The guide includes these sections:

2. [Complete your general permit application](#)
3. [Attach the required and conditional documents to your application package](#)

1. Permit Description

A Demolition permit is required to raze, dismantle, or remove a portion of or an entire residential or commercial structure including interior walls, particularly load-bearing walls, or if the demolition affects other trades or structural components.

If the walls to be demolished are non-load-bearing and not firewalls in a commercial structure, and if the proposed demolition does not change an existing commercial use, then a permit may be issued over the counter.

Removal of interior bearing components will mandate engineered modifications that must comply with requirements for residential or commercial permits. Construction is not allowed under a Demolition Permit.

This permit is governed by applicable codes, which may include but are not limited to:

- [Florida Building Code](#) 7th Edition (2020)
- [Florida Statute Sec. 553.73](#)

5. Plans/ Blue Prints

If the project involves removal of walls, doors, lights, drop ceilings, porches, etc.; provide a floor plan that identifies what is being removed during demolition.

6. Permission Letter from Owner / HOA (Notarized)

If the project is being done by a tenant or on property regulated by a home owners association, submit a NOTARIZED letter verifying the owner or HOA's permission to proceed. It must include:

- Type of work/permit that is being requested;
- Statement that the owner or HOA approves of the work/permit being done and gives permission to tenant/contractor to do the work;

10. Vegetation Permit

If the project is on property in unincorporated Lee County that is over 5 acres, over 2 acres on Pine Island, or any property on a barrier island, then a permit is required for the removal of vegetation and protection of endangered species. Please contact PODEnvVeg@leegov.com if you have questions.

11. Notice of Commencement
