Fiscal Year 2017-18 Debt Manual

Prepared by Office of Management and Budget

LEE COUNTY DEBT MANUAL

Fiscal Year 17-18

Introduction

The **Debt Manual** was first published in July 1991 as a source of detailed information describing each debt issue by type. This information, when combined with proposed debt issues, provides a statement of existing and proposed County obligations

As existing issues reach their "call date" (usually after ten years), there is often an opportunity to refund the issue for savings that reduce annual debt service payments. This refunding process of "ten year calls" has become a common reason for most of the refundings.

The Lee County Office of Management and Budget in conjunction with the County's Financial Advisor monitor potential savings for refinancing existing debt as market conditions change or the ten year call period occurs.

FY17-18 DEBT MANUAL

A. DEFINITIONS

DEFINITIONS

Throughout this report in both tables and individual descriptions of each debt financing, a variety of terms are used. The following list of definitions will help the reader to better understand the terminology used in the study.

1. TYPES OF DEBT

Direct Debt – Bonded debt for which the local government has pledged its full faith and credit. It does not include the debt of overlapping jurisdictions such as the separate school district or sewer districts. Direct debt can include both non-self-supporting and self-supporting debt.

Non-Self-Supporting Debt – Bonded debt for which local government has pledged its general revenues. These revenues may include either ad valorem (property tax) and/or non-ad valorem (building and zoning permit fees, franchise fees, gas taxes, sales tax, data processing fees, etc.).

Self-Supporting Debt – Bonded debt that the local government has pledged to repay from a source separate from its general tax revenues. Examples would include a water bond that is repaid from water utility income, and special assessment bonds that are repaid from fees levied on properties within a special assessment district.

Net Direct Debt – Direct Debt minus Self-Supporting Debt. An increase in net direct bonded long-term debt as a percentage of assessed valuation can mean that the government's ability to repay is diminishing.

Overlapping Debt – Net direct bonded debt of another jurisdiction that is issued against a tax base within part or all of the boundaries of the community. Examples of other jurisdictions are school, street lighting, and sewer districts. The level of overlapping debt is only that debt applicable to the property shared by the two jurisdictions.

Underlying Debt – Individual debt of specific jurisdictions that draw upon the same population that is impacted by countywide bonded debt. Examples include both self- and non-self-supporting debt of the East County Water Control District, cities of Fort Myers, Cape Coral, Sanibel and the Lee County School District. Only persons living within each specific jurisdiction are taxed.

Defeased Debt – Debt obligations which have been cancelled by payment of the obligation. Payments are usually made by refinancing to take advantage of lower interest rates and/or to raise the principal amount for additional projects. Defeased debt may be paid by available money from bonds that are redeemed through early redemption. The County purchases U.S. Government securities, which are placed in an irrevocable trust with an escrow agent to provide for all future debt service requirements. As a result of this action, the affected debt is considered to be defeased, and the liability for the debt is removed from the General Long-Term Debt Account Group.

Non-Self-Supporting General Government Debt – Debt whose source of repayment is made available from monies collected through government that are not based upon user fees. Examples include garbage franchise fees, tourist development taxes and non-ad valorem

revenues – which encompass sales taxes, ambulance service receipts, selected gas taxes, and the first guaranteed entitlement of state revenue sharing.

Non-Self-Supporting Transportation Debt – Debt whose source of repayment is local option gas tax and the seventh and ninth cent gas taxes. These monies are used for road improvements. In addition, the land acquisition and design costs associated with the Midpoint Bridge are included because there is a pledge of non-ad valorem revenues. Capitalized interest paid this debt through October 1, 1994. Toll revenues replaced capitalized interest as the payment source. However, the non-ad valorem pledge remains.

Self-Supporting Transportation Debt – Debt whose source of repayment is toll revenues. Included are those issues associated with construction of the Cape Coral Parallel Span, MidPoint Bridge, and the Sanibel Causeway.

Self-Supporting Sewer Utilities Debt – Debt whose source of repayment is revenues derived from the Lee County Water and Sewer System as well as special assessments in certain collection areas.

Self-Supporting Solid Waste Enterprise Debt – Debt whose sources of repayment are user fees, tipping fees, electric sales revenues, surcharges, franchise fees. The solid waste facility is supported from these monies.

Self-Supporting Airport Debt – Debt whose source of repayment is revenues generated from the use of facilities operated by the Lee County Port Authority.

Underlying Utilities Debt – Debt whose status is junior to overall County issued obligations. General Obligation (ad valorem) bonds for the Fort Myers Beach Sewer District and South Fort Myers Sewer/Water System, which have been repaid, were included. Property taxes generated from within those two districts provided the source of repayment for much of the debt service period.

2. TYPES OF FINANCING INSTRUMENTS

General Obligation Bonds – Bonds issued based upon a pledge of ad valorem (property) taxes. Funds for payment of debt service on general obligation debt must be assessed annually as part of the property tax bill. Lee County Board of County Commissioners (BoCC) has no general obligation debt.

Build America Bonds (BAB's) – Taxable municipal bonds that feature tax credits and/or federal subsidies for local governments. Build America Bonds were introduced on 2009 as part of President Obama's American Recovery and Reinvestment Act (ARRA). The federal interest write down (35%) helped to lower borrowing costs. The Series 2010A portion of the Tourist Development Tax Revenue Bonds was a BAB issue. The program concluded after 2010.

Recovery Zone Economic Development Bonds – Section 1401 of Title I of Division B of the American Recovery and Reinvestment Act of 2009 added Sections 1400-1 through 1400U-3 to the Internal Revenue Code authorizing state and local governments to issue recovery zone economic development bonds. These bonds are taxable tax-credit governmental bonds that may be used to finance certain "qualified economic development purposes" defined as expenditures promoting development or other economic activity within an area designated by the county as a recovery zone including (1) capital expenditures paid or incurred with respect to property located in the Recovery Zone, (2) expenditures for public infrastructure and construction of public facilities, (3) expenditures for job training and educational programs, and (4) any other qualified economic development purposes" as allowed under Internal Revenue Service Notice 2009-50. On December 15, 2009 the Board of County Commissioners designated all of Lee County as a Recovery Zone. The \$37,403,000 originally allocated to Lee County approved on February 17, 2009 was fully allocated to the Series 2010B portion of the Tourist Development Tax Revenue Bonds. The program concluded after 2010.

Revenue Bonds – Bonds issued based upon a pledge of specific revenues that are anticipated to be available. Three general sources exist: (A) Non-Ad Valorem Taxes – Refers primarily to the local state sales and gas taxes and state revenue sharing, and also include ambulance service receipts, building and zoning permit fees, franchise fees, license fees, and data processing fees. (B) Revenues from Operations – toll revenues and water/sewer revenues or similar enterprise type revenues. (C) Revenues from Assessments –Municipal Service Benefit Units (MSBU’s) or other legally adopted special or general assessments.

Certificates of Participation – These certificates are issued and mature in years and principal amounts like bonds but constitute individual proportionate interests in basic rent payments made by the County to the Lee County Governmental Leasing Corporation under a Master Lease Purchase Agreement. The County obligates itself to make basic and/or supplemental rent payments under the lease agreement payable solely from monies appropriated by the Board of County Commissioners. The Certificates of Participation do not constitute a general obligation of the County. Therefore, no ad valorem taxation is pledged to them. Lease payments are subject to annual appropriation and are payable from the County’s available revenues. A Trustee (usually a financial institution) is appointed on behalf of the Certificate owners. Should “lease payment” revenues not be forthcoming, non-ad valorem revenues can be obligated. If the lease payments are not annually appropriated (i.e. no revenue source identified), the lease agreement is terminated and the County must surrender improvements for which revenues from the Certificates of Participation were issued to the Trustee.

Bond Anticipation Notes (BAN’s) – One BAN (Fort Myers Beach/Iona McGregor Wastewater Collection System MSBU) was active during FY91 until it was refunded on November 14, 1999. BAN’s are notes issued by public agencies to obtain temporary financing for Projects that will eventually be financed on a long-term basis (and the BAN repaid) through the sale of Bonds. (Example: Fort Myers Beach/Iona McGregor Wastewater Municipal Service Benefit Unit-MSBU.) All monies are established as available under a continuing resolution approved by the Board of County Commissioners. Therefore, BAN’s generally have short-term repayment schedules and are used as a “bridge” to a more permanent long-range financial source such as revenue bonds. The BAN that was refunded on November 14, 1991 had a direct-pay letter of credit from the Fuji Bank, Limited, which required the County to reimburse the Bank for all payments made by it on account.

