and with the professional selected by you attesting under penalty of perjury that he or she believes that the incident or incidents of domestic violence, dating violence, sexual assault, or stalking are grounds for protection.
4. Any other statement or evidence that Lee County or any other CoC or ESG funded housing provider has agreed to accept.

If you fail or refuse to provide one of these documents within the 14 business days, Lee County or any other CoC or ESG funded housing provider does not have to provide you with the protections contained in this notice.

If Lee County or any other CoC or ESG funded housing provider receives conflicting evidence that an incident of domestic violence, dating violence, sexual assault, or stalking has been committed (such as certification forms from two or more members of a household each claiming to be a victim and naming one or more of the other petitioning household members as the abuser or perpetrator), Lee County or any other CoC or ESG funded housing provider has the right to request that you provide third-party documentation within thirty (30) calendar days in order to resolve the conflict. If you fail or refuse to provide third-party documentation where there is conflicting evidence, Lee County or any other CoC or ESG funded housing provider does not have to provide you with the protections contained in this notice.

Confidentiality

Lee County or any other CoC or ESG funded housing provider must keep confidential any information you provide related to the exercise of your rights under VAWA, including the fact that you are exercising your rights under VAWA.

Lee County or any other CoC or ESG funded housing provider must not allow any individual administering assistance or other services on behalf of Lee County or any other CoC or ESG funded housing provider (for example, employees and contractors) to have access to confidential information unless for reasons that specifically call for these individuals to have access to this information under applicable Federal, State, or local law.

Lee County or any other CoC or ESG funded housing provider must not enter your information into any shared database or disclose your information to any other entity or individual. Lee County or any other CoC or ESG funded housing provider, however, may disclose the information provided if:

1. You give written permission to Lee County or any other CoC or ESG funded housing provider to release the information on a time limited basis.
2. Lee County or any other CoC or ESG funded housing provider needs to use the information in an eviction or termination proceeding, such as to evict your abuser or perpetrator or terminate your abuser or perpetrator from assistance under this program.
3. A law requires Lee County or any other CoC or ESG funded housing provider or your landlord to release the information.

VAWA does not limit Lee County or any other CoC or ESG funded housing provider's duty to honor court orders about access to or control of the property. This includes orders issued to protect a victim and orders dividing property among household members in cases where a family breaks up.

Reasons a Tenant Eligible for Occupancy Rights Under VAWA May Be Evicted or Assistance May Be Terminated

You can be evicted and your assistance can be terminated for serious or repeated lease violations that are not related to domestic violence, dating violence, sexual assault, or stalking committed against you. However, Lee County or any other CoC or ESG funded housing provider cannot hold tenants who have been victims of domestic violence, dating violence, sexual assault, or stalking to a more demanding set of rules than it applies to tenants who have not been victims of domestic violence, dating violence, sexual assault, or stalking.

The protections described in this notice might not apply, and you could be evicted and your assistance terminated, if Lee County or any other CoC or ESG funded housing provider can demonstrate that not evicting you or terminating your assistance would present a real physical danger that:

1. Would occur within an immediate time frame, and
2. Could result in death or serious bodily harm to other tenants or those who work on the property.

If Lee County or any other CoC or ESG funded housing provider can demonstrate the above, Lee County or any other CoC or ESG funded housing provider should only terminate your assistance or evict you if there are no other actions that could be taken to reduce or eliminate the threat.

Other Laws

VAWA does not replace any Federal, State, or local law that provides greater protection for victims of domestic violence, dating violence, sexual assault, or stalking. You may be entitled to additional housing protections for victims of domestic violence, dating violence, sexual assault, or stalking under other Federal laws, as well as under State and local laws.

Non-Compliance With The Requirements of This Notice

You may report a covered housing provider's violations of these rights and seek additional assistance, if needed, by contacting or filing a complaint with HUD Miami Field Office, Brickell Plaza Federal Building, 909 SE First Ave, Room 500, Miami, FL 33131-3028, Phone: 350-536-5678, Fax: 350-536-5765.

APPENDIX B

Certification of Domestic Violence, Dating Violence, Sexual Assault, or Stalking

Purpose of Form: The Violence Against Women Reauthorization Act of 2013 (“VAWA”) protects qualified tenants, participants, and applicants, and affiliated individuals, who are victims of domestic violence, dating violence, sexual assault, or stalking from being denied housing assistance, evicted, or terminated from housing assistance based on acts of such violence against them.

Use of Form: This is an optional form. A Public Housing Authority (PHA), owner or manager presented with a claim for continued or initial tenancy or assistance based on status as a victim of domestic violence, dating violence, sexual assault, or stalking (herein referred to as “Victim”) has the option to request that the victim document or provide written evidence to demonstrate that the violence occurred. The

Victim has the option of either submitting this form or submitting third-party documentation, such as:

- (1) A record of a Federal, State, tribal, territorial, or local law enforcement agency (e.g. police), court, or administrative agency; or
- (2) Documentation signed by the Victim and signed by an employee, agent or volunteer of a victim service provider, an attorney, a medical professional, or a mental health professional from whom the Victim has sought assistance relating to domestic violence, dating violence, sexual assault, or stalking, or the effects of abuse, in which the professional attests under penalty of perjury (28 U.S.C. 1746) that he or she believes that the incident of domestic violence, dating violence, sexual assault, or stalking is grounds for protection under 24 Code of Federal Regulations (CFR) § 5.2005 or 24 CFR § 5.2009.

If this form is used by the Victim, the Victim must complete and submit it within 14 business days of receiving it from the PHA, owner or manager. This form must be returned to the person and address specified in the written request for the certification. If the Victim does not complete and return this form (or provide third-party verification) by the 14th business day or by an extension of the date provided by the PHA, manager or owner, the Victim cannot be assured s/he will receive VAWA protections.

If the Victim submits this form or third-party documentation as listed above, the PHA, owner or manager cannot require any additional evidence from the Victim.

Confidentiality: All information provided to a PHA, owner or manager concerning the incident(s) of domestic violence, dating violence, sexual assault, or stalking relating to the Victim (including the fact that an individual is a victim of domestic violence, dating violence, sexual assault, or stalking) shall be kept confidential by the PHA, owner or manager, and such information shall not be entered into any shared database. Employees of the PHA, owner, or manager are not to have access to these details unless to afford or reject VAWA protections to the Victim; and may not disclose this information to any other entity or individual, except to the extent that disclosure is: (i) requested or consented to by the Victim in writing; (ii) required for use in an eviction proceeding; or (iii) otherwise required by applicable law.

APPENDIX C

Emergency Transfer Request for Certain Victims of Domestic Violence, Dating Violence, Sexual Assault, or Stalking

Purpose of Form: If you are a victim of domestic violence, dating violence, sexual assault, or stalking, and you are seeking an emergency transfer, you may use this form to request an emergency transfer and certify that you meet the requirements of eligibility for an emergency transfer under the Violence Against Women Act (VAWA). Although the statutory name references women, VAWA rights and protections apply to all victims of domestic violence, dating violence, sexual assault or stalking. Using this form does not necessarily mean that you will receive an emergency transfer. See your housing provider's emergency transfer plan for more information about the availability of emergency transfers.

The requirements you must meet are:

(1) You are a victim of domestic violence, dating violence, sexual assault, or stalking. If your housing provider does not already have documentation that you are a victim of domestic violence, dating violence, sexual assault, or stalking, your housing provider may ask you for such documentation. In response, you may submit Appendix B – Certification of Domestic Violence, Dating Violence, Sexual Assault, or Stalking (Form HUD50066), or any one of the other types of documentation listed on that Form.

(2) You expressly request the emergency transfer. Submission of this form confirms that you have expressly requested a transfer. Your housing provider may choose to require that you submit this form, or may accept another written or oral request. Please see your housing provider's emergency transfer plan for more details.

