Burnt Store Road Widening Project
Public Information Workshop
December 5, 2006

The Lee County Department of Transportation (LC DOT) held a public information workshop on Tuesday, December 5, 2006, at the German American Social Club, Von Stuben Hall, 2101 SW Pine Island Road, Cape Coral, Florida for the Burnt Store Road Widening Project from Pine Island Road to Kismet Parkway. The workshop was held to present plans for the new Burnt Store Road corridor. A total of 262 people signed in at the registration table. Copies of the sign-in sheets are attached as Appendix A.

A newsletter announcing the workshop was mailed on Tuesday, November 21, 2006 to property owners within 300 feet of the project right-of-way, and to interested parties, relevant County and City elected officials and staff members. The public information workshop was advertised in *The News-Press* on November 29, 2006 as a 1/4-page legal display ad. The workshop was also advertised in the *Cape Coral Daily Breeze* on November 29, 2006. A press release was sent on December 1, 2006 to local media agencies. Two variable message boards were placed within the project limits for a period of one week prior to the workshop to inform the traveling public. A copy of the newsletter, mailing list, legal display ad and press release for the workshop are attached as Appendix B.

The workshop was conducted in an "open house" format that allowed the public to view the project material between 5 and 7 p.m. A handout that summarized the project was provided to the public at the registration table. Aerial photographs with a project overlay showing the location and initial design of the new roadway were on display at the workshop. Representatives from LC DOT and their consultants were present at the workshop to answer questions and discuss the project with the public. A copy of the handout is attached as Appendix C.

Members of the public and were provided with comment forms at the workshop in order to have their opinion recorded as public record. A total of 112 comment forms were received at the workshop and in the following 14-day period. The comments were recorded and analyzed. The number in parenthesis after each comment indicates the number of times that same comment was submitted. A summary of written comments received and copies of the comment forms are attached as Appendix D.

Burnt Store Road Widening Project

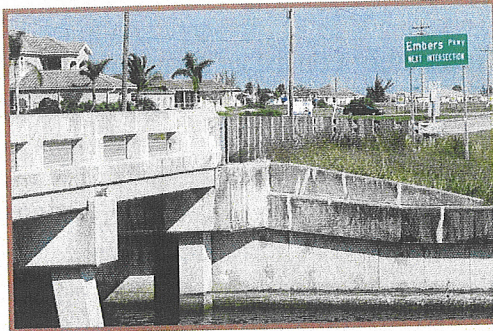

From Pine Island Road to Kismet Parkway

November 2006

Newsletter #1

Project Overview

The Lee County Department of Transportation (LC DOT) is designing a new Burnt Store Road from Pine Island Road north to Kismet Parkway. This design project is a continuation of the Bi-County Corridor Study that was completed in 2005. This area of Burnt Store Road was designated as a priority due to future estimated growth and increasing right-of-way costs. Currently, the existing right-of-way along Burnt Store Road is 200 feet. An additional 155 feet is required along the east side of existing Burnt Store Road for the new design. Although funding is not currently available for the *construction* of the project, *right-of-way* funding from surplus tolls is available to acquire properties over the next five years. Construction of the new Burnt Store Road corridor in this area is included in the Lee County Metropolitan Planning Organization 2030 Financially Feasible Highway Plan adopted December 2005.

About the Corridor

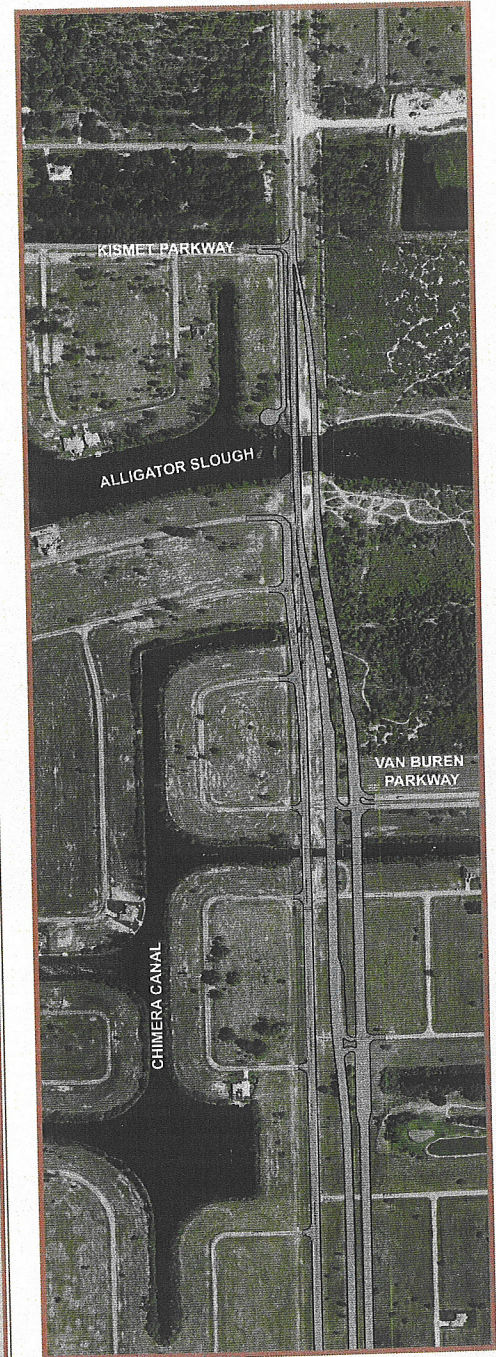

Existing Burnt Store Road from Pine Island Road to Kismet Parkway typically consists of a two-lane undivided rural roadway which contains one-ten foot travel lane in each direction. Currently, no bicycle or pedestrian facilities exist along the roadway.

A new four-lane roadway, adjacent to existing Burnt Store Road, is being designed that will allow for future expansion to six-lanes. Existing Burnt Store Road in this area will be maintained as a local road, or a frontage road. This corridor is being improved to allow for safe evacuation and to support the

projected growth in the area.

A sample of the new Burnt Store Road design is shown at the right. More details about the roadway design can be found inside this newsletter and at the public information workshop.

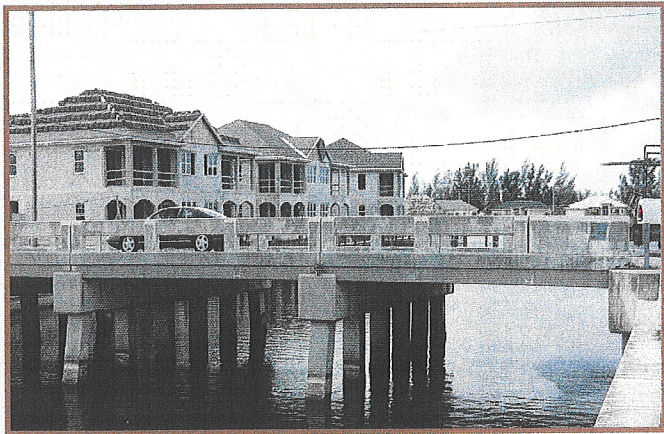

LEE COUNTY
SOUTHWEST FLORIDA

Roadway Design

The redesigned Burnt Store Road corridor will have many features to promote efficient, safe traffic flow. As mentioned earlier, the existing Burnt Store Road will be maintained as a frontage road. The existing road will be widened to accommodate five-foot bike lanes in each direction. A sidewalk will be constructed on the west side of this roadway. To deter vehicles from using the frontage road for through travel, existing Burnt Store Road will no longer be a continuous street. Existing bridges will remain a part of this frontage road and the speed limit will be 30-35 mph.

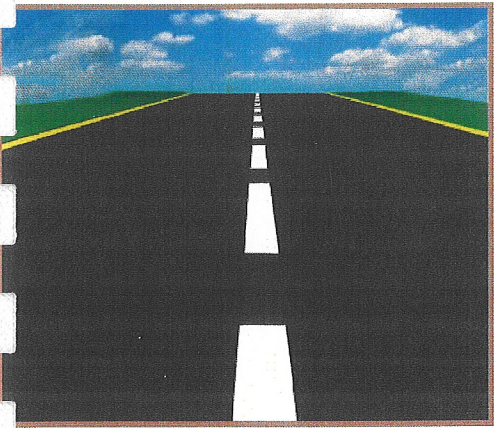

The new Burnt Store Road mainline will ultimately consist of three travel lanes in each direction and have a speed limit of 50-55 mph. Access to this road will be limited with minimal traffic signals so traffic can move continuously. On the east side of the roadway, a detached, multi-use path, similar to the path adjacent to Veteran's Parkway will be added. Lighting will be added to major intersections.

The new Burnt Store Road mainline will have limited access with no full median openings. Access to the new roadway from adjacent neighborhoods will be limited to right turns only, thereby eliminating left turns. Streets that currently intersect with Burnt Store Road *may* no longer have *direct* access to the roadway and neighborhood streets will need to be utilized to access the new Burnt Store Road mainline. On streets where the connections will be closed, cul-de-sacs or three-point turnarounds will be implemented. These features will be designed large enough to allow turnarounds by garbage services, emergency medical services, and commercial vehicles, as well as cars.

"Access to this road will be limited with minimal traffic signals so traffic can move continuously."

What is a Superstreet?

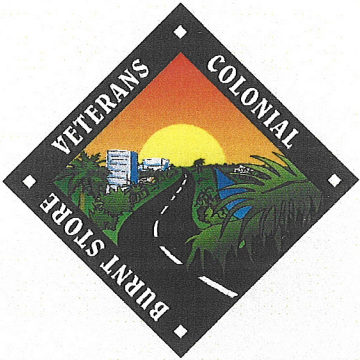

The new Burnt Store Road corridor is being designed as a *superstreet*. This design is favored by Lee County and the City of Cape Coral for its efficiency and safety. The growth rate in this area of Burnt Store Road, coupled with the requirement for it to be utilized as an evacuation route, create unique requirements for the corridor which can be addressed using the superstreet concept.

"The purpose of a superstreet is to improve mobility, traffic flow, capacity, and safety..."

