ROADWATCH UPDATE

September 10, 2026, to September 16, 2026

1. Road Work/Maintenance/Improvement

Corkscrew Road Widening Project – Phase 2 Construction Project: The project constructs four, 11-foot-wide travel lanes from Bella Terra Boulevard to just east of Alico Road, and a new traffic signal at the Alico Road intersection. Also included are on-road bike lanes in each direction, a 10-foot-wide shared-use path on the south side of the road, a 6-foot sidewalk on the north side of the road, and street lighting. The 22-foot wide (varies) median includes various hardwood and palm trees as well as shrubs.

**Drivers, pedestrians, and bicyclists are urged to use extra caution
when traveling through the work zone.**

- During the nighttime/overnight hours of 7:00 PM on Sunday, September 13, 2026 to 5:00 AM on Monday, September 14, 2026, crews will be installing the new mast arms for the traffic signal at the Corkscrew Road and Alico Road intersection. Traffic will continue flowing through the intersection in one direction at a time, with some full stoppages when the mast arms are lifted over the travel lanes. Flaggers and police will be onsite to assist motorists.
- On Friday, September 11, during daytime hours, crews will be working in the Corkscrew Estates driveway installing lighting conduit. A flagger will be present to direct traffic.
- Crews will be grading the road base on the north side of Corkscrew Road, close to the existing road. Please follow all signage and directions of flaggers.
- Crews will be working on or near the sidewalk on the south side of Corkscrew Road to complete street lighting work and other items. Cones will be set up as necessary to redirect pedestrians.
- Crews will be installing drainage throughout the project area on Corkscrew Road and Alico Road. Motorists should expect trucks and equipment to be moving materials throughout the project.

- Motorists should drive with caution and expect intermittent daytime flagging as road crews are performing earthwork up to the shoulders of the road on Corkscrew Road and Alico Road, within the project limits. Please be aware that trucks may be entering and leaving the roadway.
- Crews will be installing utility conduits, light pole bases and light poles on the north side of Corkscrew Road from Wayside Lane to Alico Road.

The work activities above are scheduled to occur, however unforeseen underground conditions and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. Due to additional work required by Lee County Utilities, as well as delays in utility relocations by FPL and Lumen, the project completion is expected at the end of 2026. Project cost is approximately \$27 M. The contractor is Bergeron Land Development, Inc. For further questions, please visit the project website at <https://corkscrewroadwidening.com> or contact Jennifer Dorning by email at Jennifer.Dorning@atkinsrealis.com or by phone at (239) 338-7723.

Village of Estero Corkscrew Road Shared Use Path Project: This Village of Estero project constructs a 10-foot-wide asphalt pathway on the north side of Corkscrew Road from Ben Hill Griffin Parkway to Palermo Lake Court (eastern entrance of Grandezza), and 6-foot-wide concrete sidewalk from east of Palermo Lake Court that connects to the sidewalk that runs to Midnight Blue Court (Wild Blue Vista) built by Lee County's previous widening project. The 10-foot-wide asphalt pathway will also be constructed on the south side of Corkscrew Road from Ben Hill Griffin Parkway to Bella Terra Boulevard. Roadway and pathway lighting similar to those on Estero Parkway will be installed to complement the new facilities, along with a substantial amount of landscaping and irrigation which will add to the beautification of the Corkscrew Road corridor.

The sidewalk and pathway are active work zones and remain closed to pedestrians and bicyclists from Ben Hill Griffin Parkway to Midnight Blue Court/Bella Terra Boulevard.

