

TREELINE AVENUE PROJECT
PUBLIC INFORMATION WORKSHOP
TECHNICAL MEMORANDUM

Lee County, Florida

Prepared For:
Lee County Board Of County Commissioners
Lee County Department Of Transportation
P. O. Box 398
Fort Myers, Florida 33902-0398

Date of Meeting: June 30, 2004

Treeline Avenue Project

Public Information Workshop

Technical Memorandum

June 30, 2004

The Lee County Department of Transportation (LC DOT), The City of Fort Myers and Worthington Holdings Southwest, LLC, held a Public Information Workshop on Wednesday, June 30, 2004, in the Magnolia Room at Pelican Preserve, 10561 Veneto Drive, Fort Myers, Florida for the Treeline Avenue Project. The purpose of the workshop was to present design details of the Treeline Avenue Project. This project consists of both widening and constructing a new alignment, 4.15 miles of Treeline Avenue beginning approximately 700 feet south of the Pelican Preserve entrance, and continuing south to Daniels Parkway. The project limits, typical sections and landscaping plans were presented at the meeting and the public was encouraged to give input and fill out comment forms. A total of 119 people signed in at the registration table. Copies of the sign-in-sheets are attached as Appendix A.

A letter announcing the workshop was mailed on June 17, 2004 to interested persons and persons with property lying within 300' of the right-of-way for Treeline Avenue. A legal display ad was printed in *The News-Press* on June 28, 2004. A press release was submitted to *The News-Press* on June 25, 2004. Variable message boards were placed within the project limits for a period of five days prior to the workshop to inform the traveling public. The notification letter, mailing list, legal display ad and press release for the workshop are attached as Appendix B.

The workshop was conducted in an open house format that allowed the public to view the project material between the hours of 5:00-6:30 p.m. A handout that summarized the project was provided to the public at the registration table. Project team members and representatives from LC DOT were present to explain the data boards and answer questions. A copy of the handout is attached as Appendix C.

The public was provided with comment forms at the meeting in order to have their opinion recorded as public record. A total of 9 comment forms were received at the meeting and in the 14 days following. The comments were summarized and the number in parenthesis after each comment indicates the number of times that same comment was submitted. Copies of the comment forms are attached as Appendix D.

**Treeline Avenue Project
Public Information Workshop
Technical Memorandum
June 30, 2004**

General Comments

Comment: We give you credit for recognizing that Lee County has had a population explosion, and consequently needs road expansion (1)

Response: *Thank you for your comment.*

Suggestions

Comment: Please put a left turn lane from Treeline Avenue to Pelican Preserve before Treeline Avenue is open to through traffic (2)

Response: *Lee County was made aware at the public meeting that there is no left turn lane into the Pelican Preserve development from Treeline Avenue. Lee County has requested information from the City of Fort Myers regarding commitments the developer made for site related improvements to determine who will be responsible for installing the turn lane.*

Comment: We want to see plantings, barriers, buffers installed by both WCI and the County (1)

Response: *Core level landscaping as defined by the LeeScape Master Plan Second Edition for Lee County will be provided, and will include canopy trees, palms, accent/flowering trees and sod within the median. Lee County Department of Transportation does not provide noise abatement features such as sound walls, etc; this has always been their policy. WCI could choose to put in berms/landscaping/noise abatement features, but this is entirely their decision.*

Concerns With Project

Comment: We early residents were also told Treeline Avenue would be a sleepy road, which it is not (1)

Comment: I don't know if anyone knows what the impact will be when the project is complete (1)

Response: *The developers of Pelican Preserve and Colonial Country Club were instrumental in choosing the current alignment of Treeline Avenue and dedicating the necessary right-of-way. At that time the developers were aware that Treeline would eventually connect to Daniels Parkway and farther south. Projected opening day numbers in 2006 are: Colonial to Pelican Preserve - 15,100 AADT (Average Annual Daily Traffic), Pelican Preserve to Daniels Parkway- 10,100 to 11,700 AADT. These can be compared to the existing road 2003 traffic counts: Daniels Parkway Extension just west of SR 82 - 14,100 AADT and Three Oaks Parkway south of Corkscrew Road - 10,700 AADT, as an example of the type of usage the road will have. The construction of Treeline Avenue between Colonial Boulevard and Daniels Parkway, and between Daniels Parkway and Alico Road (currently underway), will provide a significant route for traffic coming from the new Midfield Terminal at Southwest Florida International Airport.*

