Low Response Score

0 - 10%

11 - 16%

17 - 22%

23 - 28%

29 - 35%

The Census Low Response Score (LRS) is a continuous score that predicts whether a tract will produce a low mail return rate. The score for a tract is inversely related to the mail return rate from the 2010 Census for that tract. Therefore, tracts with a lower LRS are more likely to mail returns than those with a higher LRS.