- Motorists should expect lane closures from 8:00 AM to 3:30 PM for crews to install landscaping, upgrade sod to meet the Village of Estero's Corkscrew Road landscape plan, and to complete irrigation throughout the project.
- Crews have completed light pole installation; however lighting will not be operational until closer to project completion after all electrical is installed.
- *WORK BY UTILITY COMPANIES: Various utilities are relocating utilities throughout the project. This work may require daytime lane closures within the project area.*

The work activities above are scheduled to occur, however unforeseen underground conditions

and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. Estimated completion is early 2027. Project cost is approximately \$23 million, including \$4.6 million for landscaping and irrigation and \$4 million for lighting. For further questions, please contact Jennifer Dorning by email at Jennifer.Dorning@atkinsrealis.com or by phone at (239) 338-7723.

Ortiz Avenue Widening from S.R. 884 (Colonial Boulevard) to S.R. 82 (Dr. Martin Luther King, Jr. Boulevard): This project consists of widening of Ortiz Avenue from 2 lanes to 4 lanes and constructs a six-foot sidewalk on the east side of the road and a 10-foot paved trail on the west side of the road. An on-road bike lane on both sides of the road will also be included. New street lighting will be installed, and a grass median will separate traffic. No improvements will be made at the roundabout intersection with Hanson Street. The contractor will reconstruct the roadway with drainage improvements and stormwater management facilities. Work also includes installation of new water main and installation of new reclaimed water and sewer facilities for Lee County and the City of Fort Myers.

*Drivers, pedestrians, and bicyclists are urged to use extra caution
when traveling through the work zone.*

- Motorists are advised that exits from Colonial Center Drive, The Edison Apartments and Schofield Street are now Right Turn Only and must utilize the Hanson Street roundabout to access southbound Ortiz Avenue. Exits from the Calusa Nature Center have also switched to Right Turn Only onto Ortiz Avenue.
- Utility crews have installed a pedestrian detour on the east side of Ortiz Avenue, just north of Schofield Street. Pedestrians are advised to proceed with caution and follow signs and the direction of flaggers.
- Crews are reconstructing the Vistas at Eastwood Apartments entrance. Traffic will continue to be reduced to one lane in and one lane out but will intermittently be moved from the north side of the entrance to the south side of the entrance. Motorists are advised to proceed with caution and follow the detour signs.
- Crews are working on the new sidewalk on the west side of Ortiz Avenue, north of the roundabout. Pedestrians are advised that this area is an active construction zone and will remain closed until work has been completed.
- The existing pedestrian path between S.R. 82/Dr. Martin Luther King, Jr. Boulevard and the Vistas at Eastwood Apartments will be closed until late August for asphalt placement. Pedestrians are advised to follow detour signs directing them to the alternative route that utilizes Alessio Drive.

- The existing pedestrian path on the west side of Ortiz Avenue, south of the roundabout, is now closed for reconstruction. Pedestrians will be detoured onto the new sidewalk on the east side of Ortiz Avenue.
- The Contractor will be performing utility work north and south of the roundabout.
- Motorists should expect heavy truck traffic entering and exiting the project area north of the roundabout.
- The contractor is identifying existing utility locations throughout the project.
- The contractor is scheduled to survey the project during daytime hours.
- **LeeTran riders are advised of the following bus stop changes:**
 - The southbound stop just south of the Vistas at Eastwood Apartments entrance has been relocated to the north side of the entrance, next to the new alignment of the southbound traffic.
 - The temporary northbound bus stop near the Lee County Jail entrance remains near the newly constructed driveway, next to the new alignment of northbound traffic.
 - The northbound AND southbound stops just north of the Lee County Jail driveway and the northbound stop near RaceTrac are temporarily out of service.

The work activities above are scheduled to occur, however unforeseen underground conditions and weather may affect this schedule.

The work activities above are scheduled to occur, however unforeseen underground conditions and weather may affect this schedule.

Motorists are asked to drive with caution and watch for workers and construction vehicles entering and leaving the work zone. **Estimated completion is late 2026.** Project cost is approximately \$31 M. The contractor is OHLA USA. For further questions, please visit www.ortizavewidening.com or contact Jennifer Dorning by email at Jennifer.Dorning@atkinsrealis.com or by phone at (239) 338-7723.