Commercial Paper – Commercial paper generally is defined as short-term, unsecured promissory notes issued by organizations of recognized credit quality. While corporations usually issue commercial paper on an unsecured basis, legal differences normally require that municipal issuers secure tax-exempt commercial paper (TECP) with a specific pledge. The minimum size for a Commercial Paper Program is usually \$50 million. This limitation eliminates Commercial Paper as a debt-financing tool for virtually all but the largest counties in the State. Therefore, the Florida Association of Counties (FAC) has developed a pooled Commercial Paper Program. Most TECP is supported by a credit facility from a commercial bank. JPMorgan Chase Bank is currently participating as the bank for the Florida Association of Counties commercial paper program and replaced Wachovia Bank in 2009. Access to the pooled Commercial Paper Program is quarterly. The County must have its Board of County Commissioners adopt a loan agreement with security for the loan repayment from non-ad valorem revenues or user fees. Monies secured from this source are used for payment of construction expenses. Upon project completion, permanent financing sources such as bonds are used to convert from commercial paper (a short-term obligation) to bonds (a long-term obligation). The Board of County Commissioners began its participation in the Commercial Paper Program in 1991. Effective December 1, 2009, the County has fully repaid all of its commercial paper debt. A summary of historical activity in the program is included in the Debt Manual. Frequently, commercial paper is used as a short term financial instrument to complete capital projects which will be refinanced with longer term debt.

Capital Appreciation Bonds (Also Called Accreted Value Bonds) – Bonds whose debt service structure allows for a multiple year period of accreted interest prior to the retirement of principal (i.e., the bonds bear no interest payable periodically but accrete in value from the date of issuance to the date of maturity in lieu of interest). No principal payments occur until maturity or early redemption. For example, the Revenue Refunding Series 1989A and 1989B (portion refunded by 1993B Series) deferred payment

of principal until 2006 and 2011, respectively. The Series 1989A Bonds were refunded for savings by the Series 1999A bonds in June 1999.

Serial Bond Issue – An issue of bonds having maturities scheduled over several years, thereby allowing the issuer to amortize principal over a period of years. Maturity schedules for serial bonds often provide for level debt service or level principal payments.

Term Bond Issue – Bonds coming due in a single maturity. The issuer usually agrees to make periodic payments into a sinking fund or mandatory redemption of term bonds before maturity or for payment at maturity. The payment of a disproportionately large percentage of the principal amount is also called balloon maturity.

3. FACTORS THAT ADJUST PRINCIPAL BALANCES

Accreted Value – Pro-rated interest on Capital Appreciation Bonds. With Capital Appreciation Bonds, no interest is received until the bond is redeemed. The bonds are purchased at discount with face value received at maturity. The annual increase in value as each year passes is the accreted value.

4. RESTRUCTURING OF DEBT

Defeasance – Termination of the rights and interests of the bondholders and extinguishment of their lien on the pledged revenues in accordance with the terms of the bond contract for the prior issue of bonds. Defeasance usually occurs in connection with the refunding of an outstanding issue by the final payment, or provision for future payment, of principal and interest on a prior issue. (From Moody's on Municipals, 1988.)

Refunding – A procedure whereby an issuer refinances an outstanding bond issue by issuing new bonds. There are generally two major reasons for refunding: to reduce the issuer's interest costs or to remove a burdensome or restrictive covenant imposed by the terms of the bonds being refinanced. The proceeds of the new bonds can be used to immediately retire the outstanding obligations or, if the obligations are not immediately retired, can be used to purchase Federal securities (i.e. Treasury securities only) or are kept as cash and deposited in an irrevocable escrow for the benefit of the Refunded Obligation holders. The new obligations are referred to as the "**refunding bonds**", and the outstanding obligations being refinanced are referred to as the "**refunded bonds**" or the "**prior issue**". If the proceeds from the refund bonds are not to be used to pay for the prior issue until more than 90 days after refunding, the proceeds of the refunding bonds are used to purchase other obligations (essentially risk free monetary assets) which are deposited in escrow, and which mature in sufficient amounts and at appropriate times to provide funds to pay the interest and principal of the prior issue when due. This latter procedure is called **advance refunding**. An advance refunding can only be done once during the life of that bond issue. If the proceeds from the refunding bonds are used to pay for the prior issue within 90 days of refunding, the procedure is called a **current refunding**. Current refundings may be undertaken on an unlimited basis. For accounting purposes, refunded and defeased obligations are not considered a part of the issuer's debt because the lien of the holders of the refunded bonds is the escrowed funds, not the originally pledged source of revenues. (From Moody's on Municipals, 1988).

Forward Refunding – A bond refunding in which the issuer may take advantage and lock in existing low interest rates and refund the bonds on their first call date. Therefore, all the terms of the transaction are agreed upon today but the transaction (including the payment due date) does not occur until the first day of the current refunding period.

5. METHODS OF SALE

There are two primary ways that bond issues can be issued - Competitive and Negotiated. Munibondadvisor.com defines these methods as follows:

Competitive Sale – In a competitive sale, bonds are advertised for sale. The advertisement, by way of a notice of sale, includes both the terms of the sale and the terms of the bond issue. Any broker dealer or dealer bank may bid on the bonds at the designated date and time. The bonds are awarded to the bidder offering the lowest interest cost.

Negotiated Sale – In a negotiated sale, an underwriter is selected to purchase the bonds. The underwriter, in turn, sells the bonds to its investor customers. The terms of the bonds are tailored to meet the demands of the underwriter's investor clients, as well as the needs of the issuer. Negotiated sales also involve a process known as a presale in which underwriters seek customer indications of interest in the issue before establishing final bond pricing.

Lee County has done primarily negotiated sales which are more desirable for complicated issues such as transportation or utilities.

EXISTING DEBT

Activity in FY 2017-2018

There was no new debt in FY2017-2018.

Future Possible Financing Opportunities

- The timing for these issues will be determined by market conditions.

The following table details all existing debt in Lee County. Beginning from the left side of the page, the first column lists the individual bond issue or bank loan grouped according to Non-Self-Supporting, Self-Supporting Debt. The next column details the revenue source that supports the debt. The third column indicates the outstanding principal balance remaining as of September 30, 2018.

Distribution of Debt

UNDERWRITER SELECTION ACTIVITY

Underwriters are brokers responsible for marketing bond issues. Usually, one or more Senior Managers along with Co-Managers are selected to market each issue. Charts on the following pages indicate (1) all underwriter activity (both Senior Manager and Co-Manager) in Lee County since 1986 and (2) only Senior Managers for those same bond issues.

The **Senior Manager** is the lead broker that works with the Financial Advisor, Bond Counsel and County to prepare documents necessary for the offering of bonds. The Senior Manager generally employs an Underwriter Counsel to assist him in legal matters. Most importantly, the Senior Manager develops a selling strategy that must respond to bond market conditions that will bring the County the best value possible. Co-Managers are assigned to each bond issue and are given a smaller portion of the bonds to market under direction of the Senior Manager.

SHORT TERM LOAN PROGRAM

Lee County has a short term borrowing program with Florida Community Bank. This program allows special MSBU districts to fund construction of a project. When the construction is completed, the short term loan is replaced with long term debt. This program was used in 2017 for the Cherry Estates MSBU Side Streets Paving Project.

DEBT SERVICE COVERAGE/OVERALL COUNTY BUDGET RATIOS

Debt Service Coverage Ratios calculate the relationship between total debt service and total Operating, Capital and Other Costs. Reserves are excluded. The formula is Total Debt Service/Total Operating, Capital and Other Costs.

Following is a six year history:

FY2017-2018 – 64,576,652/1,408,770,506 = 4.6%

FY2016-2017 – 74,425,875/1,395,985,548 = 5.3%

FY2015-2016 – 66,880,319/1,329,544,836 = 5.0%

FY2014-2015 – 68,504,638/1,301,632,895 = 5.3%

FY2013-2014 – 59,959,501/1,295,408,458 = 4.6%

FY2012-2013 – 71,886,281/1,205,352,144 = 6.0%

DEBT PER CAPITA INFORMATION

Debt Per Capita helps to explain the relationship between debt and population. These factors can be compared to overall standards and other communities.

Although each property owner pays debt based upon the City/County and/or district where they reside, **All Debt Per Capita** provides the best approximate debt burden from all Lee County Board of County Commissioners (BOCC) sources.

The debt per capita factor is determined by dividing annual total debt by the estimated permanent Lee County population for a given year.

