PUBLIC WORKSHOP #1
AND
BONITA SPRINGS PUBLIC HEARING
PUBLIC COMMENT SUMMARY**

Public Workshop #1 Summary

A public information workshop was held on April 10, 2002 for the Three Oaks Parkway Southerly Alignment Alternatives Study. The purpose of the meeting was to present the alternatives to the public, answer questions regarding the project and collect public input. The workshop was held from 5:00 pm to 6:30 pm at the Bonita Springs Community Center.

The public was given the opportunity to view graphical displays of the project that included the alignments and alternatives and the results of the comparative analysis that was the basis for the Consultants determination of a preferred alignment.

A total of 223 people signed in for the workshop. Copies of the sign-in-sheets are provided in Attachment 1. Participants were given comment sheets and asked to return these by the end of the meeting. The purpose for this was to give the consultants the opportunity to analyze the comments and present them to the City of Bonita Springs City Council during the public hearing that followed the workshop. A total of 64 comments were collected. A summary of the comments is attached. Copies of the comment forms are provided in Attachment 2.
