

DigEplan - Document Types Requiring Digital Signature and Stamp

ACA Document Uploads

When the documents listed below are uploaded to the record electronically, they will go through the Digital Projects (DigEplan) submission policies check, which confirms if the digital signature and stamp are valid.

If issues with the digital stamp or signature are found, the system will advise the Applicant.

Note: *Digital Signatures must be certified by a third-party vendor, as self-certification is no longer being accepted.*
