Luckett Road & Sunshine Boulevard
Corridor Extension Studies
Public Information Program Summary

The Lee County Department of Transportation (LC DOT) conducted a public involvement program as a part of the Luckett Road & Sunshine Boulevard Corridor Extension Studies.

An Advanced Notification letter was mailed on December 4, 2006 to announce the project and request review and comment of the initial project information. The letter was mailed to the Environmental Consultant Florida State Clearing House and local and federal agencies. Three responses were received from this letter. A copy of the letter, mailing list and responses can be found in Section 1 of the Comments and Coordination Report.

A kick-off letter describing the project and the public involvement program was mailed with a copy of the kick-off newsletter to local government agencies and elected officials on December 14, 2006. A copy of the letter and mailing list can be found in Section 2 of the Comments and Coordination Report.

A kick-off newsletter describing the project, the study and the public involvement program process was mailed to property owners within 300' of the potential alignments and to interested parties on December 16, 2006. A copy of the letter and mailing list can be found in Section 3 of the Comments and Coordination Report.

The public involvement program included a series of public information workshops for the project. The first set of workshops were on February 26 and March 8, 2007 with the the same information presented at both workshops. The first workshop was held at the Veterans Park Recreation Center, 55 Homestead Road, Lehigh Acres, Florida. The second workshop was held at Olga Grace Church, 14036 Matanzas Drive, Fort Myers, Florida. A total of 110 people signed in at the registration table at the meeting on February 26, 2007. A total of 180 people signed in at the registration table at the meeting on March 8, 2007. A total of **203** comments were received with **107** as result of the February 26, 2007 workshop, and **86** comments as a result of the March 8, 2007 workshop. The remaining **10** comments did not designate which workshop, if any, they attended. A copy of the technical memorandum for these workshops can be found in Section 4 of the Comments and Coordination Report.

The third workshop was held on Tuesday, June 26, 2007 at the Gunnery Road Baptist Church, 1880 Gunnery Road North, Lehigh Acres, Florida. A total of **105** people signed in at the registration table at the workshop. A total of **25** comments were received on the project through the 14-day comment period after the workshop. A copy of the technical memorandum for these workshops can be found in Section 5 of the Comments and Coordination Report.

The fourth workshop was held on Tuesday, January 22, 2008. The workshop was held at the Buckingham Community Center, 4940 Buckingham Road, Fort Myers,

Florida. A total of **103** people signed in at the registration table at the workshop. A total of **30** comments were received on the project through the 14-day comment period after the workshop. A copy of the technical memorandum for these workshops can be found in Section 6 of the Comments and Coordination Report.

The LC DOT project team presented information regarding the project to these community groups and interested parties:

- November 16, 2006 - Buckingham Conservancy
- November 27, 2006 - East Lee County Council
- December 2006 - East Lee County Water Control District
- March 8, 2007 - Mosquito Control Board
- March 14, 2007 - Lehigh Planning Corporation
- May 9, 2007 - Lehigh Planning Corporation
- June 6, 2007 - CLASAC (20/20) management sub committee
- June 12, 2007 - Lee County Solid Waste
- July 5, 2007 - Mosquito Control Board
- June 12, 2007 - Lee County Solid Waste
- July 17, 2007 - City of Fort Myers staff
- August 27, 2007 - Hendry County staff
- February 13, 2008 - Lehigh Community Planning Corporation

The project team was also available to present information regarding the Luckett Road & Sunshine Boulevard Corridor Extension Studies to members of the public on request.

Subject: **Advance Notification for the Luckett Road/Sunshine Boulevard Corridor Extension Studies**
Luckett Rd. from I-75 to Joel Blvd. and
Sunshine from its northern terminus to SR 80
Lee County, Florida
Project ID No: 5060

Dear Lauren P. Milligan:

On behalf of the Lee County Board of County Commissioners, the attached Advance Notification Package is forwarded to your office for processing through the appropriate state agencies in accordance with Executive Order 95-359. Distribution to local and federal agencies is being made as per the attached list.

Although more specific comments will be solicited during the permit coordination process, we request that permitting and permit reviewing agencies review the attached information and furnish us with general comments they consider pertinent at this time.

In addition, please review this improvement's consistency, to the maximum extent feasible, with the approved Comprehensive Plan of the local government jurisdiction(s) pursuant to Chapter 163, Florida Statutes.

We are looking forward to receiving your comments on the project within 60 days. Should additional review time be required, a written request for an extension of time must be submitted to our office within the initial 60-day comment period.

Your comments should be addressed to:

Sarah Clarke
Project Manager
Lee County Department of Transportation
P.O Box 398, Fort Myers, Florida, 33902-0398

Your expeditious handling of this notice will be appreciated.

Sincerely,

Sarah J. Clarke

Sarah Clarke
Project Manager

ADVANCE NOTIFICATION FACT SHEET

1. Need for Project

Lee County is conducting a Corridor Study to evaluate the extension of Luckett Road from the existing end of Luckett Road in the vicinity of Interstate 75 (I-75) to Joel Boulevard and the extension of Sunshine Boulevard from the existing end of Sunshine Boulevard to State Road 80 (SR 80). The need for the project is to provide additional east-west and north-south mobility in eastern Lee County particularly within Lehigh Acres. Increasing growth in this area is placing tremendous demand on the existing roadway network. A traffic analysis will be conducted as part of this corridor study to determine the traffic projections for the project and to verify the need for the project, including the number of lanes and intersection controls that would be required. Both the Luckett Road extension and the Sunshine Boulevard extension projects are included in the Lee County Metropolitan Planning Organization's Adopted 2030 Financially Feasible Long Range Transportation Plan (LRTP).

2. Description of the Project

The Luckett Road Extension project limits extend from I-75 east to Joel Boulevard. This is a new roadway alignment. It is anticipated that the roadway improvements would consist of a 4 or 6-lane roadway. Improvements will include accommodations for bicyclists and pedestrians and development of a stormwater management system.

The Sunshine Boulevard Extension project limits extend from the end of the existing Sunshine Boulevard north to SR 80. The extension is a new roadway alignment. The existing Sunshine Boulevard is a 2 lane rural roadway. It is anticipated that the roadway improvements would consist of a 2 or 4 lane roadway. Improvements will include accommodations for bicyclists and pedestrians and development of a stormwater management system.

3. Environmental Information

a. Land Uses

Because of the number of potential alignments across a wide area of eastern Lee County, the land uses vary considerably and include rural, agricultural, residential, commercial and park lands. Some of the major conservation areas that are located in the vicinity of potential alignments include Hickey's Creek, Hickory Swamp Preserve and Harn's Marsh. The eastern end of the Luckett Road Extension study area is within Lehigh Acres which is primarily residential.

b. Wetlands

There are numerous wetland systems located in the vicinity of the potential alignments.

These wetland systems are associated with conservation areas, canal systems and undeveloped property. A Wetland Evaluation Report will be prepared for the project. The potential wetland impacts that are anticipated will be evaluated further during the study. Impacts to wetlands and critical uplands will be avoided and minimized to the maximum extent possible, based on safe and sound engineering and construction practices.

The amount and type of mitigation required for the project relative to wetland impacts will be based on further analysis of the wetlands' functional values during subsequent project development phases and the permitting process.

c. Floodplains

The project study area has extensive 100-year floodplain areas with the flood elevation undetermined. Floodplain impacts will be quantified and alternatives to mitigate these impacts will be developed.

d. Wildlife and Habitat

A wildlife and habitat assessment will be conducted to evaluate the potential for any adverse impacts to listed threatened and endangered species during the corridor study. The assessment will include measures necessary to avoid and minimize impacts and will evaluate appropriate mitigation measures for any impacts to listed species. The proposed improvements are not anticipated to adversely impact populations of federally and state listed faunal or floral species. Coordination with federal, state and local agencies will continue and specific mitigation measures will be developed during the permitting phases of the project.

e. Outstanding Florida Waters

There are no Outstanding Florida Waters within or adjacent to the project corridor.

f. Aquatic Preserves

There are no designated Aquatic Preserves within the project study area.

g. Coastal Zone Consistency Determination

This project is subject to a consistency review in accordance with the State's Coastal Zone Management Program as required by 15 CFR 930.

h. Cultural Resources

As part of the study, a Cultural Resource Assessment will be conducted for this project and will detail the historical and archeological resources within the project area and the potential for adverse impacts to these resources.

i. Coastal Barrier Resources

This project is not located in or near a coastal barrier resource as defined by the Governor's

Executive Order 81-105 and the Federal Coastal Barrier Resources Act.

j. Contamination

A Preliminary Contamination Screening Evaluation Report (CSER) will be conducted for this project. The proposed improvements are not expected to significantly impact potential contamination sites within the project study area.

k. Sole Source Aquifer

This project does not fall within the boundary of a sole source aquifer as designated by the U.S. EPA.

l. Noise

There are several potential noise sensitive sites along the potential project corridors. These consist mainly of single-family residences. This project is not proposed for federal funding and therefore a Noise Study will not be performed.

m. Other Comments

---

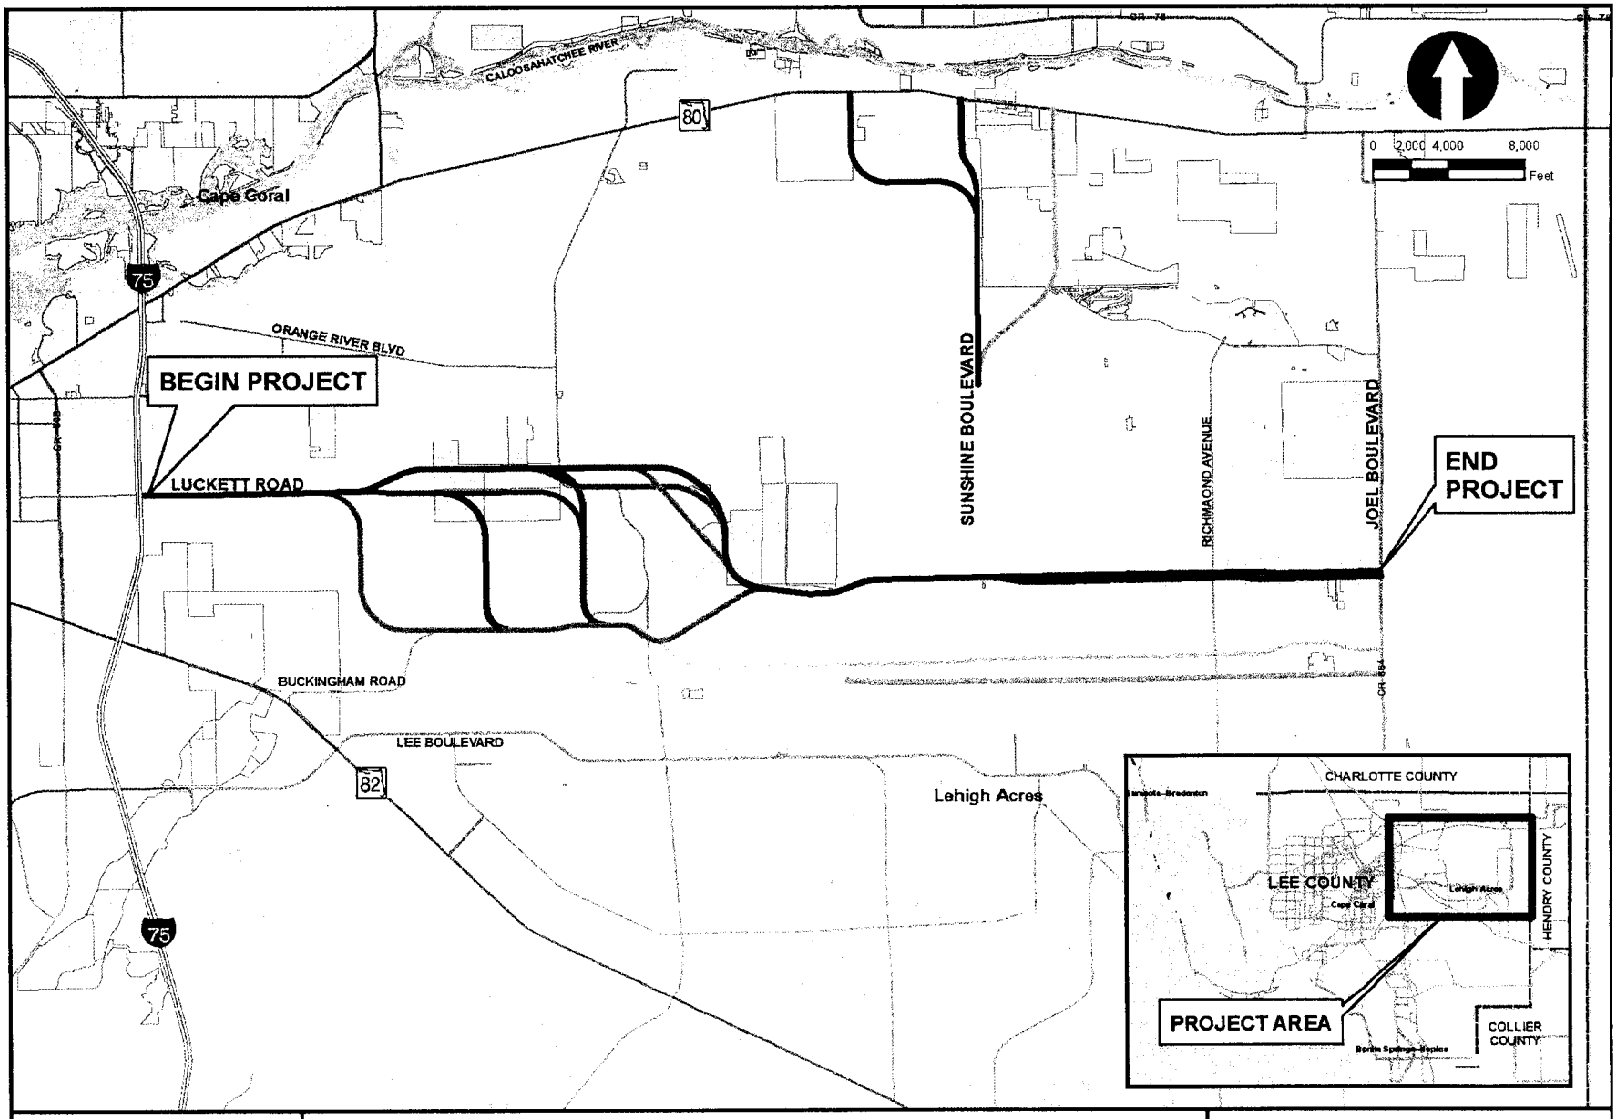

4. Navigable Waterway Crossing? _____ **Yes** __X__ **No**

---

5. Required Permits

Various permit applications may be required to be filed and approved prior to construction. The list of potential agencies and permits required include, but may not be limited to the following:

- South Florida Water Management District – Environmental Resource Permit (ERP)
- U.S. Army Corps of Engineers – Federal Dredge and Fill Permit (filed jointly with ERP)
- U.S. Environmental Protection Agency – National Pollution Discharge Prevention and Elimination System (NPDES) General Permit

RE: IC&R Project #2006-098
State Clearinghouse #FL20061206294B

FDOT - Advance Notification - Luckett Road/Sunshine Boulevard Cooridor Extension Studies from I-75 to Joel Boulevard in Lee County, Florida.

Dear Ms. Clarke:

The staff of the Southwest Florida Regional Planning Council reviews various proposals, Notifications of Intent, Preapplications, permit applications, and Environmental Impact Statements for compliance with regional goals, objectives, and policies, as determined by the Strategic Regional Policy Plan. The staff reviews such items in accordance with the Florida Intergovernmental Coordination and Review Process (Chapter 29I-5, F.A.C.), and adopted regional clearinghouse procedures.

These designations determine Council staff procedure in regards to the reviewed project. The four designations are:

Less Than Regionally Significant and Consistent no further review of the project can be expected from Council.

Less Than Regionally Significant and Inconsistent Council does not find the project of regional importance, but will note certain concerns as part of its continued monitoring for cumulative impact within the noted goal area.

Regionally Significant and Consistent project is of regional importance, and appears to be consistent with Regional goals, objectives, and policies.

Regionally Significant and Inconsistent project is of regional importance and does not appear to be consistent with Regional goals, objectives, and policies. Council will oppose the project as submitted, but is willing to participate in any efforts to modify the project to mitigate the concerns.

The above referenced document has been reviewed by this office, based on the information contained in the document, and on local knowledge, has been found **Regionally Significant and Consistent** with adopted goals, objectives, and policies of the Strategic Regional Policy Plan.

Should you or any other party request this finding to be reconsidered, please contact Nichole L. Gwinnett, IC&R Coordinator, with this request, or any questions concerning staff review of this item. This recommendation will be discussed at the next scheduled Council meeting. Should Council action differ from the staff recommendation, you will be notified.

Sincerely,

SOUTHWEST FLORIDA REGIONAL PLANNING COUNCIL

David Y. Burr
Executive Director

SUBJECT: Advance Notification
Corridor Study
Luckett Road Extension from I-75 to Joel Boulevard and
Sunshine Boulevard Extension from its northern terminus to SR 80
Project ID Number: 5060
Lee County, Florida

Dear Ms. Clarke:

NOAA's National Marine Fisheries Service (NMFS) has reviewed the information contained in the above referenced Advance Notification, dated December 4, 2006. The Lee County Department of Transportation proposes the extension of Luckett Road from I-75 to Joel Boulevard, and the extension of Sunshine Boulevard from its northern terminus to SR 80 in Lee County, Florida. The new portion of Luckett Road would be a 4 or 6 lane roadway, and the new portion of Sunshine Boulevard would be a 2 or 4 lane roadway.

NMFS staff conducted a site inspection of the project area on January 12, 2007, to assess potential impacts to living marine resources within the Caloosahatchee River. The lands adjacent to the proposed road extension projects are principally forested palustrine wetlands, and agricultural, residential, and commercial properties. No NMFS trust resources will be directly affected, but the projects represent a considerable roadway expansion and could affect wetlands draining to the Caloosahatchee River. Luckett Road lies within 2.25 miles of the Caloosahatchee River and Sunshine Boulevard within 0.25 mile of the river. The construction of the road extensions and their subsequent use could result in an increase in the amount of sediment, oil and grease, and other pollutants reaching estuarine habitats utilized by marine fishery resources. Therefore, NMFS recommends that: 1) stormwater treatment systems be designed to prevent degraded water from reaching the Caloosahatchee River and downstream estuarine habitats in San Carlos Bay and Pine Island Sound; 2) the potential effects of the new roadways on drainage patterns and local hydrology be evaluated and flow pattern alterations be minimized; and best management practices be employed during road construction to prevent erosion and sedimentation of aquatic habitats.

RE: Department of Transportation – Advance Notification – Luckett Road / Sunshine Boulevard Corridor Extension Studies – Lee County, Florida.
SAI # FL200612062948C

Dear Ms. Clarke:

The Florida State Clearinghouse, pursuant to Presidential Executive Order 12372, Gubernatorial Executive Order 95-359, the Coastal Zone Management Act, 16 U.S.C. §§ 1451-1464, as amended, and the National Environmental Policy Act, 42 U.S.C. §§ 4321, 4331-4335, 4341-4347, as amended, has coordinated a review of the referenced advance notification.

The Florida Department of Transportation (FDOT) notes that the Luckett Road corridor is not in the Lee Metropolitan Planning Organization's (MPO) existing plus committed travel forecast model, and their 2030 cost feasible travel forecast model for I-75 has a projected failing level of service (LOS) of "F". FDOT's planned improvements to I-75 and its interchanges in the vicinity did not anticipate the additional traffic associated with this improvement. Therefore, Lee County's traffic study will need to evaluate the effects at the interchanges of Luckett Road, SR 82, and SR 80. An Interchange Modification Report (IMR) and/or an Interchange Operational Analysis Report (IOAR) may be required along with necessary interchange improvements needed to accommodate the traffic impacts consistent with LOS requirements.

The Sunshine Boulevard corridor is not in the existing plus committed travel forecast model for the Lee MPO; however, their 2030 cost feasible travel forecast model does include this improvement and the projected LOS for SR 80 is "B". The current Access Management Classification for SR 80 in the vicinity of the connection of Sunshine Boulevard is an Access Class III facility. A future connection to SR 80 via Sunshine Boulevard should be coordinated with FDOT District One's Access Management Department to ensure a full median opening connection location is optimized to accommodate a future signalized intersection.

RECEIVED
FEB 06 2007
LCDOT

Florida State Clearinghouse

Additionally, if either project results in impacts to FDOT roadways in District One, the Lee County Department of Transportation will need to obtain all necessary permits from the District's Ft. Myers Operations Center prior to construction activities occurring within state owned rights-of-way. If the applicant performs excavation in FDOT right-of-way, any asbestos-containing material (ACM) which is encountered must be properly handled in accordance with all local, state and federal regulations. In no case shall ACM be crushed and buried within FDOT right-of-way.

The South Florida Water Management District (SFWMD) notes that an Environmental Resource Permit (ERP) will be required from the SFWMD. If certain construction dewatering activities are proposed, a Water Use Permit may be required from the SFWMD. In addition, if any ground or surface water withdrawals are proposed for landscape irrigation within the right-of-way, a Water Use Permit will be required from the SFWMD.

The Florida Department of Environmental Protection (DEP) indicates that the proposed projects cross tributaries of the Caloosahatchee River and appear to impact county park and preserve lands. An ERP will be required from the SFWMD and the ERP applicant must eliminate or reduce the proposed wetland resource impacts of roadway construction to the greatest extent practicable:

1) Minimization should emphasize avoidance-oriented corridor alignments, wetland fill reductions via pile bridging and steep/vertically retained side slopes, and median width reductions within safety limits
2) Wetlands should not be displaced by the installation of stormwater conveyance and treatment swales; compensatory treatment in adjacent uplands is the preferred alternative.
3) After avoidance and minimization have been exhausted, mitigation must be proposed to offset the adverse impacts of the project to existing wetland functions and values. Significant attention is given to forested wetland systems, which are difficult to mitigate.
4) The cumulative impacts of concurrent and future road improvement projects in the vicinity of the subject project should also be addressed.

Based on the information contained in the application for federal assistance and the enclosed state agency comments, the state has no objections to the allocation of federal funds for the subject project and, therefore, the funding award is consistent with the Florida Coastal Management Program (FCMP). The applicant must, however, address the concerns identified by our reviewing agencies prior to project implementation. The state's continued concurrence with the project will be based, in part, on the adequate resolution of issues identified during this and subsequent reviews. The state's final concurrence of the project's consistency with the FCMP will be determined during the environmental permitting stage.

Florida State Clearinghouse

Thank you for the opportunity to review the proposed projects. Should you have any questions regarding this letter, please contact Mr. Robin Branda at (850) 245-2182.

Yours sincerely,

Sally B. Mann

An ERP will be required from the SFWMD and the ERP applicant must eliminate or reduce the proposed wetland resource impacts of roadway construction to the greatest extent practicable: 1) Minimization should

emphasize avoidance-oriented corridor alignments, wetland fill reductions via pile bridging and steep/vertically retained side slopes, and median width reductions within safety limits 2) Wetlands should not be displaced by the installation of stormwater conveyance and treatment swales; compensatory treatment in adjacent uplands is the preferred alternative. 3) After avoidance and minimization have been exhausted, mitigation must be proposed to offset the adverse impacts of the project to existing wetland functions and values. Significant attention is given to forested wetland systems, which are difficult to mitigate. 4) The cumulative impacts of concurrent and future road improvement projects in the vicinity of the subject project should also be addressed.
SOUTH FLORIDA WMD - SOUTH FLORIDA WATER MANAGEMENT DISTRICT
The Advance Notification notes that an Environmental Resource Permit (ERP) will be required from the SFWMD. If certain construction dewatering activities are proposed, a Water Use Permit may be required from the SFWMD. If any ground or surface water withdrawals are proposed for landscape irrigation within the right-of-way, a Water Use Permit will be required from the SFWMD.

RE: IC&R Project #2006-098
State Clearinghouse #FL200612062948C

FDOT - Advance Notification - Luckett Road/Sunshine Boulevard Cooridor Extension Studies from I-75 to Joel Boulevard in Lee County, Florida.

Dear Ms. Clarke:

The staff of the Southwest Florida Regional Planning Council reviews various proposals, Notifications of Intent, Preapplications, permit applications, and Environmental Impact Statements for compliance with regional goals, objectives, and policies, as determined by the Strategic Regional Policy Plan. The staff reviews such items in accordance with the Florida Intergovernmental Coordination and Review Process (Chapter 29I-5, F.A.C.), and adopted regional clearinghouse procedures.

These designations determine Council staff procedure in regards to the reviewed project. The four designations are:

Less Than Regionally Significant and Consistent no further review of the project can be expected from Council.

RECEIVED
JAN 10 2007
SW FLORIDA

Less Than Regionally Significant and Inconsistent Council does not find the project of regional importance, but will note certain concerns as part of its continued monitoring for cumulative impact within the noted goal area.

Regionally Significant and Consistent project is of regional importance, and appears to be consistent with Regional goals, objectives, and policies.

Regionally Significant and Inconsistent project is of regional importance and does not appear to be consistent with Regional goals, objectives, and policies. Council will oppose the project as submitted, but is willing to participate in any efforts to modify the project to mitigate the concerns.

The above referenced document has been reviewed by this office, based on the information contained in the document, and on local knowledge, has been found **Regionally Significant and Consistent** with adopted goals, objectives, and policies of the Strategic Regional Policy Plan.

Should you or any other party request this finding to be reconsidered, please contact Nichole L. Gwinnett, IC&R Coordinator, with this request, or any questions concerning staff review of this item. This recommendation will be discussed at the next scheduled Council meeting. Should Council action differ from the staff recommendation, you will be notified.

Sincerely,

SOUTHWEST FLORIDA REGIONAL PLANNING COUNCIL

David Y. Burr

The attached document requires a Coastal Zone Management Act/Florida Coastal Management Program consistency evaluation and is categorized as one of the following:

X **Federal Assistance to State or Local Government (15 CFR 930, Subpart F). Agencies are required to evaluate the consistency of the activity.**

_ **Direct Federal Activity (15 CFR 930, Subpart C). Federal Agencies are required to furnish a consistency determination for the State's concurrence or objection.**

_ **Outer Continental Shelf Exploration, Development or Production Activities (15 CFR 930, Subpart E). Operators are required to provide a consistency certification for state concurrence/objection.**

_ **Federal Licensing or Permitting Activity (15 CFR 930, Subpart D). Such projects will only be evaluated for consistency when there is not an analogous state license or permit.**

Sunshine from its northern terminus to SR 80
Lee County, Florida
Project ID No: 5060

Project Kick-Off Notification

Dear Councilman Michael Flanders:

This letter is to notify you that the Lee County Department of Transportation (LC DOT) has initiated the above referenced studies. A project newsletter is attached for your reference.

The project involves two corridor alignment extension studies in East Lee County. The Luckett Road extension study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80.

This project will provide additional east-west and north-south mobility in eastern Lee County, particularly within Lehigh Acres. Increasing growth in this area is placing tremendous demand on the existing roadway network. A traffic analysis will be conducted as part of these corridor extension studies to determine the traffic projections for the project and to verify the need for the project, including the number of lanes and intersection controls that would be required. Both the Luckett Road and the Sunshine Boulevard Extension studies are included in the Lee County Metropolitan Planning Organization's Adopted 2030 Financially Feasible Long Range Transportation Plan (LRTP).

The Luckett Road Extension project involves studying a number of different alternatives for the location of a new road alignment. It is anticipated that the roadway improvements would consist of a four or six-lane roadway. Improvements will include accommodations for bicyclists and pedestrians and development of a stormwater management system.

The Sunshine Boulevard Extension project also involves studying a number of different alternatives for the location of a new road alignment. The existing Sunshine Boulevard is a two-lane rural roadway. It is anticipated that the roadway improvements would consist of a two or four-lane roadway. Improvements will include accommodations for bicyclists and pedestrians and development of a stormwater management system for this extension as well.

These corridor studies are scheduled for completion in Winter 2007. LC DOT will conduct a public involvement program that includes federal, regional and local agency notification, local elected and appointed officials' notification, as well as local media notification.

Public involvement is a very important part of the Luckett Road & Sunshine Boulevard Corridor Extension Studies. There will be many opportunities for public input during the course of the project. The newsletter included with this letter is the first in a series of five newsletters that will be mailed to property owners and interested parties along the project corridor to inform them about the studies. Upcoming newsletters will include project updates and details of planned public information workshops. Also included in the public involvement program are meetings with area community groups, neighborhood associations and more. LC DOT staff is available to provide a project briefing if requested. You can keep up-to-date on what is happening on the project by visiting the project web site at www.LuckettSunshine.com.

Please contact Ms. Sarah Clarke at (239) 479-8580 if there are any questions or if additional information is needed.

Sincerely,

Sarah J. Clarke

Sarah Clarke
Project Manager

Luckett Road & Sunshine Boulevard Corridor Extension Studies

Newsletter #1 December 2006

About the Studies

The Lee County Department of Transportation (LC DOT) is conducting two Corridor Alignment Studies in East Lee County. The Luckett Road extension study area is from Interstate 75 east to Joel Boulevard. The Sunshine Boulevard extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80.

Public involvement is a very important part of the Luckett Road & Sunshine Boulevard Corridor Studies. Many opportunities for public input are available during the course of the project. This newsletter is the first in a series of five newsletters designed to keep you informed throughout these studies. Also planned for the public are small group, community and public meetings, and more. You can keep up-to-date on what is happening on the project by visiting the project website at **www.LuckettSunshine.com**.

Purpose Of These Studies

The Lee County Metropolitan Planning Organization, or MPO, is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process for all of Lee County. It must plan for the movement of both people and goods within the county by all modes of travel-including utilization of highways, public transportation, bicycles, and pedestrian facilities. Federal law requires that the MPO endorse a transportation improvement program and set priorities identifying the projects to be done over the next few years.

The Luckett Road Extension was first included in the MPO's 2020 plan in the version amended June 20, 2003. Previous to that, it was shown on the Lee County Traffic Ways Map. The Sunshine Boulevard Extension was first addressed in the 2030 update which was adopted December 7, 2005.

The objective of the two studies is to develop transportation facilities that are economically efficient and environmentally sound. These studies will document the need for improvements, the procedures used in the evaluations, and the results of the environmental and engineering analyses. These analyses will be conducted to assist the LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for a new east-west transportation facility from I-75 to Joel Boulevard and a new north-south transportation facility from Lee Boulevard to SR 80.

These studies are part of a planning and engineering process to determine social, economic and environmental impacts associated with a proposed transportation improvement project. This process requires the combined efforts of professional engineers, planners and scientists who collect and analyze project-related information to develop the best solution for a community's transportation needs. The process used in the development of the project is made up of several components. These include:

1. Data collection
2. Development of corridor alternatives
3. Analysis of viable corridor alternatives
4. Selection of recommended corridor alignments
5. Public and agency involvement

LEE COUNTY
SOUTHWEST FLORIDA

1. Data Collection

Data collection involves gathering the information that is needed to develop and evaluate the various improvement alternatives, including:

- Traffic counts
- Existing roadway conditions
- Identification of wetlands
- Threatened/Endangered species habitat
- Existing land use and property information
- Planned developments
- Existing drainage systems and drainage patterns
- Contamination sites

2. Development of Corridor Alternatives

Several improvement alternatives will be developed that will meet future travel demand and attempt to minimize impacts to the community and the natural environment. These alternatives will be developed with input from the public, local government and environmental agencies obtained throughout the study process.

3. Analysis of Viable Corridor Alternatives

The alternatives developed will be compared based on community and environmental impacts, costs for design and construction engineering inspection, right-of-way acquisition, construction and environmental mitigation. Public comment and sentiment are also considered during this analysis.

Several evaluations are conducted and used in this analysis. These include:

Community impacts – Evaluate the number of properties, residences, businesses, public facilities affected by an alignment

Wetlands - Find the best way to avoid or mitigate long-term and short-term impacts to wetlands

Water Quality - Implement measures to prevent, reduce or eliminate pollution of ground and surface waters

Wildlife and Habitat Impacts - Efforts are made to protect and ensure the continued existence of threatened and/or endangered species and their habitat

Contamination - Identify, evaluate and recommend actions concerning potential contamination problems within and/or adjacent to the project

Stormwater – Evaluate drainage patterns in the vicinity of the alternative and documents efforts to minimize impacts

Floodplains - Document efforts to minimize or avoid encroachment within the 100-year floodplain through drainage system design

Archeological and Historical Sites - Documentation is required to identify and minimize impacts to historic and archaeologically significant sites

4. Selection of Recommended Corridor Alternatives

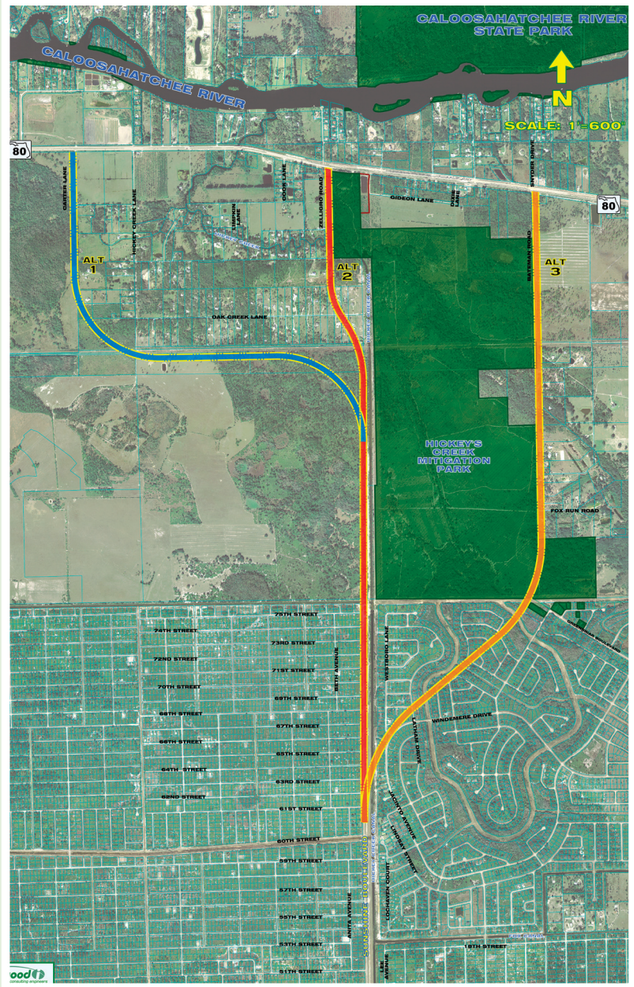

Once the analysis of all the viable alternatives are complete for each project and the public has had the opportunity to comment on these alternatives, a recommendation will be made to the Lee County Board of County Commissioners.

5. Public and Agency Involvement

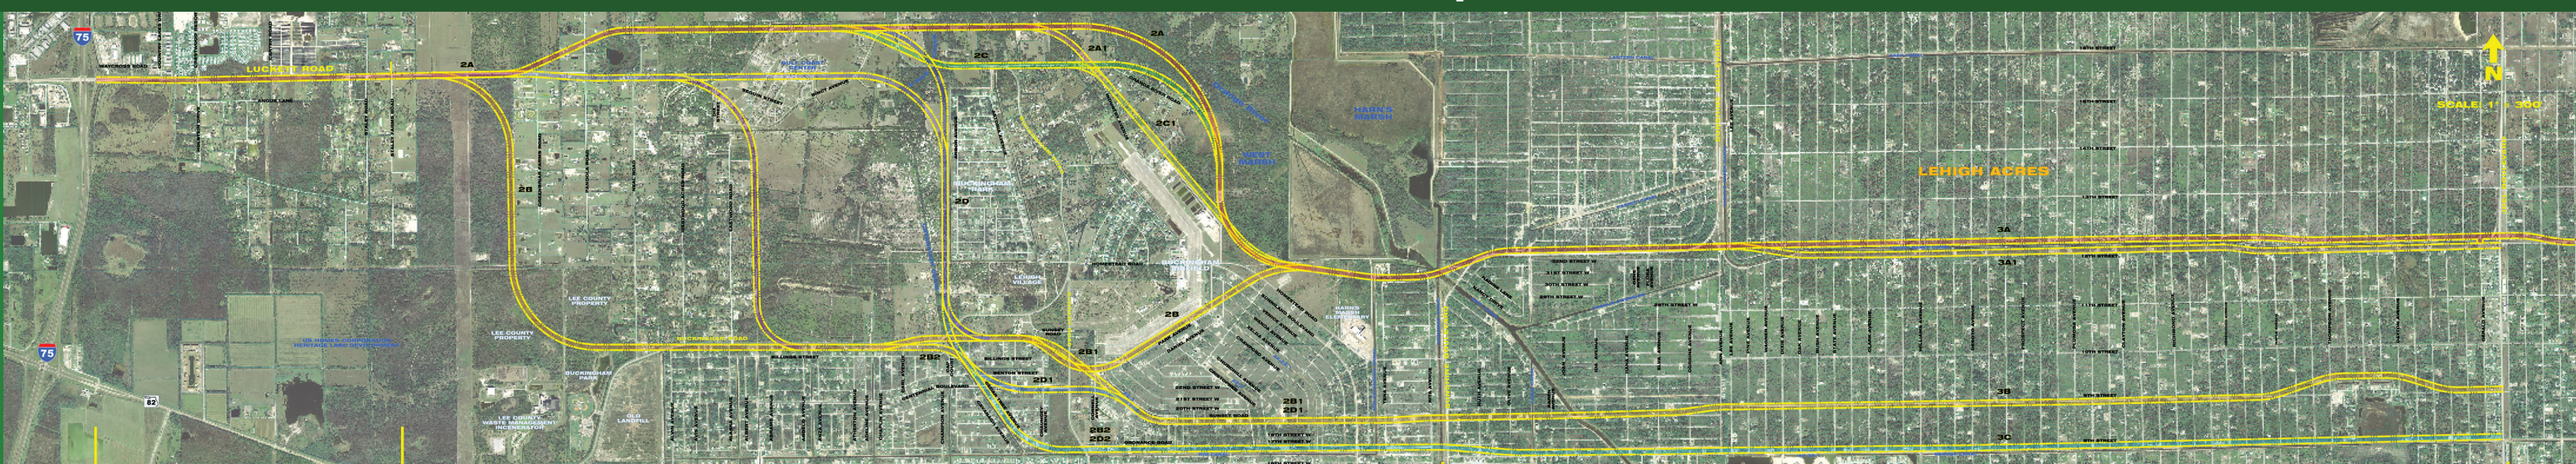

A complete Public Involvement Program will be conducted throughout the study. This program is designed to create public awareness of the project and to solicit comments and input from the public during the development and evaluation of the alternatives and the selection of the recommended alternatives for the extensions of Luckett Road and Sunshine Boulevard. The County has planned for three public information meetings on the project:

- **Early 2007**- Corridor Alternatives Public Information Workshop #1
- **Spring 2007**-Corridor Alternatives Public Information Workshop #2
- **Fall 2007**-Preferred Concept Public Information Workshop #3

June 12, 2007

Luckett Road & Sunshine Boulevard
Corridor Extension Studies
Public Information Workshops
February 26 and March 8, 2007

The Lee County Department of Transportation (LC DOT) held two public information workshops, Monday, February, 26, 2007 and Thursday, March 8, 2007. The first workshop was held at the Veterans Park Recreation Center, 55 Homestead Road, Lehigh Acres, Florida. The second workshop was held at Olga Grace Church, 14036 Matanzas Drive, Fort Myers, Florida. The workshops presented the same information, but were held in two different locations and evenings to be more accessible to the public. Both workshops were conducted in an "open house" format that allowed the public to view the project material between 4:30 and 6:30 p.m. The meetings were held to show the public the alternative alignments that are being considered for the extension of Luckett Road, and Sunshine Boulevard. The study area for the Luckett Road extension is from Interstate 75, east to Joel Boulevard. The study area for the Sunshine Boulevard extension begins in Lehigh Acres at 59th Street West and continues north to State Road 80.

The objective of the two studies is to develop transportation facilities that are economically sound. These studies will document the need for improvements, the procedures used in the evaluations, and the results of the environmental and engineering analyses. The meetings were held to present information and to receive public input on the alternative alignments for the extensions. A looping PowerPoint presentation which explained project background and procedures played throughout both workshops. Detailed aerials of the potential alignments, alignments which have been eliminated and display boards of the typical sections were displayed. Representatives from the LC DOT project team were available to discuss the project and answer questions. A total of 110 people signed in at the registration table at the meeting on February 26, 2007. A total of 180 people signed in at the registration table at the meeting on March 8, 2007. Copies of the sign-in sheets are attached as Appendix A.

The first newsletter detailing project background was mailed on Friday, December 15, 2006 to property owners within 300 feet of all alignment alternatives, interested parties, relevant County and City elected officials and staff members. A flyer was mailed on Thursday, February 15, 2007 announcing the two upcoming public workshops scheduled for February 26 and March 8, 2007. Between the initiation of the studies and the workshops, additional alignment selections were added to the analysis. The first newsletter and the flyer were mailed to property owners within 300' of these additional alignment selections on February 15, 2006 with updated alignment alternative maps. An insert was included explaining the process.

The public information workshops were advertised in *The News-Press* on February 21, 2007 as a 1/4-page legal display advertisement. Two press releases were sent on

February 22, 2007 and March 6, 2007 to local media agencies. The first release detailed both meetings and the second release contained information about the March meeting. A copy of the first newsletter (December 2006), a copy of the flyer announcing the workshops and the package sent to the property owners affected with the additional alignment alternatives (February 2007), a CD with a copy of the mailing lists for the December 2006 newsletter and February 2007 flyer, a copy of the legal display ad printed in *The News-Press* and both press releases for the workshops are attached as Appendix B.

