

SOME RULES FOR USING LEETRAN'S BIKE RACKS

The driver is not allowed to help load or unload a bike.

The rack is designed for either two or three bikes only. If the rack is full, wait for the next bus.

Motorized bikes of any kind are not allowed.

Bikes with child seats, large carriers, or side baskets, or any alterations that impair the drivers view are not permitted.

Bikes can be loaded and unloaded only at designated bus stops.

Signal to the driver when you finish unloading the bike.

Thank you for following these guidelines.

LeeTran is pleased to provide bicycle racks. Bike racks are for the convenience of bike riders who use them at their own risk. LeeTran is not responsible for damage to bikes or injury that may occur as a result of their use.

BIKE 'N' BUS

ATTENTION, CYCLISTS!

With you in mind, LeeTran has equipped all buses with easy-to-use bicycle racks to keep you moving around Lee County, free and easy! By combining wheel power, you'll go farther, faster, while helping to shape up the environment as well as yourself. And your bus fare is the same. Each rack holds two or three bikes that never touch each other or the bus. They can easily accommodate most wheel and frame sizes, including kids' bikes with 20" or larger wheels.

Keep this brochure as a handy guide for your Bike 'n' Bus travels. It shows you the simple steps to load and unload your bike safely. Also, please be very familiar with the guidelines and safety practices designed to help you fully enjoy your rides!

LeeTran is pleased to provide bicycle racks on all buses. Now you can ride your bike AND take the bus when you go to work, school, shopping, exploring, or wherever life takes you!

These rules and helpful tips have been designed with your safety in mind. Your "Bike 'n' Bus" combination trip should be hassle-free and enjoyable. Enjoy your ride and thank you for choosing LeeTran.

BIKE 'N' BUS

Loading Your Bike

When the bus arrives, tell the driver you'll be loading your bike. Load from in front of the bus - **DO NOT** step into oncoming traffic to load your bike.

Hold your bike with one hand. With the other hand, squeeze the handle on the bike rack to release the latch.

Then fold the bike rack down.

Lift your bike onto the rack, fitting the wheels into the proper wheel slots. Each wheel slot is clearly labeled for the front and rear wheel.

Lift the support arm up and over the front tire. Once loaded, the bike is held firmly in place.

Board the bus and enjoy the ride! Choose a seat near the front of the bus to keep an eye on your bike. Don't forget to pick up your bike at the end of your ride!

Unloading Your Bike

As you approach your stop, tell the driver that you will be unloading your bike. Use the front door to exit the bus.

Unload your bike from the front of the bus. Watch for oncoming traffic.

Raise the support arm off the tire. The support arm automatically folds down to a secure position. Lift your bike out of the bike rack.

If there are no bikes remaining on the rack and no one else is waiting to load a bike, fold up the bike rack; it will automatically lock in place.

Step safely away from the bus. *Thank you for choosing LeeTran!*