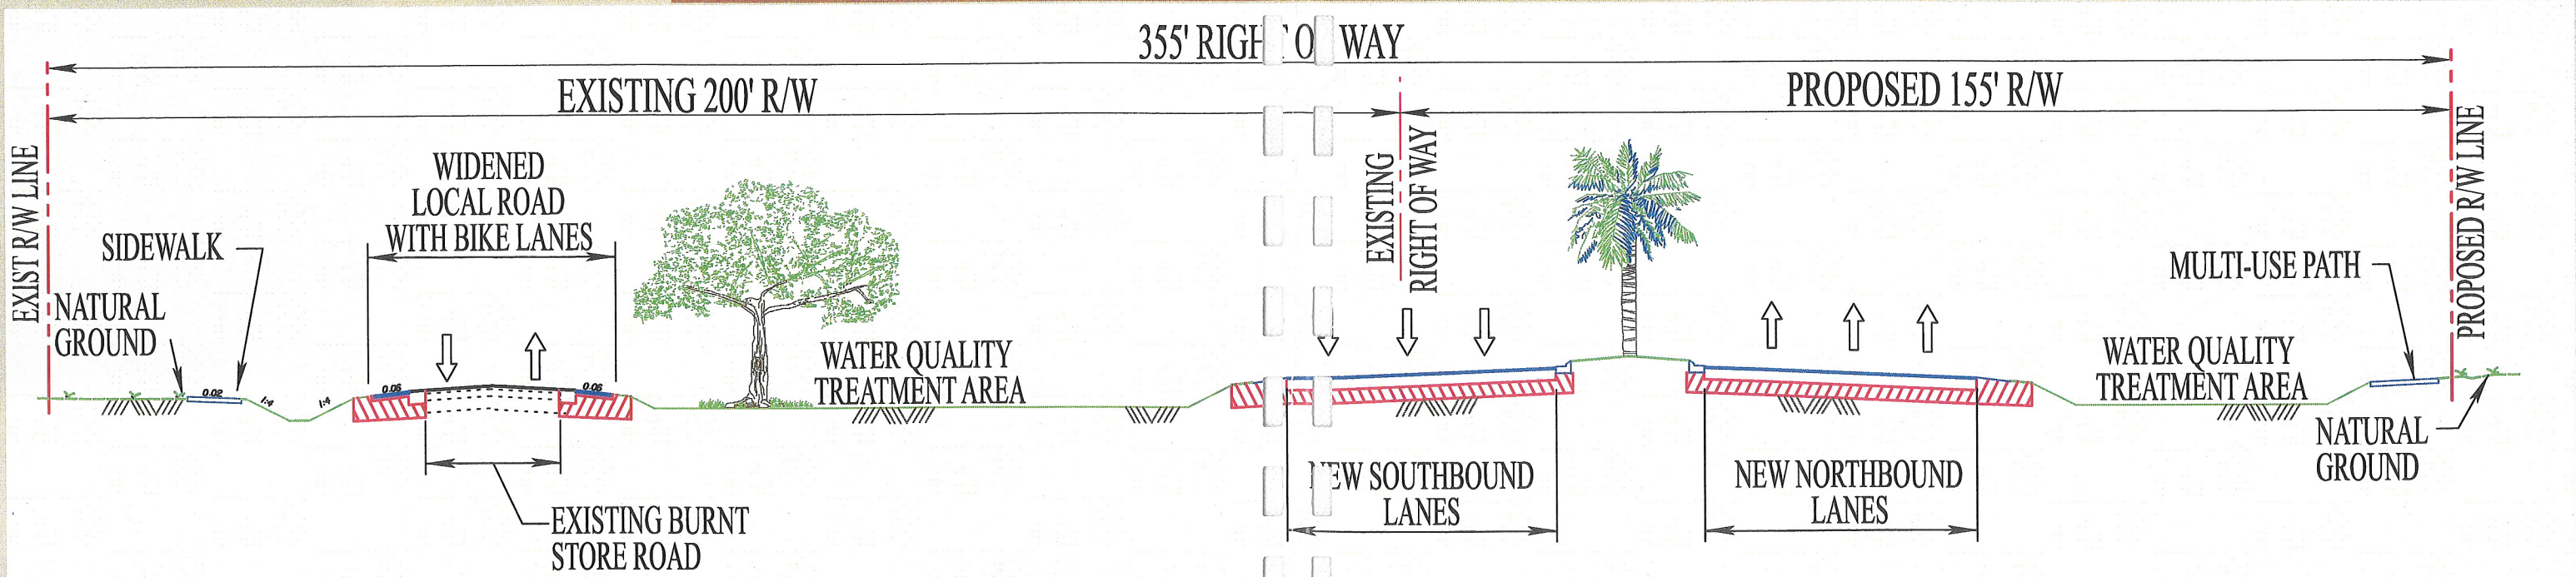

The purpose of a superstreet is to improve mobility, traffic flow, capacity, and safety by limiting turning movements and minimizing traffic signals.

Because of the increased mobility achieved with a superstreet, this type of facility is often described as being somewhere between an expressway and a boulevard. The speed on the *superstreet* is typically 40-55 mph, with limited access and very few, if any, left turns. This is accomplished by allowing u-turns in place of left turns. For example, motorists traveling west on Tropicana Parkway wanting to head south on the new Burnt Store Road mainline will turn right (north) onto the new roadway, then proceed to a median crossover and make a u-turn to travel south. However, motorists traveling south on the new Burnt Store Road mainline have the opportunity to make a directional left into Tropicana Parkway.

The Bi-County Corridor Study completed in 2005 suggested that six traffic signals be installed at multiple intersections along this area of Burnt Store Road. With the superstreet concept, traffic signals are not currently needed, while acceptable levels of service can be reached. This innovative design eliminates the immediate need for both traffic signals and overpasses.

Typical Section of the new Burnt Store Road Corridor

Burnt Store Road Widening Public Information Workshop *Pine Island Road to Kismet Parkway*

Lee County Department of Transportation (LC DOT) is holding a public information workshop for the Burnt Store Road Widening project from 5-7 p.m. on Tuesday, December 5 at the German American Social Club on Pine Island Road. Come anytime between 5-7 p.m. to view plans for the new Burnt Store Road Corridor. The roadway design, including new bridges and access points, will be on display. Lee County and City of Cape Coral representatives will be available to answer questions and take comments about the project. If you would like more project information about the project or if you need special accommodations under the Americans with Disabilities Act of 1990, please contact Kaye Molnar with Cella Molnar & Associates, Inc. at the contact information below.

PUBLIC INFORMATION WORKSHOP

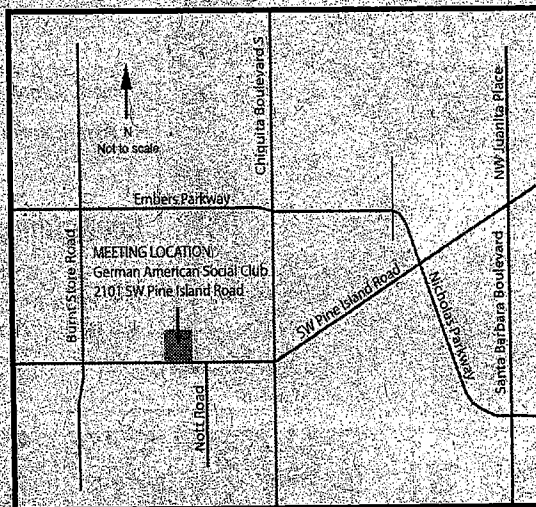

BURNT STORE ROAD WIDENING PROJECT Pine Island Road to Kismet Parkway

Lee County Department of Transportation (LC DOT) is holding a public information workshop for the Burnt Store Road Widening project from 5-7 p.m. on Tuesday, December 5 at the German American Social Club, 2101 SW Pine Island Road, Cape Coral, FL. Join us to view plans for the new Burnt Store Road corridor. The roadway design, including new bridges and access points, will be on display. Lee County and City of Cape Coral representatives will be available to answer questions and take comments about the project. The meeting will be conducted in an "open house" format; no formal presentation will be given. You may attend anytime between 5-7 p.m.

A new four-lane roadway, adjacent to existing Burnt Store Road, is being designed that will allow for future expansion to six-lanes. Existing Burnt Store Road in this area will be maintained as a local road, or a frontage road. This corridor is being improved to allow for safe evacuation and to support the projected growth in the area.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kaye Molnar with Cella Molnar & Associates at KMolnar@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, contact Ms. Molnar.

Your attendance at this public information workshop is encouraged.

Public Information Workshop Scheduled
For Burnt Store Road Widening
from Pine Island Road to Kismet Parkway

Fort Myers, FL, December 1 , 2006 – Lee County Department of Transportation (LC DOT) is holding a public information workshop for the Burnt Store Road Widening project from **5-7 p.m. on Tuesday, December 5, 2006 at the German American Social Club, 2101 SW Pine Island Road, Cape Coral, FL.** LC DOT is inviting the public to view plans for the new Burnt Store Road corridor from Pine Island Road to Kismet Parkway anytime between the hours of 5 - 7 p.m. Representatives from Lee County will be available to discuss the project and answer questions. The meeting will be conducted in an "open house" format; no formal presentation will be given.

Existing Burnt Store Road from Pine Island Road to Kismet Parkway typically consists of a two-lane undivided rural roadway which contains one ten-foot travel lane in each direction. Currently, no bicycle or pedestrian facilities exist along the roadway. This existing two-lane roadway will be maintained as a local road, or a frontage road.

A new four-lane roadway, adjacent to the east side of existing Burnt Store Road, is being designed that will allow for future expansion to six lanes. The new Burnt Store Road mainline will ultimately consist of three travel lanes in each direction. On the east side of the new roadway, a detached multi-use path, similar to the path adjacent to Veteran's Parkway will be added. Lighting will be added to major intersections.

The new Burnt Store Road mainline will have limited access with no full median openings. Access to the new roadway from adjacent neighborhoods will be limited to right turns only. Streets that currently intersect with Burnt Store Road may no longer have direct access to the roadway and neighborhood streets will need to be utilized to access the new Burnt Store Road mainline.