Fiscal Year	Debt	Population	Debt per Capita
2017-18	64,576,652	698,468	92.45
2016-17	74,425,875	680,539	109.36
2015-16	66,880,319	663,762	100.76
2014-15	68,504,638	653,485	104.83
2013-14	59,959,501	643,367	93.20

Lee County Population – per the Bureau of Economic and Business Research

TRANSPORTATION

UTILITIES – WATER & SEWER AND SOLID WASTE

LEE COUNTY PORT AUTHORITY (AIRPORT)

LONG TERM DEBT RATINGS FROM RATING AGENCIES

OVERVIEW DETAILED DESCRIPTION OF EACH ISSUE

This section contains a separate listing for each existing issue. Categories included in the description are:

- I. **Basic Information:** Such as the Par Amount, Type of Debt, Principal Balance Remaining etc.
- II. **Pledged Revenues:** Description of the Revenue Source That Repays the Debt
- III. **Use of Funds:** Project Description
- IV. **Underwriters and Counsel:** Brokers and Attorneys That Participated In the Transaction
- V. **Sources and Uses Statement:** Summary of Monies Received and Disbursed

CATEGORIES IN THE DETAILED DESCRIPTIONS OF EACH ISSUE

I. Basic Information

- A. **Principal Issue Amount** – Principal balance at the time issue.
- B. **Fund Number** – The debt service account(s) numbers.
- C. **Principal Balance Remaining as of September 30, 2018**
- D. **Date of Issue**
- E. **Type of Debt** – Classification according to the kind of debt service that supports the obligation.
- F. **Maximum Annual Debt Service** – Year and amount of the largest single annual payment of principal and interest made during the life of the issue.
- G. **Debt Service Schedule** – Section where detailed Debt Service Schedule can be found.
- H. **Effective Interest Rate** – (also known as *yield rate*) is set by the money market. Interest on bonds expressed as a percentage of the face amount is referred to as the *nominal or coupon rate*. If the effective interest (yield) rate is identical to the coupon rate, the bonds will sell at face amount. If the effective rate is higher than the coupon rate, the bonds will sell at a *discount*. Conversely, if the effective rate is less than the coupon rate, the bonds will sell at a *premium*. Differences between the coupon rate and the yield rate thus are adjusted by changes in the price at which the bonds are sold, without the necessity of amendments to the bond contract.

CATEGORIES INCLUDED IN THE DETAILED DESCRIPTIONS OF EACH ISSUE continued:

II. Pledged Revenues

A description of all primary pledged revenues associated with the issue. In some cases, a secondary pledged revenue is also present.

III. Use of Funds

A description of how proceeds were spent. In some issues, there is a construction project associated with the indebtedness. In other issues, the use may be to refund prior bonds to take advantage of lower interest rates or to restructure the debt payments.

IV. Underwriters and Counsel

A listing of the major underwriters and attorneys associated with the issue. A bond underwriter assumes responsibility for selling the bonds. In return, the underwriter receives the following:

1. **Management Fee** – fee for planning and structuring the transaction and providing investment- banking services.
2. **Underwriters' Expenses** – Receives a reimbursement for actual expenses associated with structuring and selling the bonds (printing, travel, legal counsel).
3. **Underwriters' Risk** – Receives a payment for risk associated with obligating the firm's capital to provide a cushion to underwriters if market conditions deteriorate after the bond purchase contract is signed but while unsold bonds remain in the account.
4. **Selling Compensation or "Takedown"** – The fee paid to each underwriting firm for the number of bonds they actually sell or "take down" from the selling account and is compensation for a successful selling effort. The Underwriters' Compensation is usually negotiated on per bond basis.

V. Sources and Uses Statement

1. **Payment Pursuant to Forward Supply Agreement or Forward Purchase Contract** – In structuring defeasance escrows (monies used to retire debt service of defeased bonds) using open market securities, it is often not possible to find Treasuries with payment dates identical to those of the tax-exempt bonds being defeased. Consequently, there may be a time lag of from two weeks to ten weeks between a treasury maturity and a corresponding debt service payment on a defeased issue.

The Forward Purchase Contract (FPC) provides for the investment of funds during the lag periods of an escrow. Under the terms of the FPC, the institution (broker/dealer or investment bank) commits to deliver T-bills against the cash balances which periodically become available. In return for the ability to provide the FPC, the institution makes an upfront payment to the issuer. This upfront payment represents the return which the issuer receives for the investment of the ongoing cash balances. The use of an FPC enables an issuer to generate a return on ongoing cash balances in an escrow which would otherwise be uninvested.

2. **Original Issue Discount** – An amount which represents the difference by which par value exceeds the public offering price of a new issue or part of an issue of municipal bonds. Original Issue Discount is amortized over the life of the bonds, and is generally treated as tax-exempt interest. When the investor sells the bonds before maturity, any profit or loss realized on such a sale is figured on the adjusted cost basis for tax purposes. The adjusted cost basis is calculated for each year the bonds are outstanding by adding the accretion value to the original offering price. The accretion value is determined by the rules and regulations of the Internal Revenue Service. Selling the bonds at a price in excess of the adjusted cost basis would result in a taxable gain for the seller, while a selling price below that level would be treated as a loss for income tax purposes.
3. **Accrued Interest** – dollar amount based on the stated rate or rates of interest which has accrued on the bonds from the dated date, or other stated date, up to but not including the date of delivery. When a bond is purchased in the secondary market, accrued interest is considered to be the dollar amount, based upon the stated rate of interest, which has accrued on the bond from the most recent interest payment date, up to but not including the date of settlement. Accrued interest is paid to the seller by the purchaser, and is usually calculated on a 360-day-year basis (assumes each month has 30 days).

$$\text{Accrued Interest} = \text{Interest Rate} \times \text{par value} \times \text{number of days} / 360$$

4. **Bond Insurance Premium** – A sum of money paid to an insurance company based on a per bond price. The insurance company assumes the risk should default occur.
5. **Deposit from Existing Premium** – Amounts on deposit in the debt service accounts and reserve account for the Refunded Bonds with accounts will be deposited into the escrow fund.
6. **Costs of Issuance** – Includes legal and financial advisory fees, printing costs, municipal bond insurance premium, rating agency fees, DAC Fees and other miscellaneous expenses

Summary of the Bond Refinance History: List the previous bonds refinanced and brief description of the use of funds for those bonds.

Calculation of Savings from Refinance: Present Value Total Savings and/or the Percentage Savings.

BASIC INFORMATION

Principal Issue Amount:	\$42,480,000	Fund Number:	22661
Principal Balance Remaining as of September 30, 2018: \$41,190,000			
Date of Issue: October 6, 2010		Type of Funding Source: Revenue Bonds	
Type of Debt: Tourist Tax (Debt Service Portion)			
Debt Service Structure: No Principal Payments until 2017. Serial and Term Bonds. Rates shown are taxable which are written down 35% to the issuer by the Federal Government			
Maximum Annual Debt Service: \$4,367,607 in 2031 excluding subsidy.			
Bond Insurance: None		Coupon Range: Serial Bonds – \$16,460,000 (4.097%-5.453%) 2017-2022 Term Bonds – \$26,020,000 (6.089%) 2026-2033	
Bond Rating: Moody's-Aa3; Fitch – AA-			

PLEGGED REVENUES

Tourist Tax

USE OF FUNDS

The proceeds were used pursuant to the Bond Resolution to provide funds to acquire land and construct a major league spring training facility for the Boston Red Sox, to be built on 126 acres on Daniels Parkway. The stadium will seat 10,000 people with an additional 1,000 person space of standing room for a total capacity of 11,000. The facility will include up to six full-sized practice fields, batting cages, a maintenance compound and building, parking for 4,000 vehicles, six community soccer fields and required storm-water management lakes.

**TOURIST DEVELOPMENT TAX REVENUE BONDS
SERIES 2010 – SERIES B (RECOVERY ZONE ECONOMIC DEV)**

BASIC INFORMATION

Principal Issue Amount:	\$37,403,000	Fund Number:	22662
Principal Balance Remaining as of September 30, 2018:	\$37,403,000		
Date of Issue: October 6, 2010	Type of Funding Source: Revenue Bonds		
Type of Debt: Tourist Tax (Debt Service Portion)			
Maximum Annual Debt Service: \$6,687,214 in 2034 excluding subsidy.			
Bond Insurance: None	Coupon Range: Term Bonds – \$37,403,000 (6.289%) 2033-2040		
Bond Rating: Moody's-Aa3; Fitch – AA-			

PLEGGED REVENUES

Tourist Tax.

USE OF FUNDS

The proceeds were used pursuant to the Bond Resolution to provide funds to acquire land and construct a major league spring training facility for the Boston Red Sox, built on 126 acres on Daniels Parkway. The stadium seats 10,000 people with an additional 1,000 person space of standing room for a total capacity of 11,000. The facility includes six full-sized practice fields, batting cages, a maintenance compound and building, parking for 4,000 vehicles, six community soccer fields and required storm-water management lakes.

