TECHNICAL MEMORANDUM

**THREE OAKS PARKWAY WIDENING
FROM
CORKSCREW ROAD TO ALICO ROAD**

LEE COUNTY PROJECT #5021

Lee County, Florida

Prepared for:
Lee County Board of County Commissioners
Department of Transportation
P.O. Box 398
Fort Myers, Florida 33902-0398

Date: November 19, 2002

PUBLIC INFORMATION WORKSHOP
TECHNICAL MEMORANDUM
THREE OAKS PARKWAY WIDENING
FROM
CORKSCREW ROAD TO ALICO ROAD
LEE COUNTY PROJECT #4081

Lee County Department of Transportation makes it a practice to hold public meetings on all new roadway alignments and major improvements. These public meetings are held to inform and solicit input from the public regarding the specific project being presented. The Three Oaks Parkway Widening public workshop was held to solicit public input regarding the 30% design plans for the widening of Three Oaks Parkway from Corkscrew Road to Alico Road.

A public information workshop for the Three Oaks Parkway Widening Project was held on November 19, 2002 at the Three Oaks Middle School cafetorium in Fort Myers. The limits of the project are from Corkscrew Road to Alico Road. The purpose of the workshop was to present project information to the public and to gather public opinion. A total of 190 people signed in at the registration table. Copies of the sign-in-sheets are included in Appendix A.

The public workshop was advertised in the November 8, 2002 edition of the News-Press as a ¼ page display ad. Letters announcing the public workshop were mailed on November 5, 2002 to persons with property lying within 300' of the right-of-way. The Lee County Department of Public Resources transmitted a press release to local media on November 8, 2002. Two articles were generated as a result of the press release; one in the Naples Daily News and one in the News-Press. Two variable message boards were placed within the project limits for a period of one week prior to the workshop to inform the traveling public. Copies of the notification letter, mailing list, and the newspaper articles for the workshop are included in Appendix B. Also included in Appendix B is a copy of the ¼ page display ad.

The meeting was conducted in an open-format style that allowed the public to view the project material between the hours of 5:00 to 7:00 pm. A project hand-out that summarized the project to date, was provided to the public at the registration table. In addition, a brochure about the Lee County MPO and their planning process was available. Representatives from the Lee County Department of Transportation were stationed at the display boards to explain the project data and answer the public's questions. Copies of the public workshop hand-out and MPO brochure are included in Appendix C.

The public was provided with comment forms in order to have their opinion recorded as public record. A total of 214 comment forms were received from the meeting and during the two-week comment period following the meeting. A petition with 141 signatures supporting the alternative realignment Plan B was also received. The comments were analyzed and recorded below. The response indicates if/how the project team is addressing the public comment. The numbers in parenthesis indicate the number of times the same or similar comment was submitted. In some instances, the neighborhood or related entity submitting numerous "like" comments are listed. Copies of the comment forms and the petition are included in Appendix D.

Three Oaks Parkway Widening Comments and Responses

North Cypress Drive

COMMENT: Line of site problem north of street (**The Islands 85+8**)

COMMENT: Speeds in excess of 35 mph do not allow adequate time for pedestrian crossing (**The Islands 85+4**)

COMMENT: Signal/sign needed heading south on big curve before street saying "Blind Intersection Ahead" (1)

COMMENT: Speeds in excess of 35 mph do not allow adequate time for vehicles turning onto 3 Oaks Pkwy (**The Islands 85+5**)

COMMENT: Turn onto 3 Oaks Pkwy will be difficult without a traffic signal (**The Islands 85**)

COMMENT: Absolutely need a traffic light @ North Cypress Drive & 3 Oaks Pkwy! (17)

COMMENT: Pedestrians crossing to 3 Oaks Park need crosswalk light (**The Islands 85 +1**); Need pedestrian crossing bridges @ school/park (14) (See Pedestrian Safety)

COMMENT: Crossing to 3 Oaks Park is dangerous; more lanes will make situation worse--traffic travels too fast, pedestrians have to "run for your life"! (3)

COMMENT: Sidewalk on 3 Oaks Pkwy south to 3 Oaks Middle School is heavily traveled by students and should have a barrier between traffic and pedestrians (**The Islands 85**); Sidewalk too narrow

COMMENT: Bend in 3 Oaks north of Cypress Drive is blind spot for pedestrians & cars--would it be possible to straighten out the curve? (16)

COMMENT: Stretch of road near The Islands should be straightened if you proceed with project (1)

RESPONSE: *The project team is reviewing the design of this project with the intention of correcting the sight distance problem which exists at North Cypress Drive. Based upon the comments received at the public meeting, the median at North Cypress Drive is being evaluated for closure along with the adjacent park access. This revision would move all park traffic to one access point which would then be considered for signalization to address both pedestrian and vehicular safety issues identified at this meeting.*

Against Widening Project

COMMENT: I-75 should be widened & completed before more lanes are considered for 3 Oaks Pkwy (1)

RESPONSE: *FDOT and FHWA have approved funding for construction of Mobility 2000 or the six-laning of I-75 from Daniels Parkway south to the county line. This construction is programmed for 2007/2008. However, the ultimate improvements determined to be necessary by 2030 are not funded. Even with the improvements to I-75, the traffic model still predicts the need for increased capacity on Three Oaks Parkway, which is a county road not a State/Federal road. County roadway dollars will be spent on County projects such as this widening as directed by the MPO.*

Property Values

COMMENT: Concerned property values will go down (2)

RESPONSE: *No detrimental effects to market values have been recorded on the majority of Lee County DOT completed projects. In several instances property values have increased after project completion.*

Pedestrian Safety

COMMENT: Safety for children in neighborhood (8)

COMMENT: At 3 Oaks Middle School location, will there be a way for children to cross the 4 or 6 lanes in order to reach the park? (1)

COMMENT: Safety of school children is major concern (3) current plan does not address speed and congestion at start/dismissal times. Crossover @ main entrance may alleviate some of the problem, but there needs to be a way to control the traffic by a light or stop sign (1)

COMMENT: Need pedestrian crossing bridges @ school/park (12) (See North Cypress Drive)

RESPONSE: *The project team is reviewing the design of this project with the intention of correcting the sight distance problem which exists at North Cypress Drive. Based upon the comments received at the public meeting, the median at North Cypress Drive is being evaluated for closure along with the adjacent park access. This revision would move all park traffic to one access point which would then be considered for signalization to address both pedestrian and vehicular safety issues identified at this meeting.*

Speeding

COMMENT: Traffic should be slowed to 45 mph or slower (5)

COMMENT: Keep 35 mph maximum @ both schools regardless of alignment (1)

COMMENT: Keep speed limit at 40 mph (1)

COMMENT: Extend 25 mph speed limit @ 3 Oaks Middle School (1)

COMMENT: Slow traffic down between Alico & North Cypress (2)

COMMENT: What speed will be recommended? (1)

COMMENT: Reduce speed limit from 45mph to 35mph on remaining Parkway west of Cypress Chase (1)

RESPONSE: *Currently, the posted speed limit for Three Oaks Parkway is 45 m.p.h. with some areas posted at 35 m.p.h. This widening project will be designed for, and is anticipated to be posted at, 45 MPH. Enforcement of the speed limit is the jurisdiction of the appropriate law enforcement agency. Traffic enforcement can be requested by contacting the Sheriff's Department Traffic Unit at 690-9515. Anyone can request traffic enforcement action.*

Landscaping/street lighting

COMMENT: If median will be irrigated, install water lines at initial phase (1)

COMMENT: Place shade trees along sidewalks to shade pedestrians instead of or in addition to median trees (1)

COMMENT: Landscaping in median is highly recommended to preserve eye appeal & property values (1)

COMMENT: Happy to see landscaping proposed for new roadway (1)

COMMENT: Landscaping as well as street lighting should be included in medians (1)

RESPONSE: *Core level landscaping will be planted in the median along the length of the project. Core level landscaping as defined by the LeeScape Master Plan Second Edition for Lee County includes canopy trees, palms, accent/flowering trees and sod. For comments regarding core level landscape criteria please contact Pat Moore, with LCDOT at 694-3444. The project is being considered for street lighting and those concepts should be included in the next public meeting.*

Country Oaks Petition (asking BOCC & Lee DOT to reevaluate the proposed realignment and approve the alternative realignment plan of 3 Oaks Pkwy) - 141 Country Oaks residents

COMMENT: Community school bus stop @ Country Oaks entrance provides a hazardous environment for students waiting for Lee County school buses (**Country Oaks141**)

RESPONSE: *Bus stops for children are established by the Lee County Schools Transportation Division.*

COMMENT: Residents/visitors would not be allowed to exit Country Oaks heading north; proposed plan requires right turn then U-turn--creates perilous situation (**Country Oaks 141**)

RESPONSE: *Removal of direct left turn access from side street approaches from both unsignalized intersections as well as some signalized intersections can improve safety, improve traffic flow and increase capacity. This access management method is in place at many locations around Lee County, the State of Florida and the United States. The access management plan for this project has been developed with the intent of providing the public with a balance of safety and access.*

COMMENT: Four lanes of traffic would come very close to community due to the west right-of-way just a few feet from the rear of the homes located by 3 Oaks Pkwy. Additional traffic would generate unacceptable noise levels diminishing property values. Although CO is erecting a 6-foot wall; structure will not serve to mitigate additional road noise from a 4-lane road. (**Country Oaks 141**)

RESPONSE: *Lee County does not build noise walls since they must typically be 14 feet or higher to make any appreciable reduction in noise. At these heights, they are cost prohibitive and create a number of problems on their own.*

COMMENT: If proposed re-alignment of 3 Oaks Parkway comes to fruition, concerns of CO subdivision include safety of children and drivers exiting neighborhood, security of neighborhood due to increased vandalism and declining property values due to the close proximity of the newly aligned roadway (**Country Oaks 141**)

RESPONSE: *As population growth overburdens Lee County's road system, it is necessary for major roads to be built through the very areas that contribute to that growth. Some areas, such as Three Oaks, anticipate this growth and are developed with right of way reserved for future construction of a major road, in this case, Three Oaks Parkway. In Lee County, thousands of people live adjacent to major roads and highways. There is no evidence to support the conclusion that residences adjacent to major roads are more prone to vandalism. Nor is there any evidence for a general conclusion that residences adjacent to major roads decline in value.*

Three Oaks Park

COMMENT: Please fence north entrance to discourage pedestrian traffic; place fence far enough back to allow pedestrians who still decided to cross to get off road & shoulder to walk north or south around fence (1)

COMMENT: Widening "takes" a lot of 3 Oaks Park & limits driveway access--what concessions is DOT making to increase park size/facilities/drives, etc. to mitigate? (1)

RESPONSE: *The project team and Lee County Parks Department are coordinating the realignment of access as well as the expansion at the north end of the park. Additional land for expansion and reconfiguration will be acquired for the Parks Department to utilize.*

Corlico Village Property

COMMENT: Correct map to show Corlico Village property-drawing currently shows University Lake Village (2)

RESPONSE: *The map will be updated to reflect the correct development names.*

COMMENT: Revise Three Oaks median access to match access points shown on Corlico Village master concept plan (2)

RESPONSE: *Due to the lengths of turn lanes on Three Oaks Parkway for Eastbound/Westbound turns onto Koreshan, access to Corlico Village will be limited to right in/right out.*

COMMENT: Will there be access to Corlico Village property from Koreshan Blvd? (1)

RESPONSE: *It is not anticipated that access on Koreshan will be permitted due to vertical alignment (PBS&J).*

Strongly support (or are in favor of) realignment of 3 Oaks Pkwy along I-75 around eastern boundary of Cypress Chase neighborhood - 53 (Pres. of HOA for Country Oaks-"122 families" & Lamb of God Church)

COMMENT: Safety (34) - combined vehicular & pedestrian traffic makes current alignment dangerous; realignment will greatly improve dangerous traffic condition; realignment helpful to traffic flow

COMMENT: Noise (25) - Realignment would reduce noise concerns to 3 Oaks communities of Cypress Chase, Pine Run, Pine Glen

COMMENT: It's too bad realignment can't be extended north past the entrance to The Lakes (north of Pittsburgh Blvd); extend bypass to Alico Road (1)

