Cost Allocation Plan

FY 2016

ACTUAL COSTS FOR THE YEAR ENDED
SEPTEMBER 30, 2016

Prepared by: Maguire Associates of Virginia, Inc.
PO Box 1766, Chesterfield, VA 23232 (804) 745-1601

INTRODUCTION

A cost allocation plan (CAP) distributes central service overhead costs to operating departments. Central services are those administrative units that mainly provide services to other governmental departments and not to the general public. Examples include the city or county administrator, purchasing, data processing, attorney, etc. Examples of operating departments include: parks and recreation, planning, law enforcement, etc.

Cost Allocation Plans

May be Prepared for a Number of Reasons

Principally, these include:

- * Claiming indirect costs associated with Federal programs.
- * Charging enterprise funds for services provided by the general fund.
- * Determine the full costs of departments providing user fee related services to the public.
- * Obtaining management information related to how the agency carries out its programs.

As the above indicates most agencies prepare CAP's to recover general fund dollars. This has become increasingly important in view of the limitations on taxes and the general need for additional local revenues. However, in the process of preparing a CAP, considerable valuable management information is also developed. In an effort to manage programs better, more agencies are utilizing this information.

METHODOLOGY

This cost allocation plan was prepared in accordance with Federal regulation 2 CFR 200. In no case have costs charged as direct costs to programs been included as indirect costs. Genuine expenditure data was obtained from the financial statements and general ledger. Statistics used to allocate costs were also taken from actual data.

A double step-down allocation procedure was used to distribute costs among central services and to other departments that receive benefits. The initial procedure requires a sequential ordering to benefiting departments. Indirect cost allocations are then made in the order selected to all benefiting departments, including cross allocations to other central service departments. To ensure that a cross benefit of services among central service departments is fully recognized, a step down allocation for each central service department is made. Costs allocated for each central service department consist of the following:

FIRST ALLOCATION - The operating expenditures for the department, excluding unallowable items (i.e., capital expenditures, interest expense and general government costs as designated by Federal regulation 2 CFR 200), plus allocated costs from other central service departments which have been identified up to this point.

SECOND ALLOCATION - Costs from other central services made subsequent to that departments first allocation. Regarding the double step down process, please recognize the following:

1. the initial sequencing of departments was made in consideration of the ordering which maximizes the benefits of services; and,
2. after the second allocation of each central service department is closed they can not receive any additional allocation from other central services.

Format of the Report

A Table of Contents is inserted at the beginning of the cost allocation plan and identifies summary data and sections of the plan.

SUMMARY DATA - Four summary schedules are provided at the beginning of the cost plan.

1. Allocated Costs By Department -

provides the costs allocated from each central service department to each operating department. The central service departments are listed on the left side of the page and the operating departments across the top with a total allocated at the bottom.

2. Summary of Allocated Costs -

total expenditures per central service department and any adjustments to those expenditures are shown. Amounts in the total allocated column are totals from allocated costs by department.

3. Detail of Allocated Costs -

details the costs allocated from each central service department. The central service departments are listed across the top and the departments that received allocations are listed on the left side of the page.

4. Summary of Allocation Bases -

provides the bases used to allocate the costs for each function of every central service department.

SECTIONS - sections for each central service department are presented in the following format:

1. Nature and Extent of Services -

a narrative description of the central service and each function that was identified. Allocation bases for each function is also described.

2. Costs to be Allocated -

presents the total costs to be allocated based on actual expenditures from financial statements and the general ledger. Allocated additions represent costs allocated to a central service from other central service departments.

3. Costs to be Allocated by Function -

costs for each department are functionalized to ensure application of allocation bases which closely associate with the benefits derived to receiving departments. Total costs allocated are the same as reflected on the previous schedule. Functions of the department are listed across the top of the page and a detailed schedule is provided on each function.

4. Detail Allocation -

detailed schedule of the allocation of each function is provided on all allocated functions except for General Administration. Costs of General Administration are not allocated, i.e. capital outlay.

5. Departmental Cost Allocation Summary -

the final schedule in each department provides a summary of the costs allocated by function. The departments that received allocations are listed on the left side of the page and the central service functions are listed across the top.

PURCHASING SERVICES
NATURE AND EXTENT OF SERVICES

The Purchasing department is responsible for the administration of a central purchasing system for all items and services purchased by the County. Procurement includes all purchasing activities which applies to all departments under the Board of County Commissioners as well as some agencies. Services provided include processing requisitions and purchase orders, contract services, preparing bid requests and administering all bidding procedures for goods and services. A salary and wage analysis was performed to functionalize and distribute expenditures within this cost center. Central procurement costs have been allocated departmentally on the number of centralized purchase orders processed. A twenty five percent credit has been adjusted for departments entering the initial data entry of this service. Costs associated with formal bids and request for proposals have been allocated departmentally on the number of projects processed. The credit card program was established to assist with small purchases. Costs associated with this function are allocated departmentally on the number of cards.

MAINTENANCE AND REPAIR SERVICES
NATURE AND EXTENT OF SERVICES

The Facility Management Division is responsible for the maintenance and operations of County facilities. General maintenance is provided by department personnel who repair HVAC systems, sanitary and plumbing systems, lighting, roofing, flooring and ground maintenance.

These costs have been allocated based upon job order, labor and materials cost per user. Departmental expenses listing under "cost by project" and "other buildings" have been directly assigned. In the case of the Administration Building, Justice Center and Courthouse, the costs are assigned based on departmental billings.
