

## What Makes our building “green”?

This self-guided tour takes you around our building and highlights the “Green” aspects of each spot.

## 5 Major Green Building Categories in LEED Rating System

- Sustainable Site
- Water Efficiency
- Energy and Atmosphere
- Materials and Resources
- Indoor Environmental Quality

To learn more about LEED (Leadership in Energy and Environmental Design) please visit the USGBC’s (U.S. Green Building Council) website at [www.usgbc.org](http://www.usgbc.org).
