- b. Tier 2 consists of those areas immediately adjacent to Tier 1 where public facilities such as water and sewer are not fully available today, but where the provision of these public facilities should be prioritized in the second decade of the planning horizon, 10 to 20 years from adoption of the plan.
- c. Tier 3 consists of the extreme northern and eastern fringe of Lehigh Acres. This area is the least developed and is the lowest in zoned density due to the preponderance of one acre and half acre lots. Stand-alone residential planned developments are prohibited. Residential uses may only be permitted in conjunction with a mixed use planned development. All developments within the Specialized Mixed Use Nodes must be consistent with Table 1(c) of the Lee Plan. The Community Mixed-Use Activity Center located south of SR 82 at Daniels Parkway is also designated as a DR/GR Mixed-Use Community on Map 17 of the Lee Plan, and development approvals may follow any of the procedures established for DR/GR Mixed-Use Communities instead of being reviewed as a Planned Development. **OBJECTIVE ~~32.725.6~~: COMMERCIAL OVERLAY ZONES.** To designate on the Future Land Use Map a Commercial Overlay for properties in the Lehigh Acres Community Plan area. ~~Designate additional overlay zones on the Future Land Use Map to establish potential commercial land uses in Lehigh Acres. The Commercial Overlay Zones are identified on Map 1, page 8 of 8 of the Lee Plan. The distinction in Policy 6.1.2(7) between the two major types of commercial uses does not apply in Lehigh Acres.~~ (Ordinance No. 98-09, 10-16)

**POLICY ~~32.7.125.6.1~~:** Commercial uses are permitted on lands in the Lehigh Commercial overlay once commercial zoning has been approved ~~in accordance with this plan~~. Land in the Lehigh Commercial overlay may also be used for schools, parks, and other public facilities; churches and synagogues; and residential uses that provide housing alternatives to the typical 1/4 to 1/2 acre subdivision lots. Creation of new single-family lots smaller than one acre is not permitted due to the oversupply of standard subdivision lots. If cumulative new residential

development takes place on more than 1% of this land per year, Lee County will take steps to provide additional commercial land in Lehigh Acres to offset the loss. Lee County will take steps to reduce any emerging surplus of commercial land in Lehigh Acres if cumulative new commercial development exceeds an average floor-area ratio of 1.0 (the ratio of interior floor space to total lot area). (Ordinance No. 98-09, 00-22,10-16)

**POLICY ~~32.7.225.6.2~~:** Because of the shortage of suitable undivided tracts ~~in the Lehigh Acres Planning Community~~, commercial uses may also be appropriate on certain other lands that might otherwise be used for residential lots.

1. Many such lands are designated as part of the Lot Assembly overlay. These lands are platted for single-family lots and are under multiple ownerships. Commercial uses on individual lots or small assemblies of lots would generally be intrusive to existing or emerging neighborhoods. However, the assembly of entire blocks would provide suitable commercial parcels. Major lot assemblies could qualify for commercial zoning whether assembled by government action, private sector purchases, cooperative arrangements between individual lot-owners, or similar arrangements.
2. Other tracts or combinations of platted lots in Lehigh Acres may also be considered for commercial rezoning (even if they are outside any of the three overlays) through the planned development zoning processes or by requesting the CN-3 conventional commercial zoning district that was created to address Lehigh Acres conditions. Lands suitable for such rezoning would include:
  - a. Tracts that are assembled from vacant lots at the intersection of future collector or arterial roads in sparsely developed areas where there are very limited or no suitable commercial locations in any of the commercial overlays; or
  - b. Tracts that separate existing commercial and residential land uses where some commercial uses may be appropriate if they provide a substantial buffer and reasonably protect the privacy of existing dwellings. Land-owners seeking commercial zoning under this subsection should expect a minimal level of commercial uses and/or to provide extra levels of buffering.
