Studies on file: Field observations made on January 18, 2018. Joan Avenue N. was re-surfaced several years ago and no roadway swales are present at either location. The side streets all dead-end at canals east and west of Joan Avenue N. with sparse development in the area. Based on the street network, the "Manual on Uniform Traffic Control Devices" indicates that the minor street approaches should stop. Drivers will find the recommended changes to be both reasonable and consistent with the traffic patterns in the neighborhood.
