## Introduction / Statement of Qualifications

Rehrig Pacific Company appreciates the opportunity to propose a bid to supply Lee County with Recycling Bins as requested in your Request for Quotations-Project No.: IW120365. We have thoroughly read and understand the requirements set forth in your RFQ and we strongly believe that we have assembled a very comprehensive and competitive package that will provide many benefits to Lee County.

Rehrig Pacific has been supplying the industry with bins since 1987 and roll out carts since 1992 with great success and we would greatly appreciate the opportunity to provide you containers for your program. As requested, in our packet you will find our proposal to manufacture and deliver the containers for the life of the contract. Rehrig Pacific has a successful proven track record of providing containers to a wide array of markets and more specifically to many large and small cities (please see reference lists) throughout the country and we have provided many benefits to each program. Below we have highlighted a few of these benefits that we believe should be considered heavily in your evaluation:

- **Company Stability and Longevity:** Rehrig Pacific Company has been in business since 1913 and is extremely financially stable to serve a long-term contract. Our credit rating is excellent and our customers and suppliers would attest to our track record. We have annual sales exceeding 300 million dollars and have achieved a 20-year compounded real growth rate exceeding fifteen percent. This coupled with a debt to equity ratio of (<1:1) has placed the company in an envious financial position. (Financial Statements are available upon request.) If Rehrig Pacific is chosen as the awarded vendor for Lee County's project you can feel comfortable that you will have partnered with a financially stable company for many years to come.
- **Leadership in Plastic Processing:** Since starting in plastic processing in the late 1960s, Rehrig Pacific has successfully supplied plastic containers to numerous industries. Our design and plastic processing expertise have been instrumental in our ability to produce a quality product. If Rehrig Pacific is chosen as your supplier for this project we are committed to providing that same quality product and service that our bin customers within the industry have become accustomed to receiving for the past 25 years.
- **Leadership in the Cart and Recycling Bin Industry:** Since our first manufactured recycling bins in 1987 and roll-out carts in 1992, Rehrig Pacific has grown to be a leader in both industries in terms of capacity and number of customers and volumes supplied. Therefore, if chosen as Lee County's supplier, Rehrig Pacific has the capacity to handle an order of this magnitude.
- **Environmental Services Group:** As a leader in cart manufacturing, Rehrig Pacific knows the importance of being able to offer more than just a reliable cart. Leading the industry in environmental services is Rehrig Pacific's own Environmental Services Group. We now offer a complete in-house services group that can offer RFID tags for tracking assets and incentive based recycling, Assembly and Distribution handled by

Lawrenceville, GA 30045  
Attn: Warranty Claims Department

- Determination of the alleged failure shall be made jointly by the judgment of the Buyer and Manufacturer.

## **“Huskylite” Container Buy Back Program**

Rehrig Pacific Company has recognized the growing crisis surrounding the country’s landfills. In an effort to alleviate this situation, we are closing the loop on recycling.

Rehrig is committed to all “Huskylite” container customers. This commitment means that Rehrig will repurchase all “Huskylite” containers at the end of their useful life. The repurchase will be at the current rate for scrap high density polyethylene (HDPE) at the time of sale, (X) multiplied by the number of pounds of material that is retrieved from each container minus the shipping costs. This amount can be used as a credit towards additional “Huskylite” containers, which can contain a said percentage of this recycled material.

This commitment to recycling is another reason why Rehrig Pacific Company is one of the largest curbside recycling container manufacturers in the country.

## Rehrig Pacific Company History

Rehrig Pacific Company is a family owned business that was founded in 1913 in Los Angeles, CA as a manufacturer of wooden milk crates. In 1937, the company introduced its first wire milk crate, and in 1965 it made its first plastic milk crate using the injection molding process. The decision to switch to injection-molded plastic was a response to the need for reduced weight, easier cleaning and company identity on the packaging. Today, with a product base that is measured in hundreds of millions, we have evolved our manufacturing process to where we can custom design products to meet specific customer requirements.