A handout was distributed at both workshops that explained the meeting format and summarized the project. A copy of the handout is attached as Appendix C.

Members of the public were provided with comment forms at the workshop in order to have their opinion recorded as public record. A total of **203** comments were received on the project through the 14-day comment period after the March workshop. Of these, **107** comments were received as result of the February 26, 2007 workshop, and **86** comments were received as result of the March 8, 2007 workshop. The remaining **10** comments did not designate which workshop, if any, they attended. The comments were recorded and analyzed. There are three comment summaries as a part of this technical memorandum: Luckett Road extension comments, Sunshine Boulevard extension comments and general study comments. The number in parenthesis after each comment indicates the number of times that same comment was submitted. The summaries of written comments received and copies of the comment forms are attached as Appendix D.

Luckett Road & Sunshine Boulevard Corridor Extension Studies

Newsletter #1

December 2006

About the Studies

The Lee County Department of Transportation (LC DOT) is conducting two corridor studies in East Lee County. The Luckett Road extension study area is from Interstate 75 east to Joel Boulevard. The Sunshine Boulevard extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80 (SR 80).

Public involvement is a very important part of the Luckett Road & Sunshine Boulevard Extension Corridor Studies. Many opportunities for public input are available during the course of the project. This newsletter is the first in a series of five newsletters designed to keep you informed throughout these studies. Also planned for the public are small group and community meetings, workshops, and more. You can keep up-to-date on what is happening on the project by visiting the project web site at **www.LuckettSunshine.com**.

Purpose Of These Studies

The Lee County Metropolitan Planning Organization, or MPO, is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process for all of Lee County. It must plan for the movement of both people and goods within the county by all modes of travel-including utilization of highways, public transportation, bicycles, and pedestrian facilities. Federal law requires that the MPO endorse a transportation improvement program and set priorities identifying the projects to be done over the next few years.

The Luckett Road Extension was first included in the MPO's 2020 plan in the version amended June 20, 2003. Previous to that, it was shown on the Lee County Traffic Ways Map. The Sunshine Boulevard Extension was first addressed in the 2030 update which was adopted December 7, 2005.

The objective of the two studies is to develop transportation facilities that are economically efficient and environmentally sound. These studies will document the need for improvements, the procedures used in the evaluations, and the results of the environmental and engineering analyses. These analyses will be conducted to assist LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for a new east-west transportation facility from I-75 to Joel Boulevard and a new north-south transportation facility from Lee Boulevard to SR 80.

These studies are part of a planning and engineering process to determine social, economic and environmental impacts associated with a proposed transportation improvement project. This process requires the combined efforts of professional engineers, planners and scientists who collect and analyze project-related information to develop the best solution for a community's transportation needs. The process used in the development of the project is made up of several components. These include:

1. Data collection
2. Development of corridor alternatives
3. Analysis of viable corridor alternatives
4. Selection of recommended corridor alignments
5. Public and agency involvement

LEE COUNTY
SOUTHWEST FLORIDA

1. Data Collection

Data collection involves gathering the information that is needed to develop and evaluate the various improvement alternatives, including:

- Traffic counts
- Existing roadway conditions
- Identification of wetlands
- Threatened/Endangered species habitat
- Existing land use and property information
- Planned developments
- Existing drainage systems and drainage patterns
- Contamination sites

2. Development of Corridor Alternatives

Several improvement alternatives will be developed that will meet future travel demand and attempt to minimize impacts to the community and the natural environment. These alternatives will be developed with input from the public, local government and environmental agencies obtained throughout the study process.

3. Analysis of Viable Corridor Alternatives

The alternatives developed will be compared based on community and environmental impacts, costs for design and construction engineering and inspection, right-of-way acquisition, construction and environmental mitigation. Public comment and sentiment are also considered during this analysis.

Several evaluations are conducted and used in this analysis. These include:

Community Impacts - Evaluate the number of properties, residences, businesses, public facilities affected by an alignment

Wetlands - Find the best way to avoid or mitigate long-term and short-term impacts to wetlands

Water Quality - Implement measures to prevent, reduce or eliminate pollution of ground and surface waters

Wildlife and Habitat Impacts - Efforts are made to protect and ensure the continued existence of threatened and/or endangered species and their habitat

Contamination - Identify, evaluate and recommend actions concerning potential contamination problems within and/or adjacent to the project

Stormwater - Evaluate drainage patterns in the vicinity of the alternative and documents efforts to minimize impacts

Floodplains - Document efforts to minimize or avoid encroachment within the 100-year floodplain through drainage system design

Archeological and Historical Site - Documentation is required to identify and minimize impacts to historic and archaeologically significant sites

4. Selection of Recommended Corridor Alternatives

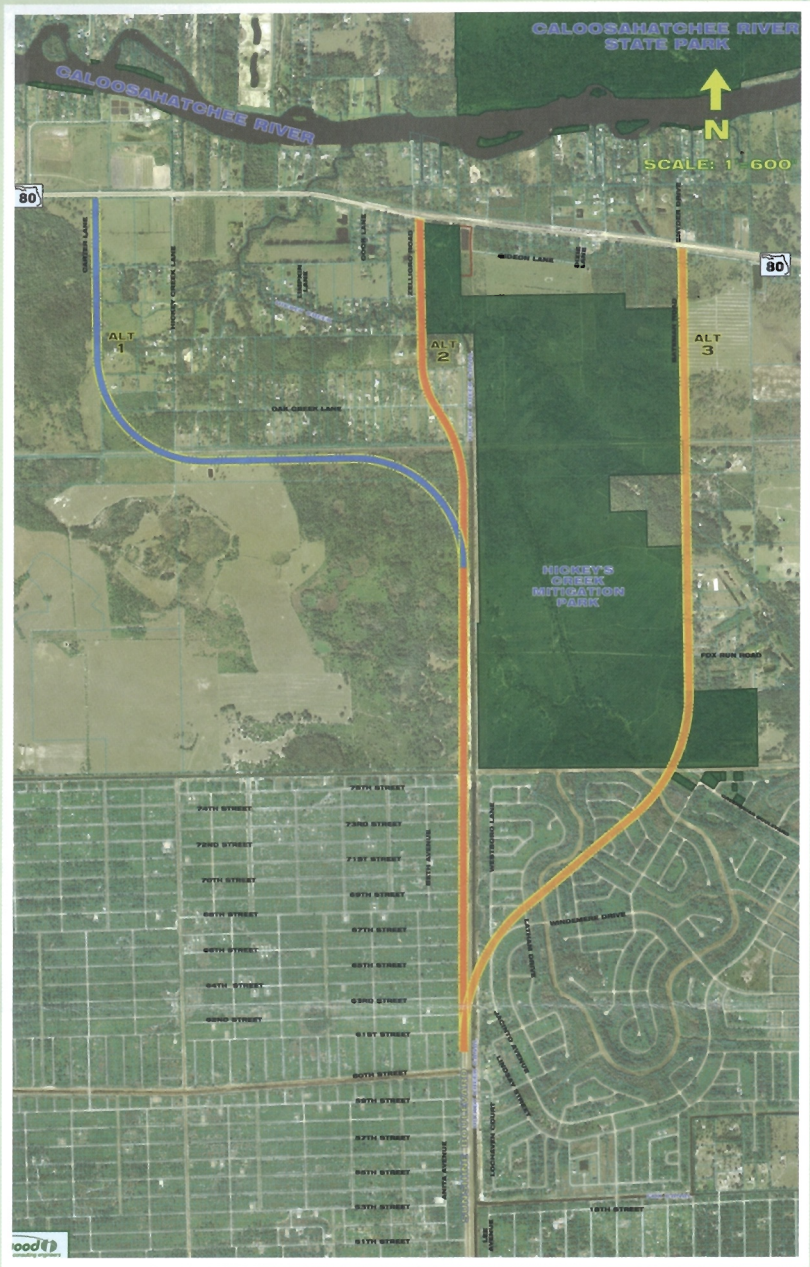

Once the analysis of all the viable alternatives are complete for each project and the public has had the opportunity to comment on these alternatives, a recommendation will be made to the Lee County Board of County Commissioners.

5. Public and Agency Involvement

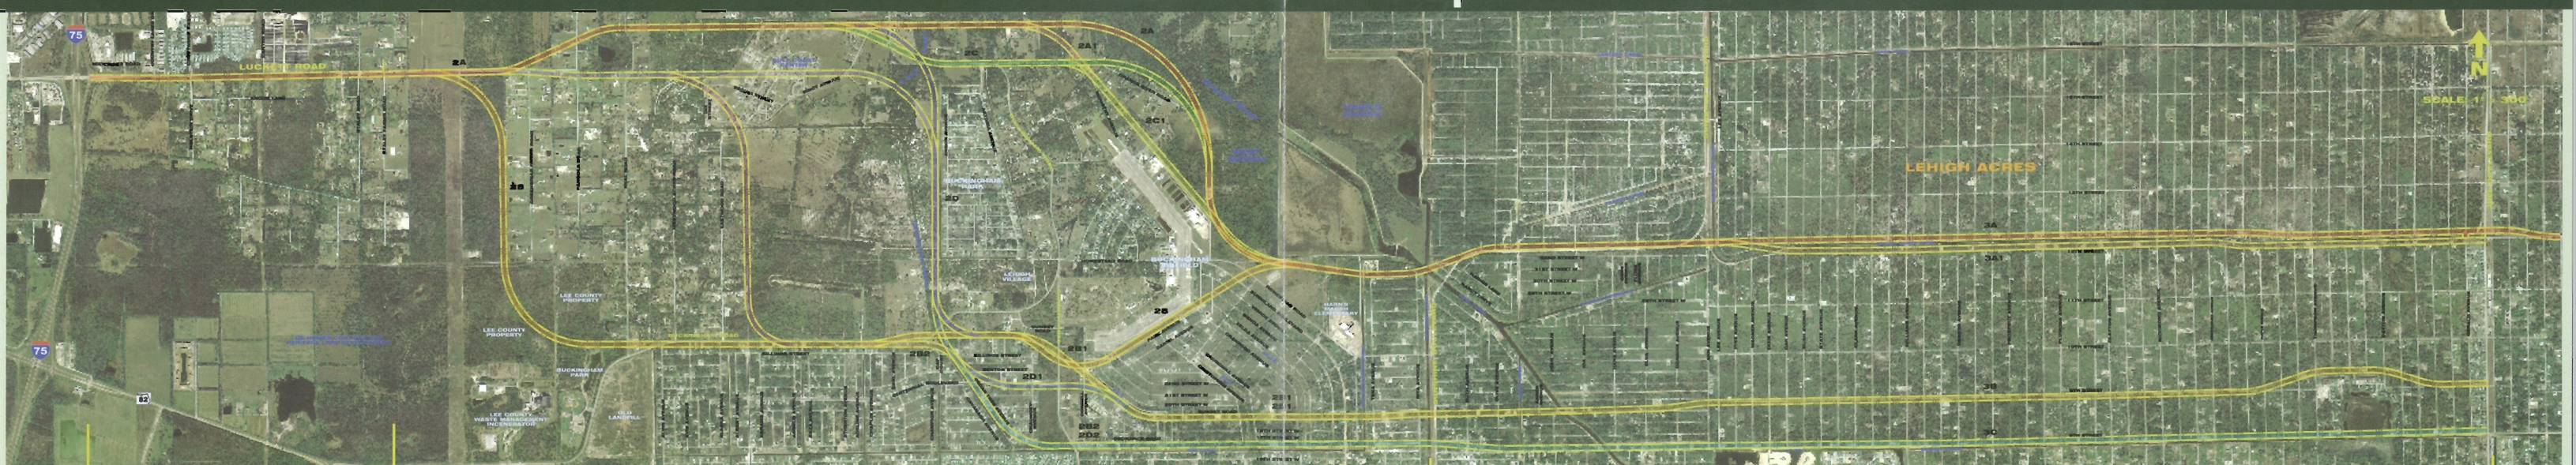

A complete Public Involvement Program will be conducted throughout the studies. This program is designed to create public awareness of the projects and to solicit comments and input from the public during the development and evaluation of the alternatives and the selection of the recommended alternatives for the extensions of Luckett Road and Sunshine Boulevard. The County has planned for three public information meetings on the project:

- **Early 2007**-Corridor Alternatives Public Information Workshop #1
- **Spring 2007**-Corridor Alternatives Public Information Workshop #2
- **Fall 2007**-Preferred Concept Public Information Workshop #3

Luckett Road & Sunshine Boulevard Corridor Extension Studies

February 2007

Two Public Workshops Announced!

The Lee County Department of Transportation (LC DOT) will conduct two public information workshops for the Luckett Road & Sunshine Boulevard Corridor Extension Studies.

INFORMATION FOR BOTH STUDIES WILL BE SHOWN AT EACH WORKSHOP, YOU MAY ATTEND EITHER WORKSHOP.

- The first will be from **4:30-6:30 p.m. on Monday, February 26, 2007** at **Veterans Park Recreation Center (Gymnasium),** 55 South Homestead Road, Lehigh Acres.

- The second will be from **4:30-6:30 p.m. on Thursday, March 8, 2007** at **Olga Grace Church**, 14036 Matanzas Drive, Fort Myers.

The Luckett Road extension study area is from Interstate 75 east to Joel Boulevard. The Sunshine Boulevard extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80.

The objective of the two studies is to develop transportation facilities that are economically efficient and environmentally sound. These studies will document the need for improvements, the procedures used in the evaluations, and the results of the environmental and engineering analyses. These analyses will be conducted to assist LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for the extension of Luckett Road from I-75 to Joel Boulevard and the extension of Sunshine Boulevard from 59th Street north to SR 80.

LC DOT is inviting the public to attend a public information workshop to view display boards with more detailed aerials of the potential alignments, typical sections, and learn more information about the project. Representatives from LC DOT will be available to discuss the project and answer questions. The meeting will be conducted in an "open house" format; no formal presentation will be given.You may attend anytime between 4:30 – 6:30 p.m.

LEE COUNTY
SOUTHWEST FLORIDA

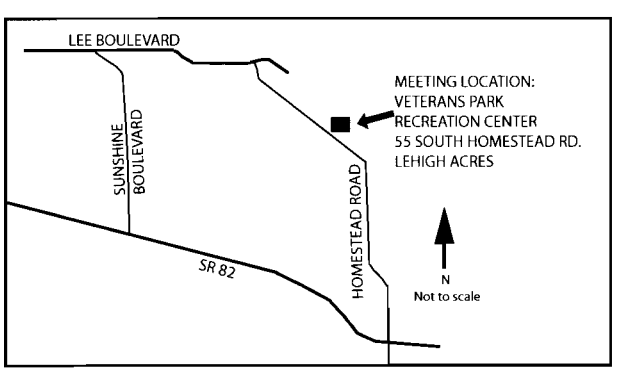

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella via e-mail to kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, contact Ms. Cella.

Luckett Road & Sunshine Boulevard Corridor Extension Studies

Newsletter #1

December 2006

About the Studies

The Lee County Department of Transportation (LC DOT) is conducting two Corridor Alignment Studies in East Lee County. The Luckett Road extension study area is from Interstate 75 east to Joel Boulevard. The Sunshine Boulevard extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80.

Public involvement is a very important part of the Luckett Road & Sunshine Boulevard Corridor Studies. Many opportunities for public input are available during the course of the project. This newsletter is the first in a series of five newsletters designed to keep you informed throughout these studies. Also planned for the public are small group, community and public meetings, and more. You can keep up-to-date on what is happening on the project by visiting the project website at **www.LuckettSunshine.com**.

Purpose Of These Studies

The Lee County Metropolitan Planning Organization, or MPO, is responsible for conducting a continuing, cooperative, and comprehensive transportation planning process for all of Lee County. It must plan for the movement of both people and goods within the county by all modes of travel-including utilization of highways, public transportation, bicycles, and pedestrian facilities. Federal law requires that the MPO endorse a transportation improvement program and set priorities identifying the projects to be done over the next few years.

The Luckett Road Extension was first included in the MPO's 2020 plan in the version amended June 20, 2003. Previous to that, it was shown on the Lee County Traffic Ways Map. The Sunshine Boulevard Extension was first addressed in the 2030 update which was adopted December 7, 2005.

The objective of the two studies is to develop transportation facilities that are economically efficient and environmentally sound. These studies will document the need for improvements, the procedures used in the evaluations, and the results of the environmental and engineering analyses. These analyses will be conducted to assist the LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for a new east-west transportation facility from I-75 to Joel Boulevard and a new north-south transportation facility from Lee Boulevard to SR 80.

These studies are part of a planning and engineering process to determine social, economic and environmental impacts associated with a proposed transportation improvement project. This process requires the combined efforts of professional engineers, planners and scientists who collect and analyze project-related information to develop the best solution for a community's transportation needs. The process used in the development of the project is made up of several components. These include:

1. Data collection
2. Development of corridor alternatives
3. Analysis of viable corridor alternatives
4. Selection of recommended corridor alignments
5. Public and agency involvement

LEE COUNTY
SOUTHWEST FLORIDA

1. Data Collection

Data collection involves gathering the information that is needed to develop and evaluate the various improvement alternatives, including:

- Traffic counts
- Existing roadway conditions
- Identification of wetlands
- Threatened/Endangered species habitat
- Existing land use and property information
- Planned developments
- Existing drainage systems and drainage patterns
- Contamination sites

2. Development of Corridor Alternatives

Several improvement alternatives will be developed that will meet future travel demand and attempt to minimize impacts to the community and the natural environment. These alternatives will be developed with input from the public, local government and environmental agencies obtained throughout the study process.

3. Analysis of Viable Corridor Alternatives

The alternatives developed will be compared based on community and environmental impacts, costs for design and construction engineering inspection, right-of-way acquisition, construction and environmental mitigation. Public comment and sentiment are also considered during this analysis.

Several evaluations are conducted and used in this analysis. These include:

Community impacts – Evaluate the number of properties, residences, businesses, public facilities affected by an alignment

Wetlands - Find the best way to avoid or mitigate long-term and short-term impacts to wetlands

Water Quality - Implement measures to prevent, reduce or eliminate pollution of ground and surface waters

Wildlife and Habitat Impacts - Efforts are made to protect and ensure the continued existence of threatened and/or endangered species and their habitat

Contamination - Identify, evaluate and recommend actions concerning potential contamination problems within and/or adjacent to the project

Stormwater – Evaluate drainage patterns in the vicinity of the alternative and documents efforts to minimize impacts

Floodplains - Document efforts to minimize or avoid encroachment within the 100-year floodplain through drainage system design

Archeological and Historical Sites - Documentation is required to identify and minimize impacts to historic and archaeologically significant sites

4. Selection of Recommended Corridor Alternatives

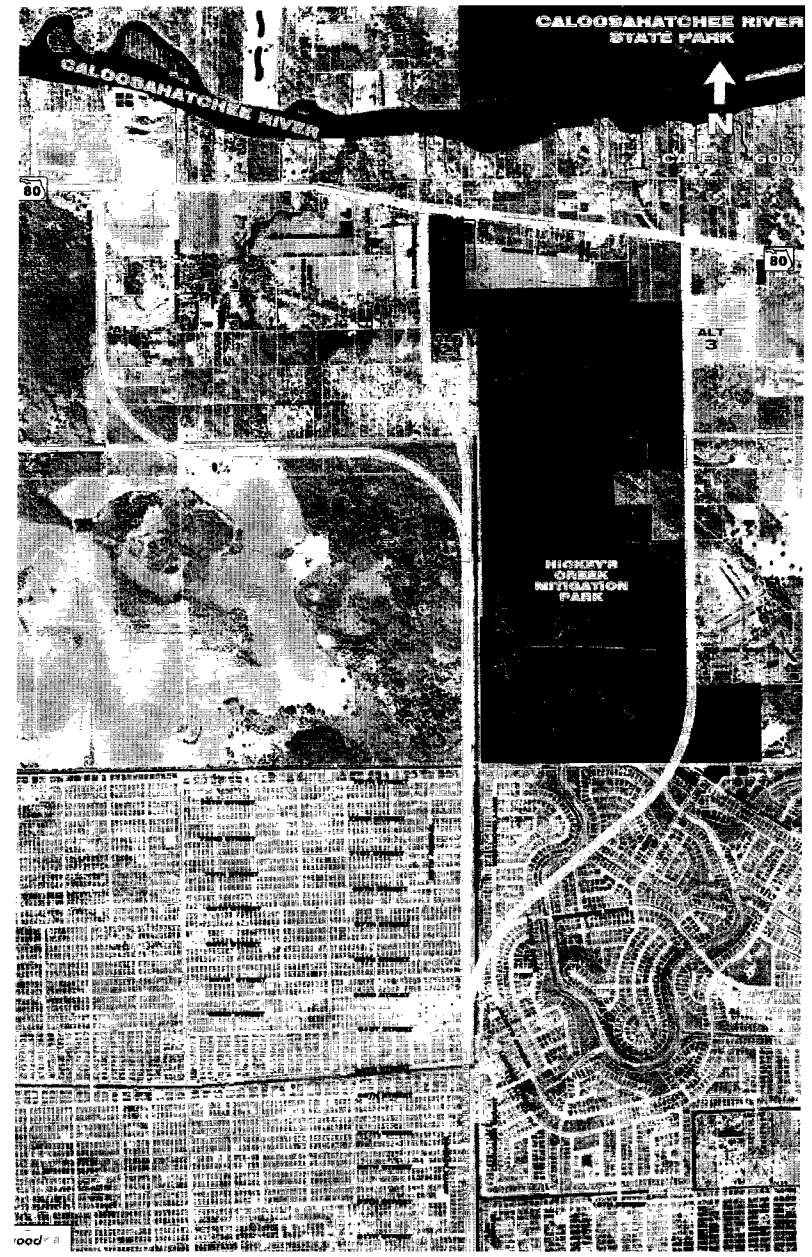

Once the analysis of all the viable alternatives are complete for each project and the public has had the opportunity to comment on these alternatives, a recommendation will be made to the Lee County Board of County Commissioners.

5. Public and Agency Involvement

A complete Public Involvement Program will be conducted throughout the study. This program is designed to create public awareness of the project and to solicit comments and input from the public during the development and evaluation of the alternatives and the selection of the recommended alternatives for the extensions of Luckett Road and Sunshine Boulevard. The County has planned for three public information meetings on the project:

- **Early 2007**- Corridor Alternatives Public Information Workshop #1
- **Spring 2007**-Corridor Alternatives Public Information Workshop #2
- **Fall 2007**-Preferred Concept Public Information Workshop #3

4:30-6:30 p.m.

DATE
Thursday, March 8, 2007

PLACE
Grace Church
14036 Matanzas Drive
Fort Myers

The Luckett Road extension study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard extension study area begins in Lehigh at 59th Street West and continues north to State Road 80.

These analyses will be conducted to assist LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for the extension of Luckett Road from I-75 to Joel Boulevard and the extension of Sunshine Boulevard from 59th Street north to SR 80.

LC DOT is inviting the public to attend a public information workshop to view a short looping video presentation, display boards with more detailed aerials of the potential alignments, typical sections, and learn more information about the project. Representatives from LC DOT will be available to discuss the project and answer questions. The meeting will be conducted in an "open house" format; no formal presentation will be given. You may attend anytime between 4:30 – 6:30 p.m.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella via e-mail to kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, contact Ms. Cella.

Two Public Information Workshops Scheduled For the Luckett Road & Sunshine Boulevard Corridor Extension Studies

Fort Myers, FL, February 22, 2007– The Lee County Department of Transportation (LC DOT) will conduct two public information workshops for the Luckett Road & Sunshine Boulevard Corridor Extension Studies.

INFORMATION FOR BOTH STUDIES WILL BE SHOWN AT EACH WORKSHOP; THE PUBLIC MAY ATTEND EITHER WORKSHOP.

• The first workshop will be held from **4:30-6:30 p.m.** on **Monday, February 26, 2007** at **Veterans Park Recreation Center (Gymnasium)**, 55 South Homestead Road, Lehigh Acres.

• The second workshop will be held from **4:30-6:30 p.m.** on **Thursday, March 8, 2007** at **Olga Grace Church**, 14036 Matanzas Drive, Fort Myers.

The Luckett Road Corridor Extension Study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard Corridor Extension Study area begins in Lehigh Acres at 59th Street and continues north to State Road 80 (SR 80).

These studies are being conducted to assist LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for the extension of Luckett Road from I-75 to Joel Boulevard and the extension of Sunshine Boulevard from 59th Street north to SR 80.

LC DOT is inviting the public to attend a public information workshop to view a short video presentation, display boards with more detailed aerials of the potential alignments, typical sections, and learn more information about the project. Representatives from LC DOT will be available to discuss the project and answer questions. **The workshops will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshops anytime between 4:30 – 6:30 p.m.**

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella with Cella Molnar & Associates at kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, please contact Ms. Cella.

Public Information Workshop Scheduled For the Luckett Road & Sunshine Boulevard Corridor Extension Studies

Fort Myers, FL, March 6, 2007– The Lee County Department of Transportation (LC DOT) will conduct a public information workshop for the Luckett Road & Sunshine Boulevard Corridor Extension Studies.

- The workshop will be held from **4:30-6:30 p.m.** on **Thursday, March 8, 2007** at **Olga Grace Church**, 14036 Matanzas Drive, Fort Myers.

The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime between 4:30 – 6:30 p.m.

The Luckett Road Corridor Extension Study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard Corridor Extension Study area begins in Lehigh Acres at 59th Street and continues north to State Road 80 (SR 80).

These studies are being conducted to assist LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for the extension of Luckett Road from I-75 to Joel Boulevard and the extension of Sunshine Boulevard from 59th Street north to SR 80.

LC DOT is inviting the public to attend the public information workshop to view a short video presentation to learn more information about the project. Display boards with more detailed aerials of the potential alignments and roadway typical sections will be on display. Representatives from LC DOT will be available to discuss the project and answer questions.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella with Cella Molnar & Associates at kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, please contact Ms. Cella.

LEE COUNTY
SOUTHWEST FLORIDA

LUCKETT ROAD & SUNSHINE BOULEVARD CORRIDOR EXTENSION STUDIES
PUBLIC INFORMATION WORKSHOP
February 26 and March 8, 2007

INTRODUCTION

The Lee County Department of Transportation (LC DOT) welcomes you to this public information workshop for the Luckett Road & Sunshine Boulevard Corridor Extension Studies. Representatives from LC DOT are present to discuss project information and answer your questions. **There will not be a formal presentation this evening.**

To get the most out of this workshop we recommend that you view the exhibits in the following order:

- Watch the looping video presentation that contains an overview and more information about the project.
- View aerial boards showing the initial alignment alternatives and those being recommended for further study.
- Fill out your comment forms and deposit in the comment boxes tonight or mail to the address provided on the back of the form within 14 days.

All comments become a part of the project record and will be compiled into a technical memorandum for the Luckett Road & Sunshine Boulevard Corridor Extension Studies Public Information Workshops. The technical memorandum will be available for viewing in approximately four to six weeks on Lee County's web site at www.lee-county.com/publicworks/workshop.htm.

PROJECT DESCRIPTION

The Luckett Road Extension Study Area is from Interstate 75 east to Joel Boulevard. The Sunshine Boulevard Extension Study Area begins in Lehigh Acres at 59th Street West and continues north to State Road 80.

The objective of the two studies is to develop transportation facilities that are economically efficient and environmentally sound. This process requires the combined efforts of professional engineers, planners and scientists who collect and analyze project-related information to develop the best solution for a community's transportation needs. Improvement alternatives will be developed that will meet future travel demand and attempt to minimize impacts to the community and the natural environment. Once the analysis of all the viable alternatives is complete for each project and the public has had the opportunity to comment on these alternatives, a recommendation will be made to the Lee County Board of County Commissioners.

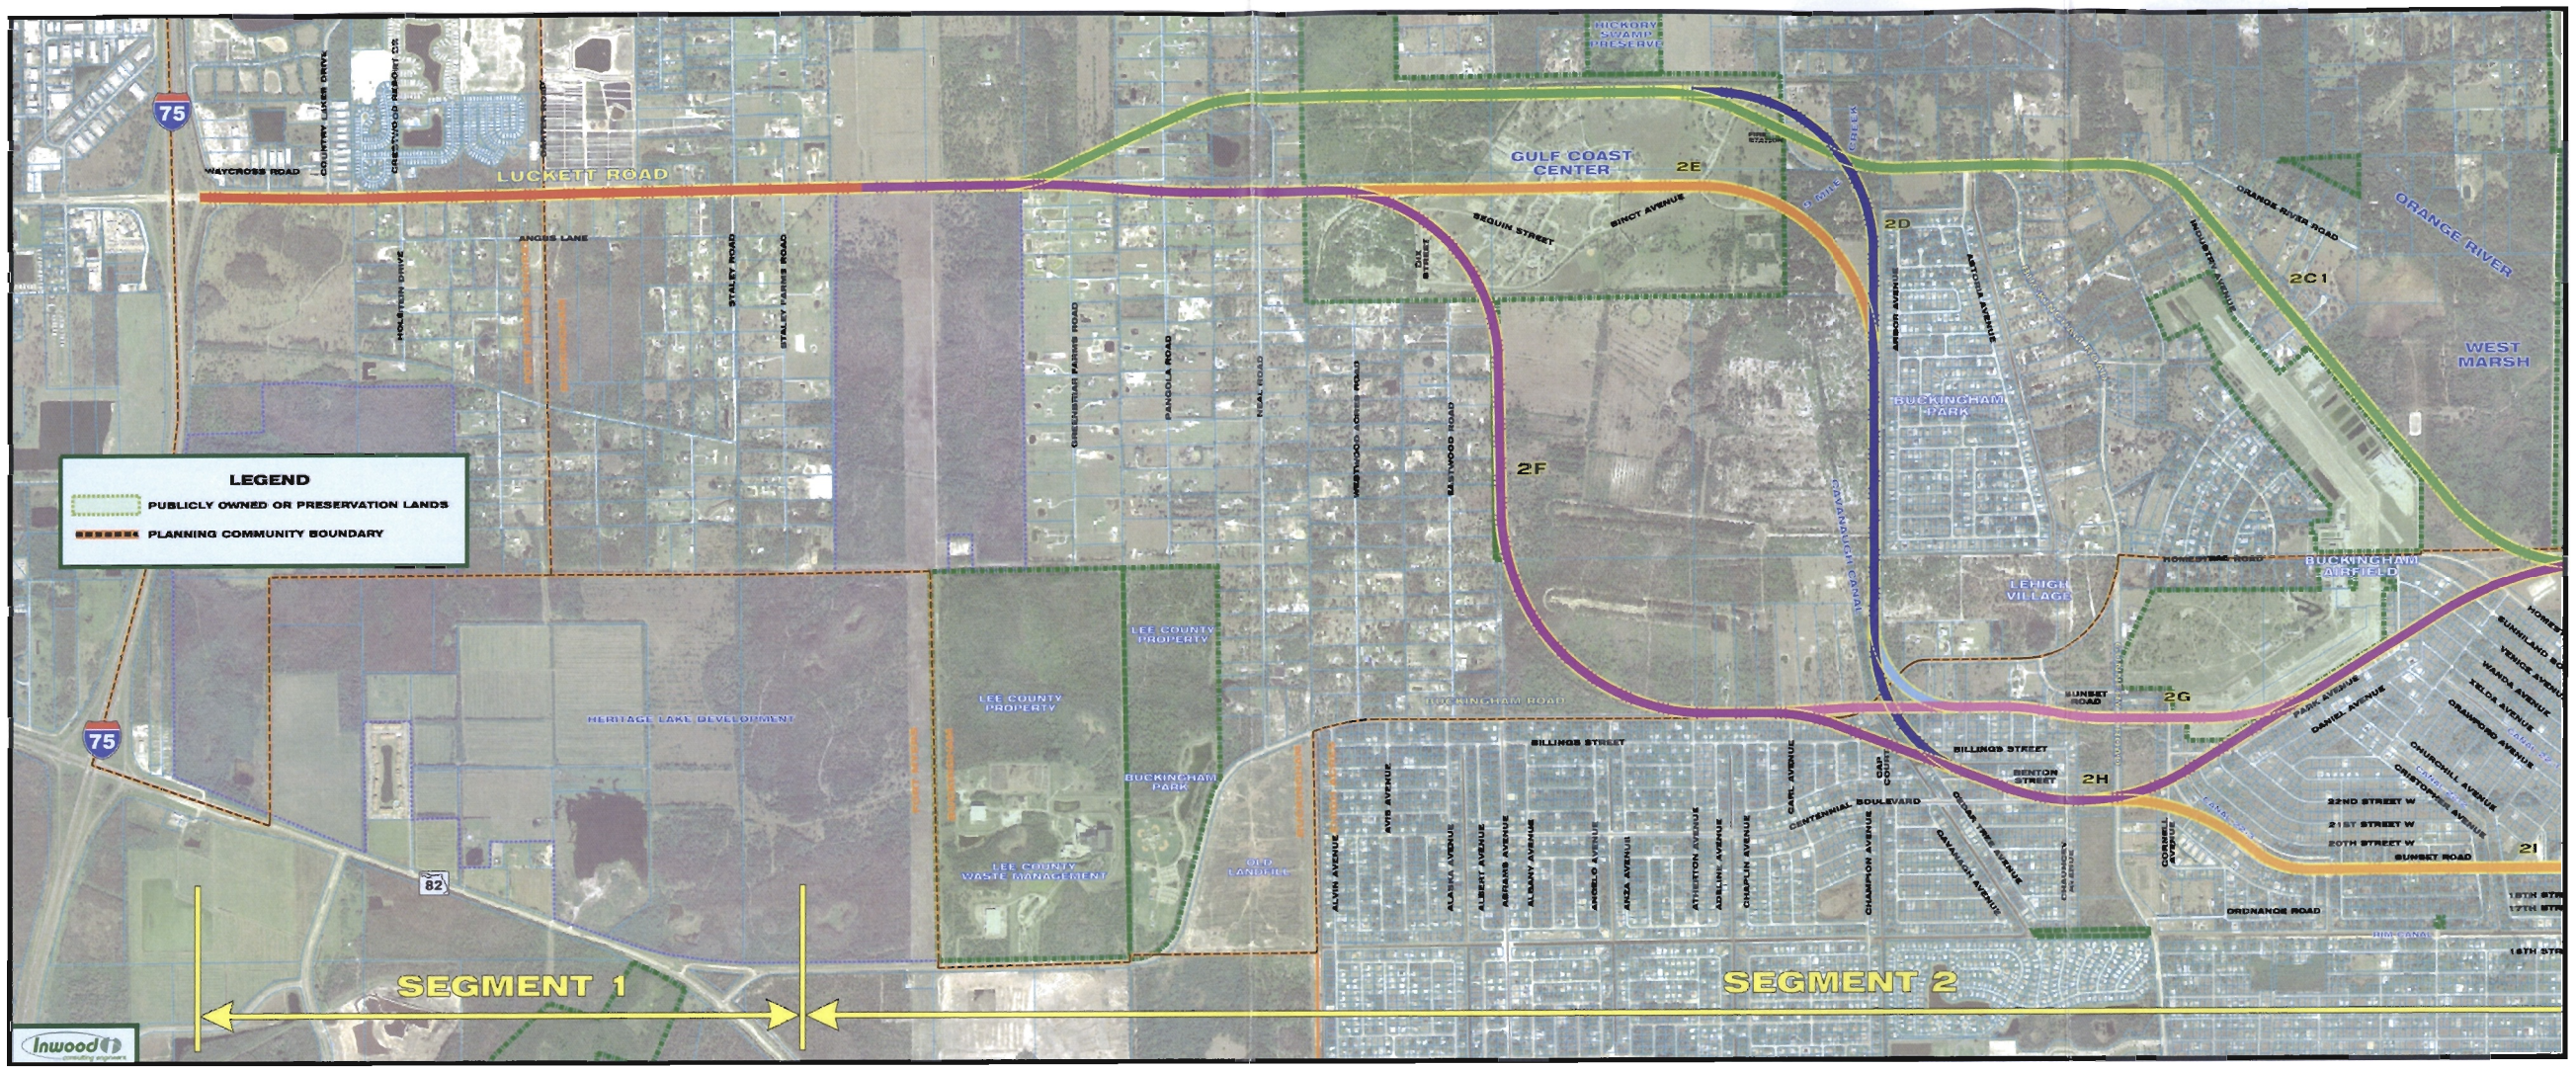

EVALUATION OF ALTERNATIVES

The preliminary alternatives are now being compared based on community and environmental impacts, costs for design and construction engineering inspection, right-of-way acquisition, construction and environmental mitigation. A number of alternatives shown in the first newsletter are not being recommended for further study based on initial evaluation of the screening criteria. The alignment alternatives the project team is recommending for further study are shown on the maps being handed out tonight. The evaluation of the alignment alternatives will continue and more alternatives will be eliminated as the study progresses. Public comment and sentiment will be considered during the screening process and will be accepted throughout the project, and at the two additional workshops that will be held later on in the year as the study progresses.