COMMENT: Start project sooner (1)

COMMENT: Favor ALTERNATE/SOUTH realignment connection point south of Country Oaks Drive (33 + Pres. of HOA for Country Oaks - "122 families" & Lamb of God Church)

COMMENT: Realignment will help drainage in area (4)

COMMENT: Realignment alleviates need to make U-turn to go north on 3 Oaks Pkwy (1)

COMMENT: Favor PROPOSED/NORTH realignment connection point north of Country Oaks Drive (2)

COMMENT: Realignment increases property values (7)

COMMENT: ALTERNATE/SOUTH realignment will reduce crime (2)

COMMENT: ALTERNATE/SOUTH realignment will gain cooperation of the residents for this project (2)

COMMENT: ALTERNATE/SOUTH realignment makes sense (2)

COMMENT: Continue 3 Oaks Pkwy north behind Kash-n-Karry & the park (1)

RESPONSE: *The realignment on the East side of Cypress Chase has been approved by the Lee County Board of County Commissioners and will be included as part of this project. Extending the realignment further in either direction has been determined to be cost prohibitive.*

Large Trucks

COMMENT: Concerned about truck traffic (1)

COMMENT: Many cement/dump trucks use this residential road--need to find a way to keep large trucks off this road (1)

COMMENT: Too many trucks using Parkway--limit heavy trucks use (1)

RESPONSE: *Three Oaks Parkway is an arterial roadway. This type of facility is intended to carry truck traffic.*

Noise

COMMENT: Concerned about increased traffic noise from increased traffic (3)

COMMENT: Need noise barriers; need relief from noise via sound wall or "plant a green belt" (esp. @ Rookery Pointe) - if County will not provide, pressure should be put on land developers (4)

COMMENT: If County has money for 4 or 6 lanes, it should have money for a sound barrier (1)

COMMENT: New alignment should reduce traffic noise (1)

RESPONSE: *Lee County does not build noise walls since they must typically be 14 feet or higher to make any appreciable reduction in noise. At these heights, they are cost prohibitive and create a number of problems on their own.*

San Carlos Blvd.

COMMENT: Needs signal - Absolutely need a traffic light @ San Carlos Blvd & 3 Oaks Pkwy! (Impossible to make left turn onto 3 Oaks at certain times of the day) (6)

COMMENT: Need street lighting @ intersection (1)

RESPONSE: *A traffic warrant study is being performed as part of this project to determine where signals will be placed. The project is being considered for street lighting and those concepts should be included in the next public meeting.*

Pittsburgh Blvd.

COMMENT: Moratorium for Pittsburgh to remain closed has expired (**The Islands 85**)

COMMENT: Opening Pittsburgh through to Three Oaks Pkwy should relieve amount of vehicles traveling on North Cypress Drive (**The Islands 85**)

COMMENT: Pittsburgh Dr. can be opened much sooner and with less expense (**The Islands 85**)

COMMENT: Keep Pittsburgh closed since Winged Foot is opening (1); Open Pittsburgh & Winged Foot (1)

COMMENT: As a resident of Pittsburgh, I would be greatly opposed to extending Pittsburgh (1)

COMMENT: As a resident of The Lakes, Pittsburgh should have a traffic signal when project is finished (1)

RESPONSE: *The traffic consultant is reviewing traffic circulation in the area with the proposed changes to N. Cypress. Pittsburgh Blvd is being evaluated and a recommendation on whether to open or close it will be part of the study, as well as what median treatment is preferred and if a signal will be necessary.*

Other Comments

COMMENT: Staff helpful (1)

COMMENT: Thank you for workshop informing us of project (3)

COMMENT: Like this open house format (2)

COMMENT: Very nice & informative presentation (1)

COMMENT: Should have had a general presentation with question & answer period (1)

COMMENT: Like project; pleased with plan as proposed; looks like a lot of thought has been put into this plan; thank you for all the hard work you've done (3)

COMMENT: Get web site up (1)

COMMENT: Please send out mailers updating residents on projects progress and public hearing dates (1)

RESPONSE: *Thank you for your comments and your interest in the Three Oaks Widening Project. Lee County has established a location on the county's web site to view workshop summaries, comments and responses. The web site is located at www.lee-county.com (Home Page); click on Roadway Projects; click on Workshop Summaries; then chose Three Oaks Widening Project. All Three Oaks public workshop attendees will be mailed a postcard notifying them that the summary is available and the web site location. If you do not have access to a computer, you may visit any of the Lee County Library facilities to access the World Wide Web. Copies are also available at Lee County DOT offices for review or to copy (for the cost of reproduction).*

COMMENT: Lee Tran would be interested in seeing transit amenities (such as bus pull-out lanes at some of the busier stops) added to the design of this expansion project--See Mike Horsting @ Lee County Transit (1)

RESPONSE: *Transit amenities will be provided throughout the corridor.*

COMMENT: Request for aerials (1)

RESPONSE: *A copy of the aerial for this address has been mailed to the property owner.*

COMMENT: Directional median opening proposed north of Koreshan Blvd should be further north to allow more room to extend the left turn lanes at Koreshan Blvd in the future and to prevent motorists wanting to turn left @ Koreshan from getting into the preceding left turn lane by mistake (G.A. from Lee Co. MPO) (1)

RESPONSE: *Median placements are being reevaluated. The county reserves the right to modify any medians on county roadways at any time as they are traffic control devices and are regulated by the police powers of government.*

COMMENT: Please put asphalt bike path on west side as it is on west side of 3 Oaks (1)

RESPONSE: *The improvements for Three Oaks Parkway from Corkscrew Road to Alico Road will consist of an urban typical section providing an 11-foot lane and a 15-foot lane to the outside in each direction. Bicyclists may use four feet of this 15-foot lane for travel. The existing five (5) foot sidewalk to the west will remain and an additional 6' sidewalk will be constructed on the east side of the roadway.*

COMMENT: Extension of Miami south to connect to Koreshan is critical for efficient movement of San Carlos traffic to these needed north-south arterial roadways (3 Oaks Pkwy & Ben Hill Griffin). For the safety of traffic around 3 Oaks Elem. School, we implore Lee County to extend Miami south to Koreshan as part of their short-term transportation plan. (14)

RESPONSE: *The extension of Miami is not in the Scope of Services for this project, but an alternative concept is already incorporated into the county's long-range plans, a Sandy Lane Extension connecting to Oriole Road. Although not yet funded for construction, the county is moving forward with a corridor study to verify the feasibility of such a connection and determine its specific alignment. We will be working with area property owners to secure the right-of-way.*

COMMENT: How will Three Oaks drainage be handled? (1)

RESPONSE: *Three Oaks Parkway from Corkscrew Road to Alico Road will utilize additional drainage ponds that are being acquired by the LDOT. The roadway will be designed as an urban section (curb and gutters w/ inlets and drainage pipes). Complete plans and copies of the drainage calculations are available for review at Lee Co. DOT office, 1500 Monroe St. Project Manager is Betsy Rowan.*

COMMENT: What is time frame for construction of Three Oaks? (1)

RESPONSE: *Three Oaks Parkway construction should begin mid-year 2004.*

COMMENT: Winged Foot & Pittsburgh need to be open through to 3 Oaks Pkwy (3)

RESPONSE: *The County is reviewing engineer's study to open Pittsburgh.*

COMMENT: 4 lanes needed; 6 lanes not needed (1)

RESPONSE: *6 lanes are needed for future traffic per the Lee County Transportation model.*

COMMENT: Need safe access points and traffic lights along Parkway (2)

RESPONSE: *Both streetlight and traffic signal issues are addressed above.*

COMMENT: Close off Pineapple Road at west end of San Carlos (1)

COMMENT: Needs speed bumps (2)

COMMENT: Need stop sign at Cypress Drive North and Castle Harbor and Bermuda Dunes (1)

RESPONSE: *These issues are not addressed as part of this project. Please contact Lee County Traffic Division at 694-7600.*

COMMENT: Would it be possible to build 2 or 4 lanes along I-75 and leave 3 Oaks Pkwy as it is now? (1)

COMMENT: Make 3 Oaks Pkwy 2 one-ways: one-way on existing lanes & the other one-way next to I-75 (1)

RESPONSE: *These comments/options are financially unfeasible because right-of-way costs are prohibitive.*

COMMENT: Reduce super-elevation to force slower speeds (1)

RESPONSE: *Engineering principals dictate that super-elevation rates be consistent throughout a corridor. Therefore we will not vary these rates or the design speed.*

COMMENT: Please rush Alico Road project (1)

RESPONSE: *Construction for the Alico Road Widening Project has begun.*

COMMENT: Plan before permitting; LCDOT is doing best job possible to "catch up" (1)

COMMENT: Complete Three Oaks from Corkscrew to north of Koreshan before traffic from new housing increases (1)

RESPONSE: *LCDOT advances projects as quickly as financially feasible.*

**RE: Three Oaks Parkway Widening
From Corkscrew Road to Alico Road
County Project Number: 4081
Lee County, Florida**

**Koreshan Boulevard Extension
From Three Oaks Pkwy to Ben Hill Griffin Pkwy
County Project Number: 5021
Lee County, Florida**

Ray Judah
District Three

Andrew W. Coy
District Four

Dear Property Owner:

John E. Albion
District Five

This is to inform you that the Lee County Department of Transportation (LCDOT) will conduct a public information workshop concerning the two referenced projects. The Lee County Department of Transportation is notifying property owners whose property is within 300' of the proposed right-of-way for each project (even though they may not be directly affected). The workshop for both projects will be held on Tuesday, November 19, 2002 from 5 - 7 p.m. at Three Oaks Middle School, 18500 Three Oaks Parkway in Fort Myers.

Donald D. Stilwell
County Manager

James G. Yaeger
County Attorney

An engineering study and design plans are underway for the widening of **Three Oaks Parkway** from Corkscrew Road to Alico Road from the existing two-lane configuration to four lanes and eventually to six lanes. Included in the design are intersection improvements and a proposed realignment of Three Oaks Parkway. The purpose of the project is to provide an alternate north/south transportation corridor between U.S. 41 and Interstate 75. This widening project for Three Oaks Parkway was incorporated into the Lee County Metropolitan Planning Organization (MPO) 2010 Financially Feasible Highway Plan in January 1993.

Diana M. Parker
County Hearing Examiner

An alignment study is also being conducted to develop a preferred alternative for the extension of **Koreshan Boulevard** east from Three Oaks Parkway to Ben Hill Griffin Parkway. An overpass is proposed for Koreshan Boulevard at Interstate 75. Interchange ramps are not proposed for this project. This project for the extension of Koreshan Boulevard was incorporated into the Lee County MPO 2020 Financially Feasible Highway Plan in December 2000.

The public information workshop is being held to present the conceptual design plans and alternatives and receive public comment about both projects. Representatives from Lee County will be on hand to discuss the project, answer questions and receive comments. **The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime from 5 - 7 p.m.**

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kaye Molnar at KMolnar@cella.cc or phone 239-337-1071 prior to the workshop. If you have any questions about the projects or would like information prior to the workshop, contact Ms. Molnar.

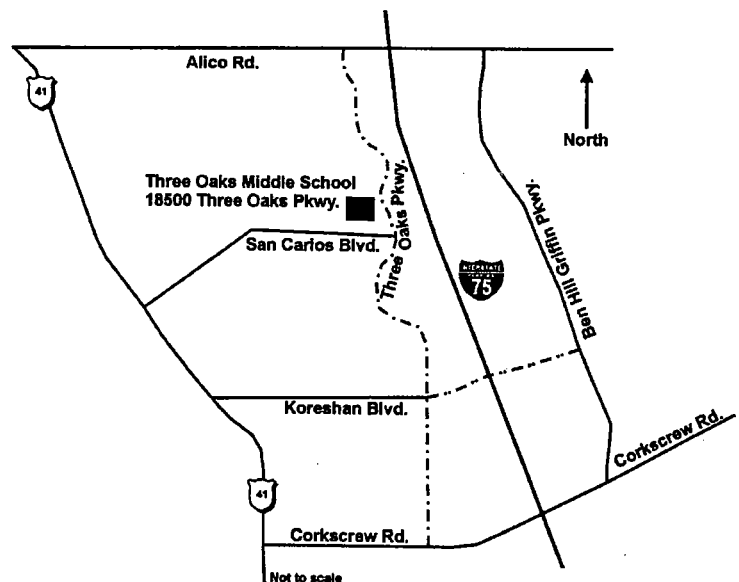

Your attendance at this public information workshop is encouraged and any comments made will be included in the project record.