(3) You reasonably believe you are threatened with imminent harm from further violence if you remain in your current unit. This means you have a reason to fear that if you do not receive a transfer you would suffer violence in the very near future. **OR**

You are a victim of sexual assault and the assault occurred on the premises during the 90-calendar-day period before you request a transfer. If you are a victim of sexual assault, then in addition to qualifying for an emergency transfer because you reasonably believe you are threatened with imminent harm from further violence if you remain in your unit, you may qualify for an emergency transfer if the sexual assault occurred on the premises of the property from which you are seeking your transfer, and that assault happened within the 90-calendar-day period before you submit this form or otherwise expressly request the transfer.

Submission of Documentation: If you have third-party documentation that demonstrates why you are eligible for an emergency transfer, you should submit that documentation to your housing provider if it is safe for you to do so. Examples of third party documentation include, but are not limited to: a letter or other documentation from a victim service provider, social worker, legal assistance provider, pastoral counselor, mental health provider, or other professional from whom you have sought assistance; a current restraining order; a recent court order or other court records; a law enforcement report or records; communication records from the perpetrator of the violence or family members or friends of the perpetrator of the violence, including emails, voicemails, text messages, and social media posts.

Confidentiality: All information provided to your housing provider concerning the incident(s) of domestic violence, dating violence, sexual assault, or stalking, and concerning your request for an emergency transfer shall be kept confidential. Such details shall not be entered into any shared database. Employees of your housing provider are not to have access to these details unless to grant or deny VAWA protections or an emergency transfer to you. Such employees may not disclose this information to any other entity or individual, except to the extent that disclosure is: (i) consented to by you in writing in a time-limited release; (ii) required for use in an eviction proceeding or hearing regarding termination of assistance; or (iii) otherwise required by applicable law.

TO BE COMPLETED BY OR ON BEHALF OF THE PERSON REQUESTING A TRANSFER

1. Name of victim requesting and emergency transfer: _____
2. Your name (if different from victim's): _____
3. Name(s) of other family member(s) listed on the lease: _____

4. Name(s) of other family member(s) who would transfer with the victim: _____

5. Address of location from which the victim seeks to transfer: _____

6. Victim's phone number: _____
7. Name of the accused perpetrator (if known and can be safely disclosed):

8. Relationship of the accused perpetrator to the victim: _____
9. Date(s), time(s), and location(s) of the incident(s): _____

10. Is the person requesting the transfer a victim of a sexual assault that occurred in the past 90 days on the premises of the property from which the victim is seeking transfer? NO YES *If yes, skip question 11.*
11. Describe why the victim believes they are threatened with imminent harm from further violence if they remain in their current unit. _____

12. If voluntarily provided, list any third-party documentation you are providing along with this notice:

This is to certify that the information provided on this form is true and correct to the best of my knowledge, and that the individual named above in Item 1 meets the requirement laid out on this form for an emergency transfer. PUBLIC AWARENESS

The Problem:

Insufficient public awareness of homelessness results in limited community engagement and involvement in addressing and preventing homelessness for individuals and families. Biases and stereotypes about homelessness and homeless individuals are due to lack of an informed populous. The public, in general, does not understand the cost-effectiveness of homeless solutions and prevention programs. Individuals are not aware of the early signs of potential homelessness and those at-risk often find themselves too deep in the circumstances to effectively avert homelessness timely and effectively.

The Plan Goal:

Inform and educate the public about homelessness, including causes of and strategies for prevention and recovery, to increase community engagement and involvement in decreasing incidences of homelessness.

OBJECTIVES

- 1. Create and launch a public awareness campaign; include utilization and reporting of key metrics.*
- 2. Increase the involvement of front-line public service workers to expand neighborhood outreach efforts and communication of available resources.*
- 3. Increase awareness of elder abuse and exploitation.*
- 4. Expand Lee County Homeless Coalition's advocacy at the local, state, and federal levels to the benefit of all vulnerable populations.*

HOUSING

The Problem:

Housing options, including emergency, transitional, supportive, and low-income, are insufficient. There are a limited number of emergency shelter beds for homeless single men. There are long waiting lists of people seeking Section 8 vouchers and affordable housing solutions. Landlords are abandoning property and renters are being compromised. Foreclosures continue to rise. NIMBY¹⁶ continues to negatively impact potential relocation of homeless persons.

The Plan Goal:

Increase housing availability through community collaborations to meet current and emerging needs.

OBJECTIVES

1. *Establish a collaborative and coordinated system of identifying, collecting, and communicating community-based resources for housing solutions.*
2. *Seek additional low-income housing opportunities through private, local, state, and federal resources.*
3. *Establish halfway houses, group homes, and transitional and supportive housing units.*
4. *Establish a timely and effective release protocol for meeting the transitional and/or permanent housing needs of special populations to avoid incidences of homelessness and to facilitate effective re-entry to the community.*
5. *Research the feasibility of developing emergency shelter for young adults.*
6. *Increase shelter units for victims of domestic violence and human trafficking.*
7. *Increase emergency shelter beds and develop initiatives to prevent homelessness.*
8. *Utilize a "Housing First" methodology, as appropriate.*

¹⁶ NIMBY – “NIMBY is an acronym for **Not In My Back Yard**. The term is used to describe a new development's opposition by residents in its vicinity. The new project being opposed is generally considered a benefit for many but has negative side-effects on its close surroundings. As a result, residents nearby the immediate location would consider it undesirable and would generally prefer the building to be "elsewhere" (www.wikipedia.com).

HEALTH SERVICES

The Problem:

There is insufficient access to and provision of health services to meet the needs of the current homeless and the near homeless children and adults. These circumstances have led to either lack of healthcare services or the costly utilization of emergency facilities for non-emergent care.

The Plan Goal:

Improve access to and expand community health care services.

OBJECTIVES

- 1. Promote the provision of pro-bono "fair share" services.*
- 2. Increase health services outreach efforts.*
- 3. Increase placements in Assisted Living Facilities, Skilled Nursing Facilities, and medical respite beds for persons with medical needs,*
- 4. Increase the capacity of existing medical, dental, and mental health care sites and services.*
- 5. Increase detoxification and mental health services and beds to meet current and emerging needs.*

SUPPORTIVE SERVICES

The Problem:

Predominantly, a coordinated system of supportive services and programs is lacking, hence, individuals and families accessing services must do so through multiple points of access and entry. This leads to service gaps, redundant service provision, and unmet needs.

The Plan Goal:

Expand wrap-around community-based services to enhance the continuum of care.

OBJECTIVES

- 1. Prevent and/or respond to homelessness by engaging the broader community through a coordinated system of care.*
- 2. Ensure that adequate and alternative child care and support services are provided.*
- 3. Research the feasibility of integrated service delivery systems.*
- 4. Improve service coordination between local, state, and federal veterans' services providers.*
- 5. Increase service providers' participation in data collection through the Homeless Management Information System.*
- 6. Improve the coordination of and access to public benefits for those that qualify.*
- 7. Increase the capacity of models that allow senior citizens to age in their homes.*
- 8. Develop supportive, wrap-around programs and services to assist the most vulnerable to make successful transitions to independence and self-sufficiency.*
- 9. More effectively involve and collaborate with service clubs, faith-based organizations, home-owner associations, etc.*
- 10. Increase the numbers of volunteer public guardians.*

EDUCATION

The Problem:

Lacking the education appropriate for the available job market interferes with obtaining or maintaining employment with wages that support self-sufficiency. There needs to be an improved system of interconnectedness between the employment sector (and its needs/career opportunities) and education/training programs. Employers must participate in the development of education solutions to meet workplace demands.

The Plan:

Enhance community education systems and outcomes to reduce barriers to employment and self-sufficiency.

OBJECTIVES

- 1. Expand community partnerships among the business and education communities to serve the current and emerging needs of all learners.*
- 2. Increase education, training, and vocational experiences for individuals to improve employability and self-sufficiency.*
- 3. Facilitate community partnerships to identify and secure funding for expanding education and training programs that lead to employment.*
- 4. Engage the business community to provide on-the-job-training, internships, and mentoring programs leading to employment.*
- 5. Ensure that literacy programs are made accessible and relevant to children, adults, and families.*
- 6. Expand low literacy and English as a Second Language programs for youth and adults within the environment of the learner.*

EMPLOYMENT SERVICES

The Problem:

Employment opportunities paying a self-sustaining wage are lacking in our community. Underemployment continues to be a problem. Employment opportunities are lacking in fields for which the undereducated typically will qualify (e. g., day labor, retail, etc.) Employment opportunities abound in certain sectors (e.g., health services) wherein there is a lack of qualified candidates to fill those openings. The gap between employment opportunities and the transitioning labor force must be bridged.