PROJECT CONTACT

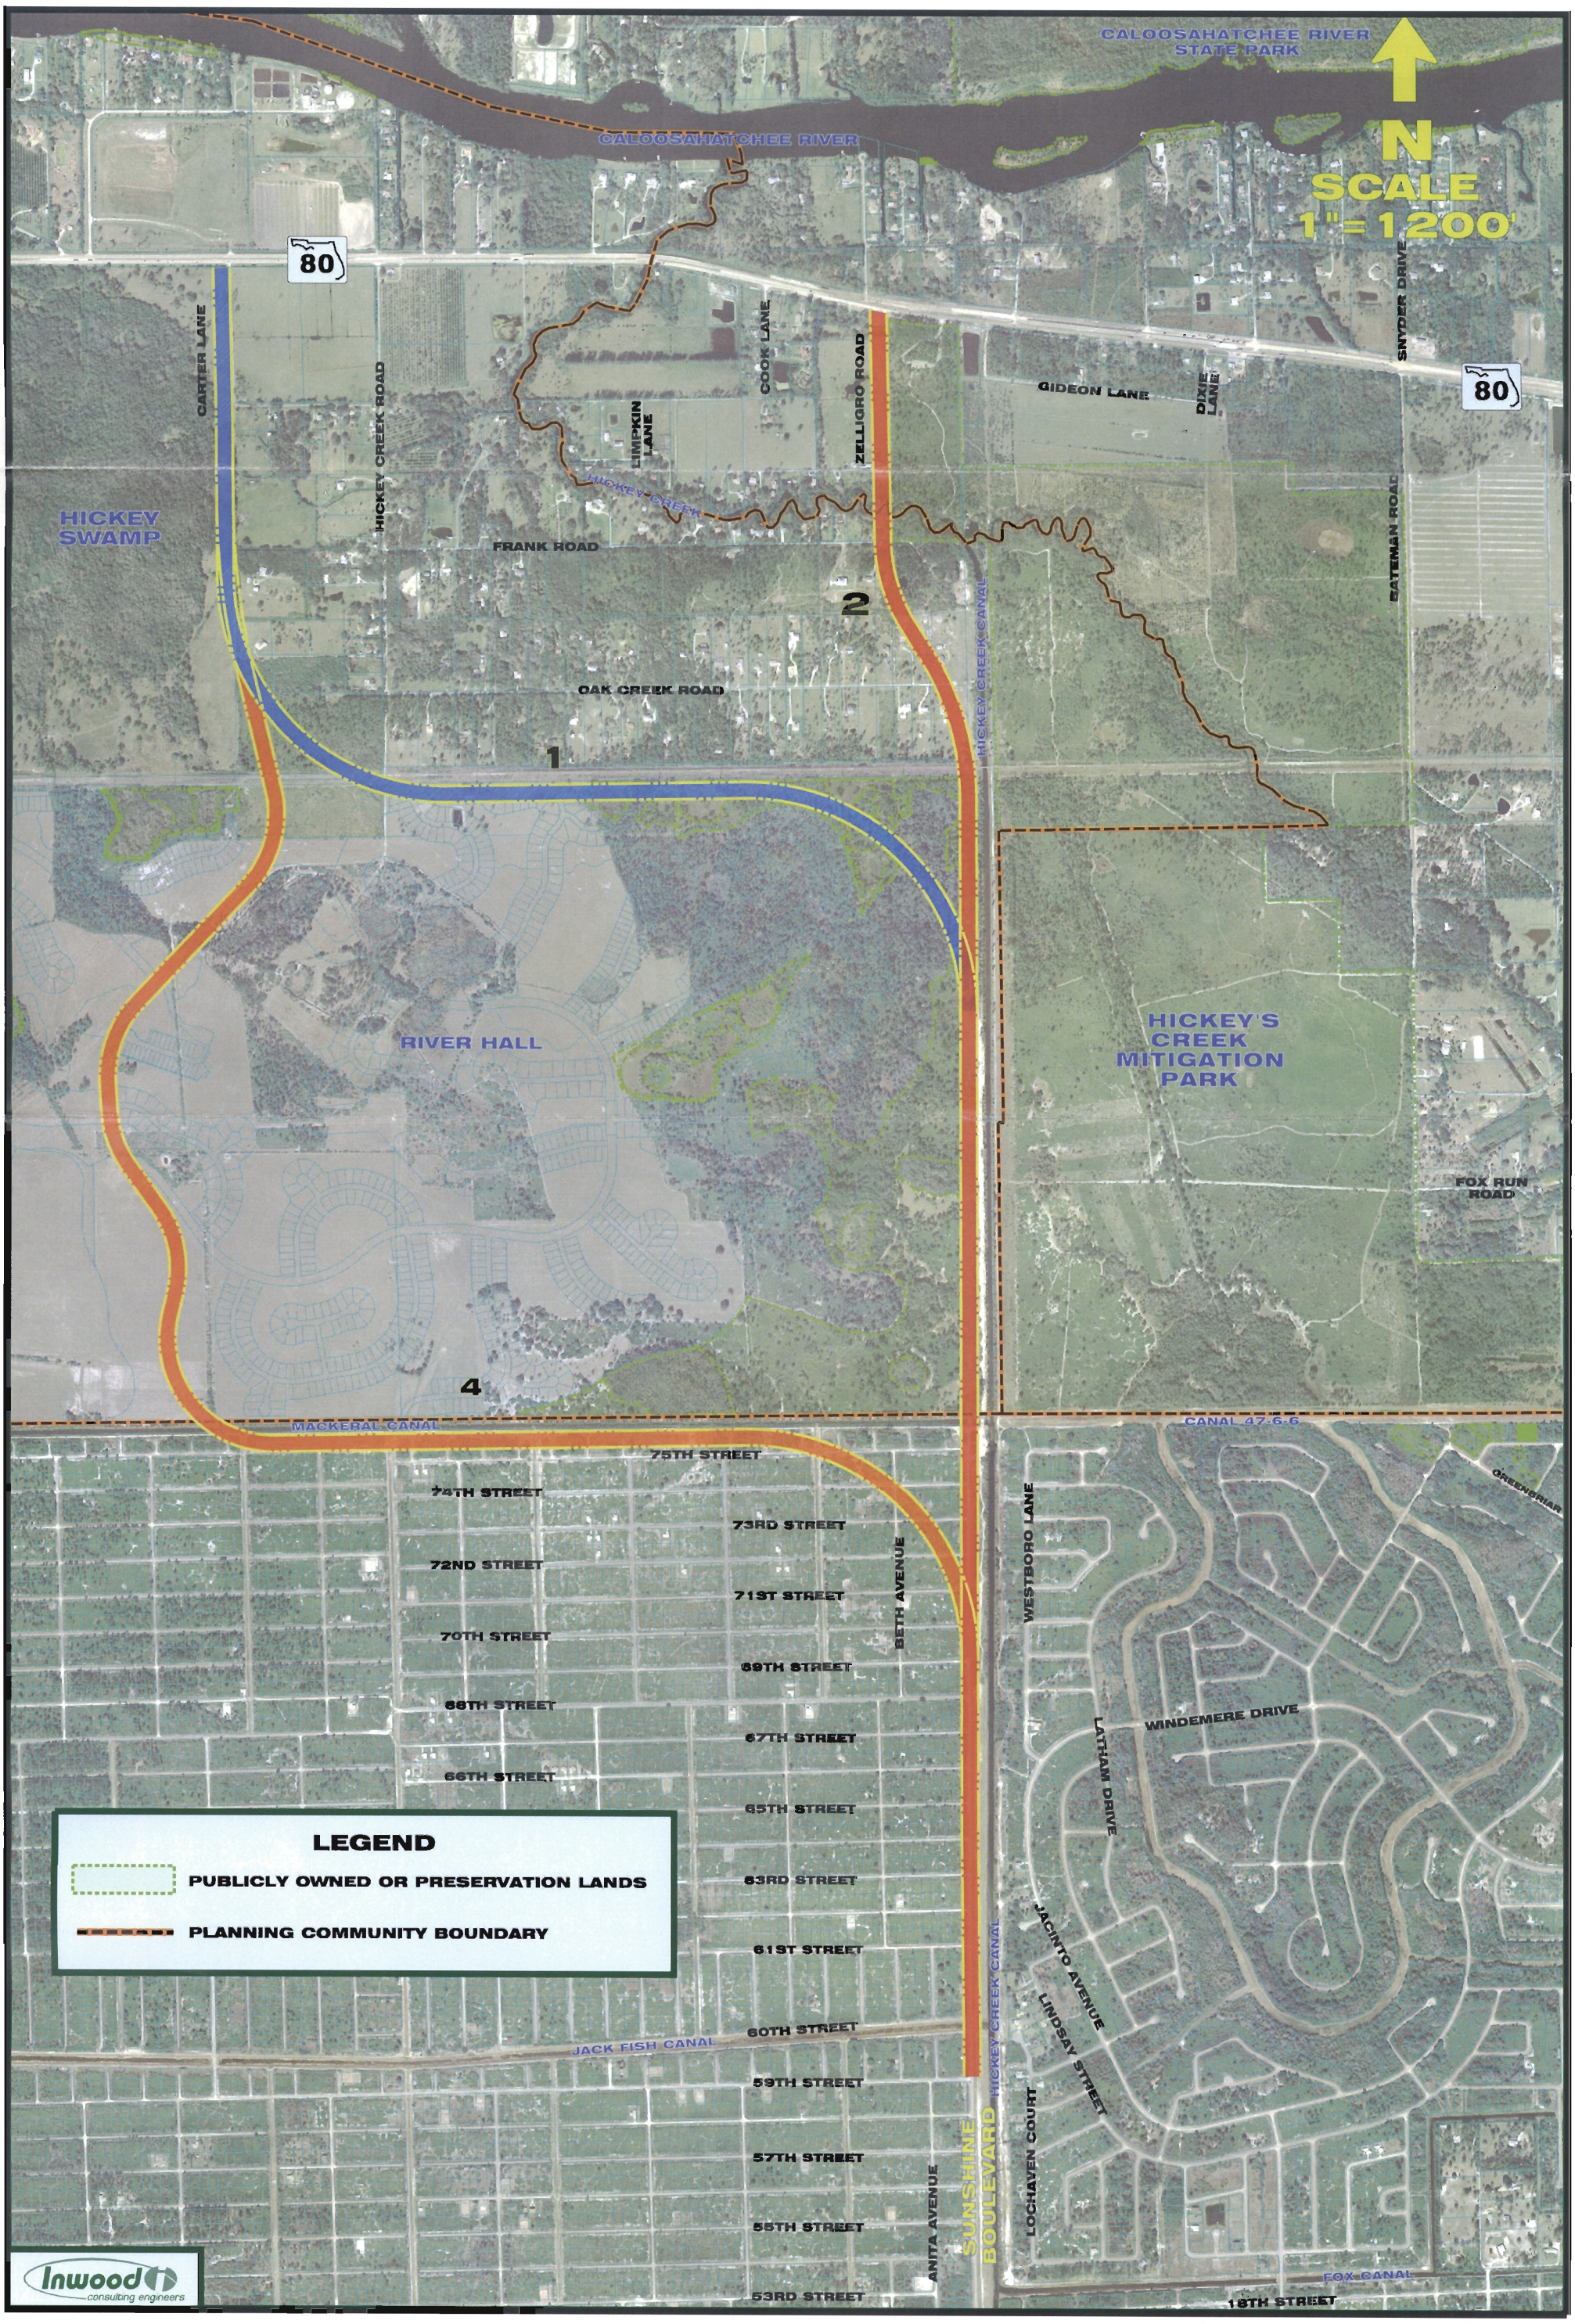

If you have questions or would like information about this project, please contact the project's public information consultant, Cella Molnar & Associates, Inc., at (239) 337-1071 or toll-free at 1-877-496-1076 or e-mail to kcella@cella.cc . Visit the web site at www.luckettsunshine.com .

LUCKETT ROAD CORRIDOR EXTENSION STUDY ALIGNMENTS RECOMMENDED FOR FURTHER STUDY

SUNSHINE BOULEVARD CORRIDOR EXTENSION STUDY
ALIGNMENTS RECOMMENDED FOR FURTHER STUDY

Appendix D

Luckett Road Corridor Extension
Comment Summary

In favor of the Luckett Road Extension

Comment: In favor of the Luckett Road extension. **(6)**

Comment: The Luckett Road Extension seems to be a good way to relieve traffic from the Lehigh Acres area. **(1)**

Comment: We need this project to come through as traffic is terrible and we need more ways to get in and out of Lehigh Acres. In emergency situations, in case of hurricane evacuation we will have a mess. **(1)**

Comment: The news road plans are a great idea, my only suggestion is to do it once and do it right. If Luckett Road needs to be six lanes, then make it six lanes and be done with it. **(1)**

Comment: Do it and do it soon. **(1)**

Comment: Phase one of the Luckett Road extension should be done even if none of the other phases are completed. Traffic could take Staley Road to Orange River and then Buckingham Road and this would ease a lot of the problem. Staley Road could also be widened to Orange River as a temporary easement. This project is badly needed and it should be accelerated. **(1)**

Response: Comments noted.

Favored Alignments for Luckett

Favor 2B

Comment: I favor alignment 2B. **(7)**

Comment: There is something fishy about taking 2B off the table unless developers are paying big. It affects the least amount of our favorite homes and wetlands and quiet drives after serving the city (I am a night nurse). **(1)**

Comment: Why was this eliminated? I suggest not eliminating it as a viable alternative and put it back on the drawing board. It does not interrupt residences at the beginning; it goes through land that has been bought by a developer and through property already owned by Lee County of which none is considered wetlands. **(1)**

Comment: This alignment to 2I seemed to have the least impact on Buckingham residents. **(1)**

Response: Alignment 2B does impact wetlands, however due to public input at the two workshops; this alignment will be examined in more detail to determine if it is a viable alternative.

Favor 2C1
Comment: I favor alignment 2C1. **(2)**

Comment: The best way to help traffic issues is to keep the main route farther away from Lee Boulevard and SR 82. This alignment would be in the center and spread the traffic flow out instead of more congestion. **(1)**

Response: Comments noted.

Favor 2D
Comment: I favor alignment 2D. **(1)**

Response: Comments noted.

Favor 2E
Comment: I favor alignment 2E. **(3)**

Comment: To keep traffic off Buckingham Road. **(1)**

Comment: 2E to 2G. **(2)**

Response: Comments noted.

Favor 2F
Comment: I favor alignment 2F. **(39)**

Comment: 2F should connect to 2G to keep the road straight and traffic flowing. **(3)**

Comment: Consider 2F to 2G to 2H to 3A through Lehigh Acres (it affects fewer people and harms the environment less than 2C1). **(1)**

Response: 2G negatively impacts the Mosquito Control airfield.

Comment: It would be the best plan to avoid chaos in the Buckingham community. I moved here for the rural atmosphere and want to see it preserved. **(1)**

Comment: It is mostly undeveloped lands so this would have the least amount of impact on existing residences in the area. Not to mention the main reason the

majority of people moved to this area, to be away from the hustle of everyday traffic and development. **(1)**

Comment: Since it would be the least intrusive to the Buckingham Area which was supposed to be set aside as a rural preserve area. **(10)**

Comment: Alternative 2C would work but is less desirable than 2F. **(1)**

Comment: If you must build please use 2F to 2H. **(1)**

Comment: 2F (to 3B). **(1)**

Comment: 2F (to 2I). **(3)**

Comment: Since it will benefit Lehigh they should bear the roadway. **(1)**

Comment: Three of the four proposed alignments will affect my property. I use this property to earn a living - plus it is a heritage for my kids. I would appreciate it if this alignment was selected. **(1)**

Comment: I live on Buckingham Road and would like to see the area near me stay rural. Three of the other routes run through property I or my family own. I don't want to see this property split. Property values would go down. We use this property to raise cattle and if it was split we would not have enough acreage left to continue this operation. This is how a living is made and a tradition carried on. **(1)**

Response: All Comments noted.

Favor 2 E or F
Comment: I favor 2E or 2F. **(4)**

Comment: Three of the four proposed routes run through my property. This will bring property values down for us. Not to mention the traffic issues to deal with when you try to merge Buckingham Road traffic with Luckett Road traffic. **(1)**

Comment: I believe the rural preserve plan states that any road of this magnitude would be out as far south as possible. **(1)**

Response: Comments noted.

Favor 3A or 3A1
Comment: I favor 3a or 3A1. **(6)**

Comment: 3A1 is the best one. I live only a few lots south of 12th Street but would still like to see the road go through 12th Street as it is the only street in the

area that is zoned for duplexes; they do not belong in the area. Secondly a road already exists. Option 3B is too costly with a lot of existing homes. **(1)**

Comment: The 12th Street north corridor would be better and much more feasible because of the fewer existing homes on properties along the north side of the canal, resulting in less money expenditure, additional acquisition of properties would only be required along one side instead of both (as in the 9th Street corridor). **(2)**

Comment: 3A and 3A1 end at an already existing terminus of a transit route. These alignments could create a logical point for transit transfers and or park and ride facilities. **(1)**

Comment: It is a more direct route. **(1)**

Response: Comments noted.

Favor 3B
Comment: I favor alignment 3B. **(7)**

Comment: We vote for the 9th street proposal (if you can't find any other solution). **(1)**

Response: Comments noted.

Against Certain Alignments/ the Luckett Road Project

Against alignment 2A/2A1
Comment: I am against 2A, 2A1. **(1)**

Response: Comments noted.

Against alignment 2C1
Comment: I am against alignment 2C1. **(12)**

Comment: I moved to Buckingham to get away from traffic and its noise. If alternative 2 C1 goes though, it will be less than 100 yards away. **(1)**

Comment: I would be concerned about flooding in the Orange River Area with this alignment. **(1)**

Comment: Alignment 2C1 is going to affect water flow in the Orange River and surrounding home sites. Mile Creek is a major contributor to the Orange River during wet times and blocks up water into neighboring homes on Orange River Road. Don't consider 2C1, it will be environmentally harmful. **(1)**

Comment: Having moved to Buckingham to get away from busy roads, the thought of having one right on my side yard (within 200') is unthinkable. The area of the north green route (2C1) passes through some very natural pine forest which was a major attraction to our purchase of our 7 acres. Please do not choose the north route. **(1)**

Comment: I have completed construction of an aircraft hangar and I am building a house. The property is located on the northeast side of Buckingham Airport and is part of the platted Buckingham East Airport Community. This unique community would be bisected by the 2C1 proposal. I cannot imagine construction of an overpass to let aircraft cross for the community access to the airport. Due to the very limited opportunities to live in an airport community (2 in Lee County) it would be near impossible for me and the other people of the community to replace our unique residences. Please withdraw this alignment. **(1)**

Comment: I hope you are not planning the green route (2C1) that would cut through every ones backyards and front yards or whole houses. The area is so unique. **(1)**

Comment: Alignment 2C1 bisects the Buckingham Air Park east community and prevents homes and hangars from having access to the air park; I would not be able to get my airplane to the runway without crossing the 2C1 extension. I have approximately 2 million dollars tied up in my house. There is a severe shortage of hangar space. I would have to leave Lee County to find something comparable. It also infringes on Harns Marsh. It is well known that roads encroaching on marsh and other preservation areas change the water flow and encourages invasion of exotics. Why negatively impact this area when other routes are available. **(1)**

Comment: It splits the Buckingham Preserve/ruins the rural community. **(2)**

Comment: It would cause great environmental damage. **(1)**

Response: Due to environmental and community impacts alignment 2C1 has been eliminated as a viable alternative.

<u>Against alignment 2E</u>
Comment: I am against alignment 2E. **(11)**

Comment: Would have flooding. **(1)**

Comment: It splits the rural preserve/ruins the rural community. **(3)**

Comment: It is totally unacceptable. It comes too close to existing houses. **(1)**

Comment: Any roadway close to 2E would be a terrible impact to our community. **(1)**

Comment: It destroys my property which is a home and business. Not many properties give us the room and access. We may need two locations if we are forced to relocate in the future. **(1)**

Response: Comments noted.

Against alignment 2D
Comment: I am against alignment 2D. **(5)**

Comment: This alignment would have flooding. **(1)**

Comment: It splits the rural preserve/ruins the rural community. **(2)**

Comment: It also violates the trust the people of Buckingham have in the Lee County government to honor their commitment to the community when they approved the designation. **(1)**

Comment: It comes too close to existing houses. **(1)**

Response: Comments noted.

Against alignment 2F
Comment: I am against alignment 2F. **(6)**

Comment: We plan to build a house and request that alignment 2F not be pushed. **(1)**

Comment: We are disappointed with the plans to bring Luckett Road through Pangola Road. This is a rural community. When we purchased our home we did it with the intention of having a quiet peaceful life with our children. I am very saddened that this could be taken from us tomorrow. I feel there should be other options that do not impact a community the way this road will impact ours. Wildlife will be affected by this road also. **(1)**

Comment: This is a residential area with 45 mph limits. There have been many accidents. To encourage more traffic going even faster seems irresponsible when there are other options. If this was chosen we were told either the homes on the Lehigh Acres side would be destroyed or Buckingham Road would be used as their access road to the highway and the highway itself would sit on our property. This is not acceptable to us. It is unbelievable that the county can

come along and destroy the life investments of families when there are other options that don't destroy lives (e.g. 2E, 2D). We would have been better off if the county had purchased our property prior to beginning this study. **(1)**

Comment: It destroys my property which is a home and business. Not many properties give us the room and access. We may need two locations if we are forced to relocate in the future. **(1)**

Comment: It will destroy the last vestiges of the rural lifestyle in Lee County. **(1)**

Response: Comments noted.

Against 2G
Comment: I am against alignment 2G. **(3)**

Comment: 2G will impact the Buckingham Airport and historical site. **(1)**

Comment: 2G would cause great environmental damage. Alignment 2G has bald eagles and osprey nets too close to the marshes. **(1)**

Response: 2G has been eliminated as a viable alternative due to the impacts to the airstrip.

Against 3A and 3A1
Comment: I am against alternatives 3A and 3A1. **(4)**

Comment: If you use 3A or 3A1 you cross the Abel Canal which has wildlife, eagles and the best home sites on the only lake canal in Lehigh. **(1)**

Comment: Alignments 3A and 3A1 will both affect my residence. 3A will be in my back yard, 3A1 will take my residence, I hope the decision can be expedited so we don't have to worry and wonder about relocating or not. **(1)**

Comment: Both alignments have osprey nests and marshes close by. **(1)**

Comment: Don't build near the Abel Canal (3A or 3A1); it is the only real canal in Lehigh Acres. We have eagles that fly around. I can't believe you would risk the environment for a road. **(2)**

Response: Comments noted.

Against 3B
Comment: I am against alternative 3B. **(3)**

Comment: The extension is too close to the estuary "preserve" area. We live in that vicinity and we see a lot of bald eagles, owls and other wildlife in the estuary area and our back yard. We believe this alignment would be detrimental to the wildlife. **(1)**

Comment: We believe that there is a severe negative wildlife and environmental impact should the E 9th Street corridor be selected. Also it would make a severe impact on our storm drainage. The pond on our properties is directly connected to the wetland by drainage pipes. The increased drainage would also contaminate the wetlands; this would also have a very disruptive impact on our way of life in the form of air and noise pollution. **(1)**

Comment: We love our home and do not want to lose it. We don't feel we could ever replace our home due to the rise in construction costs. We are certain property values have begin to decline due to the announcement of this plan. We would not receive fair market value. We are upset this plan was not disclosed to us at the time of purchase. We hope a different location will be chosen. **(1)**

Response: 3B has been eliminated as a viable alternative due to the inability to minimize driveways/cross roads.

No-Build Option

In favor of the no-build option
Comment: I support the no-build option. **(21)**

Due to human and Environmental impacts
Comment: It will cut through some of the most rural areas in Lee County and disturb wildlife and humans who live in these areas because it is rural. **(1)**

Comment: I am 100% opposed to this project. It appears this would go directly through my house. Also the environmental impacts on the area surrounding 9th street would be detrimental to our rare birds and wildlife which includes a documented bald eagle and owls. **(1)**

Comment: We would seriously reject the Luckett Road project: Increases in truck and vehicle traffic would impact local residents with serious safety issues, with more traffic entering and exiting Luckett Road. It would environmentally impact the north side of Luckett Road by Cypress Woods RV Resort as it is a wetland. It includes a resident bald eagle. The crime rate is growing in our area now; increasing traffic flow is like fighting fire with gasoline. You have no resources now for fire and police, how would you fix it with triple traffic increases. The people that are residents and voters from Cypress Woods come to FL bringing millions in revenue to Fort Myers. The reason they come is that Cypress

Woods is low traffic and quiet area. This project would cripple growth and revenue. **(1)**

Comment: We are not in favor of the project at all. When we purchased our property we were told that the land to the far right was protected wetlands and never could be built on. That was a good factor for us buying here. Quiet, with no traffic or road noise. What about tractor trailer noise? Also the traffic coming from the gas station? Exhaust fumes, jack braking? **(1)**

Due to environmental impacts

Comment: These routes will destroy fragile Orange River, its uplands creeks and swamps and will cause irrevocable harm to native endangered wildlife and plants. **(1)**

Comment: Please do not extend the road through the wetlands next to Cypress Wood RV resort, there are way too many natural areas being taken away. **(1)**

Comment: Do not destroy native habitat and endangered species. This is what sets Lee County apart from the rest. A better alternative would be none. Can we have a quiet section of countryside with a few trees left? Beautiful birds need homes. **(1)**

Comment: I am a native of this county as is my entire family. I have seen many changes. I moved to Buckingham because it is a preserve. To me, that means to protect or spare a place from progress. By the time the 4 or 6 lane road gets built it will be time to build another. Somewhere along the line, you have to think of all the families you are disrupting, between high taxes, high insurance and now highways. You are chasing away families who have supported this county to move to other states. Soon this county will have NO NATURAL BEAUTY LEFT. Please try and find another solution. **(1)**

Due to community/human impacts

Comment: Please do not use this plan. It is peaceful and quiet we worked all of our lives to have something like this. We say NO NO NO! **(1)**

Comment: Which braniac decided to redraw the street system, you have drawn it right over my four lots. Who cares? Apparently NOT YOU. **(1)**

Comment: I have lived in my home for 33 years; I would like to see a no build. **(1)**

Comment: I don't agree with either of the plans - keep our areas rural. There has already been enough change in the area. **(1)**

Comment: Don't disturb a quiet neighborhood. This is supposed to be a preserve not a thoroughfare, the roads already in place can be adjusted to meet

the need. We are currently constructing a home where we hope to raise our children. We respectfully urge you to cancel this project especially route 2C1. **(1)**

Comment: A new through route is completely unnecessary. The Buckingham area should be avoided altogether. It's one of the last preserves in Lee County and should be kept that way. We particular dislike 2C and 2C1 because they cut right through existing homes and an air park making half of the property useless. Most importantly we do not want traffic, commerce and everything cutting through the middle of our rural preserve area. We object to destroying an older established neighborhood so Lehigh residents can get home quicker. Just don't build it! **(1)**

Comment: No build!! The road starts or stops at I-75, and SR 82 is already loaded with traffic. It cuts through homes that have been occupied for some years and replacement will be impossible because of taxes. Water run-off during the rainy season is one problem. Electric service and water usage to homes is another. Alternatives 2C1, 2D, 2E and 2F eliminate the Gulf Coast Center, the fire house, Buckingham Road and Orange River Road. It causes more trouble than it eases. **(1)**

Generally against the project

Comment: Do not build Luckett Road east of Sunshine Boulevard. We have 4th St, 6th St, 9th St, 10th St, 12th St and 14th St to provide ample east-west flow forever. Let those roads connect to Sunshine Boulevard. It is obvious that the County Commission again have dumped upon the residents of Lehigh Acres, thanks Mr. Mann. DO NOT BUILD LUCKETT - use the money elsewhere. **(1)**

Comment: It is much preferable not to extend the road at all. **(1)**

Comment: We have owned our parcel since 1982. I am a professional planner for the State of New Jersey. During this time I have dreamed of building my home and moving to Lee County. I have been in communication with the planning department and have had conversations about future land use and transportation in the area. At no time was it told to me that a transportation project was scheduled for this area, or I would not be building. I was told I had little concern. After researching the proposed alignments I was angry that the project manager had no idea what effect the alignments had on me. It showed me how unprepared everyone was. It appears no one even walked the alignments to investigate the impacts on existing housing and environments. I believe this to be a good example of poor planning at its best. **(1)**

Response: The "no build" alternative is still a part of this study and will be evaluated along with the other alignments.

Buckingham Community

Comment: Buckingham is a rural community preserve - we would like to see it kept that way. **(7)**

Comment: I don't understand how a mammoth project that will rip apart any part of the rural preserve can be considered. **(1)**

Comment: I thought that the Buckingham rural designation prevented things such as 4-lane highways running through. **(1)**

Response: Buckingham is designated as rural preserve. However when the plan was adopted it included language that acknowledged that Luckett Road could one day be extended. The language requested that it was kept as far to the south as possible. This study is following this request.

Noise Walls

Comment: 12-foot concrete sound barrier along Cypress Woods RV resort on Luckett Road. **(74)**

Comment: Build a concrete barrier along by Cypress Woods RV resort and put in a good gate and a guard. **(1)**

Comment: We are very concerned about traffic noise and safety, should this be built the increase in noise and speed of vehicles will be great. **(2)**

Comment: I believe a knoll and a 16ft barrier at Cypress Woods RV resort will help to alleviate the future noise and pollution problems. **(1)**

Comment: Make sure Cape Coral style berms are built and treed. **(1)**

Comment: If the 9th St. alternative was selected we would like a 10-12 ft high noise barrier. **(1)**

Comment: Regarding corridors 3A and 3A1 I recommend adding a berm between the road and the canal so people on the other side can retain some seclusion. The cost should be factored into the project. **(1)**

Comment: A barrier should also be erected south of the wetland woods (near Cypress Woods). **(1)**

Comment: We feel it will devalue our property if only a berm is installed. **(1)**

Response: The Board of County Commissioners is considering preliminary guidelines for buffering new roadway alignments. They will review the need for buffers on a case by case basis. The types of buffering being considered are screen walls, landscaping, beams or in some combination;

intended to provide a 6' sight buffer only. The guidelines do not address noise abatement. Once the preferred alignment is selected segments meeting the preliminary guidelines for buffering will be identified.

Cypress Woods RV Resort

Cypress Woods RV Resort General Comments

Comment: Landscaping should be considered to screen the resort from the highway. **(1)**

Comment: Restrict the firing of guns; once the new road is completed the use of fire arms could be a safety hazard. **(1)**

Comment: This will take away from the natural character of our neighborhood and cause more traffic. **(1)**

Comment: Keep the rural flavor of the neighborhood. **(1)**

Comment: We are very upset to hear that there might be a main connector road coming right along our resort. We feel that this will greatly lower our values of our property and resort and hurt the resale. **(1)**

Response: Comments noted.

Cypress Wood RV Resort Environmental Comments

Comment: Protected wetlands on property would have to be destroyed. Wildlife will suffer. **(1)**

Comment: Wetlands and endangered species cost Cypress Woods 100,000 for an environmental impact study. **(1)**

Comment: Do not disturb natural preserve on south side of the resort. **(1)**

Response: LC DOT staff is evaluating the proposed impacts to both the community and natural environment.

Access into Cypress Woods RV Resort

Comment: We need access/turn lanes and or traffic lights or stop signs to get in and out of Cypress Woods RV resort. **(20)**

Comment: Our ingress/egress will become very dangerous. **(1)**

Comment: Remember RV's can't do U-turns and need a larger turn radius than 90 degrees. **(2)**

Comment: What if 5 or 6 RVs are trying to turn in? Is there an overflow proposed? **(1)**

Comment: Talk the developer into changing our main entrance onto Tice Street. **(1)**

Comment: Please make the road a 30 mph speed limit near us. **(1)**

Comment: There should be no crossing of traffic directly in front of the entrance. **(1)**

Comment: The current Luckett Road that goes past the Cypress Woods RV Resort can be used as a frontage road and the main Luckett Road would run parallel to it. This is an option to consider. **(1)**

Comment: A bicycle path should be considered along the highway to provide access to Ortiz Avenue. **(3)**

Response: Turn lanes, signals, speed limits, etc. will be addressed in the design phase if the project is approved.

Questions

Comment: If the current alternatives stay and one is approved what happens to our water supply? We have a spring-fed pond along with cows. If one of the current alternate routes is approved what happens to all of the grease, oil, road grunge and such coming off the pavement once it is soaked into the ground? How will that affect our pond? What happens to our water supply in the wells? What about drainage? How will the routes affect us during rainy season? Water does not drain well now- there is always standing water both on the property and the road. **(1)**

Comment: What will the truck spill and noise pollution do to the Abel canal and our area and wildlife? **(1)**

Response: LC DOT staff is evaluating the proposed impacts to both the community and natural environment.

Comment: Who goes to the Luckett area anyway? **(1)**

Comment: If Colonial Boulevard is widened to Lehigh do we need Luckett Road widened? **(1)**

Comment: Who or how many will use the road? **(1)**

Response: Traffic anaylsis is being performed as part of the study.

Comment: Is there a possibility of part of the Luckett Project going forward sooner rather than later, such as connecting Neal Road though to Luckett Road? This would appear to be a reliever for some of the Buckingham Road traffic as well as Lee Boulevard. **(1)**

Comment: Comment noted.

Suggestions

Comment: Any plan going through the Gulf Coast Center should be studied for the Gopher Tortoise effects. There are many in this area. **(1)**

Response: LC DOT staff is evaluating the proposed impacts to both the community and natural environment.

Comment: Expand widen repair/ use existing roads (e.g. SR 80, SR 82 Lee Blvd., Joel Blvd etc.) **(15)**

Comment: Luckett should be at maximum a two-lane highway. **(1)**

Comment: Build a large access ramp that will accommodate 45' long RV's to gain entrance and exit to and from Luckett Road down to I-75. **(1)**

Comment: Existing Luckett Road will have to be widened to 4-lanes to accommodate increased traffic. **(1)**

Comment: As the extension comes to the intersection of Cypress Woods RV resort the natural flow of the road southeast should follow the existing flow of the road. **(1)**

Comment: Take Luckett Road north of Hickory Swamp area and Harns Marsh and go straight to Joel Blvd. through very sparsely populated areas. **(1)**
Comment: Place the new road straight across the open country in the Buckingham area ending in the vicinity of Greenbriar and Joel Blvd. This will prevent two of the main roads to Lehigh being place side by side and will also prevent established homeowners from losing their property. The less homes involved the less tax money will need to be spent. **(1)**

Comment: Take the money (EST $150 million) that this project would cost and buy up land east of Lehigh Acres, not for housing but for commercial development such as Costco, Sams, Wal-Mart. By doing this you are shifting away traffic from Ft. Myers and the west coast and creating thousands of jobs and business opportunities. "Provide and they will come". Your traffic problem will be alleviated. **(1)**

Comment: The Lee County Transit Division suggests that both the Luckett Road and Sunshine Boulevard corridors are designed to be multi-modal corridors. Both corridors have significant potential for future transit service.

Transit factors to keep in mind are design speed, lane width and right-of-way preservation for the inclusion of transit amenities along the roadway. **(1)**

Comment: Suggest you look at the cow pasture on south side of existing Luckett Road instead of displacing taxable property. **(1)**

Comment: It would be better to expand Orange River Blvd., and place a new exit for I-75. People would accept this if it's logical for distance between SR 80 and Lee Blvd. **(1)**

Comment: Starting at Enterprise Parkway and I-75 rebuild all three intersections with roundabouts. This will eliminate three traffic signals and their perpetual maintenance. Between Sunshine Boulevard and Joel Boulevard Maintain the canal right of way along 12th Street. Build a 2-lane divided road in that right-of-way and do not permit access except at Williams Avenue and Richmond Avenue. At these two intersections control the traffic with roundabouts to maintain capacity. Close 12th Street at each site to reinforce the local nature of that street. **(1)**

Comment: West 12th Street is 1.5 miles north of Lee Street and 3.75 miles south of SR 80. The extension east of Buckingham Road needs to go north. This can be done by going north of Harns Marsh after exiting the Gulf Coast Center and then east along West Canal. We have ample east west flow of traffic on 4th, 5th, 6th, 8th, 10th 12th and 14th Streets. Why bring all the future growth area south, Why not build this road correctly? Yes, a bridge would have to be built over Orange River just northwest of the marsh. Permits may take more effort. If this can't be done please don't build the extension east of Sunshine Boulevard we have enough east/west roads. Please do not turn the people in Lehigh Acres into a non entity because of 1/2 mile of Buckingham. **(1)**

Comment: Don't widen Buckingham Road to make traffic better, move the traffic elsewhere. **(1)**

Response: Comments noted.

General Luckett Road Extension Comments

Comment: The routes will be expensive due to the high cost of Buckingham land. **(1)**

Comment: Since the traffic is being alleviated for Lehigh residents it should be in their backyard. **(1)**

Comment: Recent reports state this may be a toll road. I object. Impact fees from new construction should fund this project. **(1)**

Response: Comments noted.

Comment: We are concerned about the wildlife; we have a lot of birds due to the cypress area on the south side of the lake. I have seen soft shell turtles and mother and baby otters. **(1)**

Comment: I am concerned as to how the county is playing catch up with proposals for construction as opposed to planning for road improvements. If planned, there is less impact on communities because people do investigate comp plans that are on record prior to construction. **(1)**

Comment: I was told changes were made to proposed alignments because of economic impacts to crossing the 2 canals to the north. I question this point. Whether this in-fact proves to be a more viable crossing by bisecting an existing community and physically affecting home owners in addition to eliminating an existing access way for maintenance of open space along the canal. **(1)**

Response: LC DOT staff is evaluating the proposed impacts to both the community and natural environment.

Sunshine Boulevard Corridor Extension
Comment Summary

The Lee County Department of Transportation project team is making the final recommendation for the Sunshine Boulevard extension as the No-Build alternative. The No-Build alternative assumes that the Lee County Department of Transportation will not make improvements to extend Sunshine Boulevard to SR 80. This recommendation is based on the evaluation of public input, environmental impacts, community impacts and construction cost. The No-Build Alternative is recommended as the preferred alternative after weighing the benefits of the roadway improvements against the impacts.

Favored Alignments for Sunshine Boulevard

Favor alignment 4
Comment: I favor alignment 4. **(12)**

Comment: If after much study Sunshine Boulevard is to be extended to SR 80, the most logical route would be alignment 4. At present, River Hall only has a single entrance and exit on SR 80, River Hall is undergoing development and is a large part of the reason for a new route. Putting it through River Hall would be by far the best route for the environment. **(1)**

Comment: The only reason this road is being considered is River Hall, please consider alignment 4 as the only option, any other will severely negatively impact the only parkland in the area. **(1)**

Comment: It does not make sense to ruin or disturb or ruin even a small corner of the Hickeys' Creek Mitigation Park when there are other workable solutions such as alternative 4. **(1)**

Comment: This is the best choice as River Hall agreed to this originally. They should not go back on their promise. It will preserve the habitat best. Also owners who have followed county code will have their property protected as much as possible. Please don't destroy the mitigation area. The county must protect them. Think about how we feel about the poor planning decisions in the 60's. Do we want people 40 years from now to think we are morons? Put the road through River Hall and make the right decision. **(1)**

Comment: River Hall should take the responsibility of providing for any increase in traffic flow due to their expansion. It would be unfair to encroach on the Hickey's Creek Mitigation Park or add a bridge over the creek. The county should protect the public's investment in the preservation of already protected land. Putting a major road anywhere but in an already developed area would just lead to more speculation and degradation of natural areas. **(1)**

Comment: We are in favor of either alignment coming up Carter and would not oppose this choice; however, it would seem that the alignment which parallels Mackerel Canal (alignment 4) would give the greatest access and relief to the need for a north/south corridor. **(1)**

Comment: Sunshine Boulevard should be built from SR 80 to SR 82 avoiding Hickey's Creek Mitigation Park and the swamp using the orange route (alignment 4) perhaps moving it further west of the swamp. **(1)**

Response: Comments noted.

Favor alignment 1
Comment: I favor alignment 1. **(4)**

Comment: It has a power line in that area. **(1)**

Comment: It's ok. **(1)**

Comment: It's not so developed. **(3)**

Response: Comments noted.

Favor alignment 2 (3)
Comment: It looks like Sunshine should head north to SR 80. The base road is already in along the canal, it just needs paving up to the FPL high lines. Pay off the few unhappy people and much less cost to build a shorter more direct route, we vote for alignment 2. **(1)**

Comment: It's straight and direct. **(1)**

Response: Comments noted.

Against Extension or Against Specific Extension

Against alignment 2 (7)
Comment: I am against alignment 2. **(7)**

Comment: The alignment that connects to Zeligro Road would be the worst possible choice as it has the greatest impact to residences and the Hickey's Creek Mitigation Area. A great deal of money, time and effort has been spent preserving a beautiful and pristine area will have been wasted. **(1)**

Comment: From an environmental perspective the Sunshine Boulevard extension would be a disaster for our area. Building a 4 lane highway along the

western boundary of the park would be very detrimental to the park and the animals that live there. **(2)**

Comment: The proposed plans to build a major road (alternatives 1 and 2) through parts of this park would negatively impact this natural area and is not in the best interests of anyone but the developers of River Hall. **(1)**

Comment: The Hickey's Creek Mitigation Park is the largest regional park in Lee County and is made up of environmentally sensitive land which is home to threatened species such as the scrub jay and gopher tortoises, Please do not sacrifice land (by using alternative 1 or 2) that we thought was saved through the effort of many who fought for its preservation. **(1)**

Comment: I oppose alignment 2 because of the adverse impact on public preservation lands, Hickey Creek and the negative effect it would have on residential property values and lifestyle of the residents of Caloosahatchee Park. **(1)**

Comment: I am opposed to any highway connecting SR 80 at Mitchell Avenue. **(2)**

Response: Comments noted.

No build/against extension

Comment: I favor the no build option or I am against the extension. **(10)**

Comment: Buckingham Road and Joel Boulevard are already approved to be 4-laned. Studies show there would only be enough traffic to "maybe" support a 2-lane road at best. **(2)**

Comment: This would destroy the rural community in this area. **(1)**

Comment: All of the options either will negatively impact residential communities and the mitigation park. Also SR 80 traffic already jams up at the I-75 intersection and will increase just from the developments going in along SR 80. **(1)**

Comment: We are fighting to prevent the destruction of what is left of our rural community. Zeligro borders the Hickey's Creek Mitigation Park and gopher tortoises cross the road at times and would become more road kill. We do not want an extension. **(1)**

Comment: We don't feel that a road is needed to connect Sunshine Boulevard to SR 80. Even in the foreseeable future we don't think there will be a need for it. **(1)**

Comment: If I wanted to live in the city I would have bought in the city. Why is it that when some developer decides that they want what we have, they can just come and take our piece of heaven? If the people in Lehigh wanted to get

somewhere quicker they should have bought a house on SR 80 or Lee Boulevard or in town. Please leave the country as the country. Stop destroying the small towns. **(1)**

Comment: All the alignments go through rural communities. The nature and character would be lost forever. It would open rural areas to urban sprawl, two parallel Hickey's Creek Mitigation park which would have a negative impact on the environment and wildlife. **(1)**

Comment: It is immoral to put a 4-lane road through the yards of people who have had their homes in secluded areas for 20-30 years so the new people will have convenient modes of travel. My plea is to not add extensions to Sunshine Boulevard and Luckett Road. **(1)**

Comment: The last thing SR 80 and Joel Boulevard need now is more traffic. This will be a detriment to our lives, ambience, and wildlife. We purchased our properties to be surrounded by a rural atmosphere. The growth that has occurred in Fort Myers and Lehigh is not of our doing and we should not be made to suffer for it. Please continue to seek alternative outlets for the congestion that developers have been allowed to create. **(1)**

Comment: All three routes would have a negative impact on the Hickey's Creek Mitigation Park and the gopher tortoise preserve located on the east boundary of River Halls development. The additional cost to construct through preserve land would be much higher for Lee County residents. It is surprising that Lee County would consider constructing a roadway through the only parkland located on the north end of the Lehigh community and is contrary to the philosophy of the Lee County mitigation park program.

Response: Comments noted.

Against alignment 1
Comment: I am against alignment 1. **(4)**

Comment: River Hall has too much political influence and it will not go through. **(1)**

Response: Comments noted.

Against alignment 4
Comment: I am against alignment 4. **(4)**

Comment: We agree with the study to extend Sunshine Boulevard to give residents another way out in case of an emergency. However we do not agree with alignment 4. Alignment 4 will directly impact my home, neighbors and parents and my families' dreams will be lost. **(1)**

Comment: It is very exiting that Lee County Board of County Commissioners is studying to expand Sunshine Boulevard. What I am not so excited about is that if alignment 4 were chosen my house would no longer exist. All our dreams would be thrown in the garbage. **(1)**

Comment: Pollution will adversely affect the quality of life. **(1)**

Comment: River Hall has too much political influence and it will not go through. **(1)**

Response: Comments noted.

General Comment on Sunshine Boulevard

Comment: Tell River Hall to stay home. **(1)**

Response: Comments noted.

In Favor of the Sunshine Boulevard Extension

Comment: I understand and look forward to the Sunshine extension; it will cut down time and traffic. **(1)**

Response: Comments noted.

Questions

Comment: SR 80 seems busy now, how will extra traffic from the proposed Sunshine Boulevard be handled? **(1)**

Comment: Why not stop all the building permits until an alignment has been chosen? **(1)**

Comment: Could alignment 4 take place on the other side of the canal? **(1)**

Response: Comments noted.

