Notes and Exclusions

1. All prices quoted above are standard base genset models with radiator. Additional options available to meet AHJ or regional specifications.
2. All KW ratings indicated in price sheet are standby ratings.
3. Additional factory options are extra and available with each model to meet local specifications. All options to follow published discount structure.
4. Startup will be priced separately based on location and project specific requirements.
5. Any initial onsite emission testing that may be needed is not included in the above pricing.
6. Freight is FOB jobsite, freight allowed.
7. Cummins is committed to updating and introducing new models. Contact your National Account Executive for your power needs.
8. All products have been quoted at standard industry voltages (120V/240V single phase; 208V/ 120V - 3 phase; 480V/ 277V – 3phase) depending on unit size. Additional voltages up to 13.8KV are available.
9. For Canadian customers - Please note published prices are listed in US dollars in Attachment D and E. Please refer to Bank of Canada posted daily rates to calculate exchange rate to Canadian Dollar prices.