Comment: This project was planned for over eight years and owners were not made aware of the

impact it will have on the area (1)

Comment: WCI told us they didn't know where the road would go (1)

Comment: We object to any process that does not include public input (1)

Comment: This all snuck up on us unknowingly (1)

Response: *The project has been on the MPO's 2020 Financially Feasible Highway Plan since December 1995. The project has been on the MPO's 2010 Financially Feasible Highway Plan as early as 1993, long before most of the existing developments adjacent to the corridor were even planned. All of this information is available on the Internet or can be obtained for a small fee at the Metropolitan Planning Organization or Lee County Department of Transportation offices. WCI also has the road marked on their community maps. WCI was well aware of where the road would be located since they dedicated the right-of-way necessary for the road and agreed to take stormwater from the road into the Pelican Preserve development.*

Comment: We don't understand why there was not enough room left between Pelican Preserve premium lots and Treeline Avenue (1)

Comment: Lee County Department of Transportation/The City of Fort Myers should have made developers give more clearance to the surrounding communities before they built (1)

Comment: Why did the road have to be so close to the lots in Pelican Preserve? (1)

Response: *The right-of-way for the road was dedicated by WCI and Worthington prior to development of the adjacent parcels. The layout of the developments was governed by City of Fort Myers development codes and the desires of the developer. From a safety standpoint the "premium lots" in Pelican Preserve are far outside the clear zone of the roadway.*

Comment: Lee County Department of Transportation demonstrated disregard for adequate land space for sight and sound barriers to buffer our residential homes from traffic (1)

Response: *Lee County Department of Transportation does not provide noise abatement features such as sound walls, etc; this is the Board of County Commissioner's direction and County policy. Visual and sound barriers are the responsibility of the community and/or developer. Pelican Preserve developers chose not to install any barriers; Colonial Country Club chose to install a wall as a visual barrier/perimeter security.*

Comment: Pelican Preserve residents are concerned with pollution to the environment (we are a green community) and sound pollution (1)

Response: *The construction of Treeline Avenue will not in and of itself add more pollution to the environment. We are not adding more cars to the road, simply adding more roads for cars to drive on therefore relieving congestion and cutting down on pollution. As stated in several of the previous responses, Lee County's policy is that we do not install sound barriers on roadways.*

Comment: Treeline Avenue will look like Colonial Boulevard and U.S. 41 in a few years (1)

Response: *Thank you for your comment.*

Comment: Traffic lights are needed at Pelican Preserve and Treeline Avenue, and at Colonial Boulevard and Treeline Avenue (1)

Response: *A signal is planned for Colonial Boulevard and Treeline Avenue with the construction of the road. If the community of Pelican Preserve desires a traffic signal at their entrance then they must complete a traffic signal warrant study. If the study indicates that a signal is warranted*

then Lee County will consider what impact a signal would have at this location. A recommendation will be made to either make alterations to the median or allow the developer and/or community to construct a signal.

Presentation Comments

Comment: No one here was truly qualified to answer our questions (1)

Response: There were a number of project representatives at the meeting including specialist engineers who were qualified to answer questions.

Comment: This workshop was a scam (1)

Response: This workshop was held for educational purposes to present information about the project, answer questions and obtain public comment before the start of construction on the road.

Comment: We need a regular forum where someone more knowledgeable can answer all of our concerns (1)

Response: If you have any questions or concerns you should contact the Lee County Department of Transportation project manager Nicole Maxey at 479-8569.

Comment: A boiler plate presentation (1)

Response: Thank you for your comment.

Questions

Comment: Please get back with me and tell me what anyone is doing to protect drivers from getting hit by errant golf balls (1)

Response: The County Attorney's Office has researched case law regarding liability for golf balls leaving the golf course and landing in the roadway. From the case law that exists on the subject, liability has been imposed on golf course owners for golf balls that escape the course and injure people outside the course. The basis for such liability is negligent design of the course so shots leave the course and fly onto adjacent streets or failure to construct barriers to contain golf shots and preventing them from reaching the street. The premise is an owner is responsible for the consequences of activities he conducts or permits on his property and has the obligation to contain these activities to his property. With this information it would be prudent that the owner of the course look at installing some type of barrier that will prevent errant golf balls from entering the roadway.

