

The Affordable Care Act Patient Protection Disclosure

Primary Care Provider Designation

The Lee County BoCC health plan allows the designation of a primary care provider. You have the right to designate any primary care provider who participates in our network and who is available to accept you or your family members. For information on how to select a primary care provider, or for a list of the participating primary care providers, please visit Aetna's website at <http://www.aetna.com> or contact the Aetna Member Services number on your Aetna medical identification card.

For children, you may designate a pediatrician as the primary care provider.

You do not need prior authorization from Aetna or from any other person (including a primary care provider) in order to obtain access to obstetrical or gynecological care from a health care professional in our network who specializes in obstetrics or gynecology. The health care professional, however, may be required to comply with certain procedures, including obtaining prior authorization for certain services, following a pre-approved treatment plan, or procedures for making referrals. For a list of participating health care professionals who specialize in obstetrics or gynecology, please visit Aetna's website at <http://www.aetna.com> or contact the Aetna Member Services number on your Aetna medical identification card.

The above disclosure is required under the Health Care Reform Act. Lee County's group health plan is already compliant with the following reforms.
