**Alico Road Connector Corridor Study**  
**Public Information Workshop**  
**October 4, 2007**

The Lee County Department of Transportation (LC DOT) held a public information workshop on Thursday, October, 4, 2007. The workshop was held at Gateway Trinity Lutheran Church, 11381 Gateway Boulevard, Fort Myers, Florida. The workshop was held to show the public the remaining alternative alignments that are being considered for the extension of Alico Road. The Alico Road Connector Corridor study area runs from the Southwest Florida International Airport boundary east to Green Meadows Road, and from Alico Road north of State Road 82 (SR 82) to SW 40<sup>th</sup> Street in Lehigh Acres.

The objective of the study is to develop transportation facilities that are economically sound. This study will document the need for improvements, the procedures used in the evaluation, and the results of the environmental and engineering analyses. The workshop was held to present information and to receive public input on the remaining alternative alignments for the corridor. Detailed aerials of the potential alignments, an evaluation matrix and display boards of the typical sections were on display around the room. Representatives from the Lee County project team were available to discuss the project and answer questions. A total of **52** people signed in at the registration table. Copies of the sign-in sheets are attached as Appendix A.

A newsletter with an updated alignment map was mailed out to property owners within the study area, interested parties and relevant County and City elected officials and staff members. The public information workshop was advertised in *The News-Press* on Thursday, September 27, 2007 as a 1/4-page legal display ad. A press release was sent on October 1, 2007 to local media agencies. A copy of the newsletter, mailing list, legal display ad and press release for the workshop are attached as Appendix B.

The meeting was conducted in an "open house" format that allowed the public to view the project material between 4:30 and 6:30 p.m. A handout that summarized the project provided detailed information about the roadway and future improvements. Aerial photographs with a project overlay showing the location and design of the new roadway and information boards with details about the project were on display at the workshop. Representatives from the LC DOT project team were present at the workshop to answer questions and discuss the project with the public. A copy of the handout and map is attached as Appendix C.

Members of the public were provided with comment forms at the workshop in order to have their opinion recorded as public record. A total of **15** comments were received at the workshop and in the following 14-day period. The comments were recorded and analyzed. The number in parenthesis after each comment indicates the number of times that same comment was submitted. A summary of written comments received and copies of the comment forms are attached as Appendix D.

# ALICO ROAD

## CONNECTOR CORRIDOR STUDY

Newsletter No. 1

September 2007

In January 2007, the Lee County Department of Transportation (LC DOT) began conducting a corridor alignment study to identify potential alternative alignments to connect existing Alico Road and State Road (SR) 82. The Alico Road Connector Corridor Study runs from the Southwest Florida International Airport boundary east to Green Meadow Road, and from Alico Road north of SR 82 to SW 40th Street in Lehigh Acres. The purpose of this study is to evaluate and document the engineering, environmental, social and economic issues associated with potential alignment alternatives and then select a preferred alternative based upon that analysis.

### Progress of Studies

The corridor extension study began with a wide range of potential alignments. These alignment alternatives were presented at a public workshop held in April of this year. A total of 106 people signed in at the workshop, and Lee County received over 34 written comments about the project.

After the workshop, the preliminary alignment alternatives were evaluated based on public comments, community and environmental impacts, costs for design and construction engineering inspection, right-of-way acquisition and construction and environmental mitigation costs. Seven alignment alternatives were eliminated after reviewing the information.

An updated alignment map for the Alico Road Connector Corridor Study is inside this newsletter. Four alignments are still being reviewed. The no-build alternative is still a viable alternative for the project and assumes that LC DOT would not construct an improved roadway from Alico Road to SR 82.

## Public Information Workshop

LC DOT invites the public to attend a public information workshop to view the progress of the Alico Road Connector Corridor Study. The workshop will be held in an "open house" format. Display boards will be available for viewing, and representatives from the LC DOT project team will be present to answer any questions.

Time: 4:30 – 6:30 p.m.

Date: Thursday, October 4, 2007

Location: Gateway Trinity Lutheran Church  
11381 Gateway Boulevard  
Fort Myers, Florida

# Alico Road Connector Alignment Alternatives

Four alignment alternatives are still being considered for the project. They are alternatives 1, 8, 9 and 11 and are shown on the map below.

Alternatives 1, 8 and 9 all begin at the intersection of Alico Road & Airport Haul Road. These alternatives all have the potential to directly align with the future County Road (CR) 951 extension.

