Please refer to the "Lee County Continuum of Care Code of Ethical Conduct." Work undertaken on behalf of the CoC Governing Board in Lee County must be completed in the timeframe specified by the Board.
2. Board members must notify, via email, County staff or the Board Chair if they are unable to attend a meeting. Absence without notice or explanation for two meetings within a calendar year, or two failures to complete work assignments, will be grounds for removal from the Board and/or committee assignments. Repetitive absences with notification will be reviewed by the Board to determine if a representative's seat should be vacated.
3. Board members may assign one alternate representative from their organization to attend meetings in their absence. The alternate must complete a membership application and conflict of interest form.

## B. Conflicts of Interest

1. **Rules Regarding Conflict** - Governing Board members must abide by 24 CFR Part 578.95 as noted in this section to avoid conflicts of interest and promote public confidence in the integrity of the CoC and its processes. Failure to abide by these rules will be grounds for removal from the Board and any of its committees.

## 2. Conflicts

- *Individual conflict*- No Governing Board member may participate in or influence discussions or resulting decisions concerning the award of a grant or other financial benefits to the organization that the member represents.
- *Organizational conflict* - An organizational conflict of interest arises when, because of activities or relationships with other persons or organizations, the recipient or subrecipient is unable or potentially unable to render impartial assistance in the provision of any type or amount of assistance, or when a covered person's (see next section) objectivity in performing work with respect to any activity assisted is or might be otherwise impaired. Such an organizational conflict would arise when a board member of an applicant participates in the decision of the applicant concerning the award of a grant, or provision of other financial benefits, to the organization that such member represents. It would also arise when an employee of a recipient or subrecipient participates in making rent reasonableness determinations under 24 CFR Part 578.49(b)(2) and 24 CFR Part 578.51(g), and housing quality inspections of property under 24 CFR Part 578.75(b) that the recipient, subrecipient, or related entity owns.
- *Other conflicts*- For all other transactions and activities, the following restrictions apply:
  - No covered person, meaning a person who is an employee, agent, consultant, officer, or elected or appointed official of the recipient or its sub-recipients and who exercises or has exercised any functions or responsibilities with respect to activities assisted, or who is in a position to participate in a decision-making process or gain inside information with regard to activities assisted, may obtain a financial interest or benefit from an assisted activity, have a financial interest in any contract, subcontract, or agreement with respect to an assisted activity, or have a financial interest in the proceeds derived from an assisted activity, either for him or herself or for those with whom he or she has immediate family or business ties, during his or her tenure or during the one-year period following his or her tenure.
  - *Exceptions* - Upon the written request of the recipient, HUD may grant an exception to the provisions of this section on a case-by-case basis, taking into account the cumulative effects of the criteria, provided that the recipient has satisfactorily met the threshold requirements:
    - **Threshold requirements** - HUD will consider an exception only after the recipient has provided the following documentation:
      - Disclosure of the nature of the conflict, accompanied by a written assurance. If the recipient is a government, that there has been public disclosure of the conflict and a description of how the public disclosure was made; and if the recipient is a private nonprofit organization, that the conflict has been disclosed in accordance with their written code of conduct or other conflict-of-interest policy; and

- An opinion of the recipient's attorney that the interest for which the exception is sought would not violate State or local law, or if the subrecipient is a private nonprofit organization, the exception would not violate the organization's internal policies.
- In determining whether to grant a requested exception after the recipient has satisfactorily met the threshold requirements, HUD must conclude that the exception will serve to further the purposes of the Continuum of Care program and the effective and efficient administration of the recipient's or subrecipient's project, taking into account the cumulative effect of the following factors, as applicable:
  - Whether the exception would provide a significant cost benefit or an essential degree of expertise to the program or project that would otherwise not be available.
  - Whether an opportunity was provided for open competitive bidding or negotiation.
  - Whether the affected person has withdrawn from his or her functions, responsibilities, or the decision-making process with respect to the specific activity in question.
  - Whether the interest or benefit was present before the affected person was in the position.
  - Whether undue hardship will result to the recipient, the subrecipient, or the person affected when weighed against the public interest served by avoiding the prohibited conflict.
  - Whether the person affected is a member of a group or class of persons intended to be the beneficiaries of the assisted activity, and the exception will permit such person to receive generally the same interests or benefits as are being made available or provided to the group or class.
  - Any other relevant considerations.

### 3. **Abstention from Decision-Making**

Governing Board members must disclose if they have any conflicts of interest or potential conflicts of interest prior to the discussion of any agenda item that presents such conflict. Any matter in which Governing Board members have an actual or potential conflict of interest will be decided only by a vote of disinterested individuals. If the abstention changes the quorum, additional votes may be accepted by email from disinterested members who are not present. In addition, the minutes of any meeting at which such a vote is conducted must reflect the disclosure of interested directors' and committee members' actual or potential conflicts of interest and their abstention. If email votes have been accepted, the minutes shall reflect the final vote including those votes.