The public is encouraged to attend this workshop and view the design plans. Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kaye Molnar at kmolnar@cella.cc or phone 239-337-1071. If you have any questions about the meeting or would like information about the project, contact Ms. Molnar.

BURNT STORE ROAD WIDENING
From Pine Island Road to Kismet Parkway
PUBLIC INFORMATION WORKSHOP
December 5, 2006

INTRODUCTION

The Lee County Department of Transportation (LC DOT) welcomes you to this public information workshop for the Burnt Store Road Widening Project. Representatives from LC DOT are present this evening to discuss project information and answer your questions. **There will not be a formal presentation this evening.** Comment forms are provided with this handout and can be deposited in the comment boxes tonight or mailed to the address provided on the back of the form within 14 days. All comments become a part of the project record and will be compiled into a Technical Memorandum. The Burnt Store Public Information Workshop Technical Memorandum will be available for viewing in approximately four to six weeks on Lee County's web site at www.lee-county.com/publicworks/workshop.htm.

PROJECT DESCRIPTION

Existing Burnt Store Road from Pine Island Road to Kismet Parkway typically consists of a two-lane undivided rural roadway which contains one ten-foot travel lane in each direction. Currently, no bicycle or pedestrian facilities exist along the roadway. This existing two-lane roadway will be maintained as a local road, or a frontage road.

A new four-lane roadway, adjacent to the east side of existing Burnt Store Road, is being designed to allow for future expansion to six lanes. The new Burnt Store Road mainline will ultimately consist of three travel lanes in each direction. On the east side of the new roadway, a detached multi-use path, similar to the path adjacent to Veteran's Parkway will be added. Lighting will be added to major intersections.

The new Burnt Store Road mainline will have limited access with no full median openings. Access to the new roadway from adjacent neighborhoods will be limited to right turns only. Streets that currently intersect with Burnt Store Road may no longer have direct access to the roadway and neighborhood streets will need to be utilized to access the new Burnt Store Road mainline.

PURPOSE AND NEED

Burnt Store Road is a north-south roadway that provides access to Pine Island Road and Charlotte County. This corridor is being improved to allow for safe evacuation and to support the projected growth in this area. Burnt Store Road from Pine Island Road to Kismet Parkway was designated a priority due to future estimated growth and increasing right-of-way costs. An additional 155 feet is required along the east side of existing Burnt Store Road for the new design. Although funding is not currently available for the construction of the project, right-of-way funding from surplus tolls is available to acquire properties over the next five years. Construction of the new Burnt Store Road corridor in this area is included in the Lee County Metropolitan Planning Organization 2030 Financially Feasible Highway Plan adopted December 2005.

PROJECT CONTACT

If you have questions or would like information about this project, please contact the project's public information consultant, Cella Molnar & Associates, Inc., at (239) 337-1071 or toll-free at 1-877-496-1076 or e-mail to kmolnar@cella.cc.

SUPERSTREET CONCEPT AND ACCESS MANAGEMENT MODIFICATIONS

The new Burnt Store Road corridor is being designed as a *superstreet*. The purpose of a superstreet is to improve mobility, traffic flow, capacity and safety by limiting turning movements and minimizing traffic signals. This is accomplished by limiting the number of direct access driveways, limiting or eliminating median openings and signalized intersections and synchronizing, or fine-tuning signal timing at signalized intersections. The following represents the location and types of access changes being proposed.

<i>Location</i>	<i>Current Access</i>	<i>Proposed Access</i>
<i>Pine Island Road to Embers Parkway</i>		
Publix – south	Right in/Right out; Directional left	Right in/Right Out
Publix – north	Full opening	Right In/Right Out
Ceitus Parkway – west	Full opening	Use frontage road to SW 3 rd Lane
Ceitus Parkway – east	No opening	Right in/Right out; Directional left
SW 4 th Lane	Full opening	Use frontage road to SW 3 rd Lane
SW 4 th Terrace	Full opening	Use frontage road to SW 3 rd Lane
SW 3 rd Lane	Full opening	Right in/Right out; Directional left
SW 3 rd Terrace	Full opening	Use frontage road to SW 3 rd Lane
Boat Ramp	Full opening	Use frontage road to SW 3 rd Lane
US Homes	Full opening	Use frontage road to SW 3 rd Lane
SW 1 st Terrace	Full opening	Use local road to SW 3 rd Lane
<i>Embers Parkway to Tropicana Parkway</i>		
Embers Parkway – west	Full opening	Right in/Right out
Embers Parkway – east	Full opening	Right in/Right out; Directional left
NW 1 st Terrace	Full opening	Use local road to Embers Pkwy. Or NW 5 th Terrace
NW 2 nd Terrace	Full opening	Use frontage road to Embers Pkwy. or Tropicana Pkwy.
NW 4 th Street	Full opening	Use local road to Embers Pkwy. or NW 5 th Terrace
NW 4 th Terrace	Full opening	Use frontage road to Embers Pkwy. or Tropicana Pkwy.
NW 5 th Terrace	Full opening	Right in/Right out; Directional left
NW 7 th Street	Full opening	Use frontage road to Embers Pkwy. or Tropicana Pkwy.
NW 7 th Terrace	Full opening	Use local road to Tropicana Pkwy.
<i>Tropicana Parkway to Gulfstream Parkway</i>		
Tropicana Parkway – west	Full opening	Right in/Right out
Tropicana Parkway – east	Full opening	Right in/Right out; Directional left
NW 9 th Street – west	Full opening	Use frontage road to Tropicana Pkwy.
NW 9 th Street – east	Full opening	Use local road to Tropicana Pkwy.
NW 9 th Terrace – west	Full opening	Use frontage road to Tropicana Pkwy.
NW 9 th Terrace – east	Full opening	Use local road to NW 12th
NW 11 th Street	Full opening	Use frontage road to Tropicana Pkwy.

<u>Location</u>	<u>Current Access</u>	<u>Proposed Access</u>
Yucatan Parkway	Full opening	Right in/Right out; Directional left
NW 12 th Terrace	Full opening	Right in/Right out; Directional left
NW 14 th Street	Full opening	Use frontage road to Yucatan Pkwy./Gulfstream Pkwy.
<i>Gulfstream Parkway to Kismet Parkway</i>		
Diplomat Parkway	Full opening	Right in/Right Out
NW 14 th Terrace – west	Full opening	Use frontage road to Yucatan Pkwy. or Gulfstream Pkwy.
NW 14 th Terrace – east	Full opening	Use local road to NW 16 th St.
Gulfstream Parkway	Full opening	Right in/Right out; Directional left
NW 16 th Street	Full opening	Right in/Right out; Directional left
NW 17 th Lane – west	Full opening	Use frontage road to Gulfstream Pkwy.
NW 17 th Lane – east	Full opening	Use local road to NW 16 th St.
NW 18 th Street	Full opening	Use frontage road to Gulfstream Pkwy.
NW 18 th Terrace	Full opening	Right in/Right out; Directional left
NW 19 th Terrace – west	Full opening	Use frontage road to Gulfstream Pkwy.
NW 19 th Terrace – east	Full opening	Use local road to NW 18 th Terrace
NW 20 th Street	Full opening	Use frontage road to Gulfstream Pkwy.
Van Buren Parkway	Full opening	Right in/Right out; Directional left
NW 20 th Lane	Full opening	Use frontage road to Gulfstream Pkwy.
NW 21 st Street	Full opening	Use frontage road to Gulfstream Pkwy.
NW 21 st Terrace	Full opening	Use frontage road to Gulfstream Pkwy.
Kismet Parkway	Full opening	Full opening

Appendix D

Burnt Store Road Widening

Comments

Start date

Comment: The start date of 2015 is ridiculous, due to heavy traffic the widening of Burnt Store Road is needed now. (1)

Comment: Move this project to top priority on the County list. The traffic increases are becoming dangerously unbearable to travel this route. (2)

Comment: Build it ASAP! The sooner the better. (15)

Comment: Building three lanes each way immediately would be preferable - if the real growth rate is measured. The next growth spurt will come before 5 years if the last three is anything to go by, start land acquisition in 2007. (1)

Comment: This should have the highest priority for funding. (1)

Comment: Something needs to be done now to make Burnt Store Road safer. I think Cape Coral and the Lee DOT should get together and look at a phased approach. (1)

Comment: The higher capacity road is needed now - especially from Tropicana southward. (1)

Project limits

Comment: It seems a waste of money to stop the road at Kismet Parkway; it would just be a bottleneck at that point. (5)

Comment: Encourage Charlotte County to be prepared to do their part all the way to Punta Gorda. It seems a shame they are not. (2)

Comment: Seems shame that the project does not go to the county line. (4)

Comment: Design should be withheld until routing through Charlotte County is resolved and purchased. (1)

Comment: Until there is a complete 4 lane road from Kismet Parkway through to the Charlotte County line and then to US 41, there will continue to be problems in handling large traffic volumes. Ending at Kismet Parkway will not solve the evacuation problem. (1)

Comment: It concerns me that no information was available for the portion from Kismet Parkway to Vincent. (1)

Access

Comment: One of the main roads intersecting with Burnt Store Road is Tropicana. With the proposed plan Tropicana will no longer be accessible going across Burnt Store Road. This will be a great inconvenience for many people traveling on Tropicana. (2)

Comment: NW 7th terrace should not be a dead end at Burnt Store Road, at least let the road turn north. (1)

Comment: Access roads are a plus to keep traffic moving. (1)

Noise

Comment: We need berms or some kind of noise abatement please consider like they were promised. (26)

Comment: I would like to know the decibel level of current road noise on Burnt Store Road. (1)

Comment: I would like to know the projected level of noise from the new road at peak time and normal hours etc. (1)

Comment: Are there plans for a noise barrier on the road? (1)

Comment: Landscape the sidewalk to maintain the neighborhood feel and minimize noise impacts. (1)