Alternative 1 (blue) initially follows Airport Haul Road, it then turns east and follows the northerly border of the Florida Rock property, then turns north running through the Jamerson Farms property and follows Green Meadows Road north to SR 82 (Immokalee Road) where it connects with Sunshine Boulevard.

Alternatives 8 (red) and 9 (yellow) initially follow Airport Haul Road, then follow the eastern border of the Southwest Florida International Airport property and cross the FPL easement where they diverge.

Alternative 8 continues north, running along a similar alignment to Rod and Gun Club Road until it connects with SR 82 at the SW 40th Street intersection. The alignment then uses SW 40th Street in Lehigh Acres to connect to Sunshine Boulevard.

Alternative 9 separates from alternative 8, and runs northeast through Wild Turkey Strand and the Jamerson Farms property. Alternative 9 then follows Green Meadows Road north to SR 82 (Immokalee Road) where it connects with Sunshine Boulevard.

Alternative 11 (maroon) initially follows existing Alico Road. Alico Road then turns south while the alternative continues east and turns north through the Florida Rock property. It continues north through the Jamerson Farms property and then follows Green Meadows Road north to SR 82 (Immokalee Road) where it connects with Sunshine Boulevard.

## Proposed Roadway Design

The project is initially intended to be a two-lane roadway. This would consist of two 11-foot travel lanes (one in each direction), a 10-foot multi-use path on one side and five-foot paved shoulders on both sides of the roadway.

For the buildout year (2030), the road will become a four or six-lane roadway depending on the projected traffic numbers for that ultimate design year.

## Steps to a Preferred Alternative for the Alico Road Connector Corridor Extension

Comments received at the October 4, 2007 workshop will be taken into consideration and used together with engineering, environmental, and community impact analysis to develop the preferred alternative. The final preferred alternative will be presented to the Lee County Board of County Commissioners for approval. Currently no money is funded for design, right-of-way acquisition or construction.

**ALICO ROAD CONNECTOR CORRIDOR STUDY**

**PUBLIC INFORMATION WORKSHOP**

Lee County Department of Transportation (LC DOT) will conduct a public information workshop for the Alico Road Connector Corridor Study from 4:30 p.m. - 6:30 p.m., Thursday, October 4, 2007 at the Gateway Trinity Lutheran Church, 11381 Gateway Boulevard, Fort Myers.

The Alico Road Connector Corridor Study runs from the Southwest Florida International Airport boundary east to Green Meadow Road, and from Alico Road north of State Road 82 (SR 82) to SW 40th Street.

The objective of this study is to assist the LC DOT in reaching a decision on the location and conceptual design for an alignment to relieve traffic and provide a transportation corridor between Alico Road and SR 82. The study began with a wide range of potential alignments. These alignment alternatives were presented at public workshop held in April of this year. Seven alignment alternatives were eliminated after reviewing the information.

LC DOT is inviting the public to attend a corridor alignment public information workshop where they may view display boards with more detailed aerials of the remaining alternative alignments, environmental data for the study area, conceptual diagrams of the roadway and learn more information about the project. Representatives from LC

DOT will be available to discuss the project and answer questions. **The workshop will be conducted in an "open house" format; no formal presentation will be given.** You may attend anytime between 4:30 - 6:30 p.m.

**Alico Road Connector Corridor Study Public Information Workshop**

**Public Information Workshop Scheduled**  
**For the Alico Road Connector Corridor Study**

**Fort Myers, FL, October 1, 2007**– The Lee County Department of Transportation (LC DOT) will conduct a public information workshop for the Alico Road Connector Corridor Study. The workshop will be held from **4:30 - 6:30 p.m. on Thursday, October 4, 2007** at the **Gateway Trinity Lutheran Church, 11381 Gateway Boulevard, Fort Myers.** **The workshop will be conducted in an “open house” format; no formal presentation will be given. You may attend the workshop anytime between 4:30 – 6:30 p.m.**

The Alico Road Connector Corridor study area runs from the Southwest Florida International Airport boundary east to Green Meadows Road, and from Alico Road north of State Road (SR) 82 to SW 40th Street. The objective of this study is to assist the LC DOT in reaching a decision on the location and conceptual design for an alignment to relieve traffic and provide a transportation corridor between Alico Road and SR 82. The corridor extension study began with a wide range of potential alignments. These alignment alternatives were presented at a public workshop held in April of this year. After the workshop, the preliminary alignment alternatives were evaluated based on public comments, community and environmental impacts, costs for design and construction engineering inspection, right-of-way acquisition and construction and environmental mitigation costs. Seven alignment alternatives were eliminated after reviewing the information.

