Pre-existing Conditions Exclusion	On effective date: Waived
	After effective date: Waived

For members age 19 or over this plan imposes a pre-existing condition exclusion, which may be waived in some circumstances and may not be applicable to you. A pre-existing condition exclusion means that if you have a medical condition before coming to this plan, you may have to wait a certain period of time before the plan will provide coverage for that condition. This exclusion applies only to conditions for which medical advice, diagnosis, care, or treatment was recommended or received or for which the individual took prescribed drugs within 90 days.Generally, this period ends the day before your coverage becomes effective. However, if you were in a waiting period for coverage, 90 days ends on the day before the waiting period begins. The exclusion period, if applicable, may last up to 365 days from your first day of coverage, or, if you were in a waiting period, from the first day of your waiting period. If you had prior creditable coverage within 90 days immediately before the date you enrolled under this plan, then the pre-existing conditions exclusion in your plan, if any, will be waived.

If you had no prior creditable coverage within the 90 days prior to your enrollment date (either because you had no prior coverage or because there was more than a 90 day gap from the date your prior coverage terminated to your enrollment date), we will apply your plan's pre-existing conditions exclusion. In order to reduce or possibly eliminate your exclusion period based on your creditable coverage, you should provide us a copy of any certificates of creditable coverage you have.Please contact Aetna Member Services at 1-888-982-3862 if you need assistance in obtaining a certificate of creditable coverage from your prior carrier or if you have any questions on the information noted above. The pre-existing condition exclusion does not apply to pregnancy nor to a child who is enrolled in the plan within 31 days of birth, adoption, or placement for adoption. Note: For late enrollees, coverage will be delayed until the plan's next open enrollment, and the pre-existing condition exclusion will be applied from the individual's effective date of coverage.

This plan does not cover all health care expenses and includes exclusions and limitations. Members should refer to their plan documents to determine which health care services are covered and to what extent. The following is a partial list of services and supplies that are generally not covered. However, your plan documents may contain exceptions to this list based on state mandates or the plan design or rider(s) purchased by your employer.

Some benefits are subject to limitations or visit maximums. Certain services require precertification, or prior approval of coverage. Failure to precertify for these services may lead to substantially reduced benefits or denial of coverage. Some of the benefits requiring precertification may include, but are not limited to, inpatient hospital, inpatient mental health, inpatient skilled nursing, outpatient surgery, substance abuse (detoxification, inpatient and outpatient rehabilitation). When the Member's preferred provider is coordinating care, the preferred provider will obtain the precertification. When the member utilizes a non-preferred provider, Member must obtain the precertification. Precertification requirements may vary. Depending on the plan selected, new prescription drugs not yet reviewed by our medication review committee are either available under plans with an open formulary or excluded from coverage unless a medical exception is obtained under plans that use a closed formulary.

They may also be subject to precertification or step-therapy. Non-prescription drugs and drugs in the Limitations and Exclusions section of the plan documents (received after open enrollment) are not covered, and medical exceptions are not available for them.