Suggestions/Requests for Sunshine Boulevard

Go through River Hall

Comment: Go through River Hall (but not necessarily Alt 4). **(8)**

Comment: River Hall residents will have a horrendous traffic problem after their development is complete. It is only reasonable that the developers need to

change their plans and include traffic outlets from River Hall. I was told their lots have high price tags and they would lose too much money. Well how much are they making from all the other lots? **(1)**

Comment: If a north-south road becomes essential, plan right now on putting it through River Hall. **(2)**

Comment: Go though River Hall using their main thoroughfare and exit on SR 80. River Hall has a public school and so is not a gated community. Alignment 1 will go directly though gopher tortoise habitat that River Hall set aside. Proposal 2 will eliminate people's homes and negatively impact the Hickey's Creek wildlife as well as the mitigation preserve. **(1)**

Comment: In 1999 the owners of River Hall (Hawkes Haven Investment) agreed to an additional access from the south via Sunshine Boulevard. It seems it would be more cost effective for the residents of Lee County if they would require Hawks Haven to keep their agreement. **(1)**

Comment: Go to the south of the gopher tortoise preserve and through River Hall's south entrance. Save money and go with this. **(1)**

Comment: Use the main road in River Hall, Lee County recently approved density above and beyond what was in the Lee Plan and this should have been condition of said approval. **(3)**

Comment: Don't hook Sunshine Boulevard into SR 80. SR 80 already has a traffic problem. **(1)**

Comment: Concrete over (box culvert) Hickey's Creek and follow it directly to the north. With the Hickey's Creek Mitigation Park construct an overpass (elevated road) to minimize impacts to wildlife. This seems to be the most logical and efficient option. **(1)**

Comment: Use corridors that minimize the impacts to wildlife areas. Putting a 4-lane road adjacent to Hickey's Creek Mitigation Park is going to disturb the gopher tortoises and other species. It's hard to fathom that Buckingham will be so disturbed by Lehigh Acres growth. **(1)**

Response: Comments noted.

Widen / Use / Improve Existing Roads

Comment: Widen use or improve existing roads. **(7)**

Comment: Widen improve Joel Boulevard. **(4)**

Comment: Widen SR 80 and split the east/west lanes. **(1)**

Comment: Widen SR 82 so the traffic won't bottle neck. **(1)**

Comment: I am against Sunshine Boulevard dumping traffic on SR 80 @ Carter or Buckingham. SR 80 already has enough traffic. Hook Sunshine Boulevard into to Joel Boulevard and SR 80 for eastbound traffic. **(1)**

Comment: Improvements to Buckingham Road should be sufficient to route the north/south traffic. Has that been considered? **(1)**

Comment: It would make much more sense to funnel Lehigh Acres traffic south on a road like Gunnery which is already 4-laned to SR 82. This road (Gunnery) needs to be widened to accommodate this traffic and already existing traffic. SR 82 is also long overdue for widening. **(1)**

Comment: Look at widening other established roads to accommodate additional traffic. **(1)**

Comment: Why hasn't a study been done to look at putting the alternative by the canal at 75th Street West? **(1)**

Response: Comments noted.

General Comments Summary

Suggestions

Comment: Whatever is decided it would be nice to know ASAP- also building permits should not be issued once a decision is made for new homes. **(1)**

Comment: Expand current roads with the installation of overpasses and east-west expressway sections prior to these road expansions. **(1)**

Comment: If one or another is approved please add width to at least one side so it can accommodate a multi use path. This road extension will be a part of the community trails and green ways network so 10' minimum width is indicated to meet these requirements. Please don't sacrifice the 5' paved shoulder, why not make it a real bike lane? **(1)**

Comment: Using and expanding the existing roadways would help decrease the costs associated with this project. **(1)**

Comment: Make Joel Boulevard four lanes all the way to SR 80. **(1)**

Comment: Make SR 82 four lanes and upgrade the street in Lehigh that feed into SR 82. **(1)**

Response: Comments noted.

Comment: Facilitate a meeting with representatives from Lehigh, Alva, Buckingham, Oak Creek Road and River Hall to discuss other solutions. **(1)**

Response: Community meetings with various groups are behing held throuout the study. If you wish to request a meeting please contact Lee County Department of Transportation.

Fear of Losing Home

Comment: My home is my IRA, and my investment for retirement. Even if you buy me out at fair market value you reduce my investment as my SOH cap and homestead are not portable. I cannot afford to live elsewhere in Lee County. **(1)**

Response: Comment noted.

Access to Buckingham Road

Comment: Putting a third school at the Gulf Coast Center with primary access to Buckingham Road will make traffic worse regardless of the road size. Currently

east Lee County students use Buckingham Road to go to Lehigh Senior School and Lehigh students use Buckingham Road to go to Riverdale. Add to it the horse trailers, RVs etc., that those residents own and trying to emerge on Buckingham road is a recipe for disaster. **(1)**

Comment: Access to Buckingham Road is currently difficult and dangerous when trying to emerge from a side street. Wait time can be up to 15 minutes. Traffic does not obey the speed limit now and a 45 mph limit on the proposed roads will be ignored making it even more dangerous. **(1)**

Response: Comments noted.

Other Comments

Comment: Please try to impact as few homes as possible. **(1)**

Comment: Considering that almost any option in either project will have a significant impact on sensitive lands and rural communities, the question is if it is really warranted or prudent. **(1)**

Response: LC DOT staff is evaluating the proposed impacts to both the community and natural environment.

Comment: Signage directing people to downtown Fort Myers does not exist after you exit I-75 onto Luckett Road. **(1)**

Comment: The SR 31 corridor from SR 80 to SR 78 should have all the developments and zone changing stopped until there is adequate and safe roadway travel - this area of travel is very dangerous. **(1)**

Comment: SR 80 is already filled with traffic and it will continue to grow. **(1)**

Comment: There are better ways to solve problems than to pit groups of people against each other. For example Lehigh residents want better ingress and egress but the cost to others cannot be ignored. **(1)**

Comment: I was shocked to find there is not any immediate relief for current traffic and no-one has any dates for the horrible traffic in the a.m. at MLK Blvd and Colonial to I-75. The traffic flowing west in the a.m. is horrible and not predictable at all. **(1)**

Comment: Roads leading to Gunnary and SR 80, and Daniels Parkway and Buckingham Road need immediate improvement and widening. These roads need immediate attention as do secondary and tertiary roads in Lehigh. **(1)**

Response: Comments noted.

Questions

Comment: How much money was wasted on this study which tries to reinvent the wheel? **(1)**

Response: Comments noted.

Not in Favor of the Project

Comment: It seems there are other more pressing road needs in the county than the Luckett Road and Sunshine Corridor Extensions. One that comes to mind is the widening of SR 82 to the Lee Hendry line. Currently it is very overcrowded and more dangerous than the advantages of the corridor extension in this study. **(1)**

Comment: I do not want this in my back yard. **(1)**

Comment: Don't build any of the proposed extensions. **(1)**

Response: Comments noted.

Comments: My name is Hermine Heirs, residing at the above address. I am 100% opposed to Luckett Road Extension Project. After looking at the map closely; it appears that this road would go directly through my House.
also, the Environmental impact on the area surrounding 9th Street would be detrimental to our Rare birds and Wildlife, which includes a documented Bald Eagle and owls who frequents the area.
Furthermore, the 12th Street Proposal is a more direct route from Sunshine Boulevard to Joel Boulevard.

Comments: (1) Do Not Build
(2) Able Canal is so beautiful and contains much wildlife, including the endangered species: Eagles. We came to Florida for many vacations and chose Lehigh Acres for it's rural-ness and simplicity. It's quaintness and hometown feeling!! Living in Connecticut and traveling on the highway - Interstate 84 every day there are hazardous truck spills, let alone the noise pollution! What will the truck spills do? Pollute Able Canal and whatever Wild life remains. I would recommend widening an existing road for cost effectiveness as well protecting the environment. I would love to retire at 2504 Queen Drive in the near future. I recommend a vote for 3B segment 3.

Please keep us apprised as to any further developments

Thank You!

Comments: NO BUILD !!! THE ROAD STARTS OR STOPS AT I-75 + SR 80 TWO ALREADY LOADED WITH TRAFFIC. IT CUTS THROUGH HOMES THAT HAVE BEEN OCCPIED FOR SOME YEARS AND REPLACEMENT WILL BE IMPOSSIBLE BECAUSE OF TAXES. WATER RUNOFF DURING THE RAINY SEASON IS ONE PROBLEM, ELECTRIC SERVICE AND WATER USAGE TO HOMES ANOTHER, NOT TO MENTION DAMAGE TO THE ECOLOGICALLY ENDANGERED LAND. ROUTES 2C-1, 2D, 2E + 2F ELIMINATE GULF COAST CENTER, THE FIRE HOUSE + BUCKINGHAM ROAD + ORANGE RIVER ROAD. IT CAUSES MORE TROUBLE THAN IT EASES. THE WAY THINGS ARE GOING IT WILL BE THE COUNTY PARKING UNTIL GAS GETS TOO HIGH OR IT RUNS COMPLETELY OUT. WE CANT INVADE ANY MORE COUNTRIES OR RAISE ENOUGH CORN TO PROVIDE ENOUGH FUEL.

Comments: I AM A NATIVE OF THIS COUNTY, AS IS MY ENTIRE FAMILY. I HAVE SEEN MANY CHANGES. I MOVED TO BUCKINGHAM, BECAUSE IT IS A PRESERVE. TO ME THAT MEANS TO PROTECT OR SPARE A PLACE FROM PROGRESS. By the time the 4-6 LANE HIGHWAY gets BUILT, it WILL BE TIME to BUILD ANOTHER. SOME WHERE ALONG the LINE YOU HAVE to THINK OF ALL the FAMILIES YOU ARE DISRUPTING. BETWEEN high TAXES, high INSURANCE, AND NOW highWAYS - YOU ARE CHASING FAMILIES who HAVE SUPPORTED this County to MOVE to OTHER STATES. SOON this County WILL HAVE NO NATURAL BEAUTY LEFT. IF I HAVE to PICK A ROAD... I WOULD PREFER 2-E OR 2-E.

THERE ARE MANY OLD-TIMERS LIVING IN BUCKINGHAM THAT YOU WOULD BE UPROOTING. PLEASE try to FIND ANOTHER SOLUTION.

THANK YOU!

THIS IS NOT VERY CHRISTIAN LIKE BUT...

PROGRESS SUCKS!

Comments: Twelve foot concrete sound barrier along Cypress Woods Av resort on Luckett Road)

We are not in favor of this project at all!! When we purchased this property we were told All land to the far right of our entrance was protected wet land and never could be built on. That was a good factor for us buying here - Quiet! no traffic or road noise!!

What about tractor trailer noise ??? Gearing down and jake breaking ??? And all the traffic coming from "pilot gas station ???"

And Also what about exhaust fumes ???

Comments: It's very exciting that the county Board of commisioners are studying to expand Sunshine Blvd. That give us the residents another route out in case of an emergency.

What is not ~~extin~~ exciting at all in other words we (my family) are very concern about is that if ALT 4 is choosen, my house would no longer exist all our dreams effort, commitments & investment will be throwin in the garbage.

Why isn't been study the alternative of doing the road in the order of the canal (75th st W). Please lets try to incomodate

Comments: We are located in the Cypress Woods RV Resort off of Luckett Rd. 1/2 mile from exit 139 off of ~~I~~ Highway 75. Our Unit backs up to Luckett Rd. The noise from the traffic is pretty bad. We can only imagine how deafing it will become with a four to six-lane highway extension. The semi-trucks exiting highway 75 at exit 139 and heading East will surely add to the noice level.

We would greatly appreciate if you could add a 12 ft high Concrete Sound barrier. This would prevent any unessary noice.

Thank you,

Comments: Twelve foot concrete sound barrier along Cypress Wood Av resort on Luckett Road.

The expansion of roadways is understandable with the increasing population growth. However, the serenity and peacefulness will be lost with the roar of truck traffic at all times of day.

The sound barrier would be very helpful with this anticipated problem.

Comments: I have lived at this address for the passed 33 years. We loved it from the minute we saw it. The orange river, the marshes, the historical WW2 air field and the fact that it was a rural preserve. I would like to see a NO BUILD to this project. I can't see why Luckett Rd has to be conected to LeRigh Acres when other roads could be improved such as Lee Blvd., State Rd. 82 and State Rd. 80. But if this project must go through, I would be in favor of 2F, 2H and 2I which would keep this project completely away from beautiful Buckingham Rural Preserve. My husband always said he wanted to live and die here and he did, now I would like to do the same. Please keep this road out of our beautiful community.

Comments: In 2004, I purchased a ½ ACRE RURAL LOT AND HOME ON EAST 9th ST. MEADOWBROOK ESTATES FROM JOHANN PFUNER & SONS DBA I&E HOMES. My FUTURE PLANS INCLUDE RELOCATING TO LEHIGH UPON RETIREMENT. WE CHOSE THIS LOCATION TO BUILD BECAUSE OF ITS NATURAL BEAUTY, ITS PROXIMITY TO THE RESERVE, AND FOR THE ½ ACRE LOTSIZES THAT IT OFFERED. My WIFE AND I ARE ADAMANTLY OPPOSED TO THE PLAN TO BUILD A HIGHWAY IN THE PLACE OF 9TH ST. WE LOVE OUR HOME AND DO NOT WANT TO LOSE IT. WE DON'T FEEL THAT WE COULD EVER REPLACE OUR HOME, DUE TO THE RISE IN CONSTRUCTION COSTS. WE ARE CERTAIN THAT PROPERTY VALUES HAVE BEGUN TO DECLINE WITH THE ANNOUNCEMENT OF THIS PLAN. THIS MEANS THAT WE WILL NOT RECEIVE "FAIR MARKET VALUE" FOR OUR PROPERTY, IF THIS PLAN PROCEDES. WE ARE VERY UPSET THAT THIS PROPOSAL WASN'T DISCLOSED TO US AT THE TIME OF PURCHASE.

WE CAN ONLY HOPE AND PRAY THAT A DIFFERENT LOCATION IS CHOSEN FOR THE CONSTRUCTION OF THIS HIGHWAY. HOW MUCH CAN PEOPLE BE EXPECTED TO SWALLOW WITH THE INSURANCE CANCELLATIONS, THE RISING PROPERTY TAXES, A PROPOSED INCREASE IN SALES TAX, AND NOW THE POSSIBLE LOSS OF YOUR HOME TO A NEW ROAD.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: SECTION 2E + 2F WILL TAKE OUT OUR PROPERTY FOR THIS SECTION OF HIGHWAY. OUR HOME SERVES A DOUL PURPOSE. WE OPERATE OUR PLUMBING BUSINESS OUT OF OUR HOME AND THE BARN IS OUR SHOP. THE EXPENSE TO RELOCATE BOTH IS A CONCERN. NOT MANY PROPERTIES GIVE US THE ROOM + ACCESS TO OUR CUSTOMERS. SO AN IN HOME BUSINESS MAY NEED TWO LOCATIONS IN THE FUTURE IF WE ARE FORCED TO RELOCATE.
ANOTHER CONCERN IS THE WILD LIFE WE HAVE A LOT OF BIRDS. DUE TO THE CYPRESS AREA ON THE SOUTH SIDE OF THE LAKE. LARGE + SMALL RED WOODPECKERS, SOFT SHELL TURTLES, AND I HAVE SEEN A MOTHER AND THREE BABY OTTERS.

THIS ROAD IS NEED IN THE NEAR FUTURE BUT I HOPE YOU WILL CONSIDER A DIFFERENT ALTERNATIVE.

Comments: WE HAVE 2 MAIN Routes OUT OF LEHIGH K-1 82 to the SOUTH & LEE BLVD - I BELIEVE the BEST WAY to HELP WITH the TRAFFIC ISSUES is By Keep the 3rd MAIN Route FARTHER AWAY FROM Lee -

My SUGGESTION IS FOR the LUCKETT Rd EXT IS 2C1 to the NORTH.

TO ME it MAKES SENSE to Have 82 to the SOUTH LEE in the CENTER & the 2C1 ALIGNMENT to the NORTH - SPREAD the TRAFFIC FLOW OUT INSTEAD OF MORE CONGESTION by TAKING Lockett RD FARTHER SOUTH.

2C1 ALIGNMENT

Comments: Extension of Luckett Rd in Ft. Myers, Fla.

I am writing upon a recent article in the News Press regarding the proposed new addition to Luckett Rd. in Ft. Myers. I am requesting a 12' concrete sound barrier be installed along the property of Cypress Woods RV Resort as we are a RV park of over 400 property owners. At this time our property line lies very close to the area where the proposed new road is planned. I also think this new road will devalue my property if only a berm is installed.
We at no times were notified by mail of this project, it was only by the newspaper & just recently by T.V.
Thank you for your attention to the above matter,
Respectfully,
Charles & Marilyn Mackell

Comments: Surprised and shocked to find out there is not any immediate relief for current traffic and no-one has any dates for the horrible traffic in A.M.'s @ MLK Blvd. and (into Town) Colonial to 75. The traffic flowing West in A.M. is horrible and not predictable at all. Also all roads Leading to Gunnery and 80/Daniels. and Buckingham. need immediate improvement and widening. These Roads into town need immediate attention as do Secondary - Tertiary Roads in Lehigh.

RE: Luckett Road Extension Studies - Public Information Comment from Feb 26, 2007 Workshop

Please eliminate Alternative 2 C1. Additionally eliminate Alternatives 2G and 2D and 2E.

ALTERNATIVE 2C1 bisects the Buckingham Airpark East Community. This would mean the proposed section of road would run over a house/hangar in the airpark and prevent other homes/hangars from having access to Buckingham Airpark. I own one of these properties. I would not be able to get my airplane from the hanger to the runway without crossing the proposed 2 C1 Luckett Road extension.

In 2005, having sold my airport home, I began to design a house and hanger for the Buckingham Airpark East Community. I selected this particular airpark because it was the only one in Lee County where the deed restrictions allowed me to have a two acre lot -- proving me with the space I needed, because it was in the Buckingham Rural Preserve - providing me with the rural lifestyle I prefer, and because Buckingham Field has historical significance for me personally. The Hanger is now completed and the house construction is underway. I currently have approximately two million dollars tied up in this property and building. It's not as if I can just change homes to a new airport community home. I have been told by the county that no further airstrips or airparks would be permitted because they would infringe on the airspace for Southwest Florida International Airport. There is a severe shortage of hangar space in Lee and Collier counties for private pilots with some hangars having waiting lists of over 200 people. The Buckingham Airparks offer some of the last available area for private pilots to live and store their airplanes in an airpark. For some, their private planes are their transportation to and from work. I would have to leave Lee County to find something comparable. I want to stay in the Ft Myers area to be close to my elderly parents and in-laws as well as close to my grandchildren. Ft Myers is my home.

ALTERNATIVES 2C1 also infringes on Harns Marsh, even though it would go next to the marsh rather than through it. It is well known that roads encroaching on marsh and other preservation/conservation lands change the water flow and often the hydroperiod in the vicinity of the road. This encourages invasion of

exotic species such as Brazilian Pepper and Melaluca which would reduce Harns Marsh's primary function, to control drainage and flooding from the Orange River and the most heavily populated areas of Lehigh Acres. As a marsh it filters waste and is a sanctuary for migratory birds and other native species. It should be expanded. It could one day serve as valuable green space for hikers and picnicers. We have few enough marsh areas in Lee County left. Why negatively impact this area when other routes are available?

Please eliminate the 2C1 alternative.

I also oppose 2G which will impact the Buckingham Airport. As an airport dating back to World War II this is a historical site for Lee County. My father flew into "Buckingham Field" during World War II. It should be preserved not divided up for a road that will transport Lehigh residents to the interstate.

Please eliminate the 2G alternative.

Alternatives 2E and 2D bisect the Buckingham Rural Preserve. The Lee County Comprehensive Plan stipulates that roadways through this area should be avoided. There are alternative routes available. A major roadway like Luckett Road will completely destroy this community. It will dump an enormous amount of traffic, noise, diesel and car exhaust emissions, etc. into the community. The increase in traffic will increase crime, accidents and roadway trash. By nature rural community do not have major roadways. One of the aspects that makes communities rural is the peace and quiet, clean air, and safety of rural life. The citizens of Buckingham banded together over 18 years ago to preserve this way of life, going so far as to stipulate this in the Lee County Comprehensive Plan. Please respect the integrity of our community. It is the only community of it's kind in Lee County.

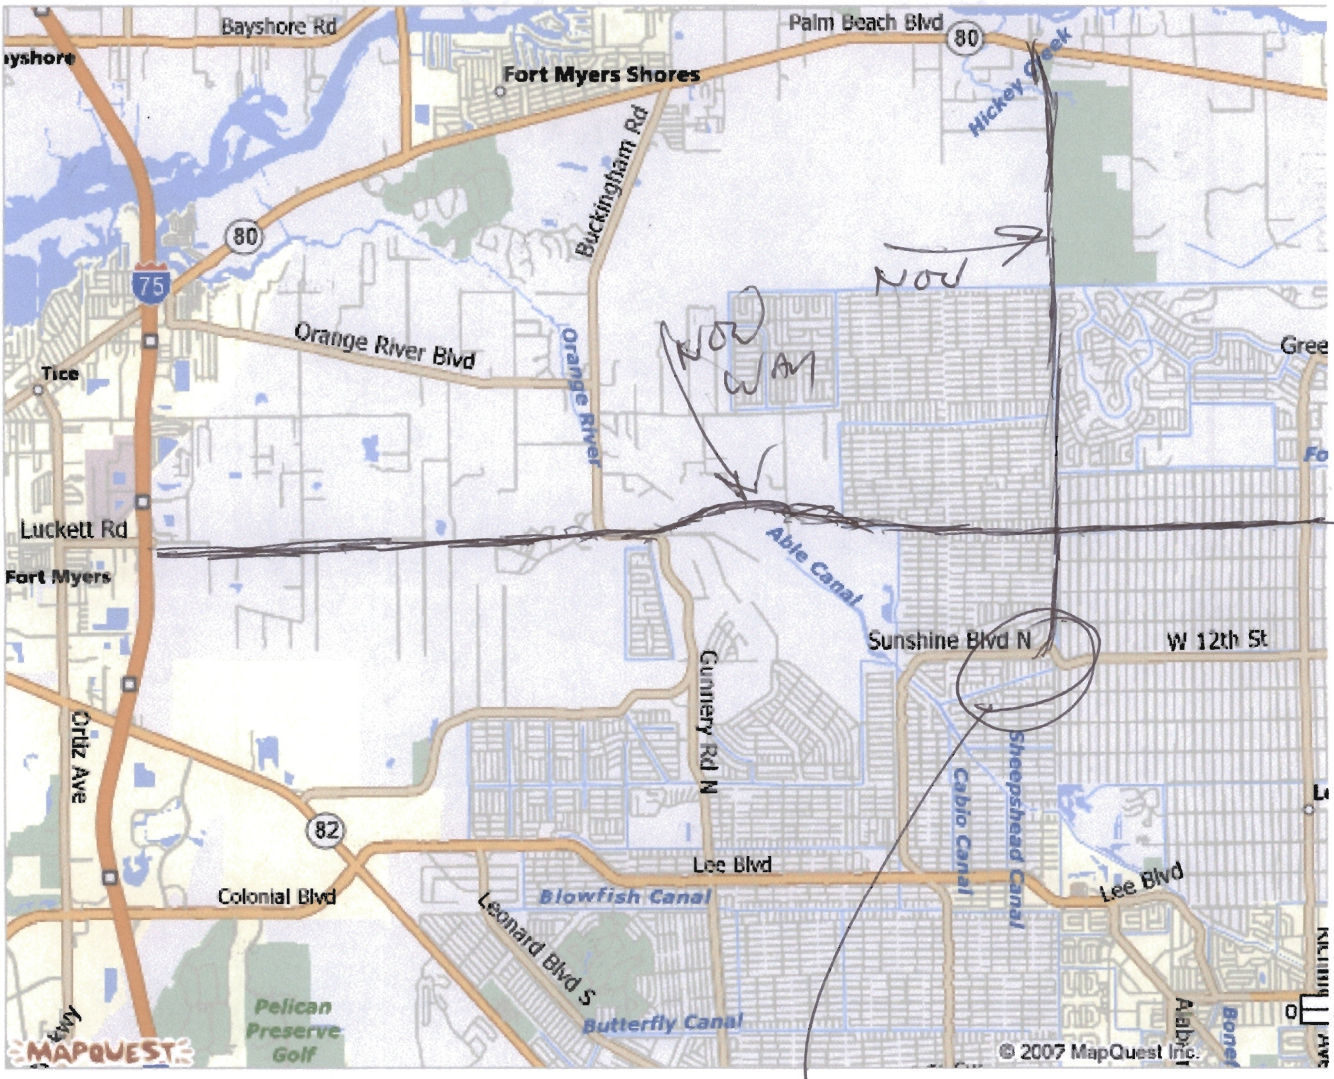

Please eliminate the 2E and 2D alternatives.

Comments: WEST 12TH ST IS 1.5 MILES NORTH OF LEE & 3.75 MILES SOUTH OF SR. 80. THE EXTENTION EAST OF BUCKINGHAM RD NEEDS TO GO NORTH. THIS CAN BE DONE BY GOING NORTH OF HARNS MARSH AFTER CROSSING GULF COAST CANTOR AND THEN EAST ALONG WEST CENTRY CANAL.

3A & 3A1 WILL HAVE TO BE ENTERED IN A POOR PLACE.

WE HAVE AMPLE EAST-WEST TRAFFIC FLOW ON 4TH, 6TH, 8TH, 10TH, 12TH, & 14TH — WHY BRING ALL THE FUTURE GROWTH ALONG SUNRAY - WHY NOT BUILD THE ROAD CORRECTLY. YES A BRIDGE WOULD HAVE TO BE BUILT OVER ORANGE RIVER JUST N.W OF THE MARSH - PERMITS MAY TAKE A LITTLE MORE EFFORT BUT YOU ALSO HAVE TO BUILD OVER HICKEY'S CREEK ON #2 OF SUNSHINE - PLEASE DO NOT SUGGEST I-84 AS THEY GO THRU RIVERHAVEN WHO WOULD HAVE POLITICAL INFLUENCE.

LETS SEE A DESIGN DONE CORRECTLY EVEN THOUGH IT WOULD REQUIRE A BRIDGE — IF THIS CAN'T BE DONE DON'T BUILD THE EXTENTION EAST OF SUNSHINE WE HAVE ENOUGH EAST WESTERS IN THAT AREA!

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information workshop.

PLEASE DO NOT ONE AGAIN TURN THE PEOPLE OF LEHIGH ACRES INTO A UNIENTITY BECAUSE OF ½ MILE IN BUCKINGHAM!!!

Comments: Twelve foot concrete sound barrier along Cypress Woods RV resort on Luckett Road.

Also Turn lanes into & out of entrance to Cypress Woods R.V Resort to accomadate large R-V's. The present arrangement does not allow a large vehicle to exit Cypress Woods without entering the lanes of on coming Traffic.

There needs to be a stop sign across from the entrance to Cypress Woods R.V Resort. AT the present time there is no requirement for Northbound Vehicles to stop before Turning onto Luckett Rd. which creates confusion as to Right-of-way for Vehicles East bound on Luckett Rd. Turning left into Cypress Woods

Comments: Twelve foot concrete sound barrier along Cypress Woods RV resort on Luckett Road.

We chose this location for privacy, peace & quiet. We aren't happy about the Luckett Road extension, but what will be, will be, and we have no other choice, but the sound barrier should help. Additionally the barrier should be erected south of the wetlands woods.

Comments: (1) Twelve foot concrete sound barrier along Cypress Woods RV resort on Luckett Road

(2) Traffic Lights for safe entrance and exit into + out of Cypress Woods RV Resort. This would need an roadway island break to allow safe entrance East bound into the Resort from the I-75 Exit 139

(3) Keep the Rural flavor of our neighborhood

(4) Better yet - Instead of doing a Luckett Road Extension why not widen Martin Luther King Blvd? It makes no sense to have a lot of little Roads crossing the State when a few good ones would do. It would be cheaper to maintain one Road than many.

DUE TO THE VOLUME OF LARGE RV'S LEAVING AND ENTERING CYPRESS WOODS RV RESORT A TURN LANE EASTBOUND INTO THE RESORT AND A MERGE LANE WESTBOUND OUT OF THE RESORT WOULD BE NECESSARY. WITHOUT THESE LANES THERE COULD BE A SAFETY ISSUE TRYING TO CROSS OVER LANES OR MERGE INTO FAST MOVING TRAFFIC WITH SLOW MOVING RV'S.

Comments: Twelve foot concrete sound barrier along Cypress Woods AV resort on Luckett Road.

Signage directing travellers towards "downtown" Fort Myers does not exist after they exit I-75 onto Luckett Road. In one recent 15 minute period, while waiting for a visitor I met 3 "lost" drivers who came to the dead end in front of our Cypress Woods entrance asking for directions to Fort Myers.

Summary:

Luckett Rd needs new signs directing Motorists towards Fort Myers!!

Comments: I HAVE COMPLETED CONSTRUCTION OF AN AIRCRAFT HANGER AND AM CURRENTLY BUILDING A HOUSE ON TWO ACRES AT 1515 FLIGHTLINE COURT. THE PROPERTY IS LOCATED ON THE NORTHEAST SIDE OF BUCKINGHAM AIRPORT AND IS PART OF THE PLATTED BUCKINGHAM EAST AIRPORT COMMUNITY. THE UNIQUE COMMUNITY WOULD BE BISECTED BY THE PROPOSED 2C1 ROAD PROPOSAL, AND WOULD ISOLATE ME AND OTHERS IN THE EASTERN PORTION OF THE COMMUNITY FROM THE AIRPORT. I CANNOT IMAGINE A TRAFFIC LIGHT OR OVERPASS TO ALLOW AIRCRAFT FROM THE EASTERN PART OF THE COMMUNITY ACCESS TO THE AIRPORT. BECAUSE OF THE VERY LIMITED OPPORTUNITIES TO LIVE ON AN AIRPORT COMMUNITY (TWO IN LEE COUNTY AND A TWO YEAR WAITING LIST FOR A HANGER AT PAGE FIELD) IT WOULD BE NEAR IMPOSSIBLE FOR ME AND THE OTHER PEOPLE OF THE BUCKINGHAM EAST AIRPORT COMMUNITY

(Attach additional sheets if necessary)

A Reasonably Large Access Ramp that will Accomodate 45' Long RV's to gain entrance and Exit to and from Luckett Rd down to I-75

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information workshop.

Proposed Extension 3A or 3A1,on either side of Lehigh Baker Canal,would be the most economical way to go.You would only have to buy the properties on one side of the Extension. Unlike 3B (9th street) where you would have to acquire properties on both sides of the Extension. Where my neighbors and I live we have 2 beautiful lakes on our properties that are teaming with wildlife. These lakes and surroundings are home to fish,turtles, several species of water birds including Owls and Bald eagle. Wild life frequents these two lakes in conjunction with the Nature preserve across the street.We bought property and built a house in this location because of the location, lakes,quietness and certainly don't want it destroyed by a highway that should not have been considered to run through a residential neighborhood in the first place. There are other options.

At the open house you asked for residents input. **A different idea.** Here is mine:
Look at the traffic problem as a bottle. The bottom or the large end of the bottle is Lehigh and further north south and east. The bottleneck is Ft. Myers.
There are many people who travel from LaBelle, Clewiston, Moore Head and as far away as Sebring. All going towards the bottleneck and creating gridlock, just to go shopping. By opening the roads towards Ft. Myers you are increasing the traffic problem.
Now turn that bottle 180 degrees.
The figure that was mentioned of 150M Dollars that this Luckett Sunshine is estimated at will only double or triple in the next few years. Take this money and buy up land east of Lehigh Acres, not for housing but for commercial development like Costco, Sam's, Wal-Mart, Loewe's etc. By doing this you are shifting away traffic from Ft. Myers and the Westcoast and creating thousands of jobs and business opportunities toward the east.
"Provide and they will come".
Your high traffic problem will be alleviated.

Peter K Giessmann

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Twelve foot concrete sound barrier along Cypress Woods RV resort on Luckett Road ALL RESIDENTS & VOTERS OF CYPRESS WOODS RV RESORT WOULD SERIOUSLY REJECT THE LUCKETT ROAD PROJECT. THE EXPANSION AND THE INCREASE OF TRAFFIC FLOW WOULD BE THE CAUSAL FACTOR FOR SERIOUS SAFETY ISSUES FOR ALL LOCAL RESIDENTS DUE TO HIGH VOLUME AT ENTRANCE INTERSECTION. [redacted] INCREASE IN NOISE POLLUTION AS WELL AS MANY OTHER ENVIRONMENTAL IMPACTS AS WELL: HEAVY TRUCK TRAFFIC FROM THE TRUCK STOP WOULD INCREASE HIGH MAINTAINCE COSTS THAT WOULD INCREASE TAXES TO PROPERTY OWNERS THAT REJECT THE PROJECT. THE CRIME RATE IS ALREADY ON THE RISE AS WELL THE INCREASE OF TRAFFIC FROM MANY AREAS WOULD ONLY ENHANCE AND EXPAND THE CRIME. YOU DO NOT HAVE THE RESOURCES NOW TO SERVE + PROTECT WITH POLICE + FIRE THIS PROJECT IS A WASTE OF TAX DOLLARS PLUS ITS COMPLEATION WOULD ONLY CAUSE INCREASED SPENDING VOTE NO TO THIS PROJECT MANY VOTERS HERE FEEL THE SAME

(Attach additional sheets if necessary) DO NOT SUPPORT THIS PROJECT. DO NOT ALLOW THIS PROJECT TO DESTROY THE REASON ALL THE MANY RESORT OWNERS THAT SPEND MILLIONS IN REVENUE TO SUPPORT FL. EACH YEAR. THIS PROJECT WOULD IMPACT YOUR TOURIST GROWTH AS WELL. NO ONE WANTS A VACATION AREA WITH HEAVY TRAFFIC. IN THEIR BACK YARD

Comments: It looks to us that Sunshine Rd should head North to 80. The base road is already in along the canal - just needs paving up to FP&L high-lines. Pay off the few unhappy people (a lot less people to contend with here) and much less cost to build shorter more direct route - much less money here, we vote for route 2.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: We would like to vote for a No-Build on the Luckett Road extension project. The roads that are currently in place should be widened and/or repaired. For example, SR 82 is narrow, full of pot-holes, and congested. Widening the existing road would provide an excellent east/west corridor to support the growing population. Additionally, Colonial Extension could be widened to six lanes, allowing traffic to flow smoothly.
As you can see, it is not necessary to disturb a quiet neighborhood with a noisy road in order to provide an east/west corridor. The Buckingham area is supposed to be a preserve, not a thoroughfare. It is inappropriate to build another road, when the ones that are already in place can be adjusted to meet the need. My husband grew up in this neighborhood. We are currently constructing a home here, where we hope to raise our children – in a safe and quiet neighborhood. We respectfully urge you to cancel this project, especially route 2C-1. We urge you to use and expand the existing roads and allow our quiet Buckingham neighborhood to remain as it is. Thank you for your consideration

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: We feel that a new ~~road~~ Through road is completely unnecessary. Rather, the existing east/west corridors should be radically upgraded. ie. Lee Blvd, State Road 82.

The Buckingham area should be avoided altogether. It's one of the last preserves in Lee County and should be kept that way. We object to all the routes, but we particularly dislike 2C and 2C-1 because they proved ~~put~~ cut right through the middle of existing homes, and would cut right through the middle of an airpark making half of the property useless for that purpose. Airpark property is extremely limited in Lee County.

But most importantly, we do not want traffic, commerce and everything attendant to it cutting through the middle of our rural preserve area. We don't care if we have to travel a little ways to shop. We moved to this community to get away from noisy, polluting traffic.

We completely object to destroying an older established neighborhood, so that residents of Lehigh can get home quicker.

Just don't build it!

Comments: We would like a solid cement wall for noise barrier the full length of Cypress Woods RV Resort along Luckett Rd. 12 ft high suggestion

Some kind of turn lanes + acceleration lanes for entering + exiting our RV Park safely, or else talk our developer into changing our main entrance to or onto Tice St.

Hwy 80 is so busy now - how will the extra traffic from the proposed Sunshine Blvd. be handled?

I just heard a blurp of news before coming tonight that Colonial was going to be widened to Lehigh. Is this true - if so we may not need Luckett Rd. widened.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The Lee County Transit division suggests the Lee County D.O.T. design both the Luckett and Sunshine corridors to be multi-modal corridors. Both corridors have significant potential for future transit service. Transit factors to keep in mind are design speed, lane width and right-of-way preservation for the inclusion of transit amenities alongside the roadway.

In segment three of the Luckett Corridor, alignments 3A and 3A1 end at an already existing terminus of a transit route. (Route 110 currently terminates at 12th St. & Joel Blvd.) These alignments could create a logical point for transit transfers and/or park and ride facilities.

Comments: Twelve foot concrete sound barrier along Cypress Woods RV resort on Luckett Road

Please do not extend Luckett Road thru the wet lands next to Cypress Woods R.V. Resort. Way too many natural areas are being taken away from our birds and animals and developed into roads and housing. We worked hard for two years to remove the unwanted melaluka plants. Please use the money allocated for this project to expand existing roads (MLK/Lee Blvd) into Lehigh from single lane to multi lane.

We sometimes create our own problems trying to get off Luckett Rd. When we have several large RV's pulling cars or trailers arrive at the same time, there is a traffic jam at our entrance. Some time thy have to sit on Luckett Rd for awhile. I can see that jaming up traffic. There needs to be a stop sign for the people pulling off that South Road. We have had several accidents from cars pulling across in front of vehicles making a left into Cypress Woods.

Comments regarding Sunshine Road Extension:

I am a long-time resident of Lee County and a frequent visitor to all its natural areas including Hickey's Creek Mitigation Park. The proposed plans of River Hall Development to build a major roadway (Alternate Routes #1 & #2) through parts of this park would negatively impact this natural area and is not in the best interest of anyone except the residents/developers of River Hall. The Mitigation Park is the largest regional park in Lee County and is made up of environmentally sensitive land which is home to threatened species such as the scrub jay and gopher tortoise. It also provides an extensive system of passive recreation such as hiking and kayaking to residents and visitors to our area. It does not make sense to ruin or disturb even a small corner or boundary of this property when there are other more workable solutions – such as Alternate Route #4.

I was unable to attend the public information workshop but wish to have my comments included with the others. Please do not sacrifice land that we thought was saved through the efforts of so many who fought for its preservation.

Thank you.

Comments: We are very disappointed with the plans to bring Luckett Rd. Ext. through Pensola Rd! This is a rural community (which there is NOT much rural areas left in Ft. Myers) When we purchased our 5 Acres we did it with the intentions of having a quiet peaceful life with our Children, we left Cape Coral because of the congestion, Noise and Crowds. Our long term goal was to retire and leave this little piece of heaven to our Children. We have worked very hard to have and keep this beautiful piece of land and I am very saddened that it can be taken from us tomorrow. I feel that there should be other options that do not impact a Community the way this road will impact ours. We have horses riding down the road every day, there are river otters and other wildlife that will be affected by this road also.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am making a recommendation that route 2B or 2F be used as part of The Luckett Rd. extension. I live on Buckingham Rd. and would like to see the area near me stay rural. I live near the Gulf Coast Center and three of the other routes run through property my family and I own. I don't want to see this property split, it was handed down by my Grandpa. Property values would definetely go down if a four or six lane highway splits my property. My family uses this property to raise cattle. If it's split, there will not be enough acreage left to continue the operation. this is how a living is made and a tradition carried on. Buckingham is in a rural community preserve which asks that any highway being put through would run as far South as possible. 2B and 2F are the only routes that meet that request.

Thank you for your consideration,

Shauna Flock

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The biggest intention of these extensions is to improve traffic on areas of big demands. We want to make traffic easier, faster, safer and respond to growth population trend. We need big roads, 3, 4 lanes, and new options to help old congested roads. Let's use the big roads that we have and are not so busy and make them bigger. The around impact on these roads are minimal, the community is already used to traffic and life style. New roads may be necessary, but on reserve, green, little farms areas are not acceptable and not needed, even our intention is to make traffic of a lot of communities better, not the small ones penalized with new road on their back yard. We have good options to bring solutions without impact little community, and theirs river, life style and rights of pace.

Absolutely "no" to 2A, 2A1, 2C1, 2E1, 2E

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

I think option 4, connecting Lehigh to Hiway 80 through River Hall is the best choice.
Here are my reasons.

1. River Hall agreed with this originally. Just because they are rich developers does not mean they should go back on their promise.

2. It will preserve habitat best. Also, property owners who have followed county code will have their property protected as much as possible. Please don't destroy the mitigation areas! The county must protect them or it will become another Miami.

3. Think about how we feel about poor quality planning decisions made in the sixties. Do we want people 20 or 40 years from now to think we are morons?

(Attach additional sheets if necessary)

Put the road through River Hall- make the right choice for the whole county, not just the most convenient decision for a bunch of rich seasonals.

Thanks, Celia Beamish

Comments: First off, I do not understand, and will not even pretend to understand, how such big mammoth projects like this can even be considered that will tear through and rip apart any portion of the Buckingham Preserve, rural Buckingham. We're not just talking about putting a road through the area; we are talking about putting in a MAJOR 4 - 6 lane thoroughfare, with a median.

Since Highway 82 is already built, the "groundwork" has been laid, and is not a residential area, why can't it be widened to accommodate the flow of east/west bound traffice, along with Highway 80?????

Why was Alternate Route 2B in Segment 2 eliminated?? I suggest NOT eliminating it as a viable route and to have it put back on the drawing board. In the beginning of the route, it does not interrupt any residences, as it goes through land that has been bought by a developer, which houses no one. Then it goes through property already owned by Lee County. Of which, none of this is considered wetlands.

If the current Alternate Routes stay and one is approved, what happens with our water supply??? On our property, like many others, we have a spring-fed pond, along with cows. If one of the current Alternate Routes is approved, what happens to all of the grease, oil, road grudge, and such coming off of the pavement once it is soaked up in the grounds??? How will that effect our pond??? More IMPORTANTLY, what happens to our water supply in our wells??!! All of our wells?!

(Attach additional sheets if necessary)

What about drainage? How will the current Alternate Routes affect us during rainy season? The land is low; therefore, the water does not drain well. There is always standing water, both on the property and road.

Thank you for taking time to participate in this public information workshop.

Luckett Road & Sunshine Boulevard Corridor Extension Studies
Public Information Workshop
March 8, 2007

The least of your concern is the rural way of life. All of us that chose to live in Buckingham, did so for the rural way of life. Rural, that is a word that will cease to be if any of the Alternate Routes are approved. Our road is not even paved. Talk about the way of lifestyle changing!!!!