At the workshop, the public may view display boards with detailed aerials of the four remaining alignments, environmental data for the study area, conceptual diagrams of the roadway and learn more information about the project. Representatives from LC DOT will be available to discuss the project and answer questions.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella at kcella@cella.cc, or phone (239) 337-1071 prior to the workshop. If you have any questions or would like information prior to the workshop, contact Ms. Cella.

# **APPENDIX**

## **C**

## **INTRODUCTION**

The Lee County Department of Transportation (LC DOT) welcomes you to this public information workshop for the Alico Road Connector Corridor Study. Representatives from LC DOT are present to discuss project information and answer your questions. **There will not be a formal presentation this evening.** You may fill out your comment forms and deposit them in the comment boxes tonight or mail them to the address provided on the back of the form within 14 days. All comments become a part of the project record and will be compiled into a technical memorandum for this workshop. The technical memorandum will be available for viewing in approximately four to six weeks on Lee County's web site at [www.lee-county.com/publicworks/workshop.htm](http://www.lee-county.com/publicworks/workshop.htm).

## **ON DISPLAY TONIGHT**

- Aerial boards of remaining alignment alternatives
- Environmental information
- Evaluation matrix comparing estimated costs for each alternative

## **PROJECT DESCRIPTION**

The Alico Road Connector Corridor study area runs from the Southwest Florida International Airport boundary east to Green Meadows Road, and from Alico Road north of State Road (SR) 82 to SW 40th Street. The objective of this study is to assist the LC DOT in reaching a decision on the location and conceptual design for an alignment to relieve traffic and provide a transportation corridor between Alico Road and SR 82. The corridor extension study began with a wide range of potential alignments. These alignment alternatives were presented at a public workshop held in April of this year. After the workshop, the preliminary alignment alternatives were evaluated and as a result seven alignment alternatives were eliminated.

## **ROADWAY CONCEPTS**

The county is studying different roadway concepts for different build years. Initially the county would like to build the project as a two-lane roadway. Currently there is no money funded for right-of-way acquisition, design or construction. However, if the Lee County Board of County Commissioners chooses to proceed with the project, Lee County will actively look for funding for the design and construction of the two-lane segment. The earliest that construction could begin would be approximately 2012. For an ultimate design year of 2030 the roadway would become a four or six-lane roadway depending on projected traffic numbers.

## **EVALUATION OF ALTERNATIVES**

After this public information workshop, the remaining alternatives will be compared based on community and environmental impacts, costs for design and construction engineering inspection, right-of-way acquisition, construction and environmental mitigation. Public comment and sentiment will also be considered during the screening process and will be accepted throughout the project. Finally, a preferred alignment alternative will be selected and submitted to the Lee County Board of County Commissioners for approval.

## **PROJECT CONTACT**

If you have questions or would like information about this project, please contact the project's public information consultant, Cella Molnar & Associates, Inc., at (239) 337-1071 or toll-free at 1-877-496-1076 or e-mail to [kcella@cella.cc](mailto:kcella@cella.cc).

# **APPENDIX**

**D**

**Alico Road Connector Corridor Study Public Workshop No.2**  
**Comments Summary**

**Preferred alternative/in favor of project**

**Comment:** Alternative 11 is best. (1)

**Response:** *Thank you for your comment.*

**Comment:** If you can get past the Panther issue alternatives 1 or 11 look like the best bets because they avoid most of the wetlands and mostly hook up directly to Sunshine Boulevard. (1)

**Response:** *Thank you for your comment.*

**Comment:** Alternative 11 is preferred. Use as much of existing road as possible, increase the easement to the north side going back into Florida Rock. (1)

**Response:** *Thank you for your comment.*

**Comment:** Alignment 11 seems to be the best for habitat loss following mainly existing roadways. I understand the panther habitat loss but most of the loss is in farm fields not conducive to panthers. We need a way to help ease the SR 82 traffic. (1)

**Response:** *Thank you for your comment.*

**Comment:** Alternatives 8 and 9 would be ok if property presently occupied is purchased at a fair price. (1)

**Response:** *Thank you for your comment.*

**Comment:** This is needed even though it will impact me personally as an owner along the project. (1)

**Response:** *Thank you for your comment.*

**Against specific alternative**

**Comment:** Alternative 8 will create traffic problems because it hooks up with 40th street SW thus creating a major intersection between Daniels Parkway and SR 82 and Sunshine Boulevard and SR 82. Plus you would have to buy up all those homes on 40th Street SW. Alternative 8 is also close to the future airport runway. Plus alternative 8 might encourage an access to the proposed "Fountains" development thru the southern end of Shawnee Road. I fear "the Fountains" worse than the Alico Road alignment being close to my house. Alternatives 8 and 9 will put the road too close to owners now in these areas. (1)