Not in favor of project or parts of project as proposed

Comment: This is a bad design, make it like Veterans is now. Have lights at all the major intersections and eliminate U-turns. We don't need an expressway or a super street to Charlotte County, besides it ends at Kismet. Make it work now, in my lifetime. (1)

Comment: Parkways must be able to go north and south, they are 4 lane thoroughfares, you are not giving any consideration to the people that live here. (2)

Comment: This whole scheme sucks I am glad I'm old enough I'll never see it. (1)

Comment: Your plans address expected increases on north/south traffic from Cape Coral to Punta Gorda but is totally at the expense of the residents along Burnt Store Road. Your plan divides neighborhoods, forces local traffic onto streets that are not built to handle the increased volume, and wear on the streets, this will cause increased maintenance to city streets that will not be paid for by county funds. (2)

Comment: All major intersections need lights or flyovers, the current plans will get people killed and reduce property values due to the very dangerous intersections. Please make this a safe and good looking highway. Go back to the drawing board. (1)

Comment: A six lane highway without overpasses or stop lights is a suicidal idea for the home owners living in the area. We do not need a super highway, we need to slow traffic down, not speed it up. Grow a brain. Please trash this plan and start over. (1)

Comment: There is a need for right and left turn lanes. How will future homeowners feel if there is a need to evacuate? Pine Island Road traffic will also be a nightmare. Any future plans for the area will be a mess if the roadway isn't done the right way now. The only reason this project is in the works is strictly for those who travel from Cape Coral to Charlotte County, all the residents are concerned about this project and rightly so - go back to the drawing board. (1)

Comment: Left-turn lanes are needed, unprotected left turns contribute to most auto accidents. It just wont work guaranteed! A more simple and cost effective solution is needed. (1)

Comment: The Embers Parkway intersection with Burnt Store is not probable for the residents, it will put more traffic on side roads, the purpose of the new road was for traffic to flow with out stopping, and unfortunately the roads are blocked in some areas that make it impossible to pass through forcing the traffic onto the new road. (3)

Comment: The right on, right off is ridiculous; there should be underpasses at major intersections, boy I really want out of this city now! (1)

Comment: There is no way the mess you show at Tropicana and Burnt Store Road will work. (1)

Comment: Your proposal does not show access to the commercial property along Burnt Store Road some already in place and some planned for the future. People who live west of Burnt Store Road can see the problems that are going to occur now and in the future. You can't design a road without the input of the people who live there and expect it to function properly. (1)

Comment: Having cul-de-sacs at original Burnt Store Road is awful. These roads should still go through, the poor bus drivers! (1)

Comment: You are forcing traffic through our neighborhood and property to get to Tropicana. (1)

Comment: This is a world of madness. (1)

Comment: Concerned about emergency vehicle access. (6)

Comment: Awful - we will have accidents galore. Current Burnt Store Road becomes useless between major intersections. (3)

Comment: There are numerous flaws in your design that make it non-functional and unsafe for any amount of traffic. You are trying to acquire more land taking out the service road that exists there now - all at the tax payers' expense. (1)

Comment: When I questioned the U-turn concept I was told they were safer than a traffic light system, I find this hard to believe. You say a study exists; I would like to know where this study was done. If you are going to build a freeway build a FREEWAY - I have never seen a road like this. (1)

Comment: The U-turns are a bad idea - this is an extension of Veterans and you have lights at the major intersections on Veterans. You only need lights at major intersections, how are you going to get school buses from the west side of Burnt Store to Mariner High School. I realize this is only a concept but a lot of work needs to be done before you kill a bunch of people. (1)

Comment: My concern is that when we have to make a left turn, we have to go 1/2 a block and make a U-turn. I don't personally like U-turns, as I have seen many accidents happen that way. (2)

Comment: I am very disappointed in the design - you have blocked off those of us who live on Old Burnt Store Road. More traffic will be directed onto Old Burnt Store Road. (8)

Comment: I am skeptical that your super street concept is superior to a 4 lane divided street with "time" stop light. The U-turn necessitated by your concept seem inefficient and a very serious traffic hazard. Northbound traffic making a U-turn to head south will be merging at 5 mph into traffic going 50-60 mph. I predict this road will have many accidents. (1)

Comment: U-turns into 60 mph traffic are dangerous. (5)

Comment: Do not like U-turns - dangerous for large vehicles, dangerous turning into traffic. (6)

Comment: Concerned for school buses and work vehicles trying to negotiate U-turns. (4)

Comment: Concerned about evacuating and having to do a U-turn. (1)

Comment: This is a very limited access street, why are the residents who live on this proposed street being treated as second class citizens. I know of no highway that allows U-turns in the path of fast moving vehicles. This must be a very bad joke. (1)

Suggestions/requests

Comment: Widen Burnt Store Road to three lanes in each direction with full access as we have now. (2)

Comment: Make a plan like Veterans with access at the lights or use overpasses. (10)

Comment: Too many roads are blocked. Put in a couple of lights and slow down the dump trucks. (1)

Comment: Don't spend money to buy new land! Use money to improve the existing road, e.g. three lanes in each direction and have traffic lights at major intersections, with left turn lanes and arrows on traffic signals. Current intersecting streets do not need to have access to Burnt Store Road because the parkways with lights are available. (2)

Comment: Kismet Parkway needs to go all the way to past Burnt Store Road to Eldorado and Kismet needs to have access to north bound Burnt Store Road. (2)

Comment: The road needs to be widened, however the county needs to make sure that there is sufficient access roads and on and off ramps to prevent traffic backups. A freeway type road would be ideal. (1)

Comment: Elevate sections of Embers, Tropicana and Diplomat so we can go east and west easier rather than making U-turns. (1)

Comment: Blocking off Old Burnt Store Road where I live will force people to use SW 32 ND terrace and will result in much more traffic. The only way to eliminate this is to close the first bridge on Ceitus. This will force a U-turn on Burnt Store Road. (1)

Comment: Making 14th Terrace a dead end is fine BUT you will dramatically increase the flow of traffic on this road with your plan. People already have difficulty making the curve at the east end. I know I live on that corner. It would be good to begin fixing an already bad situation by erecting a sign at the south side 100ft before the curve, when you dead end it this situation will get worse. (1)

Comment: Some people are talking about removing the bridges on Old Burnt Store Road - this absolutely should not be considered. Why spend money to remove roadways that serve a good purpose? (1)

Comment: It seems to me a much better design at a lower cost would be to use the existing bridges rather than building 10 new bridges. (1)

Comment: The concept is acceptable, put in the water main at Burnt Store Road at the same time. (1)

Comment: Maintain Burnt Store road as you build the new one. (1)

Traffic lights

Comment: Need to put a traffic light at Embers and Tropicana, this road is an extension of Veterans and there are traffic lights at Santa Barbara, Skyline and Chiquita. (2)

Comment: Since Tropicana is a main street a light at this intersection would make more sense (2)

Comment: Perhaps a few lights installed would help older timid drivers onto the highway without holding up the rest of the drivers.

Comment: Also are you eliminating the traffic signals at Skyline etc?

Comment: What traffic control device would be placed at SW 32nd lane to provide for a safe turn onto Pine island Road? This intersection is the only access available for traffic west of the Superstreet to travel.

Right-of-way

Comment: Row needs to be 355'. (7)

Comment: Exiting right-of-way is adequate if property is zoned properly. (1)

Comment: Adequate water treatment for 4 lane widening within existing 200' right-of-way will be sufficiently least costly. (1)

Comment: If right-of-way already exists - why do we not just make existing Burnt Store road four lanes? (1)

Comment: Maintain minimum of 365' of right-of-way. (1)

Comment: Don't let developers change the right-of-way for their convenience. (1)

Comment: There should be a better way to go north from south of Alligator Slough than going through the neighborhood on 17th lane where you then have to U-turn to go north. (1)

Intersections and turns

Comment: Need more left turns or U-turns onto Burnt Store Road with smaller intervals. (4)

Comment: U-turns need to turn into their own lane and then merge. (1)

Comment: Big trucks, ambulances etc may have trouble making the U-turn safely. (1)

Comment: One accident at any of these U-turns will impede traffic much more than a traffic signal. (1)

Comment: Add a U-turn south of Embers Parkway to enable east-bound Embers Parkway traffic to go north - same as the Tropicana south-bound U-turn. (1)

Comment: All the intersections should be designed the same; people traveling this road expect them to be the same. (2)

Comment: All the interchanges with a "Parkway" and the new Burnt Store Road should be full. That is a person should be able to turn in all directions without using a U-turn. (1)

Comment: Allow left turns onto Embers parkway instead of U-turns. Traffic is bad enough. (1)

Comment: When you are heading north at Kismet and Burnt Store Road there needs to be a third lane to make a left turn. The current proposal shows two lanes at 55 mph going to one with the left hand lane becoming a turn lane – we need three lanes. (2)

Comment: Need a turn lane to go east on Kismet for traffic going north. (1)

Comment: The intersection of Burnt Store road and NW 18th Street is not acceptable. (1)

Comment: When making a left turn there should not be any other traffic blocking your view to safely make the turn. (1)

Comment: The biggest bang for our buck would be to simply add right turn lanes at strategic places, in conjunction with this plan the speed limit could be lowered to 45 mph. You could also make it a no passing zone. (1)

Comment: You have created a complicated layout that shifts the roadway to one side, I have designed a layout that create safer u turns and allows the side streets to turn onto Burnt Store Road and centers the road to allow for berms and possible future widening I would also eliminate all the bridges by using culverts from the weirs of dams to the west side of Burnt Store Road. (1)

Comment: Please look into putting four-way stop or light at Tropicana to alleviate the problem with cars turning into the Citgo so we don't have to go to Yucatan. (3)

Comment: Put a light at Kismet so that traffic can turn in all directions - there is a lot of development traffic that uses Kismet. (1)

Comment: Need to be able turn north from Tropicana. (1)

Comment: Need ability for left turn at Diplomat Parkway. (1)

Sidewalks/landscaping/parking

Comment: Bike/sidewalk paths should be landscaped. (1)

