SCOPE OF PROFESSIONAL SERVICES

for North Lee County Water Treatment Facilities - Phase 3

SECTION 1.00 SUPPLEMENT(S) TO, OR CHANGE(S) TO PROFESSIONAL SERVICES

The "Scope of Professional Services" as set forth in Exhibit "A" of the Professional Services Agreement, or Service Provider Agreement, referred to hereinbefore is hereby supplemented, or changed, so that the CONSULTANT, or SERVICE PROVIDER, shall provide and perform the following professional services, tasks, or work as a supplement to, or change to, the scope of services previously agreed to and authorized:

Engineering Services During Construction for North Lee Water Treatment Plant

This project amendment consists of work that is necessary to provide limited services during construction for the North Lee County Water Treatment Plant. The Consultant's period of service is based on a construction period of 24 months. Extension of the construction period beyond the 24-month time period will be the basis of a change to the Consultant's contract.

Consultant's Engineering Services and Contract Administration

- A. Attend the Pre-construction Conference and Teaming Workshop. Consultant will attend and participate at each of these meetings, however, meeting preparation and documentation shall be provided by Owner.
- B. Issue interpretations and clarifications of Contract Documents during construction, prepare Request for Information (RFI) responses including correspondence, maintenance of tracking log and performing drawing revisions when applicable. Requests for substitutions or deviations from the Contract Documents will be evaluated only if submitted by the Owner. Performance of this task is based on a maximum of 400 submittals (inclusive of 100 RFIs that have already been submitted). The submittals for this scope section are limited to RFIs (initiated by Construction Manager), Contract Drawing Clarification's (initiated by Engineer or inspection staff), substitution requests, non-compliance evaluations, repair procedures, and corrective action plans for delayed or improper work.
- C. Review shop drawings, diagrams, illustrations, catalog data, schedules and samples, the results of laboratory tests and inspections, and other data which

Construction Manager is required to submit for conformance with the design concept of the Project and compliance with the provisions of the Contract Documents. Consultant's Scope of Services is based on a total of 440 shop drawing submittals, including 100 anticipated re-submittals. No third submittals are included in this scope. Consultant will receive shop-drawing submittals via US mail or courier in Consultant's Cape Coral office.

- D. Participate in performing one final inspection in conjunction with the Owner, and assist the Owner in closing out the construction contract, including providing a recommendation concerning acceptance of the Project.
- E. The Construction Manager will perform the task of preparing Record Drawings.
- F. The Consultant shall prepare and submit to the Owner upon completion of construction of the Project a final report not to exceed ten pages, noting variations from the construction Contract Documents, including brief descriptions of the reasons for the variations. Copies of the construction Record Drawings will be provided to Consultant to assist this procedure. In order to estimate the level of effort for this task, Consultant has assumed there will be no major departures from current process design initiated by the Owner, the Construction Manager, or Consultant and departures from existing design will not exceed six mechanical issues, requiring explanation. Provide Project Certification and Construction Close Out Documents to Regulatory Agencies.

On Site Attendance

The Owner will provide a Construction Manager and a full-time on-site Supervisor whose responsibilities will include the day to day inspection of the Construction Manager's work. The Consultant will provide services equivalent to 1-½ days per week to verify installation of treatment process, electrical, and instrumentation work during various times during the anticipated 24-month construction period. Consultant's time will be allocated, within reason, as follows: ½ day site construction progress review, a ½ day weekly construction progress meeting, and a ½ day for a brief memo documentation of site visit.

Start-up and Training

The Consultant will provide assistance during startup and initial operations and will coordinate and oversee training sessions for operational staff. Training is limited to a total of 400 hours of Consultant input (including travel time).

Responsibilities of the Owner's Supervisor

The following identifies some of the duties to be performed by the Owner's Supervisor as they relate to work to be performed by the Consultant.

- A. Prepare agenda, attend pre-construction and construction meetings, develop and distribute meeting minutes to attendees.
- B. Provide full-time observation of construction. Take photographs of construction activities to document field conditions and maintain a log of photographs. Prepare daily/weekly reports of construction progress; prepare monthly progress report for administration, including progress, schedule, financial tracking analysis.

- C. Confirm quantities of stored materials and percentage complete as they appear on each draft Pay Request. The Owner's Supervisor will review and process the Construction Manager's estimated completion of individual quantities on the Pay Request.
- D. In the event that there is a claim as to changed conditions by the Construction Manager, notify the Owner. Maintain a log of any modifications made during construction that are done to accommodate changed conditions.
- E. Promptly notify the Consultant of any concerns regarding defects or deficiencies noted in the work being performed by the Construction Manager. This notice will be provided by completing a suitable form and providing it to the Consultant.
- F. The Owner's Supervisor will review each request for a change order and will prepare a brief summary of the conditions, as he is aware of them that may necessitate such a change. The Owner will review the analysis of cost for each proposed change in the scope of work.
- G. The Owner's Supervisor will have responsibility for the draft and final punch lists. The Supervisor will prepare a draft punch list of items concerning project completion. The Supervisor will submit this list to the Consultant and will conduct a field review of this draft punch list with the Consultant. The Supervisor will incorporate the items from the draft punch list along with items identified by the Consultant into a punch list for distribution to the Construction Manager. The Supervisor will initial this punch list following his review prior to distribution to the Construction Manager. The Consultant will assist the Supervisor in preparation of construction closeout documents.
- H. The Owner shall have the responsibility of producing the record drawings.
- G. The Owner's Supervisor shall have the responsibility for correspondence required for regulatory approval for final Certification of Construction Completion relating to bacteriological testing and interpretation of test results.
- H. The Owner shall have the responsibility of factory witness testing, factory test reports, manufacturer certification review, batch plant inspection, alternate construction or expansion joint placement review, review of placement techniques (such as concrete pumping), change order review of validity and pricing, claims analysis, shop drawing submittal log, and schedule review and analysis.