Able Canal Pathway Project: The project constructs a new 12-foot-wide, 6-mile shared use pathway along the north side of Able Canal starting at the Harns Marsh access point next to 35th Street West and the Sailfish Canal and extending east to Joel Boulevard in Lehigh Acres. The purpose of the project is to facilitate accessible, non-motorized travel options for commuters and recreational users in the Able Canal corridor and within the Lehigh Acres community. Work includes an asphalt path with a pedestrian bridge, pavilions, landscaping and other amenities.

TRESPASSING INTO THE CONSTRUCTION SITE IS DANGEROUS AND ILLEGAL.

*Please be aware that the Lee County Sheriff's Office
is authorized to charge trespassers if found in the work zone.*

- Crews are working on embankment, earthwork and storm drain installation from 19th Street West to Connie Avenue North and Anne Avenue to Joel Boulevard.
- Crews are installing erosion control throughout the project.
- Flagging and staging activity should be expected at Lehigh Acres Park, but there will be no impact to park users during construction.

The work activities above are scheduled to occur, however unforeseen underground conditions and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. The project began in August 2025 with estimated completion in Fall 2027. Project cost is approximately \$10.2 M. The contractor is Pavement Maintenance, LLC. For further questions, please visit <https://www.leegov.com/parks> or contact Jennifer Dorning by email at Jennifer.Dorning@atkinsrealis.com or by phone at (239) 338-7723.

I-75 at Daniels Parkway (exit 131) Interchange Improvements: FDOT is reconstructing the I-75 at Daniels Parkway interchange. The interchange improvements include reconstruction of the Daniels Parkway Interchange (Exit 131) converting it to a Diverging Diamond Interchange (DDI) design, reconstruction of the I-75 ramps, construction of pedestrian and bicycle accommodations through the interchange, installation of new signals at the ramps, and resurfacing of Daniels Parkway through the project area.

The following activities are subject to change based on weather conditions and unforeseen underground conditions:

- Motorists should expect the **northbound I-75 on-ramp closed** during the nighttime/overnight hours of 9:00 PM to 6:00 AM on Wednesday night, September 16, 2026 and Thursday night, September 17, 2026. This is necessary for crews to complete striping, shift traffic from the existing ramp to the temporary ramp, and shift traffic on northbound I-75 slightly toward the median.
 - During the closure, motorists may continue west on Daniels Parkway, make a U-turn at the nearest traffic signal, and use the loop ramp from eastbound Daniels Parkway to enter northbound I-75.
- When necessary, motorists should anticipate lane closures on I-75 between 9:00 PM and 7:00 AM and on Daniels Parkway between 7:00 PM and 7:00 AM.
- Crews are working on earthwork, underground drainage, paving, barrier walls, and installation of permanent lighting.

- Crews are working on temporary ramp construction at the northbound I-75 on-ramp.
- Please note that the westbound lanes on Daniels Parkway are shifted slightly to the south, then back to the north. Traffic on the southbound I-75 off-ramp has also shifted to the east. Please pay attention to signs and pavement marking and drive with caution.
- Motorists are advised that the speed limit has been reduced in the project area. Please follow all posted signage.
- Pedestrian access has been shifted to the south side of Daniels Parkway. Please follow signs and proceed with caution in the work zone.
- Motorists should expect trucks and equipment to be moving materials throughout the project.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. The expected completion date is summer 2028. For further questions, please visit <https://www.swflroads.com/project/446296-2> or contact Michaela Zawodny by email at Michaela.Zawodny@dot.state.fl.us or by phone at (239) 410-8174.

Bell Boulevard Sidewalk from Sunrise Boulevard to Joel Boulevard: Lee County is constructing a 6-foot sidewalk on Bell Boulevard in Lehigh Acres from Sunrise Boulevard to Joel Boulevard. This project, when complete, will provide a continuous sidewalk connecting pedestrians from SR 82 to Joel Boulevard via Bell Boulevard. The project also includes a steel pedestrian bridge over Jim Canal, concrete driveway replacements, minor roadway reconstruction, paving, drainage improvements, and pedestrian safety upgrades. Construction is scheduled to begin in late March 2026, with completion anticipated in Fall 2026. Project cost is approximately \$1.5 million. The contractor is V&H Construction.