**Response:** *Thank you for your comment.*

### **Comments about the DRGR study**

**Comment:** Given the work that is underway studying the potential future of the Density Reduction/Groundwater Resource area the study for the Alico Road alignment should be postponed until the DRGR study is complete. (5 comments - 1 received at meeting, 4 received via mail). (1)

**Response:** *The Alico Road corridor Study is almost complete. This project is an alignment study only - no other phases, design, right-of-way acquisition, etc. are funded in the adopted CIP.*

### **Questions**

**Comment:** How will alternatives 8 and 9 affect zoning and land use as it relates to the Lee Plan 20/20 and adjoining properties? (1)

**Response:** *The selection of an alignment alternative will not include changes to the current or future zoning and land use classifications of adjacent properties. Any future requests from land owners to change the zoning or revise the future land use for their parcels would have to follow the County's standard processes and the final decision would be made by the Board of County Commissioners.*

**Comment:** Why can't negotiations be done with FL Rock to put the alignment down Alico Road and existing Green Meadows Road. I don't understand the problem. A road would make their mining operation better - especially as their permit is currently revoked for mining PN2 anyway. (1)

**Response:** *Conversations are ongoing with many of the current property owners along the various alternatives. Alignment Alternative 4, which utilizes the existing road through the Florida Rock property, was dismissed due to excessive impacts to the mining operations. It was determined that the need for Florida Rock to move their equipment back and forth across the roadway corridor would unreasonably increase the construction cost of the roadway and provide a potentially dangerous condition if the crossing was at-grade. Elevating the crossing to preserve the safety of the motoring public would also be prohibitively expensive. Prohibiting Florida Rock from crossing the corridor, would increase their operational costs significantly and they would need to be compensated for that increase. As other alignment alternatives are available, it was deemed prudent to dismiss Alternative 4 for these reasons.*

**Comment:** With all the routes connecting with Green Meadows I live at Balfour and Green Meadows. I want to know if the side roads will connect to the new extension so I have a way to get home every day. (1)

**Response:** *If an alignment connecting to Green Meadows is selected, the county will relocate the intersection of Green Meadows at SR-82 and provide a connection between Green Meadows and the new roadway. At*

***this time, it is not possible to identify where this connection will occur. This decision will be made following the selection of a final alignment alternative and the residents of Green Meadows would continue to be included in the decision making process.***

### **Requests**

**Comment:** Please align the road west of the FP&L power lines. I do not want to lose my home or any of my property. Please put in an access road at Kentara and Green Meadows. Better to do it now while things are cheap to help stimulate the local economy. (1)

**Response:** *Thank you for your comment. It is the County's intent to minimize the acquisition of residential properties where possible. We are still developing the final alignment and will take your concerns into consideration.*

**Subject:** Alico Road Connector Corridor Study

Ms. Cella: On behalf of my colleagues in Shadow Wood of the Brooks, we urge Lee County DOT to postpone the subject study until Lee County has completed its DRGR Action Plan as authorized by the Board of County Commissioners (BOCC).

We understand that all of the proposed routes would traverse DRGR lands designated by Lee County. The BOCC approved a moratorium on Comprehensive Plan changes and most rezonings in the DRGR at its September 18, 2007 meeting. As such, this moratorium should also apply to any new proposed roadways in the DRGR lands regarding the Alico Road Corridor.

We urge Lee County DOT to follow the policy of the BOCC regarding the moratorium on planning for DRGR lands. It would be unnecessary, inappropriate and excessively costly to plan any roadway through any DRGR lands of Lee County.

Sincerely,

Donald Rowe

Comments: ALONG 11 SEEMS TO BE THE BEST ACT  
FOR HABITAT LOSS, FOLLOWING MAINLY EXISTING ROWS  
I UNDERSTAND THE PANTHER HABITAT LOSS BUT MOST OF  
THE LOSS IS IN FARM FIELDS NOT CONDUCIVE TO PANTHERS.