Comment: How do you plan to keep the speed limit to 45 mph? (1)

Response: Speed limit enforcement issues are under the remit of the Law Enforcement Agencies.

Comment: What is going to happen with the wetlands that separate the private road in Colonial Country Club and Treeline Avenue? (1)

Response: If the wetlands are within the property controlled by Colonial County Club then Lee County has no control of what happens to them. If the wetlands are located within the right-of-

way for Treeline Avenue, they will be filled with the construction of the road and mitigated for through either on-site or off-site mitigation.

Comment: Can't trucks come in from Daniels Parkway rather than Colonial Boulevard? (2)

Response: Trucks will be utilizing both entrances. They will begin by using the Colonial Boulevard entrance, as this is closer to materials at this stage of the project. About mid-way through the project they will use the Daniels Parkway entrance too, as it will be closer to materials for that part of the project. It is more efficient and cost effective to use both entrances. As Treeline Avenue is a public right-of-way with no truck restrictions, Lee County will not deny the road contractor's right to use this road while allowing building contractors in Pelican Preserve to utilize Treeline Avenue.

Comment: Why have you chosen to construct the north end of Treeline Avenue vs. the south end off of Daniels Parkway? (1)

Response: Utilities are being constructed at the north end of the road at this time. It is more cost effective and efficient to begin construction on the road in conjunction with the utility installation as materials transportation and labor can be consolidated. Unless there are specific permit requirements that require construction to start in a particular location, Lee County does not control where the contractor starts their construction.

Comment: When will the south part of Treeline Avenue begin construction? (1)

Response: Probably mid-way through the project.

Comment: What are the phases and timetable of the road construction? (2)

Response: Begin construction – First quarter 2005, end construction – First quarter 2006

Comment: When will utilities be installed? (1)

Response: Utilities are being installed during the project.

Comment: When will gutters and storm lanes be installed? (1)

Response: The curb and gutter will be installed prior to paving of the road. At this time it is impossible to pin down an accurate timeframe as to when that portion of the construction will be done.

Comment: When and by whose authority will the bridge at the Gateway Canal be permitted for six lanes? (1)

Response: The entire roadway has been permitted through the South Florida Water Management District (SFWMD) for a four-lane road with the ability to expand to six lanes. The box culvert installed at the Gateway Services District Canal has been installed in a manner that no structural alterations will be necessary to construct the additional two lanes. At the time that the County proposes to construct the two additional lanes, a modification to the existing SFWMD permit will be necessary.

Dear Interested Party:

The Lee County Department of Transportation (LC DOT), the City of Fort Myers, and Worthington Holdings Southwest, LLC will conduct a public information workshop concerning the above referenced project. The workshop will be held on Wednesday, June 30, 2004 from 5:00 – 6:30 p.m. in the Magnolia Room at Pelican Preserve, 10561 Veneto Drive, Fort Myers, Florida (see map on back).

The Lee County Metropolitan Planning Organization (MPO) is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process for all of Lee County. It must plan for the movement of both people and goods within the county by all modes of travel - including highways, public transportation, bicycles, and pedestrians. In order for the MPO to be eligible for federal funds, federal law requires that the MPO endorse a transportation improvement program and set priorities identifying the projects to be constructed over the next few years.

The Treeline Avenue Project has been on the MPO's 2020 Financially Feasible Highway Plan since December 1995 and was on the MPO's 2010 Financially Feasible Highway Plan as early as 1993, long before most of the existing developments adjacent to the corridor were even planned. In response to rapid growth and development that is occurring in the area, LC DOT has approved the acceleration of the Treeline Avenue Project, to be conducted by Worthington Holdings Southwest, LLC and their consultant in LC DOT right-of-way. LC DOT is supervising the project.