The Plan Goal:

Expand employment opportunities to meet community and workforce needs.

OBJECTIVES

- 1. Improve employment opportunities and outcomes for individuals transitioning to independence.*
- 2. Expand full-time, part-time, and short-term employment opportunities to meet immediate self-sustaining wage-earning needs, and increase the number of supportive employment programs.*
- 3. Improve communication and resources to help people find and maintain gainful employment.*

PUBLIC SAFETY

The Problem:

Expanded or additional public safety resources, including jail diversion and community reentry pathways, are needed to meet community needs. The County has made measurable progress reducing recidivism and related costs due to homelessness, which should be expanded in order to increase the responsiveness to current and future community needs.

The Plan Goal:

Develop and/or expand public safety, diversion, and release programs.

OBJECTIVES

- 1. Expand the Lee County Triage Center to a 24/7 365 days/year operation, including expansion of the Low Demand Shelter.*
- 2. Increase public safety workers' specialized training to include knowledge of behavioral health issues and community-based resources, including diversion programs.*
- 3. Increase public safety workers' participation in the annual census, community outreach, and education.*
- 4. Improve discharge planning and case management (including personal identification protocol) prior to release from jail or prison.*
- 5. Increase the capacity of mental health and drug courts.*

TRANSPORTATION

The Problem:

There is limited availability of transportation options which hinders access to community-based services and resources. There is a need to develop alternative transportation solutions to reduce the barriers of access to services and to decrease the costs associated with the unnecessary utilization of emergency and public safety transportation vehicles for non-emergent needs.

The Plan Goal:

Reduce transportation barriers to accessing housing, employment, health, and social services.

OBJECTIVES

- 1. Incorporate transportation solutions into housing and supportive programs and services.*
- 2. Improve coordination, cooperation, and communication between transportation agencies and the service provider community.*
- 3. Increase and communicate alternative non-emergency transportation options.*
- 4. As a long term strategy, improve transportation options in Lee County to facilitate independence and self-sufficiency.*

Written Standards (as defined in Appendix 8.2)

PRIORITIZATION

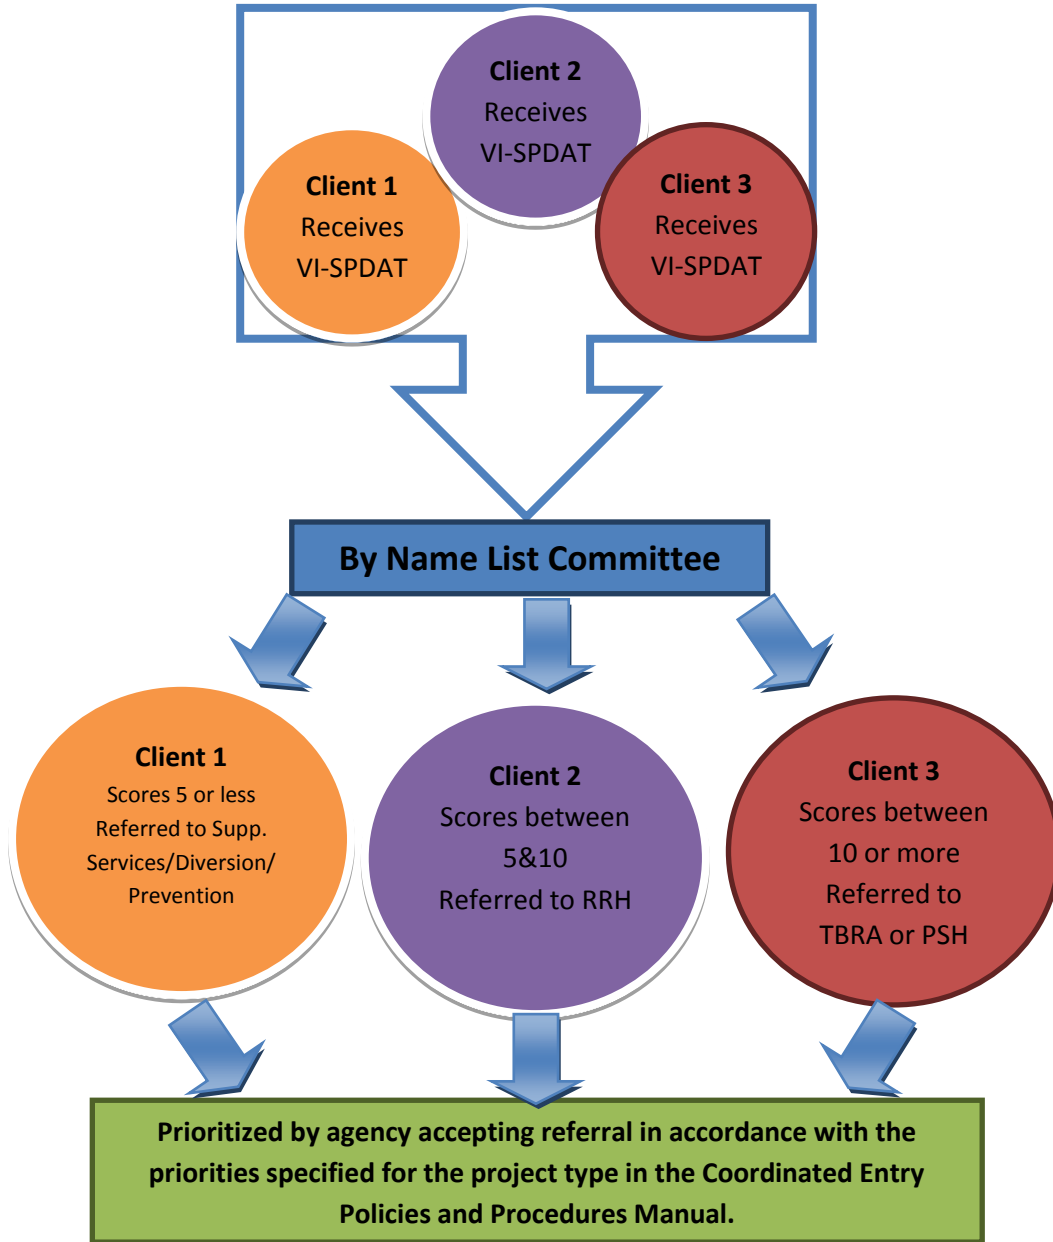

Homelessness interventions, including Street Outreach, Emergency Shelter, Diversion, Prevention, Permanent Supportive Housing, Rapid Re-Housing, Rental Assistance, Transitional Housing – Rapid Re-Housing, and Transitional Housing will be prioritized based on the severity of service needs and vulnerability. Of those eligible households the populations must be prioritized in accordance with The U.S. Interagency Council on Homelessness (USICH) plan, Opening Doors, and other HUD guidance on prioritization of chronically homeless households and policy briefs on coordinated entry systems. The basic process for Coordinated Entry and client prioritization is outlined in *Chart 1* below.

Lee County's coordinated entry system identifies prioritizes service needs as follows (only going to the next level as needed to break a tie between two or more individuals):

1. **Medical Vulnerability:** The first prioritization criteria will expedite placement into housing for individuals with severe medical needs who are at greater risk of death. This score would be based on questions 22-34 of the vulnerability analysis, with a maximum score of 5.
2. **Overall Wellness:** The second prioritization factor targets individuals with similar medical needs as criteria number 1, who will be prioritized when they have behavioral health conditions or histories of substance use, which may either mask or exacerbate medical conditions. This score will be based on questions 21 through 50 of the vulnerability analysis (i.e., the "Wellness Domain").
3. **Unsheltered Sleeping Location:** The third prioritization criteria are the location where the individual sleeps, based on question 13 of the vulnerability analysis. Unsheltered individuals will be given priority over sheltered individuals.
4. **Length of Time Homeless:** The fourth prioritization factor is the length of time an individual has experienced homelessness, giving priority to the person that has experienced homelessness the longest (based on question 1 of the vulnerability analysis).
5. **Date of vulnerability analysis assessment:** The final prioritization criteria will be the date of the individual's assessment, giving priority to the earliest date of assessment.