Due to the high cost of freight, it was difficult for a Los Angeles based manufacturer to compete in the Eastern United States. As a result, Rehrig Pacific operated as a regional manufacturer/distributor for the West and Southwest until 1968. By the late 1960's Rehrig Pacific Company's share of the western milk crate market was substantial and it was clear that further growth would have to take place in other geographical markets. In 1968, Brad Rehrig, grandson of the founder, established a plant in Erie, PA to serve the eastern markets. The expansion was an overwhelming success and set in motion a key corporate growth strategy of establishing smaller regional plants to penetrate new geographical markets. Additional plants have followed quickly to serve the needs of regional markets.

1973	Southeastern Plant	Atlanta, GA
1977	Northeastern Plant	Raymond, NH (Consolidated with Erie Plant 2008)
1980	North Central Plant	Kenosha, WI
1981	Southwestern Plant	Dallas, TX
2001	Midwestern Plant	DeSoto, KS
2005	Southeastern Plant	Orlando, FL
2008	Mexico Plant	Queretaro, Qro C.P. Mexico

In addition to expanding into new geographical areas, the company's molding divisions have achieved growth by developing new products to serve other segments of the food industry. Rehrig Pacific has designed shipping containers for the soft drink bottling, baking, egg packing, and fruit processing industries as well as curbside recycling containers and automated carts for private waste haulers and municipalities. These businesses all use a secondary container as an integral part of highly automated material handling systems.

By carefully listening to customer needs and expanding from the beverage product line, we have become well established in other industries such as bakery, agriculture, environmental and our most recent addition, material handling. Rehrig has grown into the world's largest plastic container manufacturer with a vast product line that includes crates and pallets designed for handling, storing and transporting products in agriculture, bakery, beverage, dairy, environmental and materials handling marketplaces. All users of Rehrig Pacific products require specialized design features, consistent tolerances, material strength and reliable delivery. Rehrig Pacific's dedication to quality and service provides a reason for the company's continuing success. By maintaining its own nation-wide sales force, the company develops and services customers who are among the largest food processors and waste haulers in the world. Some of Rehrig Pacific Company's valued customers include City of Los Angeles, City of

Atlanta, City of Orlando, City of San Diego, City of Phoenix, City of Milwaukee, Waste Management, Allied Waste, Kroger, Dean Foods, McDonald's, Coca-Cola, and Pepsi-Cola.

Our success and growth can be attributed to the company's diverse product line, leadership and involvement in the industries we serve, strong business values and strategic planning. The Rehrig family believes in investing back into the company the proper machines and tools which enables the customer to receive the best product at the best price. Over the past 5 years, we have opened up a new plant in Kansas and Florida as well as expanded our Los Angeles facility to support our growing customer base. **The company was built on the following principles: integrity, superior customer service, investment in people and capital equipment, teamwork, and long-term business planning and strategies.**

The past and present emphasis on containers for the food processing and waste industries has provided a strong financial position for the Company. Today, Rehrig Pacific employs over 700 people nationwide, has annual sales exceeding 300 million dollars and has achieved a 20-year compounded real growth rate exceeding fifteen percent. This coupled with a debt to equity ratio of (<1:1) has placed the company in an envious financial position.

In the future, the company's stable, diverse, profitable markets will continue to serve as a source of funds for growth. Partnering with a financially sound company with strong ethics, successful business practices and a proven growth rate will enable you to implement a successful automated collection program and gain a long-term partner.

## Plastic Material

Rehrig Pacific Company uses only the highest grade HDPE especially formulated to meet the demands of refuse and recycling bin and cart applications. We currently purchase our resin from DOW Plastics & Exxon Mobil. The DOW material used in the manufacturing of the Rehrig Pacific carts and bins is DMDB-7905 NT 7 and the Exxon material is HD-6605, both materials are a narrow molecular weight copolymer that is designed for a wide range of injection molding applications. The materials provide excellent impact strength, stress crack resistance and process ability. These materials are ideally suited for articles requiring rugged physical performance in cold temperature environments, such as refuse and recycling carts and bins. If you would like to learn more about these materials please reference the Materials Safety Data Sheets (MSDS) attached.

