RE: Pricing Adjustment – Rehrig Pacific Recycling Bins – PROJECT NO.: IW120365

Amy,

Due to the rising cost of raw materials, Rehrig Pacific is requesting to exercise the price adjustment clause detailed in the bid specifications for recycling bins, PROJECT NO.: IW120365. At the time of bid, Rehrig submitted base pricing for our raw material, HDPE resin, at \$0.635/lb as published in the Chem Data Index (CDI). The current pricing of HDPE resin is \$0.775/lb as published in the most recent CDI which represents a \$0.14/lb increase in raw material costs. I have detailed below the new pricing structure to reflect the material cost increase as well as attached the CDI documents for reference. The new pricing structure would go into effect on September 14th to allow 30 business days per contract.

Product Description	Bid Pricing	HDPE Resin \$/lb (07/2012)	HDPE Resin \$/lb (Current)	Resin \$/lb Increase	Resin Weight Per Container	Total \$ Increase	New Bin Price
18 gallon recycling bin	\$6.11	\$0.635	\$0.775	\$0.14	5.0 lbs	\$0.45	\$6.86

Thank you for your time and consideration of Rehrig Pacific Company. If you have any questions or would like additional information, please contact me at 770-330-7889 or via email at dlynch@rehrigpacific.com.

Sincerely,

Dan Lynch