This project consists of both widening and constructing a new alignment, 4.15 miles of Treeline Avenue beginning approximately 700 feet south of the Pelican Preserve (Sun City) entrance, and continuing south to Daniels Parkway. The project will involve the reconstruction and/or widening of existing Treeline Avenue as a four-lane divided road within the 125-foot right-of-way. This ultimately could be expanded to six lanes by widening into the median for future lanes. The design speed for the road is 45 MPH. Sidewalks, street lighting, and landscaping will be installed as part of this project and a stormwater drainage system is being designed under criteria developed by the South Florida Water Management District that can accommodate future six-lane expansion. Estimated construction cost for this project is \$18 million and is being advance funded by Worthington Holdings Southwest, LLC with the funding being paid back by the City and County through impact fee credits. The estimated start date for construction is the first quarter of 2005 with an approximate duration of 12 months.

This notification is being distributed to occupants/property owners within 300' of the proposed right of way (even though they may not be directly affected). The public information workshop is being held to present design details of the Treeline Avenue Project. Representatives from the project team will be on hand to discuss the project and answer questions. The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime from 5:00 - 6:30 p.m.

Anyone needing special accommodations for the workshop under the Americans with Disabilities Act of 1990 should contact Kris Cella at kcella@cella.cc or phone 239-337-1071 at least seven days prior to the workshop. If you have any questions about the project or would like information prior to the workshop, contact Ms. Cella.

Sincerely,
DEPARTMENT OF TRANSPORTATION

**TREELINE AVENUE PROJECT
PUBLIC INFORMATION WORKSHOP**

The Lee County Department of Transportation (LC DOT), the City of Fort Myers, and Worthington Holdings Southwest, LLC will conduct a public information workshop concerning the above referenced project. The workshop will be held on **Wednesday, June 30, 2004 from 5:00 - 6:30 p.m.** in the **Magnolia Room at Pelican Preserve, 10561 Veneto Drive, Fort Myers, Florida.**

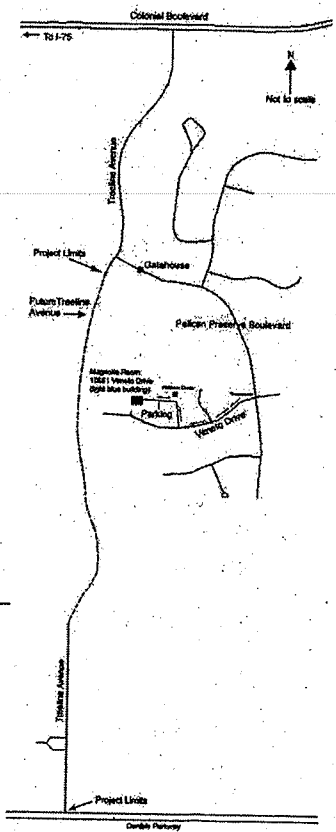

This project consists of both widening and constructing a new alignment, 4.15 miles of Treeline Avenue beginning approximately 700 feet south of the Pelican Preserve (Sun City) entrance, and continuing south to Daniels Parkway. The project will involve the reconstruction and/or widening of existing Treeline Avenue as a four-lane divided road within the 125-foot right-of-way. This ultimately could be expanded to six lanes by widening into the median for future lanes. The design speed for the road is 45 MPH. Sidewalks, street lighting, and landscaping will be installed as part of this project and a stormwater drainage system is being designed under criteria developed by the South Florida Water Management District that can accommodate future six-lane expansion. Estimated construction cost for this project is \$18 million and is being advance-funded by Worthington Holdings Southwest, LLC with the funding being paid back by the City and County through impact fee credits. The estimated start date for construction is the first quarter of 2005 with an approximate duration of 12 months.

The public information workshop is being held to present design details of the Treeline Avenue Project. Representatives from the project team will be on hand to discuss the project and answer questions. **The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime from 5:00 - 6:30 p.m.**

Anyone needing special accommodations for the workshop under the Americans with Disabilities Act of 1990 should contact Kris Cella at kcella@cella.cc or phone 239-337-1071. If you have any questions about the project or would like information prior to the workshop, contact Ms. Cella.