*Drivers, pedestrians, and bicyclists are urged to use extra caution
when traveling through the work zone.*

- Construction activity has increased on the north side of the project from Shadow Lakes Drive to Albemarle Circle for bridge construction.
- Expect intermittent lane closures in the area of the bridge.
- **Crews will be paving several Bell Boulevard intersections on Tuesday, September 8, 2026 and Wednesday, September 9, 2026 during the overnight hours from 7:00 PM to 6:00 AM. Motorists should expect road closures and detours at the following intersections:**
 - Bell Boulevard and Sunrise Boulevard
 - Bell Boulevard and Palmer Street
 - Bell Boulevard and Spaulding Street
 - Bell Boulevard and Sentinela Boulevard
 - Bell Boulevard and Porter Street East

- Bell Boulevard and Albemarle Circle
- **Crews will be paving the intersection of Bell Boulevard and Shadow Lakes Drive/Scenic Street on Tuesday, September 8, 2026 and Wednesday, September 9, 2026 during the overnight hours from 7:00 PM to 6:00 AM but motorists should not experience any detours.**
- Motorists should expect periodic flagging throughout the project.
- Expect single lane closures intermittently throughout the project area.
- Crews are pouring sidewalks and driveways throughout the project.
- Crews are installing and maintaining erosion control and traffic control devices throughout the project.
- The contractor is identifying existing utility locations throughout the project. Crews may be working close to the roadway. Motorists are asked to drive with caution.

The work activities above are scheduled to occur, however unforeseen underground conditions and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. For further questions, please visit www.leegov.com or contact Molly Schweers by email at Molly.Schweers@atkinsrealis.com or by phone at (239) 292-0497.

Estero Boulevard Hurricane Repairs (Estrellita Drive to Crescent Street) – Construction Project: This project includes repairs of damaged asphalt, curb and gutter, sidewalk, pavement, pedestrian handrail, school flashers, pedestrian signals, as well as the removal and replacement of the center drain brick pavers. The contractor will also replace ADA ramps and detectible warning surfaces.

North of Strandview Avenue to Bayview Avenue:

- Crews continue to remove and replace the center drain brick pavers on Estero Boulevard. No extended lane closures are expected for this work; however, left turns from side streets may be temporarily restricted. Please use caution as crews work close to the travel lanes.

Strandview Avenue to Sanders Drive

- Crews continue to remove and replace the center drain brick pavers on Estero Boulevard. No extended lane closures are expected for this work; however, left turns from side streets may be temporarily restricted. Please use caution as crews work close to the travel lanes.

Bay Road to Lovers Lane

- Crews are scheduled to remove and replace the center drain brick pavers on Estero Boulevard. No extended lane closures are expected for this work; however, left turns from side streets may be temporarily restricted. Please use caution as crews work close to the travel lanes.

Drivers, pedestrians, and bicyclists are urged to use extra caution when traveling through the work zone as workers and construction vehicles are entering and leaving the roadway. Estimated completion is fall 2027. Project cost is approximately \$9 M. The contractor is Wright Construction Group. For further questions, please contact Jennifer Dorning by email at Jennifer.Dorning@atkinsrealis.com or by phone at (239) 338-7723. For more information www.leegov.com.

Treeline Avenue Intersection Improvements from Jetport Loop to Heartwood Boulevard: This project consists of converting a northbound left-turn lane from Treeline Avenue onto Daniels Parkway into a thru lane, converting a northbound thru lane into a second northbound right turn lane, ADA improvements at both the Daniels Parkway/Treeline Avenue and the Treeline Avenue/Intercom Lane intersections, and overall signal improvements.

