Multifamily Dwelling Units suitable for and electing multifamily Can Collection service shall be provided such service by the Contractor, in accordance with Section 5.A.2. This service shall require approval by the Contract Administrator.

If the customer has a small amount of commingled residential Solid Waste and Vegetative Waste on a garbage Collection day, the Contractor shall collect all of the material with the Solid Waste. However, if there is a substantial amount of Vegetative Waste commingled with the Solid Waste, the Contractor shall not collect the materials and shall leave a short written notice explaining why the materials were not collected that day. If the customer has placed different materials separately at the curb (e.g., Solid Waste and Vegetative Waste), the Contractor shall collect the appropriate material for that day.

Construction and Demolition Debris (C&D) resulting from minor home

maintenance and repair will be collected at the curb. Collection of C&D shall be limited to no more than 2 cubic yards per Collection per Dwelling Unit provided such C&D is generated from home maintenance or repair projects that do not require a building permit. The C & D material must have been generated from the Dwelling Unit from which it is collected and be placed neatly at the curb in manageable pieces. Small pieces such as tile or roofing material shall be containerized, weighing not more than 50 pounds per container.

The Collection of Solid Waste and Vegetative Waste may be provided on separate days. The Recyclables Collection must be provided on the same day as the Vegetative Waste Collection for approximately 80% of the Curbside Residential Collection Service customers.

2. **Containers.** Cans shall normally be furnished by the residents receiving Curbside Residential Collection Service.

If the Contractor chooses to use automated residential Collection vehicles requiring special containers, the Contractor shall supply any such Containers as approved by the Contract Administrator (or designee) to each Dwelling Unit at no extra charge. The use of an automated residential Collection system shall be approved by the Contract Administrator prior to implementation. Any and all such containers purchased and provided by the Contractor for an automated/semi-automated curbside residential collection system shall become the property of the County on the date such containers are placed into service. Customers currently receiving automated curbside residential collection will continue receiving either automated or semi-automated service. The Contractor shall be responsible for maintenance and repair/replacement of all such existing containers and shall furnish similar new containers to all new residential units within these collection route areas. Reasonable changes in container size will be allowed if requested by customer. Approximately 12,000 containers for automated curbside residential collection existing in Franchise Area #2 at the Start of Service are owned by Lee County and the Contractor shall provide automatic collection service for these units. Any Garbage item that can be collected in a standard rear-end load compactor truck must be collected on the scheduled garbage collection day.

B. Curbside Residential Recycling Collection Services

1. **General Conditions and Frequency of Service.** The Contractor shall provide Residential Recycling Collection Service to all dwelling units receiving Curbside Residential Collection Service (including suitable multi-family residential units electing such service). This service shall be provided once every week and no less than every seven (7) days, on a scheduled route

basis, as approved by the Contract Administrator (or designee). The Recyclables Collection must be provided on the same day as either the Solid Waste or the Vegetative Waste Collection in accordance to Section 4.A.1.

The Contractor shall collect Recyclables from the Recycling Container, replace the Recycling Container at the same location and place any apparent non-recyclables back in the customer's Recycling Container along with a short written notice explaining why the non-recyclables were not collected. Bags containing household batteries shall be kept separately from Recyclable Material.

At the Start of Service Date the Contractor shall provide automated or semi-automated Recycling collection service for approximately 6,000 homes currently receiving such curbside recycling service, utilizing County owned 65 gallon dual compartment recycling containers. Locations of such collection routes in each franchise service area will be provided to Contractor by the County for routing purposes. These existing containers shall be maintained, repaired, and replaced by the Contractor as necessary. Replaced and/or new containers supplied by the Contractor to existing or newly constructed residential units within these collection areas shall be blue, clearly labeled to distinguish acceptable recyclable materials, and have an embossed label stating "Property of Lee County", all as approved by the Contract Administrator. All new containers provided by the Contractor shall become the property of the County on the date that such containers are placed into service.

2. **Recycling Containers and Educational Material.** Recycling Containers and educational materials, i.e. magnets, brochures, etc. will be provided by the Department. The Department will supply the Contractor with a Certificate of Occupancy list monthly of new residents. A copy of this list shall be returned to the County within 15 days of receipt verifying that recycle bins were delivered to the new residents. The Containers and educational material will be supplied to the Contractor for distribution to new residents and to replace the original ones that were stolen, lost or damaged by the occupant of a Dwelling Unit. The Contractor shall promptly deliver (within one week or seven (7) days) replacement Recycling Containers, damaged by its employees, or when notified by the Department, or the occupant of a Dwelling Unit where a Recycling Container is stolen, damaged or missing; informational literature will be delivered with each bin . Contractor shall return damaged recycling containers to the Lee County Materials Recycling Facility. Recycling Containers shall be distributed to customers using plastic bags or unsuitable containers for Recycling. The title to Recycling Containers shall be vested with Lee County.

