Purchaser agrees to defend, indemnify and hold Petroleum Traders Corp. harmless as to and from all claims, demands, suits, causes of action costs and expenses asserted against Petroleum Traders Corp. arising in whole or in part out of the negligence, reckless or willful misconduct of Purchaser or its agents. If it shall appear that the claims shall have arisen out of the joint, concurrent or consecutive fault of both Purchaser and Petroleum Traders Corp., then until otherwise established by agreement or by judicial decision, the allocation of fault for purposes of these indemnity provisions shall be 50/50. These indemnity provisions apply only to claims, demands and causes of action sounding in tort, and do not apply to claims, demands and causes of action governed by the Uniform Commercial Code. As to any claim for which Petroleum Traders Corp. accepts the responsibility for indemnity, Petroleum Traders Corp. shall be solely responsible for the conduct of that defense, including all litigation decisions. As to any claim for which Purchaser accepts the responsibility for indemnity, Purchaser shall be solely responsible for the conduct of that defense, including all litigation decisions.</p>
Answer	No.
16.	For page 16, item 2.1.2... Diesel fuel. Will you accept up to 5% bio diesel in your diesel fuel?
Answer	No.
17.	For page 16, item 2.1.6... Certificates of Analysis. How often have you had need to request a CoA? Is it done regularly, or only if issues arise?
Answer	This is only upon request. This would only be needed as an issue arises and upon request.

18.	For page 17, item 4.2... Optional metering arrangements. Will a metered bill of lading be acceptable in place of the metered truck requirement?
Answer	Meter reading is not optional, it's required. The intent is to have the fuel verified at each location as specified in the Detailed Specifications, as some locations have stick readings and some have electronic reading opportunities and to ensure that the driver has the correct amount of space left in the tanks to not overfill them.
19.	On page 17, section 4.3... Stick readings twice per week. Are deliveries done frequently enough to be on site twice per week? How is this currently being handled?
Answer	See Answer 10 above and revised section 4.3.
20.	On page 19, item 11.0... Estimated Consumption. It states estimated gallons used by Lee County Fleet and additional estimated gallons by other departments. Page 17 item 4.2 indicated all Fleet delivery sites in attachment A included the prefix of "CNTY". Please verify if the estimated Fleet gallons were used by the ten (10) CNTY sites listed, and the additional gallons were used by the remaining four (4) sites plus Generator locations. Or is the Fleet estimates for the Fleet Management site (Van Buren St) only?
Answer	Please see Addendum 1 for invoices for consumption info. Additional consumption from 11.0 is referring to Solid Waste, Lee Tran and any generator fuel consumed.
21.	Page 20, item 13.3... Base Price. The bid requests the base price to be from the date of the bid opening. OPIS reports are not published until the following day, so bidders will not have that information. We suggest using a tie to date of July 11, 2018 or earlier to allow bidders to enter the pricing with time to ensure delivery by the due date.
Answer	See Answer 1.
22.	Page 38, Category B Proposal form... Additional Information. The form states to include this page if providing a bid for Category B. Should this page be included anyway if not bidding for Tank Wagon due to the Additional Information portion?
Answer	No the additional info required for Category B is only for Category B.
23.	Page 49, Signatory Authorization Affidavit. We are a Corporation, but the President is out of the office traveling through July. Can we have the Vice President and/or CEO sign in his place?
Answer	No. Only the President can sign the Signatory Authorization Affidavit for a Corporation which authorizes the other personnel listed in the boxes on the form to sign future contract/amendments, etc.
24.	Per review of invoices provided through Addendum #1, it looks like you have been doing gas and diesel split loads to some sites. Do you anticipate continuing to do this?
Answer	This fuel bid is based on our needs. The County will continue to purchase fuel based on our needs which may include split loads at times.
25.	Additionally, our tax department wanted to make sure you were aware of the following. Regarding dyed diesel fuel being used 'on road'... If you are using the dyed on road, we will not be charging you the on road taxes, but you must be registered with the state to remit the FL state taxes to the state directly for any fuel used on road that is dyed.
Answer	We have registered with the State to use the dyed diesel on the road accordingly.

Solicitation Name: Fuel Annual Purchase

Subject: Addendum Number 3

The following represents clarification, additions, deletions, and/or modifications to the above referenced bid. This addendum shall hereafter be regarded as part of the solicitation. Items not referenced herein remain unchanged, including the response date. Words, phrases or sentences with a strikethrough represent deletions to the original solicitation. Underlined words and bolded, phrases or sentences represent additions to the original solicitation.

1.	<p>a. From Addendum 2, Question 18. Metering. We understand metered readings and/or stick readings are to be taken both before and after delivery to ensure no overflow. The question was to determine; does the truck has to have a meter on it?</p> <p>Note: As most delivery trucks we utilize do not have 'metered' pumps on them, our normal procedure is to have the truck loaded at the terminal via certified meters to get the metered Bill of Lading. The truck is then sealed and sent to the destination. Once there, the driver will verify what is in the customer's tanks via stick readings to ensure that what was loaded will fit. After confirming fuel will fit, they unload the fuel that was metered into the truck.</p> <p>b. Would this procedure be acceptable?</p> <p>c. Is the bid still due on 7/16/18 by 2:30 pm?</p>
Answer	<p>a. They don't have to have a meter but do have to have a stick on the truck.</p> <p>b. Yes.</p> <p>c. Yes.</p>

BIDDER/PROPOSER IS ADVISED, YOU ARE REQUIRED TO ACKNOWLEDGE RECEIPT OF THIS ADDENDUM WHEN SUBMITTING A BID/PROPOSAL. FAILURE TO COMPLY WITH THIS REQUIREMENT MAY RESULT IN THE BIDDER/PROPOSER BEING CONSIDERED NON-RESPONSIVE.