**Treeline Avenue Extension and Widening Project from
Daniels Parkway to Colonial Boulevard
Public Information Workshop**

Fort Myers, FL, June 25, 2004 -The Lee County Department of Transportation (LC DOT), the City of Fort Myers, and Worthington Holdings Southwest, LLC will conduct a public information workshop concerning the above referenced project. The workshop will be held on Wednesday, June 30, 2004 from 5:00 – 6:30 p.m. in the Magnolia Room at Pelican Preserve, 10561 Veneto Drive, Fort Myers, Florida. **This is an informal public workshop; no formal presentation will be given. You are invited to attend anytime between the hours of 5-6:30 p.m.** The public information workshop is being held to present design details of the Treeline Avenue Project. Representatives from the project team will be on hand to discuss the project and answer questions.

The Treeline Avenue Project has been on the MPO's 2020 Financially Feasible Highway Plan since December 1995 and was on the MPO's 2010 Financially Feasible Highway Plan as early as 1993, long before most of the existing developments adjacent to the corridor were even planned. In response to rapid growth and development that is occurring in the area, LC DOT has approved the acceleration of the Treeline Avenue Project, to be conducted by Worthington Holdings Southwest, LLC and their consultant in LC DOT right-of-way. LC DOT is supervising the project.

This project consists of both widening and constructing a new alignment, 4.15 miles of Treeline Avenue beginning approximately 700 feet south of the Pelican Preserve entrance, and continuing south to Daniels Parkway. The project will involve the reconstruction and/or widening of existing Treeline Avenue as a four-lane divided road within the 125-foot right-of-way. This ultimately could be expanded to six lanes by widening into the median for future lanes. The design speed for the road is 45 MPH. Sidewalks, street lighting, and landscaping will be installed as part of this project and a stormwater drainage system is being designed under criteria developed by the South Florida Water Management District that can accommodate future six-lane expansion. Estimated construction cost for this project is \$18 million and is being advance funded by Worthington Holdings Southwest, LLC with the funding being paid back by the City and County through impact fee credits. The estimated start date for construction is the first quarter of 2005 with an approximate duration of 12 months.

If you have any questions about the project or would like information prior to the workshop, please contact Kris Cella, Cella & Associates, Inc. at (239) 337-1071 or e-mail kcella@cella.cc prior to the workshop.

APPENDIX

C

LEE COUNTY SOUTHWEST FLORIDA

Treeline Avenue Project Public Information Workshop

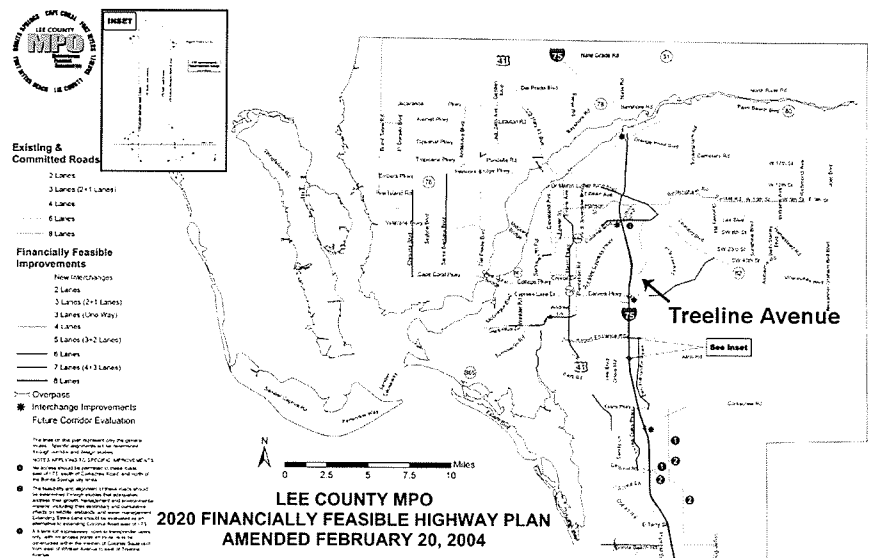

The Lee County Department of Transportation (LC DOT), in conjunction with Worthington Holdings Southwest, LLC, and the City of Fort Myers, would like to welcome you to the Treeline Avenue Project Public Information Workshop. **This is an informal public workshop; no formal presentation will be given.** This workshop is being held to present information on design details for widening and constructing a new alignment for Treeline Avenue. A list of presentation boards on display this evening are shown on the back of this handout. Members of the project team are available to answer questions. Comment forms are provided with this handout and can be deposited in the comment boxes this evening, or can be mailed to the address provided on the back of the form within 14 days.