Comment: Make parking spaces close to the walk ways/paths so you can have access to walk dogs etc. (3)

Comment: Lots of landscaping should make all the asphalt better. (1)

Comment: Great idea with the multi-use bike path, connect it to the existing one south of Pine Island. Don't loose the bike paths in your revisions. (1)

Comment: Installing under-used multi-use paths is a waste of real estate tax dollars. (1)

Comment: Adding a bike path on a Superstreet makes no sense to me. (1)

Comment: A continuous bike/pedestrian path will be a great addition. (1)

Budget comments

Comment: You need to develop a realistic construction budget 35 million +/- is not realistic, construction costs will be double or more by the time construction begins. (1)

Comment: The cost of right-of-way will not support the project! (1)

Comment: Make it six lanes right away and save money. (1)

Comment: I am concerned that the construction funding is so uncertain. (1)

General comments

Comment: Don't economize by cutting out the sidewalks. (1)

Comment: I had to wait for 18 cars to pass before turning onto Burnt Store Road this morning! (1)

Comment: The road should be named the Veterans Memorial Extension. (1)

Comment: We need lower speed limits now and stop signs now at Embers and Tropicana. (1)

Comment: Concerned about the amount of time it will add on for emergency vehicles to get to their destinations. (3)

Comment: I presently buy gas the Citgo on Tropicana, if I have to make a U-turn I will find somewhere else to buy gas and you will cost this business their customers. (1)

Comment: The city needs to repair major thoroughfares e.g. Tropicana and Eldrado. (1)

Comment: Please can you put this plan on the web site or make it available to download. (2)

Comment: Keep things simple, it has been working that way for years. (1)

Comment: The amount of commercial traffic and growth along that corridor has increased traffic and made a big problem. (1)

Comment: Please keep our neighborhood attractive. (1)

Comment: A dangerous condition exists at Diplomat as there are no street lights, this is strange as east of Diplomat there intersection is lit up - both these streets are the same MPH. (1)

Comment: It appears that berms for water control are non-existent. (1)

Comment: Cape Coral residents will not like the term "restricted access" better promotional pitch needed! (2)

Comment: Construction staging will be interesting on this project. (1)

Comment: As this design progresses I hope it doesn't not degrade into another US 41 or Del Prado. These roads are inefficient, congested and lethal. (1)

Comment: U-turns will allow the police department to increase patrols. (1)

In favor of the project

Comment: It's nice and wide - I like the limited access. (1)

Comment: looks good. (6)

Comment: I think that the plan that has been shown this evening is wonderful, I see no need for any changes. (1)

Comment: I live off Burnt Store Road and think the plan is great - especially the sidewalks. (1)

Comment: This is a great plan, can't wait for it to be built. (1)

Comment: Super concept for widening Burnt Store Road, I am scared to death to drive it as it is now! (1)

Comment: Burnt Store Road is very dangerous in my opinion - widen it and save lives. (3)

Comment: Very nice and needed even before the proposed construction date. (1)

Comment: The project seems to be well thought out and planned. All the questions I had were clearly answered by the staff on hand. While some of the accesses were somewhat complicated they should result in a safer road. (1)

Comment: The design looks good as it is but it will initially lead to many complaints about limited access. Ignore these complaints. (2)

Comment: I like the emphasis on evacuation. Please restrict requests to add more access, traffic lights or left turns. (1)

Comment: The project looks good, we live north of Kismet and wouldn't want the project stopped or delayed because of other city areas. There are too many accidents in that stretch of road in the past 16 years. Thanks for all your hard work. (1)

Comment: Seems like a reasonable plan utilizing existing conditions where possible. (1)

Comment: Tthe "superstreet" concept is a great concept. Thank you for the presentation. (1)

Comment: This has many great features; it will add uninterrupted traffic flow, save on construction costs and add to fuel efficiency. The frontage road is also a great idea as long as you do not make it a continuous through street. Naturally those on the west side will be inconvenienced. (1)

Comment: In general I like the design, the best case would be a full expressway but this design is acceptable. There should be no traffic lights on the new Burnt Store Road. (1)

General Questions

Comment: How will emergency vehicles respond quickly to and from a critical situation (this could be a matter of life and death?) (3)

Comment: What's wrong with traffic lights? (1)

Comment: Please can you make a diagram of each section of the concept plan so that realtors and home owners may have them for their convenience? (1)

Comment: Is all the land on the east side of the highway and north and south of Kismet zoned commercial? If so why is there a road programmed in that area? (1)

Comment: Can you increase the height of the bridges to 14' to all for future boat access to the gulf from the fresh water canals? (1)

Comment: Can we increase the number of U-turns? (1)

Comment: Is there an example of this that people can see so they can understand it better? (1)

Comment: Tropicana intersection should be the same as Gulfstream, where is the U-turn to go north? (1)

Address 3726 SW 2ND ST

City CAPE CORAL State FL Zip Code 33991

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The concept is acceptable.
Building 3 lanes each way immediately would be preferable -
if the real growth rate is measured.
Soon Soon Soon. The next will come before 5 years if the
last 3 years living here are any indication
Please start land acquisition in 2007
Put in the Water Main along Burnt Store at the same time
Hurry this project up and save lives.

City CAPE CORAL State FL. Zip Code 33983

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Subject: Outer section of Kismet (west) and the
proposed new highway. With the termination of this
proposed highway there should be a left or left-hand
traffic on Kismet could turn left. There is a lot
of development traffic that uses Kismet west.
Subject: This project should have the highest
priority for funding. Burnt Store road is a
hazard as is what will it be in five years?
We need action on this.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

City Cape Coral State FL Zip Code 33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: You state money is tight or not available but expansion is needed
therefore expand exist. Burnt Store to 3 lanes south build new 3 lane
north to the east. Add bike lanes and traffic signals at Embers &
Tropicana. This being said the following is for LDOT

U turns will allow for the Police Dept to increase patrols as well EM

Since the DOT is going with U turns add one just south of Embers
to enable East bound Ember traffic to go north; same as
(in approx same distance) as Tropicana south to U-turn.

Flow of Traffic - one accident at one of these U-turns will
impede traffic much more than a traffic signal. Also
will you eliminate the traffic signals at say
Santa Barbara, Skyline, etc.

(Attach additional sheets if necessary)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Don't spend money to buy new land! Use
Money to improve existing Burnt Store Rd - Increase
to 3 lanes ea. direction AND have traffic
lights at EMBERS, TROPICANA, Gulfstream
Vucatan, Diplomat (ALL E/W PKWYS) with Left
turn lanes and ARROWS on traffic signals.

THIS WAY LAND VALUES OF Lots targeted for buying
won't increase in price.

Change to 2 lanes ea. direction with bike lane
and pedestrian-way on wide shoulders
when I go to PUBLIX to SHOP I CAN NOT COME HOME, No left turns!
Current intersecting streets need not have access to Burnt
Store Road because "Parkway" intersections with lights
and traffic signals are available.

Installing under used multi use paths are a poor use
(Attach additional sheets if necessary) of Real estate tax dollars.

Thank you for taking time to participate in this public information meeting.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Widening Burnt Store Rd is fine, but there is a
need for right & left turn lanes, so one doesn't
have to drive out of their way to make a U turn.
How will future homeowners in that area feel if
they do need to evacuate and have to wait.
Pine Island Rd Traffic will also be a nightmare
as people who live off of Coitins will have to
turn left on Pine Island Rd & take the back
streets. Any future plans for the area will be
a mess if the roadway isn't done the right way
now! It seems that the only reason this
project is in the works is strictly for only those who
went to go from Cape Coral to Charlotte County.
All the residences and members of the Northwest
Cape Coral Homeowners Association are concerned
about this project & rightfully so. You should
go back to the drawing board

City Cape Coral State FL Zip Code 33993

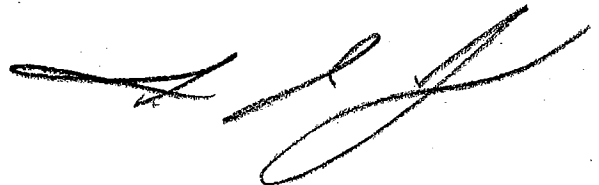

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

North bound, making a U-turn at Yucatan to get to the gas station at Tropicana - The U-turn lane turns directly into 60 mph traffic without a merge in lane 1 - dangerous.

Great ideas with the multi-use / bike path - Connect it to the existing one south of Pine Island with a place to park to access it. Don't lose the bike paths in your revisions, please.

All U-turns should turn into their own lane, and be able to merge into the 55 (really 60-65 mph) traffic.

Big trucks, ambulances, fire trucks, school buses = U-turns for all these vehicles will be dangerous and take more than one lane into 60 mph traffic.

(Attach additional sheets if necessary)

Comments: #1 - KEEP ALL LEFT TURNS CONSISTANT IN THIS
WIDENING PROJECT. THE INTERSECTION OF BURNT STORE
AND NW 18TH ST IS NOT ACCEPTABLE.

WHEN MAKING A LEFT TURN THERE SHOULD NOT BE
OTHER TRAFFIC BLOCKING YOUR VIEW TO SAFELY
MAKE THE LEFT TURN

YOUR DESIGN IS VERY SIMILAR TO WHAT WE
CALL THE "MICHIGAN LEFT TURN" - AT A LIGHT
OR STOP SIGNAL YOU MUST TURN RIGHT - THEN
GO UNTIL YOU CAN PULL TO A LEFT TURN LANE
MAKE THE EMPLOYED LEFT TURN & MOVE BACK OUT
ON OR INTO TRAFFIC

(Attach additional sheets if necessary)

Address 3234 SW 3 Terrace
City Cape Coral State FL Zip Code 33991

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The design addresses expected increases in North/South traffic from Cape Coral to Punta Gorda but is totally at the expense of the residents along Burnt Store Rd., especially those west of Burnt Store Rd.

Your plan divides neighborhoods, forces local traffic onto streets that are not built to handle the increased volume both in quantity and wear to the streets. This will cause increased road maintenance to city streets that will not be paid for by County funds.