Sincerely,

DEPARTMENT OF TRANSPORTATION

Mr. Don DeBerry
Engineering Manager

THREE OAKS PARKWAY

Road widening maps to be unveiled

Also at the meeting Tuesday, the design for the extension of Koreshan Boulevard will be available for viewing

By KARIE PARTINGTON
kjpartington@naplesnews.com

The 4.5-mile stretch of Three Oaks Parkway between Alico and Corkscrew roads isn't all that busy yet, but it's going to be widened in anticipation of traffic yet to come.

Maps showing the project will be unveiled at a public meeting Tuesday. Residents who live near or drive through the area will be able to see where median cuts are proposed and how the

widening will affect neighboring parcels.

One day, Three Oaks will run all the way from Daniels Parkway in Lee County to Radio Road in Collier, serving as a north-south alternative to Interstate 75 and U.S. 41. The section between Alico and Corkscrew is two lanes now. Plans call for it to be widened to four lanes and in some places six lanes in 2005.

The county has 100 feet of right of way, but will need another 50 feet. The additional land

will be purchased on the east side of the road, said Don DeBerry, the Lee County Department of Transportation project manager in charge of the widening.

"It's not property where there are houses, but it will impact people who own land on the east side," DeBerry said.

The county has \$8 million budgeted for the work, but the cost may go up once the design is finished, he said.

One of the properties on the east side is Three Oaks Park,

which is owned by the county. Parks and Recreation Director John Yarbrough said he's optimistic that the work can be done without impacting the park.

"We've got a good 30 to 40 feet of buffer anyway, and I think there's room beyond that before we would start losing parking spaces. I think it's going to be fine as far as the park is concerned," he said.

Farther south, Three Oaks

See **MAPS**, Page **3D**

Maps

Continued from 1D

Elementary School Principal Vivian Posey says she wants the county to ensure that motorists are aware her school exists. The school is on Cypress View Drive, just off Three Oaks Parkway.

"It's going to make this a busier roadway," she said. "Right now there are signs on Three Oaks so people know the school is here. I think that's sufficient for the kind of road that's there now, but I think every attempt has to be made to make drivers aware that they need to slow down as soon as they turn off Three Oaks onto Cypress View."

John Sellars has lived on Pine

Run Lane for the past 12 years. He's one street west of Three Oaks Parkway. Sellars said most of his neighbors moved in knowing the road was destined to be widened one day.

"I don't think this comes as a surprise to anyone around here," he said. "You can look at that road and all the land they've got along it and know they've got plans for it."

Also at the meeting, the design for the extension of Koreshan Boulevard will be available for viewing. Koreshan is an east-west road that runs between U.S. 41 and Three Oaks Parkway. Plans call for it to be extended eastward over I-75 to connect with Ben Hill Griffin Parkway. That work will cost \$14 million and is scheduled for spring 2004, DeBerry said.

"Most of the cost of that project is the bridge over the interstate," DeBerry said. "This road is going to give better access to things like the university, TECO Arena and Miromar Outlets. There are some large destinations out in that area."

Tuesday's meeting is set for 5 to 7 p.m. at Three Oaks Middle School, 18500 Three Oaks Parkway.

Agency wants input on new road projects

By MARK S. KRZOS
mkrzos@news-press.com

Lee County Department of Transportation officials want Estero and San Carlos Park residents' opinions on two future road projects.

Transportation officials will hold an open house meeting between 5 and 7 p.m. Tuesday at Three Oaks Middle School.

At the meeting, the transportation officials will give business owners and residents a chance to review the county's plans for two road projects they say will alleviate traffic on U.S. 41 and Corkscrew Road.

The future projects include widening Three Oaks Parkway from two lanes to four lanes and extending Koreshan Boulevard from Three Oaks Parkway east to Ben Hill Griffin Parkway.

Don DeBerry, the county's

engineering manager, said the meeting will be set up like an open house where residents can see the plans and comment on things they don't like or have questions about.

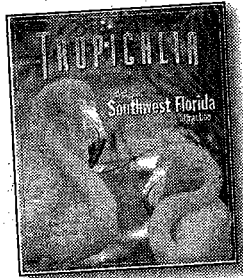

"We're going to show them where the median openings are going to be, where the traffic signals are going to be, how wide the road's going to be ..." DeBerry said.

"Now's the time to bring up the comments so we can either address those concerns or go back and make some changes."

Estero resident Arnie Rosenthal said he doesn't think the Koreshan Boulevard project needs to be done anytime soon.

"By the time it's done, I would hope there's enough traffic to justify it. Right now, it under-used," he said. "Anything that will take traffic off of Corkscrew Road will be appreciated."

PUBLIC INFORMATION WORKSHOP
THREE OAKS PARKWAY WIDENING
FROM CORKSCREW ROAD TO ALICO ROAD
AND
KORESHAN BOULEVARD EXTENSION
FROM THREE OAKS PKWY TO BEN HILL GRIFFIN PKWY

The Lee County Department of Transportation (DOT) will conduct a Public Information Workshop for the Three Oaks Parkway Widening Project from Corkscrew Road to Alico Road and the Koreshan Boulevard Extension Project from Three Oaks Parkway to Ben Hill Griffin Parkway on Tuesday, November 19, 2002 from 5 - 7 p.m. at Three Oaks Middle School, 18500 Three Oaks Parkway in Fort Myers. The workshop will present information about both projects.

PUBLIC INFORMATION WORKSHOP

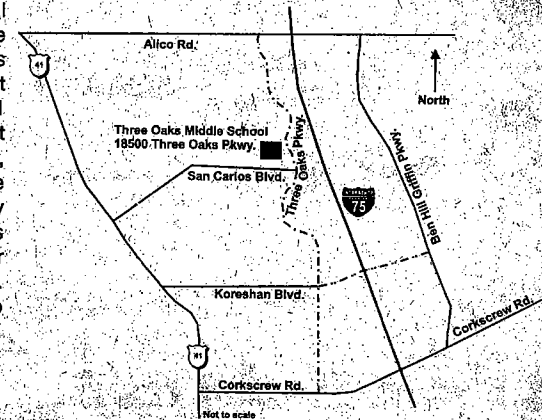

DATE: Tuesday, November 19, 2002
TIME: 5 - 7 p.m.
PLACE: Three Oaks Middle School
18500 Three Oaks Parkway
Fort Myers, Florida

An engineering study and design plans are underway for the widening of Three Oaks Parkway from Corkscrew to Alico Road from the existing two-lane configuration to four lanes and eventually to six lanes. Included in the design are intersection improvements, access management and a proposed realignment for a portion of Three Oaks Parkway. The purpose of this project is to provide an alternate north/south transportation corridor between U.S. 41 and Interstate 75.

An alignment study is also being conducted to develop a preferred alternative for the extension of Koreshan Boulevard east from Three Oaks Parkway to Ben Hill Griffin Parkway. An overpass is proposed for Koreshan Boulevard at Interstate 75. Interchange ramps are not proposed for this project.

The public information workshop is being held to present conceptual design plans and alternatives and receive public comment about both projects. Representatives from Lee County DOT will be on hand to discuss the projects, answer questions and receive comments. **The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime from 5 - 7 p.m.**

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kaye Molnar at 239-337-1071 or by writing to 2125 First Street, Suite 201, Fort Myers, Florida 33901 prior to the workshop. If you have any questions about the projects or would like information prior to the workshop, contact Ms. Molnar by phone or e-mail to KMolnar@cella.cc.

SOUTHWEST FLORIDA

APPENDIX C

**THREE OAKS PARKWAY WIDENING
FROM CORKSCREW ROAD TO ALICO ROAD
PUBLIC INFORMATION WORKSHOP
November 19, 2002**

INTRODUCTION

The Lee County Department of Transportation (DOT) welcomes you to this public information workshop for the Three Oaks Widening Project. Representatives from Lee County DOT are present this evening to discuss project information and answer your questions. **There will not be a formal presentation.** Conceptual design plans and project information are on display around the room in three separate stations. Each station contains the same project information; feel free to visit any station. Information for the Koreshan Boulevard Extension Project from Three Oaks Parkway to Ben Hill Griffin Parkway is also available at the "Koreshan Boulevard Extension" table. Comment forms are provided in this handout and can be deposited in the comment boxes this evening or can be mailed to the address provided on the back of the form. Comments received within 14 days will be included in a summary to the Lee County Board of County Commissioners. All comments will become a part of the project record.

PROJECT DESCRIPTION

Proposed improvements to Three Oaks Parkway will consist of widening the 4.5+ miles of two-lane roadway to a four-lane divided roadway from Alico Road to Corkscrew Road. The proposed widening is being designed to accommodate an ultimate six-lane roadway. Included in the design are intersection improvements at Corkscrew Road, Koreshan Boulevard, San Carlos Boulevard and Alico Road as well as access management features. Also proposed in this project is a realignment of Three Oaks Parkway to the east of Cypress Chase. If the new alignment is built as proposed, the existing roadway to the west of Cypress Chase would remain a two-lane facility.

PURPOSE AND NEED

The Lee County Metropolitan Planning Organization (MPO) consists of the Florida Department of Transportation (FDOT), Lee County and all incorporated cities within the county. These government entities work together in an attempt to identify and meet the transportation needs for the county as a whole. During the planning process, the MPO advertises meetings regarding the selection and location of needed transportation corridors in the local media and provides full public access to decisions and documents. It supports early and continuing public involvement in the development and review of its transportation plans and programs. Once decisions are made regarding identified corridors, they are adopted into the MPO 2020 Financially Feasible Highway Plan. This plan establishes funding by which those needs can be accomplished. This widening project for Three Oaks Parkway was incorporated in to the Lee County MPO 2010 Financially Feasible Highway Plan in January 1993.

This project is located in an area of Lee County that is currently experiencing tremendous growth. Several developments are planned or are currently under construction. The preliminary engineering study addressed the capacity needs based on traffic projections along the corridor through the year 2020. Annual traffic volumes on the proposed Three Oaks Parkway Widening are predicted to reach almost 51,700 vehicles per day in the design year of 2020.

WHAT IS THE MPO?

The Lee County Metropolitan Planning Organization (MPO) is an intergovernmental transportation planning agency created by an agreement among Lee County, Bonita Springs, Fort Myers, Cape Coral, Sanibel, Fort Myers Beach, and the Florida Department of Transportation. State and federal laws require the formation of MPOs in urbanized areas with populations of more than 50,000 in order for surface-transportation projects to be eligible for federal Highway Trust Fund dollars.

The MPO is responsible for the comprehensive transportation planning process for all of Lee County and must plan for the movement of both people and goods within the county by all modes of travel--including highways, public transportation, bicycles, and foot.

The MPO develops a long-range transportation plan, identifying those highway and transit improvements that can be afforded through the year 2020, and endorses a Transportation Improvement Program (TIP) that identifies projects to be done over the next few years.

WHO MAKES UP THE MPO?

Voting members

LEE COUNTY - All five county commissioners

CITY OF BONITA SPRINGS - One elected official

CITY OF CAPE CORAL - Four elected officials

CITY OF FORT MYERS - Three elected officials

TOWN OF FORT MYERS BEACH - One elected official

CITY OF SANIBEL - One elected official

Non-Voting Member

FLORIDA DEPARTMENT OF TRANSPORTATION, DISTRICT 1 - District Secretary or designee

HOW DOES THE MPO WORK?

The MPO is staffed by the Southwest Florida Regional Planning Council. The MPO is advised by the Citizen Advisory Committee (CAC), Technical Advisory Committee (TAC), Transportation Disadvantaged Local Coordinating Board (LCB), Bicycle Pedestrian Coordinating Committee (BPCC), and the Traffic Signal Coordinating Committee (TSCC).

