**MyPlate 4 Step Plan for the Holidays**

The holidays are here! With all the bustle and activity that accompanies this season, there is a good chance that it will be harder to stick to regular meal and exercise patterns. The good news is that, if you can remember MyPlate’s most important messages, you will still be able to eat healthy while enjoying the holiday season.

Here is how to adopt MyPlate’s message about fruits and vegetables during the crazy holiday rush.

<td>No matter where you eat, using MyPlate’s methods of portion control can help you reduce the number of calories you consume. Make MyPlate at home, when you eat out, and when you are a guest somewhere else. Instead of having a big bowl of pasta and meatballs for dinner, try adding fresh veggies like spinach or broccoli to replace half the meatballs!</td>

<td>Eat a healthful snack plate that is filled with fruits and veggies before you go to a party.</td>
<td>Let’s be honest, we realize that it is not always to eat MyPlate at someone else’s home or the office potluck. So here is one more strategy to try. Eat your fruits and veggies before you go out. That way when you do go out, you can have a smaller serving of what your host is offering and still stay healthy.</td>