The following activities are subject to change based on weather conditions and unforeseen underground conditions:

- Crews will be working on erosion control and maintenance of traffic.
- Motorists should expect periodic lane closures on Treeline Avenue and Daniels Parkway when crews are working near the roadway. Please use caution and watch for workers and construction vehicles entering and leaving the roadway.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. The project begins in May 2026 with estimated completion in late 2026. Project cost is approximately \$3 million. The contractor is Ajax Paving. For further questions, please visit <https://www.leegov.com/> or contact Jennifer Dorning by email at Jennifer.Dorning@atkinsrealis.com or by phone at (239) 338-7723.

Quinn Dean Neighborhood Stormwater Improvements Project – Construction Project: The City of Bonita Springs is working on a stormwater improvements project that will enhance drainage in the area. The project includes upgrading the existing stormwater pipes and constructing two stormwater retention ponds. As part of this project, the Bonita Springs Utilities Department will also relocate water and sewer lines. All roadways will be restored once the utilities are complete. Drivers, pedestrians, and bicyclists are urged to use extra caution when traveling through the work zone.

- Motorists should expect intermittent lane closures, road closures with possible local traffic only permitted and flagging operations during daytime hours on the following streets:
 - Dean Street
 - Quinn Street
 - Saunders Avenue

- Pawley Avenue
- Chapman Avenue
- Mckenna Avenue
- Trucks and construction equipment will be entering and leaving the roadway; expect minor delays.

The work activities above are scheduled to occur during the duration of the project; however, unforeseen underground conditions and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. Project completion is expected in fall of 2027. For further questions, please contact AtkinsRealis by email at Brianna.Smith@AtkinsRealis.com or by phone at (239) 336-9842.

Tice Street Sidewalk and Watermain Replacement Project – Construction Project: This project includes replacement of existing water mains, installation of new potable water infrastructure, and construction of new ADA-compliant sidewalks along Tice Street and surrounding areas. Additional work includes driveway restoration, minor drainage improvements, and roadway restoration within the project limits. These improvements will enhance water system reliability and improve pedestrian safety and connectivity in the area. Drivers, pedestrians, and bicyclists are urged to use extra caution when traveling through the work zone.

- Crews will be working in the road right-of-way along Tice Street installing a gravity wall, curbing and sidewalks.
- Crews will begin installing sidewalks along Tice Street and Lynnedda Avenue near Tice Elementary School the week of August 31.
- Expect one lane of traffic along Tice Street closed in periodic locations from New York Drive to Lynnedda Avenue. Signs will indicate local traffic only and residents will be able to access their driveways.
- Lynnedda Avenue has been converted to a one-way street through the duration of the project. Motorists should use caution and follow detour signs while roadway configuration is in place.
- Crews will be installing new water main along Tice Street, including valves, fittings, hydrants, and service connections.
- Crews will be installing new drainage along Tice Street and Lynnedda Avenue.
- Crews will be performing excavation, trenching, and backfilling operations from Ortiz Avenue heading west to New York Drive.
- Crews will be constructing new concrete sidewalks, curb ramps, and ADA improvements from Ortiz Avenue heading west to New York Drive.

- Trucks and construction equipment will be entering and leaving the roadway; expect minor delays.
- Sidewalks may be closed in active work areas; pedestrians should follow posted detours from Ortiz Avenue heading west to New York Drive.

The work activities above are scheduled to occur during the duration of the project; however, unforeseen underground conditions and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. Project completion is expected in spring of 2027. Project cost is approximately \$3.9 M. For further questions, please contact AtkinsRealis by email at Molly.Schweers@atkinsrealis.com or by phone at (239) 292-0497.