The CAC consists of 21 appointed citizens who make recommendations to the MPO from the public's perspective on proposed long-range transportation plans, project plans, priorities for state and federal funding and other transportation issues.

The TAC consists of local and state agency planners, engineers, and transit operators who make recommendations to the MPO on transportation plans, programs, amendments, and priorities on behalf of the agencies they represent. By doing so, it provides a continuing liaison with local, state, and federal agencies involved in the transportation planning process.

The LCB consists of government, social service agency, citizen, and consumer representatives who oversee the provision of safe, efficient, cost-effective and quality transportation services to Lee County's elderly, handicapped and low income residents.

The BPCC consists of the local and state agency personnel who are responsible for bicycle and pedestrian planning for their agencies. It coordinates these agencies' bicycle/pedestrian planning activities, reviews provisions for pedestrians and cyclists in state and federal-aid surface transportation projects, and advises the MPO on the development of the bicycle and pedestrian element of its transportation plan and the programming of bicycle and pedestrian facilities.

The TSCC consists of local and state agency traffic engineers who review all proposals for new traffic signals. It serves as a technical subcommittee of the Lee County Community Traffic Safety Team, oversees the MPO's congestion management system, and recommends congestion mitigation measures for programming with federal funds.

MPO OUTREACH EFFORTS

The MPO provides complete information, timely public notice, and full public access to decisions and documents. It supports early and continuing public involvement in the development and review of its plans and programs. It especially seeks out and considers the interests of people whose needs may not be well served by the existing transportation system, such as low income and minority households and persons with limited personal mobility.

Transportation Advisory Network (TAN) The TAN is a mailing list of individuals and organizations who have an interest in local transportation issues. The TAN provides a broad community resource for the formation and review of transportation plans, policies and strategies. This network provides key contact persons for outreach efforts, dissemination of information, and informal review and comment to ensure sensitivity to varied community needs, concerns, and interests.

MPO MEETINGS

Unless otherwise noticed, the Lee County MPO meets on the Friday following the third Thursday of each month in the Council Chamber of Fort Myers City Hall, 2200 Second Street, Fort Myers. Notices containing the time, location and agenda of each MPO meeting are published in the Fort Myers *News-Press* and the MPO Web Site.

FOR MORE INFORMATION . . .

about the MPO and its plans and programs, visit our web site at <http://www.swfrpc.org/mpo.htm>. Copies of the MPO's current 2020 Transportation Plan and five-year Transportation Improvement Program are available at all public libraries in Lee County. Copies of all current MPO publications are available, free of charge, at the MPO offices.

APPENDIX D

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Mike Horsting - Lee County Transit

Address 6035 Idlewild Road

City Fort Myers State FL Zip Code 33907

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Lee County's transit division (LeeTran) currently provides fixed-
route service on this entire section of Three Oaks Pkwy and
plans to continue this service in the future. Currently this
route (Route 60) has only one bus on it however, plans are
to increase this service in the future. Lee Tran would be interested
in seeing transit amenities put in the design of this expansion
project, such as bus pull-out lanes at some of the more
busy stops. Please feel free to contact me to discuss any
possibilities. I can be reached by e-mail at mhorsting@leegov.com,
or by telephone at 277-5012 x2233. Thank-you.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Michael + Debra Lee Kelsey
Address 9874 Country Oaks Drive
City Ft. Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: PLEASE CONSIDER THE ALTERNATIVE REALIGNMENT SOUTH OF COUNTRY OAKS DRIVE FOR THIS PROJECT. THIS WILL ALLOW RESIDENTS OF OUR NEIGHBORHOOD THE OPPORTUNITY TO EXIT LEFT OR RIGHT ONTO THREE OAKS PARKWAY WHILE ALSO IMPROVING THE SAFETY OF THIS ROAD. IT IS CURRENTLY VERY DIFFICULT TO EXIT OUR NEIGHBORHOOD. THIS ALIGNMENT WILL ALSO REMOVE THE NOISE FACTOR IN OUR NEIGHBORHOOD WHICH IMPROVES PROPERTY VALUES AND THIS ULTIMATELY GENERATES MORE PROPERTY TAX REVENUE FOR THE COUNTY. WE REALIZE THIS IS A MORE EXPENSIVE OPTION, BUT IT APPEARS TO BE THE CORRECT WAY TO GO.

Thank you!

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: AS RESIDENTS OF COUNTRY OAKS WE ARE
IN FAVOR OF ALTERNATE RE-ALIGNMENT CONNECTION
POINT. WE FEEL RE-ALIGNMENT (PROPOSED) IS
UNFAVORABLE BECAUSE OF THE SAFETY ISSUES PRESENT
WITH TRAFFIC FLOW SO CLOSE TO ENTRY OF SUB-
DIVISION. WE NEED TO KEEP TRAFFIC AS FAR
AWAY AS POSSIBLE TO REDUCE SAFETY ISSUES
WITH INCREASED TRAFFIC FLOW.
ALTERNATE RE-ALIGNMENT POINT ADDRESSES THE
SAFETY ISSUES WHILE ALSO REDUCING TRAFFIC
NOISE.
WE ARE CONCERNED WITH DECREASED PROPERTY
VALUES BASED ON PROPOSED ROUTE AND THE
ALTERNATE RE-ALIGNMENT ALSO ADDRESSES THIS
ISSUE. ALTERNATE RE-ALIGNMENT ENHANCES RESIDENTIAL
CONFORMITY WHILE ADDRESSING THE ~~SAFETY~~ SAFETY ISSUE

(Attach additional sheets if necessary)

Comments: BASED ON the proposed re-alignment plans
WE ARE in favor of Alternate re-alignment
connection point. As a resident of Country Oaks
I believe Alternative 1 is unfavorable because:

1. Increased safety concern with traffic
flow so close to entry way of our
sub division. Need traffic away from entry point.
2. Significant reduction in property value
due to increased traffic flow & noise.

I believe Alternative 2 is favorable because:

1. Diverts traffic away from entry to
sub division. Safer for residents and motorists.
2. Reduced noise and increased property
values based on easy access to community
and residential conformity.

(Attach additional sheets if necessary)

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name FRANK J. FEENEY
Address 19571 WATERS WAY
City FORT MYERS State FLORIDA Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: THE EXPANSION OF THREE OAKS PARKWAY WILL INCREASE TRAFFIC
FLOW THROUGH THE THREE OAKS RESIDENTIAL AREA. THIS TRAFFIC INCREASE
WILL CAUSE THE PROBABILITY OF A SEVERE AUTO ACCIDENT IN A RESIDENTIAL
AREA TO RISE SIGNIFICANTLY. THE CURRENT PLAN THAT CALLS FOR THE
EXISTING THREE OAKS PARKWAY TO BE THE FUTURE 2 SOUTHBOUND LANES AND
THE FUTURE 2 NORTHBOUND LANES GOING ON THE EAST SIDE OF CYPRESS GLEN
ONLY ENHANCES THIS SAFETY ISSUE. IN ORDER TO ADDRESS THIS ISSUE IT WILL
BE NECESSARY FOR LEE COUNTY TO PLACE STOP LIGHTS AT MOST OF THE
INTERSECTIONS (IF NOT ALL) INCREASING THE PROJECT COST APPROXIMATELY
\$ 40-60 THOUSAND PER LIGHT. THE NOISE & AUTO EXHAUST POLLUTION ISSUE
WILL ALSO NEED TO BE ADDRESSED WITH CONCRETE BLOCK WALLS & THE
APPROPRIATE LANDSCAPING BUFFERS WHICH WILL AGAIN INCREASE THE COST
OF THE PROJECT. IF THE ALTERNATIVE PLAN CALLING FOR BOTH NORTH
AND SOUTHBOUND LANES TO ^{BE} PLACED ON THE EAST SIDE OF CYPRESS GLEN
WERE IMPLEMENTED, IT WOULD NOT INCREASE THE TRAFFIC THROUGH THE
RESIDENTIAL AREAS, DECREASE THE SAFETY ISSUES TO AN ACCEPTABLE LEVEL,
PROVIDE FOR ADDITIONAL STORM WATER RETENTION, DECREASE SOME OF THE PROJECTS
(Attach additional sheets if necessary) COSTS, AND BE MORE AMENABLE TO ALL THE RESIDENTS
OF THE THREE OAKS RESIDENTIAL AREA.

Thank you for taking time to participate in this Public Information Workshop.

Address 19571 Waters Way
City Ft. Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Please do not use the current plan for widening the parkway. The alternate plan would be much safer for everyone involved. I realize changes must be made to accommodate future growth but lets not compromise our safety & the wishes of our neighboring subdivisions to save a few dollars today. We must get these plans right from the beginning rather than address the problems to come at a later date once the work is finished. There is still time to make a change & I strongly urge you to use the alternate plan which takes both north & south-bound lanes away from our neighbor hoods. I am a Country Oaks resident and all our homeowners are in agreement on this issue.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Address 19571 Waters Way
City Ft. Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I would like to ask the county to reconsider its current plans for the Three Oaks Parkway widening. I am a County Oaks Subdiv. resident + I feel the current plan would increase the traffic flow in front of all the Three Oaks neighborhoods and would result in a safety issue for cars, children going to school, + our neighbors houses. I strongly urge the county to implement the alternative widening plan which would divert traffic from passing directly in front of many subdiv. + schools. I would feel safer pulling out of my neighborhood + I would feel more secure sending my children to school each morning. Our neighborhood is already willing to put up a wall along the parkway for aesthetic as well as safety purposes + we only ask the county to do it's part in maintaining the peacefulness, safety + sense of community we have come to enjoy as Three Oaks residents. We don't want another "Whiskey Creek / Summerlin" episode where residents fight for less traffic + more safety. I am also concerned about water runoff + where it will go without a retention pond. I only ask that you do this project correctly the first time.

Address 19571 Waters Way
City Ft. Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am a Country Oaks Subdiv. resident + I would like to ask the county to change its current plan for the Three Oaks Parkway widening and use the alternate plan. With the current plan, I would only be able to turn right out of my Subdiv. and keep my way along Koushan to the Elementary school to Three Oaks Parkway just to get to Kash-N-Harry or the vet. It would increase the amount of traffic passing by all Three Oak Subdivisions and make it too difficult to access the schools. It would become too dangerous for kids to walk to school or wait for a bus. The Parkway will become a very important road for traveling between Ft. Myers + Naples, especially when I-75 is widened in our area. Please build the parkway correctly the first time + help us maintain a high standard of living we are coming to enjoy in this booming part of town. It's not too late to do the right thing for our future.

City Ft. Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am writing to strongly recommend that the County DOT pursue the alternate route to the widening of Three Oaks Pkwy. with special emphasis for the area in front of Country Oaks Dr. I, along with the other home owners of the Country Oaks subdivision, am extremely concerned that the added congestion which would undoubtedly be caused by the originally proposed plan would infringe upon our rights as property owners. We have authorized our board members to speak for us and are in the process of signing Petitions to that effect to encourage you to look to the alternate plan as a better way to serve our community without decreasing the value of our community. While the original plan does allow for a more direct route with the possibility of future development - it does not take into account our rights as property owners, the safety of our children while waiting for school buses, or water retention/drainage

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

cont'd

concerns. The alternate plan would adequately address these issues. I understand that the alternate plan is still not complete. Please consider my concerns and complete the alternate plan with these issues in mind and utilize the alternate plan versus the infringing original plan.

Thank you for your attention to this.

Sincerely,

A handwritten signature in cursive script, appearing to read "J. A. D.", written in black ink.