Emergency access to residences west of Burnt Store Rd are also compromised. Fire / Police / EMS will have to negotiate turns, double back, and do U turns to reach homes in need of their services.

I believe Burnt Store should be widened to 3 lanes each way with full access as we have now. If signals are required,
(Attach additional sheets if necessary) so be it. You could eliminate some access but this plan as presented eliminates all access.

Thank you for taking time to participate in this public information meeting.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The project seems to be well thought out and planned. All the questions I had were clearly answered by the staff on hand. While some of the access ~~and~~ were somewhat complicated, and roundabout, they should result in a safer road. The use of the frontage roads is a good idea.

Until there is a complete 4 lane road from Kismet through to the Charlotte County line and then to Route 41, there will continue to be problems in handling a large traffic volume. Ending at Kismet will not solve the evacuation problem. There will be a bottleneck.

The complete road should be planned in conjunction with Charlotte County.

Good luck with the project. Unfortunately, with the delayed time schedule, my grandchildren will be enjoying it.

Address 3305 Embers Prkwy
City Cape Coral State FL Zip Code _____

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Good Project. Access Road on
Burnt Store Rd Should connect to trap
ICA and Embers Prkwy.

Beside that issue very good project

PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name MARLETTA BURBS
Address 2714 NW 6th Street
City CAPE CORAL State FL Zip Code 33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Burnt Store Road needs to be widened; however the county
needs to make sure that there are sufficient access roads
and on + off ramps to prevent traffic backups.

a freeway type road would be ideal.

the city needs to repair major thoroughfares, e.g.
Topiano Pkwy and Eldorado.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Fred Rossiter
Address 2804 El Dorado Blvd N
City Cape Coral State FL Zip Code 33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I AM skeptical your Super Road
Concept is superior to a 4 lane
divided street with "Timed" stop lights.
The "U" turns necessitated by your
concept seem inefficient and a VERY
SERIOUS TRAFFIC hazard. Northbound
Traffic making a "U" turn to head south
will be merging at 5mph into traffic
going 50-65 mph!! I predict this road
will have many accidents.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Betty Mills
Address 2200 NW 37th Place
City Cape Coral State FL Zip Code 33953

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

make parking spaces close to the walk
ways & paths. So we can have access to
use to walk dogs etc.

(Attach additional sheets if necessary)

PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name MIKE PATRICK

Address 3256 NW 41ST AVE

City CAPE CORAL

State FL

Zip Code 33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: NEED TO PUT TRAFFIC LIGHTS AT CROSS THRU ROAD
SUCH AS TROPICANA + BMBERS. THIS ROAD IS AN EXTENSION
OF VETERANS AND THERE ARE TRAFFIC LIGHTS AT SANTA BARBARA
SKYLING + CHIRQUITA. THE AMOUNT OF TIME FOR EMERGENCY
VEHICLES TO REACH SOME ONE WILL BE INCREASED IF THEY
HAVE TO GO 1/2 MILE OR MORE TO MAKE A U TURN.
I PRESENTLY BUY FUEL AT THE CITGO ON TROPICANA IF I
HAVE TO GO PAST THE TROPICANA INTERSECTION AND MAKE A
U TURN I WILL FIND SOME PLACE ELSE TO GET FUEL. YOUR
PLAN WILL COST THE BUSINESS CUSTOMERS

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

Parkways must be able to go N+S — they are 4 lanes thru forest. You are NOT giving any consideration to the people that live up here.

NW 7th Ter — E of BSR Rd should not dead end at BSR — zoning is Com/Office etc — at least let the road turn north.

What's wrong w/ stop lights!

We need lower speed limits now & stop signs NOW at EMBERS + Tropicana!

All these 'U' turns w/ only 1 lane cause more confusion & accidents.

Kismet & all other major E/W streets have to be able to go North!

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

PUBLIC INFORMATION COMMENT SHEET

PLEASE RETURN COMMENT SHEETS WITHIN 14 DAYS

Name Clairine Simono
Address 3821 NW 23 St.
City Cape Coral State FL Zip Code 33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: ① First, continue Hi-met w/ from El Dorado past Burnt Store Rd. Have it go through. ② There MUST be a way to take Hi-met east to Burnt Store then be able to turn left to go toward Punta Gorda/Jones Loop Rd./I 75. Going south to make a U-turn to go north is ridiculous & dangerous! Facing a U-turn w/ traffic going 60 MPH?? STUPID!
Lastly, the 355' ROW must be maintained!
ALSO - this MUST happen sooner than within 5 years!!
How will emergency vehicles respond quickly to & from a critical situation? This could be a matter of life or death!

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

Comments: This Project needs to get started ASAP.
This cannot wait till 2015 - Burnt Store Rd.
is dangerous as it is now, a lot of traffic.

If you were smart you would make it 6
lanes right away + save money because of
all the traffic + people evac. in a hurricane
situation.

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

Address 206 SHADROE COVE CIRCLE
City CAPE CORAL State FL Zip Code 33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: VERY NICE & WILL BE NEEDED EVEN BEFORE THE
PROPOSED START CONSTRUCTION DATE

BIKE/WALK/MULTIPURPOSE WAY SHOULD BE LAND
SCAPED. NEED SOME LEFT TURNS FROM
BURNT STORE ON TO 6-LANE ROAD OTHER THAN
AT INTERSECTION.

MAINTAIN THE MINIMUM OF 365' OF
RIGHT AWAY.

MAINTAIN BURNT STORE ROAD NOW AND
THEN CONSTRUCTION OF SIX LANE ROAD

LAND SCAPING ON PATH + 6-LANE ROAD WILL
BE IMPORTANT FOR MAINTAINING THE 'NEIGHBOR-
HOOD' FEEL + TO MINIMIZED ADDED NOISE FROM
6-LANE ROAD

(Attach additional sheets if necessary)

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: First of all the start date of 2015 is ridiculous. Due to heavy traffic the widening of Burnt Store Rd is needed now. One of the main roads intersecting with Burnt Store Rd is Tropicana. With the proposed plan Tropicana will no longer be accessible going across Burnt Store Rd. This will be a great inconvenience for many people traveling on Tropicana. Since Tropicana is a main street, a light at this intersection would make more sense. The buses should not have been left out.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Ember Pkwy intersection with Burnt Store Road
is not probable for the residents, it will lead for more traffic
to other side roads such as NW 32nd place. Residents will find
alternate routes to try to avoid the main highway. The purpose
of the New Burnt Store Road was for traffic to flow with out stopping
a thru road as such and ~~on the~~ the old Rd (Burnt Store) was
to be used for local traffic, But unfortunately the roads are blocked
in some intersection and areas that make it impossible to pass
thru forcing the traffic on to the New Burnt Store thruway. This
will cause back ups at some turn around areas. School Buses
will have to be routed because of some blocked intersection.
Fire and ambulances will also have trouble at the intersecting
roads. They should have an off ramp south bound of New Burnt Store
for Tom Lubanovic -> EMBERS COL-DE-SAC OFF
RAMP FROM EMBERS INTERSECTION.
I believe the idea for the road expanding project can be
good with a little tweaking.

Comments:

Making 14TH Terrace a dead end at the Burnt Store intersection is fine — however, the flow of traffic going east on 14th because of this will dramatically increase with no access to going south on Burnt Store from 14th/16th !!!

At the far ^{east} end of 14TH Terrace is a 45 degree turn north which drivers are currently having difficulty making — I know — I live on that corner and many have missed the turn and driven up on my lawn. At night this is even more dangerous since there are no reflector lights in the road to warn drivers of the oncoming 45 degree turn. HELP!!! It would be good to begin improving an already bad situation by erecting a sign on the South Side of the road 100+ ft before the curve.

(Attach additional sheets if necessary)

December 5, 2006

With 14th Terrace to be "dead ended" this situation will get worse.

Thanks for reviewing this
urgent
S. Banks

Burnt Store Road Widening

12-6-2006

From Pine Island Road to Kismet Parkway

My Wife and I attended the Public Information Workshop at the German American Club, Dec. 5, 2006 and viewed your proposal on this project.

There are numerous flaws in your road design that make it nonfunctional and unsafe for any amount of traffic flow now or in the future.

First of all, you are trying to acquire more land for the right of way on the east side, And taking out of service the road that is already in place on the west side. All at the tax payers expense. This road should be built as an extension of Veterans Parkway and not with all the nonfunctional and unsafe u-turns that are shown in the design.

When we questioned why the u-turns, it was quoted to us that this was safer than a traffic light system and moves traffic better. I find this extremely hard to believe in both cases. You say a study shows this. I would like to know where this study was done. In all my travels around the United States, I have never seen a high speed highway built like this, and that shows a lot of questions about your study.

If you are going to build a Freeway, BUILD A FREEWAY!!!!. But don't build a high speed road with left turns or u-turns into oncoming traffic. This should not even be a consideration, now or in the future.

It is a must that you have Traffic Lights, at the Tropicana and Embers junctions and permit cross traffic flow, just as you already have at Santa Barbara and Veterans.

This works just fine and is far less dangerous. Also these lights could be equipped with cameras or sensors, to help control the traffic flow. These lights will also help keep speeding under control.

Another question about your design is, how do you plan to bus the school children from the west side of Burnt Store to the east side, where all the schools are located at this time. I can't see a School Bus making a u-turn on a High Speed Highway, and not getting into an accident. Last year we had over 79 school bus accident in Lee County and don't need to create a situation that is, an accident waiting to happen.

Has anybody given the thought about fire and rescue, or police service. Without the proper access, this could also create a life and death situation, or a large property loss do to a poor road design.

If you do not permit cross traffic flow at the Embers and Tropicana intersections, or other main intersections in the future, you will be pushing all the west bound traffic that would normally take these routes, down to Pine Island Rd, and that road is already over crowded at rush hour. With all the shopping and other development planned for Pine Island Rd., this would really create a mess.

When the east and west side of Burnt Store Rd. is developed, it would really create a problem by taking east and west corridors such as Embers and Tropicana out of a functional use. People will avoid these roads if they have to make the crazy left or u-turns into high speed traffic that your proposal shows.