Hancock Bridge Parkway Sidewalk and Watermain Replacement – Construction Project: This project includes the installation of a new sidewalk and watermain along the north side of Hancock Bridge Parkway between Hunters Boulevard and 1,000 feet east of Orange Grove Boulevard. When complete, this project will include construction of a 6-foot-wide sidewalk, installation of a new water main, new fire hydrants, minor road work with drainage improvements, irrigation control relocation and pedestrian safety upgrades. Construction is expected to begin in August 2026, with completion expected at the end of 2027. Project cost is approximately \$2.9 million. The contractor is Andrew Site Work, LLC. The project is a priority identified by the Lee County Bicycle/Pedestrian advisory committee.

Drivers, pedestrians, and bicyclists are urged to use extra caution when traveling through the work zone.

- Motorists are advised that crews are installing erosion control and traffic control devices throughout the project.
- Crews will be clearing and grubbing in preparation for upcoming utility work.
- Westbound motorists should expect the right turn lane into the Publix Supermarket at Orange Grove Center to be periodically closed throughout construction. Vehicles can continue to turn right from the through lane.

The work activities above are scheduled to occur, however unforeseen underground conditions and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway.
 ``

For further questions, please visit www.leegov.com or contact Molly Schweers by email at Molly.Schweers@atkinsrealis.com or by phone at (239) 292-0497.

Three Oaks Parkway Extension Project Phase 2 from Indian Paint Lane to Daniels Parkway: This project consists of extending Three Oaks Parkway north in the vicinity of Indian Paint Lane to Daniels Parkway and constructs 4 lanes with a 5-foot-wide bicycle lane. Phase 2 includes 6-foot-wide sidewalks on both sides of the roadway.

- Beginning Sunday, August 13, 2026 there will be lane closures from 8:30 PM to 5:00 AM on Daniels Parkway in both directions at Palomino Lane and Danport Boulevard for crews to install traffic signal poles.
- Southbound traffic is using the inside lane of the new southbound lanes of Three Oaks Parkway.
- There are right-in/right-out turning movements at Cody Lee Road and the new southern Publix Shopping Center entrance.
- Northbound traffic on Three Oaks Parkway remains on the current outside lane. Left turns are permitted into the new southern Publix Shopping Center entrance.
- Phase 1, the southern segment, will remain closed.
- Northbound Palomino Lane traffic is shifted to the west into the bi-directional left turn lane north of Jobe Road/Kings Crossing.
- Daniels Parkway is open to three lanes of traffic in each direction. The outside east and westbound lanes will remain closed for additional construction activities. However, the outside right-turn lanes will be open for use.

**Drivers, pedestrians, and bicyclists are urged to use extra caution
when traveling through the project.**

All work is subject to weather conditions.

Motorists are asked to drive with caution and watch for workers and construction vehicles entering and leaving the work zone. Estimated completion is mid-2028, however the project is ahead of schedule. Project cost is approximately \$39.7 M. The contractor is EHC Construction. For further questions, please visit www.ThreeOaksExtension.com or contact Kris Cella by email at Kcella@cella.cc or by phone at (239) 872-9447.

Orange River Boulevard Sidewalk and Utility Improvements Project: The project includes water main replacement, installation of new stormwater drainage systems, addition of a new 6-foot sidewalk and

curbs, and upgrading lighting and pedestrian signalization in the surrounding area of Orange River Boulevard from Palm Beach Boulevard (SR 80) to east of Lorraine Drive. These improvements will enhance water reliability and improve pedestrian and traffic safety.

**Drivers, pedestrians, and bicyclists are urged to use extra caution
when traveling through the work zone.**

- Intermittent flagging operations may be necessary throughout the project limits.
- A pedestrian detour is currently installed between Underwood Drive and Orange River Boulevard. Pedestrians are advised to proceed with caution and follow the detour signs.
- Crews will be pouring sidewalk in the Right of Way (ROW) on the east west portion of Orange River Boulevard.
- Crews will be grading swales, restoring roadway, installing sod, and placing asphalt throughout the project area.
- Crews will be working on drainage along the north side of Orange River Boulevard.