UNDERWRITERS AND COUNSEL

Bond Underwriters:	Bank of America-Merrill Lynch (Senior) Citi and Morgan Keegan & Co. (Junior)
Bond Counsel:	Nabors, Giblin & Nickerson, PA
Disclosure Counsel:	Bryant Miller & Olive, PA
Financial Advisor:	Dunlap & Associates, Inc.

SOURCES AND USES STATEMENT

Sources of Funds:	Principal Amount of Bonds	\$ 37,403,000.00
	Net Original Issue Premium	0.00
	Total Sources:	\$ 37,403,000.00
Uses of Funds:	Project Funds	\$ 34,529,451.16
	Debt Service Reserve Fund	2,459,359.97
	Costs of Issuance	170,628.08
	Underwriter's Discount	243,560.79
	Total Uses:	\$ 37,403,000.00

TOURIST DEVELOPMENT TAX FUND DEBT OUTSTANDING (PRINCIPAL AND INTEREST ONLY)

Includes Federal Build America Subsidy
Does not include the Effect of Sequestration

NON-AD VALOREM REFUNDING REVENUE BONDS, SERIES 2012

BASIC INFORMATION

Principal Issue Amount:	\$48,385,000	Fund Number:	23560
Principal Balance Remaining as of September 30, 2018: \$ 27,010,000			
Date of Issue: October 31, 2012		Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Non Self-Supporting Debt with a Pledge of Non-Ad Valorem Revenues.			
Debt Service Structure: 10-Year term with principal payments between FY 2013-2024. Payments are made on April 1 (interest) and October 1 (principal and interest). Debt Service ranges from \$4.8 million in 2013 to \$9.9 million in 2024.			
Maximum Annual Debt Service: \$9,917,250 in 2024.			
Bond Insurance: None		Coupon Range: 2.0 to 5.000%	
Bond Rating: Moody's-Aa2; Standard & Poor's-A+			

PLEGGED REVENUES

First Use of a Covenant to Budget and Appropriate (CBA) from Non-Ad Valorem Revenues.

USE OF FUNDS

The Series 2012 Bonds proceeds were used to finance the current refunding of \$55.53 million of the Capital Revenue Bonds, Series 2004 (Justice Center) that were used for the Justice Center Expansion including the new tower and parking garage. The refunding included maturities 2013 through 2024 at a call premium of 101% with payment of Costs of Issuance. The average annual savings was \$744,596 to the General Fund with a net present value savings of \$8.938 million or 16.10% against a 3% criteria.

GENERAL FUND DEBT OUTSTANDING
(PRINCIPAL AND INTEREST ONLY)

SUNTRUST BANK – TERM LOAN ASSESSMENT PROGRAM #3

BASIC INFORMATION

Principal Issue Amount Available:	\$4,712,936	Fund Number:	See below
Principal Balance Remaining as of September 30, 2018:	\$507,720		
Date of Issue: August 8, 2007	Type of Funding Source: Special Assessments		
Type of Debt: Various year terms for the annual special assessment payments.			
Debt Service Structure: See Below			
Maximum Annual Debt Service: Level Debt for each loan			
Bond Insurance: Not Applicable	Coupon Range: None		
Bond Rating: Not Applicable			

PLEGGED REVENUES

Non Ad Valorem special assessments levied against property owners within each MSBU Beginning in FY 2000, the yearly assessment was placed on the November Property Taxes bills.

USE OF FUNDS

<u>Name</u>	<u>Fund Number</u>	<u>Amount Borrowed</u>	<u>Principal Balance Remaining as of September 30, 2018</u>	<u>Interest Rate</u>
Briarcrest Sewer MSBU (8/10/07)	26054	\$324,038	\$86,410	5.510%
Harbor Drive (2/29/08)	26087	\$866,681	\$0	4.670%
Western Acres (4/25/08)	26086	\$1,695,674	\$0	4.360%

PLEGGED REVENUES

Lee County Toll Revenues

USE OF FUNDS

The Series 2014 Bonds used to (1) refund and legally defease the Transportation Facilities Refunding Revenue Bonds, Series 2004B maturing on and after October 1, 2015 (the "Refunded Series 2004B Bonds"), refund and legally defease the Transportation Facilities Refunding Revenue Bonds, Series 2005A maturing on and after October 1, 2015 (the "Refunded Bonds, Series 2005A Bonds), refund and legally defease the outstanding Transportation Facilities "Refunded Series 2005B (Sanibel Bridges and Causeway Project) maturing on and after October 1, 2016 (the Refunded Series 2005B Bonds). These bond issues are now the Transportation Facilities Refunding Revenue Bonds, Series 2014. Also, pay the costs of issuance of the Series 2014 Bonds. The maturity of \$930,000 on October 1, 2015 was not refunded due to lack of savings since that maturity was not callable.

WATER AND SEWER REFUNDING REVENUE BONDS, SERIES 2013B

BASIC INFORMATION

Principal Issue Amount:	\$39,440,000	Fund Number:	48778
Principal Balance Remaining as of September 30, 2018: \$30,960,000			
Date of Issue: July 31, 2013		Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Self Supporting – Revenues from Lee County Water and Sewer System			
Debt Service Structure: Principal Payments from 2014 to 2027.			
Maximum Annual Debt Service: \$4,014,047 in 2014		Coupon Range: 2.00% to 5.00%	
Bond Insurance: None		Debt Service Reserve: None	
Bond Ratings: Moody's Investors Service, Inc. – Aa3; Fitch Ratings – AA; and S&P – AA+			

PLEGGED REVENUES

Net Revenues of Lee County Utilities and Connection Fees

USE OF FUNDS

Refunded on a current basis all of the County's outstanding Water and Sewer Refunding Revenue Bonds, Series 2003A (Gulf Environmental Services – GES Acquisition) and pay certain Costs of Issuance of the Series 2013B Bonds.

UNDERWRITERS AND COUNSEL

Bond Underwriters:	Citigroup, Morgan Stanley, Raymond James
Bond Counsel:	Nabors, Giblin & Nickerson, PA
Disclosure Counsel:	Squires, Sanders (US) LLP
Underwriters Counsel:	Greenberg Traurig, PA
Financial Advisor:	Dunlap & Associates

UTILITIES FUND BOND DEBT OUTSTANDING (PRINCIPAL AND INTEREST ONLY)

FLORIDA DEPARTMENT OF ENVIRONMENTAL PROTECTION STATE REVOLVING FUND

Date	Description	Original Amount	Loan Amount Remaining September 30, 2018
DRINKING WATER LOAN DW3610 010 (48769)			
Jun-05	Original Agreement. Drinking Water SRF loan agreement for the design and construction of the North Lee County Water Treatment Plant with an authorized loan amount of \$3,375,000 in proceeds, plus \$200,328 in capitalized interest not to be disbursed. The loan agreement sets the estimated total project cost at \$19,480,048	3,491,700	
Nov-05	Disbursement of first segment occurred on November 10, 2005.		1,971,686
Dec-05	Loan Amendment #1 increasing the authorized loan agreement amount by \$6,275,092 consisting of \$6,000,000 in proceeds plus \$275,092 in capitalized interest. This portion was disbursed in two segments of \$3,000,000 each. The interest rate on this amended amount was 2.58%.	6,275,092	
Mar-06	The first segment was disbursed on March 28, 2006 and the second segment on May 2006.		3,442,911
Dec-06	Loan Amendment #2 increasing the authorized loan agreement by \$5,121,151 consisting of \$5,000,000 in proceeds plus \$121,151 in capitalized interest not to be disbursed. The interest rate on this amended amount was 2.64%.	5,121,151	
Feb-07	This third segment was disbursed on February 22, 2007.		2,819,367
Aug-07	Loan Amendment #3 increasing the authorized loan agreement amount to \$3,060,000 consisting of \$3,000,000 in proceeds plus \$60,000 in capitalized interest not to be disbursed. The interest rate on this amended amount was 2.64%.	3,060,000	
			1,641,639
Oct-08	Loan Amendment #4 increasing the authorized loan agreement amount by \$3,200,000. The interest rate on this amended amount was 2.77%	3,200,000	
			1,763,577
Mar-10	Loan Amendment #5 increasing the authorized loan agreement amount by \$4,531,048.	4,531,048	
			2,708,332
		Total	14,347,512

Clean Water State Revolving Fund WW392330 (48773)			
Mar-09	Original Agreement. Clean Water SRF loan agreement for the Expansion of the Gateway Wastewater Treatment Plant with an authorized loan amount of \$10,000,000 in proceeds, plus \$168,100 in capitalized interest not to be disbursed. The interest rate on this loan segment was 3.17%		
Jul-09	Disbursement of first segment occurred on July 14, 2009.		7,050,937
Mar-10	Disbursement of second segment occurred on February 18, 2010.		6,759,486
Apr-11	Disbursement of third segment occurred on April 6, 2011.		6,699,354
Jul-11	Disbursement of fourth segment occurred on July 17, 2011.		2,494,099
		Total	23,003,876

FY17-18 DEBT MANUAL

D. ANALYSIS OF DEBT REFINANCINGS

ANALYSIS OF DEBT REFINANCINGS

During 1993, the decline in interest rates made very favorable conditions for the refinancing of existing debt to achieve a reduction in debt service payments. In certain cases, total bond issues were refinanced while with others only selected bonds within the entire issue were defeased. The Calculation of Savings chart in Section D provides a summary of activity and savings since the start of 1993. Savings are **not** expressed in present value terms.