Comments:

I would like to support the alternate roadway #4 for the Sunshine Road extension. I feel that River Hall should take the responsibility of providing for any increase trafficflow due to their expansion. It would be unfair to encroach on Hickey's Creek Mitigation Park or to add a bridge over the creek. The county should be protecting the public's investment in the preservation of the already protected land. Putting a major road anywhere but in an already developed area would just lead to future speculation and more degradation of natural areas.

Thank you for your consideration,
Robyn Hammes

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I support the "No Build" alternative for the entire Luckett Rd corridor as the routes will destroy Fragile orange RD, its uplands, creeks, & swamps, will cause irrevocable harm to native, endangered plants & wildlife such as Eagles, Foxes, Fox Squirrels, Bears, otters, panthers & gopher tort. The money should be spent on enlarging 80, 82 & Lee Blvd. IF built it should go 2F to 2H to 2I for the least environmental damage to the orange River, Harns, west marshes & hickory slough. 2CI, 2D & 2E & 2G would cause great environmental damage to them. 3A, 3A1 & 2G have Bald Eagle & Osprey nests & is to close to the marshes. Sunshine Blvd corridor should be built from 80 to 82 Avoiding Hickey Creek Park & hickey Swamp using the orange Route thru River hall perhaps making it further west thru River Hall to 80 (not on carter Lane but west of hickey swamp. The entire Luckett Rd corridor will not solve any congestion but will dump more traffic on ortiz, colonial, I-75 & 80 & 82 which need to be widen to handle present traffic. Put Luckett Rd funds to work improving existing Rds & not imperil lee county's vanishing rural habitat that will provide future citizens with clean air, water & food. This Route will also be very expensive because of the high cost of Buckingham Land.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Please do not build any of the suggested extensions regarding Luckett Road and Sunshine Blvd. These roads would cut through some of the last rural areas in Lee County and be disturbing to the wildlife and the humans who live in these areas because they are rural.

Instead of these extensions, please direct efforts to widening Joel and Route 82 and directing traffic to these two roads as exits and entrances to Lehigh.

Please protect the rural nature of Alva and Buckingham.

Thank you.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I AM PROPOSING THAT IN PLACE OF MAKING A LOOP TO GO INTO LEHIGH, PLACE THE NEW ROAD STRAIGHT ACROSS THE OPEN COUNTRY IN THE BUCKINGHAM AREA ENDING IN THE VICINITY OF GREENBRIAR AND JOEL.

THIS WILL PREVENT TWO OF THE MAIN ROADS TO LEHIGH FROM BEING PLACED SIDE BY SIDE AND WILL PREVENT ESTABLISHED HOMEOWNERS FROM LOSING THEIR PROPERTY AND HOMES. THE LESS HOMES INVOLVED, THE LESS TAX MONEY WILL HAVE TO BE SPENT.

IF THIS IS NOT POSSIBLE, WE VOTE FOR THE 4th STREET PROPOSAL.

WHATEVER IS DECIDED, IT WOULD BE NICE TO KNOW ASAP. - ALSO BUILDING PERMITS SHOULD NOT BE ISSUED ONCE A DECISION IS MADE - FOR MORE HOMES THAT IS.

Comments: It seems there are other more pressing Road needs in the county than the Luckett Road & Sunshine Blvd. corridor extensions. One that comes to mind is the widening of State Road 82 to the Lee-Hendry county line. This road, 82, is currently very over crowded and more dangerous than the advantages of the corridor extensions in this study.

Comments:

4. I WOULD STRONGLY RECOMMEND ACCESS LANES INTO & OUT OF CYPRESS WOODS RV RESORT. THIS WOULD INCLUDE A LEFT HAND TURN LANE (GOING EAST ON LUCKETT) FOR ACCESS INTO THE PARK. IT WOULD ALSO INCLUDE AN ACCESS LANE (HEADING WEST ON LUCKETT) JUST BEFORE & AFTER THE ENTRANCE TO CYPRESS WOODS. THIS WOULD PROVIDE THE ABILITY FOR A CAR/TRUCK ETC TO DECELERATE ADEQUATELY BEFORE TURNING INTO THE ENTRANCE. IT WOULD ALSO ALLOW A LANE TO MERGE WITH TRAFFIC HEADING WEST ON LUCKETT.

5. I WOULD RECOMMEND THAT AN ORANGE CAUTION LIGHT (AT A MINIMUM) BE ERECTED AT THE JUNCTION OF LUCKETT RD & THE ENTRANCE TO CYPRESS WOODS TO WARN DRIVERS COMING FROM BOTH DIRECTIONS THAT ADDITIONAL TRAFFIC CAN BE ANTICIPATED AT THAT POINT.

Comments: TWELVE FOOT CONCRETE SOUND BARRIER ALONG CYPRESS WOODS RV RESORT ON LUCKETT ROAD. RESIDENTS AND VOTERS OF CYPRESS WOODS RV RESORT WOULD SERIOUSLY REJECT THE LUCKETT ROAD PROJECT. OUR REASON TO PROTEST + REJECT AREAS FOLLOWS.

1. INCREASE IN TRUCK + VEHICLE TRAFFIC WOULD IMPACT LOCAL RESIDENTS WITH SERIOUS SAFETY ISSUES ENTERING AND EXITING LUCKETT ROAD INTERSECTION WITH INCREASE TRAFFIC.
2. THE ENVIRONMENTAL IMPACT ~~OF~~ THE NORTH SIDE OF LUCKETT ROAD BY CYPRESS WOODS IS A WETLAND. INCLUDING A RESIDENT BALD EAGLE.
3. THE CRIME RATE IS GROWING IN OUR AREA NOW INCREASE TRAFFIC FLOW IS LIKE FIGHTING A FIRE WITH GASOLINE.
4. YOU HAVE NO RESOURCES NOW FOR FIRE + POLICE HOW WOULD YOU FIX IT WITH TRIPLE TRAFFIC INCREASE

THE PEOPLE THAT ARE RESIDENTS AND VOTERS OF CYPRESS WOODS COME TO FLA BRINGING MILLIONS IN REVENUE TO FORT MYERS. THE REASON WE CHOOSE ~~OUR~~ CYPRESS WOODS IS LOW TRAFFIC AND QUIET AREA. THE PROJECT WOULD CRIPPLE GROWTH + REVENUE.

Comments: I understand that we need to improve the roads due to the growing population. Although when Buckingham was originally developed, it was to be a "rural preserve", how is building a roadway in the middle of this enhancing the "preserve" aspect of this area? I believe that by using and expanding the existing roadways would help decrease the costs associated with this project. With this in mind by using roadway "Green" this would help. Or by using the 2F alternative would be best. In the 2F alternative it is mostly undeveloped lands so this would have the least amount of impact on the existing residences in the area. Not to mention the main reason the majority of people moved/built in this area .... to be away from the hustle of the everyday traffic and development. I built in Buckingham Park with this intension and any roadway close like 2E would be a terrible impact to our Community!

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I would prefer the plan 2F since it would be the least intrusive to the buckingham area which was suppose to be set aside as a rural preserve area. Alternative 2C would work but is less desirable.

Alternative 2D & 2E are totally unacceptable They both come to close to existing houses.

Segment 2 should use plan 2F to 2G to keep the road straighter to keep traffic flow moving.

Buckingham has been set aside as an area to keep it's rural character, and bigger green areas.

Comments: 2C1 is going to affect waterflow in the Orange River & surrounding homesites. 9 mile (RUN) CREEK is a major contributer to the Orange River during Wet times and blocks up water into neighboring homes on RIVER ROAD. Don't Consider 2C1. IT WILL BE ENVIROMENTALLY Harmful. I WOULD RECOMMEND THAT You Consider 2F (Red line on our maps) to 2G (pink line) to 2H to 3A. through Lehigh Acres. (It affects fewer people and harms the environment less than 2C1.)

Comments: I am glad to see that the public is being brought into this process. I hope the comments are seriously considered in the final outcome.

As my property is on Luckett at the intersection with Staley, I definitely have a literally invested interest in what happens and when.

Is there a possibility of part of the Luckett project going forward sooner rather than later, such as connecting Neal Rd thru to Luckett? This would appear to me to be a reliever for some of the Buckingham Rd traffic as well as Lee Blvd. I myself come up from the south via Treeline to Lee/Colonial to Abrams to Buckingham to Neal to Orange River Blvd to Staley. I know others that use similar routes to their homes in B'ham.

Please keep us apprised of the progress.

Comments:

Considering that almost any option on either project will have significant impacts on sensitive lands and rural communities, the question is if it's really warranted or prudent. Additional sprawl development will undoubtedly result in some splits.

If one or another is approved, please add width to at least one side's ~~sidepath~~ so it can adequately accommodate multi-use (bike + ped). These road extensions will be part of the County's Trails + Greenways network so 10' min width is indicated to meet those requirements. And please don't sacrifice the 5' paved shoulder (why not make it a real bike lane?) for whatever reason.

Thanks,
Dan

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: (1) Alignments 2C1, 2D and 2E split the Buckingham Rural Preserve Area designation, this divides the community. It also violates the trust the people of Buckingham in the Lee Co gov't to honor their commitment to the community when they approved the designation.

(2) ~~Transportation~~ Access to Buckingham road is currently difficult and dangerous when trying to emerge from a side street. Wait time of up to 15 minutes are not uncommon, ~~and~~ traffic does not obey speed limits. 45 mph on the proposed roads will be ignored, making entry even more dangerous.

(3) Putting a third school at Gulf Coast Center with primary access to Buckingham Rd will make traffic worse, regardless of the road size. Currently east Lee Co students use Buckingham Rd to go to Lehigh Senior HS and Lehigh Students use Buckingham Rd to go to Riverdale. Add to it the horse trailers, boat trailers + RVs that residents own, and need to emerge on to Buckingham Rd ⇒ recipe for disaster.

(4) Alignments 2C1, 2D and 2E will destroy the last vestige of true rural life style in Lee County. Please don't do that!

(5) My home is my IRA, my investment for my retirement. Even buying me out at market value reduces my investment because my homestead and SOH cap are not portable. I cannot afford to buy and live elsewhere in Lee Co!

(Attach additional sheets if necessary)

Thank you for taking time to participate in this public information workshop.

Comments: I'm against Sunshine dumping on 80 @ Carter or Buckingham. SR80 already has enough traffic and still building thousands more houses adding to the problem. Hook Sunshine to Ipe and then to SR80 for east traffic

Comments:

Jobet, LLC has been following the Luckett Rd. and Sunshine Blvd. corridor extension studies. Of Particular interest is the Sunshine Blvd. extension and two of the three alignments connecting to Carter Lane.

We are owners of a parcel of land on St. Rd 80 where Carter Lane is the western border. We are in favor of either alignment coming up Carter and would not oppose this choice, however, it would seem that the alignment which parallels Mackeral Canal would give the greatest access and relief to the need for a North/South Corridor.

The other alignment which connects to Zeligro Road in our opinion would be the worst possible choice as it has the greatest impact to residences and to the Hickey Creek Mitigation Area. A great deal of money, effort and time spent in preserving a beautiful and pristine area would be wasted.

Comments: I am writing about the Sunshine Rd. Extension. Since the purpose of this extension is to help move traffic out of Lehigh Acres area primarily en route to Fort Myers, bringing such traffic as far north as Rt. 80 takes them out of their way to get into the heart of Ft. Myers. It makes much more sense to funnel Lehigh Acres traffic south on roads like Gunnery which are already 4-laned to Rt. 82 - this road needs to be widened to accommodate this traffic & already existing traffic + Rt 82 is long overdue for widening.

Secondly Rt. 80 traffic already jams up at the 75 interchange and 80 traffic will increase just from the development going in along Rt. 80 including those in Hendry County.

All of the proposed routes of the Sunshine extension either will negatively impact residential communities & the Montgomery Park.

Therefore I strongly vote for the "No Build" Option for the Sunshine Rd. Extension.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I am a 24 year resident of Alva. My husband is a 4th generation Lee County resident, SO we have seen Alva before it was invaded by developers. Now we have to fight to prevent roads from further destroying our (what's left of it) RURAL community. This road will be an environmental disaster. Fortunately Bateman was removed as a possible corridor. However Zellegro also borders the Hickey's Creek mitigation park. as on Bateman, the gopher tortoises cross Zellegro at all times, and they would surely become more Lee County road kill. Remember Gopher's tunnel long and deep holes in even the hardest of ground SO a fence (even buried in the ground) cannot contain them, we do not want a sunshine extension to SR 80.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The Luckett Road extension is to alleviate traffic from Lehigh. It seems that your initial route of 2B to 2I (which no longer exists) had the least impact on Buckingham residents and minimal impact on Lehigh residents. Since the traffic is being alleviated for Lehigh residents, it should be in their backyard.

Point 2 - Orange River floods. We get 3 feet plus of water under our house when this occurs. It seems that routes 2C1, 2E + 2D will have the most impact for flooding off of River Road and the surrounding area, if this is not taken into consideration.

City Alva **State** FL **Zip Code** 33920

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: This is in regards to the Sunshine Blvd. proposed extension. We reside on the corner of Hickey Creek Rd & Oak Creek Rd. We have lived there 18 yrs and enjoy the peace and quiet. We don't feel that a road is needed to connect Sunshine to SR80. Even in the forseeable future, we don't think there will be a need for it.

Therefore our recommendation is for a NO BUILD option.

If the proposed road is to be built, then Option 1 and Option 4 are UNACCEPTABLE. The level of noise and pollution resulting from the traffic will adversely affect the quality of life in the neighborhood.

Again, IF the proposed extension is to be made, then we suggest the following: Concrete over Hickey Creek & follow it directly to the north. When crossing H.C. Mitigation Park construct an overpass (elevated road) to minimize impact to wildlife. This seems to be the most logical and cost efficient option.

Comments: When I purchased My Property I thought about where and how I wanted my family to Live. I chose Oak Cr. Rd. because it was a private, quite, oneway in one way out dead end, where the kids could ride thier horse on the side of the road safely, the could ride the golf cart to thier friends down the road and live the Life in one place and have a life long friend. If I wanted to Live in the city I would have bought in the city. Why is it that that when some developer decides that they want what we have they can just come and take the little guys piece of heaven! If the people in Lehigh wanted to get somewhere quicker they should have bought a house on St Rd 80 or Lee Blvd. or in Town. Please Leave The Country as The Country. Stop Distroying the small towns.

Comments: Concerning Sunshine Blvd Corridor Ext. Study

In my opinion, after attending the workshop, viewing the video presentation & talking with representatives that the best route would be #1 that goes behind Oak Creek Rd & swings west merging into Center Lane. I am basing this on its effect on number of residences being lost to the project. We have worked hard to get to live in this area & would hate to have to try to find something comparable. Alt. #1 seems to disrupt the least amount of residences.

Comments: I understand from staff that route 23 has been abandoned due to environmental issues, The nesting Bald Eagles, gopher turtles and panther thank you.

Recent News Reports state "This may be a toll Road" I object. Impact fees from new construction should fund this project.

Also, I believe it would be cheaper to expand Orange River Blvd and place a new exit at I 75. People would accept this and it's longer for distance between SR 80 & Lee Blvd.

Comments: I recommend using the corridors that minimize the impact to wild life habitat + natural areas. Putting a 4 lane road adjacent to Hickey Creek Park is going to disturb the gopher tortises and other species. It will also be sad to hike there as we often do + hear all the road traffic. It is hard to fathom that Buckingham will be so disturbed by the Lehigh Acres growth. I thought that the Buckingham rural designation prevented things such as 4 lane highways running through. Improvements to Buckingham Rd + Joel Blvd should be sufficient to route the North/South Traffic, has that been considered?

Comments: We are the owners of the above parcel. We have owned the parcel since 1982 and have paid taxes since then. I am a professional Planner in the State of New Jersey for 30 years and a member of AICP for almost the same time period. During that time span I have dreamed of building my retirement home and moving to Lee County. On several locations I have been in communication with the planning department and have had several discussions with them over transportation and future land use in the area. At no time was it told to me that a transportation project was scheduled for this area. Otherwise I would not be building as I am right now.

During that period the county has arbitrarily divided the parcel to the north of me (next door) and installed a drainage structure out to the Sailfish canal and probably set it as an access easement for mowing the rear property adjacent to the canal.

My home is about 45 days from completion. I was down the week of the first presentation of the plan at the Vet Recreation sight. I met Sarah Clarke, project Manager. In discussing my concerns with her, she told me, after asking where my parcel was, that I had little concern. After researching the proposed alignments, I was so angry that a project manager was that un-prepared that she hadn't an idea what effect the alignments had on properties along the proposed roadbeds. It showed me how unprepared that everyone was. It appears that no party walked the proposed alignments to investigate the impacts on existing housing and environments.

I'm also concerned as to how the County is playing catch up with proposals for construction as apposed to planning for road improvements. If planned, there is less impact on communities because people do investigate comprehensive plans that are on record prior to considering construction.

I was also told that changes were made to the proposed alignments because of economic impact to crossing the 2 canals to the north. I question this point whether this in fact proves to be a more viable crossing by bisecting an existing community, and physically affecting existing home owners and soon to be home owners, in addition to eliminating an existing access way for maintenance of the open space along the canal.

In my opinion, I believe this to be **GOOD** example of ***"Poor Planning"*** at its best.

I also think it might be a good idea for future workshops that a Writeable PDF form be provided since the public now often uses the internet to carry on business as opposed to paper mailings. I'm only suggesting giving persons an option to mailings.

Comments:

Luckett Road - 2F is prefered route - Since the road is to benefit Lehigh They Should bear the Roadway

To SR 80 - Since Riverhall has been approved for increased density & they agreed to build a S. roadway to Sunshine in 1999 then #4 is the only alternative for the Road. Why should the people who Are following the Lee County Comprehensive plan be punished when the roadway is to benefit River hall for their new density.

Comments: I feel this should be a "no build" because Buckingham Rd and Joel Blvd are already approved to be 4 laned. Studies show that there would only be enough traffic by 2030 to "maybe" support a 2 lane at the least.

I also feel that if this road were to be built it would destroy the rural community that so many of us moved into the area for.

Comments: I have lived in Buckingham for 15 yrs. and have noticed the increase in traffic due to all the construction going on. I would hate to see it worsen, therefore I strongly recommend the 2F route as the Luckett Rd. extension.

Comments: I recommend that the "2F" route be used to avoid the Buckingham area as much as possible keeping it a rural community;

Also, the SR31 corridor from SR80 to SR78A should have all developments and zone changing "STOPPED" until there is adequate and safe roadway travel; This area of travel is a very dangerous (i.e. Bayshore and SR31)

Comments: I would like to reccomend 2B OR 2F

I own the property that 3 of the 4 extensions will affect. My son lives across from Gulf Coast Center and 2 of the 4 routes will affect his home — plus divide my property into 2 separate parcels.

I use this property to earn a living - plus it is to be an inheritance for my Kids.

This property is also in a rural community - where life styles can be handed down for generations to come.

I would appreciate it if 2B or 2F is selected.

PUBLIC INFORMATION COMMENT SHEET

Luckett Road Extension Study

Larry Elfers and Susanne Rivera-Elfers
1309 E. 9th St., Lehigh Acres, Fla. 33972-3367 **03/16/2007**

Environmental Impact – Wildlife, Habitat, Wetlands, Community

- We live in Meadowbrook Estates. Our homes are directly adjacent to a wildlife wetlands preserve connected with our two large ponds. We believe there is a severe, negative wildlife and environmental impact should the E. 9th St. Corridor be selected. We have many forms of wildlife including birds such as American Bald Eagles, Owls, Hawks, and Falcons. The nesting and natural habitats of the wildlife would be disrupted by selection of the 9th. St. Alternative.
- With the corridor abutting our property lines along E. 9th St. a severe impact on storm water drainage would be encountered. The ponds on our properties are directly connected to the wetland by drainage pipes. The increased drainage into the wildlife preserve would severely upset and contaminate the adjacent wetlands.
- We also believe, with the corridor abutting our property lines along E. 9th St., there would be a very disruptive impact on our way of life in our neighborhood in the form of noise and air pollution as well as the loss of our view of the woods behind our properties. We would require a 10 – 12 foot wall erected to serve as a noise barrier along the corridor if the 9th St. alternative should be selected.

Economic Impact

- We believe the E. 12th. St. North corridor would be a better and much more feasible alternative because of the fewer number of existing homes on properties along the north side of the canal that would need to be acquired resulting in less money expenditure.
- Additionally, acquisition of properties would be required on only one side of the corridor compared to both sides of the corridor along the E. 9th. St. Corridor. The north side of the canal is comprised of mostly empty, unimproved lots with lower property values which would result in lower acquisition costs.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

1. REQUEST THAT A 12' HIGH CONCRETE SOUND BARRIER BE INCLUDED IN THE OVERALL PLANNING FOR THAT SECTION OF ROADWAY ALONG THE SOUTHERN EDGE OF CYPRESS WOODS RV RESORT, IT IS MY FEELING THAT W/O SUCH A BARRIER THE VALUE OF MY PROPERTY IN THE PARK WOULD BE DIMINISHED BY THE HIGHER VOLUME OF NOISE CREATED BY TRAFFIC ON THE NEW ROAD.
2. WITHIN CYPRESS WOODS RV RESORT, THERE ARE A NUMBER OF PEOPLE THAT GO ON BICYCLE EXCURSIONS. THE SECTION OF LUCKETT FROM OUR PARK WEST TO ORTIZ IS VERY DANGEROUS FOR ANYONE ON A BICYCLE. I BELIEVE THAT PLANS ARE BEING DEVELOPED FOR LUCKETT WEST OF I 75 TO ORTIZ. I WOULD REQUEST (STRONGLY) THAT PLANS FOR BICYCLE PATHS BE DEVELOPED ON LUCKETT AT LEAST FROM CYPRESS WOODS RV RESORT WEST TO ORTIZ (INCLUDING THE I 75 ~~INTERCHANGE~~ INTERCHANGE AREA.)
3. I WOULD STRONGLY RECOMMEND THAT RESTRICTIONS ON THE FIRING OF GUNS & RIFLES BE INCREASED, ~~AS A RESIDENT~~ ONCE THE NEW ROAD IS COMPLETED THE USE OF FIRE ARMS COULD POSE A SAFETY HAZARD TO PEOPLE DRIVING ON THE ROADWAY. AS A RESIDENT OF CYPRESS WOODS, GUN FIRE IS HEARD (SPORADICALLY) ESPECIALLY FROM THE AREA SOUTH OF THE PARK. THERE HAVE

(Attach additional sheets if necessary) SEVERAL INCIDENTS IN THE ~~PAST~~ WHERE MOBILE HOMES HAVE BEEN HIT BY ROUNDS.

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: My husband and I have lived on Bateman Road for 34 years and are thoroughly familiar with the entire area, including the land which is now the Hickey Creek Mitigation Park. It would appear to me that from an environmental perspective, the Sunshine Boulevard extension to Highway 80 would be a disaster for our area. Building a four lane highway along the entire western boundary of the Park would be very detrimental to the Park and the many animals that live there. It would also destroy the peace and tranquility of the most beautiful park in Lee County. Periodic controlled burns must be conducted to enhance the wildlife habitat in the Park and such would probably not be possible with a highway on its boundary.

It seems that the four-laning of Joel Boulevard and the huge amount of traffic that would be diverted by the Luckett Road to I-75 highway would eliminate the need for any road from Lehigh's Sunshine Boulevard to Highway 80.

However, if after much study, Sunshine Boulevard is to be extended to Highway 80, the most logical route would be Alternate 4. At present, River Hall has only a single entrance and exit to 80, and this traffic includes an elementary school. River Hall is under ongoing development and its presence is a large part of the reason for any new route. Putting the route through River Hall would be by far the best route for the environment.

Comments: I believe the option 3A1 of the Luckett Road extension is the best one. I live only few lot South of 12th Street, but still like to see the road go through 12th St First of all, 12th St is the only Street in the area that is zoned for duplexes, they do not belong in the area. No there else in the whole section you can build duplexes. Secondary, There is a road already exists, rather than using option 3A – No Road (a lot of prep work), option 3B (too costly, a lot of existing homes + middle of developed community) We defenatly need this project to come through for number of reasons. ① Traffic is terrible, need more ways to get in and out of Lehigh ② For emergency situations, in case of Hurricane evacuation, we will have a mess.

March 13, 2007

To whom it may concern,

We are writing in desperation to be heard by the Lee County Department of Transportation requesting for many reasons not to widen Buckingham Road by way of plan 2F for a vast number of reasons. First and foremost this is a residential area where with the speed limit being 45 mph, traffic already flies at unbelievably dangerous speeds. There have been too many serious car accidents involving citizens and police, neighborhood dogs, and horses and livestock (that we know of) that have died or caused accidents on this road in the 2 years. To encourage even more and faster traffic through this residential area seems flagrantly irresponsible when there are still other options open to the county not negatively involving neighborhoods.

When most residents living on the path of 2F moved to Buckingham the community was considered a preserved rural area where it was supposedly protected for massive influxes of people and traffic. Many residents moved to the area with long terms plans of living here through their retirement and for others like ourselves, this *is* our retirement. Out life's saving is invested in our property and we depend on the sale of this at retirement.

At the meeting in Alva on March 8th we learned that if 2F is the chosen route for the project then one of two things would happen. Either the homes on the Lehigh side would be demolished and in order to accommodate the 4 to 6 lane highway or Buckingham Road would be used as their access road to the highway and that the highway itself would sit on our property. Needless to say this is not acceptable to us. It is unbelievable that the county can come in and destroy lifelong investments of families when there are other other paths such as 2E or 2D that don't destroy residents hard earned investments and disrupt lives and rob people from our retirement. We were told that we may get lucky if the Lee County

decides that they may use the Gulf Coast Center land. But what is the likely hood that such a decision would be made prior to this study's completion?

The people on Buckingham Road (2F) are not interested in having their homes demolished or raising their families on a highway. And we strongly object to the county taking our land considering the fact that there are still viable alternatives by way of routes 2E and 2D.

We would have been better off if the county were purchased our property at its value prior to the Luckett Road Extension project. At least then we would have had the option of relocating to a better area to raise our children and continue to work toward a solid and secure future.

Thank you for your consideration.

Mr. & Mrs. Michael D Schaffer

Lee County Department of Transportation
1500 Monroe Street
Fort Myers, Florida

Attention: Ms. Sarah Clarke, Project Manager

Subject: Sunshine Corridor Study

Dear Ms. Clark:

As an Alva resident I am submitting an Alternate Route for the Sunshine Boulevard Corridor Study from Sunshine Boulevard to State Road 80. It is my understanding that in the 1999 Resolution Z-99-056, the owners of the River Hall Development, Hawks Haven Investment LLC agreed to additional access from the south via Sunshine Boulevard. It seems to me that it would be more cost effective for the residents of Lee County if they would require the Hawks Haven Investment LLC to complete their agreement.

I also am concerned that the other three alternate routes would have a negative impact on the Hickey's Creek Mitigation Park and the River Hall's Gopher Tortoise Preserve located on the east boundary of the River Hall's development. The additional cost to construct a roadway through preserve land is going to be much higher for the residents of Lee County. Also one would be remiss in not mentioning the limited natural parkland that is provided for the residents of northeast Lee County, specifically Lehigh Acres. It is surprising that Lee County DOT would consider constructing a roadway through the only parkland located on the north end of the Lehigh community and is contrary to the philosophy of the Lee County Mitigation Park Program.

Sincerely,

Roxanne Gause P.E.

Re: Sunshine Corridor Extension Study

Dear. Ms. Gause:

We have received your letter and proposed alternate alignment for the Sunshine Boulevard corridor extension and both will be made part of the project file.

We will review this alignment and determine if it can be brought forward for further consideration and analysis. Lee County Department of Transportation has also added an alignment similar to your proposal utilizing the roadway through the Riverhall Development. I have attached a map showing this proposed alignment.

Your concerns regarding the impacts of the other three routes are noted. The aim of this study is to first avoid impacts, environmental, social and economic; then minimize and mitigate impacts that can't be avoided. In that vein, we have tentatively removed the easterly alignment through the mitigation park and along Batemen Road from further consideration. We will show all proposed alignments and those that we have screened out at the upcoming public meetings. Based on input received, we will continue our analysis.

Thank you for your interest in this project.

Sincerely,

DEPARTMENT OF TRANSPORTATION

S

PROPOSED ALTERNATE ROUTE FOR THE SUNSHINE BOULEVARD CORRIDOR STUDY

*According to the CPA2005-07 River Hall Amendment to the Lee county Comprehensive Plan, The Lee Plan, dated December 21, 2006

Hawks Haven Investment LLC agreed "If the proposed development exceeds 1,598 dwelling units, additional access from the south must be provided via Sunshine Boulevard." The development has been approved for a maximum density of 1,999 dwelling units. Hawks Haven Investment LLC is now requesting an increase density to 2,928 residential units.

March 9, 2007

Comment Sheet 1

Trucks , truck trailers, RV 5th Wheels, Class "A" motor homes and Class "C" motor homes, which will most likely travel this proposed road are above 13 feet in height.

Additionally, the above vehicles have **multiple lights and exhaust pipes** that are higher then the body and or trailer.

I **strongly urge** that in addition to the **sound pollution** we will have to contend with significant amount of **light pollution** which must be entered into this human equation.

As an owner in the "Cypress Woods resort" one of the reasons I purchased the property was because of the **quiet** county atmosphere the resort **at present** posses.

So I believe just a 12 foot barrier to the road **will not** be sufficient to do the job.

I believe a knoll , trees, and a 16 foot barrier will help to alleviate the potential future problem.

Thank you,

Karl Kakaley, C112
10309 Nightwood
Cypress Woods RV Resort resident

Subject: Luckett Road Extension

To Whom It May Concern,

This email is in regards to the Luckett Road Extension. **I am making a recommendation that either 2B or 2F be considered as the final routes for the extension.** I live directly on Buckingham Rd. near The Gulf Coast Center. Three of the four proposed routes left on the map run through me and my family's property. This is only going to bring property values down for us. Not to mention the traffic issues to deal with when you try to merge Buckingham Rd. traffic with Luckett Rd. extension traffic. I would like to see Buckingham remain rural. I believe The Buckingham Rural Community Plan states that any road of this magnitude would be put as far south as possible and 2B or 2F would fit this statement.

Thank you for your consideration,

Shauna Flock

RE: Proposals for Sunshine Boulevard and Luckett Road Extensions

Dear Ms. Cella:

I am a resident of Alva and on the Board of Directors for ALVA, Inc. I have attended four meetings regarding the placement of extensions for Sunshine Boulevard and Luckett Road and am very upset about these possibilities.

I'm sure the reason why these alternatives are being explored is because of our rapid increase in population. When developers apply for permits, I believe part of any plan should include avenues for transportation for the new residents. This is especially important for groups of homes placed close together and/or for condos. In previous times, when density was one house per 10 acres, this did not present a traffic problem. River Hall residents will have a horrendous traffic problem after their development is complete. It is only reasonable that the developers need to change their plans and include traffic outlets from River Hall. I was told that their lots have high price tags and they would lose too much money. Well, how much are they making from all the other lots?

It is immoral to put a 4-lane road through the yards of people who have had their homes in secluded areas for 20-30 years so that the new people will have convenient modes of travel. The old-timers have enjoyed peace and quiet, with large lots and comradery with neighbors with similar interests. Many have small children who play in safe surroundings Some have homes close to the mitigation park or 20-20 land and share the land with birds such as eagles and scrub jays, as well as raccoons, otters, bob cats, possums, red foxes, and yes, I have seen a collared Florida panther. Our air quality has been close to the best in the whole United States.

We are not the people making the money off the land. We are the people who obtain our happiness from the land. We do not want it taken away and have a dangerous highway with cars emitting pollution to ruin our quality of life. We know we have been among the most privileged people in America to live in the country area of Lee County. And we want to keep this life. Therefore, my plea is to not add extensions to Sunshine and Luckett Roads. Perhaps look at widening the rest of Joel Blvd. and widen highway 82 so the traffic won't "bottleneck." Look at widening established roads to accommodate additional traffic. Or if a North-South Road becomes essential, plan right now on putting it through River Hall.

Thank you for your attention to this matter. I will send copies of this letter to each county commissioner and hope they can put themselves in our place.

Very sincerely,

Connie Dennis

RE: Proposals for Sunshine Boulevard and Luckett Road Extensions

Dear Ms Cella:

Alva residents have attended the last two public workshops and have the following concerns about the proposals:

- Highway 80 is already filled with east/west traffic which will continue to grow in numbers as development occurs in the near future along this corridor in East Lee County and Hendry County.

- All of the proposed extensions for Sunshine Boulevard go through rural communities. The nature and character of the individual community would be lost forever by building a high speed road to move traffic through it. It would also open rural areas to urban sprawl. Two of the extensions would parallel Hickey Creek Mitigation Park which would have a negative impact on the environment and wildlife.

- The proposed extensions for Luckett Road would also harm rural communities and have a negative impact on the environment and wildlife.

No one doubts Lehigh has traffic problems. People who live in the rural areas do not feel that justifies the destruction of their homes, their life style and the environment. We feel there are better ways to solve Lehigh's problems than to destroy the reasons that prompt people to live in rural areas. Because there are not many rural areas left in our county, we should be creative enough to protect the people and the wildlife that live there. Green spaces benefit all of us.

We do have some suggestions and are willing to work with you and the Lehigh group to find better solutions than those being proposed.

Suggestions:

- Make Joel Boulevard four lanes all the way to Highway 80 since a full time traffic light is scheduled to be installed at the intersection of Joel and Highway 80.

- Start an initiative to make SR82 four lanes. Upgrade the streets in Lehigh that feed into 82.

- Facilitate a meeting with representatives from Lehigh, Alva, Buckingham, Oak Creek Road and River Hall to discuss other solutions.

- Do not build any of the proposed extensions.

There are better ways to solve problems than to pit groups of people against each other, which seems to be happening now. For example, Lehigh residents want better egress and ingress, but the cost to others cannot be ignored.

I trust you will take our concerns seriously and work with us to achieve a satisfactory solution for all parties.

Sincerely,

Ruby Daniels

Ruby Daniels

Commissioner Bob Janes

Luckett Road Extension

Here are some ideas that will make this corridor work good for a long time, and should save money in the long term.

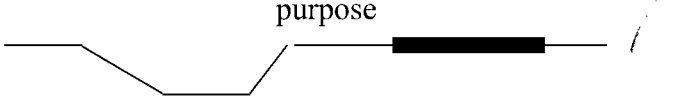

Starting at Enterprise Parkway--I-75 Interchange area, rebuild all three intersections with roundabouts. They have been shown to be very effective at handling Interstate ramp traffic. This will eliminate three traffic signals (Interstate ramps will need $1,000,000 for mast arms) and their perpetual maintenance.

Between Sunshine and Joel, obtain the canal right-of-way along 12th St. Build a two-lane divided road in that right-of-way and do not permit access except at Williams Avenue and Richmond Avenue. At these two intersections control traffic with roundabouts to maintain capacity. Close 12th St at each site to reinforce the local nature of that street.

Typical Cross section

20'	50'	20'	48'	12'
Maint	Canal	multi - purpose	roadway	shoulder

Kim and Patty Walker
18010 Parkinson Rd.
Alva FL. 33920

March 19 2007

Ms. Cella,

As residents of the relatively quiet community of Alva, we wish to voice our concerns over the proposed extensions of Sunshine and Luckett Rd.
The last thing Hwy 80 or Joel Blvd needs is more traffic. Traffic, accidents and deaths are out of control now. Redirecting more traffic to these areas will be detrimental to our lifestyles, ambience and wildlife. We purchased our properties to enjoy our rural atmosphere, not to be surround by roads and highways to appease those that live in overly developed areas.
The growth that has been allowed in Ft. Myers and Lehigh is not of our doing and we should not be made to suffer because of it.
Please continue to seek alternative outlets for the congestion that developers have been allowed to create.

Sincerely
The Walkers

Luckett Road & Sunshine Boulevard
Corridor Extension Studies
Public Information Workshop
June 26, 2007

The Lee County Department of Transportation (LC DOT) held a public information workshop for for the Luckett Road & Sunshine Boulevard Corridor Extension Studies on Tuesday, June 26, 2007. The workshop was held at the Gunnery Road Baptist Church, 1880 Gunnery Road North, Lehigh Acres, Florida. The workshop was conducted in an "open house" format that allowed the public to view the project material between 4:30 and 6:30 p.m. The workshop was held to inform the public of the project's progress, including the alternative alignments that are still under consideration for the extension of Luckett Road. The no-build alternative was recommended for Sunshine Boulevard so no alternatives were presented for that portion of the project. The study area for the Luckett Road extension is from Interstate 75, east to Joel Boulevard. The study area for the Sunshine Boulevard extension is from 59th Street West in Lehigh Acres and continues north to State Road 80.

The objective of the two studies is to develop transportation facilities that are economically sound. These studies will document the need for improvements, the procedures used in the evaluations, and the results of the environmental and engineering analyses. The workshop was held to present information and to receive public input on the alternative alignments for the Luckett Road extension. A total of **105** people signed in at the registration table at the workshop. Copies of the sign-in sheets are attached as Appendix A.

Newsletter No.2 detailing project background was mailed on Friday, June 15, 2007 to property owners within 300 feet of all alignment alternatives, interested parties, relevant County and City elected officials and staff members. The public information workshop was advertised in *The News-Press* on June 20, 2007 as a 1/4-page legal display advertisement. A press release was sent on June 22, 2007 to local media agencies. A copy of Newsletter No.2, a CD with a copy of the mailing list for the newsletter, a copy of the legal display ad printed in *The News-Press* and the press release for the workshop are attached as Appendix B.

A looping PowerPoint presentation which explained project background and progress played throughout the evening. Detailed aerials of the potential alignments, alignments which have been eliminated and display boards of the typical sections were placed around the room. Representatives from the LC DOT project team were available to discuss the project and answer questions. A handout was distributed at the workshop that explained the meeting format and summarized the project. A copy of the handout is attached as Appendix C.

Members of the public were provided with comment forms at the workshop in order to have their opinion recorded as public record. A total of **25** comments were received on the project through the 14-day comment period after the workshop. The comments were recorded and analyzed. The number in parenthesis after each comment indicates the number of times that same comment was submitted. The summaries of written comments received and copies of the comment forms are attached as Appendix D.

Luckett Road & Sunshine Boulevard Corridor Extension Studies

Newsletter #2

June 2007

In September 2006, the Lee County Department of Transportation (LC DOT) began conducting two Corridor Alignment Studies in East Lee County. The Luckett Road Corridor Extension study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard Corridor Extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80 (SR 80).

Progress of Studies

The corridor extension studies began with a wide range of potential alignments that were evaluated based on environmental impacts, community impacts and engineering constraints. The initial evaluation resulted in a set of alignment alternatives. These alternatives were presented at public workshops held in February and March of this year.

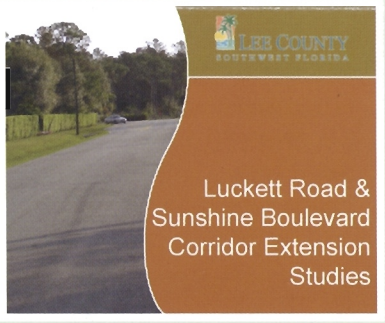

A total of 290 people signed in at these workshops, with over 200 written comments received. These comments were analyzed and considered when evaluating alternative alignments for the studies.

Inside this newsletter is an updated alignment map for the Luckett Road Corridor Extension Study. As a result of the analysis, LC DOT is recommending the no-build alternative for the Sunshine Boulevard Extension.

Why am I receiving this newsletter for the first time?

Since the initiation of the studies, additional alignments have been added as a result of public comment and evaluation. If this is the first time you have received correspondence on this project, it is because one of those additional alignment alternatives is within 300' of your property.

Public Involvement

Public involvement is a very important part of the Luckett Road & Sunshine Boulevard Corridor Extension Studies. Many opportunities for public input remain available during the course of the project. This newsletter is the second in a series of newsletters designed to keep you informed throughout the studies.

Keep up-to-date on what is happening on the project by visiting the project website at **www.LuckettSunshine.com**.

Sunshine Boulevard No-Build Recommendation

The LC DOT project team is recommending the no-build alternative for the Sunshine Boulevard extension. The no-build alternative assumes that LC DOT will not make improvements to extend Sunshine Boulevard to SR 80. This recommendation is based on the evaluation of public input, environmental impacts, community impacts and construction cost. The no-build alternative is recommended as the preferred alternative after weighing the benefits of the roadway improvements against the impacts.

Lucket Road Alte

The final analysis for the Luckett Road Extension between I-75 and Joel Boulevard is divided into two seg as a four-lane divided roadway. Segment 2 begins at Gunnery Road and heads east ending at Joel Bo designed for a 45 m.p.h. speed limit. Alternatives for each segment are described and illustrated below

Segment 1

Four final alternatives were evaluated for Segment 1 and are shown on the map below. These alternatives are **Alternative 1A** in red, **Alternative 1B** in blue, **Alternative 1C** in orange and **Alternative 1D** in green.

Alternative 1A begins at I-75 and follows the existing Luckett Road alignment east to Staley Farms Road. Just past Staley Farms Road, it turns south and follows the east side of the power line easement. Just north of the Buckingham Community Park, it turns east and follows Buckingham Road to the intersection of Centennial Boulevard and Gunnery Road.

Alternative 1B begins at I-75 and follows the same route as Alternative 1A, but shifts the alignment slightly to the north between the power line easement and Neal Road to avoid panther habitat impacts.