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

NOV. 27, 2002

City FORT MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: TO WHOM IT MAY CONCERN:

SUZANNE AND I MOVED TO THE COUNTRY OAKS DEVELOPMENT 5 YEARS AGO BECAUSE OF THE QUALITY OF THE NEIGHBORHOOD AND ITS REMOTENESS TO THE CITY OF FORT MYERS. UNDERSTANDING THAT THE THREE OAKS WIDENING PROJECT IS INEVITABLE, WE HAVE REVIEWED THE IMPACT THAT BOTH PROPOSALS PRESENT. WE URGE YOU TO CHOOSE THE ALTERNATIVE PLAN THAT PROPOSES A BY-PASSING OF OUR ENTRANCE AND INCLUDES THE WATER RETENTION AREA. I BELIEVE THIS IS PLAN "B" OR THE ALTERNATIVE PLAN. WE URGE YOU TO SELECT THIS PLAN FOR THE FOLLOWING REASONS:

- 1) SAFETY: A PROBABLE ACCELERATION AREA DIRECTLY IN FRONT OF THE COUNTRY OAKS ENTRANCE WILL BE ELIMINATED.
- 2) SAFETY: SCHOOL STUDENTS WILL NOT BE EXPOSED TO THE HIGH VOLUME AND PROBABLE ACCELERATION OF TRAFFIC WHEN WAITING FOR OR DISCHARGING FROM SCHOOL BUSES.
- 3) ENGINEERING: A RETENTION AREA WILL HELP TO ALLEVIATE FLOODING WITHIN OUR DEVELOPMENT.
- 4) ENGINEERING: NOISE LEVELS WILL BE GREATLY REDUCED BY DIVERTING AWAY FROM THE COUNTRY OAKS DEVELOPMENT.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

NOV. 27, 2002

City FORT MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

- Comments:
- 4) ENGINEERING CONTINUED: THE COUNTRY OAKS HOMEOWNERS ASSOCIATION HAS ALREADY APPROVED THE INTERNAL FUNDING FOR A NOISE REDUCING BARRIER WALL. SHOULD PROPOSAL #1 BE IMPLEMENTED, THE BARRIER WALL MAY NOT PROVIDE ADEQUATE NOISE REDUCTION.
 - 5) CRIME REDUCTION: MOVING HEAVY TRAFFIC FLOW AWAY FROM OUR DEVELOPMENT WILL REDUCE THE POTENTIAL FOR DRIVE-THRU'S + "QUICK HIT" TYPE CRIME.
 - 6) CRIME REDUCTION: REDUCING ACCESS WILL ALLOW OUR OWN NEIGHBORHOOD POLICING TO BE MORE EFFECTIVE.
 - 7) COOPERATION: HEARING + ACTING UPON RESIDENTS CONCERNS WILL ALLEVIATE FUTURE COMPLAINTS AND POTENTIAL PROBLEMS. I.E. THE SUMMERLAND ROAD WALL SCENARIO.
 - 8) QUALITY + VALUE: PROPERTY VALUES SHOULD BE IMPROVING BUT WILL DEPRECIATE. THE VALUE OF HOMES WILL BE DIRECTLY AND SUBSTANTIALLY AFFECTED BY THE PROPOSALS. PROPOSAL #2, THE ALTERNATIVE SHOULD WORK TO OUR BENEFIT.
 - 9) MAKING SENSE: PROPOSAL #2 THE ALTERNATIVE WILL NOT DIRECTLY AFFECT OTHER NEIGHBORHOODS, WHEREAS, PROPOSAL #1 WILL DIRECTLY + SEVERELY AFFECT THE COUNTRY OAKS DEVELOPMENT.

(Attach additional sheets if necessary)

Comments: We live in Cypress Chase on the 3 Oaks Parkway
side of the road. We are pleased that we will
not be having a four lane highway as our backyard
= We will now have 3 schools in our area - the
school board just now approved land purchase on
3 Oaks park way. This will really make the road
busy - Also our whole neighborhood was going up for sale - now we are staying
It also suggest that a light be put at
3 Oaks and Sae Carlos - It is very busy there and
would help all roads -

Comments: I am very happy that you chose to build around our homes.

We do not need all this traffic in our back yards plus all the noise if our doors are open.

We built in 1989 & our builders never mentioned one word about the parkway which should have been told to us.

Looking forward to a quiet road again with no trucks. Needless to say I am very happy with your decision because I love this neighborhood.

Mrs. Geraldine Stack

Address 19154 Pine Glen Lane
City Fort. St. Steers State Florida Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The realignment of Three Oaks Parkway to the East of Cypress Chase is excellent. It is too bad it cannot be extended North past the entrance to The Lakes (N. of Pittsburg Blvd)

If Three Oaks Parkway were not to be realigned, it would cause severe traffic problems for the residents of Cypress Chase and if a row of homes were removed it would decimate the small community.

What you are planning will keep noise and traffic levels at bay and will keep our property values from falling. I look forward to your proposal becoming reality.

City Et Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am very much in favor of the
proposed realignment of 3 Oaks Parkway
away from the 2 curves between San Carlos &
Country Oaks. I prefer the alternate (road east of
water area)

This stretch of road is dangerous for pedestrians
& traffic & there have been problems which the
realignment will solve for that stretch.

We may need pedestrian crossing bridges @
both schools & the park

Also we need traffic lights & Cypress Dr N
is particularly dangerous. We need to keep
35 mile^{per hour} maximum @ both schools regardless
of any alignment

(Attach additional sheets if necessary)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

- * GLAD TO SEE ROADWAY (3 OAKS PARKWAY) GOING PAST CLOSER TO 75 AND TO THE REAR OF CYPRESS CHASE. THE CURVED ROADWAY AT THAT AREA IS EXTREMELY DANGEROUS - THERE HAVE BEEN A FEW ACCIDENTS IN THAT AREA JEOPARDIZING SAFETY OF PEDESTRIANS + HOME OWNERS.
- * I 75 SHOULD BE WIDENED + COMPLETED BEFORE 3 LANES ON 3 OAKS IS EVER CONSIDERED.
- * SPEED LIMITS SHOULD REMAIN THE SAME 35 + 45 MPH OR DECREASED BUT IN NO CERTAIN TERMS INCREASED, THIS IS A FAIRLY POPULATED AREA WITH MANY YOUNG CHILDREN GOING TO SCHOOL, SCHOOL ACTIVITIES, AND THE NUMEROUS ACTIVITIES AT THE PARK (SOFTBALL, ETC)
- * AN OVERHEAD WALKWAY SHOULD BE CONSIDERED FOR ENTRY INTO THE PARK FROM THE WEST SIDE OF 3 OAKS PARKWAY.

City Ft. Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The crossing from Cypress Dr. N to the Three Oaks Park
(playground for children) is very dangerous today. With 4 or 6
lanes it will be dramatically worse. The traffic from the North
side on Three Oaks Parkway is far too fast. Coming out of
Cypress Dr. N. you have to run for your life!

- Would it not be possible to straighten out the curve?

- Would it not be possible to build 2 or 4 lanes along 175th and
leave Three Oaks Parkway as it is now?

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

FHP: Speed a factor in crash that killed Estero teen and injured 2 others

Saturday, August 21, 1999

By JAY STAPLETON, Staff Writer

Speed was a fatal factor in a Friday morning crash that killed an 18-year-old Estero High School graduate and injured two of her friends, Florida Highway Patrol troopers said.

Kristin Nichelle Cooper was on her way home from a Fort Myers club around 2 a.m. when the BMW she was driving skidded off Three Oaks Parkway and burst through a 5-foot tall, 1-foot thick block wall with such force that it sent 6-inch chunks of a cement more than 100 feet. The car hit the wall after it slid across a 40 foot strip of grass, splintered a heavy wooden sign and uprooted a 10-foot-tall palm tree.

Kristin Nichelle Cooper

Cooper, of 18573 Bartow Blvd, died instantly when she was pinned beneath the overturned vehicle. Her roommate Holly Ann Verhaagh, also trapped beneath the car, was transported to Lee Memorial Hospital, where she was listed in fair condition Friday. A third passenger, Kristen Prestwood, about 18, was able to crawl from the wreckage, according to FHP reports.

Holly Ann Verhaagh

Prestwood was in good condition Friday, said Lee Memorial Hospital spokeswoman Karen Krieger.

Kristen Prestwood

None of the three were wearing seatbelts, crash investigators said. Cooper and Verhaagh were tossed from the car as it rolled.

Their eyes filled with tears, friends of Cooper's who stopped at the crash site with roses Friday afternoon said they were shocked someone so alive had died so violently.

"I can't believe it," said Russell Borchers, 20, of Bonita Springs.

According to FHP reports, Cooper was driving south on Three Oaks Parkway at a high rate of speed when the car skidded off the road in a sweeping curve about a mile south of Alico Road. Four tire marks burned in the grass traced the vehicle's approach to the wall just south of Pittsburgh Boulevard. Through the car-wide hole, broken glass, splintered wood, bits of cement and the uprooted palm tree left a reminder of the violence of the crash.

"It's obvious the car was traveling above the speed limit," said FHP Lt. Malcolm Rhodes.

As in all fatal crashes, blood tests of the driver were taken to determine whether alcohol played a role in the crash.

Cooper had graduated from Estero High School in June.

"She was a very intelligent bright young lady, she was a good student," principal Fred Bode said. "It's a terrible waste."

Described as a funny, outgoing girl, Cooper loved going to clubs and movies, her friends said.

"She was a cheerleader for a bit," Borchers said. "She liked to do anything teen-agers like to do."

The girls were returning home from the Bottom Line, a Fort Myers dance club, friends said. Cooper and Verhaagh had recently moved in together and were excited about decorating.

"She was less than five minutes from home," Borchers said.

Throughout the day Friday, friends placed flowers beside the broken wall, or just stopped and cried. Shane Plageman, 21, of Naples said he had seen Cooper the day before.

"I'm just glad I got to say good-bye," he said.

"I didn't," said Borchers.

"She was like my sister," said Lindsay Antal, 16. "She was so funny."

A few steps away, where the car came to its final rest at the bottom of a slight incline, there were remnants from the evening - two packs of

Marlboro light menthol cigarettes, a green comb, an empty Gatorade bottle, and two yellow candies wrapped in plastic.

Cooper had been hired a few weeks before at the new Mel's Diner in Bonita Springs, which is scheduled to open next month.

"I'm just sick about it," said Mel's general manager Steven Weisberg, who had interviewed and hired Cooper. "She was such a beautiful young girl."

Comments: EXITING CYPRESS DR. N. FROM THE ISLANDS, ONTO THREE OAKS
PARKWAY IS A MAJOR ~~WORK~~ EFFORT. WHETHER GOING NORTH OR SOUTH ON
THREE OAKS THE SPEED ON VEHICLES HEADING SOUTH FAR EXCEEDS
THE LIMIT OF 35 MPH. THE SIGHT LINE LOOKING NORTH IS VERY SHORT
AND THE VEHICLES TRAVELING SOUTH ARE VERY OFTEN TRAVELING AT
A HIGH RATE OF SPEED. I HAVE NOTICED POLICE TICKETING
AT THIS INTERSECTION, BUT IT DOES NOT SLOW THE TRAFFIC. A
TRAFFIC LIGHT WOULD INCREASE THE POSSIBILITY OF GETTING IN AND OUT
OF CYPRESS DRIVE NORTH SAFELY. I AM NOT SURE THE VISIBILITY FOR
SOUTH BOUND THREE OAKS PARKWAY WOULD HAVE ENOUGH TIME TO REACT
TO A LIGHT, BECAUSE OF THE SIGHT LINE. I AM ALSO CONCERNED WITH
PEDESTRIAN CROSSING, ESPECIALLY THE CHILDREN, TO THE PARK AT THIS
INTERSECTION. ~~AT~~ AT THE VERY LEAST, FOR THE YOUNGER PEDESTRIANS,
PERHAPS A WALKWAY OVER THE PARKWAY.

(Attach additional sheets if necessary)

Comments: The people in the area need a traffic light and a way to slow down traffic on Three Oaks and Cypress Drive N. It is very hard to exit from a Cypress Drive N to Three Oaks. With the park on the green and the amount of traffic there will be accidents. The children are in danger.

(Attach additional sheets if necessary)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: My main concern is Cypress Dr. traffic. Early AM backup is two blocks long. Children are walking and riding bikes. Walkers are trying to cross Three Oaks to get to the park. The entire just north of Cypress has been approaching a blind path to all this activity. The early evening is a repeat of this traffic. A traffic study early and late afternoon should be conducted. Speeders are common on both streets. A traffic light at Cypress Dr and San Carlos Blvd would definitely slow down the speeders.

