A Commercial or Residential Windows, Doors, Shutters permit is required to install, alter or replace shutters and **size-for-size windows and doors**. Construction materials may include metal, wood, glass, vinyl and acrylic or other frame and material type.

Each window, door or shutter use may require multiple work activities; therefore, refer to the applicable codes, which may include but are not limited to:

- [Florida Building Code](#) 7th Edition (2020)
- [Lee County Land Development Code](#) (LDC) Chapter 6, Article IV

If doors and windows are not a size-for-size replacement, then the project will require a Residential or Commercial Alteration to Primary Structure permit.