The extent of savings for each refinancing activity will be determined by market conditions at the time for the refunding issue and the levels of coupon rates that existed in the older bonds that are being refinanced. After a certain portion (or all) of the older issue is identified as a refunding candidate, the potential new issue is "sized". One must determine a sufficient new principal amount to be bonded with enough return to repay the original balance, and meet closing expenses and other bond indenture requirements. Therefore, the new issue amount will be higher than the balance to be refunded. However, the total debt service (principal and interest) of the new issue will be a savings over the existing debt service.

The Board of County Commissioners established a minimum criterion of 3% that must be met prior to pursuance of any refunding. Individual rate of savings are indicated in charts for each issue that compares the original and current debt service schedules on an annual basis. The percentage rate of savings that is compared to the 3% benchmark is determined by calculating the present value savings between old and new debt service schedules and relating that figure to the principal balance of the original issue. Many of the debt refinancing far exceeded this threshold.

Section C. Individual description charts illustrate the savings from the refinancing of individual bonds.

SUMMARY OF SAVINGS FROM DEBT REFINANCING - 1993 TO 2018

Date	Description	Refunded New Issue Principal	Original Issue Principal Amount Refinanced	Total Debt Service Savings
March 1, 1993	Transportation Facilities Refunding Revenue Bonds, Series 1993	\$11,265,000	\$9,880,000	\$555,610

August 14, 2013	Non-Ad Valorem Refunding Bonds (Loan)	\$35,540,000	\$35,740,000	\$5,564,087
August 13, 2014	Five Cent Local Option Gas Tax Refunding Revenue Bonds (Loan)	\$12,590,000	\$12,435,000	\$1,511,833
October 29, 2014	Transportation Facilities Refunding Revenue Bonds, Series 2014	\$106,570,000	\$183,619,927	\$18,289,990
September 14, 2016	Solid Waste System Refunding Revenue Bonds, Series 2016	\$76,976,832	\$66,160,000	\$10,816,832
TOTAL			\$66,160,000	\$155,312,789

Total Debt Service Savings is \$155,312,789 excluding the early principal retirement of the balance of the Solid Waste System Refunding Bonds, Series 2001. Including that principal retirement, the savings figure would increase to \$189,402,789

FY17-18 DEBT MANUAL

E. DEFEASED ISSUES

DEFEASED ISSUES

Defeased bond issues result in the elimination of the bondholders' lien upon the pledged revenues of the County. In most cases defeasance occurs in connection with refunding of an issue. Many of Lee County's defeased issues are related to refunding to reduce the issuer's interest costs and/or to release restrictive bond covenants. If the outstanding obligation of the defeased bond (now a "prior issue") is not immediately retired, proceeds of the refunding bonds are placed with an escrow agent in a trust to be used solely for satisfying schedule payments of both interest and principal of the defeased debt. That situation describes the bonds below. There was a decrease of \$2,305,000 in the balance remaining of defeased bonds from September 30, 2017 to September 30, 2018.

DEFEASED BOND ISSUES BALANCES AS OF SEPTEMBER 2018

BOND DESCRIPTION	BALANCE REMAINING	MATURITY
Gulf Environmental Services, Inc. Water & Sewer System Revenue Bonds, Series 1998	\$38,490,000	10/01/2020
Capital Revenue Bond	\$0	10/19/2016
Solid Waste Revenue Bond	\$0	10/19/2017

Disclosure Counsel:	Greenberg, Traurig, P.A.
Bond Counsel:	Nabors, Giblin & Nickerson, P.A.
Financial Advisor:	Public Financial Management, Inc.

SOURCES AND USES STATEMENT

Sources of Funds:	Principal Amount of Series 1999A Bonds	\$36,190,000
	Net Original Issue Discount	(80,367)
	Legally Available Funds of County (1)	2,356,306
	Total Sources:	\$38,465,939
Uses of Funds:	Deposit to Escrow Fund for Series 1989A Bonds	\$36,138,290
	Deposit to Reserve Account	1,872,984
	Costs of Issuance (2)	454,665
	Total Uses:	\$38,465,939

(1) Consists of \$451,306 from the Sinking Fund and \$1,905,000 from the Reserve Account (Total \$2,356,306)

(2) Includes Underwriters' discount, bond insurance premium, bond counsel, financial advisor, auditor, accountant verification, administrative and other costs associated with the issuance of the Series 199A Bonds.

These bonds were paid off on October 1, 2010 with a final principal payment of \$7,270,000.

CAPITAL REFUNDING REVENUE BONDS SERIES 1993B

BASIC INFORMATION

Principal Issue Amount:	\$36,237,940	Fund Number:	23662
Principal Balance Remaining as of September 30, 2014: \$0			
Date of Issue:	June 16, 1993	Type of Funding Source:	Revenue Bonds
Type of Debt: Direct Non Self Supporting			
Debt Service Structure: \$30,300,000 in Current Interest Paying Bonds from 1993 to 2005. Interest Payments are made in April and October while principal payments are made in October. \$5,937,940 in Capital Appreciation Bonds consisting of Bonds consisting of \$3,068,434 (Yield 5.85%) maturing on October 1, 2011 and \$2,869,505 (Yield 5.90%) maturing on October 1, 2012. Compounded Amount at Maturity of each is \$8,810,000. Effective Interest Rate – 5.66%			
Maximum Annual Debt Service: Maximum Annual Debt Service of the current interest paying bonds is \$6,928,852 in 2003.			
Debt Service Schedule: See Section F		Coupon Range: 2.45% to 5.25%	
Bond Insurance: MBIA			
Bond Ratings: Moody's – Aaa; Standard and Poor's –AAA			

PLEGGED REVENUES

Selected Pledged Non Ad Valorem. Further Secured by Covenant to Budget and Appropriate from All Lawfully Available Non-Ad Valorem Revenues.

USE OF FUNDS

Proceeds of the Series 1993A Bonds were used to provide funds (i) advance refund and legally defease a portion of the County's outstanding Capital Revenue Bonds, Series 1989B in the current compounded amount of \$4,457,359 and all of the County's outstanding \$28,470,000 Capital Revenue Project Bonds, Series 1989C and (ii) pay costs incidental to the issue of the Series 1993B Bonds. Interest on the capital appreciation bonds is compounded semi-annually and is payable at maturity or early redemption. Accreted interest as of September 30, 2011 was \$11,184,348 and has been added to the balance due. These funds were used for design/construction plans and partial construction proceeds for a new jail in eastern Lee County and juvenile assessment center in downtown Fort Myers.

UNDERWRITERS AND COUNSEL

Bond Underwriters:	William R. Hough & Co., as Senior Manager Prudential Securities, Inc A.G. Edwards & Sons, Inc. Alex Brown & Sons, Inc. Artemis Capital Group, Inc. Lehman Brothers Clayton Brown & Associates, Inc. AIBC Investment Services Corporation as Co Managers
Underwriters Counsel:	Greenberg, Traurig, Hoffman, Lipoff, Rosen & Quentel, P.A.
Bond Counsel:	Nabors, Giblin & Nickerson, P.A.

This bond was paid off after the final payment of \$8,810,000 on October 1, 2012 (FY12-13).

CAPITAL REVENUE BONDS, SERIES 2000

BASIC INFORMATION

Principal Issue Amount:	\$18,200,000	Fund Number: 23680
Principal Balance Remaining as of September 30, 2014:	\$0	
Date of Issue: July 12, 2000	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Non-Self Supporting Debt		
Debt Service Structure: \$18,200,000 in debt with Principal Payments beginning on October 1, 2000 and level Debt Service Payments through October 1, 2015. Effective Interest Rate – 5.12%		
Maximum Annual Debt Service: : \$1,734,348 in 2014		
Bond Insurance: AMBAC	Coupon Range: 4.3 to 5.3%	
Bond Rating: Moody's Investor Service: A1		
Debt Service Schedule: See Section F		

PLEGGED REVENUES

Non-Ad Valorem Revenues

USE OF FUNDS

The funds were used along with existing funds to construct the final phases of the Ortiz Correctional Facility. Proceeds were also used to construct a Juvenile Assessment Center in downtown Fort Myers adjacent to the downtown justice facility and to expand the Emergency Operations Center dispatching area.