In all programs, priority shall be given for eligible individuals and families who are relocating as per the Emergency Transfer Plan, and in accordance with 24 CFR 576.409. All CoC funded transitional housing, rapid re-housing, and permanent supportive housing programs will ensure that applicants are prioritized according to the emergency transfer priority required under 24 CFR 578.99(j)(8).

Chart 1

PERMANENT SUPPORTIVE HOUSING

Permanent Supportive Housing (PSH) can only assist individuals with disabilities and families in which one adult or child has a disability. Supportive services designed to meet the needs of the program participants must be made available to the program participants, but should not be required as a condition to remaining in housing.

Eligibility

For permanent supportive housing programs, households must meet both the HUD definition of homelessness under **Category 1** or **Category 4**, and have a disability, as defined in Section 401(9) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11360(9)). For beds prioritized for Chronically Homeless individuals and families, the head of household must have a qualifying disability and meet all of the criteria required as defined in 24 CFR 578.3. Once meeting the Category 1 or Category 4 and disability requirements, households are then prioritized as indicated below.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable people and high users of resources are quickly transitioned into permanent supportive housing. The Lee County CoC has established that individuals and families scoring 10 or above on the VI-SPDAT will be recommended for placement into permanent supportive housing. Individuals, and families scoring 10 or above, will then be prioritized primarily in the following order (CPD Notice 16-11), and then by severity of service needs.

For CoC or ESG funded PSH beds dedicated or prioritized for Chronically Homeless:

1. Chronically homeless individuals and families with the most severe service needs.
2. Chronically homeless individuals and families with the longest history of homelessness.
3. All other chronically homeless individuals or families.

For CoC or ESG funded PSH beds not dedicated or prioritized for Chronically Homeless, or when there are no Chronically Homeless individuals or families:

1. **First Priority**—Homeless Individuals and Families with a Disability with Long Periods of Episodic Homelessness and Severe Service Needs
 - a. An individual or family that is eligible for CoC Program-funded PSH who has experienced fewer than four occasions where they have been living or residing in a place not meant for human habitation, a safe haven, or in an emergency shelter but where the cumulative time homeless is at least 12 months **and** has been identified as having severe service needs.
2. **Second Priority**—Homeless Individuals and Families with a Disability with Severe Service Needs
 - a. An individual or family that is eligible for CoC Program-funded PSH who is residing in a place not meant for human habitation, a safe haven, or in an emergency shelter and has been identified as having severe service needs. The length of time in which households have been homeless should also be considered when prioritizing households that meet this order of priority, but there is not a minimum length of time required.
3. **Third Priority**—Homeless Individuals and Families with a Disability Coming from Places Not Meant for Human Habitation, Safe Haven, or Emergency Shelter Without Severe Service Needs
 - a. An individual or family that is eligible for CoC Program-funded PSH who is residing in a place not meant for human habitation, a safe haven, or an emergency shelter where the individual or family has not been identified as having severe service needs. The length of time in which households have been homeless should be considered when prioritizing households that meet this order of priority, but there is not a minimum length of time required.
4. **Fourth Priority**—Homeless Individuals and Families with a Disability Coming from Transitional Housing

- a. An individual or family that is eligible for CoC Program-funded PSH who is currently residing in a transitional housing project, where prior to residing in the transitional housing had lived in a place not meant for human habitation, in an emergency shelter, or safe haven. This priority also includes individuals and families residing in transitional housing who were fleeing or attempting to flee domestic violence, dating violence, sexual assault, or stalking and prior to residing in that transitional housing project even if they did not live in a place not meant for human habitation, an emergency shelter, or a safe haven prior to entry in the transitional housing.

Minimum Standards – PSH

All referrals to permanent supportive housing will be made through the coordinated entry system. The following minimum standards will be applied to all permanent housing programs:

- Support services must be made available throughout the duration of stay in housing.
- Program participants must enter into a lease agreement for a term of at least one year, which is terminable for cause. The lease must be automatically renewable upon expiration for terms that are a minimum of one month long, except on prior notice by either party.
- There is no designated length of stay for program participants.

RENTAL ASSISTANCE

Tenant, Sponsor, or Project-Based Rental Assistance can only provide assistance to individuals with disabilities and families in which one adult or child has a disability. Supportive services designed to meet the needs of the program participants must be made available to the program participants, but should not be required as a condition to remaining in housing.

Eligibility

For rental assistance programs, households must meet both the HUD definition of homelessness under **Category 1 or Category 4**. For beds prioritized for Chronically Homeless individual and families, the head of household must have a qualifying disability and meet all of the criteria required as defined in 24 CFR 578.3. Once meeting the **Category 1 or Category 4 and disability requirements**, households are then prioritized as indicated below. Programs may not establish additional eligibility requirements beyond those specified in **Category 1 and Category 4** and those required by funders.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly transitioned into permanent housing. The Lee County CoC has established that individuals and families scoring 10 or above on the VI-SPDAT will be recommended for placement into rental assistance programs.

Individuals, and families scoring 10 or above, will then be prioritized primarily in the following order, and then by severity of service needs.

1. Chronically homeless individuals and families with the most severe service needs.
2. Chronically homeless individuals and families with the longest history of homelessness.
3. All other chronically homeless individuals and families.
4. Homeless individuals and families with a disability, as defined in Section 401 of the McKinney-Vento Homeless Assistance Act as amended by S.896 the HEARTH Act of 2009, and with the most severe service needs.
5. Homeless individuals and families with long periods of continuous or episodic homelessness.
6. Homeless individuals and families coming from places not meant for human habitation (such as emergency shelters, streets, safe havens, etc.).

Minimum Standards - CoC Project Based Rental Assistance

Program participants are required to pay a portion of their rent if they are receiving CoC Program Rental Assistance, unless they have no income at all. In permanent supportive housing and transitional housing projects (24 CFR 578.77(c)), the program participant's rent contribution **must be equal to the highest of:**

- 30% of the family's monthly adjusted income (adjustment factors include allowances and deductions for disabled household members, medical expenses, childcare expenses, etc.);
- 10% of the family's monthly gross income; or
- Portion of welfare payments specifically designated by the public welfare agency to meet the family's housing costs.

Rental Assistance providers must assess each program participant's income to calculate the program participants rent contribution, and to determine the amount the recipient must pay toward rent. If the participant is required to pay for utilities, then a utility allowance must be factored into the rent calculation determination.

Minimum Standards – HOME Tenant Based Rental Assistance

Housing selected should not exceed Fair Market Value (FMV) and most importantly, affordable to the client according to household size and income. Per 24 CFR Part 92.252, HUD provides the following maximum HOME rent limits.

The maximum HOME rents are the lesser of:

- 1) The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or
- 2) A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit.

The HOME rent limits provided by HUD will include average occupancy per unit and adjusted income assumptions. If staff cannot locate, or if the client needs, housing that exceeds FMV, County Homeless (or other non-federal funds) may be used or the client may pay the difference, if able.

Program participants are required to pay a portion of their rent if they are receiving rental assistance, unless they have no income at all. Rental Assistance providers must assess each program participant's income to calculate the program participants rent contribution, and to determine the amount the recipient must pay toward rent. If the participant is required to pay for utilities, then a utility allowance must be factored into the rent calculation determination.

Minimum Standards – Supportive Services for Veteran Families (SSVF)

Direct referrals will be made for veterans served through Supportive Services for Veteran Families (SSVF) due to the amount of funding currently available for the program. SSVF will continue to prioritize placements based on the vulnerability analysis scores, and continue to work with providers to streamline processes in order to make progress towards accepting referrals.