This project consists of both widening existing Treeline Avenue and constructing a new alignment, beginning approximately 700 feet south of the entrance to Pelican Preserve and continuing 4.15 miles south to Daniels Parkway.

The construction of Treeline Avenue between Colonial Boulevard and Daniels Parkway, and between Daniels Parkway and Alico Road (currently underway), will provide a significant route for traffic coming from the new Midfield Terminal at Southwest Florida International Airport. While Treeline Avenue is initially being constructed with four lanes, ultimately this could be expanded to six lanes by widening into the median for future lanes. Traffic model tests were run for 2026 with Treeline Avenue as a four lane road. These tests confirmed that four lanes are adequate through 2026.

The Treeline Avenue Project has been on the Metropolitan Planning Organization's (MPO's) 2020 Financially Feasible Highway Plan since December, 1995 and was on the MPO's 2010 Financially Feasible Highway Plan as early as 1993, long before most of the existing developments adjacent to the corridor were even planned. In response to the rapid growth and development occurring in this area, LC DOT has approved the acceleration of the Treeline Avenue Project, to be conducted by Worthington Holdings Southwest, LLC and their consultant, in LC DOT right-of-way. LC DOT is supervising the project.

Roadway Details

The project will involve the construction and/or widening of existing Treeline Avenue as a four-lane divided road within the 125-foot right-of-way, and will include the following:

- One 11-foot travel lane and one 15-foot travel lane in each direction
- An eight-foot multi-use path on the east side of the roadway
- A six-foot sidewalk on the west side of the roadway
- Landscaping will be located in the median

The design speed for the road is 45 MPH. A stormwater drainage system is being designed under criteria developed by the South Florida Water Management District that can accommodate future six-lane expansion. Estimated construction cost for this project is \$18 million and is being advance funded by Worthington Holdings Southwest, LLC with the funding being paid back by the City and County through impact fee credits.

Construction Schedule

The estimated start date for construction is the first quarter of 2005 with an approximate duration of 12 months.

Presentation Boards on Display

- Aerials showing the project location and limits
- Typical sections detailing the road design
- Aerial boards with details of construction plans showing landscaping and median openings

Comments: MY WIFE AND I PURCHASED PROPERTY IN COLONIAL COUNTRY CLUB
IN JUNE. WE PLAN TO CLOSE ON THE NEW CONSTRUCTION IN FEBRUARY
OF 2005. OUR PROPERTY HAS AN EASTERN EXPOSURE. THE VIEW FROM
OUR LANAI LOOKS AT THE WETLANDS AND TREES THAT SEPARATE THE
PRIVATE ENTRY ROAD IN COLONIAL C.C. AND TREELINE DRIVE. OUR
PROPERTY IS APPROXIMATELY HALFWAY BETWEEN COLONIAL BLVD. AND
THE FIRE SAFETY STATION.

OUR CONCERN IS, WHAT IS GOING TO HAPPEN TO THE AREA OF
TREES AND WETLAND MENTIONED ABOVE. IS THERE A PLAN FOR
COMMERCIAL DEVELOPMENT? IF SO, WHAT COULD IT BE?

THANK YOU FOR TAKING THE TIME TO RESPOND TO OUR
CONCERNS. WE LOOK FORWARD TO MOVING TO THE FT. MYERS AREA
AND ONLY WANT TO BE PREPARED FOR WHAT IS COMING.

Comments:

A Boiler plate presentation.
Nothing new was presented.
This project was planned for
over 8 yrs. And owners were not
made aware of the impact it
will have on the area.
Treeline Dr will look like Colonial
Bvd & 41 for several years

Comments: We don't understand why there
was not enough ~~to~~ room left
between P.P. Premium lots and
Treeline Rd. Why did it have to be
so close? That is the most upsetting
of everything -
Want trucking come in from
Manich rather than Colodial?
Why go through residential when you
can come in the commercial way?
What are the next stages?

