CONDITIONS OF ISSUED PERMIT

1. The construction or maintenance shall not interfere with the property rights of another property owner.
2. A copy of the approved permit, including all plans and attachments, shall be on the job while work is underway.
3. All work shall be performed in conformance with all standards of the Lee County D.O.T & F.D.O.T
4. All materials and equipment shall be subject to inspection by the County Engineer.
5. During the Construction, all safety regulations of OSHA AND FLORIDA DEPARTMENT OF TRANSPORTATION shall be observed.
6. Lee County shall be relieved of all responsibility from damage or liability of damage of any nature arising from work authorized under this permit.
7. Subject to the same terms and conditions, holder must take such safety measures, including placing and displaying caution signage, warning/lights, and barricades as may be necessary in safely conducting the construction and maintenance work hereunder.
8. All county property shall be restored to like or better condition, the County Engineer will determine satisfaction of restoration.
9. Grassing of ROW in disturbed areas is required after completion of all work within the right-of-way.
10. All underground crossing installations shall be placed at a minimum depth of thirty 30" (inches) below the pavement and/or existing ground elevation. * Exceptions may be made in special cases by the County Engineer.
11. The attached plans covering details of all proposed construction within the right of way shall be made a part of this permit. If additional plans or revisions are required, they shall become a part of this permit.
12. It is expressly stipulated that this permit is a license for permissive use only and that the placing of facilities upon public property pursuant to this permit shall not operate to create or to vest any property right of said holder.
13. Whenever necessary for the construction, repair, improvement, alteration or relocation of all, or any portion of said highway as determined by the County Engineer, any or all poles, wires, pipes, cables or other facilities and appurtenances authorized hereunder, shall be immediately removed from said highway, or reset or relocated thereon as required by the County Engineer, at the expense of the Permittee.
14. Pursuant to Section 337.403, Florida Statutes, in circumstances where the location of the utility improvement interferes with the County's maintenance activities within the Right of Way, the County may require, in its sole discretion, Permittee to agree (in writing) to perpetually maintain the immediate area around the utility improvement.
15. The Permittee acknowledges the conditions provided herein may have an impact on the owner of the utilities provided for in this permit. The Permittee further declares that the Permittee has fully informed the Utility Owner regarding the condition of this Permit and, have been so fully informed. Permittee has received the requisite authority to present the Utility Owner and bind the Utility Owner to the conditions provided with this Issued Permit.
16. A utility owner that is not a Permittee has 10 days from issuance of this permit to object, in writing to the conditions of this Permit.
17. Requests for inspection shall be made 24 hours prior to completed work requiring the inspection.
18. The applicant expressly agrees to abide by all terms and conditions of the issued permit and the requirements of the County policy for construction activities on county rights of way and easements. Said policy is hereby made a part of this permit and incorporated herein.