Alternative 1C begins at I-75 and follows the existing Luckett Road alignment until it crosses the southwest portion of the Gulf Coast Center, and then turns south toward Buckingham Road. Turning east, it follows Buckingham Road to the intersection of Centennial Boulevard and Gunnery Road.

Alternative 1D begins at I-75 and follows the existing roadway east until it reaches Pangola Road. At Pangola Road, it turns south and then turns east skirting the southern boundary of the Gulf Coast Center. Turning southeast it follows the Cavanaugh Canal and then turns east along Centennial Boulevard until it reaches Gunnery Road.

Luckett Road Corridor Extension Study

native Alignments

nents. Segment 1 begins near I-75 and heads east ending at Gunnery Road. Segment 1 is being evaluated levard. Segment 2 is being evaluated as a possible six-lane divided roadway. Both segments are being However, the no-build alternative is still a viable option for the Luckett Road extension.

Segment 2

Segment 2 alternatives are also shown on the map below. Two final alternatives, **Alternative 2A** shown in red and **Alternative 2B** shown in blue were evaluated for this segment.

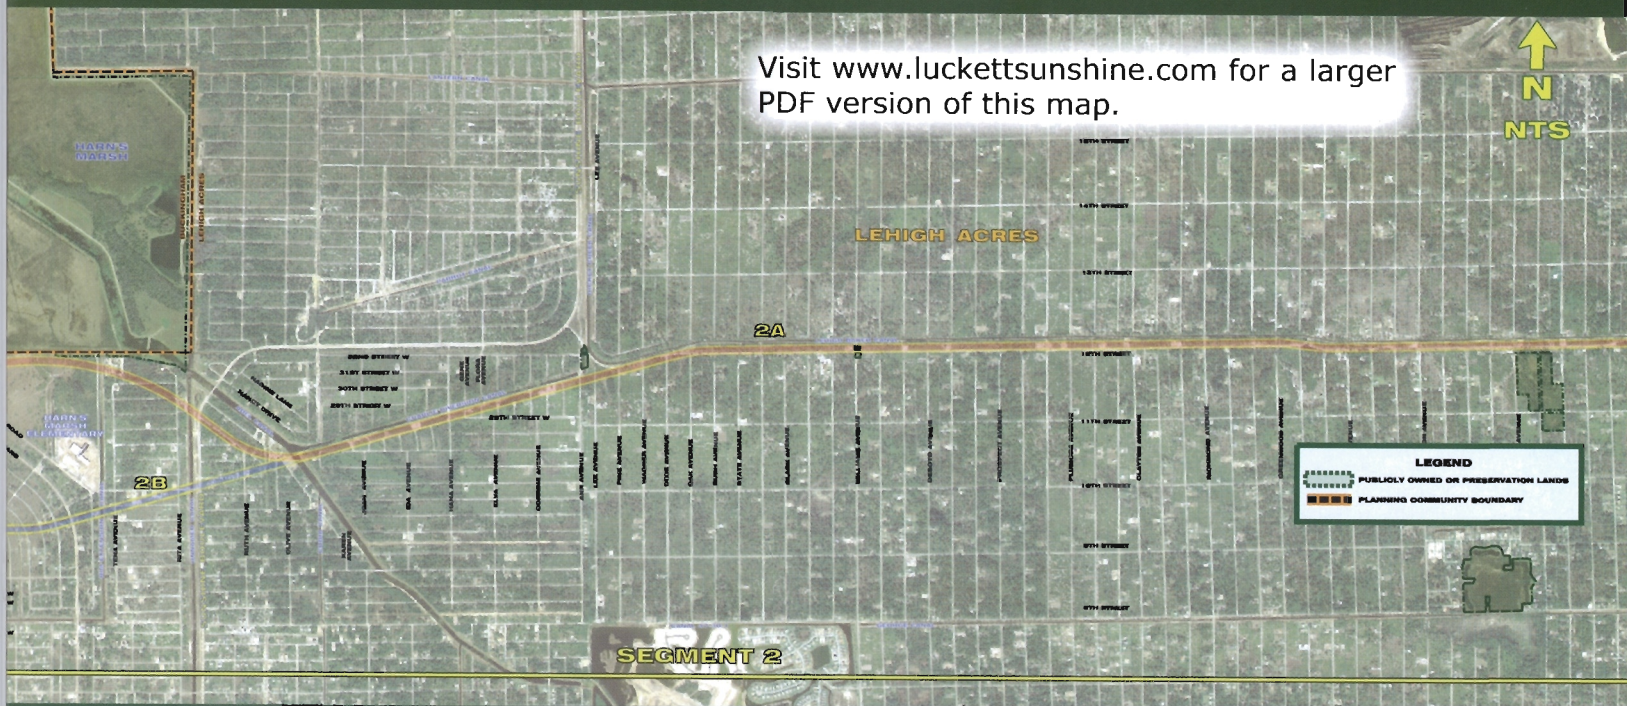

Alternative 2A begins at the intersection of Centennial Boulevard and Gunnery Road and skirts the southern boundary of the Buckingham Airfield. Following Park Avenue northeast, it passes north of Harn's Marsh Elementary School and generally follows the south side of the Charlie Diversion Canal until it reaches 12th Street. It then follows 12th Street to the end of the project at Joel Boulevard.

Alternative 2B begins at the intersection of Centennial Boulevard and Gunnery Road and continues east. Crossing Cornell Avenue, Sunset Road and 20th Street West, it aligns with 21st Street West and then turns northeast passing just south of Harn's Marsh Elementary School. It crosses Sunshine Boulevard and generally follows the south side of the Charlie Diversion Canal until it reaches 12th Street. It then follows 12th Street to the end of the project at Joel Boulevard.

Steps to a Preferred Alternative for the Luckett Road Extension

Comments received at the June 26, 2007 workshop will be taken into consideration and used together with engineering, environmental, and a community impact analysis to develop the preferred alternative. This preferred alternative will be presented at the final public workshop tentatively scheduled for Fall 2007. After assessing the public comments from the Fall 2007 public workshop, the final preferred alternative will be presented to the Lee County Board of County Commissioners for approval.

Public Information Workshop Scheduled

Time: 4:30-6:30 p.m. "open house"
Date: Tuesday, June 26, 2007
Place: Gunnery Road Baptist Church
1880 Gunnery Road North
Lehigh Acres, Florida

The Lee County Department of Transportation (LC DOT) invites the public to attend a public information workshop to view the progress of the Luckett Road/Sunshine Boulevard Corridor Extension Studies. The workshop will be held in an "open house" format. A presentation will play continuously throughout the evening, outlining the progress and the alignment alternatives that are still being considered. The no-build alternative is being recommended for Sunshine Boulevard and so no alternatives will be presented for this portion of the study. As always, the no-build option is still a viable option for the Luckett Road extension. Display boards will be available for viewing, and LC DOT and project representatives will be present to answer any questions.

PUBLIC INFORMATION WORKSHOP

LUCKETT ROAD & SUNSHINE BOULEVARD CORRIDOR EXTENSION STUDIES

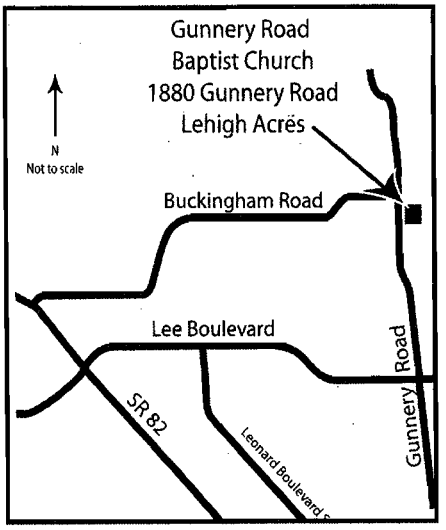

In September 2006, the Lee County Department of Transportation (LC DOT) began conducting two corridor alignment studies in east Lee County. The Luckett Road Corridor Extension study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard Corridor Extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80 (SR 80).

The Lee County Department of Transportation (LC DOT) invites the public to attend a public information workshop to view the progress of the Luckett Road and Sunshine Boulevard Corridor Extension Studies.

TIME
"Open House"
4:30-6:30 p.m.

DATE
Tuesday
June 26, 2007

PLACE
Gunnery Road
Baptist Church
1880 Gunnery Road
Lehigh Acres

The workshop will be held in an "open house" format. A presentation will play continuously throughout the evening, outlining the progress and the alignment alternatives that are still being considered. The no-build alternative is being recommended for Sunshine Boulevard and so no alternatives will be presented for this portion of the study. As always, the no-build option is still a viable option for the Luckett Road extension. Display boards will be available for viewing, and LC DOT and project representatives will be present to answer any questions. The meeting will be conducted in an "open house" format; no formal presentation will be given. You may attend anytime between 4:30 – 6:30 p.m.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella via e-mail to kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, contact Ms. Cella.

Public Information Workshop Scheduled For the Luckett Road & Sunshine Boulevard Corridor Extension Studies

Fort Myers, FL, June 21, 2007– The Lee County Department of Transportation (LC DOT) will conduct a public information workshop for the Luckett Road & Sunshine Boulevard Corridor Extension Studies.

• The workshop will be held from **4:30-6:30 p.m.** on **Tuesday, June 26, 2007** at **Gunnery Road Baptist Church**, 1880 Gunnery Road, Lehigh Acres.

The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime between 4:30 – 6:30 p.m.

The Luckett Road Corridor Extension Study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard Corridor Extension Study area begins in Lehigh Acres at 59th Street and continues north to State Road 80 (SR 80).

These studies are being conducted to assist LC DOT in reaching a decision on the location and conceptual design for the long-range improvements for the extension of Luckett Road from I-75 to Joel Boulevard and the extension of Sunshine Boulevard from 59th Street north to SR 80. LC DOT project team has recommended the "no-build" alternative for the Sunshine Boulevard extension. Analysis for the Luckett Road Extension is continuing and will be presented at this workshop.

LC DOT is inviting the public to attend the public information workshop to view a short video presentation to learn more information about the project. Display boards with more detailed aerials of the potential alignments and roadway typical sections will be on display. Representatives from LC DOT project team will be available to discuss the project and answer questions.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella with Cella Molnar & Associates at kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, please contact Ms. Cella.

LUCKETT ROAD & SUNSHINE BOULEVARD CORRIDOR EXTENSION STUDIES
PUBLIC INFORMATION WORKSHOP
June 26, 2007

INTRODUCTION
The Lee County Department of Transportation (LC DOT) welcomes you to this public information workshop for the Luckett Road & Sunshine Boulevard Corridor Extension Studies. Representatives from LC DOT are present to discuss project information and answer your questions. **There will not be a formal presentation this evening.**

To get the most out of this workshop we recommend that you view the exhibits in the following order:
- Watch the looping, 10-minute video presentation that contains an overview and more information about the project.
- View aerial boards showing the alignment alternatives, evaluation matrix and environmental factors.
- Fill out your comment forms and deposit in the comment boxes tonight or mail to the address provided on the back of the form within 14 days.

All comments become a part of the project record and will be compiled into a technical memorandum for the Luckett Road & Sunshine Boulevard Corridor Extension Studies Public Information Workshops. The technical memorandum will be available for viewing in approximately four to six weeks on Lee County's web site at www.lee-county.com/publicworks/workshop.htm.

PROJECT DESCRIPTION
The Luckett Road Corridor Extension study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard Corridor Extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80 (SR 80).

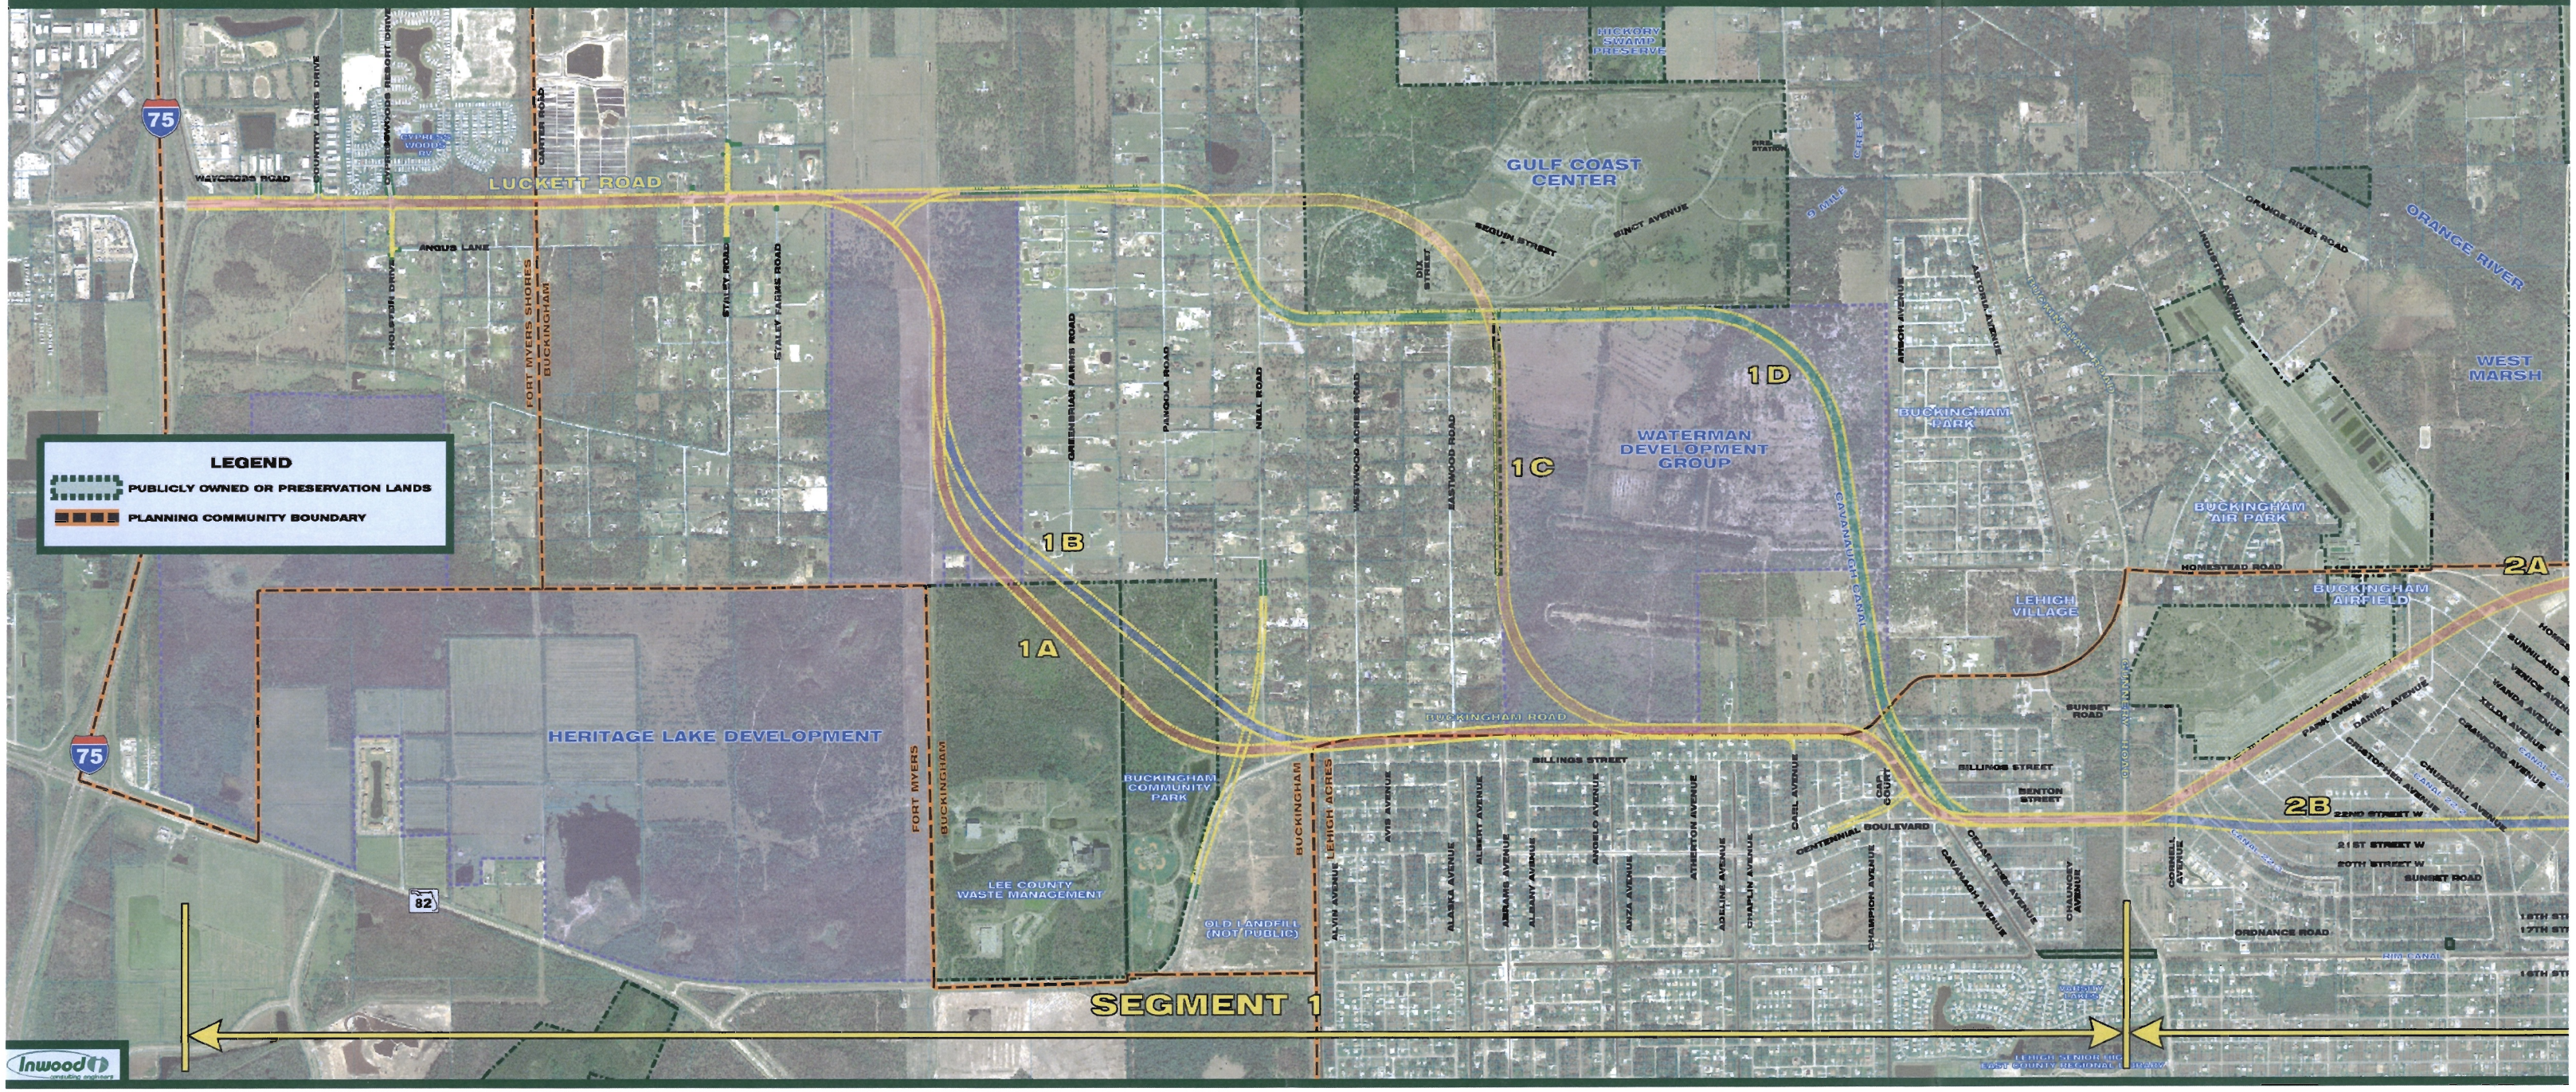

EVALUATION OF ALTERNATIVES
The corridor extension studies began with a wide range of potential alignments that were evaluated based on environmental impacts, community impacts and engineering constraints. The initial evaluation resulted in a set of alignment alternatives. These alternatives were presented at public workshops held in February and March of this year. Over 200 written comments were received as a result of the workshops. These comments were analyzed and considered when evaluating alternative alignments for the studies. The aerial boards on display this evening show the updated alignment map for the Luckett Road Corridor Extension Study.

STEPS TO A PREFERRED ALTERNATIVE FOR THE LUCKETT ROAD EXTENSION
Comments received from this workshop will be taken into consideration and used together with engineering, environmental, and community impact analysis to develop the preferred alternative. This preferred alternative will be presented at the final public workshop tentatively scheduled for Fall 2007. After assessing the public comments from the Fall 2007 public workshop, the final preferred alternative will be presented to the Lee County Board of County Commissioners for approval.

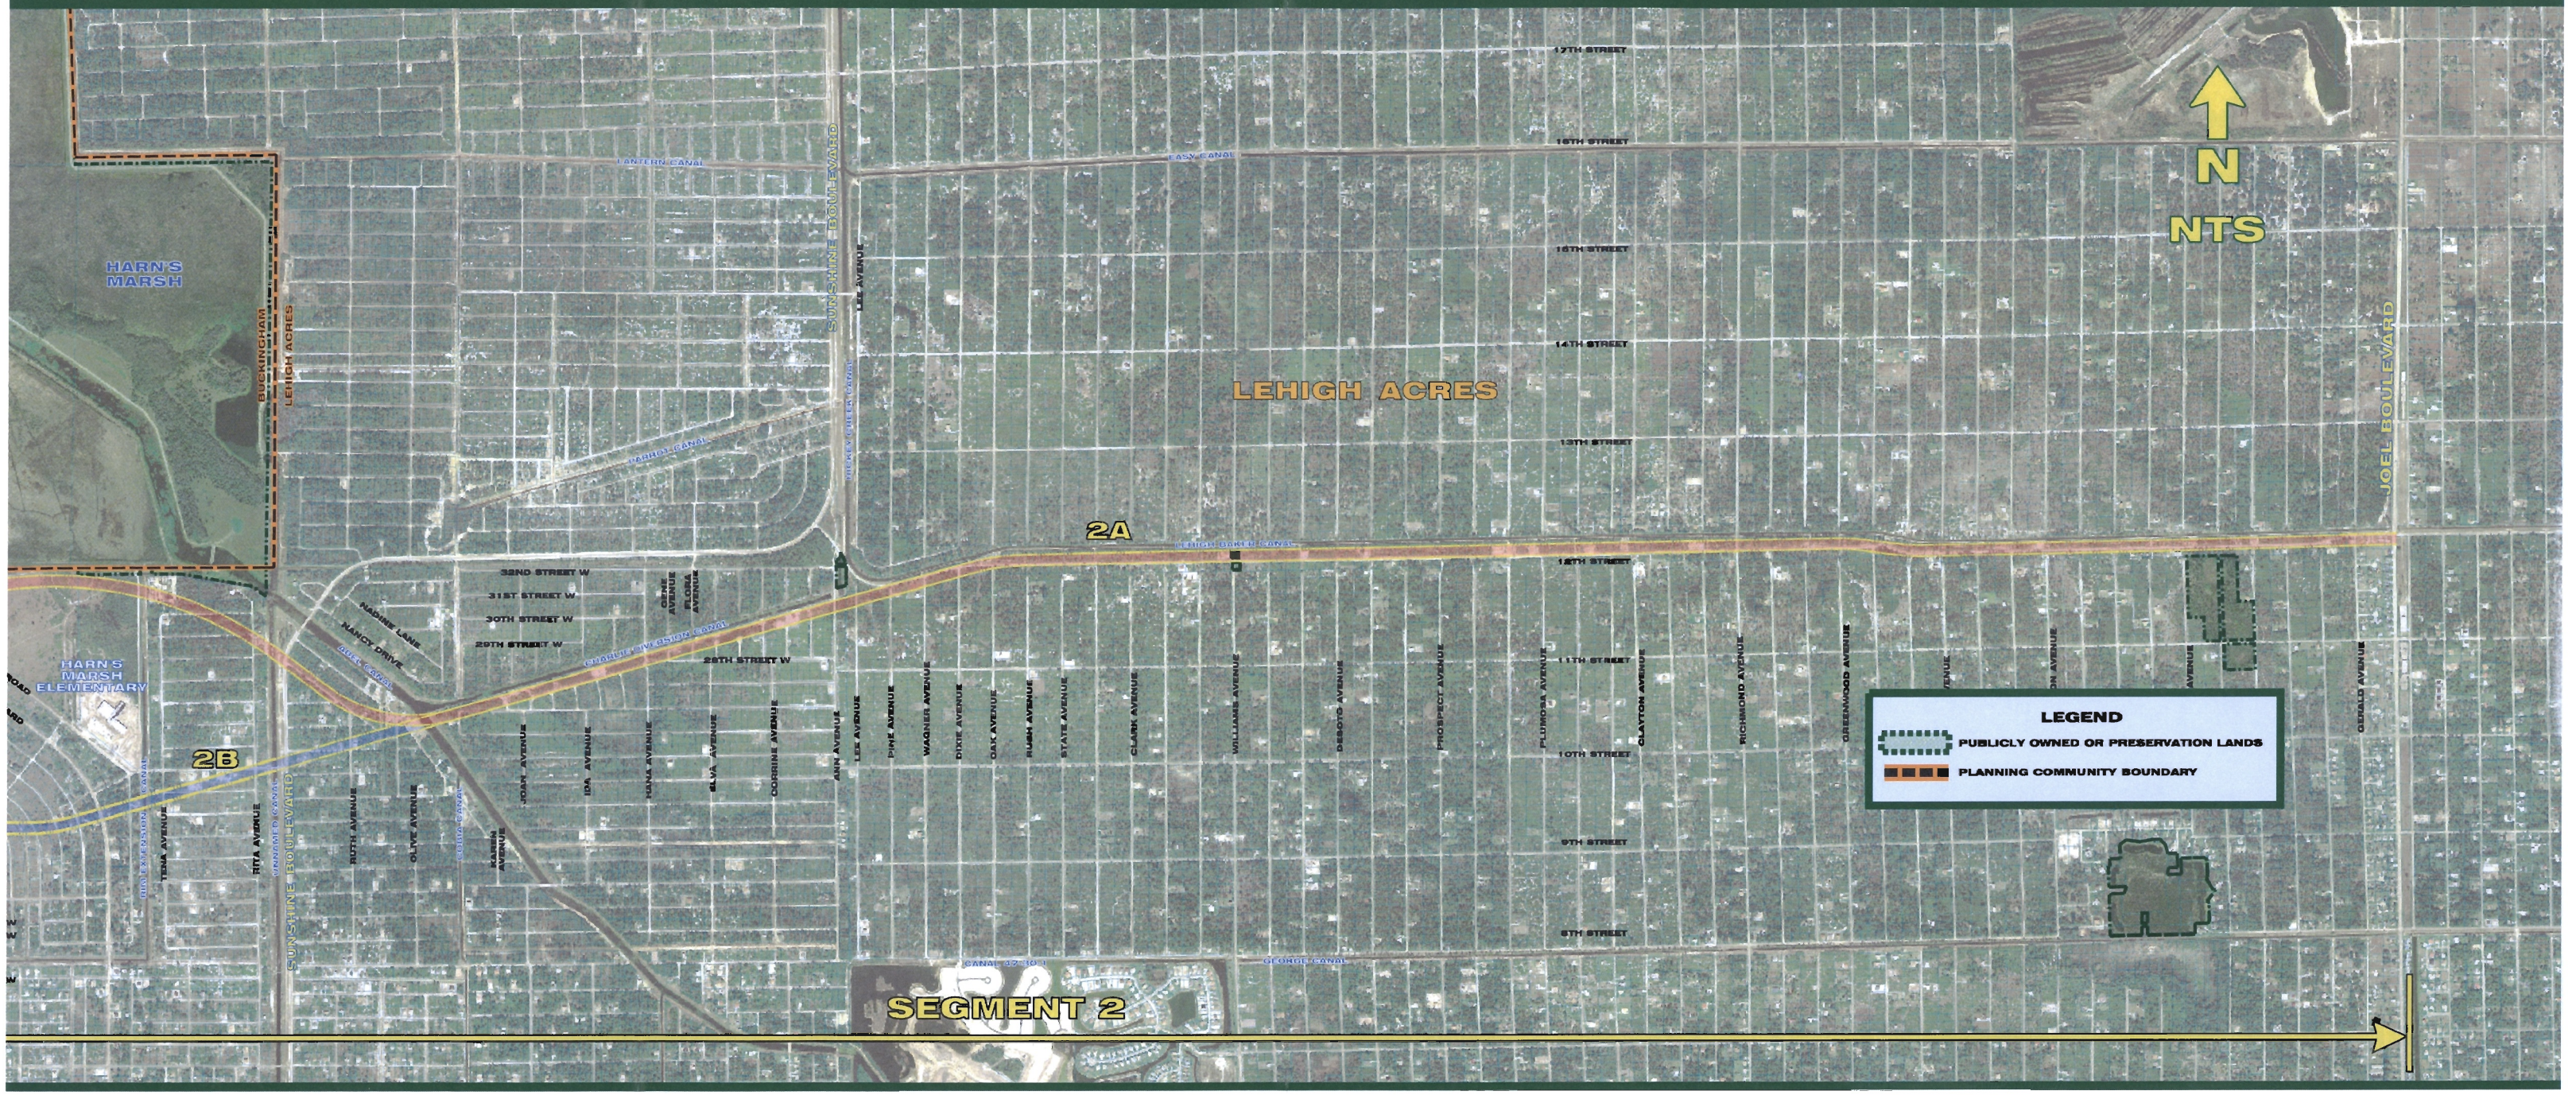

SUNSHINE BOULEVARD RECOMMENDATION
The LC DOT project team is recommending the no-build alternative for the Sunshine Boulevard extension. The no-build alternative assumes that LC DOT will not make improvements to extend Sunshine Boulevard to SR 80. This recommendation is based on the evaluation of public input, environmental impacts, community impacts and construction cost. The no-build alternative is recommended as the preferred alternative after weighing the benefits of the roadway improvements against the impacts.

PROJECT CONTACT
If you have questions or would like information about this project, please contact the project's public information consultant, Cella Molnar & Associates, Inc., at (239) 337-1071 or toll-free at 1-877-496-1076 or e-mail to kcella@cella.cc. Visit the web site at www.luckettsunshine.com.

LUCKETT ROAD EXTENSION CORRIDOR STUDY

ALIGNMENTS EVALUATED

Appendix D

Luckett Road & Sunshine Boulevard Corridor Extension Studies
Workshop Comments Summary

General comments

Comment: Building Sunshine Boulevard north to Palm Beach Boulevard would have been a big help for north east Lehigh but that is dead. **(1)**

Comment: I cannot understand how the extension of Sunshine Boulevard to SR 80 cannot be accomplished by either rerouting it around River Hall or by a different alignment. After all each of the current alignments for Luckett Road border on property owned by the Waterman Development Group instead of going through it. How convenient they will have a main thoroughfare access to their property now and be able to make a fortune when they develop it. **(1)**

Response: Thank you for your comments.

Comment: I appreciate what you guys are doing but when I bought the land I intended it to be for my kids. When I pass away I would like it to go to them so they could make something of it, but when I heard you guys want to build a road in it, I was worried. If you guys really want to build a road there I was hoping I would get a reasonable amount of money for it instead of handing it down to my kids. I want extra money for it. **(1)**

Comment: I am the owner of a lot that has been in my family for over 50 years. I have been trying to sell my lot and I have found out it may be in the path of a proposed extension of Luckett Road. My understanding is that if I put my lot up for sale again and someone tries to buy it, they will discover that the property is "flagged" for a future road project, meaning that I will not be able to sell my lot for development. Because of this I am willing to sell my lot to Lee County. **(1)**

Response: Currently this is just a corridor study to develop a recommended alignment for the project. No funding is available for right-of-way acquisition, design or construction. However, funding for advance/voluntary right-of-way purchases (approximately $6 million over a three year period) is proposed in the draft Capital Improvement Program that will be adopted in September.

Comment: The intersection off Staley Road and Orange River Road is very dangerous in the morning hours because of the heavy use on Orange River Road. **(1)**

Response: Thank you for your comment.

In favor of the project

Comment: I am really looking forward to seeing this project started. The direct access to the interstate is really going to be convenient. The county is opening up two schools on Tice Street this August. This is really going to make traffic on Tice heavy. In the morning traffic is already heavy, due to the cars coming of Orange River Road, trying to get out of Buckingham Road and Lehigh Acres. **(1)**

Comment: This is a good thing to open a highway to divide the route. **(1)**

Comment: I am in total agreement for this project. **(1)**

Comment: The Luckett Road extension is needed very badly. Colonial Boulevard, SR 82 and Palm Beach Boulevard are backed up with stop-and-go traffic each morning going west to I-75 and Fort Myers. Lehigh is probably only 30-50% built out now and traffic will only get worse since single family permits have been running around 70% in Lehigh over the last year. **(1)**

Response: Thank you for your comments.

Preferred alternative

In favor of 1A or 1B

Comment: We feel option 1A or 1B would be a better route. You will be saving money as per the estimated cost. In today's economy and with tax cuts and booming services needed it needs to be considered as the preferred plan. **(1)**

Comment: I would support alternative 1A as the best option for segment 1 as it poses the least impact to the Buckingham area and will not displace my neighbors. Ideally a no-build option would please me but the increasing traffic from Lehigh through Buckingham makes this project a necessity. **(1)**

Comment: If this project is necessary, I would accept only one option, and that would be 1A. Other than that I do not agree with this project. **(1)**

Comment: If you don't go with my suggestions, the next best route is 1A. **(1)**

Response: Thank you for your comments.

In favor of 1C

Comment: 1C seems to be the best option. **(1)**

Response: Segment alternative 1C assumes that the Gulf Coast Center property would be available. The County thought that the land might be made available by the state but this has not been done yet. Since the County cannot condemn State land, the right-of-way is indeterminate at this time.

In favor of 1D

Comment: We urge the adoption of some form of Luckett Extension 1D with alignment to allow Buckingham to be connected to Luckett Road in the future at the SE corner of Gulf Coast Center Property. Purchase the ROW now for this connection. **(1)**

Response: Thank you for your comment; it will be taken into consideration during the evaluation process.

In favor of 2A

Comment: As an airport resident I strongly recommend alternative 2A. Mosquito control is a vital part of the quality of life in Lee County. 2A would provide a buffer between airport operations of the sheriff's aviation department, mosquito control, private pilots at the airport and the residential area to the southeast of the airport. I recommend 2A. **(1)**

Comment: Lee County Mosquito Control District has entered into an agreement with Lee County Lands to act as its agent in procuring all available properties surrounding and adjacent to the Buckingham Airfield. This would include all the lots along the south runway which are also part of the Luckett Road Extension Corridor 2A. It is the Districts intention to acquire properties adjacent to our runways and the Board may exercise the right of eminent domain and institute condemnation proceedings at a future date in order to complete this land acquisition. The Board believes the proposed Luckett Extension corridor 2A is the best alignment since it would eliminate residences along the edge of the south runway. **(1)**

Response: Thank you for your comments these will be taken into consideration during the evaluation process.

In favor of 2C1

Comment: I feel route 2C1 should be used rather than going south through Buckingham and Lehigh Acres. Let the people go north to the new road or south to SR 82. Don't run the main roads so close together. **(1)**

Response: Due to environmental and community impacts alignment 2C1 has been eliminated as a viable alternative.

In favor of 2B

Comment: I request that the County selects 2B as the preferred alternative for the Luckett Road Extension. The County's selection of 2B as its preferred alignment will result in the tax payers benefiting from not having to condemn my clients' property, with its vested value that is a result of the current land development approvals for the development of approximately 594 residential units. Also if the County selects 2B as their preferred alignment the County taxpayers will receive the benefit of my clients being able to develop quality housing which can be utilized by firefighters, law enforcement and other young professionals in Lehigh Acres. **(1)**

Response: Thank you for your comment; it will be taken into consideration during the evaluation process.

Not in favor of project/alternatives

No Build

Comment: I favor the No-Build (the county is over built now) Luckett Road enters I-75, which is overloaded now. It also empties traffic onto SR 80 which is the same. **(1)**

Comment: The road is not being proposed to relieve traffic, but to increase it. I recommend the no build. Segment 1 serves only as a passageway for people east of Sunshine Boulevard. Section 2 is too far south (closer to Lee Boulevard) since it can't be built around 18th street don't build it at all. East/west traffic east of Sunshine is well served now and years from now by 16th Street, 14th Street, 12th Street and 10th Street. **(1)**

Comment: Do not build. The FP&L power line route east of Staley Road is a route used by Florida Panthers. I have observed them crossing Luckett Road Extension on a number of occasions in the past 16 years. Presumably Lee County considers Buckingham a "rural community preserve area", if the subtitle on the boundary signs has any meaning. Why would you want to cut it in half with a four-lane divided highway? The Luckett Road exit from I-75 was constructed to accommodate adjacent well "connected" land owners and by current standards it would not have been built. This purpose has been fulfilled. Do not compound this error. DO NOT BUILD THE LUCKETT ROAD CORRIDOR EXTENSION. **(1)**

Comment: I was aghast because of the alignments which cut off approximately one-third of the north side of the Buckingham Park. In the past, I have been involved in the development of this park. In my view once a park is designated, it should never be taken from the public for any reason. Are we just buying and developing land for future development? I thought the reason for parks was to ensure that there would be enough land for future generations. I do not believe this corridor will help the average working person in Lehigh Acres who has to commute to downtown Fort Myers each day. I personally live within one block of the proposed alignment and cannot see it of being any value to me. This corridor is not the answer to any traffic problems we have. In fact it will only add to the dilemma once Waterman Development Group begins to build. **(1)**

Comment: I am not in favor of the project but if it has to be built use 2A as a last resort. **(2)**

Response: The "no build" alternative is still a part of this study and is being evaluated along with the other alignments.

Against 1A or 1B

Comment: Alternatives 1A and 1B seem to take less developed homesteads on acreage that is hard to come by in Lee County. **(1)**

Comment: I am against 1B as it displaces my neighbors. **(1)**

Response: Thank you for your comments; they will be taken into consideration during the evaluation process.

Against 1C or 1D

Comment: Options 1C and 1D would ruin our neighborhood splitting it with access roads. We would prefer option C to remove our whole house instead of 1D which would land lock us with roadways on three sides of our house - that would also cause drainage problems. We have a plumbing business at our home; it would be difficult to relocate. There are not many opportunities in the county to operate a business at home like the place we have now. **(1)**

Response: Thank you for your comments; they will be taken into consideration during the evaluation process.

Against 2A

Comment: My clients have completed the process of acquiring a rezoning approval for their property. A portion of alternative 2A at the point southeast of the Buckingham airfield passes through the middle of my clients' property. As proposed, alternative 2A will destroy my clients' ability to develop their property as currently zoned. **(1)**

Response: Thank you for your comment; it will be taken into consideration during the evaluation process.

Questions

Comment: All options put a lot of traffic at Staley Road and Staley Farm areas. What are connecting roads going to be like - Staley, Tice, Orange River, and Ortiz? **(1)**

Comment: When we get to I-75 what's there and where are we going? **(1)**

Comment: What are the plans to improve the intersection of Luckett Road and Staley Road? **(1)**

Comment: What about drainage improvements/impacts for the Staley Road/Luckett Road area? **(1)**

Comment: There are no access points to the road indicated, but to my understanding this is to be a limited access thoroughfare. Does this mean "limited access" like Summerlin Road was supposed to be, or limited access only to those that can buy the rights through impact fee waivers, tax breaks etc? How many accesses are currently being proposed? **(1)**

Response: Details regarding roadway and drainage features will not be available until the design and permitting stages. Turn lanes, signals, speed limits, etc. will be addressed in the design phase if the project is approved.

Comment: Is Buckingham really being preserved by alternatives 1C and 1D? It would be divided by Lehigh traffic. **(1)**

Response: Buckingham is designated as rural preserve. However when the plan was adopted it included language that acknowledged that Luckett Road could one day be extended. The language requested an alignment study and recommended the alignment be as far to the south as possible. This study is complying with the comprehensive plan.

Comment: What would the time frame for this project start date be if the county gives the "ok" for the road? **(1)**

Comment: Where is the money going to come from? **(1)**

Response: Currently this is just a corridor study to develop a recommended alignment for the project. No funding is available for right-of-way acquisition, design or construction.

Comment: How much are they going to give for our land? **(1)**

Response: If a preferred alignment is accepted by the Lee County Board of County Commissioners funding will be made available for voluntary right-of-way acquisition from property owners willing to sell who would be impacted by the chosen alignment for fair market value.

Suggestions/Requests

Comment: The best route would go south of Buckingham Rural Community Preserve – turning south just east of I-75 and west of Holstein. **(1)**

Comment: I would rather see Luckett Road go east towards Joel Boulevard as straight as possible to limit conditions of traffic all heading to one way. **(1)**

Comment: Use money to improve roads east of I-75 in Fort Myers. **(1)**

Comment: If there really is a need for more road capacity east to Lehigh Acres, then expand the existing Buckingham Road from SR 82. It is a shorter route and will disturb fewer residents of Buckingham, as well as cost far less to build. **(1)**

Comment: If the windfall funds in the Lee County coffers still burn holes in the pockets of the Commissioners and their Lobbyists, how about a hiking/biking and equestrian trail along the FP&L right-of-way between Buckingham Community Park and Manatee Park. **(1)**

Comment: The proposed western end of the Luckett Road corridor exits onto Ortiz Avenue which I understand is in the process of being widened. However, when reaching the end at Ortiz, drivers will still have to either make a right to go to Palm Beach Blvd, or a left to get to Martin Luther King Jr. Blvd to get downtown. Seriously, why would anyone take this corridor if it were not to get to the downtown area? An overpass of Ortiz and MLK would make a lot more sense to move traffic along SR 82 into town than leading people into a dead end. **(1)**

Comment: We continue to suggest that the road not be curved into 12th Street but connected to Briarcliff Development. 12th Street has many duplexes built and will be expensive for the county to purchase land. **(1)**

Response: Comments noted.