The work activities above are scheduled to occur; however, unforeseen underground conditions and weather may affect this schedule.

Please use caution and watch for workers and construction vehicles entering and leaving the roadway. Estimated completion is Fall 2026. Project cost is approximately \$3M. The contractor is Thompkins Contracting Inc. Work is expected to occur Monday through Friday from 7:00 AM to 7:00 PM; however, some night and weekend work may be necessary. For further questions, please contact Carolyn Usher by email info@OrangeRiverBlvdImprovementsProject.com or by phone at (239) 478-9152.

Striping Maintenance: Lee County DOT Traffic will be performing a moving operation with traffic delays on **September 10, 2026 to September 16, 2026** between the hours of **9:00 AM to 4:00 PM** (weather permitting) on the following roadways:

Summerlin Rd	
McGregor Blvd (<i>Frontage Rd</i>)	
Midpoint Bridge	
Gladiolus Dr (<i>Old Gladiolus Dr – S Tamiami Trl</i>)	

Intersection Markings Maintenance: Intermittent Lane closures and delays are possible **September 10, 2026 to September 16, 2026 between the hours of 9:00 AM to 4:00 PM** (weather permitting) on the following roadways:

Buckingham Rd	Beth Stacey Blvd
Ortiz Ave (SR 82 – Palm Beach Blvd)	
Jaguar Blvd	
23rd St SW	

Night work scheduled for Thursday September 10, 2026: LCDOT Traffic will be refreshing the pavement markings at various locations on Gladiolus Dr from Old Gladiolus Dr/Lakes Park to US 41. Work will take place between the hours of 8:00pm to 4:00am (weather permitting). Motorists are advised to use caution while traveling through the area as there will be lane closures along with workers and equipment present on the roadway. For additional information, please contact Randy Hart at DOTMarkings@leegov.com.

Burnt Store Road Full Depth Reclamation from NW Fourth Terrace to Gator Slough Canal: A full depth reclamation project on Burnt Store Road in the southbound lanes from NW Fourth Terrace to Gator Slough Canal is nearing completion. Full depth reclamation, paving, and temporary striping operations have been completed. Once the pavement is properly cured, then final thermoplastic striping will be applied. This work addressed storm-related deterioration and restored the roadway’s structural integrity. Final striping operations will be scheduled once cure time requirements are met. For further questions, please contact Katelyn Carmona by email at Katelyn.Carmona@exp.com or by phone at (239) 744-9192.

Pine Island Road Resurfacing from West of Matlacha Drawbridge to East of Little Pine Island Bridge: This project included standard milling and paving operations from west of the Matlacha Drawbridge to east of Little Pine Island Bridge. Once the pavement is properly cured, then final thermoplastic striping will be applied. For further questions, please contact Katelyn Carmona by email at Katelyn.Carmona@exp.com or by phone at (239) 744-9192.

Stringfellow Road and Iona Sidewalk Repairs. This project involves the removal and replacement of sidewalk panels along Stringfellow Road and within the Iona area where cracking and concrete deterioration has occurred.

- Crews will continue repairs along Stringfellow Road.

For the duration of this project, work will take place Monday through Saturday between the hours of 7:00

..

AM and 7:00 PM pending weather or unforeseen circumstances. There will be intermittent lane closures and sidewalk detours as a part of this project. Motorists and pedestrians are asked to use caution and follow posted signage while traveling through the work zone. Construction is anticipated to be completed by February 2027, weather permitting. For further questions, please contact Katelyn Carmona by email at Katelyn.Carmona@exp.com or by phone at (239) 744-9192.

Burnt Store Road Safety Improvements: This project consists of safety improvements along Burnt Store Road from Delilah Drive to Vincent Avenue. Work consists of adding 4-foot-wide paved shoulders on both sides of the road, new right and left turn lanes at Caloosa Parkway, rumble strips on the edge of pavement and center lines and required guardrail, roadway signs and pavement markings. Prime contractor is Ajax Paving Industries of Florida, LLC. The estimated completion date is winter 2026.

