

Southern Lee County Flood Protection Plan (SLCFPP)

Agency Meeting: Lehigh Acres Municipal Services Improvement District (LA-MSID)

Date: 11/19/18 Time: 10:00 – 11:00 a.m. (10:20 – 11:45)

Meeting Location: LA-MSID Offices

Agenda

- I. Introductions
Steve Neff/AIM introduced AIM and County team.
- II. Brief Summary Overview of Project Scope
Steve Neff/AIM provided overview of this project as a flood reduction project. Also, mentioned build out model and allowable discharge.
- III. AIM's Initial Thoughts on Potential Project Approaches
Steve Neff reviewed basic ideas of conveyance and storage.
- IV. LA-MSID Latest Relevant Studies and Documents
Mike Cook/LA-MSID discussed southwest weirs – he will provide as-builts. Mike Cook reviewed Harns Marsh project. Mike Cook reviewed Post Irma flooding specifics.
- V. Completed Projects Since Later Studies
Mike Cook mentioned Mirror Lakes Phase 1 having been constructed, and Phase 2 is now underway. Also mentioned new S-H-2 being constructed, and West Marsh also being constructed. Discussed potential Dog to Hendry connection/storage project. Discussed Section 10 property/project. LA-MSID is pursuing state legislature assistance for design funding of Dog to Hendry and Section 10 improvements. Discussed need for MOU between County and LA-MSID for Section 10. LA-MSID has some photos and videos available for Post Irma. Discussed potential Moving Water South Phase 3. Discussed Carter Slough potential project including moving water through River Hall.
- VI. LA-MSID Best Available Data (rainfall, surface water levels, groundwater levels)
Tim Browning/LA-MSID stated he has now provided requested data to Stephanie Long/ADA relative to rainfall, stage, and weir operation.
- VII. LA-MSID Identified Issues/Concerns, and Desired Outcomes
See above for projects that were discussed. The potential connection from Bedman Creek to Carlos Waterway across an undeveloped piece of property was also mentioned by LA-MSID and AIM staff.

VIII. Discussion of Other Pertinent Items

LA-MSID and County staff thought the red line eastern boundary at Hendry Canal eastern side was appropriate. Flow south from Nine Mile Run into Lehigh at Buckingham Road was mentioned by LA-MSID staff; also water flowing from west into Alvin Ave. area (LA-MSID indicated that Alvin was under way for approximately 3 or 4 days).

IX. Summary

AIM indicated that next formal opportunity to discuss this project will be at 12/3/18 Progress meeting.
