Notes:

The area covered by this proposal is the beachfront from Bowditch Point Regional Park to Bonita Beach Park (up to 13 miles). Lee County reserves the right to add additional locations within Lee County as needs arise. Quoters should be aware that, historically, this problem has been at its worst during the months of January, February, and March and has been limited to a mile or two of beach front per event but could extend the entire 13 miles. In addition, there is limited number of access points for equipment to ingress/egress to and from the beach.
