

LEE COUNTY BOARD OF COUNTY COMMISSIONERS
AGENDA ITEM SUMMARY **BLUE SHEET NO: 20040862-UTL**

1. REQUESTED MOTION:

ACTION REQUESTED:

Approve for acceptance, and filing with the Clerk's Office, Minutes Department, an after-the-fact Emergency under Resolution 03-07-08, for the purchase of one JT1220 Jet Trac Boring System in the amount of \$127,588.08 from Ditch Witch of Central & South Florida from funds allocated in Project # 207435 - "Direct Boring & Ditch Digging Machine".

WHY ACTION IS NECESSARY:

Board approval is required for purchases over \$50,000.00.

WHAT ACTION ACCOMPLISHES:

Provides after-the-fact approval under the emergency GES resolution for Purchase Order #55796 for the purchase of a Jet Trac Boring System from Ditch Witch of Central & South Florida, so that Lee County Utilities may continue to make repairs to the system in an expeditious manner due to the purchase of the GES system.

2. DEPARTMENTAL CATEGORY: 10

6. REQUESTOR OF INFORMATION:

- A. COMMISSIONER: _____
- B. DEPARTMENT: Lee County - Public Works
- C. DIVISION/SECTION: Utilities Division
- BY: Rick Diaz, P.E., Director
- DATE: 6/30/04

7. BACKGROUND:

On July 1, 2003, the Lee County Board of Commissioners approved Resolution 03-07-08, Blue Sheet No. 20030669, declaring a limited, temporary, emergency due to the acquisition of the Gulf Utilities System (GES) in South Fort Myers for the purposes of allowing the County to expedite the procurement of vendors and materials needed for certain immediate improvements needed to the water and wastewater system in the public's interest and the customers' convenience.

Therefore, on May 4, 2004, Lee County Utilities proceeded with the purchase of a Jet Trac Boring System needed to make repairs to Lee County Utilities' Water and Wastewater Collection System, specifically the GES system at this time, Purchase Order No. 55796. Also, the quote received from Ditch Witch needed to be processed right away or the price would have increased by the amount of \$3000.00 due to the increasing rates for steel.

This Ditch Witch is needed to provide repairs within the water & wastewater system to prevent emergencies such as sewage leaks and sink holes, which is detrimental to the health of Lee County citizens.

Funds are available in Account No. 20743548730.506430.

750TKR Tracker

The 750 Tracker is designed for use with all Subsea pitch beacons and requires six "C" cell alkaline batteries (batteries included). Each 750 Tracker comes with 29K Hz beacon, a 50/60 Hz passive power, and an 8K active frequency which requires a transmitter. Each unit also comes standard with Remote Guidance and Tracker Control capabilities. Tracker control gives the locator the ability to enable/disable thrust and rotation on all Jet Trac Mech 1 series when in Tracker Control mode. The 750 Tracker works with the 750 Display which shows all information displayed by the 750 Tracker at distances up to 2000 feet. The 750 Display has internal data storage capabilities for 10 jobs and also supports the Trac Management System. The 750 Tracker includes hard case, stand and operator manual.

88B Beacon Assembly

The model 88B pitch beacon has been designed and tested to provide the highest reliability possible. This beacon requires a low pressure housing. This beacon has improved temperature response, plus special circuitry to properly reset the electronics in case of battery chatter. Also, a heavy duty battery-to-electronics interconnect system has been implemented. The 88B has 12 position roll, pitch (% of grade), temperature, and battery status. The depth performance of the beacon is the same as the 84BRPH and 85BRPH. The 88B transmits a 29 kHz signal and is equipped with auto sleep and roll to wake feature. Typical battery life is 40 plus hours.