UNDERWRITERS AND COUNSEL

Bond Underwriters:	Salomon Smith Barney
Bond Counsel:	Nabors, Giblin & Nickerson, P.A.
Disclosure Counsel:	Livermore, Freeman & McWilliams, P.A.

SPECIAL COMMENTS

The issue was Lee County's first use of the internet for the bond sale.

SOURCES AND USES STATEMENT

Principal Balance Remaining as of September 30, 2014:	\$ 0	
Date of Issue: October 1, 1995	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Non Self Supporting Debt with a Pledge of Non-Ad Valorem Revenues		
Debt Service Structure: 10-Year term with principal payments between FY1996 and 2005. Payments are made on December 1 (interest) and June 1 (principal and interest). Debt Service is essentially level at \$3,000,000.		
Maximum Annual Debt Service: \$3,007,202 in 1998		
Bond Insurance: AMBAC	Coupon Range: 3.75 to 4.90%	
Bond Rating: Moody's-Aaa; Standard and Poor's-AAA.		

PLEGDED REVENUES

Non Ad-Valorem Revenues. Actual payment is made from Sales Tax.

USE OF FUNDS

The Series 1995A Bonds were used primarily for the purpose of providing funds for the purpose of refinancing a portion of Commercial Paper loans financed through the Tax Exempt Commercial Paper Program. Monies were used to finance renovation of a 90,000 square foot former bank facility as the Public Safety Facility for use by the Lee County Sheriff and the Emergency Management Services (EMS). A portion of the monies refunded were used to purchase land and begin initial development of the Public Works Facility. In addition, new monies were borrowed to renovate an existing 40,000 square foot bank building in downtown Fort Myers and construction of a 60,000 square foot addition to it. **The Bond Issue was paid off in June, 2005.**

PLEGGED REVENUES

Covenant to Budget and Appropriate Revenues

USE OF FUNDS

The Series 1996 Certificates were issued to provide funds to advance refund and defease the outstanding Certificates of Participation, Master Lease Project, Series 1990A previously issued on May 1, 1990 in the aggregate principal balance of \$15,575,000. There was a remaining balance on the Series 1990A Certificates of \$12,104,999. The entire \$12,104,999 was refunded.

The Series 1990A Project included construction of a Vehicle Maintenance Facility, purchase of Communications Equipment, and the construction of an office building in Cape Coral for use by the City of Cape Coral and the County.

On October 1, 1997, Communications Equipment debt was fully repaid.

On September 4, 2007 the Board of County Commissioners approved the repayment of remaining debt for the Vehicle Maintenance Facility (repayment of remaining balance of \$1,390,000 with \$108,000 savings in interest) and the office building in Cape coral (repayment of remaining balance of \$2,235,000 with \$174,500 savings in interest). **The bond issue was fully repaid in October, 2007.**

BARNETT BANK (NOW BANK OF AMERICA) LOANS FOR FOUR COMMERCIAL PAPER MSBU PROJECTS

BASIC INFORMATION

Principal Issue Amount:	\$4,658,805	Fund Number: see below
Principal Balance Remaining as of September 30, 2014: \$0		
Date of Issue: March 10, 1998	Type of Funding Source: Special Assessments	
Type of Debt: Twenty Year loans with Annual Special Assessment Payments		
Debt Service Structure: 20-Year term with fixed rate based upon 102.134% of the current 10-Year Treasury for each term loan. No prepayment penalty. Interest paid semi-annually.		
Debt Service Schedule: See tables for each loan in Section F.		
Maximum Annual Debt Service: Level Debt for each loan		
Bond Insurance: Not applicable	Coupon Range: None	
Bond Rating: Not applicable		

PLEGGED REVENUES

Non Ad Valorem assessments levied against property owners within each MSBU, collected by the MSBU/MSTU Department and/or Lee County Tax Collector. Beginning in FY2000, bill will be part of regular November tax bill. **All of the projects have been paid off.**

USE OF FUNDS

Funds are used for the following projects:

Name	Fund Number	Amount Borrowed	Annual Principal Payment	Balance Remaining As of Sept 30, 2014	Interest Rate
(a) Whiskey Creek Canal (5/6/98)	26061	\$140,863	\$7,043	0	5.80%
(b) South Pebble/Broken Arrow (5/27/98)	26062	\$359,627	\$17,981	\$0	5.74%
(c) Diplomat Parkway (8/18/98)	26063	<u>\$3,659,238</u>	<u>\$182,962</u>	<u>\$0</u>	5.49%
Total		\$4,159,728	\$207,986	\$0	
Since 10/1/99:					
(d) Pinecrest/River View Road (3/31/00)	26064	<u>\$499,077</u>	\$24,954	<u>\$0</u>	6.33%
GRAND TOTAL:		\$4,658,805		\$0	

The interest rate was quoted on a tax-exempt, Non Bank Qualified, Tax Free Basis. It was a fixed rate based on 102.13% of the current 10 year Treasury Rate for each term loan. Costs of issuance for each loan were: Whiskey Creek Canal - \$8,160; South Pebble/Broken Arrow - \$5,840; Diplomat Parkway - \$7,320 and Pinecrest River View - \$7,376. The authorization was for \$5,000,000.

**CAPITAL REVENUE BONDS, SERIES 1992
SHADY REST NURSING HOME**

BASIC INFORMATION

Principal Issue Amount:	\$5,640,000	Fund Number: 23666
Principal Balance Remaining as of September 30, 2014:	\$0	
Date of Issue: September 1, 1992	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Self Supporting Debt with a pledge of Non Ad Valorem Revenues		
Debt Service Structure: 20-Year Term with Principal Payments Between 1994 and 2014. Capitalized Interest Through November 1, 1993. Payments to be Made on May 1 (Interest) and November 1 (Principal and Interest) with Essentially Level Annual Debt Payments.		
Effective Interest Rate – 5.98%		
Maximum Annual Debt Service: \$519,942 in 2012		
Bond Insurance: AMBAC	Coupon Range: 3.34 to 5.75%	
Bond Rating: Moody's-Aaa; Standard and Poor's-AAA		

PLEGGED REVENUES

Non-Ad Valorem Revenues. Actual Payment is Made from Sales Taxes. The County Also Plans to Use Medicaid Reimbursement Payments to fund a Portion of the Debt Service Requirements.

USE OF FUNDS

\$4,657,200 of these monies were used along with \$3,104,800 from Fund 301 for the acquisition and construction of a new Shady Rest Nursing Home at 2310 North Airport Road in Fort Myers. The project consists of a 180 bed skilled nursing home with 24-hour nursing services as well as care for residents with dementia. The home also operates as an adult 24-hour skilled day care center that provides supervision for 24 to 28 adults. The construction cost of the facility is \$7,762,000. The Series 1992 Bonds paid for approximately 60% of that cost as indicated above.

The balance of the bond monies was used to retire commercial paper on two projects: Nelson Bridge and Sunset Cove. Nelson Bridge concerned construction of a wooden bridge across Billy Creek on Ortiz Circle in East Fort Myers. This bridge is an entry to 5.1924 acres divided into 30 parcels. Sunset Cove MSBU was created for the maintenance and excavation of the main channel and canals in the Sunset Cove Subdivision off McGregor Boulevard north of College Parkway in south Fort Myers. The project benefited 61 parcels of land. MSBU assessments will be used to retire the bonds associated with this project. Since the bond issuance, there have been numerous prepayments resulting in a principal balance of \$4,965,000 through November 1, 1997.

Note: the nursing home portion of the account was transferred from Fund 217 to the Enterprise Fund for Shady Rest Care Pavilion. (Fund 460/300). The MSBU portion was transferred from Fund 217 to Fund 272 and paid off in 2000.

Beginning on October 1, 1998 (FY99), the facilities and operations of the Shady Rest Care Pavilion was transferred to a not for profit corporation known as Shady Rest Care Pavilion, Inc. The terms of the agreement are for 20 years (2018) with an option to renew. Funds for debt service payments are to be made available from the corporation to the County to make the required principal and interest payments.

On May 18, 2004, the BoCC approved (Bluesheet #20040556) the purchase agreement for \$5,700,000 between Shady Rest Care, Inc. and Lee County. Shady Rest Care, Inc. was sold on July 28, 2005 and a portion of the proceeds used to repay the remaining debt.