RAPID RE-HOUSING

Continuum of Care funds may provide supportive services, as set forth in § 578.53, and/or short-term (up to 3 months) and/or medium-term (for 3 to 24 months) tenant-based rental assistance, as set forth in § 578.51(c), as necessary to help a homeless individual or family, with or without disabilities, move as quickly as possible into permanent housing and achieve stability in that housing. When providing short-term and/or medium-term rental assistance to program participants, the rental assistance is subject to § 578.51(a)(1), but not § 578.51(a)(1)(i) and (ii); (a)(2); (c) and (f) through (i); and (l)(1).

Eligibility

For rapid re-housing programs, households must meet the HUD's definition of homelessness under **Category 1 or 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly transitioned into rapid re-housing. The Lee County CoC has established that individuals and families scoring 5 to 9 on the VI-SPDAT will be recommended for placement into rapid re-housing. Individuals and families scoring above 9 on the VI-SPDAT may also be prioritized for rapid re-housing with the approval of the agency administering the project.

Individuals, and families will then be prioritized primarily in the following order, and then by severity of service needs.

1. Households with children (under 18 years of age).
2. Household fleeing domestic violence.
3. Family with head of household between ages 18-24 years of age.
4. Households with behavioral health needs.

Minimum Standards – Emergency Solutions Grant (ESG)

All referrals to rapid re-housing will be made through the coordinated entry system. The following minimum standards will be applied to all ESG funded rapid re-housing programs:

- Support services in compliance with 24 CFR Part 576.10 (ESG) must be made available throughout the duration of stay in housing.
- Program participants must enter into a written lease agreement between the owner and program participant. For ESG (24 CFR 576.104), there is no minimum lease period for TBRA. Leases for ESG PBRA must have an initial term of one year.
- For ESG maximum participation in a rapid re-housing program cannot exceed 12 months. Exceptions may be granted for an additional 12 months based on Human and Veteran Services' policy.
- Program participants must be re-evaluated not less than once annually to ensure that the type and amount of assistance being received is necessary to retain housing.
- Program participant must meet with a case manager not less than once per month to assist the program participant in ensuring long-term housing stability. The project is exempt from this requirement if the Violence Against Women Act of 1994 (42 U.S.C. 13925 et seq.) or the Family Violence Prevention and Services Act (42 U.S.C. 10401 et seq.) prohibits the recipient carrying out the project from making its housing conditional on the participant's acceptance of services.
 - Supportive Services may not be received for longer than 6 months after rental assistance has ended.

- The rent charged for a unit must be reasonable in relation to rents currently being charged for comparable units in the private unassisted market and must not be in excess of rents currently being charged by the owner for comparable unassisted units. When possible, rents shall not exceed:
 - The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or
 - A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit.
- The amount of grant funds used to pay monthly assistance for an eligible person may not exceed the difference between:
 - The lower of the rent standard or reasonable rent for the unit; and
 - The resident's rent payment calculated under § 574.310(d).
- The amount of financial assistance granted may include all move-in costs, moving expenses, utility deposits, etc.
 - ESG Rapid Rehousing assistance pays rent at 100% for the first month, then 70% for months 2 and 3, then 60% for months 4 and 5, then 40% for months 6 and 7, then 25% for months 8, 9, and 10, then 0% for months 11 and 12.

Minimum Standards – Continuum of Care (CoC)

All referrals to rapid re-housing will be made through the coordinated entry system. The following minimum standards will be applied to all CoC funded rapid re-housing programs:

- Support services in compliance with 24 CFR 578.53 (CoC) must be made available throughout the duration of stay in housing.
- Program participants must enter into a written lease agreement between the owner and program participant. For CoC (24 CFR 578.37(a)(1)(ii)), the lease term must be at least one year, which is terminable for cause. The lease must be automatically renewable upon expiration for terms that are a minimum of one month long, except on prior notice by either party.
- For CoC maximum participation in a rapid re-housing program cannot exceed 12 months.
- Program participants must be re-evaluated not less than once annually to ensure that the type and amount of assistance being received is necessary to retain housing.
- Program participant must meet with a case manager not less than once per month (24 CFR 578.37(a)(1)(ii)(F)) to assist the program participant in ensuring long-term housing stability. The project is exempt from this requirement if the Violence Against Women Act of 1994 (42 U.S.C. 13925 et seq.) or the Family Violence Prevention and Services Act (42 U.S.C. 10401 et seq.) prohibits the recipient carrying out the project from making its housing conditional on the participant's acceptance of services.
 - Supportive Services may not be received for longer than 6 months after rental assistance has ended.
- The rent charged for a unit must be reasonable in relation to rents currently being charged for comparable units in the private unassisted market and must not be in excess of rents currently being charged by the owner for comparable unassisted units. When possible, rents shall not exceed:
 - The fair market rent for existing housing for comparable units in the area as established by HUD under 24 CFR 888.111; or
 - A rent that does not exceed 30 percent of the adjusted income of a family whose annual income equals 65 percent of the median income for the area, as determined by HUD, with adjustments for number of bedrooms in the unit.

- The amount of financial assistance granted may include all move-in costs, moving expenses, utility deposits, etc.
- CoC Rapid-Rehousing assistance pays 100% of rent costs for months 1 through 3, individuals and families receiving assistance are required to pay 10% of their income towards rent during months 4 through 8, then 20% for months 9 through 12.

JOINT TRANSITIONAL HOUSING – RAPID RE-HOUSING

Joint Transitional Housing-Rapid Re-Housing (TH-RRH) facilitates the movement of homeless individuals and families to Permanent housing (PH) within 24 months of entering TH. Grant funds may be used for acquisition, rehabilitation, new construction, leasing, rental assistance, operating costs, and supportive services.

Eligibility

For joint transitional housing to rapid re-housing programs, households must meet the HUD’s definition of homelessness under **Category 1** or **Category 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County’s most vulnerable populations and high users of resources are quickly transitioned into joint transitional housing and rapid re-housing. If multiple households meet the joint transitional housing and rapid re-housing programs individualized eligibility criteria, then prioritization will take place in the following order:

1. Households with the highest service needs
2. Length of time homeless
3. Within one of the target populations for transitional housing:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to joint transitional housing and rapid re-housing must be made through the coordinated entry system. The following minimum standards will be applied to all joint transitional housing and rapid re-housing programs:

- Maximum length of stay cannot exceed 24 months.
- Assistance in transitioning to permanent housing must be made available/provided.
- Supportive services must be provided throughout the duration of stay in transitional housing.
- Program participants in transitional housing must enter into a lease, sublease or occupancy agreement for a term of at least one month. The lease, sublease or occupancy agreement must be automatically renewable upon expiration, except on prior notice by either party, up to a maximum of 24 months.

Lee County does not currently feature any Continuum of Care funded transitional housing programs. The following standards outline the basic requirements for transitional housing programs funded with funds other than the Continuum of Care, such as ESG, TANF, and Challenge Grant, and for future reference should a transitional housing program be funded in Lee County.

TRANSITIONAL HOUSING

Transitional housing (TH) facilitates the movement of homeless individuals and families to Permanent housing (PH) within 24 months of entering TH. Grant funds may be used for acquisition, rehabilitation, new construction, leasing, rental assistance, operating costs, and supportive services.

Eligibility

For transitional housing programs, households must meet the HUD's definition of homelessness under **Category 1 or Category 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly transitioned into transitional housing. If multiple households meet the transitional housing programs individualized eligibility criteria, then prioritization will take place in the following order:

5. Households with the highest service needs
6. Length of time homeless
7. Within one of the target populations for transitional housing:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to transitional housing must be made through the coordinated entry system. The following minimum standards will be applied to all transitional housing programs:

- Maximum length of stay cannot exceed 24 months.
- Assistance in transitioning to permanent housing must be made available/provided.
- Supportive services must be provided throughout the duration of stay in transitional housing.

Program participants in transitional housing must enter into a lease, sublease or occupancy agreement for a term of at least one month. The lease, sublease or occupancy agreement must be automatically renewable upon expiration, except on prior notice by either party, up to a maximum of 24 months.

