- 22.1. **Ranking Method:** Lee County uses the Dense Ranking (1223” ranking). In Dense Ranking, items that compare equal, receive the same ranking number, and the next item(s) receive the immediately following ranking number. This ranking method is used for each individual committee member’s scores. Thus if A ranks ahead of B and C (which compare equal) which are both ranked ahead of D, then A is ranked number 1 (“first”), B is ranked number 2 (“joint second”), C is also ranked number 2 (“joint second”) and D is ranked number 3 (“third”).
 - 22.1.1. Each Ranking is derived by the individual committee member’s scores being totaled and then ranked with the highest “score” being “ranked” first with each following in the same manner. For example:

a score of 100 would rank 1, a score of 75 would rank 2, and continue until all proposals have been ranked.

22.1.2. Upon completion of this method for each individual committee member the individual rankings are then totaled for an “Over-all Ranking.” During the Over-all Ranking process the lowest total would be deemed the highest ranked (1). Example: Proposer A individual rankings totaled 5 and Proposer B individual rankings totaled 7 making “Over-all Ranking” order as Proposer A ranked 1, Proposer B ranked 2.

22.1.3. In the event of a tie, please refer to the tiebreaker section of this solicitation.)

22.2. **Evaluation Meeting(s):**

22.2.1. Evaluation 1: The first evaluation will rank Proposers based on the scores from the selection criteria point values.

22.2.2. Evaluation 2: Following the initial evaluation process, the short-listed proposer(s) will be required to provide an on-site interview/presentation.

22.2.2.1. Such subsequent evaluations will be accomplished by simply ranking the proposers. Proposers will be ranked in sequential order with one (1) being the highest ranking. Proposers’ rankings will then be totaled with the total lowest scores receiving final rank order starting with one (1) - the highest ranking.

22.2.3. Proposed short-list and final selection meeting dates are posted on the Procurement Management web page: www.leegov.com/procurement (Projects, Award Pending.)

23. RFP – SELECTION PROCEDURE

23.1. The selection will be made in accordance with Lee County Procurement Policy. Some or all of the responding proposer(s) may be requested to provide interviews and/or presentations of their proposal, for the ranking process.

23.2. The recommendation to award, negotiated rates and agreement/contract(s) will be submitted to the Board of County Commissioners for approval.

23.3. If a satisfactory agreement/contract(s) cannot be negotiated, in a reasonable amount of time, the County, in its sole discretion, may terminate negotiations with the selected proposer(s) and begin agreement/contract negotiations with the next finalist.

23.4. The Procurement Management Director reserves the right to exercise their discretion to:

23.4.1. Make award(s) to one or multiple proposers.

23.4.2. Waive minor informalities in any response;

23.4.3. Reject any and all proposals with or without cause;

23.4.4. Accept the response that in its judgment will be in the best interest of Lee County

24. RFP – TIEBREAKER

24.1. In the event of a tie, two or more proposers that have the same ranking, the following steps will be taken to determine the highest ranked proposer. This method shall be used for all (RFP) ties.

24.1.1. Step 1: The proposer that has the highest number of 1st place rankings shall be deemed the first ranked proposer. In the event a tie still exists the proposer with the highest number of 2nd, place rankings shall be the first ranked proposer. Should a tie still remain the method used above will continue with each ranking level, 3rd, then 4th, then 5th, etc. rank, will be counted until the tie is broken.

24.1.2. Step 2: At the conclusion of step 1, if all is equal, the proposer having a drug-free work place program, shall be deemed the first ranked proposer.

24.1.3. Step 3: In the event the tie exists then the highest ranked proposer from the first evaluation committee meeting, in which point values were applied, will win the award. One being the highest.

24.1.4. Step 4: At the conclusion of steps 1, 2, 3, if all are equal, the 1st place proposer shall be determined by the flip of a coin.

24.2. When the tiebreaker is determined the highest ranked proposer shall be awarded the contract or receive the first opportunity to negotiate, as applicable.

24.3. If an award or negotiation is unsuccessful with the highest ranked proposer, award or negotiations may commence with the next highest ranked proposer.

Withdrawal requests must be made in writing to the Procurement Management Director, who will approve or disapprove the request.
- 26.2. A proposer may withdraw a proposal any time prior to the opening of the solicitation.
- 26.3. After proposals are opened, but prior to award of the contract by the County Commission, the Procurement Management Director may allow the withdrawal of a proposal because of the mistake of the proposer in the preparation of the proposal document. In such circumstance, the decision of the Procurement Management Director to allow the proposal withdrawal, although discretionary, shall be based upon a finding that the proposer, by clear and convincing evidence, has met each of the following four tests:
 - 26.3.1. The proposer acted in good faith in submitting the proposal,
 - 26.3.2. The mistake in proposal preparation that was of such magnitude that to enforce compliance by the proposer would cause a severe hardship on the proposer,
 - 26.3.3. The mistake was not the result of gross negligence or willful inattention by the proposer; and
 - 26.3.4. The mistake was discovered and was communicated to the County prior to the County Commission having formally awarded the contract/agreement.

DETAILED SPECIFICATIONS

1. GENERAL SCOPE OF PROJECT

- 1.1. Lee County Board of County Commissioners seeks to contract with a qualified Vendor to develop a public education campaign to continue to engage and educate the citizens of Southwest Florida on the responsible use of fertilizer.