## Ultraviolet Stabilization

Rehrig Pacific Company utilizes an H.A.L.S. (Hindered Amine Light Stabilizer) ultraviolet stabilizer (U.V.) package, which is considered a superior U.V. stabilizer package. This master-batch (or concentrate) contains maximum light stable color pigments that have the highest rating possible to prevent fading. The master-batch also contains ultraviolet inhibitors similar to or better than the Chemisorb 944 and thermal stabilizers in final levels to ensure minimal degradation in the field. At Rehrig Pacific we introduce our H.A.L.S. ultraviolet package into our rollout carts and bins at a 1.5%- 2.0% let down ratio by total resin weight of the container.

In contrast to "screener" U.V. stabilizers, the H.A.L.S. package protects the plastic resin at the chemical level. The package is designed to seek damaged or broken polymer chains at the chemical level and repair and protect the polymer chains from U.V. rays, thus maintaining the physical material properties of the plastic resin and container. Other U.V. stabilizers act as "screeners", similar to suntan lotion, in which the stabilizer attempts to screen the plastic and container from U.V. rays. Unfortunately, moisture can wash off "screeners", leaving the container exposed to harmful U.V. rays.

Color deterioration is controlled by the quality and type of pigment, separate from the deterioration of physical properties. U.V. rays interact with the pigment and can modify the pigment, depending on the amount and intensity of the U.V. rays and the quality of the pigment. Certain color pigments are more difficult to control especially variations of the color red and bright fluorescent colors.

## Statement of Recycle Ability

Rehrig Pacific Company certifies that all materials used to manufacture our 18-gallon recycle bins are 100% recyclable. When the timing is right, we can assist you in order to close the loop on recycling.

Policy Amendment(s) Commercial General Liability Coverage Form

Your Commercial General Liability Coverage Form is revised as follows:

**1. Broadened Named Insured**

A. SECTION II - WHO IS AN INSURED, item 3., is deleted and replaced by the following:

3. Any organization that you own at the inception of this policy, or newly acquire or form during the policy period, and over which you maintain during the policy period majority ownership or majority interest, will qualify as a Named Insured if:

- a. There is no other similar insurance available to that organization; and
- b. The first Named Insured shown in the Declarations has the responsibility of placing insurance for that organization; and
- c. That organization is incorporated or organized under the laws of the United States of America.

However:

- (1) Coverage under this provision 3 is afforded only until the next occurring annual anniversary of the beginning of the policy period shown in the Declarations, or the end of the policy period, whichever is earlier; and
- (2) Coverage A does not apply to **bodily injury** or **property damage** that occurred before you acquired or formed the organization; and

(3) Coverage B does not apply to **personal and advertising injury** arising out of an offense committed before you acquired or formed the organization.

B. SECTION II - WHO IS AN INSURED, the last paragraph, is deleted and replaced by the following:

No person or organization is an insured with respect to the conduct of any current or past partnership, joint venture, or limited liability company that is not shown as a Named Insured in the Declarations. However, this does not apply to a limited liability company that meets all of the conditions in Section II - Who Is An Insured, item 3., above.

**2. Additional Insured**

SECTION II - WHO IS AN INSURED, subsection 2.e., is added as follows:

e. Any person or organization is included as an additional insured, but only to the extent such person or organization is held liable for **bodily injury, property damage or personal and advertising injury** caused by your acts or omissions. With respect to the insurance afforded to such insured, all of the following additional provisions apply:

- (1) You and such person or organization have agreed in a written **insured contract** that such person or organization be added as an additional insured under this policy;
- (2) The **bodily injury, property damage or personal and advertising injury** for which said person or organization is held liable occurs subsequent to the execution of such **insured contract**;

This Form must be attached to Change Endorsement when issued after the policy is written.