EMERGENCY SHELTER

The Lee County CoC uses the Emergency Solutions Grant (ESG) Program to fund emergency shelter operations.

Eligibility

For emergency shelter programs, households must meet the HUD's definition of homelessness under **Category 1** or **Category 4**, any subsequent CoC Program Notice of Funding Availability (NOFA) eligibility requirements, and any additional funder eligibility requirements.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly placed into emergency shelter. If multiple households meet the emergency shelter programs individualized eligibility criteria, then prioritization will take place in the following order:

1. Households with the highest service needs
2. Length of time homeless
3. Within one of the target populations for transitional housing:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to the shelter are made direct from street outreach, Lee County Law Enforcement, Lee Health or other homelessness assistance programs. The following minimum standards will be applied to all emergency shelter programs:

- Assistance in transitioning to permanent housing must be made available/provided.
- Supportive services must be made available throughout the duration of stay in the emergency shelter.

STREET OUTREACH

CoC funds may be used by recipients in Continuums of Care for street outreach within the Supportive Services Only (SSO) component as described in 24 CFR 578.37. ESG Funds may be used by grantees for street outreach as described in 24 CFR 576.101. Lee County does not currently use CoC funds for street outreach. The following standards outline the basic requirements for street outreach programs funded with funds other than the Continuum of Care, including, but not limited to Emergency Solutions Grant, Challenge Grant, Temporary Assistance for Needy Families-Prevention, and State Emergency Solutions Grant.

Street outreach efforts must be linked to the Coordinated Entry System. Lee County ensures that outreach workers have adequate access to both paper and electronic methods of administering a coordinated assessment survey with the same standardized processes offered at site-based access points.

Eligibility

Individuals and Families defined as Homeless under **Category 1, 2, or 4**, are eligible for assistance through street outreach projects.

Prioritization

These priorities have been established to ensure that Lee County's most vulnerable populations and high users of resources are quickly connected with street outreach services. Street outreach programs be targeted to households:

1. With the highest service needs
2. With the longest length of time homeless
3. Within one of the target populations:
 - a. Households with children (under 18 years of age)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24 years of age
 - d. Households with behavioral health needs

Minimum Standards

All referrals to homelessness assistance projects must be made through the coordinated entry system. Street outreach efforts must actively engage the unsheltered homeless population for the purposes of providing immediate support, interventions, and connections with homeless assistance programs and/or mainstream services. Additional minimum standards are assigned based on funding source.

PREVENTION SERVICES

CoC funds may be used by recipients in Continuums of Care which are designated as high-performing communities for housing relocation and stabilization services, as described in 24 CFR 576.105 and 24 CFR 576.106. The Lee County CoC is not currently designated as a high-performing community, and therefore does not feature a homelessness prevention program funded with CoC funds. The following standards outline the basic requirements for homelessness prevention programs funded with funds other than the Continuum of Care, such as Emergency Solutions Grant (ESG), Temporary Assistance for Needy Families (TANF)-Prevention, County General Funds, Community Services Block Grant (CSBG) and Challenge Grant, and for future reference should Lee County be designated as a high-performing community.

Lee County CoC homelessness prevention programs provide rental assistance, utility assistance, and supportive services to at risk and otherwise eligible individuals and families to prevent homelessness.

Eligibility

For homelessness prevention programs, households must meet the HUD's definition of homelessness under **Category 1, 2, or 4**, and any additional funder eligibility requirements.

Prioritization

Prioritization for homelessness prevention services are assigned based on the funding source. The Lee County CoC uses multiple funding sources, including Challenge Grant, TANF-Prevention, State of Florida ESG, CSBG, and Lee County General funds to administer homelessness prevention programs. Each individual program must outline prioritization standards based on the requirements imposed by the funder. If no funder requirements are in place, or multiple households meet the prevention program's individualized eligibility criteria, then prioritization will take place in the following order:

1. Households with the highest service needs
2. Within one of the target populations for transitional housing:
 - a. Families with children (under age 18)
 - b. Household fleeing domestic violence
 - c. Family with head of household between ages 18-24
 - d. Households with behavioral health needs

Minimum Standards

All referrals to homelessness prevention projects must be made through the coordinated entry system. Additional minimum standards are assigned based on funding source.

DIVERSION SERVICES

Diversion is implemented to ensure that scarce resources are preserved for the most vulnerable individuals and families. Diversion services provide alternative resources, encourage the development of problem solving skills, and ultimately divert individuals and families to a safe and secure temporary or permanent housing location outside of the CoC homelessness response system.

Eligibility

Individuals and Families defined as Homeless under **Category 1, 2** or **4** are eligible for assistance through diversion services.

Prioritization for diversion services is largely based on client choice. Individuals and families must first be willing to participate in mediation, and second be willing to invest time developing and implementing problem solutions. Additional priorities for diversion services may be established by service providers, so long as the policies are outlined in a written document(s) and do not conflict with any part of these standards.

Minimum Standards

All referrals services must be made through the coordinated entry system. Additional prioritization and minimum standards are assigned based on funding source.

REFERRAL

All CoC and ESG funded service providers must use the Lee County Coordinated Entry System as the only referral source from which to consider filling vacancies in housing and/or services. Referrals are made through HMIS. Participating agencies are responsible for regularly checking the referral queue and processing clients in a timely manner, and in accordance with the applicable rules and policies found here within.

BY-NAME LIST (BNL)

The Lee County CoC HMIS Lead Agency, Lee County Human and Veteran Services, shall retain and review the master by-name list at least one time per month. Persons on the by-name list will remain active for 60 days. If no contact is made after 60 days the individual will be placed in inactive status. Should contact be made while an individual is in inactive status, they will be moved to active status for another 60 day period.

BY-NAME LIST (BNL) COMMITTEE

The BNL Committee reviews all individuals and families listed, paying particular attention to high risk individuals and those where the tool did not reveal the full depth and/or urgency of the situation. Assessors/case managers utilize the CoC Written Standards and professional judgment to evaluate housing and service options. Clients may be referred to the review panel for any of these reasons regardless of whether the individual participated in the vulnerability analysis process. The BNL Committee strives to be person-centric, not program-centric (i.e., the end result will not always be PSH placement, but rather to match a highly vulnerable person to the appropriate housing resource). The Committee will make every effort to consider the individuals strengths, goals, risks, lived experiences, and choices in the referral process.

In the context of the coordinated entry process, determining eligibility is a project-level process governed by written standards as established in 24 CFR 576.400(e) and 24 CFR 578.7(a)(9). Coordinated entry processes incorporate mechanisms for determining whether potential participants meet project-specific requirements of the projects for which they are prioritized and to which they are referred.

The process of collecting required information and documentation regarding eligibility may occur at any point in the coordinated entry process as long as that eligibility information is not being used as part of prioritization and ranking (e.g. using documentation of a specific diagnosis or disability to rank a person). **The assessment process cannot require disclosure of specific disabilities or diagnosis. Specific diagnosis or disability information may only be obtained for purposes of determining program eligibility to make appropriate referrals.** Projects or units may be legally permitted to limit eligibility, e.g., to persons with disabilities, through a Federal statute which requires that assistance be utilized for a specific population, e.g., the HOPWA program, through State or local permissions in instances where Federal funding is not used and Federal civil rights laws are not violated.

BNL COMMITTEE REPRESENTATION

The Committee will be comprised of representatives from the CoC Lead Agency, the HMIS Lead Agency, and agencies funded with CoC, ESG, TANF, Challenge Grant, and other federal, state, and local funds.

Agencies funded through the Lee County Human and Veterans Services with one of the funding sources identified above MUST attend each BNL Committee Meeting.

Not all cases will have immediate placement. In some instances, the Committee may determine that the initial score and position on the registry is correct given the severity of other cases. In other situations, the Committee may determine that a higher score is warranted, though immediate placement is still not feasible. In still other situations, the Committee may determine that immediate placement is needed to reduce risk of death.