Note: Refer to Exhibit X for additional service requirements that apply

for Service Areas where 65-Gallon recycling wheeled carts are used throughout the area.

Customers may use their own or additional Recycling Containers as long as they are similar and suitable for the service (e.g., cardboard boxes, kraft bags). If a cardboard box is used, the Contractor shall also collect the box. Plastic bags are discouraged through public education by the Contractor leaving and providing written notice to the resident, and by the Contractor distributing proper Recycling Containers.

3. **Reports.** The Contractor shall provide digital monthly reports to the Department on Recycling to include tons collected and number of units per route per day. This report shall include Multi-Family Can Service customers. Reports shall be due on the 15th day following the reporting period. The Department will provide the format for the reports.
4. **Change in Scope of Residential Recycling Collection Service.** From time to time, and at the sole option of the Department, it may be necessary to modify the type of Recyclable Materials that will be included in the Recycling Collection service. The Contractor shall collect additional types of Recyclable items, which are not included as Recyclables on the Contract Date, provided that major modifications are not required to the Recycling Collection vehicles. If major modifications are required to the Contractor's Collection vehicles, the Department and the Contractor agree to enter into good faith negotiations to amend this Agreement to reflect the financial impact of any such modifications. The Contractor shall not be allowed to make a claim to the County for additional Collection vehicles or personnel due to the addition of any Recyclable Material under this paragraph.
5. **Materials Recycling Facility.** The Contractor shall deliver all Recyclable Materials collected from the Curbside Residential Collection Service area to the Lee County Materials Recycling Facility or the facility designated, in writing, by the Contract Administrator. In the event that a load of Recyclable Materials delivered to the Materials Recycling Facility contains more than the acceptable amount of non-recyclables (residue), as decided by the Materials Recycling Facility (MRF) Operator and the Department, the MRF Operator or the Department has the right to reject the load or to charge the hauling Contractor the full disposal fee for each ton within the load or charge additional processing fees to make portions of the load acceptable to meet the established standards.

C. Curbside Residential Electronic Devices Collection Service

1. **General Conditions and Frequency of Service.** The Contractor shall provide curbside residential Electronic Devices Collection Service for all

dwelling units receiving Curbside Residential Collection Service at no additional cost than what is shown in Exhibit II. This service shall be provided on the day following solid waste collection. Whenever possible, notification of Electronic Devices Collection must be made 48 (forty-eight) hours prior to the regular collection day by the customer or the County. Contractor personnel shall note and place a Department approved tag/sticker on all Electronic Devices stating at a minimum for the customer to leave it at the curb and it will be collected the next day. The Contractor may receive an annual adjustment in the Curbside Residential Solid Waste Collection Service, Commercial Recycling Collection Service, Commercial Solid Waste Collection Service and Curbside Residential Recycling Collection Service rates, beginning 12 months after the Start Of Service Date.

The Contractor may request a rate increase from the County equal to the change in certain indices, compared to the previous 12 months as shown below, or another amount. Any request for a rate adjustment by the Contractor shall include substantial proof and justification, as determined by the Department, to support the need for a rate adjustment. Additional information may be required by the Department.

Standard Rate Adjustment Methodology:

For the first potential adjustment period:

$$AF = 0.875 \times \frac{CPI\ New}{CPI\ Old} + 0.125 \times \frac{FI\ New}{FI\ Old}$$

Where, AF is the Adjustment Factor, CPI New is the average of the 12 monthly CPI indices (months March 2010 through February 2011), CPI Old is the CPI index for January 2010, FI New is the average of the 12 monthly FI indices (months March 2010 through February 2011), FI Old is the FI index for January 2010.

Where AF is the Adjustment Factor, CPI New is the average of the 12 monthly CPI indices (months March through February recent year), CPI Old is the average of the 12 monthly CPI indices (months March through February, previous annual period), FI New is the average of the 12 monthly FI indices (months March through February most recent year), FI Old is the average of the 12 monthly FI indices (months March through February, previous annual period).

CPI is the Consumer Price Index Urban Wage Earners and Clerical Workers (Series ID CWUR0300SAO, Area: South Urban, Item: All Items) as published by the US Department of Labor.