Comment: A more orderly and thoughtful plan of action would be advantageous, such as constructing the Sunshine extension, Cemetery Road extension, SR 82 overpass in conjunction with FDOT and conservative approaches to future development. **(1)**

Comment: Orange River Boulevard should be connected to Sunshine Boulevard to relieve congestion on Cemetery Road through a residential area. **(1)**

Comment: Orange River Road should be extended to Joel Boulevard and Sunshine Boulevard should not be ruled out, whether or not it goes through River Hall. **(1)**

Response: LC DOT project team is recommending that no improvements be made to Sunshine Boulevard based on the evaluation of public input, environmental impacts, community impacts and construction cost.

Comment: Please include a right-of-way that includes a wide grassy dry easement for horses. **(1)**

Comment: I would like to see more information about the design of individual property access roads to Luckett Road. **(1)**

Comment: We need pressure pad type signals for turning onto Luckett Road from Staley Farms Road, Greenbriar/Pangola area with horse trailers across the 6-lane divided highway. **(1)**

Comment: We feel where ever the road goes noise barriers should be included in residential areas. **(1)**

Comment: The design should discourage annexing and conversion to commercial in Buckingham by limiting access and signs. **(1)**

Comment: Access in Buckingham must be designed for use by slow farm equipment, horse trailers etc. **(1)**

Response: Details regarding roadway and drainage features will not be available until the design and permitting stages. Turn lanes, signals, speed limits, etc. will be addressed in the design phase if the project is approved.

Re: Luckett Road Extension Study

My recommendation as a result of your second Public Workshop held on June 26th is, DO NOT BUILD.
Following are the reasons:
The FP&L power line route East of Staley Rd is route used by Florida Panthers. I have observed there crossing of Luckett Rd Extension on a number of occasions in the past 16 years.
Presumably Lee County considers Buckingham a "rural community preserve area", if the subtitle on the boundary signs has any meaning. Why would you want to cut it in half with a four- lane divided highway?
The Luckett Road exit from I-75 was constructed to accommodate adjacent well "connected" land owners and by current standards would not be built. This purpose has been fulfilled. Do not compound this error.
Finally if there really is a need for more road capacity East to Lehigh Acres, then expand the existing Buckingham Road from SR 82. It is a shorter route and will disturb fewer residents of Buckingham, as well as cost far less to build.
If the windfall funds in the Lee County coffers still burn holes in the pockets if the commissioners and there lobbyists, how about a hiking/biking and a equestrian trail along the FP&L right-of-way between Buckingham community Park and Manatee Park.
I repeat: DO NOT BUILD THE LUCKETT ROAD CORRIDOR EXTENSION.

Sincerely,

Robert Bocinsky

Dear Mr. McIntyre:

Thank you for your letter of June 26, 2007 regarding the proposed Luckett Road project.

I appreciate you sharing your concerns with me. It is very important to hear from citizens like yourself who have genuine concerns and frustrations regarding sensitive issues such as this.

Unfortunately, I have been given very little information on this project so far because DOT wanted to hold several public hearings within the affected communities before they could come to the Board with respect to the citizen's response on the options.

In the meantime, if you have not voiced your objection to this project with Cella and Associates, I will take the liberty of forwarding your letter to them so they will have your position on record.

Again, thank you for sharing your concerns with me and I will keep your comments in mind when I am presented with this project for review.

Sincerely,

Frank Mann

Dear Commissioners,

I want to let you know that I attended the County-sponsored workshop this evening on the Luckett Road project and wanted to forward to you in detail the comments I left to ensure that the persons making the ultimate decisions will receive them.

First, I was aghast because of the alignment(s) which cut off approximately one-third of the north side of Buckingham Park. In the past, I have been involved in some extent with the development of this park; the area that is being proposed was for the use of dog trails and horse riding trails with even stables originally proposed. This would have been an ideal use of this portion of the park being in a rural area with ranchettes permeating the area. I don't foresee that ever happening now. In my view, once a park is designated, it should never be taken from the public for any reason. Are we just buying and developing park land to bank for future development? I thought the reason for parks was to ensure that there would be enough land for future generations.

Second, I sincerely do not believe that this corridor will help the average working person in Lehigh Acres who has to commute to the downtown Ft. Myers area each day. I personally will live within one block of the proposed alignment and can not foresee it being of any value to me. If anything, Orange River Blvd. should be connected to Sunshine Blvd. to relieve the congestion on Cemetery Road through a residential area. Along those lines, I can not understand how the extension of Sunshine Blvd. to Route 80 can not be accomplished either by rerouting around River Hall or a different alignment. After all, each of the current alignments of Luckett Road as proposed, border on property owned by the Waterman Development Group instead of going trough it. How convenient that they will have a main thoroughfare access to their property now and be able to make a fortune when they develop it!

Third, the proposed western end of the corridor exits onto Ortiz Ave. which I understand is in the process of being widened. However, when reaching the end at Ortiz, drivers will still have to either make a right to go to Palm Beach Blvd. or a left to get to Martin Luther King to get downtown. And seriously, why would anyone take this proposed corridor if it were not to get to the downtown area? A pass-over at Ortiz and MLK would make a lot more sense to move traffic along Route 82 into town than leading people into a dead end.

Also, there are no access points to the road indicated, but to my understanding this is a limited access thoroughfare. Does this mean "limited access" like Summerlin Road was supposed to be, or limited access only to those that can buy the rights through impact fee waivers, tax breaks, etc.? And how many accesses are currently being proposed?

I understand that we are in a quickly developing area since I've been in the county over thirty years and in Lehigh Acres over twenty five years, but this corridor is not the answer to any traffic problems we have. In fact, it will only add to the dilemma once Waterman Development Group begins to build. In my opinion, a more orderly and thoughtful plan of action would be advantageous, such as constructing the Sunshine Extension, Cemetery Road Extension, Route 82 pass-over in conjunction with the State of Florida, and conservative approaches to future development. For me the only option to this proposal is the "No-Build" one.

Thank you for your attention to my opinion and I certainly respect you for volunteering for the thankless job of being a public servant.

Respectfully,

Edward McIntyre

Comments: AFTER REVIEWING LUCKETT RD EXTENSION PLANS WE FEEL OPTION 1A + 1B WOULD BE A BETTER ROUTE. YOU WILL BE SAVING MONEY AS PER THE ESTIMATED COST. IN TODAYS ECONOMY & WITH TAX CUTS AND BOOMING SERVICES NEEDED IT NEEDS TO BE CONSIDERED AS THE PREFERRED PLAN.

OPTIONS 1C + 1D WOULD RUIN OUR NEIGHBORHOOD SPLITTING IT WITH ACCESS ROADS.

WE WOULD PREFER OPTION 1C TO REMOVE OUR WHOLE HOUSE INSTEAD OF 1D WHICH WOULD LAND LOCK US WITH ROAD WAYS ON THREE SIDE OF OUR HOUSE. THAT WOULD ALSO CAUSE DRAINAGE PROBLEMS.

WE HAVE A PLUMBING BUSINESS AT OUR HOME WHICH WOULD MAKE IT DIFFICULT TO RELOCATE. THERE ARE NOT MANY OPTIONS IN THE COUNTY TO OPERATE A BUSINESS AT HOME LIKE THE PLACE WE HAVE NOW! PURCHASING OR RENTING A BUSINESS LOCATION IS AN EXPENSIVE OPTION FOR THE SMALL BUSINESSMAN!

City Ft Myers **State** FL **Zip Code** 33905

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: I would support Alternative 1A as the best option for Segment 1, as it poses the least impact to the Buckingham area and will not displace my neighbors (vs. Alt 1B which runs through the home of Rex + JoAnn Nance). Our street - Greenbriar Farms Rd is home to over 45 horses and residents enjoy access to trails near the Lee Co. Dog Park/Buckingham Park, and often trail ride down Luckett Ext. Ideally, a no-build option would please me, but the increasing traffic from Lehigh through Buckingham makes this project a necessity.

Other concerns include:

1) A right-of-way that includes a wide grassy easement (dry) for horses
2) Pressure-pad type signals for turning onto Luckett from Staley Farms Rd, Staley Rd, Greenbriar/Pangola area with horse trailers across the 6-lane divided hwy.

Comments: LOCOMOTIVE NO BUILD -

SEGMENT 1 IS SERVING ONLY AS A PASSAGEWAY FOR PEOPLE EAST OF ABOUT SUNSHINE.

SUNSHINE NORTH TO PALM BEACH WOULD MAKE BUILD A BIG HELP FOR N. E LEHIGH BUT THAT IS DUMB.

SECTION 2 IS TOO FAR SOUTH (CLOSE TO CORE) SINCE IT CAN'T BE BUILT AROUND 10TH ST AND BUILD AT ALL

EAST-WEST TRAFFIC EAST OF SUNSHINE IS WELL SERVED NOW & 4 YEARS FROM NOW BY 16TH ST., 14TH ST, 12TH, 10TH ST

USE MONEY TO IMPROVE ROADS EAST OF I 75 IN FT. MYERS

Comments: I am the owner of LOT # 24-44-26-08-00063.0020 at site address 2803 Gene Ave. North, Le High Acres, FL. 33971 (Legal Description: LeHigh Acres Unit 8 Blk. 63 PB 15 PG 68 Lot 2) This lot has been in my family for over 50 years. I have been trying to sell my lot for the past two years without success. In march 2007, I received a notice that my lot in LeHigh Acres might be in the path of a proposed extension of Luckett Road. When I attended the public meeting on June 26, 2007, I discovered that the Luckett Road extension is very likely to run directly over my lot. My understanding is that if I put my lot up for sale again and someone tries to buy it, they will discover that the property is "flagged" for a future road project, meaning that I will not be able to sell the lot for development. Because of this, I am willing to sell my lot to Lee County! I will continue to monitor the Luckett Road Corridor extension studies and plan on attending the next Public Information Workshop. Please let me know if or When Lee County might purchase my lot.

Sincerely,
Alice V. Runyan

Comments: I'm Really looking FORWARD To seeing This PROJECT STARTED. The DIRECT Access To The INTERSTATE IS Really GOING TO BE CONVENIENT. THE COUNTY IS OPENING UP (2) SCHOOLS ON TICE ST. This AUGUST. This IS Really GOING to MAKE TRAFFIC ON TICE HEAVY IN THE MORNINGS AND AFTERNOONS. The TRAFFIC IN THE MORNING ALREADY IS VERY HEAVY, DUE TO The CARS COMING OFF ORANGE RIVER RD, TRYING TO GET OUT OF BUCKINGHAM RD AND Leehigh ACRES. The INTERSECTION OFF STANLEY RD & ORANGE RIVER RD. IS VERY DANGEROUS IN The MORNING hours BECAUSE OF The HEAVY USE ON ORANGE RIVER RD.

I WOULD like TO see MORE INFORMATION ABOUT THE DESIGN OF INDIVIDUAL PROPERTY Access ROADS TO Luckett ROAD. ALSO WHAT ARE The PLANS TO IMPROVE The INTERSECTION OF Luckett & STANLEY RD. WHAT ABOUT DRAINAGE IMPROVEMENTS / IMPACTS FOR This AREA? WHAT WOULD The Time FRAME FOR This PROJECT START DATE BE IF COUNTY GIVES OK FOR THE ROAD?

(Attach additional sheets if necessary)

Comments: NO BUILD!! FOR THE FOLLOWING REASONS
EVEN W/ORTIZ BEING WIDENED, WHERE DOES THE TRAFFIC GO GOING WEST - 80 OR 82 - CRAZY
WHY ARE WE CUTTING INTO PARK LAND?
WATERMAN DEV. GRP. MUST HAVE PAID A FORTUNE TO HAVE ALL 3 ALIGNMENTS BORDERING THEIR PROPERTY
I'M SURE THEY WILL MAKE IT BACK
IF ANYTHING ORANGE RIVER SHOULD BE EXTENDED TO JOEL. AND SUNSHINE SHOULD NOT BE RULED OUT WHETHER OR NOT IT GOES THRU RIVER HALL.
WHERE ARE ROAD ACCESS POINTS. LIMITED ACCESS IS A JOKE JUST LIKE SUMMERLIN WAS SUPPOSED TO BE.

THIS IS WHAT OUR FUTURE CHILDREN WILL INHERIT.

NO BUILD!!!

BUILD SUNSHINE INSTEAD.

RE: Luckett Road Corridor Extension Study-Segment 2-Gunnery Road to Joel Blvd.
Option 2A vs. 2B-Impacts to Buckingham Villages Development
Strap No. 22-44-26-00-0003.0000

Dear Sarah:

I represent the property owners of the real property located on Unice Avenue southeast of Buckingham Airfield and immediately adjacent to Harnes Marsh Elementary School in Lehigh Acres, Florida 33971, Parcel I.D. Number 22-44-26-00-00003.0000. I have reviewed an extensive amount of material related to the Luckett Road Corridor Extension Plan and the potential impact the different corridor alternatives may have on my clients.

My clients have completed the process of acquiring a rezoning approval for their property which culminated in the BOCC's adoption of Resolution Number Z-06-006, a copy of which is enclosed. As indicated in the attached zoning resolution, the subject property has been rezoned to allow the development of six units per acre with the ability to increase the density up to a maximum of ten units per acre using the County's Residential Bonus Density Program. At the maximum available density, including the possible bonus density units, the total number of units available for the subject property is approximately 594 residential units. My clients are in the process of completing the negotiation of a Bonus Density Agreement with the County so that they will be able to develop approximately 594 residential units on the subject property. Upon completion of the Bonus Density Agreement negotiations with the County, my clients will proceed with the acquisition of the necessary Development Order and building permits to develop the entire parcel as one overall development. My clients are implementing a development plan for the subject property which will provide for the construction of residential units that will be targeted for, to a large extent, firefighters, law enforcement officers, nurses, teachers and other young professionals who are beginning their careers in Lee County, Florida. My clients have searched for and have not been able to locate another parcel of land in Lee County with the unique attributes of the subject property. The unique characteristics include: community support, density approvals, access to municipal sewer and water,

and the location of the subject property next to public schools and protected green space, which cannot be duplicated elsewhere in Lee County.

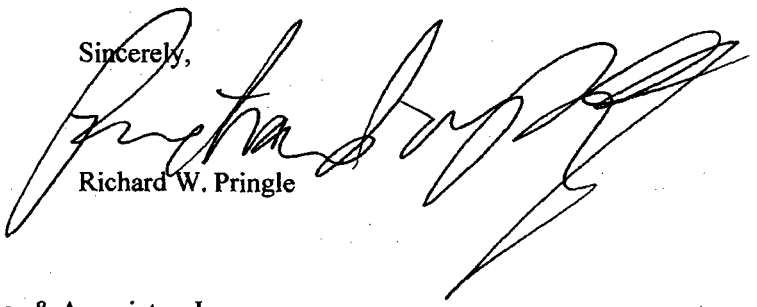

In reviewing the Luckett Road Corridor Extension Study Updated Alternatives Map as of June 2007, it appears that the County is considering several corridor alternatives which are in the vicinity of my clients' real property. In particular, it appears that a portion of Alternative 2A, at a point southeast of Buckingham Airfield, passes through the middle of my clients' property. As proposed, Alternative 2A will destroy my clients' ability to develop their property as currently zoned. In contrast, Alternative 2B does not interfere with the development of my clients' property as currently zoned; however, Alternative 2B passes close enough to my clients' property so that the purchasers of residences on the subject property will have easier vehicle access to other parts of Lee County for purposes of their work activities.

On behalf of my clients, I respectfully request that the County selects Alternative 2B as the preferred alternative alignment for the Luckett Road Extension. The County's selection of Alternative 2B as its preferred alignment will result in the County taxpayers benefiting from not having to condemn my clients' property, with its vested value that is a result of the current land development approvals for the development of approximately 594 residential units. Also, if the County selects Alternative 2B as the preferred corridor for the Luckett Road Extension, the County taxpayers will receive the benefit of my clients being able to develop quality housing on the subject property for approximately 594 residences which can be utilized by firefighters, law enforcement officers, nurses, teachers and other young professionals in Lehigh near the center of Lee County.

It appears to us that the County's selection of Alternative 2B for the Luckett Road Extension Corridor is clearly the alternative that will provide the greatest benefit to the taxpayers of Lee County and to my clients.

Please feel free to contact me if you would like to further discuss any of the comments I have made herein or if you would like to further discuss any other aspects of the matter.

Sincerely,

Richard W. Pringle

Enclosure: Resolution Number Z-06-006R (Copy)

PS: Please accept this correspondence as my request to be personally notified in writing of the future activities of the County related to the selection of a corridor for the Luckett Road Extension project.

RESOLUTION OF THE BOARD OF COUNTY COMMISSIONERS
OF LEE COUNTY, FLORIDA

WHEREAS, Quattrone & Associates, Inc., filed an application on behalf of the property owners, Lehigh Acres Acquisition, LLC, and Lehigh Acres Management, LLC, to rezone a 59.39±-acre parcel from Agricultural (AG-2) and Single-Family Residential (RS-1) to Residential Planned Development (RPD), and to utilize the Cash Contribution Option of the Bonus Density Program to increase the permissible density of the property above the Lee Plan standard density range for a project known as Buckingham Villages; and,

WHEREAS, the density applicable to a conventional zoning district may be increased using affordable housing bonus density units only through the public hearing process; and,

WHEREAS, a public hearing was advertised and held on January 11, 2006, before the Lee County Zoning Hearing Examiner Diana M. Parker. Written submissions were requested by the Hearing Examiner at the close of hearing with a due date of January 27, 2006. This date was extended to February 10, 2006, and then to February 24, 2006. The Hearing Examiner gave full consideration to the evidence in the record for Case Nos. DCI2005-00027 (Rezoning) and REZ2005-00004 (Bonus Density Application); and,

WHEREAS, a second public hearing was advertised and held on April 17, 2006, before the Lee County Board of Commissioners, who gave full and complete consideration to the recommendations of the staff, the Hearing Examiner, the documents on record, and the testimony of all interested persons in accordance with the procedures set forth in §34-83(b) of the Land Development Code. In addition, the Board considered the proposed bonus density contract based on the criteria set forth in LDC §34-1517(c); and,

WHEREAS, the Board approved the Hearing Examiner's recommendation on the requested rezoning and indicated that they would favorably consider a request for Bonus Density under the Site Specific Option if such an agreement is presented at a future date; and,

WHEREAS, Richard Pringle, Esq., on behalf of the applicant, filed a request for rehearing of the Lee County Board of County Commissioners' decision to accept the Hearing Examiner's recommendation to exclude one-half the abutting right-of-way of Buckingham Road from the calculation of the total acreage of the property for the purposes of determining gross available density (Case No. DCI2006-00040).

NOW, THEREFORE, BE IT RESOLVED BY THE BOARD OF COUNTY COMMISSIONERS:

1. The request for rehearing filed by Richard Pringle on behalf of the property owners, Lehigh Acres Acquisition, LLC, and Lehigh Acres Management, LLC, to reconsider the Board's decision to accept the Hearing Examiners recommendation to exclude one-half the abutting

right-of-way of Buckingham Road from calculation of the total acreage of the property for the purposes of determining gross available density is hereby **denied**.

The foregoing resolution was adopted by the Lee County Board of Commissioners upon the motion of Commissioner Judah, seconded by Commissioner Janes, and, upon being put to a vote, the result was as follows:

Robert P. Janes	Aye
Douglas R. St. Cerny	Aye
Ray Judah	Aye
Tammara Hall	Aye
John E. Albion	Absent

DULY PASSED AND ADOPTED this 12th day of June 2006.

Re: Luckett Road Corridor Extension Project

Dear Ms. Clarke:

The Board of Commissioners for Lee County Mosquito Control District has reviewed the proposed alignment for the extension of Luckett Road and provided a recommendation in a letter to the Board of County Commissioners on April 12, 2007. As the project moves forward Lee County Mosquito Control District would like to provide you with additional information about properties near the District.

Lee County Mosquito Control District has entered into an agreement with Lee County Lands to act as its agent in procuring all available properties surrounding and adjacent to the Buckingham Air Field. This would include the lots along the south runway which are also part of the proposed Luckett Road extension corridor 2A. It is the District's intention to acquire all properties adjacent to our runways and the Board may exercise the right of eminent domain and institute condemnation proceedings at a future date in order to complete this land acquisition. The Board believes the proposed Luckett Road extension corridor 2A is the best alignment since it would eliminate residences along the edge of the south runway.

We appreciate the opportunity to provide input on the Luckett Road Extension Project. If you have any questions or need additional information please contact District Director T. Wayne Gale, at 694-2174.

Sincerely,

Bruce Scott
Chairman

Comments: Well, I appreciate what you guys are doing, but when I brought the land, I intended ~~for~~ it to be for my kids. When I would pass away I would like it to go to them. So they could make something of it, but when I heard you guys want to build a road in it, I was a little worried, but if you guys really want to build a road there I was hoping I would get a reasonable amount of money for it, instead of handing it down to my kids. I want extra money for it. Plus land be long to my child, this way his goes to the college, boys, they want it to make the road, I want money for it, please if you have a question plus call me 239-465-3808. or 239-2005233. Thank-you?

PUBLIC COMMENTS ON LUCKETT ROAD &
SUNSHINE BOULEVARD CORRIDOR EXTENSION STUDIES

The Luckett road extension is needed very badly. Colonial Blvd., SR 82, and Palm Beach Blvd are backed up with stop & go traffic each morning going west to I-75 and Fort Myers. Lehigh is probably only 30 to 50 % built out now and traffic will only get worse since single family permits have been running around 70% in Lehigh over the last year.

North/South Corridors

From the Lee/Hendry County line west on HW 80 all the way to I-75 (15 miles)there are only two north/south corridors not counting I-75. Joel Blvd and Buckingham/Gunnery Road. Since County DOT staff is recommending the no-build option for Sunshine Boulevard Extension, this will send additional traffic to Buckingham Road.

Gunnery south of Lee Blvd has just been 4 laned and its in the 5 year CIP to 4 lane the north end of Buckingham (from Orange River Blvd North to HW 80) leaving a two lane winding bottleneck in the middle causing an even deadlier traffic nightmare. The two lane central portion of Buckingham will have to be 4 laned in the future but its now in the 2030 year plan..

We urge the adoption of some form of Luckett Extension 1D with alignment to allow Buckingham to be connected to Luckett in the future at the SE corner of Gulf Coast Center property. Purchase the ROW now for this connection.

This would:

1. **Complete a major portion of Buckingham Road** 4 laning now (approx 2 miles)
2. **Only require just over 1/4 mile** to connect Buckingham to Luckett
3. **Not require the destruction of a single home** since it is totally undeveloped at present
4. **Remove five dangerous curves** from the current Buckingham Road
5. **Not require destruction of homes or the necessity of a frontage road** on the east/west portion of Buckingham Road as would alternative 1A, 1B, and 1C
6. May eliminate the need to widen the shoulders of the winding portion of Buckingham as is now in the planning stages, since that portion of Buckingham would be local traffic only
7. Provide a more direct and safer route for all of the school buses using Buckingham now. The same is true for all of the dump trucks that travel from the pits on HW 31, down Buckingham to Lehigh. The bus depot on Buckingham serves four schools on the north end of this north/south corridor and three on the south end.

If the 1D alignment is not chosen now and the ROW purchased to connect Buckingham to Luckett, the County may be facing the same situation they face now where River Hall does not want Sunshine extension going through their property.

Not choosing alternative 1D and planning for the future 4 laning of Buckingham will allow the Waterman Development Group to develop their property. This may shut down the advantage of a safer and more direct route for a future 4 laning of Buckingham Road. Over the last year they have done extensive clearing and have made preliminary inquires on the development of this property.

Attn. Sarah Clarke

Dear Ms. Clarke:

I am writing in support of the proposed extension of Luckett Road, relative to a corridor that would pass at or near the Buckingham Army Air Field. As you know, the Lee County Gun Range is adjacent to the Lee County Mosquito Control District headquarters. This range is operated by the Sheriff's Office and serves as a comprehensive training facility as well as a public resource. Additionally, the gun range is a critical infrastructure for emergency operations during storms, and our Aviation Unit is housed nearby as well.

For the reasons listed above and more, I feel strongly that more direct access to this area is paramount to public safety efficiencies. Thank you in advance for your consideration and please feel free to contact me if you would like to discuss my position in more detail. I have had the pleasure of working closely with you on past projects, and I stand ready to support and assist you on this or other projects if needed.

Best regards,

Sheriff Mike Scott

February 28, 2008

Luckett Road & Sunshine Boulevard
Corridor Extension Studies
Public Information Workshop
January 22, 2008

The Lee County Department of Transportation (LC DOT) held a public information workshop for the Luckett Road & Sunshine Boulevard Corridor Extension Studies on Tuesday, January 22, 2008. The workshop was held at the Buckingham Community Center, 4940 Buckingham Road, Fort Myers, Florida. The workshop was conducted in an "open house" format that allowed the public to view the project material between 4:30 and 6:30 p.m. The study area for the Luckett Road extension is from Interstate 75, east to Joel Boulevard. The study area for the Sunshine Boulevard extension is from 59th Street West in Lehigh Acres and continues north to State Road 80.

The workshop was held to inform the public of the project's progress, including the draft preferred final alignment selected for Luckett Road. The no-build alternative was recommended for Sunshine Boulevard so no alternatives were presented for that portion of the project. A total of **103** people signed in at the registration table at the workshop. Copies of the sign-in sheets are attached as Appendix A.

Newsletter No.3 with details of the project background and the draft preferred final alignment was mailed on Friday, January 4, 2008 to property owners within 300 feet of all alignment alternatives, interested parties, relevant County and City elected officials and staff members. In addition, as the draft final alignment was refined, it was shifted in certain locations to reduce socio-economic impacts and reduce costs. A letter was sent to property owners who may not have been contacted prior to this workshop as their property did not previously fall within 300' of any of the previous potential alignments. The public information workshop was advertised in *The News-Press* on January 16, 2008 as a 1/4-page legal display advertisement. A press release was sent on January 21, 2008 to local media agencies. A copy of Newsletter No.3, a copy of the letter, a CD with a copy of the mailing list for the newsletter and letter, a copy of the legal display ad printed in *The News-Press* and the press release for the workshop are attached as Appendix B.

A looping PowerPoint presentation which explained project background and progress played throughout the evening. Detailed aerials of the draft final preferred alignment, alignments which have been eliminated and display boards of the typical sections were placed around the room. Representatives from the LC DOT project team were available to discuss the project and answer questions. A handout was distributed at the workshop that explained the meeting format and summarized the project. A copy of the handout is attached as Appendix C.

Members of the public were provided with comment forms at the workshop in order to have their opinion recorded as public record. A total of **30** comments were received on the project through the 14-day comment period after the workshop. The comments were recorded and analyzed. The number in parenthesis after each comment indicates the number of times that same comment was submitted. The summaries of written comments received and copies of the comment forms are attached as Appendix D.

Luckett Road & Sunshine Boulevard

Corridor Extension Studies

Newsletter #3 January 2008

Lee County Department of Transportation (LC DOT) is nearing the conclusion of the Luckett Road and Sunshine Boulevard Corridor Extension Studies. The alignment map below shows the draft preferred final alignment for Luckett Road that has been selected as a result of the study. This alignment will be presented to the public for comment at a final Public Information Workshop in January (see the back of this newsletter for details) and then to the Lee County Board of County Commissioners for acceptance. The no-build alternative is still a viable alternative for the project and assumes that LC DOT would not construct an improved roadway.

History of the project

The Luckett Road and Sunshine Boulevard Corridor Extension Studies began in September 2006. The Luckett Road Corridor Extension study area is from Interstate 75 (I-75) east to Joel Boulevard. The Sunshine Boulevard Corridor Extension study area begins in Lehigh Acres at 59th Street West and continues north to State Road 80 (SR 80).

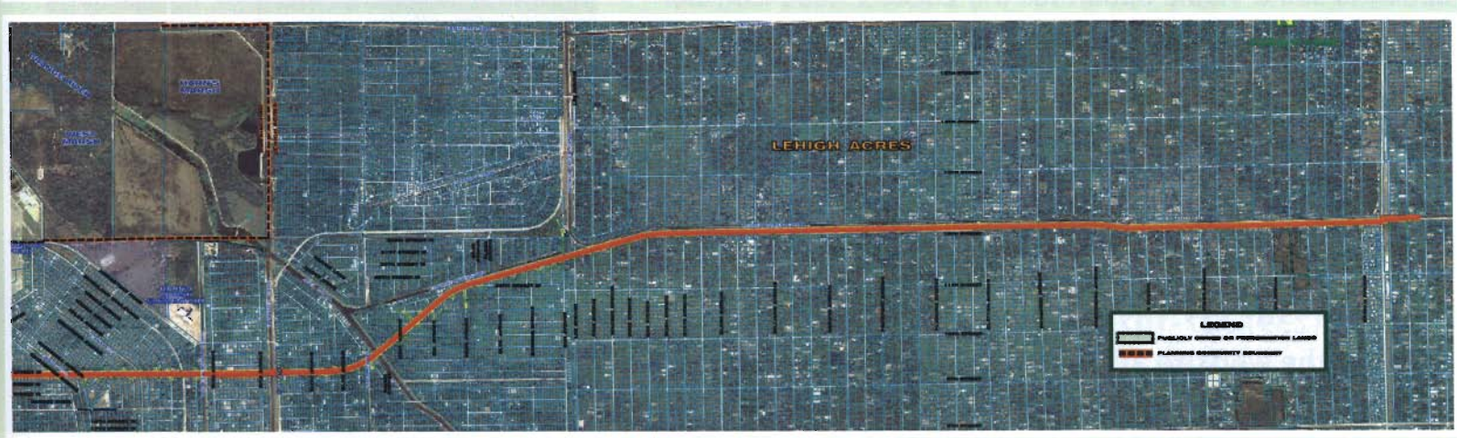

The corridor extension studies began with a wide range of potential alignments. These were evaluated and a set of alternatives were developed. These alternatives were presented at public workshops held in February, March and June of last year. Over 200 written comments were received from these workshops.

The comments from each workshop were analyzed and considered during the evaluation process and aided in the selection of the draft preferred final alignment. After the draft preferred final alignment was selected, alignment adjustments were made to reduce impacts and costs.

As a result of the evaluation and public input, the LC DOT project team is recommending the no-build alternative for the Sunshine Boulevard extension. This recommendation is based on the evaluation of public input, environmental impacts, community impacts and construction cost. The no-build alternative is recommended for Sunshine Boulevard as the preferred alternative after weighing the benefits of the roadway improvements against the impacts.

Public Information Workshop Scheduled

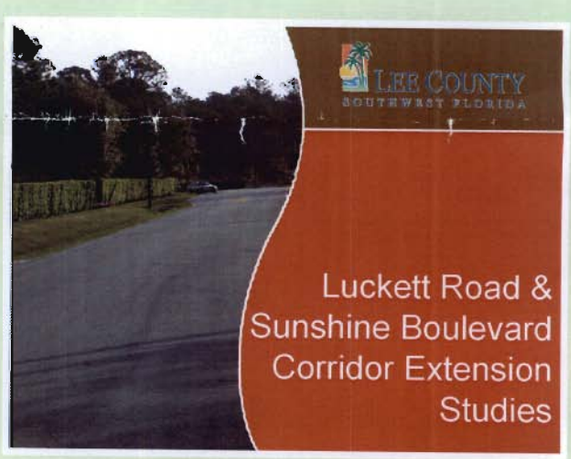

Time: 4:30-6:30 p.m. "open house"
Date: Tuesday, January 22, 2008
Place: Buckingham Community Center
4940 Buckingham Road
Fort Myers, Florida

The Lee County Department of Transportation (LC DOT) invites the public to attend a public information workshop to view the draft preferred final alignment for the Luckett Road Corridor Extension Study. The workshop will be held in an "open house" format. A presentation will play continuously throughout the evening, outlining the project and the draft preferred final alignment. Display boards will be available for viewing, and LC DOT and project representatives will be present to answer questions. The no-build alternative is being recommended for Sunshine Boulevard, therefore no alternatives will be presented for this portion of the study.

Next steps for the Luckett Road Corridor Extension

Comments received at the January 22, 2008 workshop will be assessed and where possible incorporated into the preferred final alignment. The preferred final alignment will then be presented to the Lee County Board of County Commissioners for their approval. As always, the no-build option is still a viable option for the Luckett Road Corridor Extension.

Subject: Luckett Road Corridor Extension Study
Luckett Rd. from I-75 to Joel Boulevard
Lee County, Florida
Project ID No: 5060

Dear Property Owner:

The Lee County Department of Transportation (LC DOT) began the Luckett Road Corridor Extension Study in the fall of 2006. The Luckett Road extension study area is from Interstate 75 (I-75) east to Joel Boulevard.

The Luckett Road Corridor extension study began with a number of alternative alignments. The alternative alignments have been continuously refined during the study based on the evaluation of public input, environmental impacts, community impacts and construction cost. The alternatives were presented at public workshops held in February, March and June of this year. Comments received from these workshops and during the evaluation process aided in the analysis and selection of the draft preferred final alignment.

Property owners within 300 feet of the initial alignment alternatives were notified of the public workshops. However, as the draft final alignment was refined, it was shifted in certain locations to reduce socio-economic impacts and reduce costs. You were not contacted prior to this as your property did not fall within 300' of any of the previous potential alignments. You are now being notified of the Luckett Road Corridor extension study as your property is located within 300' of the draft final alignment or associated side-street improvements.

The Lee County Department of Transportation invites you to attend a public information workshop to view the draft preferred alignment for the Luckett Road Corridor extension study. Please see the newsletter enclosed with this letter for more information.

You may contact Ms. Sarah Clarke at (239) 533-8580 if there are any questions or if additional information is needed.

Sincerely,

Sarah J. Clarke

PUBLIC INFORMATION WORKSHOP

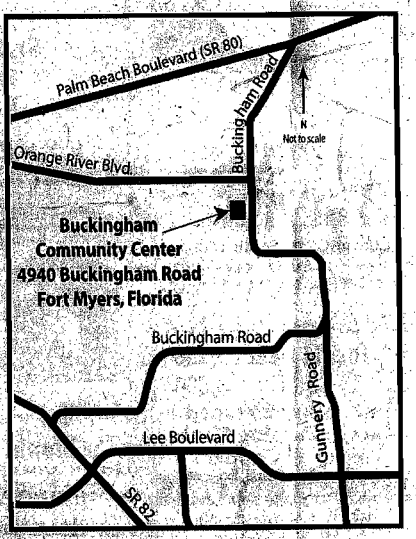

LUCKETT ROAD & SUNSHINE BOULEVARD CORRIDOR EXTENSION STUDIES

Lee County Department of Transportation (LC DOT) is nearing the conclusion of the Luckett Road and Sunshine Boulevard Corridor Extension Studies. LC DOT invites the public to attend a public information workshop to view the progress of the Luckett Road and Sunshine Boulevard Corridor Extension Studies. A draft preferred final alignment for Luckett Road has been selected as a result of the study. This alignment will be presented to the public for comment at the final Public Information Workshop in January and then to the Lee County Board of County Commissioners for acceptance. The no-build alternative is still a viable alternative for the Luckett Road Extension and assumes that LC DOT would not construct an improved roadway.

TIME
"Open House"
4:30-6:30 p.m.

DATE
Tuesday
January 22, 2008

PLACE
Buckingham Community Center
4940 Buckingham Rd.
Fort Myers, Florida

The workshop will be held in an "open house" format. A presentation will play continuously throughout the evening, outlining the progress and the draft preferred final alignment. Display boards will be available for viewing, and the Lee County project team will be present to answer any questions. The no-build alternative is being recommended for Sunshine Boulevard and so no alternatives will be presented for this portion of the study. The meeting will be conducted in an "open house" format; no formal presentation will be given. You may attend anytime between 4:30 – 6:30 p.m.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella via e-mail to kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, contact Ms. Cella.

Public Information Workshop Scheduled For the Luckett Road Corridor Extension Study

Fort Myers, FL, January 17, 2008– Lee County Department of Transportation (LC DOT) is nearing the conclusion of the Luckett Road Corridor Extension Study. A draft preferred final alignment for Luckett Road has been selected as a result of the study.

LC DOT invites the public to attend a public information workshop to view the draft preferred final alignment for Luckett Road.

• The workshop will be held from **4:30-6:30 p.m.** on **Tuesday, January 22, 2008** at Buckingham Community Center, 4940 Buckingham Rd, Fort Myers, FL 33905. Parking is across the street from the Community Center.

The workshop will be conducted in an "open house" format; no formal presentation will be given. You may attend the workshop anytime between 4:30 – 6:30 p.m. A presentation will play continuously throughout the evening, outlining the progress and the draft preferred final alignment. Display boards will be available for viewing, and the Lee County project team will be present to answer any questions.

History of the project
The Luckett Road Corridor Extension Study area is from Interstate 75 (I-75) east to Joel Boulevard. The corridor extension study began with a wide range of potential alignments. These were evaluated and a set of alternatives were developed. These alternatives were presented at public workshops held in February, March and June of last year. The comments from each workshop were analyzed and considered during the evaluation process and aided in the selection of the draft preferred final alignment. After the draft preferred final alignment was selected, alignment adjustments were made to reduce impacts and costs. Comments received at this workshop will be assessed and where possible incorporated into the preferred final alignment. The preferred final alignment will then be presented to the Lee County Board of County Commissioners for their adoption. As always, the no-build option is still a viable option for the Luckett Road corridor extension.

Anyone needing special accommodations under the Americans with Disabilities Act of 1990 should contact Kris Cella with Cella Molnar & Associates at kcella@cella.cc or phone (239) 337-1071 prior to the workshop. If you have any questions about the project or would like information prior to the workshop, please contact Ms. Cella.

APPENDIX C

LEE COUNTY
SOUTHWEST FLORIDA

LUCKETT ROAD CORRIDOR EXTENSION STUDY
PUBLIC INFORMATION WORKSHOP
January 22, 2008

INTRODUCTION

The Lee County Department of Transportation (LC DOT) welcomes you to this public information workshop for the Luckett Road Corridor Extension Study. Representatives from the LC DOT project team are present to discuss project information and answer your questions. **There will not be a formal presentation this evening.**

To get the most out of this workshop we recommend that you view the exhibits in the following order:

1) **Watch the continuous, 10-minute video presentation that contains an overview and more information about the project.**

2) **View aerial boards showing the alignment alternatives, evaluation matrix and environmental factors.**

3) **Fill out your comment forms and deposit them in the comment boxes tonight or mail them to the address provided on the back of the form within 14 days.**

All comments become a part of the project record and will be compiled into a technical memorandum for the Luckett Road Corridor Extension Study Public Information Workshop. The technical memorandum will be available for viewing in approximately four to six weeks on Lee County's web site at www.lee-county.com/publicworks/workshop.htm.

PROJECT DESCRIPTION

The Luckett Road Corridor Extension study area is from Interstate 75 (I-75) east to Joel Boulevard.

EVALUATION OF ALTERNATIVES

The corridor extension study began with a wide range of potential alignments. These were evaluated and a set of alternatives were developed. These alternatives were presented at public workshops held in February, March and June of last year. Over 200 written comments were received from these workshops. The comments from each workshop were analyzed and considered during the evaluation process and aided in the selection of the draft preferred final alignment. After the draft preferred final alignment was selected, alignment adjustments were made to reduce impacts and costs. The aerial boards on display this evening show the draft recommended final alignment map for the Luckett Road Corridor Extension Study.

