

Pine Lake Preserve

Welcome!

The preserve does not currently have designated hiking trails, but there is a network of firebreaks totaling over 3.5 miles available for pedestrian use.

These firebreaks are seasonally mowed and disked, may feature soft sand or uneven surfaces, and may become flooded after heavy rain events.

Hiking these firebreaks may require intermediate skill.

Public access to the preserve is provided through two pedestrian gates located: approximately 200 feet southeast of the YMCA parking lot entrance, and the shared boundary with the Bonita Nature Place.

YMCA location: 27200 Kent Road, Bonita Springs
Bonita Nature Place: 27601 Kent Road, Bonita Springs

Public parking is available at both of these locations.

This map is not a survey; it has been prepared by land management staff for education and interpretive purposes.