TOURIST DEVELOPMENT TAX REFUNDING REVENUE BOND SERIES 2004

BASIC INFORMATION

Principal Issue Amount:	\$8,195,000	Fund Number:	22660

LOCAL OPTION GAS TAX REFUNDING REVENUE BONDS SERIES 1993

BASIC INFORMATION

Principal Issue Amount:	\$21,630,000	Fund Number: 21260
Principal Balance Remaining as of September 30, 2014: \$ 0		
Date of Issue: December 1, 1993	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Non Self Supporting		
Debt Service Structure: 10-Year term with principal and interest payments between 1994 and 2004. Payments to be made on May 1 (interest) and November 1 (principal and interest) with Essentially Level Annual Debt Payments.		
Maximum Annual Debt Service: \$2,450,000 in 2004	Coupon Range: 2.75 to 5.00%	
Bond Insurance: MBIA		
Bond Rating: Moody's-Aaa; Standard and Poor's-AAA		

PLEGGED REVENUES

The Local Option Gas Tax includes 6 cents. The entire 6 cents is pledged toward the 1993 Series Gas Tax Bonds. Currently, 2 cents of the tax is meeting the Debt Service Requirements.

USE OF FUNDS

Originally, a bond series was issued as the Local Option Gas Tax Revenue Bonds, Series 1989 with an aggregate principal amount of \$38,740,000 and payments from 1990 to 2009. On December 16, 1993, \$20,975,000 from the Local Option Gas Tax Revenue Bonds, Series 1989 for the years 1994 to 2004 was refunded by Series 1993. Therefore, \$14,705,000 aggregate principal remained from the 1989 issue for the years 2005 to 2009. That balance was subsequently refunded by the Local Option Gas Tax Refunding Revenue Bonds, Series 1997.

Monies from the 1989 issue (now fully refunded by the Series 1993 and Series 1997 Issues) were used for the following projects:

1. Daniels Road Widening	\$1,714,000
2. Cypress Lake Drive	4,412,228
3. Colonial Boulevard Extension	6,649,792
4. Metro Parkway Widening to Four Lanes	5,161,063
5. Pine Island Road	2,349,980
6. Boca Grande	187,229
7. Bonita Beach Road	<u>5,408,708</u>
TOTAL:	\$37,883,000

The difference between the 1989 issue amount of \$38,740,000 and the project amount of \$37,883,000 can be attributed to construction earnings less issuance costs.

This bond issue was repaid in October, 2004.

LOCAL OPTION GAS TAX REFUNDING REVENUE BONDS SERIES 1997	
BASIC INFORMATION	
Principal Issue Amount:	\$14,995,000
Principal Balance Remaining as of September 30, 2014:	\$0

USE OF FUNDS																
Originally, a bond series was issued as the Local Option Gas Tax Revenue Bonds, Series 1989 with an aggregate principal amount of \$38,740,000 and payments from 1990 to 2009. On December 16, 1993, \$20,975,000 from the Local Option Gas Tax Revenue Bonds, Series 1989 for the years 1994 to 2004 was refunded by Series 1993. Therefore, \$14,705,000 aggregate principal remained from the 1989 issue for the years 2005 to 2009. That balance was subsequently refunded by the Local Option Gas Tax Refunding Revenue Bonds, Series 1997.																
Monies from the 1989 issue (now fully refunded by the Series 1993 and Series 1997 Issues) were used for the following projects:																
<table style="width: 100%; border-collapse: collapse;"> <tr> <td style="width: 80%;">1. Daniels Road Widening</td> <td style="text-align: right;">\$1714,000</td> </tr> <tr> <td>2. Cypress Lake Drive</td> <td style="text-align: right;">4,412,228</td> </tr> <tr> <td>3. Colonial Boulevard Extension</td> <td style="text-align: right;">6,649,792</td> </tr> <tr> <td>4. Metro Parkway Widening to Four Lanes</td> <td style="text-align: right;">5,161,063</td> </tr> <tr> <td>5. Pine Island Road</td> <td style="text-align: right;">2,349,980</td> </tr> <tr> <td>6. Boca Grande</td> <td style="text-align: right;">187,229</td> </tr> <tr> <td>7. Bonita Beach Road</td> <td style="text-align: right;">5,408,708</td> </tr> <tr> <td style="text-align: right;">TOTAL:</td> <td style="text-align: right;">\$37,883,000</td> </tr> </table>	1. Daniels Road Widening	\$1714,000	2. Cypress Lake Drive	4,412,228	3. Colonial Boulevard Extension	6,649,792	4. Metro Parkway Widening to Four Lanes	5,161,063	5. Pine Island Road	2,349,980	6. Boca Grande	187,229	7. Bonita Beach Road	5,408,708	TOTAL:	\$37,883,000
1. Daniels Road Widening	\$1714,000															
2. Cypress Lake Drive	4,412,228															
3. Colonial Boulevard Extension	6,649,792															
4. Metro Parkway Widening to Four Lanes	5,161,063															
5. Pine Island Road	2,349,980															
6. Boca Grande	187,229															
7. Bonita Beach Road	5,408,708															
TOTAL:	\$37,883,000															
The difference between the 1989 issue amount of \$38,740,000 and the project amount of \$37,883,000 can be attributed to construction earnings less issuance costs.																
The Series 1997 Bonds were issued to provide sufficient funds to (1) advance refund the outstanding balance of the Local Option Gas Tax, Series 1989 Bonds balance of \$14,705,000; (2) pay certain costs and expenses incurred in connection with the issuance of the Series 1997 Bonds; including a premium for the issuance of municipal bond insurance policy.																
This bond issue was paid off on October 1, 2009.																

**ROAD IMPROVEMENT REVENUE BONDS – SERIES 2003
BANK NOTE FROM WACHOVIA BANK**

**FIVE CENT LOCAL OPTION GAS TAX – SERIES 1995
MIDPOINT BRIDGE CORRIDOR**

BASIC INFORMATION

Principal Issue Amount:	\$35,360,000	Fund Number: 23060
Principal Balance Remaining as of September 30, 2014: \$0		
Date of Issue: June 15, 1995	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Non Self Supporting		
Debt Service Structure: 25-Year term with principal and interest payments between 1995 and 2020 <i>Effective Interest Rate – 5.68%</i>		
Maximum Annual Debt Service: \$2,643,187 in 2007		
	Coupon Range: 3.70 to 5.6%	
Bond Insurance: FGIC		
Bond Rating: Moody's-Aaa; Standard & Poor's-AAA		

PLEGGED REVENUES

The Five Cent Local Option Gas Tax collections began in January, 1994. The Entire Five Cents is Pledged to this Issue. However, 50% of the Revenues are Allocated to the Midpoint Bridge Corridor and 50% is Available for Other Capital Transportation Projects. The Debt Service Fully Uses the 50% Midpoint Corridor Allocated Revenues.

USE OF FUNDS

The moneys were used in conjunction with the \$96,530,000 Transportation Facilities Revenue Bonds, Series 1995 for development of the Midpoint Bridge corridor. The funds from this issue were used for acquisition and construction of various road improvements including approach roads to the Midpoint Bridge. Such road construction includes improvements at the intersection of Del Prado Boulevard and the Midpoint Bridge Corridor in the City of Cape Coral, improvements at the intersection of Colonial Boulevard and U.S. 41 in the City of Fort Myers, and various road-widening improvements relating to the approach roads to the Midpoint Bridge.

Bond Rating: Moody's-Aaa; Standard and Poor's-AAA		

PLEGGED REVENUES

Toll revenues from the Transportation Facilities

USE OF FUNDS

The overall Midpoint Corridor project consists of a new toll bridge crossing of the Caloosahatchee River and approach roads extending from Santa Barbara Boulevard in the City of Cape Coral on the west to Solomon Boulevard in the City of Fort Myers on the east, a distance of approximately seven (7) miles. The project consists of four (4) segments. The Central Segment is the subject of funding from this bond issue. It consists of a controlled access facility from DeLeon Street on the east to the Caloosahatchee River on the west and is approximately 1.1 miles in length. The east approach to the Midpoint Bridge includes the reconstruction of existing Colonial Boulevard into a six lane divided highway.

The bridge portion of the Central Segment is approximately 1,200 feet long and is a single structure approximately 81 feet wide carrying two lanes of traffic in each direction. The Mid Point Bridge is primarily a low level structure except where it crosses the ship channel at which point it rises to allow for 55 feet of vertical clearance.

The west approach to the Midpoint Bridge (west part of the Central Segment) runs from the river on the east to Del Prado Boulevard on the west and is approximately 1.5 miles in length. Also included is a twelve-lane toll plaza and administration building.