MY ONE CONCERN IS WITH WHY WE CANT BE DONE  
WITH FL ROCK TO MAKE THE ALICO DOWN ALICO &  
EXIST GR MEADOWS. I DONT UNDERSTAND THE PROBLEM  
A ROAD WOULD MAKE THEM IN THEIR MINING OPERATIONS  
SEEING AS THEIR PERMIT IS CURRENTLY REVOKED FOR MINING  
PH 2 ANYWAY.

THE ALICO WOULD ALSO GIVE ACCESS TO THE 20/20  
PROPERTY NOW ON THE EAST BORDER OF GR MEADOWS.

WE NEED A WAY TO HELP EASE HWY 82 TRAFFIC THIS IS  
NEEDED EVEN THOUGH IT WILL IMPACT ME PERSONALLY.  
AS AN OWNER ALONG THE PROJECT BOUNDARY.

Comments: IF YOU CAN GET PAST THE PANTHER/WILDLIFE QUESTIONS,  
ALTERNATIVE 1 + 11 LOOK LIKE THE BEST BETS BECAUSE THEY AVOID MOST  
OF THE WETLANDS + (MOSTLY) HOOK UP DIRECTLY TO SUNSHINE BL.  
ALT. 8 WILL CREATE TRAFFIC PROBLEMS BECAUSE IT HOOKS UP WITH  
40TH ST SW, THUS CREATING A MAJOR INTER SECTION BETWEEN  
DANIELS / R2 + SUNSHINE / R2. PLUS, YOU'D HAVE TO GET UP ALL  
THOSE NEWLY BUILT HOMES ON 40<sup>TH</sup> ST. ALT. 8 IS ALSO TOO CLOSE  
TO THE FUTURE AIRPORT RUNWAY. PLUS ALT 8 MIGHT ENCOURAGE  
AN ACCESS TO THE PROPOSED "FOUNTAINS" DEVELOPMENT THRU THE  
SOUTH END OF SHOWNEE RD. I FEAR "THE FOUNTAINS" WORSE THAN THE  
ALICO RD ALIGNMENT BEING CLOSE TO MY HOUSE

Bonita Springs, FL 34134

Sent Via Email

October 11, 2007

Ms. Kris Cella  
Cella Molnar and Associates  
1631 Hendry Street  
Ft. Myers, Florida 33901

Dear Ms. Cella:

Meadowbrook of Bonita Springs Homeowners Association urges Lee County DOT to postpone the Alico Road Connector Corridor Study until Lee County has completed the DRGR Action Plan authorized by the Board of County Commissioners on September 11, 2007. All of the proposed routes are located in the County designated DRGR. The Board approved a moratorium on Comprehensive Plan changes and most rezonings in the DRGR at their September 18<sup>th</sup> meeting. This principle should apply to new proposed roadways in the DRGR as well. Transportation plans should follow good land use planning, not the other way around.

If and when this proposal is considered again it should be as part of a western access study to and from the Lehigh area that includes the four ongoing western access projects now underway.

Sincerely,

/S/ Paul Carr

**Subject:** RE: FWF Comments on Alico Road Connector Corridor Study

Commissioners,

I understand there are a few letters arriving asking for the cessation or delay of the Alico Corridor Study. Unfortunately we are, for the most part, finished except for literally the final calculations and final presentation to the Board. Typically at the final presentation we would ask the Board to adopt an alignment and authorize us to pursue voluntary right of way acquisition along the chosen alignment. This is done to protect those people who own property along a chosen alignment and want to sell. As well as to release those people on other alignments from the obligation to inform anyone considering purchasing their property that a road is being considered.

If we stop prior to that adoption we leave a number of landowners in this catch 22 position. If these people need, or want to sell their property, home or business, they have to disclose to any potential buyer that their property is being considered for a roadway alignment. At this point there are 4 alignments being considered, one of which affects a large number of home and lot owners in Lehigh along 40<sup>th</sup> street. A second alignment affects home and property owners along Green Meadows Road. A number of the people who attended the two public meetings we held for this project expressed concern at this situation we had put them in. We assured them we would reach a conclusion around the end of the year so they would know their fate.

I felt I should relay the down side of delaying the study at this point.

RE: Alico Road Connector Corridor Study

Dear Ms. Cella:

Florida Wildlife Federation requests that the Alico Road Connector Corridor Study be held in abeyance until completion of the DRGR Study recently authorized by the Lee County Board of Commissioners.

In the interim, the Federation urges the Lee County Department of Transportation to pursue upgrades to existing roads.

Sincerely,

*Nancy Anne Payton*