(Attach additional sheets if necessary)

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name SCHMUTZ HILDA
Address 17790 Castle Harbor Dr. "The Islands"
City FORT MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The new project makes things worse for people living at "The Islands" and west of it!
Entrance of traffic (private + school buses) from N. Cypress onto 3 Oaks Parkway
Bend around "The Islands" just before park entrance: cars + pedestrians can't see traffic coming from left side
Lots of school kids + smaller children, joggers, bikers, roller bladers cross from N. Cypress over to park
(2 play grounds, tennis courts, baseball courts, basket ball courts, football fields)

- You need to:
 - count traffic on N. Cypress
 - " " " 3 Oaks Parkway
 - make speed study on 3 Oaks (at bend!)
 - count pedestrians crossing to park from N. Cypress

- Suggestion:
 - make 3 Oaks 2 one-ways: one-way on existing lanes + other one-way next to I-75
 - make traffic light at crossing N. Cypress - 3 Oaks Pkwy
 - open up Winged Foot
 - open up Pittsburgh

(Attach additional sheets if necessary)

Comments:

AREA OF BIG CONCERN IS THE ROAD CURVE AROUND THE AREA OF THE ISLANDS & THREE OAKS PARK. THERE IS ALREADY AN ISSUE HERE WITH TURNING ONTO THREE OAKS PKWY AT THIS "BLIND CURVE" W/ SPEEDERS AND THIS WIDENING WILL INCREASE THE PROBLEM.

ANOTHER GOOD SUGGESTION I HEARD WOULD BE A PEDESTRIAN OVERPASS TO THE PARK AT THIS LOCATION.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

I endorse the proposals for Three Oaks Parkway + Koroshah. My only concerns are these:

① Stop lights need to be placed at San Carlos + Cypress Dr. Traffic backs up on these roads & they are dangerous curves. Plus, a light is needed for those crossing to the park.

② Since we're spending so much now about ~~spending~~ a few dollars for some speed bumps on Cypress - through traffic constantly speeding.

Like this open house format. Well done.

(Attach additional sheets if necessary)

Comments: We live in the Islands. As I understand, a traffic light is not planned for Cypress Dr. We must have a traffic light at this intersection. We are at the northern entrance to the park. Many people use this entrance, including those walking from the area. Also, it is impossible to see some of the speeding traffic on Three Oaks Parkway going south. Adding lanes will only worsen the situation. It is already difficult to turn to go north on Three Oaks Parkway. What is planned to help with the noise? We already have enough noise from the current traffic and that using F 75.

City FT MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: PLEASE DO SOMETHING ABOUT THE "T" INTERSECTION OF CYPRESS DR N & THREE OAKS PKWY. DURING MORNING & EVENING RUSH HOUR IT IS NEARLY IMPOSSIBLE TO MAKE A LEFT TURN FROM CYPRESS DR N ONTO THE PKY DUE TO THE HIGH VOLUME OF TRAFFIC, WHEN THE PKY IS WIDENED, IT WILL BE MUCH WORSE THAN IT IS NOW.

ALSO, PEDESTRIANS TRYING TO CROSS 3 OAKS PKWY TO GO OVER TO THE PARK IS EXTREMELY DANGEROUS. DRIVER COME AROUND THE CURVE AT A VERY HIGH SPEED AND YOU DON'T EVEN SEE THEM COMING DUE TO THAT CURVE JUST TO THE NORTH OF CYPRESS DR N.

IS IT POSSIBLE TO PUT IN A TRAFFIC LIGHT OR STOP SIGN? OR PERHAPS A PEDESTRIAN BRIDGE THAT GOES OVER THIS HIGH SPEED PKWY?

(Attach additional sheets if necessary)

Comments: A speed study needs to be done. As cars approach the Islands + Cypress N. intersection, they are not going the posted 35 mph. and cannot be seen by cars waiting at the intersection to turn.
Also the curve from the lakes at Pittsburgh to the Islands needs to be straightened to avoid cars ending up in our backyard.
I feel 4 lanes have been needed for a long time, but do not see the necessity for 6.
A traffic light may be necessary for safety of pedestrians, drivers, children + schoolbuses at Cypress N. intersection, because of people going to the park, crossing to board the bus, + lack of visibility at the curve to the north. (mentioned previously).

FHP: Speed a factor in crash that killed Estero teen and injured 2 others

Saturday, August 21, 1999

By JAY STAPLETON, Staff Writer

Speed was a fatal factor in a Friday morning crash that killed an 18-year-old Estero High School graduate and injured two of her friends, Florida Highway Patrol troopers said.

Kristin Nichelle Cooper was on her way home from a Fort Myers club around 2 a.m. when the BMW she was driving skidded off Three Oaks Parkway and burst through a 5-foot tall, 1-foot thick block wall with such force that it sent 6-inch chunks of a cement more than 100 feet. The car hit the wall after it slid across a 40 foot strip of grass, splintered a heavy wooden sign and uprooted a 10-foot-tall palm tree.

Kristin Nichelle Cooper

Cooper, of 18573 Bartow Blvd, died instantly when she was pinned beneath the overturned vehicle. Her roommate Holly Ann Verhaagh, also trapped beneath the car, was transported to Lee Memorial Hospital, where she was listed in fair condition Friday. A third passenger, Kristen Prestwood, about 18, was able to crawl from the wreckage, according to FHP reports.

Holly Ann Verhaagh

Prestwood was in good condition Friday, said Lee Memorial Hospital spokeswoman Karen Krieger.

Kristen Prestwood

None of the three were wearing seatbelts, crash investigators said. Cooper and Verhaagh were tossed from the car as it rolled.

Their eyes filled with tears, friends of Cooper's who stopped at the crash site with roses Friday afternoon said they were shocked someone so alive had died so violently.

"I can't believe it," said Russell Borchers, 20, of Bonita Springs.

According to FHP reports, Cooper was driving south on Three Oaks Parkway at a high rate of speed when the car skidded off the road in a sweeping curve about a mile south of Alico Road. Four tire marks burned in the grass traced the vehicle's approach to the wall just south of Pittsburgh Boulevard. Through the car-wide hole, broken glass, splintered wood, bits of cement and the uprooted palm tree left a reminder of the violence of the crash.

"It's obvious the car was traveling above the speed limit," said FHP Lt. Malcolm Rhodes.

As in all fatal crashes, blood tests of the driver were taken to determine whether alcohol played a role in the crash.

Cooper had graduated from Estero High School in June.

"She was a very intelligent bright young lady, she was a good student," principal Fred Bode said. "It's a terrible waste."

Described as a funny, outgoing girl, Cooper loved going to clubs and movies, her friends said.

"She was a cheerleader for a bit," Borchers said. "She liked to do anything teen-agers like to do."

The girls were returning home from the Bottom Line, a Fort Myers dance club, friends said. Cooper and Verhaagh had recently moved in together and were excited about decorating.

"She was less than five minutes from home," Borchers said.

Throughout the day Friday, friends placed flowers beside the broken wall, or just stopped and cried. Shane Plageman, 21, of Naples said he had seen Cooper the day before.

"I'm just glad I got to say good-bye," he said.

"I didn't," said Borchers.

"She was like my sister," said Lindsay Antal, 16. "She was so funny."

A few steps away, where the car came to its final rest at the bottom of a slight incline, there were remnants from the evening - two packs of

Marlboro light menthol cigarettes, a green comb, an empty Gatorade bottle, and two yellow candies wrapped in plastic.

Cooper had been hired a few weeks before at the new Mel's Diner in Bonita Springs, which is scheduled to open next month.

"I'm just sick about it," said Mel's general manager Steven Weisberg, who had interviewed and hired Cooper. "She was such a beautiful young girl."

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Berton Guest
Address 18193 Horseshoe Bay Circle
City Fort Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

- Comments: I attended the public workshop at 11-19-02 at 30aks Middle School. My comments are below:
- 1) Why not continue 30aks Parkway north behind Kash & Tanny, the park and continue north avoiding the problems / concerns below.
 - 2) When turning North/South on top 30aks Parkway from Cypress Drive North. You CANNOT SEE the on coming south bound traffic. Please straighten the curve, so that I can safely see and avoid near collisions.
 - 3) Many kids, joggers, pedestrians etc cross from North Cypress to the park North entrance, that is a fact of life, they will not use the south entrance.
 - 4) North Cypress Drive is a major traffic thoroughfare for the park and commuters.
 - 5) If you do not straighten out the curve, just North of the Island I guarantee, there will be accidents and fatalities.
 - 6) I drive these roads everyday and safety concerns should be

(Attach additional sheets if necessary)

based on reality not engineering fiction and specs.

Thank you for taking time to participate in this Public Information Workshop.

Three Oaks Parkway Widening from Corkscrew Road to Alico Road
Public Information Workshop
November 19, 2002

7) Also the sidewalk from 30aks Middle to North Cypress Drive is too Narrow. Hundreds of kids use that sidewalk everyday.

Comments:

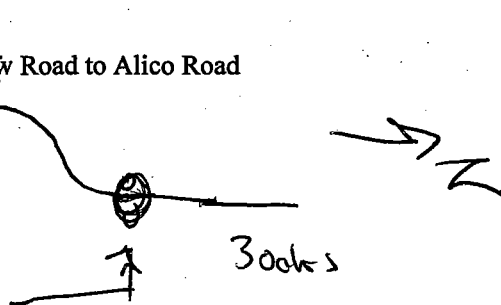

- please consider the following:
- At N Cypress & 3 Oaks Parkway
- 1) Place Fence on park side of ROW (East Side) to discourage pedestrian traffic
 - 1b) " " " " " " " " far enough back to allow pedestrians (who still decide to cross) to get off road's shoulder (East Side) + walk N or S around fence (kids still will cross!)
 - 2) Reduce super-elevation to force slower speeds
 - 3) Provide more sight distance (preferably by acquiring more ROW to North + straightening-out roadway {My traffic study showed max of 7secs from curve to N-Cypress})
 - 4) Place flashing yellow light north of curve warning drivers from North

Comments: A suggestion I have offered since 1989, which has never been considered, is for Lee County to plan the roads before land development areas are permitted to build residential communities. Having said that, I think DOT is doing the best possible to play "catch up", which won't happen if the communities continue to be allowed to be built, until about 2020 or after. In the meantime, why is it only a limited number of building permits allowed so that DOT can catch up? (Talk to your commissioners).

Back to roads --- I liked your presentations! I only hope there will be safe accesses & traffic lights at major intersections! Too often, after a road is built, a problem intersection is identified, & then you spend 2 years studying the problem, someone or two are killed in an accident there, and only then will you verify the need for a traffic light. Common sense should be used instead of so many "Studies"!

Alignments presented should be chosen on the best option, least environmental damage, & cost. Engineers should make sound decisions.

Comments: General improvements to 3 oaks Parkway look good.
Concerns for Dedicated turning lanes ~~with~~ preferred over
TRAFFIC INTERCHANGES @ Winged Foot PLYSBURY BLVD AND EXPRESS
DRIVE NORTH TL @ SAN CARLOS BLVD. to maintain
TRAFFIC FLOW. Will DIVIDED ROADWAY EFFECT SPEED LIMIT
NEIGHBOURHOODS ON 3 OAKS BLVD Past 3 OAKS Middle?
NEW ROUTE Helpful to Reduce Traffic Flow in Neighbourhoods
South of Town Center. Plantings would improve
Appearance of divided Roadway through Residential areas

(Attach additional sheets if necessary)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: WORKSHOP WAS INFORMATIVE TO THE PUBLIC
and concerned homeowners. The handouts
concerning the Three Oaks Pkwy widening and
Koreshan Boulevard Extension were informative
BUT they lacked drawings showing the
proposed modifications of the roadways.
Maps along with your handout would be
more informative and less confusing than
going from memory when discussing this
project with neighbors and others.
The following are my thoughts regarding the Three Oaks Pkwy
widening: (1) Reduce speed limit from 45mph to 35mph
on remaining parkway west of Cypress Chase
(2) The parkway realignment east of Cypress Chase
should go behind Town Center, School and Lakewood Island
parallels 75. (3) Traffic signals (LIGHTS or STOP SIGNS) are
needed at San Carlos Blvd / Town Center.
(Attach additional sheets if necessary) (4) Lighting of the above intersection,

Thank you for taking time to participate in this Public Information Workshop.