Also your proposal does not show access to the commercial property along Burnt Store Rd., some in place and some planned for the future.

These are some of the problems, that people who live west of Burnt Store Rd., can see now and in the future. You can't design a road without the input of the people that live there, and expect it to function properly.

Please read this letter and take the time to study the problems shown in it. Thank you for your time and understanding.

Comments: #1 - Where are the bums that were part of the original plan? They provided inexpensive noise abatement while being pleasing to the eye.

#2 - Right in and right out along the portage road forces more traffic into residential neighborhoods and toward Old Burnt Store Road to the west. Traffic would exit onto Pine Island Road from SW 32nd Lane to head east. What traffic control device will be placed to provide for a safe left turn onto Pine Island Road? This intersection is the only access available for traffic west of the superstreet to travel east.

#3 - The multi-use path should be placed on the west to connect with the path on Veterans Parkway. A sidewalk is redundant.

Comments:

Dear Sir:

After reviewing your plan, I would
recommend the following:

1- Traffic light at Tropicana Pkwy and a
four way intersection

Rationale:

Fire protection

EMS service

Police service

Hurricane evaluation !!!!!

Thank You

Victor Jonescu

Comments:

In general I like the design. I believe you have diminished the minimum requirement for limiting access. The best case would be a full expressway, but this design is acceptable. There definitely should be no traffic lights on the new Burnt Store Road.

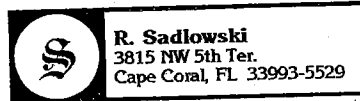

Some people are talking about removing the bridges on Old Burnt Store Rd. This absolutely should not even be considered. In combination with this project, a person would be required to get on this new superstreet, perhaps initially going in the wrong direction, to go a mile or less north or south on old Burnt Store. Don't listen to the people who want to remove the bridges on old Burnt Store road. Why spend money to remove roadways that serve a good purpose.

(Attach additional sheets if necessary)

Start of construction should be ASAP, definitely by 2011.

Thank you for taking time to participate in this public information meeting.

Re: Burnt Store Road Wideing Project
Pulic Information Workshop - Dec. 5, 2006

PUBLIC INFORMATION COMMENT SHEET

COMMENTS:

On Tuesday, December 5th, 2006, I spent almost two hours viewing the proposed limited access six lane Burnt Store Road proposal and talked to several County DOT representatives.

We live west of Burnt Store Road, one block south of Tropicana. Virtually every trip we make, shopping; banking; doctor visits; civic meetings, etc. we go east on Tropicana accross Burnt Store Road. The trip home is west on Tropicana accross Burnt Store Road. The same is true for most of the families living west of Burnt Store Road.

No one will tell you the wider road can't come soon enough than the residents of this area. Yet, the county's proposed plan shows complete disregard for these same residents.

Was any thought given to emergency vehicles (fire, police, ambulance), school buses, construction equipment (dump truck), garbage trucks, cement trucks, etc. trying to negotiate the U-turns necessary to cross Burnt Store Road?

The quality of life of the area residents as well as the property values would diminish if built as proposed.

A limited access road sounds nice, but in this instance, it is unrealistic, and would create more problems and hardships than it would solve. Imagine trying to make a U-turn in front of a vehicle going 70/80 miles per hour!

I suggest the wider Burnt Store Road be built as a continuation of the existing Veterans Parkway with lights at the major crossings. It works well on Veterans. Check it out.

It seems to me what is being proposed in the present Burnt Store Road widening plan is a very limited, limited access 'super-street'. From I-75 to the east end of the Mid-Point Bridge, there are signalized intersections. From the west end of the Mid-Point Bridge to Pine Island Road there are signalized

Page 2
Burnt Store Road Proposal
December 11, 2006

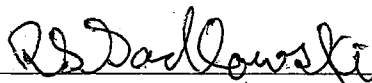

intersections and frontage roads with access to Veterans Parkway. Then, as proposed, from Pine Island Road to some point in Punta-Gorda we have this 'super-street' with very limited access. From that point in Punta-Gorda to I-75, I'm sure there will be signalized intersections.

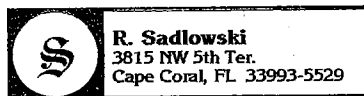

Why are the residents who happen to live in the proposed 'super-street' area being treated as second class citizens? I know of no highway (which is what this 'super-street' is) that allows private, or commercial, vehicles to make U-turns in the path of very fast moving vehicles.

The residents of this 'super-street' area will be faced with making these U-turns (two per trip) several times each day if they have multiple trips to make.

This must be a joke (a very bad joke).

Truly,

Tom Gamso

Subject: Burnt Store Rd. Widening workshop- public comment

The design for BSR as presented on Dec. 5th is well thought out. The "Superstreet" idea has many great features. By eliminating traffic signals, thru right turn only flow pattern, this promises to be efficient in several ways. 1. Un-interrupted traffic flow. 2. Cost of construction. No signal lights, complex intersections, over passes, or additional land acquisitions. 3. Noise levels will be reduced for the surrounding areas as all traffic will not be required to decelerate and accelerate at each signal. 4. Fuel efficiency. Since road design goes unchanged for many years after construction the cost saving over time to the consumer is tremendous but often overlooked for short term political reasons. We all know vehicles require more fuel in stop and go traffic and of course when you are sitting at a signal light even the most efficient vehicle is getting 0 mpg. The frontage road idea is also great provided that it is not left continuous thru political compromise. A continuous bike/walking path will be a great addition.

Naturally for those living on the east side of BSR wishing to turn southbound they will be inconvenienced. But the time saved from sitting at a congested signal will soon be appreciated. Those living on the west side will be likewise inconvenienced trying to cross BSR from west to east. After living on BSR for the past several years, it appears that those on the west side are predominantly turning southbound or crossing BSR. Those on the east side are turning southbound towards Pine Isl. Rd.

As the land acquisition proceeds I hope that the design does not degrade into another 41, Del Prado, or Palm Beach Blvd. These roads are inefficient, congested, and lethal to pedestrians.

Good workshop and nice presentation. ✓

Comments:

I heard a lot of people complaining about the Right-in / Right-out and directional left at the main intersections and several of the smaller ones, but I am all for this design. The directional left and U-turns are only a minor inconvenience and would keep traffic moving. I also believe that it would be safer than any alternative.

The ~~only~~ only complaint that I have is the absence of berms on the Sound Clearing Hills that are along Veterans parkway. I would like to think you would just extend the design of Veterans on up to New Burnt Store. We live several blocks west of Burnt Store now and can hear the traffic. It will be much worse when expanded.

I also think the timeline is too far into the future. The current Burnt Store Road is getting to dangerous right now! I really like your Superstreet concept.

Comments: _____

It was my understanding that the 355' right of way decision was made to provide room for sound reducing Berms incorporated into a layout similar to Veterans Parkway. Now you have a complicated layout that shifts the roadway to one side creating increased noise on the east side. Enclosed is my layout which provides for safer U-Turns that are completed within the center median and centers the road to allow for Berms and possible road widening in the future.

I would also eliminate all the bridges by using culverts from the weirs or dams to the west side of Burnt Store Rd.

Comments: I think the concept is good. One concern is that, while listening to public comments, there needs to be a better job selling the "superstreet" concept. A lot of people don't understand it and they expressed concerns that it is going to reduce mobility rather than enhance it. If a working example of this concept exists in Florida, the public needs to know where it is so they can see it if they are so inclined.

Consideration should be given to implementing U-turn lanes at closer intervals, say 1/4 mile.

Construction staging will be interesting on this project.

Comments: I was mostly and still concerned, when I
heard there would be no berm or sound
wall. The road will be right next to
our back yard. I have small children and
it will not be very safe for them to
play in the yards. The berm would block
some sound but mostly it is needed
to prevent flying objects into our yard, home
and homes of our neighbors. There are
other children and animals in our neighborhood
which also need this protection.
Please consider a berm or sound barrier
wall. Thank you, Abby Dillon

Comments:

I feel the U-Turns on Burnt Store Road will cause homeowners in Units 58, 59, 60, 61, 81, 82, 83, 90, 91 & 97 to bypass Burnt Store and use SW 32nd Place from Pine Island Road to Citrus which will result in much more traffic from Citrus to Burnt Store Rd. I believe the only way to eliminate this is to close the first bridge on Citrus in Unit 58. This will force the use of the U-Turns on Burnt Store.

Comments: We are very excited about the widening of the Road. "But" - major concerns - are main inter sections, need north/south turn access. If red lights are a problem for traffic flow - then over passes need to be installed. We feel the U-turns will cause more accidents - we have a 40 ft median - to make a U-turn with no - ramp - we will be pulling in front of traffic that can't stop. It is very difficult to get the median up to current speed in a short distance. Our other concern - if evacuation is needed - we have to leave Gulf stream head south - make U-turn and merge. We foresee long merging lines from Gulf stream to U-turn - then merge into south north lane on Burnt Store to merge 3 lanes into one at Kismet. We know the changes are needed but there are some bugs that have to be worked out. The area is just growing so fast.

Burnt Store Road Widening Project
Public Information Workshop
December 5, 2006

Hi,

I attended the public meeting held on Tuesday December 5th, 2006. First off I would like to say the for the sake of public protection and safety something needs to be done now to make Burnt Store road safer. I think the City of Cape Coral and the department of Transportation should get together and look at a phased approach.

The biggest bang for our buck today would be to simply add right turn lanes at strategic location access roads such as Yucatan, Diplomat, 14th Terrace, Van Buren. In conjunction with this plan the speed limit could be lowered to 45 mph from Pine Island Road to Kismet. If these changes were to be made you could also make it a no passing zone for this stretch of Burnt Store Road.

As we look ahead in to the future of adding new lanes etc. I think we should follow the same course as Veterans Highway is today and add some stop lights. The Kiss method sometimes is the best approach versus these complex road designs. I am glad that this meeting was just an open forum for resident feedback and not the true start of for this roadway project in it's current design.