Dear Ms. Sutton:

Richard Wm. Wesch
County Attorney

Lee County Human and Veteran Services has received additional Community Services Block Grant (CSBG) funding that have not been dedicated as match for other programs. Lee County has dedicated \$105,525 as matching funds to the Street Outreach Project application. Matching funds may be used for housing placement assistance, housing subsidies and referrals to mainstream programs as well as outreach worker wage and fringe.

Project Name: Secure Paths

Agency Providing Service: Lee County Human and Veteran Services

Funding Source: Challenge Grant **Amount Requested:** \$ 300,000

1. Description of the proposed Personnel Costs, including Fringe Benefits

The total budget for Secure Paths is \$600,000. The amount being requested from Challenge Grant Funds is \$300,000, with \$60,000 of the anticipated grant award going toward staff salaries and benefits for one full-time Secure Paths Coordinator. Additional fringe benefits include \$4,000 for staff travel to the 10 proposed host sites, and \$7,000 for necessary equipment and supplies, including laptop, cellphone, and printed materials.

2. Justification for the proposed Personnel Costs, including Fringe Benefits

The cost associated with the Secure Paths Coordinator salary and benefits are necessary to ensure that Secure Paths is successful. Without a dedicated staff person to coordinate host sites, and make service referrals, the project could not proceed.

3. Description of the proposed Client Financial Assistance Costs

Client financial assistance will be provided through the Secure Paths in the form of short-term rent, deposit and/or utility assistance. A total of \$350,000 is allocated for financial assistance costs, \$170,000 in Challenge Grant funds and \$180,000 in matching funds provided through Lee County general funds. Additional client financial assistance will be provided through partner programs and host sites, and will be considered match for Challenge Grant funds..

4. Justification for the proposed Client Financial Assistance Costs

It is estimated that 70% of the Secure Paths program participants will require financial assistance to achieve permanent and stable housing. The fair market rent for a 2-bedroom apartment in Lee County is \$1,039 per month, and most property owners require a 2-month security deposit, is it therefore estimated that the average program participant would require approximately \$5,195 in short-term rental and security deposit assistance to obtain permanent housing.

5. Description of the proposed Other Program Operation Costs

Other program operation costs include \$20,000 to provide portable toilets and personal hygiene item, if necessary at host site locations. Sanitary equipment will be rented, and available for use by individuals and families admitted into the Secure Paths program. An additional \$7,000 in program costs will provide for parks and recreation or gym memberships for individuals and families admitted into the Secure Paths program, and staying at host sites that are not equipped with sanitary facilities. Costs also include \$10,500 toward laundry facilities, either through purchase of host sites or expenses associated with using laundromats, and \$8,375 in gas cards and other transportation assistance to ensure that program participants are able to travel from host sites to work and necessary appointments.

The program will incur \$3,125 in expenses for background checks, which will be completed for all heads of households prior to being admitted into the Secure Paths Program.

6. Justification for the proposed Other Program Operation Costs

Program operation costs are necessary to ensure that Secure Paths can provide the intended wrap-around services for individuals and families experiencing unsheltered homelessness. Costs associated with personal hygiene, including gym memberships, laundry, and sanitary facilities, will directly improve program participants ability to gain and maintain employment. Rental of toilet and

hygiene facilities was estimated to cost approximately \$2,000 per year, per host site. Laundry and recreational costs were estimated based on 50% of program participants needing access to parks and recreation or gym memberships and assistance with laundry services for a 6-month period. Individual gym memberships were estimated to cost at \$22.00 per month, and monthly laundry expenses were estimated at \$35.00 per month.

Gas card and other transportation expenses will allow program participants to travel to work and case management appointments, which will ensure permanent housing placement in a timely manner. Transportation expenses include \$3,375 for gas cards and \$5,000 for program participant's needs to legally drive in Lee County, i.e. driver's licenses, insurance, registration, etc.

Expenses for background checks are necessary to maintain the safety of all program participants, staff, volunteers and host sites, cost is \$25 and one check will be made for each head of household seeking assistance through Secure Paths, approximately 125 households.

7. Description of the proposed Administrative Costs

Administrative costs billed to the Challenge Grant will not exceed \$10,000, and will be used to pay for a small portion of the Program Manager and Contracts staff salary.

8. Justification for the proposed Administrative Costs

Administrative funds are necessary to ensure the delivery of accurate and timely payment requests and reports, as required by the funder.

Project Name: Housing Stabilization Program
Agency Providing Service: Lee County Housing Development Corporation
Funding Source: TANF - Prevention **Amount Requested:** \$70,000

1. Description of the proposed Personnel Costs, including Fringe Benefits

The total budget for the Housing Stabilization Program (HSP) is \$70,000. The amount being requested from TANF-Prevention Funds is \$70,000, with slightly over 25%, or \$10,000, of the anticipated grant award going toward staff salaries and benefits for one full-time case manager.

2. Justification for the proposed Personnel Costs, including Fringe Benefits

The cost associated with the HSP case manager salary and benefits are necessary to ensure that the HSP is successful. Without a dedicated staff person to complete case management with program participants and make service referrals, the project could not proceed.

Client financial assistance costs include \$45,700 past due rent or mortgage payments (not to exceed 4 months), and \$10,000 for past due utility payments (not to exceed 4 months).

4. Justification for the proposed Client Financial Assistance Costs

Client financial assistance is essential to completion of the HSP. Payment of past due rent and utilities is necessary to ensure that families remain stably housed and become self-sufficient. Costs allocated for past due rent and utility payments were determined by reviewing the use of 2018 Challenge grant funds for the HSP.

5. Description of the proposed Other Program Operation Costs

Other program operation costs include \$2,200 to provide for insurance and supplies necessary to administer the HSP. Supplies such as printed marketing materials and application documents are expected to cost approximately \$1,000, while facility insurance costs will be \$1,200.

6. Justification for the proposed Other Program Operation Costs

Program operation costs are necessary to ensure that the necessary facilities and materials are available for program participants.

7. Description of the proposed Administrative Costs

Administrative costs billed to the Challenge Grant will not exceed 3% of the total grant amount, or \$2,100, and will be used to pay for a small portion of the LCHDC staff and Lead Agency Contracts staff salary.

8. Justification for the proposed Administrative Costs

Administrative funds are necessary to ensure the delivery of accurate and timely payment requests and reports, as required by the funder.

Quality of Service (Attachment 9.11)

Certification of Quality of Service

In compliance with section 420.622(4)(b), Florida Statutes, “preference must be given to those lead agencies that have demonstrated the ability of their continuum of care to provide quality services to homeless persons...”.

Answers for the following criteria shall provide evidence of quality services provided in the CoC.

1. Describe how the Lead Agency ensures quality services are provided to individuals at-risk of or experiencing homelessness in your community.

The Lee County Continuum of Care (CoC) has designated Lee County Human and Veteran Services (HVS) as the HMIS Lead Agency and Collaborative Applicant for the CoC. HVS ensures the delivery of quality services for persons who are experiencing homelessness in Lee County through a variety of mechanisms. One such mechanism is the administration of the system-wide HMIS and Coordinated Entry System, which ensures that clients are provided access, assessment, and prioritization for housing and services in a uniform and timely manner. HVS conducts monthly By-Name List meetings that encourage collaboration to provide housing and services to those individuals with the highest vulnerabilities. HMIS staff regularly review data quality and compliance with CoC standards, and provide at least one annual training for HMIS end users. HVS has also been selected as one of thirty CoC Lead Agency’s to receive HMIS Capacity Building Project funding to make improvements to the existing HMIS, to ensure high quality data, accurate and timely reporting, and ultimately the delivery of quality services to persons who are experiencing or at risk of homelessness.

Another mechanism by which HVS ensures the provision of quality services is through contract administration and monitoring. HVS staff execute written contracts with all sub-recipients. After execution, staff monitor all contracts on an ongoing basis to inspect, review and report on the agency’s compliance with the terms and conditions of the contract, to ensure satisfactory performance. Contracts for HUD-funded projects, including those funded with HUD Continuum of Care funds, are reviewed to ensure long-term compliance with program and comprehensive planning requirements. Monitoring is an ongoing process involving continuous communication and evaluation. The process involves frequent telephone/email contact, analysis of reports and audits, and periodic meetings. HVS contract staff keep fully informed concerning sub-recipient compliance with program requirements and the extent to which technical assistance is needed. As part of this process, staff are alert for fraud, waste, mismanagement or situations with potential for such abuse. Monitoring also provides opportunities to identify program participant accomplishments as well as successful techniques that might be replicated by other sub-recipients.

