I hereby direct that the existing posted 35 MPH Speed Limit from Del Prado Boulevard to a point approximately 800 feet east of Del Prado Boulevard be extended to a point 1,120 feet east of SE 17th Place

Initiated by: Stephen M. Jansen, P.E., P.T.O.E.

Recommended by: Stephen M. Jansen, P.E., P.T.O.E.

Studies on file: The current posted speed on Cape Coral Parkway between Del Prado Boulevard and a point about 800 feet east is 35 MPH, with a 45 MPH Speed Zone in place to the east towards the Bridge. Based on the changes in land use to a more urban type with higher densities and increased side-street/driveway turning movements, the 45 MPH Speed Limit in the 1,500-foot section to the east of the existing 35 MPH Zone is recommended to be lowered. The recommended change will provide for a 35 MPH Zone from Del Prado Boulevard to a point approximately 2,300 feet east of Del Prado Boulevard.
