1. Permit Description

A Roof Over permit is required for Residential or Commercial to install, alter or replace a roof on top of a roof, and is most often used with manufactured homes.

A roof over is different from a reroof. A reroof is when new shingles are laid over existing shingles. This would be accomplished through a Roof permit.

Each project may require multiple work activities; therefore, refer to the applicable codes, which may include, but are not limited to:

- [Florida Building Code](#) 8th Edition (2023)

Conditional Required Documents

☐ **1. Mastered Plans**

If you are planning to purchase a roof over from a manufacturer, check if the approved plans for your manufacturer's make and model are on file with Lee County. If not, the original plans signed and sealed by a design professional will be needed.

☐ **2. Product Approval Numbers**

Product approval numbers are required for any roofing products as described in F.A.C. 61G20-3.001. Please fill out the - [FL Product Approval Form](#) for Lee County and submit with your application.

To assist with Product Approval Numbers, here are the [Florida Building Code](#) and the [Miami-Dade County Product Approval](#) search links.

Tips:

Provide only the specific Product Approval number, **INCLUDING the number after the decimal point**, as part of the permit application package. Applicants should ensure that the Product Approval to be used is for the site conditions (wind speed, exposure, etc.) and that the product will be installed as detailed in the approval document.

☐ **3. Owner-Builder Disclosure Statement**

If the installer is not using a licensed contractor and will act as an owner-builder, submit an [Owner-Builder Disclosure Statement](#).

☐ **4. Proof of Ownership**

If the ownership information on the permit application does not match the property owner information on the Lee County Property Appraiser's website (<http://www.leepa.org>), submit proof of ownership, for example, a recorded Warranty Deed.

☐ **5. Permission Letter from Owner / HOA**

If the project is being done by a tenant or on property regulated by a home owners association, submit a letter verifying the owner or HOA's permission to proceed. It must include:

- Address of the project site;
- Type of work/permit that is being requested;
- Statement that the owner or HOA approves of the work/permit being done and gives permission to tenant/contractor to do the work;
- Permit number if already available; and
- Signature of property owner or authorized HOA official.

Tips:

Condo or homeowner associations usually have their own form for this permission process.

☐ **6. Notice of Commencement**

If project value is greater than \$5,000, submit the completed Notice of Commencement to the Lee County Clerk of Court to provide notice that improvement will be made to a real property. **Permit cannot be issued until this notice is recorded with the Lee County Clerk of Court.** **Tip:** Complete this as soon as possible; the lack of a Notice of commencement submission commonly holds up issuance of the permit.