Finally, HVS ensures the delivery of quality services through the provision of rental, move-in cost, utility, transportation, and job placement assistance programs. HVS’ direct assistance programs are administered within the HVS Family Self Sufficiency program area. Between July 1, 2017 and June 30, 2018, the Family Self Sufficiency program area assisted more than 4,000 households through homelessness prevention, job training, rapid re-housing, and tenant based rental assistance programs. In addition, Lee County collaborates with partner agencies on

homeless issues and projects to benefit persons experiencing homelessness on a regular basis. Collaboration occurs through regular CoC and subcommittee meetings, which aim to identify and address the housing and service needs of Lee County's most vulnerable populations, and through funding initiatives such as those proposed in this application.

2. *Describe how the CoC monitors and provides follow-up services for individuals at-risk of or experiencing homelessness in your community.*

HVS actively monitors all sub-recipients to ensure quality service delivery and compliance. Sub-recipient monitoring includes review and validation of payment requests and supporting documentation, review of program and beneficiary reports, tracking of contract deliverables, and on-site monitoring and follow up visits as needed. HVS ensures that sub-recipients are completing adequate follow-ups with program beneficiaries, as required by the funding source, by reviewing contact logs present within each beneficiary file. This active monitoring process provides HVS with a complete picture of program operations, allowing HVS to work closely with sub-recipients to make program changes, improve follow-up, and reallocate funding when necessary.

HMIS staff regularly report on recidivism rates as part of HUD system performance measures and State funding reports. These reports require HMIS staff to review client records and monitor rates of returns to homelessness CoC-wide. In addition, HVS direct services staff are in the process of developing follow-up protocols for program beneficiaries through regular check-ins that occur at 6 months, 12 months, and 24 months after program exit. A mechanism for tracking this follow-up is being implemented into the HMIS and will allow case management staff to document housing status at each follow-up stage.

Specific to this application, both the Street Outreach Project and Secure Paths program serve as a point of entry into the homelessness response system. Street Outreach and Secure Paths staff will regularly engage and follow-up with individuals who are experiencing unsheltered homelessness. Upon entry into both programs, staff will work as quickly as possible to link individuals and families to housing and supportive services where case management staff can conduct regular visits and follow-ups upon program exit. The Housing Stabilization Program focuses solely in families who are at risk of homelessness, and will receive referrals through the CoC, HMIS, and directly from families seeking assistance. Upon program exit, LCHDC will conduct follow-up within 60 days to review housing status.

3. *Describe the ongoing technical assistance designed to improve service delivery provided by the CoC to homeless services providers in your community.*

Program specific technical assistance is provided to individual service providers through HVS contract staff. Through the active monitoring process, HVS contract staff are able to identify areas where additional technical assistance is needed. HMIS technical assistance is provided to service providers on an individual and group basis, annually and as needed. HMIS staff regularly review project data quality within the system, and are currently developing training protocols that will mandate re-training and technical assistance if an agencies data quality falls below a specific level. Finally, general technical assistance and training is regularly provided through the CoC. Such training is typically sponsored by HVS and the Homeless Coalition, and features guest trainers. The most recent broad training

event was Diversion training presented by the Florida Housing Coalition held in November 2018. The CoC also has plans to provide a System Design Clinic, and training regarding the Equal Access Final Rule in the near future. All individual and group technical assistance opportunities are intended to improve service delivery by providing the data and information necessary to make program design changes that will ultimately ensure that homelessness in Lee County is rare, brief, and experienced only one-time.

4. *Describe how the Lead Agency will provide additional support to low-performing projects and what steps the CoC will take if/when funds should be reallocated away from low-performing projects mid-grant cycle.*

As described above, technical assistance and support for low-performing projects is provided through HVS contract staff on a regular basis. Through the active monitoring process, HVS contract staff are able to identify areas where additional technical assistance is needed. In addition to the provision of support through contract staff, HVS recently began implementing project report cards for funded projects. These report cards review a variety of project performance data points that are used to make reallocation decisions. Report cards for CoC funded projects are currently being reviewed quarterly the Performance Evaluation and Ranking Committee, a sub-committee of the CoC Governing Board.

Committee meetings, at which project performance is evaluated, include a review of project report cards, and general discussion regarding project performance and spending. During discussion, Committee members may ask questions of representatives from funded agencies, Contract Managers, and/or HMIS staff regarding project performance. The Committee will use information reviewed and gathered during these meetings to make reallocation recommendations to the CoC Governing Board. HVS will be implementing these reports cards for all funded projects, including those funded through this application.

5. *Describe how the CoC will continue to provide quality services in the community in the case of reduced or loss of funding (i.e., reallocation of services based on CoC established priorities, how services would be scaled to meet changing needs, etc.).*

HVS Staff have been successful in securing funding from federal, state and local funders and collaborating with local non-profit providers to provide quality services in the CoC. If CoC priorities are shifted, agencies administering programs would be provide the opportunity to make programmatic changes that comply with new priorities. If programmatic changes were unable to be made, funded projects would be assisted to find alternative funding sources and/or services to assist clients being served by the lost project.

6. *Describe how the CoC and sub-recipients specifically identified in this application have worked to remove traditional barriers to housing and services for individuals in need of assistance.*

The CoC has implemented several practices to ensure that traditional barriers, such a criminal history and rental history, do not prevent program participants from receiving necessary housing and services. CoC providers, including Human and Veteran Services and Lee County Housing Development Corporation, have staff dedicated to developing relationships with landlords to ensure that a pool of units are available to individuals and families with criminal histories, histories of evictions, lease violations, and poor credit. In addition, both HVS and LCHDC, offer education to program participants regarding tenant

rights and responsibilities. HVS provides tenant workshops to individuals and families that receive a rental subsidy, to ensure that they are aware of the responsibilities that come with being a renter and the rights that they have by being a lease signer. LCHDC offers individualized rental housing counseling and fair housing education to all clients to assist in their journey to self-sufficiency.

Further, the CoC has implemented provisions with the CoC-wide Written Standards and Coordinated Entry Policies and Procedures to ensure that the Coordinated Entry process is not used to screen people out due to perceived barriers to housing or services, including, but not limited to:

- Too little or no income;
- Active or a history of substance abuse;
- Domestic violence history;
- Resistance to receiving services;
- The type or extent of disability-related services or supports that are needed;
- History of evictions, lease violation or lack of leaseholder history;
- Criminal records; or
- Poor credit.

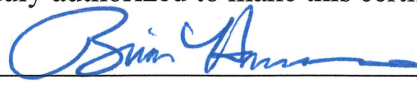

7. *Describe how the CoC will ensure that services are provided throughout the entirety of the CoC's geographic area.*

HVS ensures that services are provided throughout the entirety of the geographic area through the administration of annual provider surveys and service mapping. Service providers complete annual surveys indicating the services offered and location of their offices. A map of HMIS participating service providers was completed in 2017, indicating that most of the CoC's geographic area was within 5 miles of a service location. The recent addition of outreach staff, both at Lee Health, through their Community Care Outreach Team, and at Lee County Human and Veteran Services, through the Street Outreach Project, has increased the availability of services to more remote areas of the county. A newly funded Mobile Crisis Unit, new PATH funded service provider, and more collaboration among CoC providers has further expanded the service availability. These programs provide essential services to the most remote parts of the county, such as East Lehigh Acres, South Bonita Springs, Fort Myers Beach, and Pine Island.

The projects proposed in this application will further assist in the expansion of services throughout the CoC's geographic area. As mentioned in the project information, LCHDC will be conducting weekly on-site intakes at Lehigh Community Services, located in central Lehigh Acres. Additionally, the Street Outreach Project and Secure Paths program will be locating clients and host locations throughout the CoC's geographic area.