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

**TREELINE AVE. MEETING JUNE 30TH
AT THE MAGNOLIA ROOM**

Hi Pelican Residents:

As you know, Wednesday June 30th from 5-6:30 PM Lee county D.O.T.. will be having a Q & A session for homeowners living near Treeline. You will receive a second e-mail from me a D.O.T. letter that was sent to those homeowners nearest to Treeline. This letter has some valuable information for us.

Per some of your requests, I have organized some issues you may want to ask Worthington (developer responsible for construction of Treeline) and engineers from D.O.T..

Questions for Worthington:

- 1. Why have you chosen to construct the north end of Treeline vrs. the south end off of Daniel's?**
- 2. When will the south part Treeline begin construction?**
- 3. Is it Worthington's intention to bring most of the construction truck traffic in from Colonial Blvd.? If this is the case, this trucking will pass by the residential communities of Pelican Preserve and Colonial Country Club. How do you justify bringing most of the trucking traffic past these two residential communities when you have the option to bring it in from the south off of Daniel's, a commercial area.**

Questions for D.O.T. & Worthington:

- 1. Describe phases and timetable of the road construction. In what phase is the construction at by our community, Pelican Preserve?**
- 2. When will utilities be installed?**
- 3. When will gutters and storm drains be installed?**
- 4. The bridge at the gateway canal is already wide enough for 6 lanes (162feet). It is only permitted for 4 lanes. When and by whose authority will a request for the expansion be made to 6 lanes?**

Questions & Statement of Grievances to D.O.T.:

- 1. We give you credit for recognizing that Lee Co. has a population explosion and, consequently, road expansion.
We object to any process that does not include public input. Your early planning combined with County Commissioner's approval of roadway plans prior to construction of residential communities, left resident/taxpayers without the opportunity for input as to what will go through their back yards. Thus, Lee county public agencies and**

elected officials squelched taxpayers' abilities to represent themselves and their neighborhoods.

2. D.O.T., as a public agency in the acquiring of the Treeline right of way demonstrated a disregard for adequate land space for sight and sound barriers to buffer our residential homes from traffic. This negligence is evident in that D.O.T. required Pulte(Colonial Country Club) and W.C.I.(Pelican Preserve) to surrender each an additional 12 ½ feet to allow for a 6 lane highway. This D.O.T. action was before developers started construction. Our objection is not that you needed more land for 6 lanes, but that you did not require the developers to move the backyards of the homes 12 ½ feet further away from Treeline. This would have allowed for 12 ½ feet of berms and vegetation to cure the sound and sight nuisance traffic.
3. There are three areas that are potential hazards on Treeline Ave. for Pelican Preserve residents. We would like to know ^{why} D.O.T. plans on doing to rectify these hazards. Stop and Go lights are needed in two intersections: at Pelican Preserve Blvd. and Treeline Ave. and Colonial and Treeline Ave. Due to the Safety Station located at the first intersection emergency vehicles need to negotiate through both intersections when necessary. This justifies stop and go lights. Also, many of the residents from Colonial Country Club use their rear entrance/exit onto Treeline and this combined with Pelican Preserve traffic warrants traffic lights at both intersections. The third, hazard is the left turns lane going south on Treeline at the Pelican Preserve Blvd. intersection. Northbound Treeline traffic will not have to stop. This will result in southbound traffic turning onto Pelican Preserve Blvd. to back up in the left lane. A cut out for lefts turn lane in the median is needed here.

Finally, if you decide you'd like to express your opinion to public and elected officials regarding these or other Treeline Ave. issues, here are the addresses some of you asked for:

John Albion

Lee County

Commissioner

P.O. Box 398

Fort Myers, Fl. 33902-0398

Comments: Somewhere the DOT/city of FT Myers should have made developers give more clearance to the surrounding communities before they built. WCI told us they did not know where the Road would go + this was obviously a lie. We early residents were also told TreeLine would be a sleepy Road which is not.
The PP Residents' concerns are pollution to the environment (we are a green community) + sound pollution. We want to see plantings, barriers, buffers installed by both WCI and the county.
