Solicitation No.: B240003BAG

Solicitation Name: Sunniland / Nine Mile Run Drainage Improvement Project

Subject: Addendum Number 2

The following represents clarification, additions, deletions, and/or modifications to the above referenced bid. This addendum shall hereafter be regarded as part of the solicitation. Items not referenced herein remain unchanged, including the response date. Words, phrases or sentences with a strikethrough represent deletions to the original solicitation. Underlined words and bolded, phrases or sentences represent additions to the original solicitation.

1. QUESTIONS/ANSWERS

1.	Does the clearing and grubbing vegetative debris have to be moved off site or can it be stockpiled in the laydown area?
Answer	Clearing and grubbing vegetative debris will need to be Moved off site.
2.	It is our understanding that all the earthen spoil from the existing canal can be stockpiled in the laydown area. Please confirm.
Answer	This is correct.
3.	As the result of the clearing operation, the contractor is requesting to leave mulch debris on top of banks. Is that acceptable?
Answer	No. Per the recorded easement, all brush and refuse resulting from the project clearing shall be disposed of. If timber is removed in connection with project clearing, all proceeds derived from the sale of such timber shall accrue to the Board of Trustees of The Internal Improvement Trust Fund of the State of Florida.
4.	The staging area clearing work which equates to approximately 14 acres, question what SOV bid item should that work be associated with?
Answer	No clearing is proposed in the staging area.
5.	Concerning overall site access for the south canal work.
Answer	Heavy equipment should be unloaded at the entrance to Buckingham Trails Preserve, then driven to the project site via the access route provided. There may be circumstances where it makes sense to mobilize/demobilize thru FGCU property, which must be coordinated and approved by the school.
6.	In refence to question 21 of the addenda, can the engineer confirm that this is the only access point to the south location? Is there a reason access cannot be granted from FGCU Buckingham campus? Traversing equipment and trucks on a sandy trail is not ideal and will result in having to construct a temporary path for that distance.

Answer	Heavy equipment should be unloaded at the entrance to Buckingham Trails Preserve, then driven to the project site via the access route provided. There may be circumstances where it makes sense to mobilize/demobilize thru FGCU property, which must be coordinated and approved by the school.
--------	---

BIDDER/PROPOSER IS ADVISED, YOU ARE REQUIRED TO ACKNOWLEDGE RECEIPT OF THIS ADDENDUM WHEN SUBMITTING A BID/PROPOSAL. FAILURE TO COMPLY WITH THIS REQUIREMENT MAY RESULT IN THE BIDDER/PROPOSER BEING CONSIDERED NON-RESPONSIVE.

ALL OTHER TERMS AND CONDITIONS OF THE SOLICITATION DOCUMENTS ARE AND SHALL REMAIN THE SAME.
