J. Once the purchase price and terms of purchase of land under the Land Program is complete and ready for Board approval, the Committee may review and provide a recommendation to the Board concerning the negotiated purchase price and terms of purchase. The Committee may recommend purchase as proposed or may recommend not moving forward with the negotiated price. For those purchases where the Committee recommends not moving forward, the Committee must provide the basis for its recommendation. The Board has the discretion to accept or reject the Committee's recommendation. In making its recommendation, the Committee may consider the following:

   a) Appraisals prepared for the property.
   b) Analysis of the valuation method used and the comparable sales data, adjustments, and assumptions made to support the valuation.

   d) Development Regulations and existing entitlements applicable to the property and potential for development of the property under current development regulations and entitlements.
e) Expenses associated with the maintenance of the property.

B. All land purchases shall conform to those laws applicable to the County purchase of real property or any interest therein.

C. All lands shall be purchased in a legal interest sufficient to meet the objectives for the uses of the acquired lands herein, this may include, where appropriate, the use of Conservation Easements as another possible means to acquire environmentally sensitive lands. Notwithstanding, property owners may donate and the County may accept donations of environmentally sensitive lands into the Conservation 20/20 Program, so long as the donated property meets the Conservation 20/20 Program criteria and the Board of County Commissioners formally accepts the donation.

   c) For purposes of this Section I., it is the intent of this Ordinance that the requirement for the eligibility of mitigation credits from permitting agencies for lands acquired under the Program be liberally construed, so as not to preclude the acquisition of a desired, selected property that may or may not provide future mitigation credits.