The County will normally provide a notice of approval or denial of all or part of the requested rate adjustment before August. No change in rates or the Payment Schedule shall be made without the approval of the County Board of Commissioners. Annual rate adjustments shall be effective the following October 1, unless otherwise mutually determined by the County and the Contractor.

B. County's Obligation - Billing, Collection, Payments:

1. The County will be responsible for the billing and Collection of payments for those units included in the County's mandatory Curbside Residential Solid Waste, Recycling, and Vegetative Waste Collection programs. The County shall make monthly payments in arrears to the Contractor for these Services provided pursuant to this Agreement. The Contractor shall submit its invoice for Residential Solid Waste and Recycling Collection Services to the County for each preceding calendar month no later than the tenth (10th) day of each calendar month. Each element necessary to calculate the service fee and any other payment due to the Contractor pursuant to this Agreement shall be reflected in such invoice. The County shall pay the Contractor all undisputed service fees and any other undisputed payment within thirty (30) days of receipt of such invoice. The Contractor shall be entitled to payment for services rendered irrespective of whether or not the County collects from customers for such service.

On or before October 1, and before commencement of work by the Contractor under the terms of this Agreement, the County shall provide to the Contractor the estimated total number of units to be serviced. Thereafter and for the duration of this Agreement, the County shall notify the Contractor of new

residential units to be served and/or deleted and payments will be adjusted accordingly. New Dwelling Units which are added for service during the County's Fiscal Year will be added to the customer service list and payment will be paid by the County to the Contractor in the Contractor's monthly payment. Payment will begin for the month following the month in which the Certificate of Occupancy was issued, or verification of the beginning of actual service, whichever is later. The payments from the County to the Contractor for units added by Certificate of Occupancy will only be made if the Dwelling Units are included in the Contractor's monthly invoice to the County. After the first partial year, the Dwelling Unit becomes part of the total number of the subsequent year's total number of units, provided annually to the Contractor on or before October 1.

2. In the event the Contractor provides service to Dwelling Units whose parcels were not included on the annual assessment roll provided by the County, the Contractor must provide a written list of such Dwelling Units to the Contract Administrator within 90 days receipt of the assessment roll. Upon receipt of such written list by the County, the Contract Administrator will verify the customer address and that service to the unit is proper within 30 days, and if proper, shall remit monthly payments to the Contractor for such service effective as of the month following the Contractor's notice, or the date service began, whichever is later. If the County has not received notification within 90 days by the Contractor, no adjustments to payment will be made until the next Fiscal Year annual roll is certified for the same units. However, the County reserves the right to correct any errors of omission or commission per the laws and rules that govern the County. In the event the County pays the Contractor for a residential unit in error for whatever reason, the Contractor shall notify the Contract Administrator. Upon determination of any overpayment, the Contract Administrator will verify the error and make appropriate adjustment to the Contractor's payment to correct the error.

In the event that a new County Designed Facility opens within the Service Area during the term of this Agreement, negotiations will occur to reduce the rates, Exhibit II, to reflect the reduction in hauling distances due to the additional Facility(ies).

- C. **Solid Waste Disposal Costs:** Collection service costs and Solid Waste disposal costs shall be treated separate for the Solid Waste Collection services being provided pursuant to this Agreement. The Contractor's payments for Collection are set out in Exhibit II. Residential disposal costs will be part of the special assessment billed on the Lee County Tax Bill by the Tax Collector's Office, except as otherwise provided in this Agreement. Commercial Disposal Costs will be added to commercial Collection costs billed by the Contractor and paid by the commercial Customer as a "pass-through" to the County. The Contractor shall pay the Department for all commercial Solid Waste disposal costs incurred at the

- D. Extraordinary Rate Adjustment:** The Contractor may petition the County at any time for an additional rate adjustment on the basis of extraordinary or unusual changes in the cost of operations that could not reasonably be foreseen by a prudent operator such as could result from a change in law. The Contractor's request shall contain substantial evidence and justification, as determined by the Contract Administrator, to support the need for the rate adjustment. The County may request from the Contractor, and the Contractor shall provide, all information as may be reasonably necessary in making its determination. The County Board may approve or deny the request, in whole or in part, after receipt of the request and all supporting information required by the County.
- E. Franchise Fee:** To compensate the County for the cost of administration, supervision and inspection rendered for the effective performance of this Agreement, as well as other costs related to the Collection of Solid Waste and Recycling, the Contractor shall pay to the County a fee of five and one-half percent (5.5%) of the total of all charges invoiced, whether collected or not, arising out of any services or operations conducted in the Service Area pursuant to this Agreement except charges for Commercial Disposal Cost, and Advance Disposal Fees as defined by County Ordinance 07-25.
