

**Lee County Board of County Commissioners
Agenda Item Summary**

Blue Sheet No. 20061669-UTL

1. Action Requested/Purpose:

Authorize Chair on behalf of the BOCC to approve the Alliance Data Systems (f/k/a Orcom Solutions, Inc.) Change Order No. 19 in the amount of \$105,446 for Contract No. 732, which will provide annual software support in calendar year 2007 for the Utilities Billing System, Enterprise Customer Information System (E-CIS.)

2. What Action Accomplishes:

Provides for e-Support communications to allow Lee County Utilities (LCU) users to report support needs via the internet and monitor progress of the issues reported. Provides for Alliance staff to sign onto system directly via the internet to resolve problems or conditions. Provides telephone support for procedural questions; corrections and modifications to the software and minor improvements to existing features of the software; and, Help Desk Support 24 hours per day. Provides Lee County Utilities Customer Service users with 24 hours per day Utility Billing software support, corrections and modifications for calendar year 2007. Covers all data environments on the LCU AS400, LCU customer accounts and test and training environments.

3. Management Recommendation:

Approval.

4. Departmental Category: 10 – Utilities **C10U** **5. Meeting Date: 01-09-2007**

9. Background:

On January 26, 1999, the Board approved proceeding with development of contracts with Alliance Data formerly Orcom Solutions, Inc. for the purpose of replacing Lee County Utilities' existing customer billing system, which was not Y2K compliant. Among the various agreements approved by the Board was the Software Support Agreement for annual support. This agreement will provide support for calendar year 2007. The cost of this support is \$105,446.

On March 9, 1999, the Board approved the Annual Software Support Agreement, (in addition to the Service Agreement, End-User Software License Agreement, and the Hardware Supply Agreement). Former Gulf Environmental Services database was converted into the Lee County Utilities database in July 2003.

Alliance Data Systems is the sole software provider supporting the ECIS billing system. The original Software Support Agreement provided service to approximately 32,000 customer accounts in the original LCU service area and 16 customer service/billing users. With the successful data conversions during 2000, the following were added to the ECIS billing system: Gulf Environmental Services, Inc. (April 2000, approximately 9,000 customer accounts), former Florida Cities Water Company (December 2000, approximately 18,000 customer accounts) and Fort Myers Beach (December 2000, approximately 3,000 customer accounts).

Fort Myers Beach customer information has been shared with Fort Myers Beach Public Water Services. Customer records remain on the billing system to meet State of Florida Electronic Records requirements. Fort Myers Beach customer information is also used to provide information for users auditing Fort Myers Beach Public Water Services sewer billing for Lee County Utilities. Users now total approximately 35.

The current software version is level 7.4. System enhancements are being developed/tested and will be adopted when available. Currently Lee County Utilities has approximately 79,000 active accounts, including the following types of services: water only, sewer only, water and sewer, reuse water, fire line billings, temporary construction meters and other specialized billings for Utilities.

Funds are available in Account No.

Dear Carolyn:

This letter is to inform you of there will be no change in Alliance Data's support fee for 2007. Beginning in January, the annual fee will remain the same as 2006 at \$105,446. The first quarterly invoice for these services will be sent to you in December.

Alliance Data continues to provide services to ensure your satisfaction with the support we provide to you and your staff. Those services include:

- A National Account Manager that supports a small group of both licensed and outsource clients. Supporting both types of clients promotes the sharing of process and product information across clients.
- A Technical Account Manager that is responsible for ensuring your Support Incidents are addressed in a timely manner.
- CIS Operations, with more than 60 analysts and programmers, to serve your support needs.
- A Client Professional Services department devoted to custom development and services.
- Quality Assurance department focused on improving processes throughout the organization.
- Client Web Portal, which provides Custom Project and Support Incident tracking, updated technical information, user documents and training information.
- Continued focus on E-CIS with continuing improvements, upgrades and releases.
- Continuing availability of E-CIS add-on products, including On-Line Customer Care for customer self-service, and process improvement products such as Process Notification.

Alliance Data continues to value you as a business partner. We look forward to continuing to serve Lee County Utilities information technology needs. Our personnel are available to work with you to support your current and future business needs.

Please contact me directly at 308-220-5260, if you wish to discuss any aspects of your current or future support needs.

Sincerely,

A handwritten signature in cursive script that reads "Roger Garwood".

Roger Garwood
National Account Manager
