

If you are using Internet Explorer 11 for your browser, you need to add the webcam IP address into your compatibility view setting.

To do this, click on the link to view the webcam.

<http://67.76.127.7/cgi-bin/guestimage.html>

The screenshot shows a web browser window displaying the Lee County Southwest Florida website. The browser's address bar shows the URL `logical-monitoring/popash-creek-webcam`. The website header features the Lee County logo and a navigation menu with items like HOME, ABOUT US, RESIDENTS, VISITORS, BUSINESS, DEPARTMENTS, GOVERNMENT, and I WANT TO... A search bar and a 'Select Language' dropdown are also visible. The main content area is titled 'Popash Creek Webcam' and includes a breadcrumb trail: Home > Natural Resources > Hydrological Monitoring > Popash Creek Webcam. Below the title is a button labeled 'View Popash Creek Live Webcam'. A placeholder image for the webcam feed is shown with the text 'Screenshot from Webcam. This picture is NOT live.' The left sidebar contains a 'Natural Resources' menu with various sub-items such as 'About Natural Resources', 'Clean Water Act - NPDES Stormwater', 'Environmental Lab', 'Groundwater & Well Construction', 'Hydrological Monitoring', 'Rainfall', 'Monitor Wells', 'Stage Recorders', 'Filter Marsh Monitoring', 'Popash Creek Webcam', 'Related Links', 'Marine', 'Pollutant Storage Tanks', 'Pollution Prevention', 'Surface Water', 'Water Quality', 'Outdoor Activities', 'Home and Yard Care', 'Report Pollution', 'Make a Payment', and 'NW Spreader Study'.

You will come to this page. On the menu bar near the top of the browser click the tools button and then go down to the compatibility view setting and click it.

This will open the compatibility view settings. It will have the webcam IP address "67.76.127.7" for you to add. Just click on the add button.

This will add the IP address into the Compatibility view.

Click close and you're done. You should only have to do this once unless you remove the address. If you don't see the webcam, refresh your browser.
