4. QUESTIONS/ANSWER

1.	In the BID it states that the County shall retain ownership of the embroidery tape and all silk screening at the conclusion of the contract. Does that mean that the County or Department will be providing the artwork for silk screening and DST file for embroidery?
----	--

Answer	Lee County will provide DST files for embroidery and artwork for silk screening.
2.	It also states that Special orders shall be delivered in 30 days. What is considered a Special Order and Standard Stock ? Read's policy is a 14 day delivery time for all NEW HIRES and 30 days for all other orders.
Answer	Lee County special orders will consist of any item not listed on bid tab or within the solicitation and associated contract documents. Lee County special orders shall be delivered within thirty (30) days after receipt of order. All items listed on the bid tab and within the solicitation and associated contracted documents shall be considered standard stock items and shall be delivered within fourteen (14) days after receipt of order.
3.	References -Do you need all Local or can it be any References that do business with our company?
Answer	The three reference surveys that will be requested from the apparent low Bidder, prior to award, are not required to be local references. References may be submitted at time of bid submission but are not required.
4.	I have attached spec sheets for what we would like to be considered for Alternates if approved. Do we need to supply samples also at the time of BID for review?
Answer	Lee County has reviewed submitted specifications for alternate items and does not approve alternate items at this time.
5.	In section 3.1 Can the winning bidder partner with a local tailor to accommodate measuring and fitting personnel?
Answer	The option to partner with a local tailor is at the Vendor's discretion. Lee County will not be responsible for the cost of measuring or fitting personnel as this cost shall be included in the submitted bid price. Partnership with additional companies to provide services under this contract would constitute use of a subcontractor. As such third party service providers to the prime Vendor shall be listed on form 6 Sub-Contractor List.
6.	In section 3.2 can we get a better definition of expectations for "all alterations, attachments, hemming and sewing"? We understand the patch attachments and hemming but does alterations go beyond hemming and screen printing? Additionally, what does "sewing" mean to the department and what are their expectations?
Answer	Alteration shall be defined as the act or process of altering an item for a proper fit as required. Alterations may include but not be limited to additional length added to or removed from shirts, shorts, jackets and/or pants, zipper added to shirt and/or jacket, and patch attachments.

7.	In section 3.5 we would request an addendum to show that pricing can be broken down according to over sizes rather than one price for all sizes. This will be a benefit to the department as well in the long run because having one price for all increases the average cost for sizes small thru 2x. We feel it would help make your annual expenditure lower as the majority of sizes fall in standard alpha sizes below 3x.
Answer	Please refer to the updated Bid Schedule form that has been loaded to the project download documents section on the Lee County Procurement Website.