Daytime crews will continue installation of permanent roadway signs. During nighttime operation, the contractor will perform thermoplastic pavement marking and raised pavement marker (RPM) installation. Motorists should expect flagging operations and intermittent lane closures while this work is underway. Please use caution when traveling through the work zone and follow directions from flaggers. Work is weather permitting. Crews will also perform project-wide punch list work in preparation for project completion, including final signing and pavement marking adjustments, cleanup, and miscellaneous corrective work throughout the project limits. Drivers, pedestrians, and bicyclists are urged to use extra caution when traveling through the work zone. The posted speed limit within the work zone remains reduced to 50 mph. All scheduled work is weather permitting and subject to change. For additional information, please contact Alesia Hatsitski at ahatsitski@aimengr.com or (239) 332-4569.

5019 Lee Boulevard – Lehigh (RES2025-02426 & DRV2025-01926): ONX Lehigh Acres LLC will be performing roadway and sidewalk improvements beginning **Friday, June 5, 2026, and continuing through November 6, 2026**. Asphalt pavement, concrete sidewalk, concrete curbing, and drainage improvements will be performed. The outside (right) lane of eastbound traffic on Lee Boulevard just after Main Street will be subject to lane closures, as will one of two left turn lanes from the westbound portion of Main Street turning south onto Lee Boulevard. Periodic lane closures for eastbound and westbound lanes will occur between the hours of **7:00 PM and 6:00 AM** on weekdays. For further information, please contact Justin Howell at JHowell@ellitepermits.com. Traffic Control Products of Florida will provide maintenance of traffic services (239) 334-8888.

15220 Treeline Avenue S. – Fort Myers (ROW2025-01627): Pavement Maintenance, LLC. will be performing roadway and turn lane **improvements beginning November 24, 2025, and continuing through September 30, 2026.** Improvements include baserock, asphalt pavement, drainage improvements, concrete sidewalk and concrete curb. Installation of a new northbound and south bound turn lane to access 152200 Treeline Avenue S. Only one turn lane will be worked at a time. Only one lane will be close at a time as needed. Based on the calendar days, this work will be performed at night from **7:00 PM to 6:00 AM**, when we have to close the lanes. For additional information, please contact Juan Gomez at jgomez@pmioffl.com or (239) 464-9767.

Sanibel Toll Facility: Starting **Monday, August 3, 2026, and ending on September 25, 2026**, there will be intermittent nightly lane closures. Lee County DOT will be performing lane maintenance through the toll plaza. Intermittent lane closures can be expected from **8:00 PM to 6:00 AM**. Please contact Rob Radford at (239) 229-5980, if you should have any questions.

Midpoint Toll Facility: Starting **Monday, March 2, 2026, and ending on October 30, 2026**, there will be intermittent nightly lane closures. Lee County DOT will be performing lane maintenance through the toll plaza. Intermittent lane closures can be expected starting at **8:00 PM to 6:00 AM**. Please contact Rob Radford at (239) 229-5980, if you should have any questions.

Cape Toll Facility: Starting **Monday, March 16, 2026, and ending on October 30, 2026**, there will be intermittent nightly lane closures. Lee County DOT will be performing lane maintenance through the toll plaza. Intermittent lane closures can be expected starting at **8:00 PM to 6:00 AM**. Please contact Rob Radford at (239) 229-5980, if you should have any questions.

LCDOT along with their contractor Coastal Concrete, will be installing new sidewalks, street lighting and pedestrian crosswalks along **Alico Road westbound between Quaker Lane and Michael G. Ripp Parkway**. ACME barricades will be setting up M.O.T starting **March 9, 2026, with work following on March 10, 2026. Project is to last up to 6 months, weather permitting.** Expect single lane closures heading westbound at times. Please use caution when driving.