Comments: I strongly support the eastern alignment of the Three Oaks Parkway Widening Project, routing the roadway along I-75 around the eastern boundary of the Cypress Chase neighborhood. It is crucial that the alignment of the widening project continue as currently depicted at the November 19th Public Hearing for the following reasons:

SAFETY. The existing (western) alignment of Three Oaks Parkway accommodates a significant amount of school bus and car traffic. This bus and car traffic, combined with walking and bike-riding students - is already a dangerous situation along a very curving section of road. The eastern alignment of Three Oaks Parkway - routing the road along I-75 between Station 1193+50 (County Oaks) and Station 1239+50 (near Three Oaks Center) will greatly improve an already dangerous traffic condition.

NOISE. The Three Oaks communities of Cypress Chase, Pine Run and Pine Glen - which consist of over 500 residences - would have a significant noise impact if the alignment were not routed to the east (currently proposed alignment). These communities would require noise walls, noise barriers, landscape buffers and other noise attenuation measures to be added to the project at a significant cost to the taxpayers of Lee County. The eastern alignment greatly reduces the noise concerns of these communities.

I also support the extension of Koreshan Boulevard to Ben Hill Griffin Parkway as proposed. However, the extension of Miami south to connect to Koreshan is critical for efficient movement of San Carlos traffic to these needed north-south arterial roadways (Three Oaks and Ben Hill Griffin). For the safety of traffic around Three Oaks Elementary School, I implore Lee County to extend Miami south to Koreshan as part of their short-term transportation plan.

Thank you for the opportunity to comment.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I strongly support the eastern alignment of the Three Oaks Parkway Widening Project, routing the roadway along I-75 around the eastern boundary of the Cypress Chase neighborhood. It is crucial that the alignment of the widening project continue as currently depicted at the November 19th Public Hearing for the following reasons:

SAFETY. The existing (western) alignment of Three Oaks Parkway accommodates a significant amount of school bus and car traffic. This bus and car traffic, combined with walking and bike-riding students - is already a dangerous situation along a very curving section of road. The eastern alignment of Three Oaks Parkway - routing the road along I-75 between Station 1193+50 (County Oaks) and Station 1239+50 (near Three Oaks Center) will greatly improve an already dangerous traffic condition.

NOISE. The Three Oaks communities of Cypress Chase, Pine Run and Pine Glen - which consist of over 500 residences - would have a significant noise impact if the alignment were not routed to the east (currently proposed alignment). These communities would require noise walls, noise barriers, landscape buffers and other noise attenuation measures to be added to the project at a significant cost to the taxpayers of Lee County. The eastern alignment greatly reduces the noise concerns of these communities.

I also support the extension of Koreshan Boulevard to Ben Hill Griffin Parkway as proposed. However, the extension of Miami south to connect to Koreshan is critical for efficient movement of San Carlos traffic to these needed north-south arterial roadways (Three Oaks and Ben Hill Griffin). For the safety of traffic around Three Oaks Elementary School, I implore Lee County to extend Miami south to Koreshan as part of their short-term transportation plan.

Thank you for the opportunity to comment.

Thank you for taking time to participate in this Public Information Workshop.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am totally against the widening of Three Oaks parkway. As it is now with 2 lanes it is very dangerous for cars & pedestrians, there are numerous accidents and a death along the stretch by the islands. We have a dangerous curve in that road that makes it unsafe. This stretch of the rd. must be straightened out if you are to proceed with the widening of the parkway, which I hope you do not proceed with.

(Attach additional sheets if necessary)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: As a person who lives on San Carlos Blvd and as an administrator at the middle school, I have a couple of concerns. The safety of the children is my major concern. Students exit north and south by bus, bike, parent pick-up and walkers. The current plan does not address the speed and congestion when students are arriving and being dismissed. The cross over main entrance may alleviate some of the problem but there really needs to be a way to control the traffic (ie. light or stop sign). The same applies to the San Carlos Blvd and Three Oaks Pkwy. intersection. At different times of the day it is almost impossible to make a left turn onto Three Oaks Pkwy from San Carlos Blvd. Lastly, the bend north off Cypress is a blind spot for pedestrians and cars.

Michael S. Carson

Comments:

The federal government knows with the growth of the area that the new Alico I-75 interchange noise must be considered and goes into their forecasts for the 8 county area

The county will increase traffic on 3 Oaks by increasing the traffic by funneling from I-75 and 2541 traffic to 3 Oaks.

I can't see why Lee doesn't place traffic noise increases caused by traffic increase on 3 Oaks.

Comments: *My home is closer than 300 ft. to present Three Oaks Parkway. Noise is very objectionable from traffic. The Developer of Rookery Pointe did not provide an adequate barrier for sound reduction. A noise barrier wall must be provided along the property to attenuate additional traffic noise from heavy traffic volume. Someone needs to do this. If County won't put pressure on the land Developer to provide sound walls, I object to the County telling me they "don't build sound barrier walls".*

Comments: As concerns the Koreshan extension I believe that some kind of sewer pipes should be installed thru the proposed levy to allow for the flow of water so as not to further deteriorate the wetlands immediately south of any of the proposed.

As a resident of Country Oaks, I am in favor of the alternate only proposal. I will support the alternate re-alignment and will absolutely resist the proposed re-alignment.

(Attach additional sheets if necessary)

Comments: Please put the bike path on the west side as it is on the westside of Three Oaks. The asphalt path is better than sidewalk, creating more diverse use, and you avoid the duplication of 4 ft of bike path plus sidewalk.
The alternate re-alignment south of Country Oaks Blvd. is better for area.
Speed limit on existing TO should be lowered to 35 mph — through the neighborhood.
Koreshan Blvd ext. preferred alignment 9 is fine.

(Attach additional sheets if necessary)

Comments: PER THE DIAGRAM SHOWING THE PROPOSED ALIGNMENT
MY CHOICE IS THE ALTERNATE RE-ALIGNMENT SOUTH OF
COUNTRY OAK, THIS WILL DIRECT THE TRAFFIC AWAY FROM THE
COUNTRY OAK HOUSING DIVISION, AND ALSO GIVING US THE
ABILITY TO TURN LEFT OR RIGHT ON THREE OAKS PARKWAY.

MY CHOICE FOR THE LORESHAN BLVD EXTENSION
IS ALTERNATIVE 9. INSTEAD OF MAKING THE PORTION
ON EITHER SIDE OF THE DIVER PASS FROM DIRT WHY NOT
THINK ABOUT THE POSSIBILITY OF USING (FOR THE LACK OF
THE PROPER TERM) PLOTS. THIS WOULD ALLOW THE
NATURAL FLOW OF WATER.

THANK YOU.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: THE PROPOSED KORESHAN EXTENTION BRIDGE
DOES NOT ALLOW ENOUGH WIDTH FOR A
DECENT - USABLE GREENWAY - BIKE - WALK - STROLLER
ETC. IT SHOULD BE 12' WIDE AT A MIN.
LOOK AT THE "LAND BRIDGE" IN ORLANDO.
AS A GREAT EXAMPLE!
THE WIDENING OF THREE OAKS @ THREE OAKS
PARK "TAKES" ALOT OF PARK & LIMITS
THE DRIVEWAY ACCESS. IT WILL BE A MESS
TO EXIT CARS AFTER A BIG EVENT.
WHAT CONCESSIONS IS DOT MAKING TO INCREASE
PARK SIZE / FACILITIES / DRIVES ETC TO MITIGATE?

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

Comments: We the residents of The Islands at Three Oaks wish to express several concerns with the widening of Three Oaks Parkway: 1) We believe there is a line of site problem to the north of N. Cypress Dr. The speeds in excess of 35 m.p.h. of vehicles traveling south do not allow adequate safety for pedestrians crossing 3 Oaks Pkwy going to the park or allow adequate time for vehicles turning onto 3 Oaks Pkwy to travel North. 2) With the widening of the Parkway and the amount of cars traveling from San Carlos Park on N. Cypress Dr., it will be difficult to turn North on 3 Oaks without a traffic signal. 3) The Moratorium on Pittsburgh remaining closed has expired, so by opening Pittsburgh through to Three Oaks Pkwy should relieve the amount of vehicles traveling on N. Cypress Dr. We understand that WingedFoot Dr. will open through to the Pkwy but Pittsburgh can be opened much sooner without as much cost. 4) Pedestrians traveling to 3 Oaks Park need a cross walk light in order to do it safely when trying to cross at N. Cypress Dr. 5) The sidewalk from N. Cypress to 3 Oaks Middle school to the South is heavily traveled by students during school times. This is too close to traffic. It should be a priority to have a barrier between traffic and pedestrians. So a guard rail similar to ones on Ben Hill Griffin Pkwy should be considered. This sidewalk is too close to traffic! We have seen instances where children have been pushed aside into the roadway by other students.
We Hope the County DOT will consider these comments carefully from a safety stand point before pursuing with these plans. We the Residents of The Islands travel to work and transport our children to school and live this daily. We have seen people injured in vehicle accidents more than once at this intersection and see an increase in the future. Please consider our concerns carefully to prevent the possibility of someone being fatally injured.

Thank-You,

Michael P. Lucas

Comments: We the residents of The Islands at Three Oaks wish to express several concerns with the widening of Three Oaks Parkway: 1) We believe there is a line of site problem to the north of N. Cypress Dr. The speeds in excess of 35 m.p.h. of vehicles traveling south do not allow adequate safety for pedestrians crossing 3 Oaks Pkwy going to the park or allow adequate time for vehicles turning onto 3 Oaks Pkwy to travel North. 2) With the widening of the Parkway and the amount of cars traveling from San Carlos Park on N. Cypress Dr., it will be difficult to turn North on 3 Oaks without a traffic signal. 3) The Moratorium on Pittsburgh remaining closed has expired, so by opening Pittsburgh through to Three Oaks Pkwy should relieve the amount of vehicles traveling on N. Cypress Dr. We understand that WingedFoot Dr. will open through to the Pkwy but Pittsburgh can be opened much sooner without as much cost. 4) Pedestrians traveling to 3 Oaks Park need a cross walk light in order to do it safely when trying to cross at N. Cypress Dr. 5) The sidewalk from N. Cypress to 3 Oaks Middle school to the South is heavily traveled by students during school times. This is too close to traffic. It should be a priority to have a barrier between traffic and pedestrians. So a guard rail similar to ones on Ben Hill Griffin Pkwy should be considered. This sidewalk is too close to traffic! We have seen instances where children have been pushed aside into the roadway by other students.

We Hope the County DOT will consider these comments carefully from a safety stand point before pursuing with these plans. We the Residents of The Islands travel to work and transport our children to school and live this daily. We have seen people injured in vehicle accidents more than once at this intersection and see an increase in the future. Please consider our concerns carefully to prevent the possibility of someone being fatally injured.

Thank-You,

Randy C. Popple

Comments: We the residents of The Islands at Three Oaks wish to express several concerns with the widening of Three Oaks Parkway: 1) We believe there is a line of site problem to the north of N. Cypress Dr. The speeds in excess of 35 m.p.h. of vehicles traveling south do not allow adequate safety for pedestrians crossing 3 Oaks Pkwy going to the park or allow adequate time for vehicles turning onto 3 Oaks Pkwy to travel North. 2) With the widening of the Parkway and the amount of cars traveling from San Carlos Park on N. Cypress Dr., it will be difficult to turn North on 3 Oaks without a traffic signal. 3) The Moratorium on Pittsburgh remaining closed has expired, so by opening Pittsburgh through to Three Oaks Pkwy should relieve the amount of vehicles traveling on N. Cypress Dr. We understand that WingedFoot Dr. will open through to the Pkwy but Pittsburgh can be opened much sooner without as much cost. 4) Pedestrians traveling to 3 Oaks Park need a cross walk light in order to do it safely when trying to cross at N. Cypress Dr. 5) The sidewalk from N. Cypress to 3 Oaks Middle school to the South is heavily traveled by students during school times. This is too close to traffic. It should be a priority to have a barrier between traffic and pedestrians. So a guard rail similar to ones on Ben Hill Griffin Pkwy should be considered. This sidewalk is too close to traffic! We have seen instances where children have been pushed aside into the roadway by other students.