### 4. **Annual Conflict of Interest Acknowledgement Form**

Governing Board members must sign a conflict-of-interest form annually in July, affirming that they have reviewed the conflict-of-interest policy and disclosing any conflicts of interest that they face or are likely to face in fulfillment of their duties as board members.

#### **Resources Committee**

**Mission:** This Committee is focused on the relationship between the agencies that provide housing and services for persons who are homeless, and the CoC General Membership. The Committee should develop innovative ideas to ensure that the CoC has all the information it needs to ensure that homelessness in Lee County is a rare, brief, and one-time experience.

The Committee is responsible for:

- Engaging agencies who are beginning new homelessness initiatives and connecting them to the CoC.
- Obtaining and disseminating information regarding program guidelines, available services, and agency changes to the CoC General membership.

**Objectives:**

**Events Committee**

**Mission:** This Committee is focused on bringing awareness to the issue of homelessness through the organization and execution of several annual events, including:

- The annual Point in Time Count (PTI.)
- Homeless Service Day and Veteran Stand Down.
- The Candlelight Vigil.
- Hunger and Homelessness Awareness Month in November.

The Committee is responsible for developing creative ways to **market events, engage a wide range of stakeholders, and create new events as necessary.**

**Objectives:**

- Plan, coordinate, and facilitate annual events that bring community awareness to the issue of homelessness.
- Assist in connecting persons who are homeless to housing and resources.
- Evaluate the impact and success of each event, and report findings to the CoC General membership.
- Create, plan, and execute new and innovative events that bring community awareness to the issue of homelessness.
- assist in connecting persons who are homeless to housing and resources.

The events committee is responsible for planning for and conducting an annual Point-In-Time Count (PTI) of persons who are homeless within the geographic area that meets HUD requirements and complies with all HUD standards by ensuring the inclusion of youth, families, and other special populations who are experiencing homelessness. Planning for the count must include identifying and considering local circumstances, capacity, and timing, to develop an appropriate counting methodology. The chosen methodology is HMIS and interview surveys.

A **census count** is an enumeration of all homeless people or a distinct subset of homeless people (e.g., households with adults and children) in the CoC. This counting approach provides a direct and

complete count of all people and their characteristics, does not require any estimates, and can be used as a benchmark for future PIT counts. A census count should incorporate the entire CoCs' geography.

- The CoC chooses to **combine census and sampling approaches** to complete the PIT count. For example, the CoC may conduct a census to count the total number of homeless people in the CoC, while using a random sampling approach to generate the necessary demographic information, such as gender and race.
- **Service-based count** (post-night of the count): A survey of people at various social service locations or other public or private locations to identify people who were unsheltered, but not counted, on the night of the count—because unsheltered people may not be included in a single night count. Service-based counts may only be conducted within the 7 days after the designated count night. Service-based counts are conducted at locations frequented by people who are homeless, including soup kitchens, day shelters, libraries, and other community locations, and include interviews to determine whether people were unsheltered on the night of the count, as well as their characteristics.
- The count must also include a housing inventory of shelters, transitional, and permanent housing reserved for persons who are homeless, in general, persons who are chronically homeless, and veterans experiencing homelessness. This data is gathered from HMIS.

## **Housing Committee**

**Mission:** Understanding that rates of homelessness are closely tied to housing pressures due to a lack of stable and attainable housing in an area, this committee focuses on projects to increase the quality and availability of housing in Lee County for people at all economic levels.

### **Objectives:**

The Committee will pilot projects that aim to make homes for all Lee County residents more attainable through the production of more housing units and the preservation of existing subsidized housing units. Strategies to achieve this objective could include:

- Advocacy for changing planning and zoning ordinances to increase the density of home development.
- Exploring financial mechanisms to make funding the development and preservation of subsidized homes more available.
- Other measures to get and keep individuals and families in Lee County into homes that fit into their budgets.

## **Legislative Committee**

**Mission:** To monitor and report on legislation being introduced in the Florida Legislature and Congress that affect persons experiencing homelessness.

***Short-Term Objectives:***

- Track and analyze all proposed legislation in Florida and Congress that directly or indirectly impacts individuals experiencing homelessness within the first 30 days of each legislative session.
- Develop a standardized process for reviewing legislation and identifying potential impacts on the homeless population within two months of the start of each legislative session.
- Establish a system for rapid response to proposed legislation that could negatively impact the homeless population within one week of the bill's introduction.

***Long-Term Objectives:***

- Advocate for the passage of legislation that supports affordable housing initiatives, mental health services, and supportive housing programs within two years.
- Work with relevant stakeholders to develop a comprehensive legislative agenda addressing the needs of the homeless population within one year.