Best Regards,

John Speroganes (Concerned Citizen)

Comments: THIS ROAD DESIGN IS AWFUL! THERE IS NO
LEFT TURNS GOING NORTHBOUND AT EMBERS OR TROPICANA
2 MAJOR INTERSECTIONS. ALSO THE SERVICE ROAD BETWEEN
EMBERS & TROPICANA GOES TO OUR PARKING ENTRANCE
AND STOPS THERE. SO ALL TRAFFIC WILL GO THROUGH OUR
PROPERTY TO GET TO TROPICANA. ALSO ALL ~~THESE~~ THESE
U-TURNS WITH TRAFFIC GOING AT HIGHER RATES OF
SPEED WITH NO LIGHT BREAKS TO OPEN UP TRAFFIC
ARE EXTREMELY DANGEROUS! MY OPINION WOULD BE TO
CONTINUE WITH THE VETERANS PKWY IDEA (LIMITED ACCESS
AND LIGHTS AT EVERY MAJOR THROUGH INTERSECTION). SO PUT
IN 3 LANES EACH DIRECTION AND LIGHTS AT EMBERS
TROPICANA DIPLOMAT GULF STREAM AND POSSIBLY
KISMET. THIS WOULD KEEP TRAFFIC MOVING WITH
LIGHTS TO BREAK THE TRAFFIC FOR THE PLACES U-TURNS
ARE NEEDED. THANK YOU!

Comments:

1. I would like to know how Lee County Department of Transportation (LC DOT) determined that Burn Store Road should be replaced with a new "Super Street" design. I believe that the studies mentioned in the Newsletter #1 envisioned a widening of the existing Burn Store Road similar to the design of Veterans Pkwy from Del Prato Blvd to Pine Island Road. Why are we doing this? Please explain what is wrong with extending the Veterans Pkwy design to all of Burnt Store Road. It seems to me to be a much better design at a much lower cost to the citizens of Lee County. Just in the new Burn Store Road section presented there are 10 new bridges required. Using the existing Burn Store Road bridges would cut that number in half.
2. A design of Burn Store Road that requires left turns to make U-turns to merge in the left lane to cross the road from any of the major intersections (Embers, Tropicana, etc.) does not seem reasonable, especially when considering the number of trucks using the current Burn Store Road traveling at a high rate of speed already. The new Burn Store Road may have a posted speed limit of 55 mph but LC DOT is very aware that these trucks and cars speed in excess of the posted limit. When the new Burn Store Road is completed to connect with I75, you can expect a significant increase in not only the number of trucks, but the speed in which these trucks and cars will travel. Traffic lights or over/under clover leafs at the major intersections will at least slow them down somewhat.
3. Fire and Emergency vehicle access to the west side of the new Burn Store Road will be greatly restricted with all the U-turns and speed of traffic.
4. Adding a Bike Path to a Super Street makes no sense from a safety point of view.
5. It appears that the berms for water control are non-existent.

Comments:

In order to cross Tropicana - north = the plan calls for a right onto Burnt Store all the way to Yachtman & then turn around all the way back to Tropicana. The gas station will back every thing up.
A traffic light at Tropicana would make a lot more sense.

> What happened to the Berms, to eliminate noise & make the road more attractive.

Making a turn on Burnt Store Rd, with the projected traffic will be extremely dangerous.

Eliminate the Service Rd & make the road more like Veterans Pkwy - with Berms & traffic lights.

Comments: WHAT HAPPENED TO THE BARRIERS (SOUND PROTECTORS)? I LIVE ON NW 37TH PL + CAN HEAR TRAFFIC ON BURNT STORE NOW!! SO WHAT WILL HAPPEN WITH SO MUCH MORE TRAFFIC (6 LANES) + THE NOISE LEVEL?

I LIVE OFF TROPICANA - THERE IS CITGO GAS STATION + TRAFFIC HAS 2 ACESSES NOW - TRAFFIC GETTING INTO + OUT OF STATION IS BACKED UP NOW. I FORESEE TRAFFIC BEING BACKED UP ON TROPICANA FOR LONGER PERIODS. PLUS HAVING TO TRAVEL UP TO YUCATAN TO TURN INTO TROPICANA IS RIDICULOUS. WITH GAS PRICES GOING UP + POLLUTION - THIS IS DETRIMENTAL TO ENVIRONMENT. THERE NEED TO BE, IF ANY, A TURNING POINT CLOSER TO TROPICANA AND NOT AT YUCATAN.

HAVING CULDESACS AT ORIGINAL BURNT STORE IS AWFUL. THESE ROADS SHOULD STILL GO THRU THE PATHS UNDER BRIDGES TO CROSS 6 LANE HIGHWAY -- I PRAY FOR THE KIDS. SCHOOL BUSES PICKING UP KIDS, MAKING ALL THESE TURNS - THE POOR BUS DRIVERS!

Comments:

Ausful - We'll have accidents galore!

Current BSR become useless dead-ends between major intersections.

All these dead-ends and U-Turns will send primary traffic to

Old BSR. School buses and trucks will be making all these U-Turns,

creating dangerous situations, as they have to DASH across heavy, oncoming

traffic. At a minimum current BSR should not be cut up, but

be fully connected N+S. It would be much better to have

intersecting ^{major} roads also go over new BSR, taking traffic off new BSR and reducing U-turn traffic.

(Attach additional sheets if necessary) If this is the best concept, we need to turn this project

WOULD NOT ENTIRELY ATTENUATE NOISE
TRANSFER TO THOSE LIVING WITHIN 1-2 BLOCKS
OF BURNT STORE, IT WOULD BE A GOOD START & AS
VEGETATION GROWS OVERTIME, GET BETTER
YET.

PRESENTLY A DANGEROUS CONDITION EXISTS
AT INTERSECTION OF DIPLOMAT & BURNT STORE AT
NIGHT. DUE TO THERE BEING NO STREET LIGHTS, TRAFFIC
WISHING TO TURN NORTH OR SOUTH OR CROSS BURNT
STORE IS OR COULD BE UNSEEN BY TRAFFIC ON
BURNT STORE. ~~WHEN~~ AT PRESENT THIS TRAFFIC
COULD BE TRAVELING AT UP TO 60 MPH. THIS BEING
(Attach additional sheets if necessary) VERY STRANGE WHEN EAST ON DIPLOMAT
AT EL DORADO THE INTERSECTING IS LIT UP LIKE DAYLIGHT

Thank you for taking time to participate in this public information meeting.

BOTH THESE STREETS ARE 45 MPH, POSTED.

Comments: WHY CANT TROPICANA INTERSECTION BE THE
SAME AS GULFSTREAM IT SEEMS VERY DIFFICULT
TO MAKE A LEFT ON TROPICANA GOING NORTH ON
PIKE ISLAND RD. I WOULD LIKE TO KNOW WHERE THE
PLAN IS. ALSO WHERE ARE THE BERMES

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

Comments: DO NOT LIKE - Will create more traffic on
Burnt Store Rd with U-Turns, NO Lane Protections
(Busses) - Dangerous for Large Vehicles to U-Turn.
Road Access - Another Piece of Road!
Please Rethink Concept!

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

Address 126 SW 35th PLACE

City CAPE CORAL State FL Zip Code 33991

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I WISH THERE COULD BE A RE-DESIGN
TO ALLOW LEFT TURNS ON TO EMBERS
PIKWAY INSTEAD OF HAVING TO MAKE
A U-TURN. TRAFFIC IS BAD ENOUGH
TRYING TO MAKE A LEFT WITHOUT
HAVING TO MAKE A U-TURN AND OUTFRONT
THE ONCOMING TRAFFIC. THE SPEEDS ON
BURNT STORE MAKE IT DIFFICULT TO JUDGE
CLOSING DISTANCES

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information meeting.

City CL State _____ Zip Code 33993

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am really disappointed in the design! First, you have completely blocked off those of us who live on OBSR - we can't cross anywhere; Centus - Embers - Tropicana - Vacation --- you get the picture. U-turns on expressway are only an accident looking for an excuse to happen - especially with the crazy FL drivers. As the plan stands - more traffic will be diverted to OBSR which can't handle the traffic now. What is wrong with a plan similar to Veterans Parkway - limited access with access at lights. Major roads (Chiquita - Skyline - SB) are able to be accessed without problem. Limited U-turns!

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: WHEN HEADING WEST ON TROPICANA, YOU MUST
GO ALL THE WAY TO YUCATAN BEFORE YOU CAN MAKE
A U-TURN TO GET BACK TO TROPICANA AND HEAD WEST
AT YUCATAN YOU MAKE A U-TURN FROM A LEFT TURN
LANE. THIS WILL BE AN EXTENSION OF VETERANS,
AND YOU HAVE LIGHTS ON MAJOR CROSS ROADS ON
VETERANS. YOU ONLY NEED LIGHTS WHERE MAJOR
ROADS CROSS. SUCH AS TROPICANA AND BURNT STORE.
A LIGHT SYSTEM WORKS JUST FINE AT
SANTA BARBARA AND VETERANS, THERE IS NO
WAY THE MESS YOU SHOW AT TROPICANA AND
BURNT STORE WILL WORK.
HOW ARE YOU GOING SCHOOL BUSES FROM THE
WEST SIDE OF BURNT STORE TO MARINER H.S.
TO THE JUNIOR HIGH. I REALIZE THIS IS ONLY
A CONCEPT, BUT A LOT OF WORK NEEDS TO BE
DONE BEFORE YOU KILL A ~~LOT~~ BUNCH OF PEOPLE
WITH THE PLAN. *Ed Raab*

Comments: WHERE ARE THE BERMS THAT WERE
IN THE PREVIOUS PRESENTATION? THE
EXTENSION SHOULD BE IN KEEPING WITH
VETERANS PKWY.

(Attach additional sheets if necessary)

Comments: 1) Where are the 6' berms
2) Need more U-turn lanes or else more
① turn lanes - so don't have to travel a mile
out of way to turn ②
③ Nice & wide - appreciate the limited access.
④ Consider taking all way to Charlotte Co line
as quickly as possible -