We Hope the County DOT will consider these comments carefully from a safety stand point before pursuing with these plans. We the Residents of The Islands travel to work and transport our children to school and live this daily. We have seen people injured in vehicle accidents more than once at this intersection and see an increase in the future. Please consider our concerns carefully to prevent the possibility of someone being fatally injured.

Comments: We the residents of The Islands at Three Oaks wish to express several concerns with the widening of Three Oaks Parkway: 1) We believe there is a line of site problem to the north of N. Cypress Dr. The speeds in excess of 35 m.p.h. of vehicles traveling south do not allow adequate safety for pedestrians crossing 3 Oaks Pkwy going to the park or allow adequate time for vehicles turning onto 3 Oaks Pkwy to travel North. 2) With the widening of the Parkway and the amount of cars traveling from San Carlos Park on N. Cypress Dr., it will be difficult to turn North on 3 Oaks without a traffic signal. 3) The Moratorium on Pittsburgh remaining closed has expired, so by opening Pittsburgh through to Three Oaks Pkwy should relieve the amount of vehicles traveling on N. Cypress Dr. We understand that WingedFoot Dr. will open through to the Pkwy but Pittsburgh can be opened much sooner without as much cost. 4) Pedestrians traveling to 3 Oaks Park need a cross walk light in order to do it safely when trying to cross at N. Cypress Dr. 5) The sidewalk from N. Cypress to 3 Oaks Middle school to the South is heavily traveled by students during school times. This is too close to traffic. It should be a priority to have a barrier between traffic and pedestrians. So a guard rail similar to ones on Ben Hill Griffin Pkwy should be considered. This sidewalk is too close to traffic! We have seen instances where children have been pushed aside into the roadway by other students.
We Hope the County DOT will consider these comments carefully from a safety stand point before pursuing with these plans. We the Residents of The Islands travel to work and transport our children to school and live this daily. We have seen people injured in vehicle accidents more than once at this intersection and see an increase in the future. Please consider our concerns carefully to prevent the possibility of someone being fatally injured.

Comments: We the residents of The Islands at Three Oaks wish to express several concerns with the widening of Three Oaks Parkway: 1) We believe there is a line of site problem to the north of N. Cypress Dr. The speeds in excess of 35 m.p.h. of vehicles traveling south do not allow adequate safety for pedestrians crossing 3 Oaks Pkwy going to the park or allow adequate time for vehicles turning onto 3 Oaks Pkwy to travel North. 2) With the widening of the Parkway and the amount of cars traveling from San Carlos Park on N. Cypress Dr., it will be difficult to turn North on 3 Oaks without a traffic signal. 3) The Moratorium on Pittsburgh remaining closed has expired, so by opening Pittsburgh through to Three Oaks Pkwy should relieve the amount of vehicles traveling on N. Cypress Dr. We understand that WingedFoot Dr. will open through to the Pkwy but Pittsburgh can be opened much sooner without as much cost. 4) Pedestrians traveling to 3 Oaks Park need a cross walk light in order to do it safely when trying to cross at N. Cypress Dr. 5) The sidewalk from N. Cypress to 3 Oaks Middle school to the South is heavily traveled by students during school times. This is too close to traffic. It should be a priority to have a barrier between traffic and pedestrians. So a guard rail similar to ones on Ben Hill Griffin Pkwy should be considered. This sidewalk is too close to traffic! We have seen instances where children have been pushed aside into the roadway by other students.

We Hope the County DOT will consider these comments carefully from a safety stand point before pursuing with these plans. We the Residents of The Islands travel to work and transport our children to school and live this daily. We have seen people injured in vehicle accidents more than once at this intersection and see an increase in the future. Please consider our concerns carefully to prevent the possibility of someone being fatally injured.

Thank-You,

Anne Seifert

November 19th, 2002

Petition Supporting The Alternative Realignment Plan B - Three Oaks Parkway Widening 4 Lane from Corkscrew Road to Alico Road - Project No. 4081.

Submitted to the following agencies of Lee County, Florida government

Lee County Board of County Commissioners
P.O. Box 398
Ft. Myers, FL 33902

Lee County Department of Transportation
Division of Transportation, Engineering
Attn: Ms. Betsy Rowan, Project Manager
1500 Monroe Street
Ft. Myers, FL 33901

Attn: Mr. Bob Janes - District 1
Mr. Doug St. Cerny - District 2
Mr. Ray Judah - District 3
Mr. Andy Coy - District 4
Mr. John Albion - District 5

Petition:

The undersigned homeowners of the Country Oaks Subdivision, located off of Three Oaks Parkway in Lee County, Florida do hereby make petition to the Lee County Board of County Commissioners and the Lee County Division of Transportation to reevaluate the Proposed Realignment of Three Oaks Parkway and approve the Alternative Realignment Plan of Three Oaks Parkway.

The approved plan, which allows for the convergence of four lanes of traffic near the entrance of Country Oaks Drive, would create a hardship for the one hundred and twenty-two homes within the community. The proposed realignment with the additional traffic lanes would create the following problems:

- Community school bus stop at the Country Oaks entrance provides a hazardous environment for elementary, middle and high school students waiting on Lee County school buses.
- Residences and visitors of Country Oaks would not be allowed to exit the community heading north. The proposed plan would require all residences to make a right turn, drive southbound then make a U-turn to head north. This would create a perilous situation for all drivers.
- Four lanes of traffic would come very close to the community due to the west right-of-way, which is just a few feet away from the rear of the homes located by Three Oaks Parkway. The additional traffic lanes would generate unacceptable noise levels in nearby homes diminishing the value of these homes within the neighborhood. Although Country Oaks is erecting a six foot wall, to help eliminate existing road noise, this structure will not serve to mitigate additional road noise from a four lane road.
- If the Proposed Realignment of Three Oaks Parkway comes to fruition the concerns of the residences of the Country Oaks Subdivision include the safety of our children, safety of drivers exiting the neighborhood, security of the neighborhood due to increased vandalism and declining property values due to the close proximity of the newly aligned roadway.

Please consider this petition to safeguard our community, families and children from the burden of increased traffic flow and noise levels, which would be in extremely close proximity to Country Oaks Subdivision.

Respectively Yours,

Mike Saba

**THREE OAKS PARKWAY WIDENING
FROM CORKSCREW ROAD TO ALICO ROAD.
PUBLIC INFORMATION COMMENT SHEET**

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name MIKE SABA
Address 9963 COUNTRY OAKS DR.
City FT. MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: *I would like to petition the Board of County Commissioners to approve the Alternate Plan B - Realignment of Three Oaks Parkway for several reasons. While the Alternate Plan is the most difficult because additional property must be purchased, it is the most sensible plan. With Plan B, the county will also have a retention pond for water run off.*

Most importantly, with the Alternate Plan the County will safeguard children from speeding motorists.

I would like to invite the Board of County Commissioners to stand at the entrance to our community. As our children do while waiting on school buses and watch the cars fly past at speeds of 60 miles per hour and over in a 45 mile per hour zone. Children ages 6 and up are forced to stand literally within 10ft. of careless motorists. Please gentlemen, reconsider your previously approved plan and approve the Alternate Realignment.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

Thank you.

Comments: AS A HOME OWNER IN COUNTRY OAKS FOR 11 YEARS, I HAVE ENJOYED THE QUIET & PEACEFUL AREA. NOW AS EVERYTHING AROUND US GROWS THERE SEEMS TO BE A NEED FOR CHANGE, BUT HOPEFULLY GOOD CHANGE. HAVING JUST RETURNED FROM A COUNTRY OAKS ASSOCIATION MEETING & LEARNING OF THE PROSPECTIVE NEW SURROUNDING ROAD ENLARGEMENTS & CHANGES ALONG THREE OAKS PARKWAY I CONSIDER THAT THERE IS ONLY ONE SUITABLE OPTION FOR RESIDENTS OF COUNTRY OAKS & THAT IS THE PROPOSED ALTERNATE ROUTE NOT TO MENTION VARIOUS SAFETY FACTORS ESPECIALLY FOR CHILDREN, HOPEFULLY LESS CRIME, FAR LESS NOISE POLLUTION & LESS FLOODING IN OUR COMMUNITY & MANY MORE SITUATIONS THAT I AM NOT YET AWARE OF. THANK YOU JEAN PINTI.

Comments: I strongly feel opposed to the widening option A. Water drainage, safety for pedestrians and drivers, will all be sacrificed if we do not use proposal #2 or B

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am strongly opposed to the widening option A. A brings three oaks right in front of our community. We have children that wait for the bus at the end of our road. Cars will now be passing our children at home. Option B brings three oaks away from our community. It is the safer alternative.

Michele Arnold

THREE OAKS PARKWAY WIDENING FROM CORKSCREW ROAD TO ALICO ROAD PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name BRAD TUMAS
Address 9926 COUNTRY OAKS DRIVE (COUNTRY OAKS SUB-DIVISION)
City FR. MYERS State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: My concerns for the widening of Three Oaks Parkway plan that you are considering are as follows:

1. Child protection - I feel your plan will bring high speed traffic too close to our entry way, endangering the lives of our children as they enter, leave, wait for buses, etc.
2. High Speed traffic - I am sure that people using Three Oaks Pkwy for commuting purposes will do so as an alternative to I-75 and will therefore increase their speed to justify their route.
3. Property value - A high speed access route will undoubtedly decrease our property value.
4. Noise level - As I can already hear I-75 traffic, I can't even imagine the noise level from Three Oaks being so close.

The residents of Country Oaks have already agreed to build a buffer wall along Three Oaks, and pay for it out of our own pockets. We're doing what we can to protect our resources - Won't you do the same by adopting the plan that brings Three Oaks Parkway widening further away from our entrance?

(Attach additional sheets if necessary)

Thank you for taking time to participate in this Public Information Workshop.

**THREE OAKS PARKWAY WIDENING

PUBLIC INFORMATION COMMENT SHEET**

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Sharon L. Ziegler
Address 9867 Country Oaks Dr.
City ft. Myers State Fl. Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: As a homeowner in Country Oaks Subdivision I am
opposed to the existing plans to widen Three Oaks Pkwy.
I join the ranks in favor of the alternate ~~plan~~ plan which
makes use of the water retention feature.

I am concerned for the children who will have to wait for
school bus pick-up along a major thoroughfare.

The dumping of traffic right in front of our Development is likely
to cause more accidents for owners leaving the Subdivision also
the noise level will be horrible.

We're doing what we can by paying to have a wall erected
just to cut down on noise level now.

Let's spend the extra money now, do it right the first
time instead of having to fix it later.

Please don't let our county's traffic problems ruin
our nice neighborhood.

Thank You

Sharon L. Ziegler

City Ft. Myers State FL Zip Code 33912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: AS A HOMEOWNER IN THE COUNTRY OAKS SUBDIVISION, I WOULD LIKE TO ADD MY VOICE TO THE OPPOSITION OF THE EXISTING PLAN FOR THE EXPANSION OF THREE OAKS PARKWAY. I REQUEST MOST STRENUOUSLY THAT THE COMMISSIONERS VOTE IN FAVOR OF THE ALTERNATIVE ALIGNMENT WHICH MAKES USE OF A WATER RETENTION FEATURE AND DOES NOT HAVE 6 LANES OF ^{NOISY} TRAFFIC JETTING DIRECTLY IN FRONT OF THE ENTRANCE TO OUR SUBDIVISION.

*Thank you,
Scott Zeigler*

FROM CORKSCREW ROAD TO ALICO ROAD
PUBLIC INFORMATION COMMENT SHEET**

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Janet + Mark Bonnell
Address 9930 Country Club Dr
City Hampton State NC Zip Code 27912

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: We are opposed to the approved plan for the creation of 4 lanes due to the increase hazard for our children at the bus stop our inability to exit our neighborhood to the north, also the close proximity to the houses at the north end of our neighborhood. The noise and has been a concern to our neighborhood therefore we have all voted to build a wall out of our own pockets. We are doing our part to assist in noise control but we are also asking the county to be responsible and responsive to our needs by utilizing the alternate plan. We do pay our taxes and request that the alternate plan be used.
Thank you Janet + Mark Bonnell