Funding from this bond issue for the Central Segment is also supplemented by the 1991 Capital and Transportation Bonds and the remaining proceeds of the 1987 Capital and Transportation Facilities Bonds.

The remaining Mid Point Bridge Corridor improvements were funded from a \$35,360,000 Five Cent Local Option Gas Tax Bond Issue and other transportation capital improvement moneys.

A portion of these bonds were refunded on January 14, 2004 (see Transportation Facilities Revenue Bonds, Series 2004B).

The balance of these bonds were refunded on January 12, 2005. (see Transportation Facilities Revenue Bonds, Series 2005A).

The October 1, 2005 payment of \$1,890,000 was the last from this issue.

TRANSPORTATION FACILITIES REFUNDING REVENUE BONDS SERIES 2001A

WATER AND SEWER REFUNDING REVENUE BONDS, SERIES 1993

BASIC INFORMATION

Principal Issue Amount:	\$40,000,000	Fund Number: 48763
Principal Balance Remaining as of September 30, 2014: \$ 0		
Date of Issue: July 15, 1993	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Self Supporting - Revenues from Lee County Water and Sewer System		
Debt Service Structure:	Effective Interest Rate – 5.84%	
Maximum Annual Debt Service:		
Bond Insurance: AMBAC	Coupon Range: 2.30 to 5.4%	
Bond Rating: Moody's-Aaa; Standard and Poor's-AAA		

PLEGGED REVENUES

First Lien Upon Lee County Water and Sewer System's Net Revenues, Special Assessments and Impact Fees.

USE OF FUNDS

These bonds were issued for the purpose of refunding and defeasing certain of the County's outstanding Water and Sewer Revenue Bonds. Listed below are the bonds and amounts that were refunded:

Description of Refunded Issue:	Amount Refunded:
1. Water and Sewer Revenue Bonds, Series 1976	1,690,000
2. Water and Sewer Revenue Bonds, Series 1978	3,070,000
3. Water and Sewer Revenue Bonds, Series 1988	14,770,000
4. Water and Sewer Refunding Revenue Bonds, Series 1988A	10,496,593
5. Water and Sewer Revenue Bonds, Series 1989	7,170,000

The issue also consolidated the flow of funds which greatly simplified the administration of these refunded bond issues.

The bond issue was paid off in October, 2006.

WATER AND SEWER REVENUE BONDS (AVATAR ACQUISITION) SERIES 1999A	
BASIC INFORMATION	
Principal Issue Amount:	\$134,615,000 Fund Number: 48731 & 48765
Principal Balance Remaining as of September 30, 2014:	\$0
Date of Issue: April 1, 1999	Type of Funding Source: Revenue Bonds
Type of Debt: Direct Self-Supporting Debt – Revenues from Lee County Water & Sewer System.	
Debt Service Structure: \$60,440,000 Serial Bonds with Maturity Dates from 2000 to 2016 and 2024. Term Bonds Due October 1, 2019, 2023 and 2029 totaling \$64,175,000. Debt Service Payments are essentially level at \$8.5 million through 2029. Effective Interest Rate – 5.03%	
Maximum Annual Debt Service: \$8,541,460 in 2004	
Bond Insurance: AMBAC	Coupon Range: 3.15 to 5.00%
Bond Rating: Moody's-Aaa; Standard & Poor's-AAA.	
Debt Service Schedule: See Section F	

PLEDGED REVENUES
Lee County Water and Sewer System's Net Revenues

USE OF FUNDS
<p>The Series 1999A Bonds were used to acquire certain water production, transmission and distribution facilities, and waste-water collection transmission, treatment and disposal facilities and certain other property from Florida Cities Water Company and Poinciana Utilities, Inc. (Avatar) pursuant to the Asset Acquisition Agreement between the Florida Governmental Utility Authority (GUA) and Avatar dated April 1, 1999. The GUA was formed as a legal entity for the purchase of Avatar's utilities operations in Brevard, Lee, Polk and Sarasota counties. The Avatar properties located within the Town of Fort Myers Beach are not included. The arbitrage yield on this bond issue was 4.9675%. The estimated arbitrage yield on the GUA bonds was 5.10%. The lower rate for the Lee County issue reflects the lower insurance rates, underlying ratings from Moody's/Standard & Poor's and Lee County's favorable credit rating.</p> <p>This acquisition was undertaken as part of a program to develop a regional water and wastewater utility to fulfill the following public purposes:</p> <ol style="list-style-type: none"> a) Assures long-term water resources are available when needed from multiple water treatment plants. b) Provides economies of scale due to combining utility operations. c) Improves water conservation and reuse water applications for irrigation. d) Helps to stabilize utility rates, and establishes local government control of utility rates. e) Reduces excessive sewer rates in North Fort Myers and makes water and sewer rates consistent with Lee County Utility rates. Proposed rate adjustments will reduce the impact of sewer rates on South Fort Myers customers. <p>The former customers of Florida Cities became part of Lee County Utilities. Over the next fourteen months, Florida Cities continued to operate the system under contract with the County. At the end of that period which coincided with the completion of Severn Trent (ST)'s contract with Lee County Utilities, operation of the system was returned to Lee County Utilities.</p>

\$77,325,000 bonds were refunded on April 13, 2011 by the Water and Sewer Refunding Revenue Bonds, Series 2011.

WATER AND SEWER REFUNDING REVENUE BONDS, SERIES 2003A

BASIC INFORMATION

Principal Issue Amount:	\$57,240,000	Fund Number: 48767
Principal Balance Remaining as of September 30, 2014: \$0		
Date of Issue: June 30, 2003	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Self Supporting – Revenues from Lee County Water and Sewer System		
Debt Service Structure: \$41,700,000 Serial Bonds with Principal Payments Beginning 2007 through 2023 and \$15,540,000 Term Bonds due October 1, 2027. Effective Interest Rate – 6.12%		
Maximum Annual Debt Service: \$4,798,000 in 2027 (Series 2003A).		
Bond Insurance: MBIA	Coupon Range: 2.00% to 5.00 %	
Bond Ratings: Moody's Investors Service, Inc. – Aaa; Fitch Ratings – AAA		
Moody's Investors Service, Inc. – A2 (Underlying Rating)		
Debt Service Schedule: See Section F		

PLEGGED REVENUES

First Lien on and pledge of Net Revenues derived from the operation of the Lee County Water and Sewer System (Lee County Utilities), Connection Fees received in connection with the System and certain moneys and investments on deposit in the funds and accounts established under the Bond Resolution ("Pledged Funds")

USE OF FUNDS

The Series 2003A Bonds financed the acquisition of certain water production, transmission, treatment and distribution facilities and wastewater collection, transmission treatment and disposal facilities located in Lee County, Florida and certain other property from Gulf Environmental Services, Inc. (GES) through the refinancing of certain debt of GES and pay certain costs of issuance of the Series 2003A Bonds including the premium for a municipal bond insurance policy and a portion of the premium of a Reserve Account Insurance Policy. **These bonds were refunded by the Water and Sewer Revenue Bonds, Series 2013B on July 31, 2013.**

SOLID WASTE SYSTEM REVENUE BONDS, SERIES 1995

BASIC INFORMATION

Principal Issue Amount:	\$27,880,000	Fund Number: 40160
Principal Balance Remaining as of September 30, 2014: \$0		
Date of Issue: November 1, 1995	Type of Funding Source: Revenue Bonds	
Type of Debt: Direct Self Supporting		
Debt Service Structure: 20-Year Debt Service beginning in FY1996 to FY2015 with Retirement of Principal beginning in FY1996. Effective Interest Rate – 5.83%		
Maximum Annual Debt Service: \$10,192,881 in 2011		
Coupon Range: 4.0 to 5.375%		

PLEGGED REVENUES

User Fees, Tipping Fees, Electric Sales Revenues, Surcharges, Franchise Fees or Other Income received by the County for the use of the services and facilities of the system.

USE OF FUNDS

The bond proceeds were used to acquire and construct the first phase of a Landfill and acquisition of two transfer stations in Hendry County. The Landfill is located on approximately 1,280 acres in Hendry County. The landfill was designed so that it can be divided into various components capable of disposing ash residuals and certain Bypassed Waste. The first of the Landfill, which was financed by the Series 1995 Bonds, will provide for a 12.3-acre cell for disposal of ash residuals. This cell will have a useful life of at least five years. Future phases of the Landfill will provide for cells capable of disposal of household and Construction and Demolition (C & D), solid waste, as well as disposal of ash residuals. Also included is construction of a scale and scale house, provision of a surface water management system and ancillary facilities. Construction of Phase 1 was expected to be completed by September 1, 1996.