2. BACKGROUND

- 2.1. Property values and tax income in all Florida counties bordering the Gulf of Mexico are largely dependent on tourism. Similarly, tourism is greatly influenced by the quality of our coastal waters. Local businesses and residents are also adversely impacted by poor water quality. Excessive nutrients (nitrogen and phosphorous) from fertilizer used on urban lawns and landscapes can have a detrimental effect on water quality in Southwest Florida. While not the only sources of excess nutrients in our local water, reducing our personal contribution to pollution is an important step in improving water quality. Using too much fertilizer and applying it improperly are the biggest problems with fertilizer and water quality. This is particularly true during Florida's rainy season (June-October). Excess nutrients in storm water runoff can stimulate algae blooms, including drift algae, blue-green algae, and has been implicated in red tide blooms. These blooms can result in harmful impacts to our waterways, beaches, wildlife, and the local economy.
- 2.2. Responsible use of fertilizer, including rainy season blackout periods imposed by local ordinances, is a cost effective way of controlling nutrient pollution entering our waterways and estuaries. Equally effective, possibly more so, would be to increase awareness among urban fertilizer users of the risk to our local waters from fertilizer runoff. Among these users are the many citizens who regularly apply fertilizer to promote the health and growth of their lawns and landscapes.

3. PROGRAM SUMMARY

- 3.1. Lee County is soliciting for a company or individual to produce a public information/education campaign to engage, educate and move to action the citizens of Southwest Florida on the responsible use of fertilizer. This information/education campaign will include several different information/educational outreach components utilizing a combination of some or all of TV, outdoor, print, radio, web, and social media to deliver the message. The primary goal of this program is to continue to build on the outreach efforts of the past several years, to inform and educate additional citizens on the connection between excessive fertilizer use in commercial and urban landscapes on its resulting impact on our coastal water quality and economy. Then to move citizens to adapt practices to reduce any excessive fertilizer use. The expectation is that by providing citizens with science-based information on how their actions affect water quality, their quality of life, and the local economy, they will choose to limit fertilizer use or at least apply fertilizer properly, potentially rendering local fertilizer ordinances unnecessary.

4. SCOPE OF WORK

- 4.1. Vendor shall provide services under this Agreement to establish public outreach and education in support of landscape and fertilizer best management practices. Many now know of the link between excess fertilizer use and derogated water quality. This broad-based outreach effort must inform and educate the public about how nutrient loading effects our waters and then draw the link to improved water quality by implementation of proper fertilizer use and associated best management practices. **The Vendor created campaign/program and services shall be issue-oriented, public information/education campaign designed to develop awareness of water quality issues and move the audience to change habits and attitudes towards appropriate fertilizer application and knowledge and compliance with applicable fertilizer ordinances.**

4.2. Vendor shall submit to the County such data, reports, records, strategy recommendations, and other documents relating to the services provided under this Agreement as the County authorized representative or program sponsoring department may require. The Vendor shall provide at minimum the following report and meeting events:

- 4.2.1. Provide a monthly report analyzing campaign activity and develop criteria for measuring the effectiveness of the program.
- 4.2.2. Meet with client members in Fort Myers / Lee County as necessary.

5. OBJECTIVES

5.1. The Vendor shall ensure the services provided and program developed under this Agreement meet or exceed the following objectives of this campaign:

- Develop a comprehensive program that utilizes, to the greatest extent possible, existing public information that promotes proper landscape maintenance and fertilizer application;
- Increase awareness, generate support and affect a positive change in the public's attitudes and habits regarding fertilizer application and water quality;
- Effectively motivate consumers to take specific actions to adopt long-term landscaping best management practices that will evolve into sustainable, permanent landscaping best management practices;
- Improve fertilizer efficiency, and prevent and curtail improper fertilizer and landscape techniques that can cause environmental degradation; and
- Build a network of public and private partners that will work together to achieve the most effective and cost-efficient landscape/fertilizer campaign.
- Examine other best management practices that could be incorporated into the campaign to address water quality.

6. TARGET AUDIENCES

6.1. The following audience segments are the primary and secondary target markets that should serve as the focus of this campaign. The Vendor shall ensure these primary and secondary target markets are successfully reached through services provided under this Agreement:

- Permanent and seasonal residents of Southwest Florida;
- Community leaders who have the potential of influencing public opinion;
- Key media sources representing print publications and broadcast stations that effectively reach the identified target audiences;
- Educators, major employers, utilities and other entities that have the potential to disseminate education information on proper landscape maintenance/fertilizer application practices, and water quality issues.

IMPORTANT:

For corporations, ALL documents must be signed by the president of the company or an authorized individual. For any individual other than the president, we will need one of the following to confirm their authority to sign:

1. a corporate resolution by the Board of Directors, or
2. an extract of minutes, or
3. an extract of Vote by the Board of Directors

If the company's articles of incorporation identify additional positions that have the power to bind the corporation, we will accept the articles of incorporation with verification from the president that a certain individual serves in that role (e.g., the president confirms that John Doe is the CEO, and the articles of incorporation provide that the CEO has the power to bind the company).

With respect to an LLC, the authority to bind a limited liability company is controlled by Florida statutes. Managers or managing members have inherent authority to bind an LLC.

If the president of a corporation or a manager/managing member of an LLC delegates their authority, such delegation must be sent to us on company letterhead with the President's or manager's/managing member's original, wet signature.