- (3) The most we will pay is the lesser of either the Limits of Insurance shown in the Declarations or the limits of insurance required by the insured contract;
- (4) Such person or organization is an insured only with respect to:
- (a) Their ownership, maintenance, or use of that part of the premises, or land, owned by, rented to, or leased to you, except such person or organization is not an insured with respect to structural alterations, new construction or demolition operations performed by or on behalf of such person or organization;
  - (b) Your ongoing operations performed for that insured;
  - (c) Their financial control of you, except such person or organization is not an insured with respect to structural alterations, new construction or demolition operations performed by or on behalf of such person or organization;
  - (d) The maintenance, operation or use by you of equipment leased to you by such person or organization;
  - (e) Operations performed by you or on your behalf and for which a state or political subdivision has issued a permit, provided such operations are not performed for such state or political subdivision, and are not included within the products-completed operations hazard;
- (5) This insurance does not apply to **bodily injury, property damage, personal and advertising injury, occurrence or offense:**
- (a) Which takes place at a particular premises after you cease to be a tenant of that premises;
  - (b) Which takes place after all work, including materials, parts or equipment furnished in connection with such work to be performed by or on behalf of the additional insured at the site of the covered operations, has been completed;
  - (c) Which takes place after that portion of your work out of which the injury or damage arises has been put to its intended use by any other person or organization other than another contractor or subcontractor engaged in performing operations for a principal as part of the same project;
  - (d) Which takes place after the expiration of any equipment lease to which (4)(d) above applies;
  - (6) With respect to architects, engineers or surveyors, coverage does not apply to **bodily injury, property damage or personal and advertising injury** arising out of the rendering or failure to render any professional services by or for you, including:
    - (a) The preparing, approving, or failing to prepare or approve, maps, shop drawings, opinions, reports, surveys, field orders, change orders, or drawings and specifications;
    - (b) Supervisory, inspection, architectural, or engineering services.

However, if an Additional Insured endorsement is attached to this policy that specifically names a person or organization as an insured, then this subsection 2.e. does not apply to such person or organization.

### 3. Additional Insured - Vendors

Unless the **products-completed operations hazard** is excluded from this policy, SECTION II - WHO IS AN INSURED, item 2.f. is added as follows:

- f. Any vendor of yours is included as an additional insured, but only with respect to **bodily injury or property damage** caused by your **products** which are distributed or sold in the **regular course of the vendor's business**, subject to the following additional exclusions:
- (1) The insurance afforded the vendor does not apply to:
    - (a) **Bodily injury or property damage** for which the vendor is obligated to pay damages by reason of the assumption of liability in a contract or agreement. This exclusion does not apply to liability for damages that

the vendor would have in the absence of the contract or agreement;

- (b) Any express warranty unauthorized by you;
- (c) Any physical or chemical change in the product made intentionally by the vendor;
- (d) Repackaging, unless unpacked solely for the purpose of inspection, demonstration, testing, or the substitution of parts under instructions from the manufacturer, and then repackaged in the original container;
- (e) Any failure to make such inspections, adjustments, tests or servicing as the vendor has agreed to make or normally undertakes to make in the usual course of business, in connection with the distribution or sale of the products;
- (f) Demonstration, installation, servicing or repair operations, except such operations performed by the vendor in full compliance with the manufacturer's written instructions at the vendor's premises in connection with the sale of the product;
- (g) Products which, after distribution or sale by you, have been labeled or relabeled or used as a container, part or ingredient of any other thing or substance by or for the vendor; or
- (h) Bodily injury or property damage arising out of the liability of the vendor for its own acts or omissions or those of its employees or anyone else acting on its behalf.

- (2) This insurance does not apply to any insured person or organization from whom you have acquired such products or any ingredient, part or container, entering into, accompanying or containing such products.

However, if an Additional Insured - Vendors endorsement is attached to this policy that specifically names a person or organization as an insured, then this subsection 2.f. does not apply to that person or organization.

#### 4. Additional Insured - Limited Primary and Non-contributory Provision

The following is added as a second paragraph to Section IV Conditions, Condition 4. Other Insurance, following paragraph b.(2):

However, if you have added any person, organization or vendor of yours as an additional insured to this policy by way of this MultiCover<sup>fl</sup> endorsement and have agreed in a written insured contract that this insurance is primary and non-contributory with other insurance available to that additional insured, this insurance is primary and we will not seek contribution from such additional insured's other insurance.