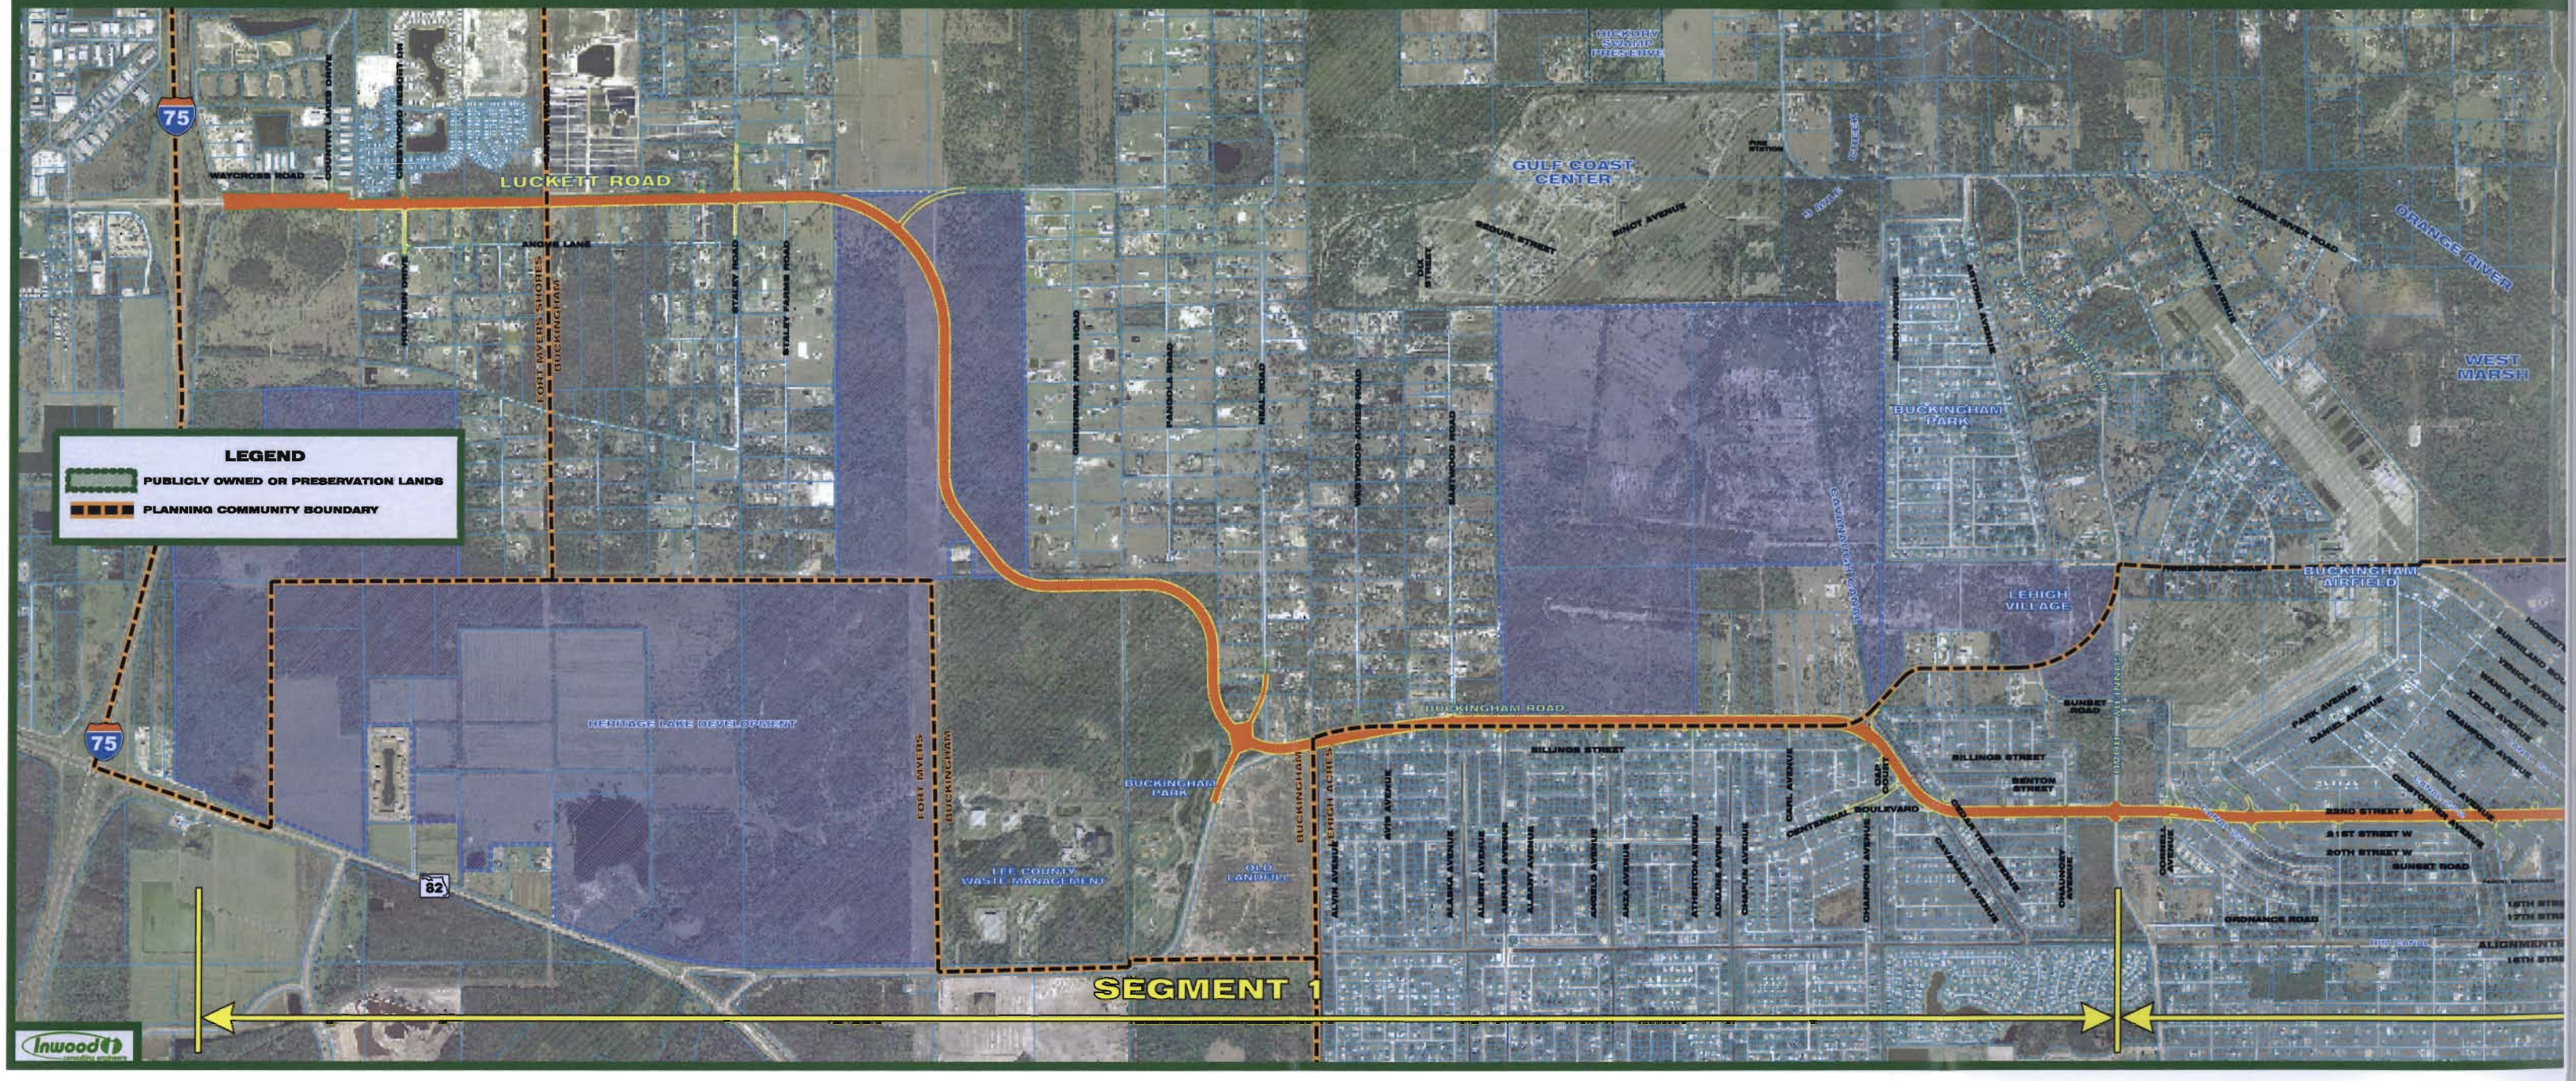

STEPS TO A PREFERRED ALTERNATIVE FOR THE LUCKETT ROAD EXTENSION

After assessing the public comments from this public workshop, the final preferred alternative will be presented to the Lee County Board of County Commissioners for approval.

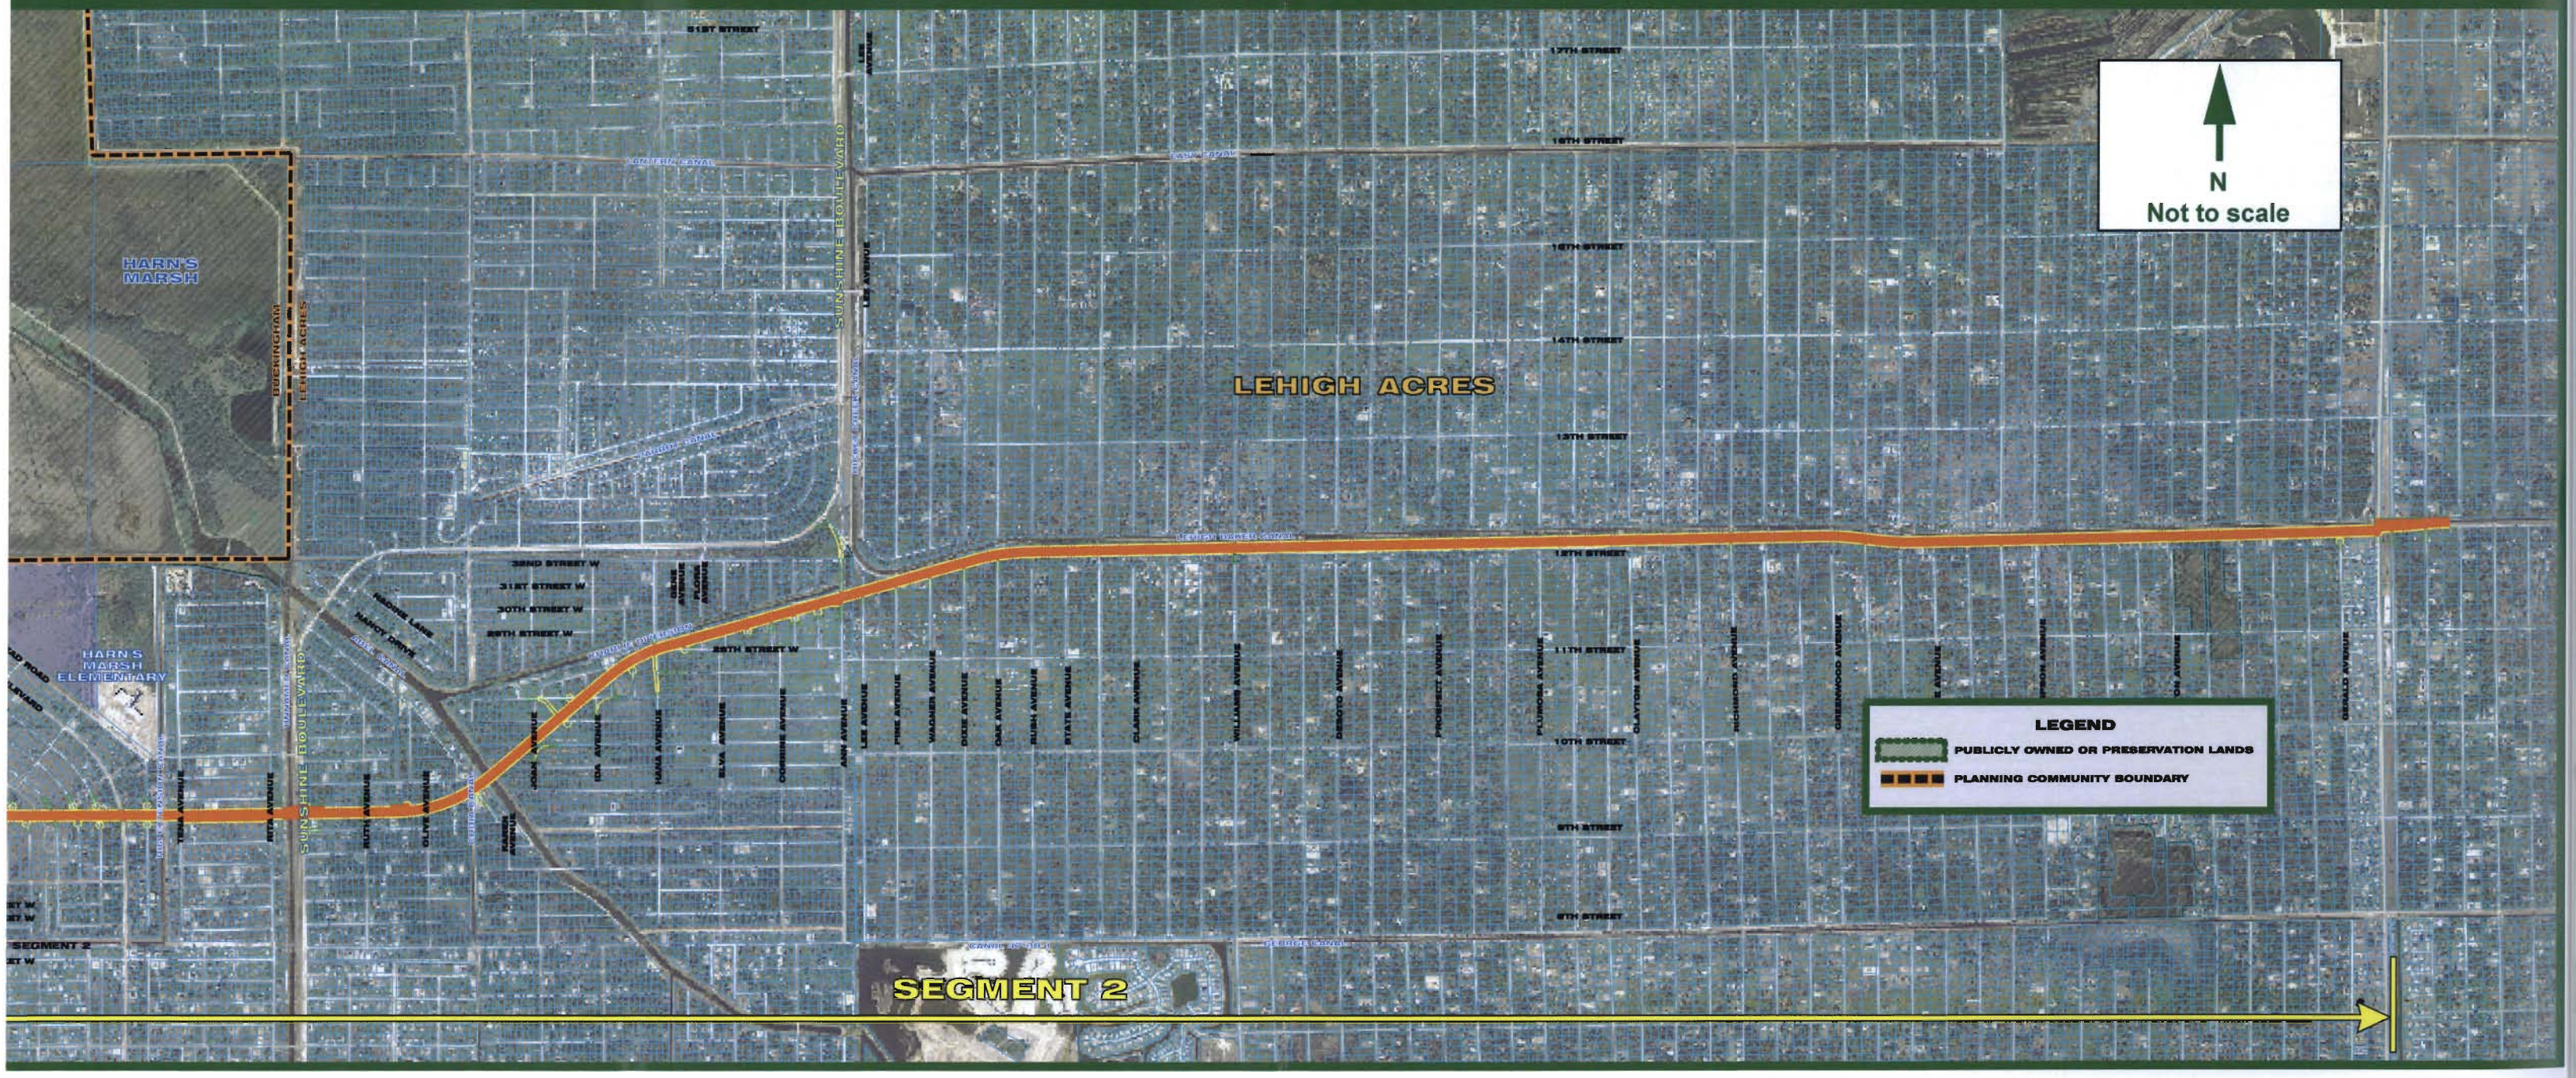

PROJECT CONTACT

If you have questions or would like information about this project, please contact the project's public information consultant, Cella Molnar & Associates, Inc., at (239) 337-1071 or toll-free at 1-877-496-1076 or e-mail to kcella@cella.cc. Visit the web site at www.luckettsunshine.com.

LUCKETT ROAD EXTENSION CORRIDOR STUDY

PREFERRED ALIGNMENT

APPENDIX D

Luckett Road & Sunshine Boulevard Corridor Extension Studies
Workshop Comments Summary

General Comments

Comment: This is only being done for Waterman Development access. **(1)**

Comment: I'm concerned about the area between Carl Avenue and Pine Avenue. The project changes from main corridor roadways and nearly vacant properties to mainly quarter acre residential properties. It is the large number of residences in the area, including mine that I'm concerned with. **(1)**

Comment: 4 lanes on each side of Buckingham Road is a bit much, straight away. **(1)**

Comment: Thank you for your environmental and property concerns. **(1)**

Comment: I am glad you used open land mostly that is already in public hands. **(1)**

Response: Thank you for your comments.

Comment: I have concerns about the time line, the method of notification and the "Preferred Alignment" (new corridor). I received notice of the public workshop on January 8, 2008 for the workshop scheduled on January 22, 2008. As a result of the short notice, 14 days, I was unable to alter my schedule to attend the meeting. I have talked with some of my neighbors and know I'm not the only one with scheduling conflicts and as a result could not attend. The notice I received had the appearance of a flyer and could have been easily confused as junk mail. If there is going to be a new corridor that crosses someone's property I would think a certified letter would be in order not only to the residences in the direct path but residences that would be adversely affected by the noise and increased traffic in their area. There is something wrong with having to find out there is a road going through your property from your neighbors because the flyer was discarded as unimportant. The "public comment information sheet" needs to be returned by February 5, 2008, 14 days from the meeting. I have neighbors that have not even heard there is going to be a new corridor across their property, much less know there is a comment sheet they could return. I'm sure if they had sufficient time to comment they would have. From the time I received the flyer to the time the letter must be returned is 28 days. Is that a reasonable amount of time for a new corridor that, in my opinion, displaces more residences than necessary?

Response: Lee County Department of Transportation (LC DOT) notifies property owners within 350 feet of potential alignments as a courtesy to allow people to provide input during the study phase. LC DOT is not required to do this, but wishes to include the public in the planning process. The county also sends out press releases and publishes a legal ad in the paper to notify people of the workshop. The flyers that are mailed out always have the LC DOT logo and the project name visible on the outside. As tax payer dollars pay for the flyers, this is the most cost effective way to mail an information flyer to 10,000 people, sending a certified letter would be extremely costly. If a member of the public cannot come to the workshop, the project team is available to either speak with or meet with members of the public. The project information is also on the project website. A cutoff date for receiving comments is necessary to gather information from the public in a timely manner. However, if a comment is received after this period it is still passed onto the project team. This also gives the study team time to review all the comments they receive.

General Comments on Design

Comment: If you are traveling west on 8 lanes towards Neal Road and they change to 6 lanes at the I-75 and Luckett interchange there will be a problem if something is not done to widen Buckingham Road to SR 82. A lot of the traffic will want to go south from Neal Road. **(1)**

Response: The Lee County Long Range Transportation Plan calls for Buckingham Road to eventually be widened. However this is not funded in the five year work program.

Comment: The Luckett Road Extension if approved is going to run directly over our lot. Our understanding is that if we put our lot up for sale and someone tries to buy it, they will discover it is flagged for a future road project, meaning that we will not be able to sell our lot for development. Because of this we are willing to sell our lot to Lee County land acquisition as soon as possible. If the commission approves this please let us know when the County will purchase our lot.

Response: Thank you for your comment, you information has been forwarded to Lee County lands.

In Favor of Proposed Luckett Road Extension

Comment: The final proposed route is the best of all because it impacts less infrastructure and utilizes existing roadways. Although this is needed now it lacks the foresight to wait 10 to 15 years to implement. **(1)**

Comment: We are very happy with this recommended corridor extension. **(1)**

Comment: Yes for this proposal. **(1)**

Comment: We are ok with the plan to extend the road. It's going to take a few years from what I'm hearing and I know that traffic is just going to get worse if something doesn't change. **(1)**

Comment: We like this proposed route. **(1)**

Comment: Great project. I am behind it 100%. We need this in more ways than one. **(1)**

Comment: I have no problems or issues with the Luckett Extension. I need the traffic on the section of Buckingham between SR 80 and Cemetery Road to decrease. **(1)**

Comment: The sooner the better. **(1)**

Comment: I agree with the preferred alignment coming down the FP&L easement and linking it to Buckingham Road. This will be far less intrusive and disruptive to Buckingham than previous proposed alignments. Also it should be less costly as personal residences are not being purchased and part of the roadway is using existing ROW easements for the road. **(1)**

Response: Thank you for your comments.

Not In Favor of Luckett Extension

Comment: Why are you going to waste good money fixing what isn't broken? The first third of this road goes though the politically protected Buckingham area, the last third or so is only 1 mile north of Lee Boulevard in a sparsely populated area of Lehigh Acres. We have 14th Street, 12th Street, 10th Street and 8th Street that are east-west roads. All this costly project is going to do is get us to I-75; we can get there on Palm Beach Boulevard. This road is not needed. Fix the roads west of I-75 (Colonial, etc.) that will help more than this road. The traffic jam is not in eastern Lehigh Acres; in case you haven't noticed it is far west of Lehigh. **(1)**

Comment: I do not agree with this route and project. I am unable to see the need for this new road and unfortunately it will turn our peaceful, quiet neighborhood into a congested area. We have children and families who walk and ride bikes, but would be unable to with a major roadway in out "front yard". This also will be devastating to our property values. Who is going to buy our house near such a highway? It's not safe for children and/or pets. Please reconsider this project and/or an alternative. **(1)**

Comment: We are close to 12th Street and disagree with the proposal, but at this point what difference does this make as the little people have no say. **(1)**

Comment: We do not need this project. (1)

Comment: I believe the plan very negatively impacts the property value of my lot. Because the access ramp is right there, everyone in the area will drive down Christopher Avenue to get on the extension. This will markedly increase traffic on the avenue once the project is complete and make it an un-attractive location for a home. I disagree with the plans. **(1)**

Comment: I would tell you how this will impact our lives but the reality is you will do whatever you want for the minority. This has really upset our plans for improving our home. **(1)**

Comment: We feel that this roadway project is not in the best interests of all the residents of Lehigh Acres. Colonial Boulevard is large enough to handle traffic. There must be a better route other than what has been researched. Our lot is within 600 feet of the proposed roadway and my property value will never increase on Baron Street. We do not agree to this proposal and will attend meetings when Lee County is approached regarding approval and funding. **(1)**

Comment: "No-build". **(6)**

Response: The "no build" alternative is still a part of this study and will be presented as an option to the Lee County Board of County Commissioners.

Questions

Comment: Why would the road be 6 lanes exiting I-75 and then become 8 lanes at Neal Road. Why not 8 lane it all the way? **(1)**

Response: The number of lanes reflects the traffic needs based on the traffic evaluation.

Comment: By the time this route is completed (way, way down the line) will this still accommodate the traffic load for that time? **(1)**

Response: The final roadway capacity has been designed for an ultimate design year of 2030.

Comment: What is the plan for access to the park for Neal Road residents? **(1)**

Response: Detailed access/intersection plans will be developed as part of the design process but an entrance into the park from Luckett Road is planned.

Comment: What is the plan for the life altering impact on resale values? **(1)**

Comment: Where will traffic dumping onto SR 82 go? **(1)**

Comment: What is being done to SR 82 which is currently overcrowded? **(1)**

Response: FDOT and local government are currently working on the design plans to widen SR 82 from two to six lanes between Ortiz Avenue and Lee Boulevard. Construction is currently planned to begin in 2009.

Comment: If this project goes ahead would the county consider zoning the 2200 block of Christopher Avenue commercial? - One block of boutique commercial would service the neighborhood as well as solve the problems of the owners. The traffic will already be heavy so its additional impact would be minimal. **(1)**

Response: This project is a transportation project which has no effect on land use/zoning. Typically rezoning of property is handled on a per case basis through the Community Development Department – the property owner/developer would apply to rezone the property.

Comments related to Sunshine Boulevard Extension

Comment: We desperately need another way into Lehigh Acres from SR 80 besides Joel Boulevard. Too many cars cut through Buckingham and Cemetery Road to get to Lehigh? You need to reopen building the connection between SR 80 and Sunshine Boulevard. **(1)**

Comment: We need Sunshine extended to SR 80. **(2)**

Comment: Why "no-build" to SR 80? **(1)**

Response: LC DOT project team is recommending that no improvements be made to Sunshine Boulevard based on the evaluation of public input, environmental impacts, community impacts and construction cost.

Noise walls

Comment: The present preferred alignment for Luckett Road skirts the edge of my 15 acre parcel; I understand that at present time there is no plan for sound barriers. I have invested a great deal of money to live in the country. I feel the noise pollution of an eight lane road will adversely impact my property and home. I would like to see a plan for a noise barrier implemented or at the very least considered for this project. **(1)**

Comment What is the plan for noise? **(1)**

Comment: I purchased a lot at the end of a dead end street butted up against a canal. That was the most tranquil spot I could find in Lehigh Acres. The next

thing I know I am going next to a major thoroughfare. This is going to make it much less desirable and will substantially lower the value of my property. I am asking that during the construction of the road, a substantial berm should be built on the south side of the canal between the canal and the road. I believe the county should do everything they can to lessen the impact to nearby property owners. To me, this problem is a result of poor planning long ago when the land was parceled out. **(1)**

Comment: The Dog Park and playing field need a higher berm. **(1)**

Response: Lee County recently adopted a buffer wall policy. Identification of potential locations for buffers will be included in the engineering report for this study and finalized during the design phase.

Suggestions

Comment: More consideration needs to be made for the widening of Staley Road from Tice Street to Luckett Road. **(1)**

Comment: We need an overpass at SR 82 and Lee Boulevard or SR 82 and Ortiz Avenue. **(2)**

Comment: The bottleneck at SR 82 and Lee Boulevard needs to be corrected. **(1)**

Comment: It seems like you could somehow connect Homestead Road together with Sunniland, through to 25th Street West then, since it zigzags at Sunshine follow that route east along 24th Street West. I live on that street and would not mind being bought out; also I happen to know 15 houses on that street only 6 are lived in by owners. **(1)**

Comment: It appears the map should be altered to include more main roads and impact less residences by: Connecting Buckingham Road to Sunset Road, connect Sunset Road to Park Avenue and border the south side of the Buckingham Airport, connect Park Avenue to the Buckingham/Lehigh Acres boundary, go east to Sunshine Boulevard and then realign Sunshine Boulevard at 12th Street West. **(1)**

Response: Thank you for your comments. The LC DOT project team will take your comments into consideration.

Comment: I hope you will improve the Buckingham Road/Gunnery Road intersection. It is really scary coming home. **(1)**

Response: The design of Gunnery Road from Lee Boulevard to Buckingham Road is currently in the five year work program. Intersection improvements will be addressed as part of this project.

Comment: We have property and intend to work with the appropriate agencies in a good faith effort that will hopefully result in a successful sale to 20/20 or the DOT or both of our property. We have submitted the affected property to 20/20 for their review and have also discusses the possible option with you regarding a combined effort with the LC DOT and 20/20 to accomplish a mutually favorable outcome in a timely manner. If this cannot be accomplished we intend to proceed with our existing plan. The planning and existing permitting has evolved over the past five years on the property affected by the Luckett Road Alignment. The proposed alignment would devastate the golf course plan and eliminate the previously agreed upon development created by the Heritage Lakes Single Family District. Accordingly the proposed alignment negatively affects the ability to create the planned championship golf course and eliminates the previously agreed upon development plan. We would appreciate the above be considered if the project if the project moves forward. **(1)**

Response: Thank you for your comment. The LC DOT project team will take your comment into consideration.

Comment: After reviewing the new corridor I see the path crosses to the south of the Buckingham air field. It "dips" down to 22nd Street West and then turns northeast to 12th street. This path crosses a large number of residential properties and is the path I'm concerned about. I understand there are going to be a certain number of properties that will be affected by any new road project. However, it seems to me that any new project would take advantage of as many existing main corridors and "connect the dots" between them. The benefit to using existing corridors is that the county only needs to maintain one road and it displaces fewer residences than purchasing a new corridor. In my case, I'm interested in the east-west section of Sunshine Boulevard that is not being used and is nearly parallel with the new corridor. It seems to me that it would be more cost effective to use the existing corridor than to purchase nearly a mile of residential homes and properties to create a new corridor and have to maintain an additional road. I would think that even if the cost to use an existing corridor, even if it was equal to or slightly higher in cost than purchasing a new corridor, would be a reasonable alternative because it affects fewer residences. So, why isn't the east-west portion of Sunshine Boulevard being used? After all, the purpose of the road is to benefit the citizens of the county.

Response: The alternative using Sunshine Boulevard, coming directly east from the airport boundary is not feasible. To utilize Sunshine Boulevard the impacts to get to that area would be too great. This alignment was looked at initially. It was determined that impacts to the airport, Harns Marsh and the realignment of Sunshine Boulevard to the south would be cost prohibitive. In addition, to avoid Harns March the alignment would have to "dip south" and follow either side of the canal. Crossing the canal at such a "skew" or angle would greatly increase the cost of the bridge.

Date: January 31, 2008

Address: 3109 23rd Street West, Lehigh Acres, FL. 33971

Subject: Luckett Road & Sunshine Boulevard Corridor Extension Studies

Cella Molner & Associates, Inc.

I have concerns about the time line, the method of notification and the "Preferred Alignment" (new corridor).

I received notice of the public workshop on January 8, 2008 for the workshop scheduled on January 22, 2008. As a result of the short notice, 14 days, I was unable to alter my schedule to attend the meeting. I have talked with some of my neighbors and know I'm not the only one with scheduling conflicts and as a result could not attend.

The notice I received had the appearance of a flyer and could have been easily confused as junk mail. If there is going to be a new corridor that crosses someone's property I would think a certified letter would be in order not only to the residences in the direct path but residences that would be adversely affected by the noise and increased traffic in their area. There is something wrong with having to find out there is a road going through your property from your neighbors because the flyer was discarded as unimportant.

The "public comment information sheet" needs to be returned by February 5, 2008, 14 days from the meeting. I have neighbors that have not even heard there is going to be a new corridor across their property, much less know there is a comment sheet they could return. I'm sure if they had sufficient time to comment they would have.

After reviewing the new corridor I see the path crosses to the south of the Buckingham air field. It "dips" down to 22nd Street West and then turns northeast to 12th street. This path crosses a large number of residential properties and is the path I'm concerned about.

I understand there are going to be a certain number of properties that will be affected by any new road project. However, it seems to me that any new project would take advantage of as many existing main corridors and "connect the dots" between them. The benefit to using existing corridors is that the county only needs to maintain one road and it displaces fewer residences than purchasing a new corridor.

In my case, I'm interested in the east west section of Sunshine Blvd that is not being used and is nearly parallel with the new corridor. It seems to me that it would be more cost effective to use the existing corridor than to purchase nearly a mile of residential homes and properties to create a new corridor and have to maintain an additional road.

From the time I received the flyer to the time the letter must be returned is 28 days. Is that a reasonable amount of time for a new corridor that, in my opinion, displaces more residences than necessary? I would think that even if the cost to use an existing corridor, even if it was equal to or slightly higher in cost than purchasing a new corridor, would be a reasonable alternative because it affects fewer residences. So, why isn't the east west portion of Sunshine Blvd being used? After all, the purpose of the road is to benefit the citizens of the county.

Sincerely,

Ronald Leavitt

Subject: Luckett Road Extension

Ms Cella,

I'm writing because I will be unable to attend the workshop scheduled for later this month and have concerns about the notice I received for the Luckett Road extension.

I'm concerned about the area between Carl Avenue and Pine Avenue. The project changes from main corridor roadways and nearly vacant properties to mainly quarter acre residential properties. It is the large number of residences in this area, including mine, I'm concerned with.

After reviewing the proposed corridor I can't help but wonder why the proposed corridor doesn't include as many of the existing main corridors as possible.

It appears from the map the corridor could be altered to include more main roads and impact less residences by:

1) Connecting Buckingham Road to Sunset Road
2) Connect Sunset Road to Park Avenue and border the south side of the Buckingham airport
3) Connect Park Avenue to the Buckingham/ Lehigh Acres Boundary
4) Then east to Sunshine Boulevard.
5) Realign Sunshine Boulevard at 12th Street West

Attached is a map for your consideration

Please feel free to contact me at 472-2113, ext 124

Sincerely,

Ron Leavitt

Comments: I agree the Preferred Alignment coming down the FPL Easement and Linking to Buckingham Rd. This will be far less intrusive & disruptive to Buckingham then ~~other~~ previous proposed alignments. Also it should be less costly as personnel residences are not being purchased & ~~existing~~ a greater part of roadway is using Existing ROW easements for the road.

Subject: Luckett Road Extension

Just wanted to put my idea in for the Luckett Road Extension, as far as the alignment. It seems like you could somehow connect Homestead Rd together with Sunniland, through to 25th St W, then since it zigzags at Sunshine, follow that route East along 24th St West....

Just a thought....

(I live on that section of 24th St West and wouldn't mind being bought out. I also happen to know out of about 15 houses on that street there are only 6 lived in by the owners, the rest are either rentals, empty investment properties, or 2 others that the owners used to live in that they are trying to sell)

Respectfully,

Cheryl Barowski

Thanks for calling to answer my questions and for the picture. Unfortunately, I believe the plan very negatively impacts the property value. Because the access ramp is right there, then everyone in the area will drive down Christopher Ave. to get on the extension. This will markedly increase traffic on the avenue once the project is complete and make it an unattractive location for a home, I fear. So if comments for the January 22 meeting can be sent through you please make my disagreement with the plans known. Thanks very much. If there is another way I am supposed to register my dissatisfaction, please let me know.

Subject: Property in Lehigh

Hello,
I own 2206 Christopher Ave. in Lehigh Acres, which appears, by my reading of the information sent, to be dramatically affected by the planned Luckett Road Corridor Extension Study. I live in Chicago and cannot attend the open house on January 22. I am very concerned about the value of my property and whether I will be able to sell it if the extension prohibits building on the land. Could you please confirm whether my property would be affected and what my options are? Does the state intend to purchase land made unuseable by this extension. As you can imagine, I have a number of questions. I appreciate any information you can give me. Thank you.

Thanks, Michela. But I wanted my suggestion put with my other reservations about the road project. If rezoning were feasible, that would take the sting out from the many owners who could be hurt by this. I know the board would not act on it, but sometimes putting the idea into someone's head is the beginning of such a change. Do you happen to know Jim Mudd's email address? If not, I will call him. Thanks again.

Barbara, Luckett is a transportation project which has no effect on land use/zoning. Typically rezoning of property is handled on a per case basis through the Community Development Department – the property owner/developer would apply to rezone the property. You may want to contact Jim Mudd at 533-8180, to discuss whether any land use changes are being considered as part of the ongoing Lehigh planning study.

Hi Michela,
I just had another thought. If the board decides to go ahead with the project, would they consider zoning the 2200 block of Christopher avenue commercial--one block of boutique commercial would service the neighborhood as well as solve the problems of the owners. The traffic will already be heavy so its additional impact would be minimal. Thanks.

Subject: Luckett Road Extension Input

Dear Sir or Madam,

I was unable to attend the open house today regarding the Luckett Road extension, but I did want to voice my opinion regarding a burm along the canal next to 12th Street. I purchased a lot at the end of a dead end street butted up against a canal (on Plumosa on the north side of the canal). That was the most tranquil spot I could find in Lehigh Acres. The next thing I know I am going next to a major thoroughfare. This is going to make it much less desirable and will substantially lower the value of my property. I am asking that during the construction of this road, a substantial burm should be built on the south side of the canal between the canal and the road. I believe the county should do everything they can to lessen the impact to the nearby property owners. To me, this problem I am having is a result of poor planning long ago when the land was parceled out. I don't think a burm or some other sound/visual barrier is asking too much.

Thank you,
Mark Ricciardo

Comments: I have no problems or issues with the Luckett extension.

I need the traffic on the section of Buckingham between SR 80 & Cemetery to decrease.
We desperately need another way into Lehigh from SR 80 besides Joel Blvd.
Too many cars cut through Buckingham & Cemetery Rd to get to Lehigh.
You need to Reopen building the connection between SR 80 & Sunshine

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments:

(I) We like this proposed route.!!!

(II) We question why the road would be 6 lane exiting 75 and then become 8-Lane at Neal Rd. Why not 8-lane all the way?

(III) What is being done to Hwy 82 which is currently overcrowded?

(IV) By the time this route is completed (way, way down the line) will this still accommodate the then current traffic load?

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: Personally I do not agree with this route and project. I am unable to see the need in this new road and unfortunately it will turn our peaceful, quiet neighborhood into a congested area. We have children and families who walk and ride bikes, but would be unable to with a major roadway in our "front yard." This also will be devistating to our property values. Who is going to want to buy our house near such a highway? It's not safe for children and/or pets. Please reconsider this project and/or an alternative. Thank you for your time and consideration.

Comments: We are the owners of Lot # 24-44-26-08-00063.0020 at site address 2803 Gene Ave. North, Lehigh Acres, Fl. 33971 (Legal Description: Lehigh Acres Unit 8 Blk. 63 PB 15 PG 68 Lot 2). We have had this lot in our family for over 50 years. We have been trying to sell this lot for the past 2-3 years without success. We received a notice in March 2007 that our lot might be in the path of a proposed extension of Luckett Road. In June 2007, we attended the public meeting and discovered that the Luckett Road extension if approved, is going to run directly over our lot. Our understanding is that if we put our lot up for sale again and someone tries to buy it, they will discover that the property is flagged for a future road project, meaning that we will not be able to sell our lot for development.

Because of this we are willing to sell our lot to Lee County, Land Acquisition as soon as possible!! We will continue to monitor the progress of this project. If the Lee County Board of County Commissioners approves this project, please let us know when the County will purchase our property.

Sincerely,

Alice V. Runyan & Kathleen A. Runyan

Re: Luckett Road Extension – Proposed Alignment

Dear Kris:

Pursuant to the request during the most recent public workshop regarding the Luckett Road Corridor Extension Study, enclosed please find a copy of a letter that has been directed to Ms. Sarah Clarke to express our comments regarding the proposed alignment. If you have any questions, or require any further information please let us know.

Sincerely,

Charles J. Huether

Re: Luckett Road Extension

Dear Sarah:

I left you a voice mail today concerning the timing of our future meeting with 20/20 and the County DOT. I would like to formally state my position regarding the proposed alignment.

We intend to work with the appropriate county agencies in a good faith effort that will hopefully result in a successful sale to 20/20 or the DOT or both. We have submitted the affected property to 20/20 for their review and have also discussed the possible option with you regarding a combined effort with the Lee County DOT and 20/20 to accomplish a mutually favorable outcome in a timely manner.

If the above can not be accomplished we intend to proceed with our existing plan. The planning and existing permitting has evolved over the past five years on the property affected by the Luckett Road Alignment. The proposed alignment would devastate the golf course plan and eliminate the previously agreed upon development created by the Heritage Lakes Single Family District. Accordingly the proposed alignment negatively affects the ability to create the planned championship golf course and eliminates the previously agreed upon development plan. We would appreciate the above be considered if the project moves forward.

Thank you for your cooperation.

Sincerely,

Charles J. Huether

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: The final proposed route (alignment) is the best of all proposed because it impacts less infrastructure and utilizes existing roadways.

Although this is needed now it lacks forsight to wait 10 to 15 years to impliment. Remember the forward thinking of previous commissions that 6-laned Daniels Parkway in the early 1990s. It would be good to have such elected offricials today.

If when traveling west on 8-lane toward Neal road it changes to 6-lane on to I-75 at Luckett interchange, there will be a problem if something is not done to widen Buckingham road to Hwy 82. A lot of the traffic will want to go south from Neal Rd

Please use this comment sheet to express your opinions about this project. Drop your written comments into the comment box here tonight or mail them to the address on the back of this form.

Comments: WHY ARE YOU GOING TO WASTE GOOD MONEY FIXING WHAT ISN'T BROKEN - THE FIRST 1/3 OF THIS ROAD GOES THRU THE POLITICALLY PRIZED BUCKINGHAM AREA - THE LAST 1/3 OR SO IS ONLY 1 MILE NORTH OF LEE BLVD. IN A SPARSELY POPULATED AREA OF LEHIGH. WE HAVE 14TH - 12TH 10TH & 8TH THAT ARE GOOD CANDIDATES FOR WORSE ROADS.

ALL THIS COSTLY PROJECT IS GOING TO DO IS GET US TO I75 - WE CAN GET THERE NOW ON PALM BEACH BLVD.

THIS ROAD IS NOT NEEDED - ALL IT WILL DO IS GET US TO THE TRAFFIC JAM ON I75 - THEN TO THE TRAFFIC JAM ON COLONIAL OR MICK. FIX THE ROADS WEST OF I75 (COLONIAL - MICK LIKE) THAT WILL HELP MORE THAN THIS RD. THE TRAFFIC JAM IS NOT IN EASTERN LEHIGH IN CASE YOU HAVEN'T NOTICED - IT'S FAR WEST OF LEHIGH -

Comments: WE FEEL THAT THIS ROADWAY PROJECT IS NOT IN THE BEST INTERESTS OF ALL OF THE RESIDENTS OF LEHIGH ACRES. COLONIAL BLVD IS LARGE ENOUGH TO HANDLE TRAFFIC. THERE MUST BE A BETTER ROUTE OTHER THAN WHAT HAS BEEN RESEARCHED.
OUR LOT IS WITHIN 600 FT OF THE PROPOSED ROADWAY AND MY PROPERTY VALUE WILL NEVER INCREASE ON BARON STREET OFF OF CEDARTREE AND GUNNERY.
WE DONOT AGREE TO THIS PROPOSAL AND WILL ATTEND MEETINGS WHEN LEE COUNTY IS APPROACHED REGARDING APPROVAL AND FUNDING.
